Understood, we await CDC's revisions and concurrence from ADHS prior to any changes in our infectious disease protocols. Thank you all for the update.

Cc: Grant Phillips <gphillips@azadc.gov>

Gentlemen,

Attached are the recommendations from ADHS based on their assessment at Perryville. The following statement from the ADHS report addresses the question that was brought up by Frank recently:

Infection control for inmates

- Add signage promoting frequent hand hygiene that is visible to inmates in living quarters as well as in common areas, in addition to the entrance.
- CDC recommends that if masks or respirators are not worn outdoors, ensure that physical distancing is maintained.

Based on this, I believe that it is reasonable to remove the mask requirement for inmates and staff when in outdoor areas and social distancing is in place. In addition, I believe that instituting outdoor visitation is reasonable.

As discussed with ADHS, the intention was not to have them do onsite visits across the state, but to utilize the recommendations from Perryville for all of the state prisons.

Also, updated CDC recommendations for jails and prisons are anticipated in the near future. A Webinar by CDC and NCCHC was scheduled for 4/21/22, but has been postponed. The following statement gives a general timeline for the release of the new CDC guidelines.

Webinar POSTPONED
CDC Update on COVID-19 in Corrections

Dear Grant,

The CDC webinar on new guidance for COVID-19 in corrections has been postponed into early May while the guidelines are being finalized.

We are sorry for the inconvenience. We will let you know as soon as a new date is set.

Thank you for your interest in this critical topic.

NCCHC Education Dept.

Let me know if you have any questions.

Sincerely,
Grant

Thank you Kent. From the beginning of my career as a Correctional Officer to my time as a Warden, I have spent every day of at least 30 out of the last 35 years carrying and depending on a radio to communicate and direct resources in emergencies. I understand and appreciate how crucial they are for our effectiveness and safety and am very grateful we received the resources to replace them this year.

As for ADCRR infectious disease precautions to include masks, we are working closely with both the National Center for Disease Control and our own Arizona Department of Health Services to monitor the ongoing threat and determine the most effective methods to control infectious disease in prisons and jails which comprise a large swath of congregant care settings. Although community cases are on the decline at the moment, both of these healthcare resources have not yet altered the posture for our congregant care environment. When the moment arrives, we will immediately provide this information. Until then, we must continue to do all we can to protect those in our custody and care. Thank you for all that you do each day to make this a reality. Take care and stay safe. -ds

Hello,

I wanted to thank you for getting us new radios. It's a huge improvement over the old ones I have been using with the department over the last 10 years. I am glad to have them.

Now for the other item, masks. Now that Arizona and a number of other states have ended the mandate, can ADOCRR also end this mandate. I would highly appreciate it. Or if you know when this might be coming to an end, or, make it to where you can wear a mask if you want for both staff and inmates.

Respectfully,

Subject: Updated CDC guidance for COVID-19 in corrections
To: <CDC-DDIDOD-CORR-DETEN-PARTNERS@listserv.cdc.gov>

Corrections Partners:

The CDC Interim Guidance on Management of COVID-19 in Correctional and Detention Facilities has been updated. The updated document can be found here: [Guidance on Management of Coronavirus Disease 2019 \(COVID-19\) in Correctional and Detention Facilities | CDC](#)

The primary changes from previous versions are as follows:

- Consolidates all previous CDC guidance documents for corrections into a single document:
 - Interim Guidance on Management of COVID-19 in Correctional and Detention Facilities
 - Interim Guidance for SARS-CoV-2 Testing in Correctional and Detention Facilities
 - Recommendations for Quarantine Duration in Correctional and Detention Facilities
- Includes a section on considerations for isolation and quarantine duration for staff and residents during crisis-level operations.
- Reduces recommended quarantine duration during *routine* operations from 14 days to 10 days, to balance risk of transmission with operational needs.
- Recommends post-exposure quarantine for *all* staff and residents who have been exposed to someone with COVID-19, regardless of vaccination status.
- Updates language on vaccination status to account for booster doses and additional doses for people who are eligible for them.
- Updates recommendations on use of PPE, masks, and respirators in accordance with updated CDC guidance.

Please feel free to reach out with questions, and thank you to all who provided input during this process.

Subject: Re: [REDACTED]
Date: Tuesday, January 25, 2022 8:21:09 PM

Good afternoon Mr Shinn

Fully vaccinated asymptomatic inmates who agreed to be tested for COVID, and have subsequently received positive results, have all been moved from quarantine and SEGREGATED TOGETHER LOCKED DOWN. As they are asymptomatic there is no treatment.

[REDACTED] is fully vaccinated, tested and, is asymptomatic, told he will be moved if positive, and WILL NOT HAVE LEGAL ACCESS. However, hundreds of actually sick inmates with symptoms, and who refused testing, have not been segregated. If anything, those inmates, not fully vaccinated and sick, or fully vaccinated and sick, should be segregated. This is because sick inmates need treatment not inmates who are asymptomatic. Furthermore, segregating and denying legal access, when it is clear, courts have refused to recognize a COVID exception to court deadlines, needs to be examined. If you believe segregation of positives in groups is proper, that is for the courts to decide, but I ask appropriate action be taken to ensure legal access. I have contacted the Attorney General and counsel. Your assistance in this matter will be highly appreciated.

Kind regards

Response to Browning issues sent to middle ground.

----- Forwarded message -----

From: **James Kimble** <jkimble@azadc.gov>
Date: Wed, Jan 19, 2022 at 8:17 AM
Subject: Suggested Response
To: Lance Hetmer <lhetmer@azadc.gov>

This will serve as a formal response to your January 18, 2022 email sent to Director Shinn. I am responding to each of the issues identified in your correspondence. The Browning Unit administration was contacted and provided the following in response to the three areas of concern.

Browning unit has recently experienced an increase in the number of active COVID cases amongst the inmate population and the assigned staff. Mitigation efforts were put into place on Wednesday, January 11, 2021, to address and make up showers for inmates who may not have been provided the opportunity earlier in the week. In order to accomplish this, the unit administration authorized the cancellation of in person programs and recreation in the large outdoor enclosures. This permitted the unit to reallocate staffing resources to perform "chute recreation" and showers throughout the unit. The inmates assigned within the George cluster Pods 1-6 were offered the opportunity to shower on the following dates January 10, 11, 14, 16, and 17, 2022.

In an effort to reduce the spread of the COVID virus the ADCRR continues to cohort inmates who test positive with other positive inmates. The non symptomatic or non-positive inmates are housed separately and monitored by not only security personnel, but our contracted medical vendor performs daily rounds through all of the respective areas. Staff assigned to work in areas which house positive inmates are provided and required to wear personal protective gear during their duty hours, i.e. N95 masks, goggles and full body disposable cloth gowns.

Hand soap is available and provided to the inmate population upon request. Security personnel provide cleaning supplies to the inmate population on an as needed basis as well as per the unit sanitation schedule. With regards to the Browning unit, the housing unit staff are provided carts equipped with sanitation supplies. The staff take these items into each of the respective pods and offer the assigned inmates the opportunity to clean their housing area per the unit sanitation schedule.

Maintenance records indicate two work separate orders were submitted for cells ■ and ■ in the George cluster on January 14, 2022 (no power) and January 16, 2022 (no hot water). Due to the time of the submission, and holiday weekend maintenance received the work orders on their first day back at work Tuesday, January 18, 2022. The Browning Unit administration has provided written instructions to Supervisors outlining the expectations and requirements to rehouse inmates in the event of a mechanical failure which may affect the conditions of confinement. Please note all repairs were completed to the respective cells on Tuesday, January 18, 2022.

I trust this is responsive to your inquiry. If you have any additional questions or need clarification please feel free to contact me.

To: Middle Ground Prison Reform <middlegroundprisonreform@msn.com>
Subject: Redacted

Middle Ground:

Here is the information (Redacted) has sent to me. Thank you for anything you can do to help.

(1). Regarding showers, myself and nine other inmates in my pod [REDACTED]-pod [REDACTED] did not get a shower from Friday January 7th, 2022 to January 14th, 2022. We requested our showers especially on assigned days and every 72hours when its mandatory we receive a shower, by asking the assigned floor officer to call a Sargent to come speak to us but nothing, just an excuse given, the failure to give us showers was justified on DOC's end by simply stating they are short staffed, then again January 16th 2022 mine and four other inmates shower day – we were denied showers again, under the excuse of short staff, another 72hours passed.

(2). On January 11th,2022 my pod [REDACTED]-pod [REDACTED] was placed under covid isolation for 2weeks due to us ten inmates being tested. Dr. "Stewart" comes into the pod to talk with us regarding covid and at that time we asked him regarding the outbreak here at Browning unit and what's being done, and how many inmates are positive, he states on record there's around 60 positive covid cases here and not recorded due to not being tested it is well over 100. There's nothing being done about this, DOC has 15 active covid pods here at Browning unit, there's no protocol nor safety measures for inmates yet alone the officers. It is obvious the officers spread covid and continue to do so every minute. Example: the same floor officer working the pods including mine is the same officer passing dinner trays, using the exact same handcuffs used on positive covid inmates and non positive inmates without any disinfectant spray or anything type of sanitizing them between uses; , some officers and CO3's aren't even wearing mass; , pod security cameras will prove all claims. We as inmates were issued face masks in January 2021 and they're some cheap made; after washing them twice the straps tear and DOC has yet to replace or issuse new masks. We've recently asked when we became positive and still to date no information. We don't receive any hand soap, disinfectant, cleaning chemicals or anything to protect the spread of covid. They continue to use the excuse that they are short-staffed and "no one wants to work" to justify violating our rights.

(3). My cell and with two other cells haven't had any running hot water in 3 weeks now and we continue to ask the floor officer to put a maintenance work order and even call maintenance but its no priority to them so we've been without hot water. Their records should show which cells are involved with no hot water. Since the positive results of this covid I attempted numerous times to have the issues addressed especially when not receiving showers, because being sick and having to attempt to wash up in my cell in cold water makes my sickness worse, but to the officers its not their problem. Furthermore, my my ce I security light has been burnt out for 3 weeks and continues to be burnt out even when its a security issue, Again, I have reported it but it just doesn't get fixed.

CONTRACT INFORMATION:

CONTRACT NUMBER: CTR041835/ADOC18-216360 VENDOR NAME: Centurion

Describe performance (positive or negative), be accurate, complete and factual. If performance is regarding late shipment, please attach a copy of the purchase order showing the PO number, date order was confirmed and the date product should have been delivered for our files. Without a copy of the purchase order, your vendor performance report will be returned to you.

PLEASE LIST THE ITEM NUMBER(S) AND ITEM NAME(S) AS SHOWN ON BID AWARD WITH YOUR PERFORMANCE REPORT: (Attach Additional Sheets if Necessary) _____

PERFORMANCE: Symptomatic COVID-19 Inmates / Failure to Isolate

The Contractor is responsible to ensure patient safety through an Infection Control Program in accordance with 1.8.14 of the ADCRR Contract and in accordance with the National Commission on Correctional Health Care (NCCHC) Prison Standard P-B-02 Infectious Disease Prevention and Control.

The Contractor failed to appropriately isolate COVID-19 symptomatic patients at ASPC Tucson - Rincon. There were 2 patients (Solis 345113 and Young 339455) that presented to medical with symptoms consistent with COVID-19 between 12/16/21 and 12/17/21. The patients were both swabbed for a COVID-19 test and returned to their housing unit to await test results. Both patients subsequently tested positive for COVID-19. ASPC Tucson - Rincon was subsequently put on lockdown and mass testing had to be completed.

Contract Reference: 1.8.14 and Medical Services Technical Manual (MSTM) Chapter 2, Section 5.1 COVID-19.

ACTION REQUESTED:

Request that immediate monetary sanctions consistent with the provisions of Exhibit 4 of the Contract for failure to comply with any other contract requirements or NCCHC Standards not identified elsewhere in the exhibit be applied. Apply sanctions at the rate of \$10,000 per occurrence, not to exceed \$250,000 per finding of non-compliance. The total is \$10,000 x 2 = \$20,000.

Larry,

I have looked into where the breakdown occurred with this. It was the same nurse that saw both of these inmates on 2 different days. The nurse should have done a rapid and isolated. The nurse did not relay any information to anyone in leadership or ADCRR that we had 2 symptomatic individuals.

Today Rincon housing units 1-8 are being swabbed today. 481 individuals being completed. Anyone that presents symptomatic will be rapid swabbed and PCR tested and reported right away to the FHA, Theresa Linnane.

Per the information that has been pulled on site, 55% of Rincon has been vaccinated.

As far as the nurse that did not notify anyone, there will be corrective action taken as well as all of our sites refreshing staff on the COVID procedure.

Good afternoon, Corrections Partners:

CDC's COVID-19 Response Corrections and Homelessness Section invites you to a webinar, "Quarantine and Isolation in Correctional Facilities and Homeless Service Sites" on January 20, 2022 from 1-2pm ET.

CDC will review the updated quarantine and isolation recommendations for these settings and three communities will share how they have adapted their quarantine and isolation approaches during the current surge of COVID-19. Staff from health departments, correctional facilities, and homeless service settings are all encouraged to join. **Please [register](#) and forward to others who might be interested.**

You are invited to a Zoom webinar.
When: Jan 20, 2022 01:00 PM Eastern Time (US and Canada)
Topic: Quarantine and Isolation for Correctional Facilities and Homeless Service Sites

Register in advance for this webinar:
https://cdc.zoomgov.com/webinar/register/WN_9seFEK34S4yqFXJI-9ShRg

Or an H.323/SIP room system:
H.323: 161.199.138.10 (US West) or 161.199.136.10 (US East)
Meeting ID: 160 804 0689
Passcode: [REDACTED]
SIP: 1608040689@sip.zoomgov.com
Passcode: [REDACTED]

After registering, you will receive a confirmation email containing information about joining the webinar.

Subject: ASPC-T-Rincon COVID compartmentalization plan
To: Lance Hetmer <lheter@azadc.gov>

- On Thursday December 16, 2021 Inmate [REDACTED] was evaluated by medical due to having COVID related symptoms
- On Friday December 17, 2021 Inmate [REDACTED] was evaluated by medical due to having COVID related symptoms
- Both inmates were tested for COVID-19 and returned to housing unit pending results. Medical did not notify Unit Administration
- On December 20, 2021 Rincon Administration was informed Inmate [REDACTED] and Inmate [REDACTED] tested positive for COVID-19
- Inmate [REDACTED] and Inmate [REDACTED] as well as their cellmates, Inmate [REDACTED] and [REDACTED] were moved to Santa Rita isolation for quarantine
- Housing Unit [REDACTED] was locked down and under COVID isolation protocol
- On December 21, 2021 Inmates [REDACTED] tested positive for COVID-19
- After consulting with medical staff, Rincon unit was locked down and a compartmentalization plan was created. See Attached IAP
- Medical will be on site Wednesday 12/22/2021 and Thursday 12/23/2021 to test the Rincon inmate population
- All staff are required to wear PPE: N95, eye protection, gown, and gloves
- Medical procedures will be completed in house. Only essential services will be done outside the housing unit
- HU 1-9 will be feed in house on Styrofoam clamshells
- Kitchen workers will report from Santa Rita
- Rincon will not be receiving any cross-level staff from other units
- Per AFHA Thrush Rincon vaccine percentage is 55%
- Unit admin to determine which medical staff member returned inmates to HU pending test results

Attached is the updated IAP, cleaning schedule and recreation schedule.
Thank you

Subject: **UPDATE**—COVID Isolation Plan

Overview- On December 20, 2021 Rincon Administration became aware that Inmate [REDACTED] and Inmate [REDACTED] were positive for COVID-19. According to Centurion, Inmate [REDACTED] was evaluated by medical on Thursday December 16, 2021 due to having COVID related symptoms and Inmate [REDACTED] was evaluated by Medical for COVID related symptoms on Friday December 17, 2021. Both inmates were tested for COVID-19 and returned to housing unit pending results. Both inmates reside in Housing Unit [REDACTED] and are not cellmates. This information was not provided to Rincon Administration until December 20, 2021.

Update- On December 21, 2021 Rincon Administration became aware that Inmate [REDACTED] were experiencing COVID like symptoms in Housing Unit [REDACTED]. Sergeant Towle escorted the inmates to West Medical where they were rapid tested by RN Cromer for COVID-19. All four inmates results came back positive

Update- On December 21, 2021 Rincon Administration became aware that Inmate [REDACTED] out of HU [REDACTED] was COVID positive and was being sent out BLS for respiratory issues. Three inmates from HU [REDACTED] also tested positive, [REDACTED]

General Information

Inmate [REDACTED] and Inmate [REDACTED] as well as their cellmates, Inmate [REDACTED] and [REDACTED], will be moved to Santa Rita isolation for quarantine. Housing Unit [REDACTED] will remain locked down and under COVID isolation protocol until all inmates have been tested and produce negative results. Medical will test all Housing Unit [REDACTED] inmates on Wednesday December 22, 2021. Inmates who are tested and receive positive results will be isolated in place for the duration of their quarantine.

Update- Due to limited bed space at Santa Rita, the four positive inmates from Housing Unit [REDACTED], [REDACTED] will be quarantined in their assigned cells in Housing Unit [REDACTED] Housing Unit [REDACTED]

will remain locked down and under COVID isolation protocol until all inmates have been tested and produce negative results. Medical will test all Housing Unit inmates on Monday December 27, 2021. Inmates who are tested and receive positive results will be isolated in place for the duration of their quarantine.

Update- The COVID positive inmates will be secured in their assigned cells for a quarantine period. They will be kept separate from the rest of the population. Quarantine procedures will be applied to HU's 1-9. Programs will be cancelled for HU's 1-11 and work outside of the HU's will be cancelled for HU's 1-9. A modified recreation schedule has been generated and the recreation areas will be sanitized between recreation periods. Assistance will be sought from other units to provide essential workers such as kitchen and commissary. All Rincon inmates will be COVID tested on Wednesday 12-22-21 and Thursday 12-23-21.

Compartmentalization plan of affected inmates

Testing

- Inmates refusing the COVID test will remain locked down in place and will not have contact with any other inmates for the duration of the isolation which is not less than 10 days and also cleared by medical.
- Assigned staff will be advised to monitor these inmates for any COVID signs or symptoms
- Inmates who test negative will resume normal activities to the extent possible without cross contamination with other housing units, unless Medical advises otherwise

Medical Procedure

- To the extent possible, all medical services will be performed in the Housing Unit dayroom
- HUB appointments will only be occurring as essential services deemed necessary by medical
- Inmates who are insulin dependent diabetic; medical staff will be escorted by security staff to the housing unit with the insulin supplies and will administer the insulin in house
- Medical staff will be escorted back to West Medical by security staff; staff will ensure sharps are accounted for and properly disposed of before departing West Medical

Kitchen Procedure

- Housing Unit 1-9 will receive meals as scheduled
- Inmates will be fed in house with Styrofoam clamshells
- Supervisors will ensure staff are wearing N-95 masks, gowns, eye protection and gloves when passing out meals

Housing Unit Procedure

- The inmate porters who tested negative will continue to complete assigned duties within the housing unit
- The inmates who refused the COVID test will not be permitted to porter

Commissary and Property Procedure

- Staff will pass out all mail and or property from the door front of the cell

- Commissary for HU's 1-9 will be delivered to the housing unit; it will be passed out by security staff

Recreation, Shower and Phone Procedure

- Recreation for Housing Unit 1-9 will be conducted according to a modified schedule
- Staff will ensure that the recreation equipment is sanitized after each recreation period
- Water jugs will be emptied, sanitized on the outside, and be refilled between each recreation period. At the end of the day they will be run through the dishwasher
- Phone calls will be conducted in the run the inmate is assigned to; inmates will not be permitted to use phones in other runs
- Housing unit porters will sanitize the phones after each use
- Showers will be provided to inmates upon return from recreation
- Shower porters will clean and scrub their run shower after each use

Program Procedures

- All programs for HU's 1-11 are cancelled
- Psychology programs for HU's 5 and 6 may be conducted at cell fronts.

Sanitation Procedures

- General sanitation will occur daily in each house
- Staff will deliver sanitation supplies/chemicals a minimum of twice a day on dayshift. Additional sanitation supplies/chemicals available upon request
- As a part of their daily duties, the inmate porters will clean high usage areas such as restrooms and showers throughout the day
- Officer stations will be sanitized by security staff throughout the day
- Sanitation of shared use equipment, such as recreation equipment, phones and showers will be sanitized in between each use
- Supervisors will check chemicals and sanitation supplies for staff throughout the day. Additional supplies are stored in the shift commander's office and are immediately available

Staff Safety

- Staff assigned to Housing Unit's 1-9 must wear required PPE: gown, eye protection, gloves and N95 mask
- Staff (including cross leveled staff from other units) who was assigned to the building within the last week will be notified to get the COVID test to prevent the spread of infection per the recommendation of Centurion. Staff testing will continue at the unit as well.
- Keys radios and other shared or passed on equipment will be sanitized when turned in to main control.

Caution: External Email Do not click on links or open any attachments unless you recognize the sender and know the contents are safe. Think before you click!

Keith,

I wanted to ensure your awareness of this reported event. The ADCRR Team is following up accordingly and burdened with significant mitigation measures on a very preventable event.

It is imperative that Centurion leadership and senior leadership engage in efforts and oversight that prevent these events. **This is above no one's pay-grade;** everyone on the Centurion Team is expected to engage in efforts that produce favorable outcomes to the entire incarcerated community served.

This event is in addition to several known COVID positive inmates being transported from ADCRR's reception center to other mainline facilities early this week. That event created a significant impact in containing, contract tracing and burdensome mitigation measures.

It is minimally expected that Centurion personnel be redirected forthwith in an effort to avoid repeating and mitigating these preventable events.

Joe

Subject: ASPC-T-Rincon COVID compartmentalization plan
To: Lance Hetmer <lhetmer@azadc.gov>

- On Thursday December 16, 2021 Inmate [REDACTED] was evaluated by medical due to having COVID related symptoms
- On Friday December 17, 2021 Inmate [REDACTED] was evaluated by medical due to having COVID related symptoms

- Both inmates were tested for COVID-19 and returned to housing unit pending results. Medical did not notify Unit Administration.
- On December 20, 2021 Rincon Administration was informed Inmate [REDACTED] and Inmate [REDACTED] tested positive for COVID-19.
- Inmate [REDACTED] and Inmate [REDACTED] as well as their cellmates, Inmate [REDACTED], were moved to Santa Rita isolation for quarantine.
- Housing Unit [REDACTED] was locked down and under COVID isolation protocol.
- [REDACTED] tested positive for COVID-19.
- After consulting with medical staff, Rincon unit was locked down and a compartmentalization plan was created. See Attached IAP.
- Medical will be on site Wednesday 12/22/2021 and Thursday 12/23/2021 to test the Rincon inmate population.
- All staff are required to wear PPE: N95, eye protection, gown, and gloves.
- Medical procedures will be completed in house. Only essential services will be done outside the housing unit.
- HU 1-9 will be feed in house on Styrofoam clamshells.
- Kitchen workers will report from Santa Rita.
- Rincon will not be receiving any cross-level staff from other units.
- Per AFHA Thrush Rincon vaccine percentage is 55%.
- Unit admin to determine which medical staff member returned inmates to HU pending test results.

Attached is the updated IAP, cleaning schedule and recreation schedule

Subject: Fwd: Federal OSHA Vaccine Mandate
Date: Tuesday, December 21, 2021 5:23:21 PM

FYSA.

----- Forwarded message -----

From: **James Ashley** <james.ashley@azica.gov>
Date: Tue, Dec 21, 2021, 1:03 PM
Subject: Federal OSHA Vaccine Mandate
To: James Ashley <james.ashley@azica.gov>

Good Afternoon, Directors,

As you're aware, Federal OSHA's COVID-19 "Vaccine or Test" Emergency Temporary Standard impacts employers with a total of 100 or more employees and requires covered employers to develop, implement, and enforce a mandatory COVID-19 vaccination policy, with an exception for employers that instead adopt a policy requiring employees to either get vaccinated or to undergo weekly COVID-19 testing and wear a face covering at work. Following the recent decision by the 6th Circuit Court of Appeals panel lifting the stay on the ETS mandate, questions are arising again on its status in Arizona.

Arizona is one of 22 OSHA-approved state plans that have exclusive responsibility for the development and enforcement of occupational safety and health standards within their states. Arizona's state plan was formally approved by OSHA and under Arizona's state-plan procedures, the Industrial Commission has exclusive authority to adopt occupational safety and health standards in our state. Federal regulations require state plans to adopt standards that are "at least as effective" as Federal standards.

The Commission is closely monitoring the legal challenges to the ETS, which now are with the U.S. Supreme Court. **However, until such time that the Industrial Commission takes formal action to adopt all or part of the ETS, the temporary standards are not binding or enforceable against Arizona's private and public sector employers and employees.**

Our previously issued statement on this issue, linked below, is still applicable and has been widely shared and distributed among stakeholders and the media.

Alhambra has transported 8 COVID positive inmates to Tucson, Red Rock, Yuma, and Lewis on December 16th and 17th. Notifications to the institutions receiving positive inmates as well as inmates exposed who were transported with the positive inmates has been completed. All of the inmates on movement were cleared by Centurion staff for movement while the inmates had PCR COVID tests that were still pending results. All inmates pending movement are being rescreened. Statewide transportation for Monday has been postponed to Tuesday for additional screening. (This will not affect County reception) When asked for an explanation, the following was provided by the Phoenix FHA:

Warden Twyford,

Both patients [REDACTED] arrived 12/9/2021 from PIMA county and received their first COVID-19 rapid test 12/9/2021. On 12/15/2021 we started the transition from two negative rapid tests prior to movement, to one rapid test upon intake arrival and one PCR test prior to movement. Both patients were swabbed for PCR test 12/15/2021 and the samples were sent out to the lab for processing. During the clearing of movement in eOMIS, the staff member clearing was uncertain of the change and did not look at the appropriate screen to correctly clear movement based on the outside lab results. The staff member that was clearing is now out on medical leave however, when she returns, we will document additional training with her. We are updating our movement process to reflect the one rapid test and one PCR test to ensure we have the correct amount of time to wait for the lab response before clearing for movement and how that is documented in eOMIS.

Good afternoon, Corrections Partners –

We are reaching out to let you know about **Operation Expanded Testing (OpET)**, a federally-funded program that provides **no-cost COVID-19 PCR testing** to congregate settings including correctional and detention facilities.

This program is a great opportunity for facilities to expand screening testing to detect outbreaks early.

Specifics of the program include:

- OpET is administered through 3 regional hubs that receive and test specimens.
- To enroll, facilities will identify which hub is assigned to their region and contact the hub through the links below.
(See attached 1-pager for a map defining regions and additional background information.)
- Facilities are responsible for collecting and packing specimens for shipment to their regional hub.
- OpET pays for shipping and testing.
- Turnaround time for results depends on volume but generally runs from 1-3 days.

Operation Expanded Testing

Testing is a critical mitigation strategy for the COVID-19 pandemic. In May 2021, the Department of Health and Human Services (HHS) partnered with the Department of Defense (DoD) to create Operation Expanded Testing (Operation ET) to expand testing opportunities across the nation. The intent of the federal program is to provide no-cost screening testing for schools, under-resourced communities that are economically marginalized, and congregate settings, such as homeless shelters, women's shelters, prisons, HBCUs, and other qualified sites.

Operation ET covers 4 regions of the United States served by 3 coordination hubs: PerkinElmer for the West, Battelle for the Midwest, and Eurofins for the Northeast and South. The \$650 million program will provide up to 49.2 million tests to the 4 regions through July 1, 2022. For asymptomatic screening in schools or congregate settings, Operation ET's high-throughput laboratory testing strategy is ideal. A main program objective of Operation ET is to facilitate the reopening of U.S. schools and provide a safe learning environment for children. Testing is offered to enrolled sites through July 1, 2022 to align with the 2021-2022 school year.

Operation ET is a federal resource available to all states and territories and can be tailored to each site's testing needs. For more information, please contact the appropriate managers in your region.

Subject: Issues with Masks at GEO
Importance: High

Good afternoon. I wanted to bring an issue to your attention regarding masks at GEO. GEO is currently experiencing new cases of COVID at the facility. The building where my son is housed has been placed in quarantine and there have been confirmed cases in one of the pods. Masks have not been replaced since the beginning of the pandemic. Masks were sent to the facility presumably from DOC, but at GEO those masks were given to the staff, not the inmates. Many of the staff do not bother with masks, so not sure why that would have happened. Inmates that have come to GEO from other facilities have these masks, so reasonably sure they were supposed to be for the inmates. You can only wash the existing poor quality masks so many times before they are no longer effective. As always, everything you do is appreciated. Thank you.

Good morning Chief Dawson and Captain Mossman,

Please allow me to bring to your attention an issue that occurred this morning with the male inmates your agency transported into ASPC-Phoenix (Alhambra).

Synopsis of Today's Issue: **12/07/2021**

- **12/6/2021**
 - Maricopa was authorized to transport **(52) males** into ASPC-Phoenix on 12/07/2021. Maricopa In-State Transport advised *(13) males* were identified as being in quarantine and would be transported separately. ASPC-Phoenix Intake and Medical staff were notified.
- **12/7/2021**
 - 0632 hours: Inmate [REDACTED], tested positive upon arrival at Alhambra. This resulted in the *(11) males* he was transported with being placed in quarantine.
 - 0656 hours; Inmate [REDACTED] all tested positive upon arrival at Alhambra. This resulted in the *(29) males* they were transported with being placed in quarantine.
- Summary: All **(52) males** arriving from Maricopa are now being placed in quarantine.

Below is a list of the male arrivals today:

Inmate Name	Booking #	County Location
[REDACTED]	[REDACTED]	Maricopa
[REDACTED]	[REDACTED]	Maricopa

To: David Shinn; Frank Strada; Stacey Crabtree; Larry Gann; Grant Phillips
Subject: Fwd: Tucson IPC/Manzanita
Date: Wednesday, November 3, 2021 9:32:08 AM

New infections at Tucson Manzanita. Compartilization at Manzanita and IPC in place. No inmates will be moved from these locations until all exposed inmates clear a second test.

----- Forwarded message -----

From: Chris Moody <cmoody@azadc.gov>
Date: Wed, Nov 3, 2021 at 9:20 AM
Subject: Tucson IPC/Manzanita
To: Lance Hetmer <lhetmer@azadc.gov>

Boss,

Late afternoon the AFHA reported the following.

On 11/1/2021, we were notified by Banner Hospital that inmate [REDACTED] [REDACTED] tested positive for COVID-19. We also had 1 RN from the IPC test positive that morning. We were also notified 1 of our [REDACTED] from IPC tested positive.

At the time of discovery, movement in/out of the IPC was suspended. We were advised that 4 inmates had already departed IPC. 2 of them had not made it out of the van yet and were returned to the IPC. The other 2 inmates were also sent to Manzanita, 1 being housed in house [REDACTED] and 1 in house [REDACTED].

Rapid COVID testing was completed on all IPC new side inmates with an additional 3 positive results. 1 from [REDACTED] ward, 1 from [REDACTED] ward and 1 from [REDACTED] ward. Additionally, the 2 inmates sent to Manzanita were tested. The inmate from house 5 tested negative and was moved to detention for isolation. The inmate from house [REDACTED] tested positive and was returned to IPC. All inmates from the new side of IPC were also assessed for symptoms, with negative results on all.

At this time, movement is closed for IPC unless determined to be a medical necessity and cleared by Dr. Salazar. House 5 at Manzanita is also on restricted movement. Meds and meals in-house, separate rec. House 6 at Manzanita is the same. All 4 COVID positive inmates were relocated to [REDACTED] ward in IPC.

In 72 hours(ish), we will retest the IPC inmates for COVID and the inmate in Manzanita detention. If the detention inmate is negative again, restrictions to house [REDACTED] can be lifted. House [REDACTED] will be checked for any signs or symptoms of COVID as the exposure there was limited. We may decide to test house 6 in the next couple days as well.

All staff in the IPC should be wearing full PPE, particularly when having any interactions with [REDACTED] ward. Our non-vaccinated staff is already tested weekly. Last night, during routine testing, another one of our IPC staff tested positive. We have requested that all of our vaccinated staff come voluntarily get tested as well. We would recommend DOC staff to do the same.

All moves in/out of Manz RMH, Man SNU, IPC must pre-approved by medical.

At this time no other inmates have tested positive nor symptoms.

ARIZONA DEPARTMENT OF HEALTH SERVICES

'Release from Isolation and Quarantine' Guidance

Recommendations for [quarantine](#) and discontinuation of [isolation](#) precautions and home isolation, based upon a person's symptoms and clinical testing are below. In addition, the release from isolation flowchart can be found [here](#). In general*, CDC and ADHS **do not** recommend a test-based strategy to discontinue isolation. For people that previously tested positive for COVID-19 who remain asymptomatic after recovery, retesting is not recommended within 3 months after the date of symptom onset for the initial COVID-19 infection. The most recent updates to this document can be found [here](#).

- If a person is [symptomatic](#) and **awaiting**** COVID-19 test results:
 - Stay home away from others or under isolation precautions until results are available. If results are delayed, follow guidance for symptomatic and tested positive for COVID-19. Once results are available, follow the recommendations below based on results.
- If a person is [symptomatic](#) and **tested positive** for COVID-19 by PCR or antigen testing, stay home away from others or under isolation precautions until:
 - At least 10 days* have passed since symptoms first appeared; AND
 - At least 24 hours have passed since last fever without the use of medicine that reduces fevers; AND
 - Other symptoms have improved.
- If a person is [symptomatic](#) and **tested negative**** for COVID-19 by PCR or antigen testing, stay home away from others or under isolation precautions until:
 - At least 24 hours have passed since last fever without the use of medicine that reduces fevers; AND
 - Other symptoms have improved.
- If a person is [symptomatic](#) and has **not been tested**** for COVID-19 by PCR or antigen testing, stay home away from others or under isolation precautions until:
 - At least 10 days* have passed since symptoms first appeared; AND
 - At least 24 hours have passed since last fever without the use of medicine that reduces fevers; AND
 - Other symptoms have improved.
- If a person is **asymptomatic** and **awaiting**** COVID-19 test results:
 - No isolation is required while waiting for test results. Take everyday precautions to prevent the spread of COVID-19. Once results are available, follow recommendations based on results.

- If a person is **asymptomatic** and **tested positive** for COVID-19 by PCR or antigen testing, stay home away from others or under isolation precautions until:
 - At least 10 days* have passed since specimen collection of the first positive COVID-19 PCR/antigen testing while asymptomatic. If symptoms develop, follow guidance for symptomatic and tested positive for COVID-19.
- If a person is **asymptomatic** and **tested positive**** for COVID-19 by serology:
 - No isolation is required since there is a low likelihood of active infection. Take everyday precautions to prevent the spread of COVID-19.
- If a person is **asymptomatic** and **tested negative**** for COVID-19 by PCR, antigen testing, or serology:
 - No isolation is required. Take everyday precautions to prevent the spread of COVID-19.
- If a person has other non-compatible symptoms and has not been tested for COVID-19, stay home away from others or under isolation precautions until:
 - At least 24 hours have passed since last fever without the use of medicine that reduces fevers; AND
 - Other symptoms have improved.

*A person who had [severe/critical illness](#) or is [severely immunocompromised](#) should:

- If symptomatic, stay home away from others or under isolation precautions until:
 - At least 20 days have passed since symptoms first appeared; AND
 - At least 24 hours have passed since last fever without the use of medicine that reduces fevers; AND
 - Other symptoms have improved.
- If asymptomatic, stay home away from others or under isolation precautions until:
 - At least 20 days have passed since specimen collection of the first positive COVID-19 PCR/antigen testing while asymptomatic. If symptoms develop, follow guidance for symptomatic and tested positive for COVID-19.

Some severely immunocompromised persons with COVID-19 may remain infectious beyond 20 days after their symptoms began and require additional SARS-CoV-2 testing (test-based strategy) and consultation with infectious diseases specialists and infection control experts.

Outside of these criteria above, extension of isolation is not routinely recommended if an individual is retested within 3 months of onset of symptoms or date of first positive test while asymptomatic. However, if a person within 3 months of symptom onset of their initial illness or since specimen collection (if asymptomatic) of the first positive COVID-19 PCR/antigen test has a new exposure to a person with suspected or confirmed COVID-19 and recovered from laboratory-confirmed infection and has met criteria to end isolation, but has or develops new symptoms consistent with COVID-19 within 14 days of the new exposure, consultation with a health care provider is recommended, and consultation with infectious disease or infection control experts may be necessary. If an alternative cause of the symptoms cannot be identified, retesting for SARS-CoV-2 infection may be warranted. In the absence of clinical evaluation to rule out SARS-CoV-2 reinfection, this person should be isolated following the recommendations above.

**A person who had known [close contact](#) with a confirmed COVID-19 case should [quarantine](#) for 14 days from their last exposure to the case. However, individuals may be eligible for shortened quarantine or may not be required to quarantine if certain conditions are met.

Shortened Quarantine

- Individuals must meet ALL of the following criteria:
 - Are not inpatients/residents in healthcare or [congregate settings](#); AND
 - Have remained asymptomatic since the most recent COVID-19 exposure; AND
 - Continues daily symptom monitoring for 14 days after the most recent COVID-19 exposure; AND
 - Continues strict adherence to all recommended [non-pharmaceutical interventions](#) (e.g., correct and consistent mask use, physical distancing) for 14 days after the most recent COVID-19 exposure.
- If they experience symptoms consistent with COVID-19, they should immediately self-isolate and be evaluated by their healthcare provider for COVID-19, including testing.
- Persons who test positive for COVID-19 by PCR or antigen test should follow [isolation guidance](#).
- The following options to shorten quarantine are acceptable alternatives if the conditions above are met:
 - Quarantine can end on Day 11 (i.e., quarantine at home for 10 full days) without testing and if no symptoms have been reported during daily monitoring.
 - Quarantine can end as early as Day 8 (i.e., quarantine at home for at least 7 full days) if a specimen tests negative by PCR or antigen testing and if no symptoms were reported during daily monitoring. The specimen must be collected and tested no earlier than Day 6 (i.e., after at least 5 full days) following their last known exposure, and quarantine still cannot be discontinued earlier than Day 8.

Not Required to Quarantine – Fully Vaccinated Persons

- Vaccinated persons with an exposure to someone with COVID-19 do not need to quarantine if they meet ALL of the following criteria:
 - Are not inpatients/residents in healthcare or [congregate healthcare settings](#); AND
 - Are [fully vaccinated](#) (i.e., 2 weeks or more have passed after receiving the second dose in a 2-dose series, or 2 weeks or more have passed after receiving one dose of a 1-dose vaccine); AND
 - Have remained asymptomatic since the most recent COVID-19 exposure.
 - Fully vaccinated persons should follow CDC guidance: [Interim Public Health Recommendations for Fully Vaccinated People](#).
- If fully vaccinated persons experience symptoms consistent with COVID-19, they should immediately self-isolate and be evaluated by their healthcare provider for COVID-19, including testing.
- Persons who test positive for COVID-19 by PCR or antigen test should follow [isolation guidance](#), regardless of vaccination status.

Not Required to Quarantine – Previously Infected Persons (that are not fully vaccinated)

- Previously infected persons (that are not fully vaccinated) with an exposure to someone with COVID-19 do not need to quarantine if they meet ALL of the following criteria:
 - Exposure is within 3 months of symptom onset of their initial illness or since specimen collection (if asymptomatic) of the first positive COVID-19 PCR/antigen test; AND
 - Have met criteria to end isolation; AND
 - Remain asymptomatic.
- However, if a person is identified as a contact of a case 3 months or more after symptom onset or since specimen collection (if asymptomatic) of the first positive COVID-19 PCR/antigen test, they should follow quarantine recommendations for contacts.
- There might be clinical scenarios in which the uncertainty about a prior infection or the durability of the immune response exist, for which providers could consider testing inpatients/residents in healthcare or congregate settings for SARS-CoV-2 and quarantine following exposure that occurs less than 3 months after their initial infection, Examples could include:
 - Residents with underlying immunocompromising conditions (e.g., patient after organ transplantation) or who become immune compromised (e.g., receive chemotherapy) in the 3 months following SARS-CoV-2 infection and who might have an increased risk for reinfection. However, data on which specific conditions may lead to higher risk and the magnitude of risk are not available.
 - Residents for whom there is concern that their initial diagnosis of SARS-CoV-2 infection might have been based on a false positive test result (e.g., resident was asymptomatic, antigen test positive, and a confirmatory nucleic acid amplification test (NAAT) was not performed).

- Residents for whom there is evidence that they were exposed to a novel SARS-CoV-2 variant (e.g., exposed to a person known to be infected with a novel variant) for which the risk of reinfection might be higher.

Quarantine Recommendations for Admissions and Readmissions of Residents to Post-Acute Care Facilities

- Quarantine is no longer recommended for residents who are being admitted or readmitted to a post-acute care facility if they are fully vaccinated and have not had an exposure to someone with COVID-19, including residing in a facility with a COVID-19 outbreak, in the prior 14 days.
- Previously infected persons (that are not fully vaccinated) with an exposure to someone with COVID-19 do not need to quarantine if they meet ALL of the following criteria:
 - Exposure is within 3 months of symptom onset of their initial illness or since specimen collection (if asymptomatic) of the first positive COVID-19 PCR/antigen test; AND
 - Have met criteria to end isolation; AND
 - Remain asymptomatic.
- However, if a previously infected person (that is not fully vaccinated) is identified as a contact of a case 3 months or more after symptom onset or since specimen collection (if asymptomatic) of the first positive COVID-19 PCR/antigen test, they should follow quarantine recommendations for contacts.
- There might be clinical scenarios in which the uncertainty about a prior infection or the durability of the immune response exist, for which providers could consider testing inpatients/residents in healthcare and congregate settings for SARS-CoV-2 and quarantine following exposure that occurs less than 3 months after their initial infection, Examples could include:
 - Residents with underlying immunocompromising conditions (e.g., patient after organ transplantation) or who become immune compromised (e.g., receive chemotherapy) in the 3 months following SARS-CoV-2 infection and who might have an increased risk for reinfection. However, data on which specific conditions may lead to higher risk and the magnitude of risk are not available.
 - Residents for whom there is concern that their initial diagnosis of SARS-CoV-2 infection might have been based on a false positive test result (e.g., resident was asymptomatic, antigen test positive, and a confirmatory nucleic acid amplification test (NAAT) was not performed).
 - Residents for whom there is evidence that they were exposed to a novel SARS-CoV-2 variant (e.g., exposed to a person known to be infected with a novel variant) for which the risk of reinfection might be higher.

Healthcare workers and critical infrastructure workers should follow guidance that includes special consideration for these groups. If you are a healthcare worker or critical infrastructure worker, please follow-up with your employer or HR for specific guidelines. Employers may consider allowing exposed and asymptomatic critical infrastructure workers that do not fit the exemption from quarantine conditions listed above to continue to work in select instances when it is necessary to preserve the function of critical infrastructure workplaces. This option should be used as a last resort and only in limited circumstances, such as when cessation of operation of a facility may cause serious harm or danger to public health or safety.

Public health may use additional considerations in determining the need to quarantine on a case-by case basis, including outbreaks of [variants of SARS-Cov-2](#) and [serology results](#).

Recent Updates to Guidance

The following changes were made to the guidance:

- Updated guidance on quarantine for fully vaccinated individuals.
- Updated guidance on quarantine for previously infected individuals.
- Updated guidance on quarantine for admissions and readmissions of residents to post-acute care facilities.
- Added guidance for public health consideration on a case-by-case basis in determining the need for quarantine.

Glossary of Terms

1. **Close contact*** for COVID-19 is defined as any of the following exposures to an individual during their infectious period:

- Individual who was within 6 feet of an infected person for a cumulative total of 15 minutes or more over a 24-hour period**
- Individual providing care in a household without using [recommended infection control precautions](#)
- Individual who has had direct physical contact (hugging or kissing)
- Individual who has shared eating and/or drinking utensils, or
- Individual who has been sneezed on, coughed on, or got respiratory droplets on them.

*Close contact does not include healthcare providers or EMS providers using appropriate PPE and implementing appropriate infection control practices.

**Individual exposures added together over a 24-hour period (e.g., three 5-minute exposures for a total of 15 minutes). Data are limited, making it difficult to precisely define “close contact;” however, 15 cumulative minutes of exposure at a distance of 6 feet or less can be used as an operational definition for contact investigation. Factors to consider when defining close contact include proximity (closer distance likely increases exposure risk), the duration of exposure (longer exposure time likely increases exposure risk), whether the infected individual has symptoms (the period around onset of symptoms is associated with the highest levels of viral shedding), if the infected person was likely to generate respiratory aerosols (e.g., was coughing, singing, shouting), and other environmental factors (crowding, adequacy of ventilation, whether exposure was indoors or outdoors). Because the general public has not received training on proper selection and use of respiratory PPE, such as an N95, the determination of close contact should generally be made irrespective of whether the contact was wearing respiratory PPE. At this time, differential determination of close contact for those using fabric face coverings is not recommended.

2. **Congregate setting:** Any facility where people living in a group setting share living space (including bathroom or kitchen) AND those living there depend on the facility for:

- Completion of activities of daily living; OR
- Temporary shelter; OR
- Medical services.

Congregate healthcare settings include but are not limited to:

- Long-term care facilities (LTCFs)
- Hospice
- Assisted living facilities
- Group homes (Division of Developmental Disabilities - DDD, Department of Child Safety - DCS)
- Inpatient physical rehabilitation facilities
- Inpatient behavioral/addiction rehabilitation

Non-healthcare congregate settings, include but are not limited to:

- Shelters with dormitories
- Jails, prisons, and detention centers (ICE and ORR)
- Temporary shelters for people who are asylum-seeking/unaccompanied children

Non-congregate settings include but are not limited to:

- Student or faculty housing (e.g., dormitories or residence halls)
- Apartments
- Independent living facilities
- Shelters with apartment-style living arrangements (own bathroom and kitchen)
- Outpatient behavioral/addiction rehabilitation
- Multi-generational or multi-family homes

3. **Fully Vaccinated:**

- 2 weeks or more have passed after receiving the second dose in a 2-dose series; OR
- 2 weeks or more have passed after receiving one dose of a single-dose vaccine.

CDC has not systematically evaluated the efficacy of COVID-19 vaccines from manufacturers that have not sought an emergency use authorization (EUA) in the United States. For the purposes of these quarantine criteria, considerations for accepting a vaccination series that is not FDA-authorized include whether the vaccine product has received emergency approval from the World Health Organization or authorization from a national regulatory agency.

4. **Infectious period** is the timeframe an individual can transmit disease to others. For COVID-19, this starts from 2 days before illness onset (or, for asymptomatic patients, 2 days prior to positive specimen collection) until the time the individual discontinues isolation.
5. **Isolation** separates sick people with a contagious disease from people who are not sick.
6. **Non-pharmaceutical interventions** that can be practiced by individuals include the following: correct and consistent mask use, physical distancing, hand and cough hygiene, environmental cleaning and disinfection, avoiding crowds, ensuring adequate indoor ventilation, and self-monitoring for symptoms of COVID-19 illness. These are also summarized [here](#).
7. **Quarantine** separates and restricts the movement of people who were exposed to a contagious disease to see if they become sick. For COVID-19, this means staying home or in a private room with a private bathroom for 14 days after last contact with a person who has COVID-19. However, individuals may be eligible for the acceptable options to shorten quarantine outlined [here](#).
8. **Severe/critical illness:** Illness due to COVID-19 that required any intensive care during hospitalization.
9. **Severely immunocompromised** means you have:
 - Been taking chemotherapy for cancer recently;
 - HIV and a CD4 T-cell count <200;
 - An immunodeficiency disorder;
 - Been taking high-dose steroids (like prednisone 20mg/day for >14days); OR
 - Another condition that a healthcare provider has told you makes you severely immunocompromised.
10. **Symptomatic:** People with these symptoms may have COVID-19:

<ul style="list-style-type: none">● Fever or chills● Cough● Shortness of breath or difficulty breathing● Fatigue● Muscle or body aches	<ul style="list-style-type: none">● Headache● New loss of taste or smell● Sore throat● Congestion or runny nose● Nausea or vomiting● Diarrhea
--	--

This list does not include all possible symptoms. Public Health will [continue to update](#) this list as we learn more about COVID-19.

ARIZONA DEPARTMENT
OF HEALTH SERVICES

'Release from Isolation and Quarantine' Guidance

Recommendations for [quarantine](#) and discontinuation of [isolation](#) precautions and home isolation, based upon a person's symptoms and clinical testing are below. In addition, the release from isolation flowchart can be found [here](#). In general*, CDC and ADHS **do not** recommend a test-based strategy to discontinue isolation. For people that previously tested positive for COVID-19 who remain asymptomatic after recovery, retesting is not recommended within 3 months after the date of symptom onset for the initial COVID-19 infection. The most recent updates to this document can be found [here](#).

- If a person is [symptomatic](#) and **awaiting**** COVID-19 test results:
 - Stay home away from others or under isolation precautions until results are available. If results are delayed, follow guidance for symptomatic and tested positive for COVID-19. Once results are available, follow the recommendations below based on results.
- If a person is [symptomatic](#) and **tested positive** for COVID-19 by PCR or antigen testing, stay home away from others or under isolation precautions until:
 - At least 10 days* have passed since symptoms first appeared; AND
 - At least 24 hours have passed since last fever without the use of medicine that reduces fevers; AND
 - Other symptoms have improved.
- If a person is [symptomatic](#) and **tested negative**** for COVID-19 by PCR or antigen testing, stay home away from others or under isolation precautions until:
 - At least 24 hours have passed since last fever without the use of medicine that reduces fevers; AND
 - Other symptoms have improved.
- If a person is [symptomatic](#) and has **not been tested**** for COVID-19 by PCR or antigen testing, stay home away from others or under isolation precautions until:
 - At least 10 days* have passed since symptoms first appeared; AND
 - At least 24 hours have passed since last fever without the use of medicine that reduces fevers; AND
 - Other symptoms have improved.
- If a person is **asymptomatic** and **awaiting**** COVID-19 test results:
 - No isolation is required while waiting for test results. Take everyday precautions to prevent the spread of COVID-19. Once results are available, follow recommendations based on results.

- If a person is **asymptomatic** and **tested positive** for COVID-19 by PCR or antigen testing, stay home away from others or under isolation precautions until:
 - At least 10 days* have passed since specimen collection of the first positive COVID-19 PCR/antigen testing while asymptomatic. If symptoms develop, follow guidance for symptomatic and tested positive for COVID-19.
- If a person is **asymptomatic** and **tested positive**** for COVID-19 by serology:
 - No isolation is required since there is a low likelihood of active infection. Take everyday precautions to prevent the spread of COVID-19.
- If a person is **asymptomatic** and **tested negative**** for COVID-19 by PCR, antigen testing, or serology:
 - No isolation is required. Take everyday precautions to prevent the spread of COVID-19.
- If a person has other non-compatible symptoms and has not been tested for COVID-19, stay home away from others or under isolation precautions until:
 - At least 24 hours have passed since last fever without the use of medicine that reduces fevers; AND
 - Other symptoms have improved.

*A person who had [severe/critical illness](#) or is [severely immunocompromised](#) should:

- If symptomatic, stay home away from others or under isolation precautions until:
 - At least 20 days have passed since symptoms first appeared; AND
 - At least 24 hours have passed since last fever without the use of medicine that reduces fevers; AND
 - Other symptoms have improved.
- If asymptomatic, stay home away from others or under isolation precautions until:
 - At least 20 days have passed since specimen collection of the first positive COVID-19 PCR/antigen testing while asymptomatic. If symptoms develop, follow guidance for symptomatic and tested positive for COVID-19.

Some severely immunocompromised persons with COVID-19 may remain infectious beyond 20 days after their symptoms began and require additional SARS-CoV-2 testing (test-based strategy) and consultation with infectious diseases specialists and infection control experts.

Outside of these criteria above, extension of isolation is not routinely recommended if an individual is retested within 3 months of onset of symptoms or date of first positive test while asymptomatic. However, if a person within 3 months of symptom onset of their initial illness or since specimen collection (if asymptomatic) of the first positive COVID-19 PCR/antigen test has a new exposure to a person with suspected or confirmed COVID-19 and recovered from laboratory-confirmed infection and has met criteria to end isolation, but has or develops new symptoms consistent with COVID-19 within 14 days of the new exposure, consultation with a health care provider is recommended, and consultation with infectious disease or infection control experts may be necessary. If an alternative cause of the symptoms cannot be identified, retesting for SARS-CoV-2 infection may be warranted. In the absence of clinical evaluation to rule out SARS-CoV-2 reinfection, this person should be isolated following the recommendations above.

**A person who had known [close contact](#) with a confirmed COVID-19 case should [quarantine](#) for 14 days from their last exposure to the case. However, individuals may be eligible for shortened quarantine or may not be required to quarantine if certain conditions are met.

Shortened Quarantine

- Individuals must meet ALL of the following criteria:
 - Are not inpatients/residents in healthcare or [congregate settings](#); AND
 - Have remained asymptomatic since the most recent COVID-19 exposure; AND
 - Continues daily symptom monitoring for 14 days after the most recent COVID-19 exposure; AND
 - Continues strict adherence to all recommended [non-pharmaceutical interventions](#) (e.g., correct and consistent mask use, physical distancing) for 14 days after the most recent COVID-19 exposure.
- If they experience symptoms consistent with COVID-19, they should immediately self-isolate and be evaluated by their healthcare provider for COVID-19, including testing.
- Persons who test positive for COVID-19 by PCR or antigen test should follow [isolation guidance](#).
- The following options to shorten quarantine are acceptable alternatives if the conditions above are met:
 - Quarantine can end on Day 11 (i.e., quarantine at home for 10 full days) without testing and if no symptoms have been reported during daily monitoring.
 - Quarantine can end as early as Day 8 (i.e., quarantine at home for at least 7 full days) if a specimen tests negative by PCR or antigen testing and if no symptoms were reported during daily monitoring. The specimen must be collected and tested no earlier than Day 6 (i.e., after at least 5 full days) following their last known exposure, and quarantine still cannot be discontinued earlier than Day 8.

Not Required to Quarantine – Fully Vaccinated Persons

- Vaccinated persons with an exposure to someone with COVID-19 do not need to quarantine if they meet ALL of the following criteria:
 - Are not inpatients/residents in healthcare or [congregate healthcare settings](#); AND
 - Are [fully vaccinated](#) (i.e., 2 weeks or more have passed after receiving the second dose in a 2-dose series, or 2 weeks or more have passed after receiving one dose of a 1-dose vaccine); AND
 - Have remained asymptomatic since the most recent COVID-19 exposure.
 - Fully vaccinated persons should follow CDC guidance: [Interim Public Health Recommendations for Fully Vaccinated People](#).
- If fully vaccinated persons experience symptoms consistent with COVID-19, they should immediately self-isolate and be evaluated by their healthcare provider for COVID-19, including testing.
- Persons who test positive for COVID-19 by PCR or antigen test should follow [isolation guidance](#), regardless of vaccination status.

Not Required to Quarantine – Previously Infected Persons (that are not fully vaccinated)

- Previously infected persons (that are not fully vaccinated) with an exposure to someone with COVID-19 do not need to quarantine if they meet ALL of the following criteria:
 - Exposure is within 3 months of symptom onset of their initial illness or since specimen collection (if asymptomatic) of the first positive COVID-19 PCR/antigen test; AND
 - Have met criteria to end isolation; AND
 - Remain asymptomatic.
- However, if a person is identified as a contact of a case 3 months or more after symptom onset or since specimen collection (if asymptomatic) of the first positive COVID-19 PCR/antigen test, they should follow quarantine recommendations for contacts.
- There might be clinical scenarios in which the uncertainty about a prior infection or the durability of the immune response exist, for which providers could consider testing inpatients/residents in healthcare or congregate settings for SARS-CoV-2 and quarantine following exposure that occurs less than 3 months after their initial infection, Examples could include:
 - Residents with underlying immunocompromising conditions (e.g., patient after organ transplantation) or who become immune compromised (e.g., receive chemotherapy) in the 3 months following SARS-CoV-2 infection and who might have an increased risk for reinfection. However, data on which specific conditions may lead to higher risk and the magnitude of risk are not available.
 - Residents for whom there is concern that their initial diagnosis of SARS-CoV-2 infection might have been based on a false positive test result (e.g., resident was asymptomatic, antigen test positive, and a confirmatory nucleic acid amplification test (NAAT) was not performed).

- Residents for whom there is evidence that they were exposed to a novel SARS-CoV-2 variant (e.g., exposed to a person known to be infected with a novel variant) for which the risk of reinfection might be higher.

Quarantine Recommendations for Admissions and Readmissions of Residents to Post-Acute Care Facilities

- Quarantine is no longer recommended for residents who are being admitted or readmitted to a post-acute care facility if they are fully vaccinated and have not had an exposure to someone with COVID-19, including residing in a facility with a COVID-19 outbreak, in the prior 14 days.
- Previously infected persons (that are not fully vaccinated) with an exposure to someone with COVID-19 do not need to quarantine if they meet ALL of the following criteria:
 - Exposure is within 3 months of symptom onset of their initial illness or since specimen collection (if asymptomatic) of the first positive COVID-19 PCR/antigen test; AND
 - Have met criteria to end isolation; AND
 - Remain asymptomatic.
- However, if a previously infected person (that is not fully vaccinated) is identified as a contact of a case 3 months or more after symptom onset or since specimen collection (if asymptomatic) of the first positive COVID-19 PCR/antigen test, they should follow quarantine recommendations for contacts.
- There might be clinical scenarios in which the uncertainty about a prior infection or the durability of the immune response exist, for which providers could consider testing inpatients/residents in healthcare and congregate settings for SARS-CoV-2 and quarantine following exposure that occurs less than 3 months after their initial infection, Examples could include:
 - Residents with underlying immunocompromising conditions (e.g., patient after organ transplantation) or who become immune compromised (e.g., receive chemotherapy) in the 3 months following SARS-CoV-2 infection and who might have an increased risk for reinfection. However, data on which specific conditions may lead to higher risk and the magnitude of risk are not available.
 - Residents for whom there is concern that their initial diagnosis of SARS-CoV-2 infection might have been based on a false positive test result (e.g., resident was asymptomatic, antigen test positive, and a confirmatory nucleic acid amplification test (NAAT) was not performed).
 - Residents for whom there is evidence that they were exposed to a novel SARS-CoV-2 variant (e.g., exposed to a person known to be infected with a novel variant) for which the risk of reinfection might be higher.

Healthcare workers and critical infrastructure workers should follow guidance that includes special consideration for these groups. If you are a healthcare worker or critical infrastructure worker, please follow-up with your employer or HR for specific guidelines. Employers may consider allowing exposed and asymptomatic critical infrastructure workers that do not fit the exemption from quarantine conditions listed above to continue to work in select instances when it is necessary to preserve the function of critical infrastructure workplaces. This option should be used as a last resort and only in limited circumstances, such as when cessation of operation of a facility may cause serious harm or danger to public health or safety.

Public health may use additional considerations in determining the need to quarantine on a case-by case basis, including outbreaks of [variants of SARS-Cov-2](#) and [serology results](#).

Recent Updates to Guidance

The following changes were made to the guidance:

- Updated guidance on quarantine for fully vaccinated individuals.
- Updated guidance on quarantine for previously infected individuals.
- Updated guidance on quarantine for admissions and readmissions of residents to post-acute care facilities.
- Added guidance for public health consideration on a case-by-case basis in determining the need for quarantine.

Glossary of Terms

1. **Close contact*** for COVID-19 is defined as any of the following exposures to an individual during their infectious period:

- Individual who was within 6 feet of an infected person for a cumulative total of 15 minutes or more over a 24-hour period**
- Individual providing care in a household without using [recommended infection control precautions](#)
- Individual who has had direct physical contact (hugging or kissing)
- Individual who has shared eating and/or drinking utensils, or
- Individual who has been sneezed on, coughed on, or got respiratory droplets on them.

*Close contact does not include healthcare providers or EMS providers using appropriate PPE and implementing appropriate infection control practices.

**Individual exposures added together over a 24-hour period (e.g., three 5-minute exposures for a total of 15 minutes). Data are limited, making it difficult to precisely define “close contact;” however, 15 cumulative minutes of exposure at a distance of 6 feet or less can be used as an operational definition for contact investigation. Factors to consider when defining close contact include proximity (closer distance likely increases exposure risk), the duration of exposure (longer exposure time likely increases exposure risk), whether the infected individual has symptoms (the period around onset of symptoms is associated with the highest levels of viral shedding), if the infected person was likely to generate respiratory aerosols (e.g., was coughing, singing, shouting), and other environmental factors (crowding, adequacy of ventilation, whether exposure was indoors or outdoors). Because the general public has not received training on proper selection and use of respiratory PPE, such as an N95, the determination of close contact should generally be made irrespective of whether the contact was wearing respiratory PPE. At this time, differential determination of close contact for those using fabric face coverings is not recommended.

2. **Congregate setting:** Any facility where people living in a group setting share living space (including bathroom or kitchen) AND those living there depend on the facility for:

- Completion of activities of daily living; OR
- Temporary shelter; OR
- Medical services.

Congregate healthcare settings include but are not limited to:

- Long-term care facilities (LTCFs)
- Hospice
- Assisted living facilities
- Group homes (Division of Developmental Disabilities - DDD, Department of Child Safety - DCS)
- Inpatient physical rehabilitation facilities
- Inpatient behavioral/addiction rehabilitation

Non-healthcare congregate settings, include but are not limited to:

- Shelters with dormitories
- Jails, prisons, and detention centers (ICE and ORR)
- Temporary shelters for people who are asylum-seeking/unaccompanied children

Non-congregate settings include but are not limited to:

- Student or faculty housing (e.g., dormitories or residence halls)
- Apartments
- Independent living facilities
- Shelters with apartment-style living arrangements (own bathroom and kitchen)
- Outpatient behavioral/addiction rehabilitation
- Multi-generational or multi-family homes

3. **Fully Vaccinated:**

- 2 weeks or more have passed after receiving the second dose in a 2-dose series; OR
- 2 weeks or more have passed after receiving one dose of a single-dose vaccine.

CDC has not systematically evaluated the efficacy of COVID-19 vaccines from manufacturers that have not sought an emergency use authorization (EUA) in the United States. For the purposes of these quarantine criteria, considerations for accepting a vaccination series that is not FDA-authorized include whether the vaccine product has received emergency approval from the World Health Organization or authorization from a national regulatory agency.

4. **Infectious period** is the timeframe an individual can transmit disease to others. For COVID-19, this starts from 2 days before illness onset (or, for asymptomatic patients, 2 days prior to positive specimen collection) until the time the individual discontinues isolation.
5. **Isolation** separates sick people with a contagious disease from people who are not sick.
6. **Non-pharmaceutical interventions** that can be practiced by individuals include the following: correct and consistent mask use, physical distancing, hand and cough hygiene, environmental cleaning and disinfection, avoiding crowds, ensuring adequate indoor ventilation, and self-monitoring for symptoms of COVID-19 illness. These are also summarized [here](#).
7. **Quarantine** separates and restricts the movement of people who were exposed to a contagious disease to see if they become sick. For COVID-19, this means staying home or in a private room with a private bathroom for 14 days after last contact with a person who has COVID-19. However, individuals may be eligible for the acceptable options to shorten quarantine outlined [here](#).
8. **Severe/critical illness:** Illness due to COVID-19 that required any intensive care during hospitalization.
9. **Severely immunocompromised** means you have:
 - Been taking chemotherapy for cancer recently;
 - HIV and a CD4 T-cell count <200;
 - An immunodeficiency disorder;
 - Been taking high-dose steroids (like prednisone 20mg/day for >14days); OR
 - Another condition that a healthcare provider has told you makes you severely immunocompromised.
10. **Symptomatic:** People with these symptoms may have COVID-19:

<ul style="list-style-type: none">● Fever or chills● Cough● Shortness of breath or difficulty breathing● Fatigue● Muscle or body aches	<ul style="list-style-type: none">● Headache● New loss of taste or smell● Sore throat● Congestion or runny nose● Nausea or vomiting● Diarrhea
--	--

This list does not include all possible symptoms. Public Health will [continue to update](#) this list as we learn more about COVID-19.

Subject: Re: \$700M Grant Program for COVID Mitigation in Confinement Facilities
Date: Tuesday, September 14, 2021 2:26:45 PM

Good Afternoon,

Our agency would also benefit from these funds by using them to upgrade our technology by increasing our bandwidth, installing wireless internet at all complexes, and purchasing laptops for Inmate Programming, as discussed in the Decision Packages we submitted with our Budget.

I'm not sure if we could stretch it and use the funding for digitizing our files, but it would be nice if we could.

Subject: \$700M Grant Program for COVID Mitigation in Confinement Facilities
To: <dshinn@azadc.gov>

Dear Members,

You may recall receiving an email from CLA in May alerting you to this potential opportunity for the \$700 million Congress appropriated in the American Rescue Plan for responding to COVID-19 in confinement facilities (defined as adult prisons and jails, juvenile confinement facilities, police lock-ups, and community confinement facilities). Yesterday, I participated in a Zoom meeting with DOJ and CDC officials who provided additional details for working with your public health officials to apply for and/or have input into their application for these funds.

The funding is being administered by the CDC and the public health authorities in the 64 jurisdictions that have existing cooperative agreements with the CDC – the 56 states and territories plus several counties, cities and other jurisdictions. Funds must be used for testing and contact tracing programs and may be used for a wide range of other in-facility needs as well as diversion programs, release practices, and community-based supports for individuals returning to the community (see additional information attached). ***The public health agency grantees have 90 days from August 1, 2021 to submit a state plan to CDC so organizations wanting to help shape that plan need to engage soon!***

Here are a few tips learned from the meeting that may be helpful:

- Agencies that received CARES Act or CRF funding are eligible to receive these funds as well.
- BJA is providing weekly training and technical assistance clarifying what allowable expenditures are and how to indicate that in applications.
- Mitigation of new transmissions must be addressed in the application.
- These funds may not be used for vaccination or clinical care, however, diagnostics is clinical in nature and is an allowable expense (CDC can provide more guidance on how to address this in the application).
- You may include expenditures or purchases for upgrading infrastructure to prevent airborne transmissions (e.g., installation or retrofitting air systems/HVAC) or to upgrade technology to support remote staff employment or improve community supervision (e.g., purchasing tablets or other technology).

Please see the attachments for further guidance.

Good Afternoon,

Our agency would clearly benefit from this opportunity in the replacement of old Evaporative Coolers with failing ductwork primarily utilized throughout our facilities. New A/C systems similar to what's being installed at the Lewis Complex offer many benefits and meet the criteria noted below.

New systems have the ability to effectively regulate return air volumes and mixed air through the use of a management system. These systems would allow us to regulate incoming air as compared to recycled (returned) air thus reducing transmission through air borne viruses

Replacement of aged and compromised ductwork would fit this criteria. New ductwork would allow for greater control of airflows addressing conditions of confinement. Additionally ductwork replacement will ensure contaminations and/or transmissions from mixed airflows would be reduced. Airflows would be improved by allowing for directional air flows as compared to current systems which simply dump air into a designated open space.

Hello Director Shinn and Karen Hellman-

Thank you for meeting with us on Monday to discuss the information we plan to include in the 2 audit reports: Programming and Sunset Factors. During the meeting, Director Shinn mentioned that either he or his staff would send us some additional information by this Friday. We have already received some items (Thank you!), so this email is a friendly reminder for the items that were offered but have not yet been received, including:

For the Programming Audit:

1. Perspective and background information about other factors, such as finding a residence and employment (i.e. other factors besides programming), that are also important to help reduce recidivism. I think Director Shinn mentioned that this document is something the Department had written about previously as a kind of overview of all the programs and that he planned to share that copy with us to help provide context.
2. Karen Hellman planned to send us an updated copy of the 1140 utilization report. The one we mentioned was from April 12, 2021, but she mentioned she has a more current report.
3. I believe Karen Hellman planned to get us some HR information highlighting pay comparisons between private and government organizations (for SA counselors).

For the Sunset Factor Report (with Transition Program finding):

4. Director Shinn mentioned that he was concerned that the fiscal year (FY) 2020 Department Report that includes the Department cost per day for inmates in community supervision (\$11.24 per day), was low. We obtained that number from the Department's report. I believe he planned to look at it again to see if there needed to be any changes to that number. (To provide context, the FY19 report listed the community supervision

cost per inmate per day as \$11.41). Please let us know if any changes are made to your report and if they are, please send the updated report. Thank you.

5. Director Shinn mentioned that he had reviewed the Marshall Project on Covid-19, and that it had information about how programming in other states were canceled completely as opposed to Arizona, which tried to continue programming as much as possible. We've reviewed the website (www.themarshallproject.org) and found a lot of information regarding the number of covid tests, cases, deaths, etc. but we have been unable to find any information there on program offerings during Covid-19 (with the exception of 1 article geared towards college programming in prisons). Can you please point us directly to the information Director Shinn wanted us to review?
6. Director Shinn also mentioned that he may have some background information regarding the new intake process as there have been some changes, including that it has been expanded to include intake units in Tucson and other locations. If you already have written information on this topic, please send that. OR if desired, I can just call someone to discuss the new locations and new processes with a staff member of your choosing. We don't need a lot of information, just a basic understanding of where the new locations are and how, if at all, the intake process has changed since 2020 (when we did a few interviews on the intake processes at Alhambra and Perryville). So, if you choose this option, please provide a name and contact number.
7. Regarding sunset factor 2 and the locks replacement update, Director Shinn said that he has some pictures (and possibly other information) that he can send to show the locks replacement project's current state.
8. Finally, we specifically asked for an updated Department report that is submitted to JLBC regarding CO's staffing issues. The last report we have is from March 2021.

Thank you so much for all of the help to pull this information together by Friday. It's our hope that it won't be too laborious, and we appreciate all of your efforts on our behalf. If you have any questions, please feel free to contact me.

Finally, I've cc'd Brandi as I know she often helps us with these kinds of requests. I've cc'd Olga because I wasn't sure I have the correct email address for Director Shinn and I know she can ensure he gets this email, in case it is needed.

Sincere thanks to all for your help with this list!

Robin

Subject: ASPC visitation
To: dshinn@azadc.gov <dshinn@azadc.gov>

Good morning,

It has been well over a year since my 3 year old son has been able to see his father in prison. The DOC requires children over the age of 2 to wear masks. My son turned 3 in February and he has breathing issues and won't leave a mask on for 2 hours. When will the next phase of visitation reopening begin? To have more physical contact as opposed to wearing masks with a piece of plexiglass between us. My husband is currently incarcerated at ASPC Tucson, Cimarron Unit.

We have both been vaccinated. In all honesty if the governor has deemed it safe for our school aged children to go to school regardless of being vaccinated and to choose whether or not to wear a mask. Also, to not have to quarantine regardless of being exposed to Covid 19. I believe it shouldn't be an issue to be able to have inperson contact visitation with our families especially if we have been vaccinated. Can you please give me any type of timeline of when this may happen? So that way I can let my son know that he will be able to see his daddy soon and hug him. Thank you for your time and consideration regarding this matter, have a great weekend

Subject: Masks
Date: Wednesday, July 28, 2021 3:27:41 PM

I am tentative in asking and apologize for bothering with this, but, presently, Eyman Complex has vaccinated, for COVID-19, approximately 76 percent of the inmate population and, unfortunately, I have yet to hear accurate numbers for our staff. With our Governor lifting mask requirements state-wide there has been no notification on mask requirements within our facilities. Our staff ask, on a daily basis, if and when the mask requirement would be lifted for ADCRR. May we please get an update on this to satisfy front-line staff's concerns.

Description: This webinar will describe newly released CDC guidance for long-term COVID-19 prevention in correctional and detention facilities.

Objectives

The webinar will describe:

1. Current COVID-19 trends in the US
2. How CDC guidance for fully vaccinated people applies to incarcerated people and staff in correctional and detention facilities
3. Factors to consider when deciding how and when to loosen COVID-19 prevention measures
4. Stepwise approach for developing a long-term COVID-19 prevention plan

Intended outcomes

This webinar will contribute to attendees' understanding of:

1. Current COVID-19 trends
2. How transmission rates, vaccination coverage, population demographics, and facility characteristics can inform long-term COVID-19 planning in correctional and detention facilities
3. Why continued testing and evaluation of case data are important to inform policy changes over time
4. How to get in touch with the CDC Corrections Unit for further discussion of how guidance could be applied to specific settings

Target audience

Corrections professionals (including administrators, healthcare providers, custody staff, and professional organizations)

Public health professionals

Correctional researchers

- Please complete the survey before **June 14, 2021** by emailing the survey to tom_rich@abtassoc.com.
- Please retain a copy of the completed form for your records.

What types of inmates are included?

Inmates in your custody AND inmates held in privately-operated or contract facilities between January 1, 2020 and February 28, 2021.

- INCLUDE inmates who are unsentenced or who are sentenced to any length of time.
- INCLUDE inmates physically held in your prison facilities (e.g., prisons, penitentiaries, and correctional institutions; boot camps; prison farms; reception, diagnostic, and classification centers; release centers, halfway houses, and road camps; forestry and conservation camps; vocational training facilities; prison hospitals; and drug and alcohol treatment facilities for prisoners).
- INCLUDE inmates who are temporarily absent (less than 30 days), out to court, or on work release.
- INCLUDE inmates physically held in private or contract prison facilities in your state.
- INCLUDE inmates held in your facilities who are serving a sentence for your jurisdiction and another jurisdiction at the same time.
- INCLUDE inmates held in your facilities for another jurisdiction.
- EXCLUDE inmates held in local jails and inmates held in state-operated or private facilities located in other jurisdictions.

Definitions

Coronavirus - Refers to *coronavirus disease* (COVID-19) and the virus causing the disease, *severe acute respiratory syndrome coronavirus 2*, (SARS-CoV-2).

TEST - Refers to the viral or PCR test for COVID-19. Do not count serology or antibody tests for COVID-19.

ANTIBODY TEST - Serology test to detect antibodies produced in response to COVID-19. Do not count viral or PCR tests for COVID-19 as antibody or serology tests.

COVID-19 DEATH - A death where COVID-19 was the single cause of death, or one of the contributing causes. The cause of death could be determined by a positive viral COVID-19 test, or classified on the official death report as suspected or corona-virus related.

Under the Paperwork Reduction Act, we cannot ask you to respond to a collection of information unless it displays a currently valid OMB control number. Public reporting burden for this collection of information is estimated to average 2.5 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspects of this collection of information, including suggestions for reducing this burden, to the Director, Bureau of Justice Statistics, Washington, DC 20531; and to the Office of Management and Budget, OMB No. 1121-0373, Washington, DC 20503.

SECTION I: PRISON POPULATION, ADMISSIONS, RELEASES

1. Between January 2020 and February 2021, how many persons were IN THE CUSTODY OF and ADMITTED to your state-operated and private prison facilities?

- INCLUDE all types of admissions to your prison system, for sentences of any length or any total time served.
- EXCLUDE prisoners under your jurisdiction held in local jails or in out-of-state prison facilities.

IN CUSTODY ON--			ADMITTED DURING THE ENTIRE MONTH OF--		
2020	Jan. 31	42,422	2020	January	1,438
	Feb. 29	42,282		February	1,201
	Mar. 31	41,984		March	1,182
	Apr. 30	41,449		April	938
	May 31	41,005		May	1,065
	Jun. 30	40,151		June	635
	Jul. 31	39,339		July	557
	Aug. 31	39,153		August	1,117
	Sept. 30	38,894		September	996
	Oct. 31	38,495		October	975
	Nov. 30	38,141		November	892
	Dec. 31	37,731		December	959
2021	Jan. 31	37,396	2021	January	886
	Feb. 28	36,975		February	864

2. Between January 1, 2020 and February 28, 2021, how many prisoners in the custody of your state-operated and in private prison facilities ----

a. Were RELEASED?

- INCLUDE all persons, sentenced to any length of time or unsentenced, released for any reason.
- EXCLUDE prisoners under your jurisdiction held in local jails or in out-of-state prison facilities.

19,169

b. Received EXPEDITED RELEASE ① in response to the coronavirus pandemic?

- ① Prisoners are released prior to their scheduled and/or expected release date or parole/probation eligibility date, even if only by one day. These can include sentenced or unsentenced prisoners.
- INCLUDE releases in order to limit prisoner risk and exposure, or due to coronavirus related understaffing, court orders, legislative mandate, etc.
- EXCLUDE prisoners under your jurisdiction held in local jails or in out-of-state prison facilities.

0

3. Of those who received EXPEDITED RELEASE (item 2b), what were the criteria that your state used to determine who should be released early? (please check yes or no for each)

Criteria	Yes	No	N/A	
Risk-assessment score	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

SECTION II: PRISONER TESTING AND DEATHS

4. Between March 1, 2020 and February 28, 2021 ----

a. How many coronavirus TESTS (i) did your state administer to prisoners in the custody of your state-operated or in private prison facilities?

- (i) *Coronavirus test refers to the viral test for COVID-19. Do not count antibody or serology tests.*
- ✓ *INCLUDE sentenced or unsentenced prisoners tested either on or off facility grounds (e.g. at hospitals, medical centers, private labs, intake centers, or other health vendors).*
- ✓ *INCLUDE all tests administered, even if individuals got multiple tests over time.*
- X *EXCLUDE prisoners under your jurisdiction held in local jails or out-of-state prison facilities.*

70112

b. Of the tests in item 4a, how many TESTS were POSITIVE for coronavirus?

- X *EXCLUDE "presumptive positive" test results.*

12058

c. Individuals may test positive for coronavirus multiple times. Between March 1, 2020 and February 28, 2021, how many UNIQUE PRISONERS (i) in the custody of your state-operated or in private prison facilities tested positive AT LEAST ONE TIME?

- (i) *Multiple positive test results for the same individual should be counted only once.*
- X *EXCLUDE prisoners under your jurisdiction held in local jails or out-of-state prison facilities.*
- X *EXCLUDE antibody or serology test results.*

Males	11811
Females	247
TOTAL	12058

d. Of those UNIQUE PRISONERS who tested positive for coronavirus (item 4c), how many were---

White , <i>not of Hispanic origin</i>	4797
Black , <i>not of Hispanic origin</i>	1683
Hispanic or Latino	4667
American Indian or Alaska Native , <i>not of Hispanic origin</i>	628
Asian , <i>not of Hispanic origin</i>	54
Native Hawaiian or Other Pacific Islander , <i>not of Hispanic origin</i>	0
Two or more races , <i>not of Hispanic origin</i>	0
Other racial category , <i>not of Hispanic origin</i>	208
Unknown racial category , <i>not of Hispanic origin</i>	21
TOTAL (<i>Sum should equal TOTAL in Item 4c</i>)	12058

5. Between March 1, 2020 and February 28, 2021, how many PRISONERS DIED from the coronavirus while in the custody of your state-operated and in private prison facilities?

INCLUDE all deaths from coronavirus of prisoners---

- ✓ *IN CUSTODY of your state-operated and private prison facilities.*
- ✓ *WHILE IN-TRANSIT to an external medical facility or other prison facility.*
- ✓ *UNDER YOUR JURISDICTION but being treated at an external medical facility.*
- ✓ *Regardless of where and when the prisoner contracted COVID-19.*
- ✓ *Include all deaths where coronavirus was suspected or confirmed to be the cause of, or significant contributor to death*

X *EXCLUDE deaths of prisoners under your jurisdiction, but who died in local jails or out-of-state prison facilities.*

a. TOTAL deaths ⓘ from coronavirus

ⓘ *Deaths where coronavirus was suspected or confirmed to be the cause of death OR a significant contributor to the death.*

Males	48
Females	0
TOTAL	48

b. Of those prisoners who DIED from coronavirus (item 5a TOTAL), how many were---

White, not of Hispanic origin	25
Black, not of Hispanic origin	0
Hispanic or Latino	15
American Indian or Alaska Native, not of Hispanic origin	0
Asian, not of Hispanic origin	0
Native Hawaiian or Other Pacific Islander, not of Hispanic origin	0
Two or more races, not of Hispanic origin	0
Other racial category, not of Hispanic origin	0
Unknown racial category, not of Hispanic origin	0
TOTAL (Sum should equal the item 5a TOTAL)	48

c. Of those prisoners who DIED from coronavirus (item 5a TOTAL), how many were ages--

24 years or younger	0
25 - 34 years	0
35 - 44 years	0
45 - 54 years	0
55 - 64 years	11
65 - 74 years	18
75 years or older	13
TOTAL (Sum should equal the item 5a TOTAL)	48

d. How many of the total deaths (item 5a TOTAL) were attributed to coronavirus based on a medical examiner's or coroner's evaluation (such as an autopsy, postmortem exam, or review of medical records)?

48

e. Of those female prisoners who DIED from coronavirus (item 5a FEMALES), how many were pregnant at the time of death?

0

e. Between March 1, 2020 and February 28, 2021, how many **TOTAL PREGNANT FEMALES** were in the custody of your state-operated or in private prison facilities for any period of time?

64

SECTION III: TRANSMISSION MITIGATION AND VACCINATION

6. At any time between March 1, 2020 and February 28, 2021, did your department of corrections implement any of the following mitigation tactics in response to the coronavirus pandemic in its state-operated and private correctional facilities? (please check one box for each policy)

	In no facilities	In some facilities	In all facilities	Unknown
Testing of all new prisoners at admission (not incl. antibody/serology tests)	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Automatic quarantine of new admissions	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Lockdown of prisoners in cells	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Suspension of transfers between prisons or local facilities (complete halt of transfers for any length of time)	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Suspension of educational programs (complete halt of programs for any length of time)	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Suspension of drug and alcohol treatment programs (complete halt of programs for any length of time)	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Suspension of prison labor programs (complete halt of programs for any length of time)	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Suspension of in-person family visitation to prisoners (complete halt of visitation for any length of time)	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Suspension of in-person legal visitation to prisoners (complete halt of visitation for any length of time)	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Suspension of ministry/religious service programs (complete halt of programs for any length of time)	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Daily temperature checks for prisoners	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Temperature checks for staff at beginning of each shift	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Isolation/quarantine of symptomatic prisoners	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Enforced sick or administrative leave for symptomatic staff	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Provision of hand sanitizer for prisoners	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Provision of face masks to prisoners	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Provision of face masks or gloves to staff	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Viral testing of prisoners before release (not incl. antibody/serology tests)	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Antibody/serology testing of staff	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Antibody/serology testing of prisoners	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

7. On what date did your department of corrections first ADMINISTER A VACCINE ⓘ for coronavirus to prisoners or staff in your state-operated or private correctional facilities?

ⓘ The U.S. Food and Drug Administration approved the first coronavirus vaccine for use on December 11, 2020. Please report the date the first DOC staff or prisoner was given the vaccine shot in your state.

- ✓ INCLUDE sentenced or unsentenced prisoners or staff who came into contact with prisoners OR who worked inside state-operated or private correctional facilities.
- ✓ INCLUDE vaccinations of staff that occurred from vaccine stock given to the department of corrections
- X EXCLUDE prisoners under your jurisdiction held in local jails or out-of-state prison facilities.

January 16th , 2021

8. By February 28, 2021, how many staff and prisoners had received at least one dose of the coronavirus vaccine?

Sentenced or unsentenced prisoners	0
Staff members	2610
TOTAL	2610

9. Vaccines were in limited supply in the months after FDA approval. What policies were adopted by your department of corrections for vaccination distribution? (please check one box for each policy)

Policy	Yes, we followed this policy	No, this was not a policy we followed	N/A
All staff members in facilities were vaccinated before any prisoners received the vaccine	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
All prisoners (with the exception of those who were medically unable to be vaccinated) were required to receive the vaccine	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Prisoners were allowed to opt-in or opt-out of vaccination	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
All staff members (with the exception of those who were medically unable to be vaccinated) were required to receive the vaccine	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Staff members were allowed to opt-in or opt-out of vaccination	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Older prisoners were prioritized for vaccination, over younger prisoners	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Prisoners with chronic or other infectious diseases were prioritized for vaccination, over healthy prisoners	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Prisoners soon to be released were prioritized for vaccination, over those who would not be released in the near future	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Newly admitted prisoners were prioritized for vaccination, over those already in the general population	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Prisoners were offered incentives to receive the vaccine, such as free phone calls, extra family visitation sessions, or money added to their canteen balance	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

SECTION IV: STAFF QUESTIONS

10. On February 28, 2021, how many unique STAFF MEMBERS were employed by your department of corrections and who worked inside one of your state-operated correctional facilities?

- ✓ INCLUDE correctional officers, health care workers, janitorial staff, and any other paid personnel who came into contact with prisoners OR who worked inside a correctional facility operated by your DOC.
- X EXCLUDE staff who work for private correctional operators or prison volunteers.
- X EXCLUDE DOC-employed staff who do not work in correctional facilities.

8000

11. Between March 1, 2020 and February 28, 2021, how many STAFF MEMBERS employed by your department of corrections and who worked inside one of your state-operated correctional facilities----

a. Tested POSITIVE for the coronavirus at least once?

- ✓ INCLUDE any positive viral coronavirus test, regardless of where it was administered.
- ✓ INCLUDE paid personnel who either came into contact with prisoners OR who worked inside a correctional facility operated by your DOC.
- X EXCLUDE antibody or serology tests, as well as "presumptive positive" test results.
- X EXCLUDE staff who work for private correctional operators or prison volunteers, and DOC-employed staff who do not work in correctional facilities

2535

b. DIED ⓘ from the coronavirus?

- ⓘ All deaths where coronavirus was the cause of death OR a significant contributor to the death, regardless of where and when the staff member contracted coronavirus

Subject: COVID-19 Testing After Vaccination
To: Larry Gann <lgann@azadc.gov>, Grant Phillips <gphillips@azadc.gov>

Larry,

At this time, I think that it is appropriate to move forward with new recommendations for COVID-19 testing of employees and inmates.

According to CDC guidelines, fully vaccinated people with no COVID-19-like symptoms and no known exposure should be exempted from routine screening testing programs.

At this time, the following developments have taken place:

1. Multiple employees have been fully vaccinated.
2. Employees with certain job duties, like transportation, have been fully vaccinated.
3. By the end of May 2021, close to 80% of the inmate population will be fully vaccinated.

'Fully Vaccinated' refers to individuals for whom 2 weeks have passed since completion of their single/double dose vaccine series.

Current rules in place (mask, social distancing, handwashing, etc.) will continue to be enforced for all individuals, regardless of COVID-19 vaccination status.

These are my recommendations:

1. Employees working in ADCRR facilities and private prisons:

- Fully vaccinated employees no longer need routine testing for COVID-19, as long as they do not have symptoms of COVID-19 and do not have a known exposure to COVID-19.
- Any fully vaccinated employee who becomes symptomatic for possible COVID-19 will be sent home. Clearance to return to work by primary care provider and Occupational Health Nurse.
-

Any fully vaccinated employee who is exposed to a known case of COVID-19 and is asymptomatic may continue to work, while following COVID-19 precautions (mask, social distancing, handwashing, etc.).

- Any employee who has not been fully vaccinated will continue to follow current protocols for COVID-19 screening testing.

2. Inmates:

- Fully vaccinated inmates no longer need routine testing for COVID-19, as long as they do not have symptoms of COVID-19 and do not have a known exposure to COVID-19.
- Any fully vaccinated inmate who becomes symptomatic for possible COVID-19 will be isolated and tested for COVID-19.
- Any fully vaccinated inmate who is exposed to a known case of COVID-19 will be isolated and tested for COVID-19.
- Any inmate who has not been fully vaccinated will continue to follow current protocols for COVID-19 screening testing.

Subject: 4-29-21 ADHS COVID-19 MEMO
Date: Thursday, April 29, 2021 9:03:57 PM

Dear Elected Officials,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. The Department would like to provide a few COVID-19 updates.

-

As of today, over 4.9 million doses of COVID-19 vaccine have been administered in Arizona with over 2.9 million Arizonans (40%) receiving their first doses of vaccine and over 2.2 million fully vaccinated. Over 335,000 doses of vaccine were administered throughout Arizona last week.

-

More vaccine data at the state and county level is available on our [Data Dashboard](#).

-

As part of ongoing efforts at the state and local level to outreach to underserved communities, Dr. Christ joined several community leaders in a tele-town hall for residents of Yuma yesterday evening. This event provided information about COVID-19 vaccine and other COVID-19 related topics and allowed residents to get their questions answered. A Spanish tele-town hall for this community will take place Friday evening, with additional outreach efforts planned in more areas of the state in the coming weeks.

-

This week, two announcements from CDC underscored the benefits of COVID-19 vaccination.

-

New guidance from CDC indicates that fully vaccinated individuals can go without masks in a number of circumstances. Read more about the guidance on [Dr. Christ's blog](#).

-

A study published this week in CDC's Morbidity and Mortality Weekly Report showed that being vaccinated significantly reduced risk of hospitalization among those 65 and older. This is great news for the over 80% of Arizonans 65

and older who have been vaccinated. Additional information about the study is available [here](#).

- ADHS continues to work with partners to operate seven high throughput state vaccination sites that serve as a national model. In total, over 28% of all doses administered in Arizona have been administered at a state vaccination site. About 114,000 doses were administered at state PODs in the last week.
 - This week, ADHS [announced](#) walk-ins would be accepted at all state vaccination sites. While making an appointment will offer the quickest vaccination visit, individuals without appointments will also be vaccinated at all state sites. Same day appointments are also available at all state sites.
 - Of note, the vaccination site at Gila River Arena will pause operations on days the Coyotes play at home. This includes upcoming game days of April 30, May 1, May 3, and May 5.
- This Friday at 11 AM tens of thousands of appointments will be released across all state vaccination sites. All Arizonans 16 and older are eligible to book these appointments, which will span from May 3 to May 9.
 - Appointments can be booked online at <http://podvaccine.azdhs.gov/> or by calling 1-844-542-8201 for assistance in English and Spanish. A video tutorial on online appointment scheduling is available [here](#).
 - Sites often have same day appointments available and many sites offer walk in vaccination with no appointment needed. Please encourage your constituents to visit <http://podvaccine.azdhs.gov/> or call 1-844-542-8201 to find available appointments.
- At the end of last week, [ADHS issued guidance](#) to providers to resume vaccination with Johnson and Johnson vaccine following the FDA and CDC recommendation to lift the Johnson and Johnson pause.
- A list and map of vaccination sites throughout Arizona with contact and registration information is available at azhealth.gov/findvaccine and is routinely updated as new vaccination sites are added.

- Vaccines are widely available at pharmacies and healthcare partners throughout the state as well as through special community events hosted by local public health and their partners.
- Over 1200 Arizona providers have received COVID-19 vaccine allocations in addition to nearly 900 pharmacies in Arizona that have received federal vaccine allocations.
- ADHS' Healthcare-Associated Infections team has begun preventative infection control assessments at long term care facilities throughout Arizona. These voluntary technical assistance visits will help support facilities to implement and maintain best practices for infection control and prevention to reduce the risk of future COVID and other infectious disease outbreaks.
- ADHS continues to monitor COVID-19 data:
 - After reaching a peak in cases with over 65,000 cases reported the week of Jan. 3, cases have significantly decreased in Arizona. About 5000 cases were reported the week of April 18.
 - Percent positivity remained around 4% for the week of April 18.
 - The number of people hospitalized with COVID-19 continues to remain low, with about 7% of inpatient beds occupied by COVID patients.
 - The Arizona Surge Line maintains operations to provide bed placement for patients who are unable to receive the level of care they need at their local hospital. Transfer requests through the Surge Line remain very low, with between one and three requests per day.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Hello Tabitha,

Please see below for the information that can be shared with JLBC if the Department needs to testify.

The Executive decided to allocate Coronavirus Relief Funds (CRF) to the Department of Corrections, Rehabilitation, & Reentry (ADCRR) to offset COVID-19 eligible expenditures. Federal guidance specifies the various ways in which the CRF can be used. The allocated \$5 million in CRF funding was used to offset personnel costs at the Department which is a legal use of the funds. It was the Executive's intent that the freed up funds would allow the Department to pay for COVID-19 testing and other COVID-19 related expenditures. Given the unpredictable nature of the COVID-19 pandemic, the Executive sought to maximize the flexibility of using their freed up funds on testing and other COVID-19 supplies. Beyond testing, the Department anticipates other COVID-19 related expenses and would like to move the \$5M from the PS&ERE appropriation to be able to utilize the funds as intended.

Please let me know if you have any questions!

On Thu, Mar 18, 2021 at 11:41 AM Tabitha Johnson <tjohnson@azadc.gov> wrote:
Good Morning Charlotte

ADCRR received its first billing from DHS. Attached is an appropriation transfer request for Director Gress' review and approval. Can you please advise when approved.

Also, SB 1692 says we must submit an expenditure plan to JLBC for review before spending these monies other than PS and ERE. Do ADCRR have OSPB approval to send the same letter to JLBC?

6 Of the amount appropriated in the operating lump sum, \$408,913,100
7 is designated for personal services and \$247,206,900 is designated for
8 employee-related expenditures. The department shall submit an expenditure
9 plan to the joint legislative budget committee for review before spending
10 these monies other than for personal services or employee-related
11 expenditures.

thanks

Hello Team,

As you will recall, OSPB authorized \$5M in CRF funding to offset CRF eligible expenditures. This \$5M was earmarked to pay DHS for the second round of system-wide COVID testing. Please continue to reserve these funds for this purpose.

DHS advised that they will begin to bill ADCRR for the testing on a monthly basis. They will not exceed the \$5M threshold.

DEMA has advised that ADCRR can submit a project worksheet for Public Assistance reimbursement. The COVID testing is an eligible expenditure. Can the Department please prepare the project worksheets to submit for reimbursement? OSPB and DEMA are happy to assist as needed.

Thank you for your continued teamwork!

Blake - thank you for the update and modifications to meet our current Infectious Disease precautions. We will have our Contract Beds Operations Director available onsite to facilitate logistical support. Thank you for the efforts to increase external awareness of the positive impact and outcomes these valuable programs provide.

Subject: Additional COVID Safety precautions (AZ communications project with DCI)

Blake,

Per our call with Chris from DCI, this is what we understood from your conversation with Director Shinn. We will be implementing the following additional mitigation safety precautions:

INMATE INTERVIEWS HELD IN ZOOM FORMAT

- We have **TWO inmates that will be interviewed at Kingman and ONE at Phoenix West.**
- We will interview the inmate in one empty room per person (pre-set with camera, lighting, and microphone) in the **Administrative area.**

- This **ZOOM format** will create social distancing as they will be in a separate room alone while the interviewer asks questions in an adjacent room using **ZOOM technology/iPad**.
- **All equipment and seating will be sanitized between interviews.**

STAFF INTERVIEWS OFFSITE

- **All staff interviews will take place OFFSITE from 10AM-2PM**
- **4/6: Ramada Inn, 3100 E Andy Devine Ave, Kingman, AZ**
- **4/7: Holiday Inn, 1500 N 51st Ave, Phoenix, AZ**
- **The interviews will last about 30 minutes each**
- **We will interview each staff member individually**
- **15 minute sanitization of the filming equipment and area for the next interviewee**

Subject: Re: COVID-19 testing after vaccinations
Date: Wednesday, March 17, 2021 11:46:20 AM

Thank you Grant.

And with the referenced guidance from the CDC, Larry; I believe it is not necessary to test at intervals Medical Bureau employees who have been vaccinated. Though, testing remains prudent after a known exposure event.

Joe

On Tue, Mar 16, 2021 at 4:48 PM Grant Phillips <gphillips@azadc.gov> wrote:

Joe and Larry,

I wanted to update you on the need for testing of employees and inmates after they are fully vaccinated for COVID-19.

Based on this guidance, I believe that our fully vaccinated employees do not need to get tested unless they become symptomatic.

From the CDC website:

For the purposes of this guidance, **people are considered fully vaccinated for COVID-19 ≥ 2 weeks after they have received the second dose in a 2-dose series (Pfizer-BioNTech or Moderna), or ≥ 2 weeks after they have received a single-dose vaccine (Johnson and Johnson (J&J)/Janssen).†**

Fully vaccinated people can:

Visit with other fully vaccinated people indoors without wearing masks or physical distancing

Refrain from quarantine and testing following a known exposure if asymptomatic

For now, fully vaccinated people should continue to:

Take precautions in public like wearing a well-fitted mask and physical distancing

Wear masks, practice physical distancing, and adhere to other prevention measures when visiting with unvaccinated people who are at [increased risk for severe COVID-19](#) disease or who have an unvaccinated household member who is at increased risk for severe COVID-19 disease

Avoid medium- and large-sized in-person gatherings

Get tested if experiencing [COVID-19 symptoms](#)

Fully vaccinated people with COVID-19 symptoms

Although the risk that fully vaccinated people could become infected with COVID-19 is low, any fully vaccinated person who experiences [symptoms consistent with COVID-19](#) should [isolate themselves from others](#), be clinically evaluated for COVID-19, and tested for SARS-CoV-2 if indicated. The symptomatic fully vaccinated person should inform their healthcare provider of their vaccination status at the time of presentation to care.

Fully vaccinated people with no COVID-like symptoms following an exposure

Fully vaccinated people with no COVID-like symptoms do not need to [quarantine](#) or be tested following an exposure to someone with suspected or confirmed COVID-19, as their risk of infection is low.

Fully vaccinated people who do not quarantine should still monitor for [symptoms of COVID-19](#) for 14 days following an exposure. If they experience symptoms, they should isolate themselves from others, be clinically evaluated for COVID-19, including SARS-CoV-2 testing, if indicated, and inform their health care provider of their vaccination status at the time of presentation to care.

Fully vaccinated residents of non-healthcare congregate settings

Fully vaccinated residents of non-healthcare congregate settings (e.g., correctional and detention facilities, group homes) should continue to quarantine for 14 days and be tested for SARS-CoV-2 following an exposure to someone with suspected or confirmed COVID-19. This is because residential congregate settings may face high turnover of residents, a higher risk of transmission, and challenges in maintaining recommended physical distancing.

Here is the CDC reference that addresses the topic:

<https://www.cdc.gov/coronavirus/2019-ncov/vaccines/fully-vaccinated-guidance.html>

Sincerely,
Grant

Subject: [REDACTED]: Continuing Needs/Mentally Ill
Date: Tuesday, March 16, 2021 11:04:32 AM

Attention:

[REDACTED] is still suffering from having been moved from his mental health treatment program at Alhambra (which apparently was closed so that quarantine inmates could be housed at what formally was the mental health treatment center at Alhambra). He is being administered an anti-seizure medication (perhaps as a result of the information which I sent to ADCRR which documented his seizure disorder), and is attempting to adjust to the antipsychotic medication he is now being given. He still suffers auditory hallucinations, which is why he has so much trouble living in close quarters with many others and is part of the reason why he needs mental health treatment and living quarters.

His mail delivery (incoming/outgoing) appears to be slow; even tampered with. And he hasn't called his Mother since 2/9/21.

His mother and I are still hoping that [REDACTED] will be provided treatment; not just pills, and that he will be allowed a phone call soon.

Subject: [REDACTED]

Donna,

After we spoke this morning, I received a letter from [REDACTED] dated 3/1/21 along with a list of medications that I had asked him to send me. The list shows that he is now being given seizure medication and is no longer on haldol injections but a different antipsychotic that he is trying to adjust to.

The previous letter I received was dated 2/9/21, mailed on 2/23/21 and received on 2/27/21 at which time he asked me to please write to let him know I was alive and to pray for him because of auditory hallucinations, although I was mailing at least 3-5 letters weekly to try and calm his paranoia/anxiety. Mail situation is always bad and he very seldom gets all letters which is why we were thankful for the tablet but it was taken away along with commissary and phone.

Since then, I have certified several letters and hoping this doesn't anger them. I haven't received responses from the last 2 certified letters but did get return cards showing they were signed for. He was allowed a phone call on 1/3/21 and on 2/9/21 but nothing so far this month.

The site shows that he is still in Yuma/Cheyenne CDU. I am hoping they transfer him back to inpatient soon. He has been too long without the treatment he needs and has been suffering with auditory hallucinations for the most part since leaving inpatient treatment a year ago. It is unlike him to not contact weekly even if only by mail.

Thank you kindly,

[REDACTED]

Subject: Florence West- Concerns

Good Morning,

My loved one is currently being housed at the Florence West Facility. Recently there has been an "Outbreak" of COVID cases in the facility. Per my loved one, they are not housing the inmates 6 feet apart (these are dorm style buildings, bunk beds), providing cleaning materials, mandating mask-wearing while off their beds (considering they are not allowed to leave the building due to a consistent quarantine being in place). Recently two inmates tested positive in my loved ones building. Instead of the facility removing those inmates (as per the CDC Guidelines to ensure the healthy and safety of non infection persons is not put at risk), when this was brought to the attention of the staff in charge, they had zero care for putting the rest of the non-infected inmates lives at risk. When my loved one told them they have older men in there with health issues etc he was told "Look where you are; you're in prison — deal with it". There has also been note of inmates receiving the vaccine while infected with COVID-19, this is a major health concern as the CDC has made it clear any persons currently infected with COVID-19 must NOT receive the vaccine for atleast 90 days as it may cause the virus to intensify and increase the infected persons likelihood of developing severe symptoms/complications.

The other concern of Florence West not controlling the spread outside of putting the health and safety of the inmates at risk but also the staff, which also can arise a concern for public safety as they leave the facility and have the potential of infecting the general population.

I have attached an email from my loved one, I blocked his name for the safety of him and myself as there have been threats to inmates not to speak out or if they do reach out to media to "watch out!"

I am hoping you can possibly give us insight, reach out etc. We are stuck and scared, however we trust Middle Ground and know this is our safest resource.

I ask if this does get address with ADCRR, my name remains anonymous.

Kindly,

Redacted

Subject: 3-10-21 ADHS COVID-19 MEMO
Date: Wednesday, March 10, 2021 6:22:51 PM

Dear Elected Officials,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. The Department would like to provide a few COVID-19 updates.

-

As of today, over 2.25 million doses of vaccine have been administered in Arizona with nearly 1.45 million Arizonans receiving first doses of vaccine and over 825,000 having a complete series. Over 320,000 doses of vaccine were administered throughout Arizona last week.

-

More information about vaccination by zip code, county and by demographics is available on the Vaccine Administration and Zip Code Vaccinations by Day sections of our [data dashboard](#).

-

ADHS continues to work with partners to operate high throughput state vaccination sites that serve as a national model:

-

Nearly 570,000 doses of COVID-19 vaccine have been administered at the 4 state vaccination sites - State Farm Stadium, Phoenix Municipal Stadium, University of Arizona, and Chandler Gilbert Community College. This is 25% of all doses administered in the state.

-

On Saturday, approximately 13,000 appointments were released at the University of Arizona vaccination site. Additional appointments across all state vaccination sites will be released over the next week.

-

Those struggling with scheduling an appointment at a state vaccination site can call 1-844-542-8201 for assistance in English and Spanish.

-

Dr. Christ joined community leaders for a tele town hall event yesterday evening for

those living in the 85009 zip code. More than 800 individuals attended. A follow up town hall conducted in Spanish will take place tomorrow, March 11. This is one of many activities ADHS and partners are engaged in to support underserved communities across Arizona and a follow up to town halls conducted two weeks ago. Other recent activities:

- ADHS [piloted an outreach effort](#) to get those 65 and older living in the 85009 zip code registered for vaccination at Phoenix Municipal Stadium, including coordinating transportation for those lacking access. Over 400 residents were vaccinated through this pilot project.
- ADHS has worked to distribute English and Spanish social media messages, yard signs, and other communication materials to share information about COVID-19 prevention and vaccination with the 85009 residents. Similar outreach is planned in coming weeks for other parts of the county and the state.
- A list and map of vaccination sites throughout Arizona with contact and registration information is available at azhealth.gov/findvaccine and is routinely updated as new vaccination sites are added.
 - Approximately 445 retail pharmacy locations throughout Arizona are receiving a direct allocation of vaccine from the federal government. Arizonans 55 and older are eligible for vaccination at these sites. Current participants include Fry's, Safeway/Albertsons, Walgreens, CVS, and Walmart, with more retailers to be added as vaccine supplies grow.
- This week, over 260,000 doses of Pfizer and Moderna vaccine arrived throughout the state, with a slight increase in doses expected next week. The first doses of Janssen vaccine have been delivered within the last week and counties and tribes are beginning to administer these.
 - No additional Janssen vaccine is expected to be allocated to Arizona until later this month.
 - A summary of vaccine allocation by jurisdiction is available [here](#).

- This week, CDC released guidance for individuals who have been fully vaccinated. More information is available in a [recent blog by Dr. Christ](#).
 - Guidance indicates that those fully vaccinated
 - Can gather indoors with fully vaccinated people without wearing masks
 - Can gather indoors with unvaccinated individuals from one other household without masks if all individuals are at low risk for severe illness from COVID-19
 - Do not have to be tested or quarantine if exposed to COVID-19 unless they develop symptoms.
 - Fully vaccinated individuals 14 days after their second dose of Pfizer or Moderna OR 14 days after their single-dose of Janssen.
 - Fully vaccinated people should still wear masks and practice social distancing when out in public, avoid medium to large gatherings, and wear masks when gathering with multiple households of unvaccinated people or visiting an unvaccinated person at increased risk of severe COVID-19 illness.
- Early last week, following a unanimous decision by the Vaccine and Antiviral Prioritization Committee (VAPAC), [ADHS announced an update](#) to the COVID-19 vaccine prioritization model that provides eligibility for vaccination on the basis of age or frontline essential worker status.
 - The map on the [Find Vaccine webpage](#) and posted [here](#) has been updated to show which age category is currently eligible by county.
 - A summary of the updated prioritization model is posted [here](#).
- ADHS continues to monitor COVID-19 data and we are encouraged by the downward trends:

- After reaching a peak in cases with over 65,000 cases reported the week of Jan. 3, cases have significantly decreased in Arizona for eight consecutive weeks. About 5,500 cases were reported the week of Feb. 28.
- Percent positivity decreased to around 5% for the week of Feb. 28, the lowest it's been since October 2020.
- The number of people hospitalized with COVID-19 continues to sharply decrease, with the total percent of occupied inpatient beds dropping below 80%.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Here are some social media posts that you may find useful to disseminate to your constituents:

Judy,

Instead of:

As doses are allocated, any inmate age 55 and over will be offered the vaccine. There are approximately 7,400 inmates who meet this current age criteria.

I recommend changing it to:

As doses are allocated, any inmate age 55 and over will be offered the vaccine. In addition, inmates with high risk medical conditions will be offered vaccines based on guidance from ADHS.

Sincerely,
Grant

On Thu, Mar 4, 2021 at 1:32 PM Judy Keane <jkeane@azadc.gov> wrote:

All - Please see the following as the latest release. The areas highlighted in yellow are the sections we modified to reflect Dr. Christ's message. In a separate email she has confirmed that those who are 55 and above are currently eligible for the vaccines and so we have included that in the release as well. Feel free to clarify anything in the release as to accuracy.

Thx.
Judy

ADCRR Begins Offering COVID-19 Vaccines to Inmates

March 4, 2021

(PHOENIX)—This week, the Arizona Department of Corrections, Rehabilitation and Reentry will begin offering the COVID-19 mRNA Moderna Vaccines to eligible inmates. The first to receive the vaccines will be those in infirmaries and the Special Needs Unit (SNU), who are at higher-risk for complications if infected with COVID-19, as has been determined by the Arizona Department of Health Services.

“We are grateful for the support of Governor Doug Ducey and our ongoing collaboration with ADHS Director, Dr. Cara Christ, to offer our inmate population the vaccine, especially those who are in the higher-risk category for COVID-19,” said ADCRR Director David Shinn. “ADCRR continues to work closely with ADHS to ensure that all eligible inmates who are interested in receiving the vaccine are given the opportunity to do so. It is another significant step in keeping inmates, correctional employees and our communities safe.”

The vaccines will be administered by Centurion, ADCRR's medical services vendor. As doses are allocated, any inmate age 55 and over will be offered the vaccine. There are approximately 7,400 inmates who meet this current age criteria.

The start of the vaccine rollout follows on the heels of ADCRR completing a second-round of mass testing of more than 37,000 inmates for COVID-19. Last August, ADCRR became one of only a handful of state correctional agencies in the nation to mass test their entire inmate population and continues to remain in this category with the second round of inmate testing.

Since the beginning of the pandemic, ADCRR has followed CDC and ADHS guidelines in taking broad-steps to mitigate the risk and impact of COVID-19 in all of its facilities. Keeping our staff, inmates, and communities safe continues to be our top priority.

COVID-19 data continues to be updated on ADCRR's dashboard at: <https://corrections.az.gov/adcr-covid-19-dashboard>. Please note the data on the dashboard is cumulative back to February 2020. For the latest regarding ADCRR's COVID-19 management strategy, please visit: <https://corrections.az.gov/covid-19-management-updates>.

This looks good, but let's hold for now. I want to make sure it's consistent with the recent change on vaccine eligibility announced to the general public. I made changes that reflect how I would ideally envision the release, though I understand that may be impacted by vaccine availability and Centurion's ability to administer.

Thanks!

Subject: Clean Version
Date: Monday, February 22, 2021 1:02:12 PM

A [story](#) claiming that hundreds of inmates are being held beyond their release date as a result of IT issues has been evaluated and – is false. While it is accurate that the Arizona Department of Corrections, Rehabilitation and Reentry ACIS system does not currently calculate release dates in accordance with the parameters established by SB 1310, the Department has not allowed this to delay any release dates. Further, there is no bug with the ACIS system, but rather a change that is occurring regarding the evolution of the software that pre-dates SB 1310 legislation along with other ACIS improvements. The previous system at ADCRR also did not automatically calculate sentence release dates.

Release eligibility data is monitored constantly and ADCRR updates the calculation multiple times daily to ensure appropriate release times are calculated and acted upon. Beyond any automated sentence calculations, it is standard practice to review and validate sentence calculations manually to certify release dates. ADCRR has an exceptional record of accurate sentence calculations based on our current manual method, which have been litigated and consistently upheld by Arizona courts.

It is also important to note that ADCRR has continued programming throughout the COVID-19 pandemic, but it has been necessary to limit class sizes in order to provide appropriate social distancing and other protocols to mitigate potential COVID-19 spread in order to protect our inmates and staff.

As of today, ADCRR currently has 356 inmates currently enrolled in programming which is required for them to complete as part of Senate Bill 1310 criteria. There are currently 255 inmates with 210 days left to serve who are being prioritized to take part in programming. The 356 currently in programming may qualify for early release based on the 1310 criteria. Upon completion of programming, each inmate's release date will be recalculated.

Since March, 2020, ADCRR has completed a total of 5, 877 inmate programs. These programs include Functional Literacy, GED/High School, Substance Abuse Treatment, and Sex Offender Treatment.

This email contains information that is intended only for the person(s) to whom it is addressed. If you received this communication in error, please do not retain it or distribute it and notify the sender immediately.

CC: Middle Ground Prison Reform <middlegroundprisonreform@msn.com>

The below ABSURD policy has reportedly been implemented at Kingman Huachuca Unit. Actually, I will modify that to : UNCONSTITUTIONAL.

You cannot turn off the water supply for all but 2 hours/day. Please read all of the concerns listed below, including the lack of outdoor recreation which is apparently taking place. We are well into almost 1 year of dealing with the Covid 19 pandemic. Surely, by now, the ADCRR has figured out a way to accommodate positive versus negative-testing inmate living conditions without violating the constitutional rights of either group?

Please investigate and respond.

Donna Hamm

Subject: Kingman, Huachuca unit/Building 2

Middle Ground ,

For some reason that has not been communicated to prisoners in Building 2 at Huachuca Unit, Kingman, water is allowed only from 8 a.m. to 10 a.m. and then is turned off until the following day. This is for showers, toilets, urinals, sinks, drinking, etc. for hundreds of people in a pandemic at a U.S prison.

It is unknown if other buildings are having the same problem as the prisoners in Bldg. 2 have not been allowed outside the pods at all. There is absolutely no recreation offered or received by a pod/quarantine group in nearly 30 days. This is in a building where the inmates who tested negative were moved to 14 days ago on a level 3 Medium custody unit.

There are inmates planning on how to get moved to a higher custody level so they can get an hour or two (2) of outside air/recreation every three (3) days. Also, the same meat patty-like substance not on the approved cycle menu has been given for four(4) of the past seven (7) days. The prisoners had hoped that being moved/separated from those who tested positive (60% of the unit) would have help them maintain a normal schedule, but the situation is growing much worse by the day.

As a parent and a concerned citizen, surely there are constitutional rights that are being ignored here and I am afraid if the prison system is not more responsible, they will have bigger problems on their hands such as other health risks with no water except two (2) hours each day.

Subject: Kingman Prison Covid Issues/Spoiled/Expired Food Issues
Date: Thursday, January 28, 2021 9:02:12 PM

I continue to receive concerns expressed by inmate family members about the current operation of the Kingman Prison. I have redacted the names out of their concern for retaliation. The concerns are serious and must be resolved. Please address and advise what action has been taken.

Thank you,

Donna Leone Hamm
Director
Middle Ground

Donna,

I am writing to let you know that conditions have further deteriorated at Kingman Prison. The inmates are all being severely compromised by ADC's failure to prevent, manage or treat COVID-19 outbreaks in their prisons. We now find ourselves more worried than ever for our loved one's safety and wellbeing.

The inmates are now being fed by the CO's and are so short- staffed that breakfast is not being served until 10 am to noon in some pods. . They are then fed dinner as late as 11 pm on some days. Inmates with allergies and diet restrictions are being told that they do not have their special meals available so they either have to eat the same as the rest of the inmates or go hungry. This is a serious and unconstitutional issue for so many that are housed there.

Spoiled milk is being served, and the Rice Krispy items contained in breakfast bags reflect expiration dates that are a year old.

With regard to Covid management:

The first COVID-19 case was in building [REDACTED] and the cases are still on the rise in that building along with every other building on the yard. Most buildings have been on lock down for a minimum of 2 weeks now with no recreation or pod hopping ping within the building, and even bunk moves within the pod are prohibited. However, on January 25th around 10am the staff thought it would be okay to start moving people in building [REDACTED] around the yard without a rapid test or being quarantined. The Sgt said there hasn't been a case from their pod in about 6 days... She also said they're out of rapid tests.. You can have COVID-19 and not show symptoms for up to 14 days... If an inmate tests positive e for COVID-19 you are removed to detention. >From what the inmates now, the detention unit is now so full they are not sure where the "overflow" are taken .

They did pill call this morning with every pod going into the walkway at the same time. This included █ Pod -- the pod that just had the positive case..

The prison administration seems to be in panic mode. They have thus far so poorly managed the virus that they are now out of options to move inmates in such a way as to at least separate the ones who are positive from those who are not. Worse, they don't seem to understand how they are worsening the problem with "group/mass pill calls", etc

The men have no idea what is going on with the food. There is utterly no excuse (except a sinister profit margin motive) to serve spoiled milk or expired food of any type. This must stop at once.

Is here anyway you can contact Middle Ground and let them know that the whole prison does not have water....we do not have access to porta potties because we are on quarantine for COVID-19. They are also only giving us 2 bottles of water a day to be able to **both** wash our hands and drink from, so we have to ration it and the 2 bottles are 16.9 oz.. We are not provided waterless soap.

Subject: Re: Browning unit: No Masks/Gloves

Hello,

Here are some employees not using PPE:

CO2 Mendoza , Badge 10254

1-24-21 @ 2:21PM

1-24-21 @ 3:35PM

1-24-21 Mendoza was passing out dinner with no mask, old gloves, no hair net, and he is the one that allegedly has had COVID per a conversation with the CO2. Mendoza told an inmate that he is has no symptoms and that he has a “special blood type” that even if he is positive he can't pass the virus on to others. Of course, this is absurd and completely unsupported in medical science. That guard is also the one who told my loved one if he is so worried about the virus, wear a mask. They are not passing out cleaning supplies in the unit. CO Mendoza has no regard for the safety of the inmates or other officers at his job and refuses to abide by the CDC rules as well as the prison is not following the rules.

Eyman Complex Browning unit [REDACTED] cluster POD [REDACTED]

CO2 WILSON #4057

This unit and some of the officers are not good about keeping this sanitized for the inmates.

Especially because my loved one has underlining health issues.

The guards are not wiping the phones as they pass it from one inmate to another. This creates a terrible dilemma for each inmate who must choose between using a possibly infected instrument that could infect them with a deadly virus or staying in touch with lived ones whom they haven't seen in visits in almost a year. When inmates complain about guards not following CDC and ADCRR policy, they are harassed and given a hard time. This is so unprofessional. This refers to the same officer who does not wear a mask.

Gentlemen:

The below message is self-explanatory. Please provide explanation.

Thank you,

Donna Hamm
Director
Middle Ground Prison Reform

Sent: Wednesday, January 27, 2021 12:10 PM
To: middlegroundprisonreform@msn.com
Subject:, Kingman/Huachuca unit

Judge Hamm,

With the pandemic there is a new batch of issues here at Huachuca. According to our Complex Warden/Facility Admin., Jeff Wrigley, he has discussed the Kitchen staff/vendors situation here recently with you by email as to how this latest COVID batch, that brought on quarantines and the issues I'm writing of, likely came into Bldg. ■

Two weeks later, all buildings and countless inmates are now infected. We believe Building ■ became infected when ■ came back from an outside day trip medical appointment and was not quarantined. Since September, Medical had also been stuffing their waiting room with inmates from all buildings ignoring separation protocol that had been implemented last Spring. The unit got lax after the Summer surge. Officers got COVID fatigue. Even ADCRR staff would be onsite half masked.

Besides those things as to the likely causes of this latest 2021 surge, the real issue is that GEO is not managing this quarantine well, or even passable, the past two

plus weeks since the building outbreak began.

Specifically:

Our food situation is really bad. On 1/23 and 1/26 we had 2 uncooked hotdogs and two pieces of bread for dinner. They are making no attempt to follow any posted menu. Daily, we now have an uncooked small breakfast sack anywhere from 7 a.m. to 11 a.m. at our bunk, and dinner anywhere from 4 p.m. to 10 p.m. at our bunk. Calories are estimated to top out at only about 1000 a day now, at best, if all the bread is eaten.

The operation is below low standards, even beyond GEO's normal low everyday standards. Remember, this is the unit and complex with all the water issues such as no regulators to control shower or sink temps, no day rooms, barber shop, softball field, track, etc.

This is the unit with the central laundry that cut laundry days to twice a week two years ago and allows only one laundry bag per inmate as of last August. Even during Winter with bigger, heavier clothes, staff can't figure out why we overstuff the laundry bag, thus will send them back unwashed with a nasty note...even during a pandemic when we should be able to have better access to clean clothes. We have never had a quarterly jacket wash day here. A jacket fills a laundry bag on its own.

Most urgently, we have gone over ten days now without any recreation or outside/outdoor time at all in Building even longer in Building the first to quarantine.

As you know, this is way beyond the limits of federal mandates and ADCRR policy, quarantine or not. Our custody level is still a 3, and even closed custody meets the very minimal of so many hours outdoors every 72 hr. federal mandate.

We are sitting indoors within six feet of each other 24 hours a day, 7 days a week, with cases of COVID all around us. More fevers and likely positives each day with little staff concern as to us not getting out to distance at all.

Some of us requested they come up with at least a half hour to an hour a day

Recreation schedule per Pod, with even a no-touching any equipment rule, but there has been zero response. There are 10 pods on each Huachuca yard that is separated by fencing, so in 6-11 hrs, with movement to switch out inmates, it can be done, outside of count time, 5 a.m.-11a.m., 12-4 p.m., 5 p.m.-8 p.m., 12 a.m.-4 a.m., it's all possible. We would discuss this and other quarantine issues with commanding officer, but have not seen any Admin. staff, even when requested, for 10 days. A 5 min. to 7 min. smoke break offered to smokers twice a day, after they cry and complain for one, is not cutting it for any of us. Inmate letters are automated on tablets now, but seem to not be checked by many staff; we assume this is deliberate in order to ignore our concerns over quarantine procedures.

We'd greatly appreciate it if you could reach out again to Facility Administrator Wrigley about Recreation, food, and laundry as Admin. seems to want to be non-communicative except for a monthly recorded message on one of our 20 TV channels. Yes, ADCRR Units get over 40-50 channels, which makes quarantine time stuck indoors seem even worse. Mr. Wrigley says he is negotiating a TV contract this year.

Thank you for your time, interest and help! The lack of Recreation altogether is the most concerning and largest priority for us, and is likely to lead to the most unrest/problems. However, all the issues listed above should be appropriately addressed.

Regards,

Subject: [REDACTED]: Needs Eyeglasses/Clothing
Date: Friday, January 22, 2021 11:44:58 AM

Dear Ms. Headstream:

As you see from the below email, the CPAP machine for [REDACTED] was only made operational by providing him with an extension cord on the same day I sent you my original email. Hence, your response to me which seems to imply that he had access to an electrical outlet all along is disingenuous at best and deliberately vague at worst. He obviously did not have access to an electrical outlet -- even if it was within feet of his cell -- if the cord on his CPAP machine was not long enough to reach the outlet without an extension cord provided. So, thank you for arranging so quickly to provide the extension cord after I sent my original email.

In any case, I now write about the provision of his prescription eyeglasses and his clothing. [REDACTED] is an elderly man with a serious heart condition. It is winter. He needs his clothing (for warmth and for personal hygiene practices) and his eyeglasses. Please address these issues as quickly as you did with the extension cord.

Thank you,

Donna Leone Hamm

Subject: Re: Can't Use CPAP Machine: [REDACTED]

Donna,

Thank you for your interaction with the appropriate people on behalf of [REDACTED]. He contacted me yesterday to say he was given an extension cord to plug in his CPAP machine on Tuesday (1/19/21) which is the same day you sent your email. Your email made a difference. He also said he submitted an HNR on Tuesday (1/19/21) and is waiting to get his Covid test result. I explained to him that he may have been placed in this unit because he may have been exposed to someone who tested positive for Covid.

As I said before, this unit is very cold and [REDACTED] was taken there with the clothes he had on at the time he was moved (pants, t-shirt, and slippers).

Do you know if it is possible for [REDACTED] to get access to his sweatshirt and shoes to provide him more warmth? He also needs his glasses to function more effectively if that is possible.

I appreciate your expertise in working with the system. Stay safe and well.

Sincerely,

Subject: [REDACTED] Movement

Donna,

[REDACTED] was moved to SMU2 unit on 1/12/2021 by Dr Stewart to be quarantined for at least 14 days because he was thought to have Covid. He does not exhibit any Covid symptoms and was given a Covid test on 1/12/2021, but has not received the results of that test.

He indicated the SMU is very cold and he only has the clothes he was wearing when moved plus a blanket. He was given his CPAP machine, but there is no electrical outlet to plug it in. I can tell he is very anxious about his situation and would like to be moved back to the Meadows Unit as soon as possible. I am concerned that if he is kept in this situation for a long period of time, he will experience heart issues based upon his history.

I understand that Covid precautions cause certain actions, but I don't understand why they haven't told him whether he tested positive or negative and why they would quarantine him if he isn't positive. Is there anything you can do to help him or give me advice on who I might need to contact for assistance? Thanks.

I wish you a healthy and safe New Year!

RE: COVID-19 TESTING BLITZ (DRIVE-THRU)

Dear Residents,

We are pleased to announce that we have entered into an agreement with Arizona State University's Biodesign Institute to provide SARS-CoV-2 (COVID 19) testing, utilizing a simple saliva collection method for our community.

Who:

Anyone who wants to be tested. You **do not** have to be sick or showing signs.

When:

Friday, January 29, 2021 from 7:00 am – 1:00 pm

Where:

Graham County Fairgrounds
527 Armory Rd, Safford, AZ 85546

Schedule an appointment:

Online registration is strongly encouraged, but walk-ins (drive-ins) will still be accepted.

- Register for appointment with your cell phone, tablet, laptop or desktop computer.
- Log in: <https://asubioempportal.pointnclick.com/>
- Agency code: **SALIVATEST**
- Once logged-in to the portal, click on "Appointments" to request an available appointment time
- **Arrive no more than 15 minutes prior to your appointment.**
- If you have any scheduling issues, please email COVID19info@asu.edu.

Important guidelines

- You must wear a protective face covering - either cloth or surgical mask.
- Bring the QR code you receive after scheduling your test appointment.
- 30 minutes before your appointment, rinse your mouth with plain water for 20-30 seconds and then spit the water out.
- Do not eat, drink (even water), smoke, vape, or chew gum for 30 minutes prior to your appointment time (any of these factors may cause an invalid test and/or your test may be rejected by clinical personnel at site collection). *Tip: Staying well hydrated by drinking water the day before and up to 30 minutes prior to your test will speed your saliva collection process.*
- Results will be available via the portal approximately 48 hours from your testing time.

If you have questions, please contact the Graham County Health Department at 428-0110.

This event is sponsored by: Graham/Greenlee United Way, Arizona State University, Arizona National Guard & Graham County Health Department.

Subject: Heat and Hot Water Problems/Perryville
Date: Friday, January 15, 2021 5:59:55 AM

Ms. Hamm,

The Perryville Prison Complex consists of eight units, each with heating and cooling units designed to address the inmate living areas' required environmental needs. All heaters throughout the prison complex undergo preventative maintenance at the start of the seasonal change. Those heating units supplying air to the inmate living areas remain a top priority and are addressed as needed daily. The Perryville complex maintains a competent team of professionals who train inmate crews to respond and address heating concerns 24-hours a day to include after-hours, weekends, and holidays. The temperatures in all unit housing areas are centrally controlled and therefore ensure consistent delivery of conditioned air. An inspection occurred at the Santa Cruz unit and affirmed the temperatures are appropriate with heat delivery.

While current physical plant configurations supply a sufficient supply of hot water to the showers, the system is subject to higher demand times, and higher temp water may not always be available. The same is true within our homes in supply and demand scenarios. There are no outages of hot water at the Santa Cruz unit.

Inmates who test positive for COVID-19 are housed in quarantine and immediately seen by a Registered Nurse. In addition, they are also seen by a practitioner within the first 24-hours or sooner if necessary. In the quarantine area, inmates are seen by a Registered Nurse each day, vitals taken, and a full nursing assessment completed. If the inmate requires treatment, medications, oxygen, or anything else, they are scheduled to be seen more frequently throughout the day by nursing staff. A practitioner also examines the inmate before being cleared from quarantine to ensure they are stable enough to return to assigned housing.

Thank you for bringing this matter to our attention and expressing your concern.

Hi Kathryn,

ADCRR is following protocols as recommended by the CDC at all locations as a COVID-19 mitigation strategy.

Please accept my apology for the lack of communication regarding this new process (temperature check & exposure related questions) occurring upon entry. I personally spoke to the Officers assigned to the desk today regarding expectations that they are in compliance with Personal Protective Equipment protocols, face masks in this case, when assigned to the desk and engaged in public contact.

As to the 20th, currently there are no plans to close the buildings on Inauguration Day, but I was on an enterprise leadership call this morning during which this topic was brought up. No definitive direction or guidance was given. Should a determination be made, I will ensure you are made aware.

Best regards,

Joe

On Mon, Jan 11, 2021 at 9:30 AM Kathryn Ptak <kblades@boec.az.gov> wrote:

Hello-

Does ADCRR have a new policy about taking temperatures when entering a building? I ask because an unmasked security guard at our shared building, 1645 W Jefferson, insisted on taking my temperature, and that of my staff upon entry into the building this morning. I told him that the Board is a separate state agency and that we rent our own space in the building and that an ADCRR policy didn't apply to the Board. He then asked for my name and told me that he has to take the temperature of anyone entering this building, while following me to the door of our office.

I'm not necessarily against the policy but I would like it if the guards could wear masks if I have to get close enough for them to take my temperature, and in the future a heads up on policy impacting our shared space would be appreciated.

I was also wondering if you have any information related to January 20? I am thinking of moving our hearings that day, but haven't heard anything from any official channels. Do you guys have plans to close the buildings?

Thank you!

Kathryn

Subject: Re: COVID-19 precautions
Date: Monday, January 11, 2021 1:21:42 PM

Per the Warden:

Yes, I have looked into this and have been dealing with it directly.

On December 10th, [REDACTED] lodged a vague complaint about COVID-19 precautions not being taken seriously by command staff at Dakota Unit.

I responded to her complaint and requested more specific information so that I may address it.

On December 11th she provided me with specific details regarding her complaint to include:

- Soap distribution to inmates no being kept up with
- Telephone and Deep Cleaning not being kept up with
- Staff in full PPE not respecting the space of others not assigned to full-PPE areas
- Staff inconsistent with wearing face coverings
- Command staff, specifically [REDACTED] [REDACTED] and [REDACTED] [REDACTED] being inconsistent in the wearing of face coverings and setting a poor example

During this period, [REDACTED] [REDACTED] had been out (most of the month) [REDACTED] and again with "use-or-lose" prescheduled AL.

I addressed the operational issues with [REDACTED] [REDACTED] immediately. Any issues that may have remained problematic from [REDACTED] complaint such as PPE, cleaning, and soap distribution had been resolved.

I made the [REDACTED] aware of the complaint, reinforced that we are managing perceptions as well as the operation, and provided him with feedback on how to use camera sampling and spot checking to enhance quality control in these areas.

I followed up by having a one on one conversation with [REDACTED] [REDACTED] [REDACTED] [REDACTED] confided to me that he had not been as diligent with his own personal use of the face covering as he could have been. I explained to him that it was imperative that he set the best possible example in this requirement and he agreed.

I would eventually have this conversation with [REDACTED] [REDACTED] (last week) as she has since returned to work.

On December 16, after my conversation with [REDACTED] [REDACTED] (but prior to [REDACTED] [REDACTED] return) I had a follow up call with [REDACTED].

I thanked her for coming forward and making me aware of her concerns.

I advised her of the measures that were put in place to better address the COVID-19 control issues I asked her if she had any further issues regarding the topic of COVID-19 control. She did not provide any additional concerns on the matter.

[REDACTED]
I advised her she was not brought up by name in my follow-up with the Dakota command staff and that I would not tolerate retaliation of any kind

In addition I offered her [REDACTED]

She declined my offer.

Independent of any COVID-19 related issues, [REDACTED] requested an additional follow-up conversation with me regarding how her schedule is being managed at Dakota.

We had a google meeting on 1/08/2021 at her request.

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

Thank you Sir,

[REDACTED],

Thank you for giving me the opportunity to voice my concerns. I appreciate your time, as it is important for employee morale to promote a healthy work environment to be open to communication and input from all levels to continue to improve and to accomplish our mission. As such, I must emphasize my concerns are not rooted in a different management style compared to past administrators. As I mentioned, I have never had these problems with other administrators; further, I am one of others with similar complaints about [REDACTED]

Resorting to elevating and documenting my concerns has been a decision made only after multiple verbal/informal attempts to address concerns, and having my concerns shunned away as an inconvenience. [REDACTED]

[REDACTED] more difficult are not the administration's actions way of retaliating against me for the emails sent out regarding COVID-19 precautions. [REDACTED]

[REDACTED]

Respectfully,

On Fri, Dec 11, 2020 at 9:10 AM [REDACTED] > wrote:

Good morning,

I want to make clear that this is not easy.

I observed DW not wear a face mask/facial covering upon arrival to work inside visitation. This has happened several times. Especially, as administration requested staff issue tickets to inmates not wearing masks and supervisors give negative MAP entries to staff who were not wearing masks. During the securus tablet training Captain Rosas hardly wore his mask. It is common to see DW and Captain without a mask while in building [REDACTED]. The aforementioned actions have pointed us in the direction we find ourselves today.

On 12/09/20, I noticed the door leading to the isolation cells unsecured. When I opened it, I saw an officer in uniform and on the opposite side was an officer with full PPE. Full PPE is indicative of a COVID-19 positive case. It is safe to assume that the inmate being watched by the officer without PPE may be COVID-19 negative, at the very least unknown. I asked the officer in full PPE to shut the door leading to his area. I asked him to do so at least 3 times. Instead, the officer in full PPE hand signaled (waved me over) as an invitation to his area. I asked the officer in full PPE again to close the door. The officer closed the door, but I never heard the door shut.

Doors leading to the isolation cells are constantly found unsecured. This concern was brought up to Captain Rosas several times before COIIs were relocated to the building.

The following were implemented at the beginning of the pandemic:

- *Distribution of soap bars to the inmate population
- *Created a position for an inmate to clean the phones after each recreation session
- *Sanitation of the unit was completed on a regular basis
- *A soap dispenser was installed in the chow hall, in order for inmates to wash their hands at the sink

The above four measures were not kept up with for months, until this week.

Inmates were told that COIIs would pass out the soap bars, but COIIs were not given soap for weeks. After COIIs brought it up during morning briefings, COIIs were given approximately 20 soap bars at the time. Twenty soap bars are not enough for a 100-inmate caseload. Inmates brought it up to our attention; we brought it to the Captain and DW. At some point, inmates stated that COIIs were given boxes of soap for inmate distribution. Inmates began demanding

soap from me. When I told inmates COIIs did not have boxes of soap for inmate distribution, inmates were infuriated. Over half of the inmates in the west yard stated the captain made such a statement to an entire pod. When I asked Sgt. Cunningham about the soap, he stated there was not any. I sent the captain an email asking if there was any truth to what the inmates were stating. I tried to explain to him that such a statement could cause issues for me among my caseload. Eventually, inmates gave up and stopped asking for soap.

Almost everything I have mentioned will be corroborated through camera footage, or emails. It has been difficult to encourage staff to wear their mask, and close doors leading to isolation cells where COVID-19 positive inmates live. When top unit leadership refuses to lead by example, we end up with what we are now dealing with. Sadly, leadership is confused with issuing harsh uncompromising verbal directives. Concerned staff refuse to voice their concern in fear of retaliation. First line staff are not responsible for this. They are just emulating the example set forth for them. Staff refuse to voice their concern in fear of retaliation. I do not want to be retaliated against for bringing up issues.

I cannot stress enough how uncomfortable it is to write this email.

Respectfully,

I will start this email by stating that these are stressful times. Having to send this email is difficult, as I am trying to share concerns without coming across like I have a problem with authority. Constructive feedback from the bottom up is unusual, but this is an unusual situation. I understand the issues and decisions administrators/supervisors have to deal with, are unlike nothing you have faced in your careers. But I ask that you understand individuals like me that have high risk family members at home and have lost family members to COVID-19. We have been wearing masks for months, by now we should be used to it. I continue to observe individuals display disregard for COVID-19 precautions. Call-ins have always been an issue, more so now. We must all do our part to reduce call-ins and keep each other safe. This is everyone's responsibility, to include administrators/supervisors. Supervisor's responsibilities are not limited to directing us not to call in. Leading by example and consistently wearing a mask and reminding others to do the same are imperative. There is a difference in attitude and behavior that distinguishes mistake from misconduct (forgetting to put your mask on, versus deliberately not wearing one and smiling/laughing when you are asked to do so). I know we have all attended the same training. We are all familiar with the words vicarious liability and deliberate indifference. We have been reminded that speaking to the media is not our job, and I support my agency's policies. I understand how not following this directive can create confusion, distrust, and denies the opportunity to improve. I ask the department to support individuals like me during these trying times. I would like to see and know that superiors and staff at all levels take into consideration the public's health and welfare, that of my co-workers, my own, and the inmate population. Our tactical priorities dictate such order. This is a public agency responsible for the welfare of others. I understand that asking someone to wear a mask can be seen as restricting their freedom, but on that same token, another person is not free to deliberately compromise someone else's health and welfare. Staff should be able to come to work with peace of mind that everyone is displaying and encouraging COVID-19 precautions in an effort to keep each other safe. There are other staff members who have these same concerns. Thank you in advance.

Respectfully,

RE: HUACHUCA - KITCHEN COVID STAFFING ISSUES

We are in receipt of the letter written to Ms. Donna Hamm dated January 5, 2021, from an inmate housed in the Huachuca Unit.

In the letter to Ms. Hamm, the inmate writer expressed concerns about Trinity Staff testing positive for COVID and being allowed to work along-side inmate workers in the kitchen. The writer further claims that the prison staff want people from Dorm [redacted] and [redacted] to voluntarily work along-side the rest of the Trinity staff that could potentially have COVID as well. The writer claims COVID testing is not and has never been mandatory for Trinity Staff.

Since the onset of the COVID pandemic, no Trinity Services staff member at the Huachuca Unit has tested positive for COVID. The Cerbat Unit did have one Trinity Services staff member who tested positive for COVID in December 2020, and proper protocols and procedures were handled in accordance with CDC Guidelines. It should be noted that this staff member did not work at the Huachuca Unit at any time.

At no time did we allow any staff with COVID to work side-by-side with our inmates. It should be noted we have complied completely with strict ADCRR and GEO guidelines that require all staff and vendors who enter prison grounds to pass COVID screening protocols, which include temperature checks and health questions related to COVID. No person is permitted entry into the facility unless they pass the screening. If anyone fails to pass our screening site, they are not allowed entrance into the facility without further testing or clearance. This screening includes any Trinity Services staff.

We have confirmed with the General Manager for Trinity Services that they have established procedures for mandatory testing of Trinity Services staff. Therefore, Trinity staff do in fact have COVID testing requirements. We should further add that all inmate kitchen workers are screened for COVID by staff when they report to work. Inmates are given temperature checks and asked basic health questions as part of our protocols to ensure a safe work place.

The writer further claims we had a Correctional Officer working in Dorm █ who was transferred to Dorm █ so COVID could have spread to Dorm █ which was previously COVID-free. Assignment of staff is based on institutional needs. At the present, we have minimized the movement in and out of Dorm █ by developing a stable work schedule for our security staff while Dorm █ is operating on quarantine status. Since the beginning of the pandemic, we have vigorously followed CDC Guidelines in the management of our inmate population and staff. All staff are wearing PPE equipment while working in the facility.

The writer claims the prison staff are threatening to write people up who refuse to work in the kitchen because they are fearful of the possibility of infecting everyone by making food for the whole yard. The writer further adds staff are threatening to remove scheduled meals if inmates refuse to work in the kitchen, and instead only provide a cold lunch of bread, peanut butter and two cookies.

As all of our kitchen workers were housed in Dorm █ we asked the inmate population in Dorms █ █ and █ if they would like to volunteer to work in the kitchen. We received enough inmate volunteers to work our kitchen. We did not mandate any inmates to work in our kitchen. All inmates that volunteered to work in the kitchen are paid and had to complete medical screening prior to being allowed to work in the kitchen.

It should be noted our kitchens menus have stayed on the same menu schedule as previously planned with only one or two items adjusted or modified this week. The adjustments were necessary to allow the inmate workers to be trained by Trinity Service staff in food preparation, in accordance with the Arizona Department of Health Services guidelines.

Finally, in order to ensure continued compliance in our Food Service operations and ensure we are continuing to practice safe, preventive measures for COVID, we consistently have all of our supervisory and Executive staff make routine security checks and rounds in the inmate dorms and food service operations daily. Any issues or concerns are addressed at hand.

In closing, we appreciate the opportunity to respond to the inmate's concerns. We will continue to follow CDC, ADCRR, and GEO guidelines for utilizing PPE's and all precautionary measures designed to minimize, reduce or eliminate COVID in our facility. We are also ensuring that all inmates are fed in accordance with policies and guidelines.

Donna,

It appears that classes were just rescheduled, not postponed. Classes are still being held and Covid cases are on the rise in building 3. CO's and other staff are being moved between Building 3 and Building 4 so many are concerned with this cross-transfer issue, along with the fact that classes have not been postponed. Thank you.

Subject: Covid Issue at Kingman Prison

Donna,

I want to inform you of that following:

Trinity staffers that work alongside the inmates in the kitchen have tested positive for Covid. Building 3 houses all kitchen inmate workers and several of them have now tested positive as well. The prison staff want people from building 4 and 5 to voluntarily work alongside the rest of the Trinity staff that could potentially have Covid as well. They are not bringing in new Trinity staff. Covid testing isn't and has never been mandatory for Trinity staff.

CO Compos was working in building 3 but was transferred to building 4 so it can very well be in that unit which was Covid free. The prison staff is threatening to write people up who refuse to work in the kitchen but many are fearful of the possibility of infecting everyone by making food for the whole yard. If they do not have the inmate staff, they are threatening to remove scheduled meals and instead only provide a cold lunch of bread, peanut butter, two cookies.

Thank you for your concern,

Redacted.

Donna,

My son advises they have not passed out free bars of the tiny soap for quite some time. He does not know the officer's name, but the inmates were told they are "out of bleach,": The telephones the inmates are required to use are NOT being disinfected.

Another serious concern is how they are doing "quarantine." Inmates who are in quarantine are still allowed to come out and speak with other inmates (who are not in quarantine). How is that a quarantine?

The way I understand what my son is saying is that they take inmates that are positive that are in the same building and let the other inmates who were in with them still in the same building whom were with the positive inmates to still reside in the building,

Soap and Bleach and REAL quarantine! ! Please Help

Thankyou,

Subject: Problems at Perryville

Dear Judge Hamm: I heard back from my sister responding to your questions.

She says that kitchen workers who tested positive for Covid are in the Santa Cruz unit. They were moved to Santa Maria which the prison is using as a quarantine area. She said two of the people she knows were taken to quarantine and after 14 days came back and told my sister that the only thing they did for them was take their temperature every three days. No medications, etc.

Santa Cruz, my sister's unit, is without hot water. (She doesn't know about the other units.) At the last town hall, the deputy warden said there is no funding to repair the problem. And some cells in Santa Cruz have not had heat for a while either. She says the showers are ice cold and some of the women have to use "stingers" in the wastepaper cans to heat water so they can bathe.

Director:

The reported problems with hot water have been ongoing for months as reported to me. How can it be that the ADCRR with a budget in excess of \$1 Billion does not have the money to fix the water heaters?

In addition, there is reported no heat in some of the living quarters.

Can you investigate this matter? Thank you.

Donna Hamm

Subject: Problems at Perryville

Dear Judge Hamm: I heard back from my sister responding to your questions.

She says that kitchen workers who tested positive for Covid are in the Santa Cruz unit. They were moved to Santa Maria which the prison is using as a quarantine area. She said two of the people she knows were taken to quarantine and after 14 days came back and told my sister that the only thing they did for them was take their temperature every three days. No medications, etc.

Santa Cruz, my sister's unit, is without hot water. (She doesn't know about the other units.) At the last town hall, the deputy warden said there is no funding to repair the problem. And some cells in Santa Cruz have not had heat for a while either. She says the showers are ice cold and some of the women have to use "stingers" in the wastepaper cans to heat water so they can bathe.

Subject: Centurion Daily COVID Testing Numbers for 12/31/20

Good morning:

The attachments to this email contain the daily testing numbers completed by Centurion on 12/31/20 and the finalized spreadsheet for December, 2020.

I have also included the finalized December spreadsheet for the private prisons.

I received the 12/31 numbers from Centurion at 0830 this morning.

Centurion COVID tests completed 12/31/20: 79

Total Centurion COVID tests completed 12/1 through 12/31/20: 10,984

Please contact me with questions.

Thanks.

Subject: COVID 25% Stipend
Date: Thursday, December 31, 2020 11:45:57 AM

Good afternoon

This is in response to your email regarding the 25% COVID stipend not applicable to those staff who are assigned to Hickmans.

The 25% Hazardous Duty Pay stipend only applies to Quarantine/Isolation Areas (COVID-19 Positive and presumptive positive areas), Hospital Duty, Inmate Transportation and Intake. Hickmans is not a COVID-19 Positive or presumptive positive area. Inmates are tested weekly, and upon the conclusion of a positive covid test of an inmate, the inmate or inmates are immediately moved to isolation at the Piestewa Unit or Santa Maria Isolation.

We understand your concern, however at this time Hickmans staff do not qualify for the 25% stipend.

If at any time you are not receiving a response from your chain of command please feel free to contact the Warden's office. Myself and Warden Lee have an open door policy and are available to address issues or concerns by staff.

I hope this answers and clarifies your questions and concerns.

Sincerely

Laura Pyle

Date: Wednesday, December 23, 2020 5:07:30 PM
Attachments: [image.png](#)

Date of Incident: 11/16/2020 1024 hours

Date Reported: 11/16/2020 1024 hours

Initial:

Dr. Gilreath placed [REDACTED] on a medical watch/quarantine for testing positive for Covid-19.

Date of Incident: 11/16/2020 1542 hours

Date Reported: 11/16/2020 1409 hours

Follow Up:

On 11/16/2020 at 1409 hours, Sgt. Hyle activated the Incident Command System for for a 911 transport. Inmate [REDACTED] had difficulty breathing and possibly COVID. Dr. Gilreath authorized for an emergency ambulance to be called. At 1428 hours, the inmate was secured into the AMR ambulance with COII Otero providing security. At 1434 hours, the ambulance departed the sallyport en route to Florence Anthem with COII Amezquita providing CHASE. At 1434 hours, Kasson stood down from ICS and returned the unit to normal operations.

Date of Incident: 11/16/2020 1929 hours

Date Reported: 11/16/2020 1925 hours

Follow Up:

[REDACTED] returned to the unit and staff returned him to his assigned housing where he remains on a medical watch.

Date of Incident: 11/20/2020 1648 hours

Date Reported: 11/20/2020 1600 hours

Follow Up:

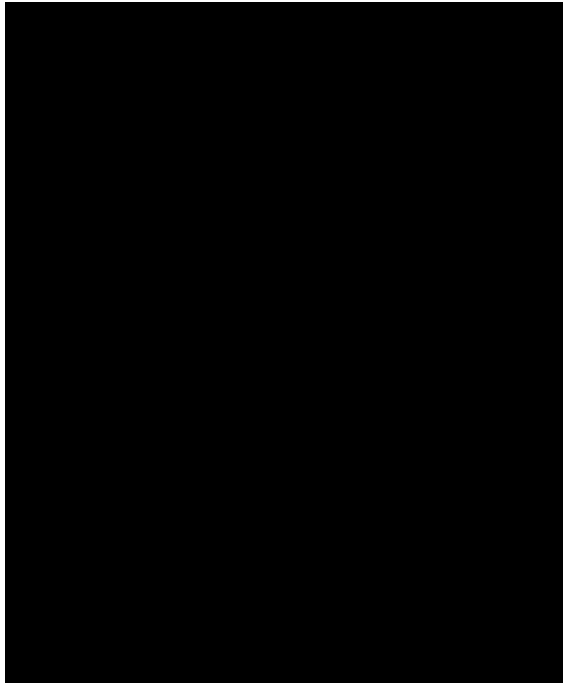

On 11/20/20 at approximately 1600 hours, NP Wiegel authorized transport by AMR ambulance due to Inmate [REDACTED] having unstable vital signs. 911 was called by medical staff. 1630 hours AMR Ambulance arrived on site and Inmate [REDACTED] will be transported to Allegiant Medical Center.

Date of Incident: 12/23/2020 1344 hours

Date Reported: 12/23/2020 1652 hours

Final:

Dr. Skidmore from The Allegiant Medical Center pronounced [REDACTED] deceased on 12/23/2020 at 1344 hours from an undetermined cause. CIU Peckinpugh cleared the scene and the Pinal County Coroner's Office took custody of Torres's body.

Subject: Covid outbreak at ASPC Tucson/Santa Rita
To: dshinn@azadc.gov <dshinn@azadc.gov>
Cc: Middle Ground Prison Reform <middlegroundprisonreform@msn.com>

Director Shinn:

The below information has been forwarded to me and requires investigation and action:

A new Covid outbreak in Tucson/Santa Rita is being grossly mismanaged.

70 new suspected COVID-19 cases this morning (Dec. 19) on just our yard.

All kitchen workers from the morning shift.

The [REDACTED] employee of Trinity Food Services was sick and at work for a whole week before being tested.

This happened after multiple complaints from inmates that, "[REDACTED] is sick.", went unheeded by staff. (kitchen officers are also quarantined for 14 days)

[REDACTED] doesn't work. [REDACTED] doesn't have any income. so [REDACTED] wouldn't tell anyone [REDACTED] was sick.

ADC pays their officers during quarantine.

Most cases of Covid here have been asymptomatic; a slight temperature for a few hours.

ADCRR claims the only test for employees entering Tucson complex is a temperature check.

However, officers have personally told (inmate) that this isn't even done when no supervisors are around. Instead, they are verbally questioned if they have a temperature, but nothing is checked.

The [REDACTED] D.W. issued a mandatory mask order two weeks ago. All inmates are to wear masks at all times outside their living areas. No exceptions. [REDACTED] is now quarantined because the security captain also tested positive. (working inside the offices that every officer goes through at least twice a day.) [REDACTED] officers and admin officials here refuse to enforce any mask order. inmates are still required to go to the chow hall to eat. This means that 100 plus inmates. elbow to elbow (without a mask while eating). maybe less than 10% of inmates wear masks at any time. even with policy that all inmates entering the chow hall must be masked. There are e are visibly sick inmates amongst them. not one officer will say a word. This is very deliberate indifference by ADC, no matter which angle you look at it. The unit, as a whole, , hasn't been tested for Covid in over three months. Those old tests, which had no positives, are still being used to report current Covid conditions at [REDACTED] [REDACTED] . Inmate deaths and sicknesses are not being reported as Covid deaths, even when they sure are. When an inmate has underlying health problems, that is what the death is being attributed to so that the Covid-related deaths will remain relatively low.

[COVID Related Payroll Through December 3 \(1\).pdf](#)

Director,

As I interpret the below information; as a result of your recent meeting with DHS, OSPB is making a transfer of \$5 million CRF to offset payroll expenditures which said offsets are then to be used to cover \$4.1 million in COVID-19 testing of the inmate population.

The ISA seems to have nexus in this fund transfer.

Joe

Subject: CRF Payroll Offset for COVID-19 Testing
To: Renee-Marie Engel <rmengel@azadc.gov>, Deeann Brewer <dbrewer@azadc.gov>, Gergana Kovatcheva <gkovatcheva@azadc.gov>

Hello Team,

I was just asked by Director Gress to have the Department identify \$5M in COVID-19 related payroll expenses to offset with CRF funding to pay for the \$4.1M COVID-19 testing.

To bring this to your attention, the Department has been corresponding with DHS and the Executive's operations team to be able to fund another round of system-wide COVID-19 numbers. Originally, we were looking to fund this through DHS dollars but now it appears CRF will be used for this expense.

Can you please update the following spreadsheet with the data in order for the offset to take place? I figured this would be an easy request since Deeann already identified \$42.6M in COVID-19 related payroll expenditures. Please note that this spreadsheet is the same spreadsheet used for the FY 2020 CRF offsets. The data has not been removed in case it helps

to have it there as a template. The months have been changed from March-June to July-December. That is the only change I made. You DO NOT have to add every COVID-19 related expenditures. We ONLY need data for \$5M in payroll expenditures.

Please let me know if you have any questions or concerns. Thank you!

Kind Regards,

Charlotte Hallett

¹ COVID OT represents overtime worked that is dedicated COVID-19 related duties. For example, work that would normally have been performed by a contractor but now must be completed by staff in addition to their regular duties is classified in this category. ETE submissions are coded 101C for these duties.

² COVID Regular pay represents work done solely due to COVID-19. For example, time spent purchasing COVID-related PPE or time spent preparing grants to offset COVID-related expenditures is classified in this category. ETE submissions are coded 100C (work in the office) or 110C (telework) for these duties.

Subject: 12-18-20 ADHS COVID-19 MEMO
Date: Sunday, December 20, 2020 9:56:32 AM

Dear Elected Officials,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. The Department would like to provide a few COVID-19 updates.

-

Today, ADHS provided an update on COVID-19 trends and mitigation measures in Arizona. Check out this week's [report](#) and [video](#).

-

Case counts continue to rise in nearly all counties with case rates in the substantial range for all 15 counties. Arizona has experienced a 120% increase in cases over the last 5 weeks.

-

Percent positivity continues to increase in nearly all counties, with positivity in the substantial range. For the most complete week of data (the week of December 6) percent positivity was at 18.4%.

-

The percentage of inpatient beds in use by COVID-19 patients continues to increase and is now above 40%.

-

Looking ahead to next week, all 15 counties will have all three metrics (case rates, percent positivity, and COVID-like illness) in the substantial range.

-

ADHS continues to work with local jurisdictions and healthcare partners to implement [vaccine planning](#). You can view an overview presentation of vaccine plans [here](#).

-

This week, Pfizer vaccine arrived in [Maricopa](#) and [Pima](#) counties, with vaccination sites beginning to vaccinate healthcare workers in those counties today.

-

ADHS hosted a [media event](#) Wednesday with ten frontline healthcare providers from various disciplines receiving a vaccination.

- Additional doses of vaccine are expected to arrive in Arizona next week in all 15 counties and the four tribes receiving a state allocation.
- The [ADHS COVID-19 vaccine webpage](#) will continue to be updated with new information. This includes an [infographic](#) and [full recommendations](#) for priority populations for vaccination.
- ADHS continues to order and distribute personal protective equipment to local partners for further distribution to healthcare workers and first responders. To date, over 55 million PPE and related supplies have been distributed including over 23 millions pairs of gloves, over 20 million medical face masks, nearly 5 million N95s, over 3 million gowns, and nearly 2.5 million face shields.
- As a reminder, ADHS is receiving submissions from local jurisdictions approving public events with more than 50 attendees, pursuant to Executive Order 2020-59. Jurisdictions approving such events are required to publicly post the mitigation measures and submit them to ADHS. Please use the form posted [here](#) for submission of event details AND submit mitigation plans to special_events@azdhs.gov.
- With the winter holidays upon us, ADHS is reminding Arizonans to gather safely. The safest way to celebrate this winter is at home with the people you live with. More tips for safe gathering are available at azhealth.gov/winterholidays.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Here are some social media posts that you may find useful to disseminate to your constituents:

Date: Wednesday, December 16, 2020 11:19:11 AM

I couldn't agree more. If we also include the second wave of systemwide testing, this will go a long way to highlight and reinforce the proactive prevention and mitigation we have deployed. I will have our Comms staff reach out to CJ, Ben, and also Cara's team for further discussion. Thank you both Daniel and Cara for your help and support.

On Wed, Dec 16, 2020 at 10:22 AM Daniel Ruiz <druiz@az.gov> wrote:

Dr. Christ, Director Shinn--

I'm connecting you with CJ and Ben to get the ball moving on announcing the 2-3k BinaxNow rapid tests that will be allocated to correctional facility as a result of our conversations yesterday.

CJ and Ben--

This is a positive announcement that should be touted either from our office, or ADHS and ADCRR independently. I'll leave that strategy to you.

Thanks, all!

Daniel

Subject: Fwd: Lewis/Stiner Unit: STAFF NOT WEARING MASKS/Toilet Paper Supplies Reduced
Date: Tuesday, December 15, 2020 3:45:35 PM

FYI

-----FYI---- Forwarded message -----

From: **James Kimble** <jkimble@azadc.gov>
Date: Tue, Dec 15, 2020 at 2:55 PM
Subject: Re: Lewis/Stiner Unit: STAFF NOT WEARING MASKS/Toilet Paper Supplies Reduced
To: Frank Strada <fstrada@azadc.gov>

Mr. Strada,

The allegations of Stiner Unit staff not wearing a facial covering presented through an inmate letter was previously reviewed by the unit administration. As a result of this review Deputy Warden Galvan had each staff member issued a MAP note reiterating Staff Notification #20-02. A separate inmate letter was received after the MAP note, which provided specific dates, times and locations staff were alleged to have violated the ADCRR's SOP. After reviewing the closed circuit camera system the unit Administration issued a Notice of Necessity to Improve (NNTI) to [REDACTED] # [REDACTED] 9 and [REDACTED] # [REDACTED] for non-compliance with written instructions. Deputy Warden Galvan has not been able to confirm the staff listed by Ms. Hamm have shown the same level of disregard to the written instructions.

It has been a long standing practice that the ADCRR issued one roll of toilet paper to each assigned inmate on a weekly basis. Based on my experience and knowledge of other ASPC's issuing toilet paper every ten days to the inmate population, I presented this idea to the complex administrators during last week's management meeting. It was a consensus of the command personnel that ASPC-Lewis would adopt this practice effective January 1, 2021. For consistency it was decided we will pass out one roll of toilet paper per inmate on the 10th, 20th and 30th of each month. In the event an inmate needs a replacement roll prior to the issuance date, all they will need to do is present the empty cardboard core.

I trust this is responsive to your inquiry. If you have any questions or desire additional information please contact me.

Respectfully,

James L. Kimble, Warden
Arizona State Prison Complex- Lewis
PO Box 70
Buckeye, AZ 85326
623-386-6160 ext. 4000

Director:

The following names of staff have been provided to me by several inmates who report they are not wearing masks or not consistently wearing masks. As you can see below, this includes not just CO's, but also at least one nurse on pill call, who apparently never wears a mask when passing meds.

The CO's are: [REDACTED], who accompanied the nurse on pill call, [REDACTED] who never wore a mask while she was passing out jackets to the inmates and [REDACTED]. Very recently, a new CO named [REDACTED] was accompanying the nurse on pill call without a mask.

When one inmate told him he would not approach the nurse, the staff member didn't even have a mask on his person -- he had to go and obtain one from another location.

It is reported that on most days, the nurse distributing meds does not wear a mask either.

The staff who don't wear masks move between several runs without them. Obviously, this situation is ripe for spreading disease.

Given the reported explosive outbreak in Covid 19 virus in various prison units throughout the state, it is alarming to learn of this lack of adherence to fundamental preventative measures at this point in time. Also, It has been suggested to me that the recent disturbance at Cook Unit may have been related to the issue of staff not wearing masks.

In addition, recently there was a message distributed to prisoners at Stiner Unit about a change in policy for toilet paper supply. Where inmates formerly were provided 1 roll/week, they now are only provided 1 roll every 10 days. This is insufficient for many people and is unsanitary and unsafe. What happens if an inmate who is indigent runs out of toilet paper prior to the 10-day increment? Even though inmates can purchase additional rolls of toilet paper at the store, not every inmate has sufficient funds to do so.

Please investigate the failure of all staff -- including contracted medical providers and others -- to wear masks fully covering the nose and mouth at all times when on the yard or interacting with inmates in any manner. Issuing a blanket order is apparently not sufficient. Some monitoring by supervisory staff needs to take place, and sanctions applied for failure to comply.

Additionally, inmates who have not abused the toilet paper distribution in the past of 1 roll/week, should be provided with sufficient toilet paper when it is needed, and not on some fixed "scheduled" which does not take into account any potential gastronomic or other medical problems.

Director:

The following names of staff have been provided to me by several inmates who report they are not wearing masks or not consistently wearing masks. As you can see below, this includes not just CO's, but also at least one nurse on pill call, who apparently never wears a mask when passing meds.

The [REDACTED], who accompanied the nurse on pill call, [REDACTED] who never wore a mask while she was passing out jackets to the inmates and [REDACTED]. Very recently, a new CO named [REDACTED] was accompanying the nurse on pill call without a mask.

When one inmate told him he would not approach the nurse, the staff member

didn't even have a mask on his person -- he had to go and obtain one from another location.

It is reported that on most days, the nurse distributing meds does not wear a mask either.

The staff who don't wear masks move between several runs without them. Obviously, this situation is ripe for spreading disease.

Given the reported explosive outbreak in Covid 19 virus in various prison units throughout the state, it is alarming to learn of this lack of adherence to fundamental preventative measures at this point in time. Also, It has been suggested to me that the recent disturbance at Cook Unit may have been related to the issue of staff not wearing masks.

In addition, recently there was a message distributed to prisoners at Stiner Unit about a change in policy for toilet paper supply. Where inmates formerly were provided 1 roll/week, they now are only provided 1 roll every 10 days. This is insufficient for many people and is unsanitary and unsafe. What happens if an inmate who is indigent runs out of toilet paper prior to the 10-day increment? Even though inmates can purchase additional rolls of toilet paper at the store, not every inmate has sufficient funds to do so.

Please investigate the failure of all staff -- including contracted medical providers and others -- to wear masks fully covering the nose and mouth at all times when on the yard or interacting with inmates in any manner. Issuing a blanket order is apparently not sufficient. Some monitoring by supervisory staff needs to take place, and sanctions applied for failure to comply.

Additionally, inmates who have not abused the toilet paper distribution in the past of 1 roll/week, should be provided with sufficient toilet paper when it is needed, and not on some fixed "scheduled" which does not take into account any potential gastronomic or other medical problems.

Hi all, sorry so late. Here is the overall tally of the Intake Data going back to Oct 1st.

Thanks for Vanessa's help in focusing me on just the data below.

I included anyone who converted positive on TEST #2 as the assumption is that they came in brewing Covid already .

I excluded anyone who converted positive on TEST #3 and the rare TEST #4 since these patients were exposed and contracted Covid after arriving to the intake facility.

I excluded PVTs.

In the weeks to follow, I will just send updated numbers- for the two weeks prior. For instance, I don't have Tucson from yesterday 12/11 and there will be some second tests that convert to

positive and change the tally.

Let me know if this works, have a good weekend.

Good afternoon Deputy Chief Dawson,

Due to the alarming rise of Covid positives at all of our reception centers (Alhambra, Perryville and Tucson), our intake numbers have drastically declined in the past month. To help explain our declining bed availability, please allow me to share our current process for newly arriving inmates.

All arrivals are tested at intake and again at day 7. Our reception centers utilize (4) and (14) man cells. Inmates who initially test negative are housed in these cells accordingly. The problem we are seeing is happening on the day 7 test. If one inmate in a (4) or (14) man cell tests positive, we have to start an additional 14-day quarantine period for everyone. Also factored in the mix Parole Violators who arrive at reception sites, 24/7.

Based on this model of testing/quarantine periods, we are unable to determine any *future intake availability*.

Regarding next week's projected intake, *as of 1600 hours today*, we can only authorize **(25) males** on Tuesday, December 15th at Alhambra. This number may increase or decline by Monday morning based on medical clearances. Perryville has projected **(24) females** for their intake on Tuesday, December 15th. Please note, due to your agency's high percentage of pending males, Maricopa will be the *only agency* authorized to transfer into Alhambra on Tuesday, 12/15/2020. We do not know at this time if we will be able to do a second intake into Alhambra and Tucson on Thursday, December 17, 2020.

I would like to share that I keep in constant communication with each of the County Sheriff's regarding intake matters and pending transfers. With your agency I communicate directly with the SIMS DOC/Desk, SIMS Supervisors and members of your medical team (Dr. Gan, Nurse Supervisor Vincent Gales). Our agency maintains a live document which is updated when notifications are made and this document is shared with the County's several times throughout the week to ensure we can reconcile any/all pending transfers. Your agency also receives updates regarding ADCRR intake in the weekly "Jail Commander" teleconferences.

I hope this provides some insight to your questions and concerns sir. If I can be of any further assistance, please feel free to contact me.

Sincerely,

Amber L. Wiley, Offender Support Administrator

Subject: 12-10-20 ADHS COVID-19 MEMO
Date: Thursday, December 10, 2020 4:45:44 PM

Dear Elected Officials,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. The Department would like to provide a few COVID-19 updates.

-

Yesterday, ADHS provided an update on COVID-19 trends and mitigation measures in Arizona. Check out this week's [report](#) and [video](#).

-

Case counts continue to rise in nearly all counties with case rates in the substantial range for all 15 counties. Arizona has experienced a 162% increase in cases over the last 5 weeks.

-

Percent positivity continues to increase in nearly all counties, with positivity in the substantial range. For the most complete week of data (the week of November 29) percent positivity was at 18%.

-

The percentage of inpatient beds in use by COVID-19 patients continues to increase and is now above 35%.

-

ADHS continues to work with local jurisdictions and healthcare partners to implement [vaccine planning](#). You can view an overview presentation of vaccine plans [here](#).

-

Next week, nearly 60,000 doses of vaccine are expected to ship to Maricopa and Pima Counties with shipments occurring weekly to all local jurisdictions the week of December 20. In total, through the end of the month, we expect 383,750 doses of vaccine to arrive in Arizona.

-

Recommendations for prioritizing limited doses of vaccine based on last week's Vaccine and Antiviral Prioritization Advisory Committee meeting are [posted online](#). Through December and most of January, we expect that Phase 1A

populations (healthcare workers, healthcare support occupations, and long term care facility residents) will be able to be vaccinated.

- To date, over 1,200 healthcare provider sites have started the [onboarding process](#) to become COVID-19 vaccinators with 449 completing the onboarding process.
- In addition, Arizona will participate in the CDC Long Term Care Pharmacy Partnership Program, which will provide vaccines to residents and staff at approximately 2000 skilled nursing and assisted living facilities in Arizona beginning the week of December 27.
- Two [dashboard](#) changes were made this week:
 - Our Laboratory Testing dashboard was updated to add a second tab. The first tab maintains the traditional view of the laboratory testing data by displaying how many unique individuals have been tested. The second tab is new and shows how many total tests have been conducted over time. You can read more about these changes in the [Director's blog](#).
 - Our epidemiologists have identified an improvement in the way we can report ZIP code level data. A full patient address is not always available when a patient's result is initially reported to public health, resulting in a small proportion of patients being assigned on our dashboard to the ZIP code of the provider collecting their specimens rather than the patient's residence. This week, we implemented additional data processes to improve reporting on the geography of cases and tests. This will not result in any changes to the total number of lab tests or cases in Arizona, but shifts some cases and tests to a more appropriate ZIP code, and in some cases, a more appropriate county. You can read more about these changes in the [Director's blog](#).

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Here are some social media posts that you may find useful to disseminate to your constituents:

Subject: FW: Covid Testing Update
To: Dolan, Tom <tdolan@teamcenturion.com>, Joseph Profiri <jprofiri@azadc.gov>

We have performed a massive amount of strategic testing in order to detect and contain Covid around the state.

We continue to perform the testing of intakes, releases, pre-procedure, IPC and work crews as agreed to in the SURVEILLANCE TESTING PLAN.

We continue to vaccinate for Influenza, with enough vaccine left to offer to all intakes through the season.

Here is the November roll up of Covid testing, broken down by site and by test category:

COVID MTD Reporting November 2020								
Complex	Exposure	IM Workers	Intake	IPC/SNU	Movement	Pre-OP	Release	Total
Douglas	131	0	0	0	0	5	66	202
Eyman	98	18	0	1	0	62	94	273
Florence	309	0	0	180	0	20	28	537
Lewis	6	0	2	34	10	93	99	244
Perryville	152	619	129	25	0	32	172	1129
PHX	40	0	1060	0	12	2	24	1138
Safford	11	105	0	0	0	2	47	165
Tucson	534	1	435	372	1	38	175	1556
Winslow	249	44	0	0	0	6	26	325
Yuma	829	0	0	0	4	10	93	936
Total	2359	787	1626	612	27	270	824	6505

Week of 11/30 – 12/4 we tested **2,653**

In the last 24 hours we tested **673**

So, since Nov 1st we have tested over 9,800 patients which is nearly 30% of our entire population

My hot spots are:

DOUGLAS **188 positive** out of Mohave Unit

675 additional tested today 12/8

Large Majority asymptomatic, we are rounding on the positives daily with assessments and vital signs twice per day

EYMAN **SMU1** unit is affected

575 tested on Monday 12/7

PERRYVILLE **22 positive with 32 isolated-** most from Hickman's workcrew

150 tested Friday 12/4

TUCSON **290 positive** from Manzanita, Whetstone, and Winchester, all close to recovery

107 tested Fri 12/4

WINSLOW **99 positive** at KAIBAB unit (kitchen exposure)

> 300 tests performed strategically last week

Majority are asymptomatic, and will be continued to be monitored per our protocols.

YUMA **658 positive** at LA PAZ unit (kitchen staff exposure), 1 death, 2 hospitalized (one critical)

all have been seen, sorted and compartmentalized with close surveillance of this population as they tend to be older with multiple co-morbidities

Cibolla area designated for those with moderate symptoms needing closer surveillance

- We have completed 9 of 10 calls with DHS and each Warden and it appears to me that we are all on the same page. I am proud of the collaboration and communication I am seeing with our site leadership and the Wardens.

- I advise mobilizing any additional resources toward mass STAFF testing as we have surveillance and focused/strategic testing of symptomatic and exposed under control.
- If there is consideration of mass testing of inmates, please be aware that we will pick up a great deal of OLD Covid (asymptomatic positives that went undetected but still testing positive) as we are seeing this more with the release tests. This activity would not yield useful information and be logistically challenging given the sheer number of staff out and the need to mobilize those staff where needed for actual Covid pockets and upcoming vaccination deployment.
- I am working on vaccination plans for staff, as DHS directs and will be participating in the Vaccine Task Force which meets tomorrow.

Please reach out if you need additional info or have questions and stay well!

Prison Law

San Quintin, CA 94964

Dear Donald Specter,

I am a parent of an inmate in Arizona Department of Corrections, [REDACTED] # [REDACTED] Eyman Complex at SMU1 Unit. Unfortunately, my son called me and stated that he was feeling sick on Monday, November 23rd and that all the inmates around him were all having some kind of sick symptoms as well. I heard him coughing and he said he had been taking his vitamins and cough drops. On Tuesday, November 24th he emailed me and said that had shivers all night and was feeling very sick. They checked his temperature on Tuesday morning and his temp was 101 and no one had given him any medication or addressed anything and he kept emailing me to find out if he could possibly get some Tylenol for his fever at 4:20 p.m. I was able to reach out to Deputy Warden Stickley and I addressed my concern to her and she said that they where going to test him for COVID-19 the following day on Wednesday, November 25th. He was moved and tested.

On Monday, November 30th my son called and said that they had not given him any medication and his temperature was 102 and he had been asking for water and thy did not give him any and if he kept asking he was going to get written up. As a parent, I am upset that my son is being treated as such. I called Deputy Warden Stickley and I addressed the water issue and she said that my son was going to be moved to a cell by himself and that the cell had a sink and he could drink water from the sink.

Unfortunately, my son's results came back positive for COVID-19 and he and I are very scared. I am concerned about what measures the prison is taking as far as treatment, medications, possible transfer to a hospital for professional care. What is the protocol? Or is ADOC following the protocol for positive COVID-19 inmates? I call the prison and all they tell me is that he is in quarantine. I am scared and fear that they are not taking care of my son with their limited staff. I want my son to eat healthy as he orders food from store and AZ Secure pack. He is not even given the choice to eat his own food. He is given filthy rotten bug infested garbage to eat. This is serious and I need help! I have a POA letter notarized by ADOC that my son filed out and sent to me. Who can I talk to at ADOC who can possibly guide me or help me with concerns? Thank you!

Please help me and thank you in advance!

Thank you,

Redacted

Ms. Orm:

It seems the point has been missed.

Absent medical (Centurion) completing the testing, the information would be unknown. Thus, Centurion is the keeper of the information and has tactical command over it.

It is reasonable to expect Centurion would have and provide the information versus putting the provision of medically sourced information back to ADCRR.

If Director Shinn desired receipt of the information from Ms. Crabtree, I anticipate he would have requested it from her instead of contact Mr. Wheeler and requesting it from Centurion.

Joe

Name: [REDACTED]

Email Address: [REDACTED]

Recommendations: Mr. Shinn, I work for the Department of Corrections as a [REDACTED] in the [REDACTED]. I have been told that I'm considered "law enforcement" and put under the umbrella of "essential", which is why we've been brought back into the office five days a week with no exceptions, even after successfully working from home since April. I do have an essential role in this department, but I am not essential to be in the office and I'm certainly not law enforcement. To put me in the same category as a first responder is irrational. I have been doing my part as a citizen these last 8 months by staying home and keeping my children at home, practicing social distancing, cancelling unnecessary appointments, etc. But now that we've been instructed to return to the office I'm more exposed to this virus than ever, and for what reason? I am willing to come into the office but five days a week is excessive, especially since I only leave my office to use the restroom so I do not even see anyone throughout the day. My children's schools are closed but since I was ordered back into the office I've had to scramble to figure out what to do with them. The emergency daycares are supposed to be reserved for the true first responders, not for [REDACTED]. The agency has made this so complicated for myself and my family and I'm sure many others as well. I tried to apply for EFMLA under the Family Cares Act but again, HR told me that I'm law enforcement so I do not qualify for leave. I am just looking for a logical explanation as to why the department is being so negligent with our health and safety. I understand that ADCRR has a public safety duty but I am not in one of those front line positions. I am reaching out to your office with my concerns because I've only been getting the runaround and no one seems to be able to provide me with answers. Thank-you, [REDACTED]

Re: COVID-19 Testing Mandate for Arizona Private Prisons
Your letter to Director Shinn dated November 20, 2020

Dear Ms. Martin:

Thank you for your affirmation of the value of GEO's relationship with ADCRR and its commitment to fulfill its contractual responsibilities as we jointly serve the tax payers of Arizona. In the same spirit, please know that GEO is an important and valued partner for ADCRR, and we look forward to this successful relationship as a vital resource in our public safety mission.

Regarding your request for reimbursement to cover GEO's costs for the newly implemented COVID-19 testing strategy, we do not share the perspective that these pandemic-caused measures are addressed by *Force Majeure* (or similar, if any) contract provisions. As expressed in the contract language, including the examples given, it appears clear to us that a *force majeure* incident is one that actually and physically prevents a party from being able to perform. In this case, GEO's performance in complying with the testing strategy will not be prevented by reason of a *force majeure* incident, although we recognize that it will be made more expensive. While neither GEO nor ADCRR could have predicted the pandemic and its repercussions, including the needed testing strategy, we do see this matter as falling into the category of a business risk for GEO under the contract terms. Please be assured this strategy and its outcomes will be closely monitored by ADCRR leadership, and that the testing requirements will be modified or removed as soon as it is considered safe and responsible to do so.

While the estimated costs you mention in your letter are considerable, we do expect that a company of GEO's size and resources is nevertheless prepared to comply with the new strategy in a timely manner. As an aside, given ADCRR's budget constraints, it does not have available funds to assist in the testing costs even if it determined to do so simply on a voluntary cost-sharing basis. However, we will remain fully aware of the cost impact to GEO and our other private prison contractors, and, as indicated above, will not impose the testing requirements any more rigorously or longer than deemed necessary.

If there are any additional questions about this matter, or the testing plans, please contact me at your convenience and I would be happy to discuss them with you.

Sincerely,

Chris Moody
Contract Beds Operations Director

Numbers are those tests reported by Thursday morning. Currently we are working on multiple positive patients that have resulted and are collecting more tests that have been conducted from Friday and today. For example Hickman workers at Perryville and Tucson. We currently are testing multiple patients today and will report those numbers tomorrow after those tests are up-loaded.

To: Mark Haldane <mhaldane@azadc.gov>
Cc: Larry Gann <lgann@azadc.gov>, Meggie Washington <mwashington@azadc.gov>

Mark:

The attachment to this email contains a proposed spreadsheet for collecting the reports for daily COVID testing at the private prison facilities.

In order to make the information reported on the spreadsheet relevant, consistent, and correct, here are the proposed instructions each of the private facilities would use when submitting information:

- The total number of tests completed will be reported daily, Monday through Friday, no later than 12:00 noon.
- The number of tests reported will reflect the number of tests actually administered the previous day. For example, all COVID tests performed on December 1 will be reported on December 2.
- Tests performed on Saturday, Sunday, or on days that are designated as holidays by the State of Arizona will be reported on the next business day.
- If the number of tests performed on any given day is zero (0), then zero is reported for each day. The important point is that each day of the month has a corresponding number, including zero, attached to it.

One process improvement that we could implement right now is having the six private prisons add me to the distribution list to receive the same email that is sent to you each day. This would eliminate the step of you having to forward the emails you receive from them to me.

Thanks for reviewing.

If a second coronavirus outbreak occurs, how is the Department going to respond in regards to staff safety?

Will ADOCRR be implementing more Detention Liaison Officers (DLO's) in the STG/CSG Department ?

Will the intake process continue after the COVID-19 pandemic where the southern region counties are processed at Tucson Complex and the Northern regions come to Alhambra for processing?

Is there a chance tuition reimbursement is going away due to funds being needed elsewhere?

When will Grade 20 positions become available to apply to again (COIV, Captain)? Testing for these positions was cancelled earlier this year.

What is the new director's plan for staff retention, and will a pay increase factor in?

Is overtime only allowed for complexes with 15% or more vacancy a permanent change and if so how will this change be maintained long-term?

Estimated closing date for Florence?

How will the money saved on the closing of Florence be utilized?

Will admin secretaries and other support staff receive merit pay this upcoming year like they did in the year prior?

Will there be changes to the promotional process in the future?

Are there any plans to repair or replace the fleet currently on the road?

Any more changes to the uniform policy in the works? If so, what?

Will 12 hour units ever go back to 8 hour shifts?

Can we increase the uniform allowance? It basically only covers one item a month.

What is the status of the 5% raise we were going to receive this year, is it still on the table for next year.

Will overtime become available again at the Phoenix complex?

Will the Department be able to buy more vest plates?

Will the department remove mental health inmates from Phoenix to provide more housing for intake inmates?

Subject: 11-27-20 ADHS COVID-19 MEMO
Date: Friday, November 27, 2020 3:12:11 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. The Department would like to provide a few COVID-19 updates.

-

This week, ADHS has worked with Arizona hospitals to augment staffing. This includes opening up applications for the hospital systems receiving the most patients through the Arizona Surge Line to access the \$25 million for staffing supports announced by Governor Ducey last week. In addition, ADHS is working to contract nearly 300 traveling ICU and medical surgical nurses to support staffing needs at regional and rural hospitals throughout the state.

-

Today, ADHS provided an update on COVID-19 trends and mitigation measures in Arizona. Check out this week's [report](#) and [video](#).

-

Case counts continue to rise across the state with all 15 counties in the substantial range for rate of cases per 100,000 (>100 cases per 100,000).

-

Percent positivity continues to rise across the state with 13 counties in the substantial range for percent positivity (>10%). For the week of November 15, 2020, the diagnostic percent positivity in Arizona was 12%

-

Arizona has experienced a 197% increase in COVID-19 cases reported over the last 5 weeks.

-

Our weekly update to [school](#) and [business](#) dashboards posted yesterday. Based on the metrics all counties are in the moderate spread category.

-

ADHS continues to partner with local health departments to respond to [reports of business non-compliance](#) with mitigation measures.

- To date, ADHS has received over 4,800 complaints about over 2,600 unique businesses. ADHS staff has provided follow-up on over 2,500 of these, including 601 onsite inspections.
- ADHS continues to distribute PPE to partners throughout the state. To date, over 54 million pieces of PPE and related supplies have been distributed.
- ADHS partners with local health departments and healthcare facilities to provide technical assistance to settings experiencing outbreaks. ADHS Licensing surveyors have conducted infection control surveys on every licensed long term care facility and ADHS Licensing and rapid response teams respond to facilities with outbreaks to provide additional infection prevention and control guidance and recommendations and facilitate testing as necessary.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Here are some social media posts that you may find useful to disseminate to your constituents:

Subject: [REDACTED] - Today's Telephone Conversation- Medical Emergency Request

Mary Fuller and Vanessa Headstream,

I spoke with Mary Fuller today 11/19 regarding my brother; [REDACTED] # [REDACTED] You may check his file and find a durable power of attorney as well as a medical power of attorney to verify the legality of this conversation.

Issue - [REDACTED] has a laundry list of medical problems. We are aware of each of them. Most recently, 05/26/20 after numerous appointments, [REDACTED] [REDACTED] There hasn't been further observation or testing scheduled.

URGENT — A few days ago, [REDACTED] was seen by a nurse who on that day tested positive for COVID-19 and went home. [REDACTED] needs to be tested for COVID19 immediately. He requested to be seen by his Doctor. I don't have reason to believe the Doctor Seth Stabinsky is aware of this, but could be mistaken. Ms. McCray (physicians assistant) is blocking his ability to see the Doctor, stating it's not necessary. This is NOT the first time there has been difficulty with Ms. McCray. It seems certain, if you check his file, you will find I spoke with Robin Faulkner regarding her unprofessional behavior and negligence several years ago. After that call, Ms. McCray made it know to [REDACTED] via a show of anger; she doesn't want family "interfering." Months ago, [REDACTED] was requesting answers regarding medical test and urgent health issue, she stormed down the hall banging her fist on the wall. Surely, we can easily find proof of this behavior, so if we can, you can too. A few days ago, [REDACTED] passed out, requiring prisoners to call for help. As he was accessed, the finding showed his [REDACTED] This has happened a number of times throughout this year. Apparently, this health issue also remains unresolved.

I have not ordered his medical records yet. In light of what I see happening with [REDACTED] and after making an attempt to call Ms. Faulkner, instead speaking with Dr. Stabinsky, we may be forced to seek legal assistance. The request is not complicated. However, after speaking only briefly to Dr. and quickly being hung up on, it appears we may not be able to handle this ourselves. I was surprised at his unprofessional behavior on the telephone, given the positive remarks [REDACTED] has made about him. Our conversation was extremely short. He did not give me any opportunity to ask questions or offer any assistance with the exception of referring me to "friends and family" before rudely and abruptly hanging up on me. My experience with "friends and family" telephone line is...it's a superb placating resource.

[REDACTED] is 59 years old, mild mannered and respectful. (SEE HIS RECORDS) He is required to remain incarcerated until 2022. He has 4 children, the youngest to graduate from high school next year. His children deserve to see their father survive the Arizona Prison System. Yes, he has medical problems, but with PROPER MEDICAL

TREATMENT, he can survive and have some closure with his children. You all as professionals have a HUGE affect on this happening.

It is a reasonable request to be tested for COVID19 after being exposed. It is a reasonable request to resolve the ongoing issues with his [REDACTED] [REDACTED] It is a reasonable request to be informed regarding when and what will be the follow through of 5/28/20 findings.

I would ask you to consider, if we take his records to a medical doctor and an attorney, will they find negligence? If so, please do what is necessary to remedy this situation.

Your response and your action will be appreciated. I remain available, watchful, and engaging in the process to solve these problems. I can be reached at [REDACTED] or by email.

[REDACTED] Sibling

Well, it was such a day that it became tomorrow before I could summarize everything!

I will try to be as brief as possible.

Here is the current landscape:

- **Eyman Cook exposure, 83 tested on 11/17**
- **Eyman SMU1 with one symptomatic, test pending on two with the remainder asymptomatic and separated**

- Florence Globe large outbreak of 120 positive (currently all mass tested and contained)
- Florence East Unit with outbreak of 24 positive, compartmentalization in place and re-testing planned
- Florence HU10 tested weekly and one positive- re-testing underway
- Perryville San Carlos (Kitchen Worker exposure) 151 tested 11/18 and all asymptomatic
- Perryville with positive intakes from Yavapai
- Phoenix with positive Intakes from the county jails
- Tucson Manzanita large outbreak of 46 positive (currently contained)
- Tucson Santa Rita exposure (two kitchen workers), all testing pending
- Tucson Cimarron, Rincon, IPC and SNU exposures and just had 80 intake today... over 300 tests performed to date to identify and contain positives
- Winslow has a symptomatic kitchen worker and we are re-compartmentalizing the Kaibab Unit to separate the four cell blocks- surveillance and will strategically test as indicated
- Yuma La Paz (kitchen exposure) 135 tested 11/17
- Yuma Dakota (exposure to positive staff) 143 tested on 11/12 and 8 were positive... retested today
- Yuma Cheyenne exposure to positive staff (all tested and negative)

Observations to share:

****We have many officers out with Covid and many more out pending testing, this involves just about every site. We have some Centurion staff out too. So in addition to the current exposures and outbreaks, it stands to reason that we will see an uptick in cases amongst the exposed inmates in the weeks ahead. *What has changed at some sites is that the OHN or Warden is not sharing information on positive DOC staff with our site leadership anymore. This is a handicap b/c we can't participate properly in contact mapping for potential exposures and get containment efforts underway in time. This has happened since Derleen left and prior to that we had excellent communication and collaboration. Is it possible to intervene with a reminder of some sort? We communicate the same information on our end.***

****We are seeing an increased number of Covid positive intakes. What is concerning is that many are testing NEGATIVE twice within the first 14 days and then becoming symptomatic on day 13 or 14 and testing POSITIVE. On my "ALL JAIL CALL" today, I learned that the**

jails are experiencing the same phenomenon... and given that the incubation is 2-14d, it is not out of the ordinary- but a recent trend for sure. Most inmates in jail will not complain of symptoms b/c they do not want to delay their transfer to DOC. The jails are not routinely testing unless inmates are symptomatic. We took 80 in at Tucson and with the 21 day quarantine there.... We may just trial a third test at the 14d mark??? Maybe.

I have a call with the AzDHS Outbreak Team led by Dr. Kamatsu in the morning. I will fill y'all in if there is anything more to report or if they have input for any changes to our strategies.

Let me know if you have any questions and have a good weekend!

Good afternoon,

I am learning of this as we speak. On 11/13, [REDACTED] had an ICS. The officer who assisted him tested positive for COVID. We are moving him to a quarantine cell and performing a rapid test COVID test on him.

Once we have results, we will forward along. As far as the conversations with family, I will remind all staff of professionalism and appropriateness.

Robin

Subject: Todd Tracy - Today's Telephone Conversation- Medical Emergency Request

Mary Fuller and Vanessa Headstream,

I spoke with Mary Fuller today 11/19 regarding my brother; [REDACTED]
[REDACTED] You may check his file and find a durable power of attorney as well as a medical power of attorney to verify the legality of this conversation.

Issue - [REDACTED] has a laundry list of medical problems. We are aware of each of them. Most recently, 05/26/20 after numerous appointments, [REDACTED]
[REDACTED] here hasn't been further observation or testing scheduled.

URGENT — A few days ago, [REDACTED] was seen by a nurse who on that day tested positive for COVID-19 and went home. [REDACTED] needs to be tested for COVID19 immediately. He requested to be seen by his Doctor. I don't have reason to believe the Doctor Seth Stabinsky is aware of this, but could be mistaken. Ms. McCray (physicians assistant) is blocking his ability to see the Doctor, stating it's not necessary. This is NOT the first time there has been difficulty with Ms. McCray. It seems certain, if you check his file, you will find I spoke with Robin Faulkner regarding her unprofessional behavior and negligence several years ago. After that call, Ms. McCray made it know to [REDACTED] via a show of anger; she doesn't want family "interfering." Months ago, [REDACTED] was requesting answers regarding medical test and urgent health issue, she stormed down the hall banging her fist on the wall. Surely, we can easily find proof of this behavior, so if we can, you can too. A few days ago, [REDACTED] passed out, requiring prisoners to call for help. As he was accessed, the finding showed his [REDACTED]
[REDACTED] This has happened a number of times throughout this year. Apparently, this health issue also remains unresolved.

I have not ordered his medical records yet. In light of what I see happening with [REDACTED] and after making an attempt to call Ms. Faulkner, instead speaking with Dr. Stabinsky, we may be forced to seek legal assistance. The request is not complicated. However, after speaking only briefly to Dr. and quickly being hung up on, it appears we may not be able to handle this ourselves. I was surprised at his unprofessional behavior on the telephone, given the positive

remarks [REDACTED] has made about him. Our conversation was extremely short. He did not give me any opportunity to ask questions or offer any assistance with the exception of referring me to “friends and family” before rudely and abruptly hanging up on me. My experience with “friends and family” telephone line is...it’s a superb placating resource.

[REDACTED] is 59 years old, mild mannered and respectful. (SEE HIS RECORDS) He is required to remain incarcerated until 2022. He has 4 children, the youngest to graduate from high school next year. His children deserve to see their father survive the Arizona Prison System. Yes, he has medical problems, but with PROPER MEDICAL TREATMENT, he can survive and have some closure with his children. You all as professionals have a HUGE affect on this happening.

It is a reasonable request to be tested for COVID19 after being exposed. It is a reasonable request to resolve the ongoing issues with his [REDACTED] [REDACTED]). It is a reasonable request to be informed regarding when and what will be the follow through of 5/28/20 findings.

I would ask you to consider, if we take his records to a medical doctor and an attorney, will they find negligence? If so, please do what is necessary to remedy this situation.

Your response and your action will be appreciated. I remain available, watchful and engaging in the process to solve these problems. I can be reached at [REDACTED] [REDACTED] or by email.

Team,

I apologize for not being able to address this email in the manner which I had intended. I at least wanted optics on this matter prior to my weekly call with Centurion. Upon follow-up this afternoon, Centurion did not provide any direct references to this issue regarding specific complaints toward contact tracing... If the complaint concerns our OHN's or Department not communicating patient health care information related to our employees HIPPA rights... I commend you. Our responsibility is to provide a reasonable expectation of transparency to ensure the protection of our population. I have not been provided any information that leads me to believe we are not providing this information in an appropriate manner. Positive results that are reported based on timelines and the postings of our operational staff should be more than enough per our Medical Director Grant Phillips. I will continue to monitor this issue and communicate as necessary.

Thank you all. Larry

On Fri, Nov 20, 2020 at 12:41 PM Joseph Profiri <jprofiri@azadc.gov> wrote:

Matt,

Though, I do not immediately take stock in accusations, it's imperative we are effectively communicating to identify and contain this virus on all fronts.

To that end, please double down and ensure OHN's are informing Wardens of staff positives at their facilities and the same information is being parallel streamed to AD Gann for any necessary coordination with Centurion.

Thank you,

Joe

To: Larry Gann <lgann@azadc.gov>, Dolan, Tom <tdolan@teamcenturion.com>

Well, it was such a day that it became tomorrow before I could summarize everything!

I will try to be as brief as possible.

Here is the current landscape:

- **Eyman Cook exposure, 83 tested on 11/17**
- **Eyman SMU1 with one symptomatic, test pending on two with the remainder asymptomatic and separated**
- **Florence Globe large outbreak of 120 positive (currently all mass tested and contained)**
- **Florence East Unit with outbreak of 24 positive, compartmentalization in place and re-testing planned**
- **Florence HU10 tested weekly and one positive- re-testing underway**
- **Perryville San Carlos (Kitchen Worker exposure) 151 tested 11/18 and all asymptomatic**
- **Perryville with positive intakes from Yavapai**
- **Phoenix with positive Intakes from the county jails**
- **Tucson Manzanita large outbreak of 46 positive (currently contained)**
- **Tucson Santa Rita exposure (two kitchen workers), all testing pending**
- **Tucson Cimarron, Rincon, IPC and SNU exposures and just had 80 intake today... over 300 tests performed to date to identify and contain positives**
- **Winslow has a symptomatic kitchen worker and we are re-compartmentalizing the Kaibab Unit to separate the four cell blocks- surveillance and will strategically test as indicated**
- **Yuma La Paz (kitchen exposure) 135 tested 11/17**
- **Yuma Dakota (exposure to positive staff) 143 tested on 11/12 and 8 were positive... retested today**
- **Yuma Cheyenne exposure to positive staff (all tested and negative)**

Observations to share:

****We have many officers out with Covid and many more out pending testing, this involves**

just about every site. We have some Centurion staff out too. So in addition to the current exposures and outbreaks, it stands to reason that we will see an uptick in cases amongst the exposed inmates in the weeks ahead. ***What has changed at some sites is that the OHN or Warden is not sharing information on positive DOC staff with our site leadership anymore. This is a handicap b/c we can't participate properly in contact mapping for potential exposures and get containment efforts underway in time. This has happened since Derleen left and prior to that we had excellent communication and collaboration. Is it possible to intervene with a reminder of some sort? We communicate the same information on our end.***

**We are seeing an increased number of Covid positive intakes. What is concerning is that many are testing NEGATIVE twice within the first 14 days and then becoming symptomatic on day 13 or 14 and testing POSITIVE. On my "ALL JAIL CALL" today, I learned that the jails are experiencing the same phenomenon... and given that the incubation is 2-14d, it is not out of the ordinary- but a recent trend for sure. Most inmates in jail will not complain of symptoms b/c they do not want to delay their transfer to DOC. The jails are not routinely testing unless inmates are symptomatic. We took 80 in at Tucson and with the 21 day quarantine there.... We may just trial a third test at the 14d mark??? Maybe.

I have a call with the AzDHS Outbreak Team led by Dr. Kamatsu in the morning. I will fill y'all in if there is anything more to report or if they have input for any changes to our strategies.

Let me know if you have any questions and have a good weekend!

Re: COVID-19 Testing Mandate for Arizona Private Prisons

Dear Director Shinn:

The GEO Group, Inc. (GEO) is proud of our long partnership with the Arizona Department of Corrections, Rehabilitation and Reentry (ADCRR). GEO is committed to the successful fulfillment of our contractual responsibilities to the Department while ensuring the health and wellness of our staff, inmates and the general public.

As States around the country implement COVID-19 mitigation strategies, the vulnerable populations, such as those incarcerated, are of immediate concern. GEO supports the Department's willingness to introduce measures to prevent the introduction and spread of the virus in correctional institutions.

The ADCRR's *COVID-19 Surveillance Testing Strategy for Arizona Private Prisons* dated November 10, 2020, as explained during your teleconference of November 19, 2020, directs the private corrections partners to implement a series of COVID-19 testing protocols throughout Arizona Private Prisons. The Department stated the private partners must pay for the testing materials and laboratory fees, without reimbursement of the costs from the ADCRR.

While we are always willing to work with the Department in any manner possible, GEO believes this COVID-19 testing strategy is outside the intent and scope of our contracts with the ADCRR. A pandemic of this magnitude and duration, and the unanticipated costs as a result of COVID-19, are excluded under the *Force Majeure* or similar provisions in our existing contracts.

As the largest provider of private corrections services to the ADCRR, GEO is also facing a cost prohibitive financial impact of this directive. The initial requirement to test at least 10% of the inmate patient population monthly will cost GEO over \$20,000.00 per month.

The directives to cover 100% testing of the inmate work crews could result in additional tens of thousands of dollars of costs per week, if the crews return to a full time work schedule. There is also the need for additional medical staff to conduct this volume of tests for inmate work crews.

GEO stands ready to work with the Department to protect those entrusted to our care. However, the immediate and potential financial impact of these requirements place an extraordinary and unsustainable burden on our company. GEO respectfully asks you to allow us to be reimbursed by the ADCRR for all COVID-19 testing expenses. Please feel free to contact me on (561) 999-7359 or by email at amartin@geogroup.com with any questions or concerns.

Sincerely,
The GEO Group, Inc.

Amber D. Martin

Subject: Fwd: Private prison COVID monthly numbers
Date: Friday, November 20, 2020 11:33:03 AM

As of the 20th they are almost a third of way toward 10%

So without even attempting to do 10% surveillance testing the privates, they will hit almost 462 tests... I would say based off of the ADP... 1000 is there overall goal per month.

I do not feel they understand what they are actually currently doing in regards to testing.

Larry

COVID-19 Surveillance Testing Strategy for Arizona Private Prisons

November 10, 2020

Background

As baseline testing for COVID-19 was completed for the entire inmate population in September 2020, it is imperative that the continued testing strategy incorporate surveillance testing, in order to further reduce the chances of a large outbreak.

Purpose/Scope

- Employ a testing process that provides ongoing prevention and containment of COVID-19 in the Arizona Private Prisons.
 - **A surveillance program entails the testing of asymptomatic individuals who are deemed to be in a higher risk population, by virtue of their risk of spreading COVID-19 (i.e. inmate workers) or their risk of developing a severe infection if infected with COVID-19 (i.e. patients with chronic diseases).**
 - A surveillance and screening strategy is designed to break the chain of disease transmission of COVID-19.
- Any testing strategy must take into account the disease burden in the local area and adjust the testing volume to match the threat.
- The following factors must be taken into consideration:
 - **Resources** (time, people, supplies, lab capacity and personal protective equipment)
 - **Test results** (ability to manage, track and report data to ensure timely action), and
 - **Response** (plan to act on results in order to rapidly and effectively protect the population)

Definitions

- “Testing” refers to the COVID-19 PCR RNA swab sampled from nasal, oropharynx or nasopharynx and processed by a contracted laboratory.
 - Testing also includes FDA approved emergency use rapid testing platforms.
 - Testing also applies to COVID-19 saliva testing.

Current Process

- Continue to employ testing of symptomatic individuals.
- Continue to employ testing of asymptomatic individuals using contact tracing when there has been a known or suspected exposure.
- Continue to perform routine testing on all intake inmates entering prison facilities, with strategic re-testing and 14-21 day quarantine, before integrating these individuals into the General Population.
- Continue to impose a 14-day quarantine for those individuals returning from off-site locations where possibility of exposure cannot be ruled out.

- COVID-19 testing can be employed prior to re-integration into prison population if not already performed by the sending entity.
- Continue to conduct regular health surveillance of the identified “vulnerable populations” (i.e. those with health conditions that place them at higher risk of complications should they contract COVID-19).
- Continue to conduct testing on individuals who have off-site medical appointments or procedures, prior to granting clearance for transport and scheduling.
- Continue to conduct testing and 14-day Quarantine for any inmate scheduled to leave for a Federal Trial.
- Continue to conduct testing on individuals who will be releasing from prison back into the community (***Release Testing***).

STRATEGIC SURVEILLANCE TESTING

- Following the *DoD Force Health Protection Guidance (Supplement 11)* – involves targeted testing for infections in selected populations to detect disease early and direct public health action.
- *“Effective sentinel surveillance for Covid-19 requires testing asymptomatic persons; these persons should be in populations with a higher likelihood of infection and for whom actions can prevent widespread transmission.”*

ADCRR (Arizona Department of Corrections, Rehabilitation and Reentry) goal: test at least 10% of the inmate patient population per month

- In addition to all testing strategies listed above and already in place,
 - Test 100% of inmate work crews every 7 days
 - Additional focused patient testing based on disease prevalence at facility
 - Consider testing random samples of inmates from each housing unit, as an indicator of asymptomatic infections within the facility.
 - Exclude patients who have tested positive for COVID-19 in the prior 90 days

ADCRR goal: targeted staff testing

- Offer weekly test to all transport staff
- Additional focused staff testing based on disease prevalence at facility
- Consider testing random samples of employees who come into contact with the inmate population.
- Exclude staff who have tested positive for COVID-19 in the prior 90 days

Maintain Social Distance: COVID 'Close Contact' Adds up to Exposure

An investigation into how an employee contracted COVID-19 in the workplace caused the CDC to change its definition of "close contact." This impacts contact tracing and renews emphasis on workplace controls.

Previously, the CDC defined "close contact" as someone who spent at least 15 consecutive minutes within six feet of a confirmed coronavirus case. The new definition is, "Someone who was within six feet of an infected person for a cumulative total of 15 minutes or more over a 24-hour period."

In other words, exposures should now be added together over a 24-hour period. For example, three five-minute exposures for a total of 15 minutes.

No Contact was Over 1 Minute

An Oct. 21 CDC case study tells how a Vermont correctional officer is believed to have contracted the virus. The officer had brief contact with six incarcerated or detained people (IDP) who later all tested positive for the coronavirus. Days later, the officer tested positive.

The Vermont Department of Health and his employer conducted a contact tracing investigation using video surveillance footage. The video showed the officer didn't meet the old definition of close contact. He never spent 15 consecutive minutes within six feet of the IDPs.

He did have 22 brief (about one minute each) encounters that added up to about 17 minutes. During most of the encounters, the IDPs wore cloth masks. However, during several encounters in a cell doorway or in a recreation room, the IDPs didn't wear masks. The officer wore a microfiber cloth mask, gown, and goggles during all encounters. He also wore gloves during most of the interactions.

The investigation notes there may have been additional interactions that weren't found. The officer had no other close contact exposures to anyone with COVID-19. Another worker whose contact met the old definition also tested positive.

Maintain Social Distance: COVID 'Close Contact' Adds up to Exposure

Impacts on Businesses, Schools

Caitlin Rivers, an epidemiologist at the Johns Hopkins Center for Health Security, told The Washington Post the updated CDC guidance is an important change. Noting employees may interact with co-workers for "a few minutes at the water cooler, a few minutes in the elevator, and so on," Rivers said, "I expect this will result in many more people being identified as close contacts" during contact tracing.

Rivers also said, "This change underscores the importance of vigilant social distancing."

[Previous Page](#)

3

[Next Page](#)

Close Contact

Someone who was within 6 feet of an infected person for a cumulative total of 15 minutes or more over a 24-hour period* starting from 2 days before illness onset (or, for asymptomatic patients, 2 days prior to test specimen collection) until the time the patient is isolated.

** Individual exposures added together over a 24-hour period (e.g., three 5-minute exposures for a total of 15 minutes). Data are limited, making it difficult to precisely define "close contact;" however, 15 cumulative minutes of exposure at a distance of 6 feet or less can be used as an operational definition for contact investigation. Factors to consider when defining close contact include proximity (closer distance likely increases exposure risk), the duration of exposure (longer exposure time likely increases exposure risk), whether the infected individual has symptoms (the period around onset of symptoms is associated with the highest levels of viral shedding), if the infected person was likely to generate respiratory aerosols (e.g., was coughing, singing, shouting), and other environmental factors (crowding, adequacy of ventilation, whether exposure was indoors or outdoors). Because the general public has not received training on proper selection and use of respiratory PPE, such as an N95, the determination of close contact should generally be made irrespective of whether the contact was wearing respiratory PPE. At this time, differential determination of close contact for those using fabric face coverings is not recommended.*

Hello,

Please share this with all your contacts.

In an attempt to help meet the increased demand for COVID-19 testing, Canyonlands will be hosting a testing blitz this Saturday 11/21 from 0700-1200.

This will be like the previous event they did in June.

It will be FREE of charge to the public.

Those interested in being tested are encouraged to drive to the East parking lot of their location and stay in their vehicle for the duration of the event.

They have approximately 300 Nasopharyngeal tests on hand.

The Health Department would like to thank Canyonlands for their continued support during this fight against COVID.

Please feel free to reach out with any questions.

Thanks,

Subject: Re: Fwd: Soap/Dakota Unit
To: Frank Strada <fstrada@azadc.gov>
CC: Lance Hetmer <lhetermer@azadc.gov>

Sir, here is an update regarding the contents in the email regarding soap accessibility at the Dakota unit.

Soap- The Dakota unit has a stock on hand of bars of soap for the inmate population. All COIIs (available in each housing unit and the detention unit) keep a supply in their area to issue to inmates upon request. Additionally, the shift supervisors have access to bar soap that they issue upon request to inmates. All staff have been advised since March of this year to provide bar soap upon request to the inmate population. In light of this email, shift supervisors will ask every inmate at the unit whether they need a bar of soap. This is currently in process.

Sanitation: The Dakota unit has plenty of cleaning supplies and chemicals available in all housing unit pods, watch cell areas, and control rooms. Sanitation supplies are refilled on a schedule and/or more often as needed. Sanitation supplies and chemicals were last refilled and supplied on 11/14/2020 (yesterday) to the inmate housing units, watch cells and control rooms by Sergeant Aparicio.

Locked down: The Dakota unit is compartmentalized, meaning only inmates of the same housing unit pod are only allowed to interact with each other. Building 7 A,B and C pods were compartmentalized on November 2, 2020. The whole unit became compartmentalized on November 5, 2020 for COVID related issues and subsequent testing. The Dakota unit did lock down on November 3, 2020 to issue tablets to the inmate population. After the tablets were issued the unit was no longer locked down and returned to compartmentalization. Compartmentalization affords recreational outdoor activities for the population.

Visitation: Video visitation has temporarily been suspended when the Dakota unit became compartmentalized when positive COVID cases occurred and pending inmate COVID testing results for those with a potential exposure. This practice is consistent with past measures taken when an area or unit has experienced positive COVID exposure in order to prevent the potential cross contamination and spread of the virus. Because inmates in all four housing units have been exposed, this temporary suspension affects the entire unit. As of today, the unit is pending the results of 17 tests. Once these are received, the unit will be

able to resume visitation in areas that no longer require compartmentalization.

Sir, would you like for me to prepare a response on the Director's or your behalf to Donna Hamm?

My son (Redacted) is in Yuma Dakota unit and he just told me that for about a month

they haven't been getting soap supplies to the inmates. It is really bad because they are now in lock down because of numerous cases of Covid that started a week ago last Wednesday. We are not allowed video visits and I was told they are not sure when this will resume. Please help with the soap situation asap. Thank you.

On 11/13/20 at approximately 1415 hours RN Pontious notified Sgt Russett that two (2) inmates' COVID results were returned as positive. The inmates were both from [REDACTED] Hut [REDACTED]. This will be a total of seven (7) inmates that have tested positive from East Unit since 11/02/20 with two (2) inmates pending test results.

Compartmentalization shall be implemented immediately (Compartmentalization Plan is

attached) with the following additional actions:

- All inmates in [REDACTED] Cluster have been screened by Centurion staff (no inmates were found with flu-like symptoms during the screening). Centurion will conduct a follow-up screening of all inmates in Fox Cluster in ten (10) days.
- All inmates in [REDACTED] Hut [REDACTED] were COVID tested and the hut was compartmentalized on 10/21/20. All inmates in the hut have tested positive with two (2) inmates currently awaiting results. All inmates that have tested positive have been isolated at CB-Kasson. They are as follows:
 - [REDACTED] (Compartmentalized since October 21, 2020) Tested 10/22/20 negative, 10/30/20 positive.
 - [REDACTED] (Compartmentalized since October 21, 2020) Tested 10/22/20 negative 10/30/20 positive.
 - [REDACTED] (Compartmentalized since October 21, 2020) Tested 10/22/20 negative 10/30/20 negative 11/10/20 positive.
 - [REDACTED] (Compartmentalized since October 21, 2020) Tested and positive 10/22/2020.
 - [REDACTED] (Compartmentalized since October 21, 2020) Tested 10/22/20 negative 10/30/20 negative 11/10/20 positive.
- On 11/06/20 I/M [REDACTED] was isolated to CB-Kasson due to flu-like symptoms and tested positive for COVID on 11/11/20. All inmates in Dorm [REDACTED] were screened by Centurion staff (no other inmates were found with flu-like symptoms during the screening).
 - [REDACTED] (isolated since November 06, 2020) Tested and positive 11/11/20.
- East Unit staff will be registered through ASU for saliva testing and will be treated as walk-in's at the weekly complex testing beginning next week. This will be coordinated through the OSC and the OHN based on available supplies and staff schedules.
- East Unit staff will not be authorized to work OT at any other unit nor will they be cross-leveled until advised otherwise (they will be able to work OT at East Unit only).

East Unit will continue to be monitored and will follow their Compartmentalization Plan until advised otherwise. Please let me know if you have any questions.

Survey Questions and Recommended Responses:

Does your agency manage a congregate setting? *

Yes X

No

How did you adjust operations to comply with public health guidance, including physical distancing and testing? *

- ADCRR followed the CDC and Az DHS guidelines and revised accordingly. Employee screening was initiated at all institutional ingress points. All instances of positive employees resulted in contact tracing of staff and inmates. Inmates and staff were issued face coverings for when social distancing is not possible and required for staff to wear while on duty. Enhanced cleaning schedules were implemented. Compartmentalization procedures were created and implemented due to the inability to appropriately social distance within guidelines with presumed positive inmates being medically isolated, quarantined and tested. Positive inmates are medically isolated from the general population and presumed positive. Temporary barriers were placed in dormitory settings to reduce cohort populations of the general inmate population and further prevent transmission. Non-essential personnel discontinued entering institutions. All inmate movement was limited and inmate work crews leaving the institution were suspended. All county intake inmates were quarantined for 14 days and tested twice for COVID prior to transfer to outside facilities. Az DHS conducted and completed an Infection Control Assessment and Response (ICAR) at all 10 ADCRR Institutions which included a review of protocols and physical inspections for adherence to guidelines. All inmates in 16 ADCRR and Contract facilities provided COVID-19 PCR testing within five weeks. Over 36,560 Inmates were tested during this testing phase. Voluntary serology testing completed for all employees of ADCRR, Contract Prisons and Contract Partners at 16 ADCRR facilities. Due to temporary suspension of in person visitation, video visitation implemented at all ADCRR and Contract facilities, providing inmates continuity of visitation services while modified procedures. Release testing implemented at all 16 ADCRR and Contract facilities. Surveillance testing is being conducted weekly on all vulnerable inmates housed in medical units and all staff assigned to these areas.
- Additional management strategies have been and continue to be implemented to ensure compliance with public health guidance to include coordination with the Arizona Department of Health Services and ADCRR's Health Services provider Centurion. Robust surveillance and saturation testing with contact tracing is ongoing.

How did you manage the challenges this caused for your staff? *

- To recognize the extraordinary sacrifice and public service of those on the front lines during this unprecedented time, a 25% Hazardous Duty Pay and an 8% Critical Services Pay was implemented. This strategy has led to bolstered retention numbers and has been significant in increasing employee morale.
- The stocking and distribution of PPE and cleaning supplies is ongoing to ensure required inventories are maintained. ADCRR Leadership huddles are conducted three times a week via video with the Director and all 16 ADCRR and Contract facilities. Management strategy updates are provided externally and internally on ADCRR websites. Telework posture implemented at ADCRR Headquarters and Community Corrections.

What seemingly insurmountable challenge arose as a result of the pandemic? *

In the beginning the availability of testing and result turnaround was a challenge. As the national capacity of testing increased, this issue diminished. PPE shortages were experienced at the onset but were overcome with Arizona Correctional Industries repurposing garment facilities to manufacture face coverings for inmate, staff and other state agencies. Lastly, the need to quarantine inmates at intake for 14 days required the coordination with County Jails to suspend intake for 14 days and agree upon 1 day a week intake reception.

How did you approach this challenge?

Resolutions noted above, ADCRR continues to work towards creating policy objectives with the County Jails to enhance inmate reception safety and reduce COVID-19 transmission.

How does your agency's response compare to your peers in other states? *

ADCRR is one of a handful of correctional systems nationwide to test their entire population. Of those who have, ADCRR currently has the second infection spread in the nation.

What innovative solutions did you discover during the response, and are they sustainable long-term?

Compartmentalization strategies have been instrumental in our success leading to other states adopting these effective procedures. ACI flexibility to shift operations and product to enhance response capabilities, ADCRR Information Technology staffs' ability to rapidly build out and support IT solutions towards video visitation. ADCRR's ability to implement telework and sustain productivity throughout the agency. The ability to coordinate and conduct continued surveillance and release testing to prevent outbreaks within the institutions and reduce community transmission for those inmates released. ADCRR's Medical Monitoring Bureau's initiative to expedite and expand testing when resource and obstacles were experienced.

What scorecard metrics or other metrics demonstrate these results? *

- ADCRR has several Dashboards providing data and current state.

Please include any supporting materials or charts.

- PDF of ADCRR Dashboard
- COVID-19 data continues to be updated on ADCRR's dashboard at <https://corrections.az.gov/adcr-covid-19-dashboard>. For the latest regarding ADCRR COVID-19 management strategy, please also visit: <https://corrections.az.gov/>.

How did your customers behaviors and expectations change during the pandemic, and how did you adapt to meet these expectations?

Communication was provided early on with ADCRR stakeholders to include IGA and private inmate labor contract partners to address operational changes. Information was disseminated via the website and inmate population to update the public and inmate and inmate family population of institutional operational changes and address safety concerns. Accommodations were made and communicated as quickly as possible to ensure continuity of critical services.

Do you anticipate these changes will last beyond the pandemic? Why? *

All solutions are reviewed for integration into ongoing operational processes.

What scorecard metrics or other metrics demonstrate these results?

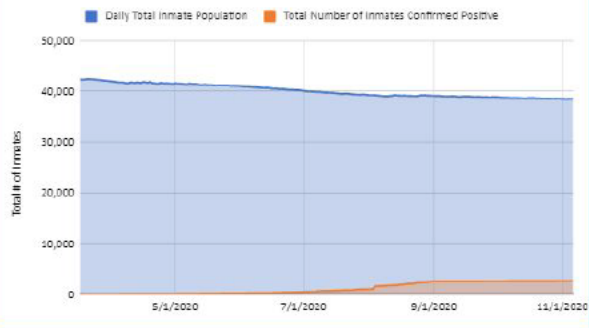

Please include any supporting materials or charts.

What piece of advice would you leave your successor if they faced similar challenges in the future? *

ADCRR's immediate action to reduce all non-critical movement, services and operations within the institutions and enacted robust testing to strategically guide compartmentalization plans for those affected institutions has mitigated the spread of COVID-19 virus within the inmate population. Overall, ADCRR at this time has a positive inmate COVID-19 population of less than .04%. In addition, ADCRR plans to complete a robust after action review with all stakeholders, update and modify ADCRR Pandemic Emergency Response Plan, and continue to test, train and exercise to validate it in the coming years.

Good morning

Below are the top 20 town hall questions from Douglas.

Lisa

----- Forwarded message -----

From: **Gerald Thompson** <gthompson@azadc.gov>
Date: Fri, Nov 6, 2020, 11:13 AM
Subject: Questions from Douglas Complex
To: Lisa Yanez <lyanez@azadc.gov>

Questions from Douglas Complex for Director David Shinn

1. In order to reduce our energy cost, educate our inmates; generate jobs for our inmates and the public, would you consider installing solar panels either in the parking lots or on some of the housing units?
2. Can we have a recycle system and use the money for the unit's needs?
3. Will ADCRR ever update our lighting to LED lights?
4. In addition to the face cover staff notification, are you working on implementing further COVID-19 changes to assist in mitigating this pandemic?
5. Has there been any consideration given to implementing video visitation as the only form of visits for the inmate population.
6. During normal visitation, inmates would not have visits on Thanksgiving, Christmas or New Years. This has now changed and visitation staff have to conduct video visitation on these holidays. Why did the department change this?
7. Would it be possible to have the saliva, COVID 19 test available to staff on complex, and have it administered by the OHN to those who have symptoms or who have had direct contact with a confirmed positive individual? This would eliminate the amount of time staff would be out on sick leave.
8. If you had your druthers, what options, opportunities, quality, direction would you like to see ADC education provide?
9. Can you elaborate on the possibility of incorporating corporal positions in the uniform series?
10. Is the rank of corporal still being considered for the FTOs due to the increased

responsibilities?

11. When is the Captain and CO IV test going to resume again, both testing dates were postponed?
12. Can tuition reimbursement amounts be adjusted according to the college/university being attended or according to the cost of the school? For example community college students would be eligible for \$3,000 per year and those attending at the university level would be eligible for a greater amount?
13. How much longer will the 8% stipend last?
14. Will there be any COMP/Holiday pay out this year?
15. Will we continue to have regional academies in Douglas when there are CO II vacancies?
16. How has your experience been so far working for ADCRR?
17. With the name change for the department, will we be changing uniforms/patches?
18. Is there any consideration of uniforms for the program staff?
19. Hooded jackets are not permitted inside the prison system. Many non-uniform staff have these and it helps with covering up as you are walking out in the cold or rain. Non uniform staff do not wear beanies or ball caps like the uniform staff. Things have changed that staff and inmates are wearing facial coverings, something we thought we would never see. Can it be reviewed so that staff can wear a hooded jacket with the understanding during ingress points they cannot have it pulled up.
20. Now that staffing has increased, Can staff in operation positions have weekends off? Can they take the holidays off?
21. Will Papago ever house more than a 100 female offenders?

--

Bcc: dshinn@azadc.gov
Subject: 11-5-20 ADHS COVID-19 MEMO
Date: Thursday, November 5, 2020 6:05:58 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. The Department would like to provide a few updates about key response actions.

-

Today, ADHS provided an update on COVID-19 trends and mitigation measures in Arizona. Check out this week's [report](#) and [video](#).

-

ADHS continues to partner with local health departments to respond to reports of business non-compliance with mitigation measures.

-

To date, ADHS has received over 3,700 complaints about 1,960 unique businesses. ADHS staff has provided follow-up on 1,816 of these, including 437 onsite inspections.

-

ADHS has assigned 32 investigators to complaint follow-up activities.

-

In addition, 7 counties have agreed to partner with ADHS to investigate complaints submitted through the [ADHS system](#).

-

Distribution of PPE, test kits, and other supplies continues to be a priority for the ADHS team. When ADHS receives these supplies, they are distributed to local health agencies for further distribution to healthcare and first response partners, schools, and other prioritized entities.

-

To date, nearly 600,000 rapid diagnostic test kits have been distributed to local health.

-

To date, over 46,000,000 pieces of PPE and other supplies have been

distributed.

- The ADHS [Business](#) and [School](#) dashboards were updated yesterday. All counties, with the exception of Greenlee, remain in moderate spread. Greenlee is in minimal spread.
- ADHS maintains awareness of evolving guidance from federal partners and updates guidance documents as necessary. This week, [Release from Isolation and Quarantine Guidance](#) was updated based on CDC's recent changes to the definition of a close contact.
- With continued increases in case counts and percent positivity, ADHS urges all Arizonans to wear masks, wash hands, and physically distance, including while at small household gatherings. In addition, with the weather cooling down, ADHS has increased messaging about moving activities and gatherings outdoors to reduce risk of transmission.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Here are some social media posts that you may find useful to disseminate to your constituents:

- <https://twitter.com/AZDHS/status/1324428741288824837?s=20>
- <https://twitter.com/AZDHS/status/1324368878844190720?s=20>

Please note that moving forward updates will occur on a weekly basis unless additional significant developments necessitate more frequent communication.

Thank you for your investment in helping Arizona address COVID-19 in Arizona.

Lisa

This email contains information that is intended only for the person(s) to whom it is addressed. If you received this communication in error, please do not retain it or distribute it and notify the sender immediately.

If a second coronavirus outbreak occurs, how is the Department going to respond in regards to staff safety?

Will ADOCRR be implementing more Detention Liaison Officers (DLO's) in the STG/CSG Department ?

Will the intake process continue after the COVID-19 pandemic where the southern region counties are processed at Tucson Complex and the Northern regions come to Alhambra for processing?

Is there a chance tuition reimbursement is going away due to funds being needed elsewhere?

When will Grade 20 positions become available to apply to again (COIV, Captain)? Testing for these positions was cancelled earlier this year.

What is the new director's plan for staff retention, and will a pay increase factor in?

Is overtime only allowed for complexes with 15% or more vacancy a permanent change and if so how will this change be maintained long-term?

Estimated closing date for Florence?

How will the money saved on the closing of Florence be utilized?

Will admin secretaries and other support staff receive merit pay this upcoming year like they did in the year prior?

Will there be changes to the promotional process in the future?

Are there any plans to repair or replace the fleet currently on the road?

Any more changes to the uniform policy in the works? If so, what?

Will 12 hour units ever go back to 8 hour shifts?

Can we increase the uniform allowance? It basically only covers one item a month.

What is the status of the 5% raise we were going to receive this year, is it still on the table for next year.

Will overtime become available again at the Phoenix complex?

Will the Department be able to buy more vest plates?

Will the department remove mental health inmates from Phoenix to provide more housing for intake inmates?

To: Lisa Yanez <lyanez@azadc.gov>

- Do you have any plans at this point in time to phase out the permanent status Correctional Officer Trainees, now that we have the temporary ones in place?
- Are we going re-request the 5% pay increase next year?
- Any word on when off-site work crews/visitation are planning on going back to normal operations?
- Why are we considering changing the Custody levels to min, low, med, high and Max?
- Will there ever be a Max Custody & Close management for women?
- Why are there approximately 50 Sergeants making more money than some Lt's? As the example applies to any above rank?
- The vehicle the fleet at Perryville trucks, trams, and cars is in poor condition and is in the need of an upgrade, what can be done to improve this issue?
- With staff medical insurance costs seemingly increasing every year, is there any end in sight?
- Do we have an approximate timeline to reinstate inmate contact visits?
- For social distancing, are the majority of training classes going to be CBT for this yearly training

cycle?

- Can we consider banning tobacco products for inmates?
- Posting COIII one day per week as COII takes them away from their assigned COIII duties. The reduction of COIII programming hours can impact the quality of COIII services. With the reduction of COII the vacancy rate, can we consider not posting COIII for security duties?
- Is there an estimate for how long will the 8% & 25 % Critical pay/stipend continue?
- Are we changing uniform to reflect the new Agency name?
- Are we still considering implementing the Corporal position?
- Can we consider step increases for the supervisors similar to the COII's?
- Why don't we have an area at the hospital as we had before? MMC or St. Mary's
- Can we either have certified program instructors from outside to facilitate inmate programs or make the current programs instructor certifications more robust similar to the industry standard.
- With the ACIS, can we look into the further reduction of paper usage into a paperless system?
- How does Complexes get allocated for capital expenditure funding to repair or replace equipment?

Hello Director Shinn, my name is [REDACTED]. I am a transportation officer at ASPC [REDACTED] complex. I have been with the department for 10 years this month. My job is to transport inmates from [REDACTED] to [REDACTED] for various reasons, transfers, releases, med runs Etc. I then occasionally transport inmates for local morning med runs. My schedule is 4-12 M-F. Two weeks ago we started the new weekly saliva testing for transportation officers. The testing is done on Tuesday afternoons and Wednesday while the OHN is available to give the test. On 10/21, It took me about 30 minutes to schedule the appointment, print the paper with the scan code on it and meet with the OHN and complete the test. Because of my schedule I can only take the test on Wednesday. There are no directives on how to schedule the test or take it, it is just expected to be done and as you know we are not allowed overtime to get this done at least that's what we were told. On Wednesday the 21 my schedule was

pretty open so I was able to bring my scheduled inmates down to [REDACTED] schedule my appointment and get the test done that day with no overtime. The results came back negative. Wednesday the 28th however my schedule was full, I sent an attachment of my schedule for both Wednesday's, anything on the schedule that says [REDACTED] or [REDACTED] is my job, it takes about an hour to get from [REDACTED] complex. I started at 0400, at about 0530 I left [REDACTED] and took the scheduled inmates to [REDACTED]. At around 0645 I took an inmate to his med appointment in [REDACTED] about 15-20 minutes away that was scheduled for 0715. When his appointment was done around 0800 I returned to [REDACTED] and picked up inmates that I brought over for MVD processing and took them and the med run inmate back to [REDACTED]. I dropped them off and returned to [REDACTED] complex to pick up the inmate at [REDACTED] unit to transport him to [REDACTED] for pre-op isolation, because he is from [REDACTED] unit and a PC inmate he could not be transported with the other GP inmates. I made it back to [REDACTED] unit around 1030 picked up that inmate and then transported him to [REDACTED]. When I was done with everything on the schedule it was approximately 1145. I refueled my van cleaned it and returned my keys and radio and was done close to 1200 at my normal time. I am scheduled to be off at 1200, I start and finish my day at [REDACTED]. There were no directives given on what steps need to be taken or should be taken if you miss the scheduled testing. At around 1600 I was notified by my supervisor that because I missed the test I would be placed on the yard at [REDACTED] until I could be retested. I asked why and explained my schedule, which my supervisor had made, and was told it didn't matter it's my responsibility to get tested every week. I then called [REDACTED] and told him what was going on and asked why I was being moved to the yard when I felt it was not my fault I missed the test due to my schedule. He said it was pretty hypocritical and that the directive to him was that I had to be in the testing process to do transportation. I asked if I took a sick day on Thursday and went to my Dr. and got a test could I continue my duties and he said he didn't see why not but I would have to check with the OHN. I then called the OHN and asked her about getting my own test and that being acceptable she said I'm not sure I'll make a call and get back with you. She called me back and said that would be fine I just had to bring her proof that I took the test. I went to the Dr. the next day and got a nasal swab covid test done and took a Drs. note to the OHN and she said she would let the Major know. I received a call from my LT about 2 hrs later and was told I needed to report to [REDACTED] unit to work the yard until this Wednesday when I could be retested. I called the Major and asked him why and he stated that it was not his call that they had a meeting with the warden and they decided to have me work the yard anyways. I feel like this is unfair, I feel I have gone above what was expected by getting my own test and spending my own money on an assurance from the Major and OHN to continue to do my job and I do not understand why. I am just asking to do my normal job and am being shut down. I was told that the testing was being done to protect the public and that there are places in Tucson and Phoenix that require weekly testing to bring inmates into public facilities. I am confused as to why, if that's the reason, was I then just not allowed to do any runs that would put the public at risk. I am wondering why when I was off on Thursday to take my test that they would schedule a part time officer who had not been tested to do a transportation run, a release to Phoenix, when I am not allowed to do transportation runs with a recent negative test. I am just looking for clarity on what seems to be unclear to anyone. Thanks for your time sir.

Subject: 10-30-20 ADHS COVID-19 MEMO
Date: Friday, October 30, 2020 4:37:33 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. The Department would like to provide a few updates about key response actions.

- With Halloween this Saturday, ADHS reminds all Arizonans to mask up while they celebrate. Information on safe Halloween celebrations was included in a recent [blog post](#) by Dr. Christ. A one-page [information sheet](#) on Halloween safety is also available.
- This week, ADHS launched a new [COVID-19 Updates section](#) on our website, which includes a [video update](#) by Dr. Christ and a [report on recent COVID-19 trends and recommendations](#). This page will be updated routinely with recent information.
- ADHS continues to work with partners to ensure access to testing throughout Arizona. Over [500 testing sites](#) are available across the state. In addition, ADHS works with local health departments to distribute rapid COVID-19 diagnostic tests for use in schools and congregate care settings. To date public health has received nearly 600,000 kits for distribution. Kits have also been directly shipped from federal partners to over 480 assisted living and skilled nursing facilities to date.
- Yesterday, Dr. Christ joined Governor Ducey at a media event to provide a COVID-19 update and highlight recent COVID-19 trends. The video is available [here](#).
- The ADHS [Business](#) and [School](#) dashboards were updated yesterday. All counties, with the exception of Greenlee, remain in moderate spread. Greenlee is in minimal spread.
- ADHS [works with local public health and education partners](#) to provide information and recommendations for schools to support continued safe learning opportunities for children throughout the state. Yesterday, we updated the [Safely Returning to In-Person Instruction document](#), which offers recommendations to school leaders to support decision-making. [These clarifications](#) reiterate the fact that local school

authorities are the ultimate decision makers on instructional delivery models in schools and encourage schools to work with their local public health departments to gain insight on local health conditions in their communities when making decisions about instructional delivery models.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Here are some social media posts that you may find useful to disseminate to your constituents:

- <https://twitter.com/AZDHS/status/1322194555282870274?s=20>
- <https://twitter.com/AZDHS/status/1321958137902104582?s=20>
- <https://twitter.com/AZDHS/status/1322282132639797250?s=20>

Please note that moving forward updates will occur on a weekly basis unless additional significant developments necessitate more frequent communication.

Thank you for your investment in helping Arizona address COVID-19 in Arizona.

Looks good. Let's also leverage their interest in infectious disease prevention protocols as an opportunity to engage them in mandating reciprocal procedures for transfers to our custody.

On Thu, Oct 29, 2020 at 1:59 PM Frank Strada <fstrada@azadc.gov> wrote:

Per Stacey. If everyone is fine with this I'll send to Tony.

Inmates are going out to court and staying for one or more days to all counties from all over the state. The number of inmates going out has decreased since COVID, but it is still occurring. The inmates are not tested prior to pick up. If the inmate is symptomatic or is currently positive, the counties are notified and the hearing is rescheduled. We have recommended that the courts take advantage of video conferencing as much as possible and this does happen occasionally. Most of the video hearings are status conferences not for inmates being sentenced, I am working with the AG and the Pima County presiding judge to start doing sentencing via video. Statute requires the inmate to be fingerprinted at the time of sentencing and we have worked out a process with the court and DPS where ADCRR staff will take the print and attach it to the sentencing document then send it back to the court for filing. This was finalized this week so we do not have a sentencing scheduled at this time.

We cannot require the counties to quarantine the inmates for 14 days prior to them returning. ADCRR however does quarantine them for 14 days upon return. We also try to bring all court returns into Alhambra when possible so we are not taking up detention space.

Exception: Per our agreement with US Marshall, all inmates being picked up the the US Marshal for court or release are being tested and quarantined for 14 days, if possible, based on the amount of advance notice that we receive. Last week, we received our first court order from the federal courts mandating us to test and quarantine an inmate prior to pick up from the Marshalls.

Subject: Inmate Court Transfer Testing

To: Joseph Profiri <jprofiri@azadc.gov>

Hi Joe,

A question came up on an ADHS call yesterday with county public health officers regarding DCRR inmates being transferred to county jail facilities. I believe this is when an inmate has an in-person court date in a particular county and needs to be present there, and may need overnight housing.

I have a few questions for my clarification:

- Is this happening now, and to what degree across the state?
- Are inmates tested at DCRR facilities prior to transferring out?
- Is DCRR requiring the county jail facilities to quarantine these inmates for 14 days prior to transferring them back, or are they quarantined at Alhambra upon return?

Thanks for your help!

Tony

I have a few questions for my clarification:

- Is this happening now, and to what degree across the state?
- Are inmates tested at DCRR facilities prior to transferring out?
- Is DCRR requiring the county jail facilities to quarantine these inmates for 14 days prior to transferring them back, or are they quarantined at Alhambra upon return?

Thanks for your help!
Tony

Good with me.

On Thu, Oct 29, 2020 at 1:59 PM Frank Strada <fstrada@azadc.gov> wrote:

Per Stacey. If everyone is fine with this I'll send to Tony.

Inmates are going out to court and staying for one or more days to all counties from all over the state. The number of inmates going out has decreased since COVID, but it is still occurring. The inmates are not tested prior to pick up. If the inmate is symptomatic or is currently positive, the counties are notified and the hearing is rescheduled. We have recommended that the courts take advantage of video conferencing as much as possible and this does happen occasionally. Most of the video hearings are status conferences not for inmates being sentenced, I am working with the AG and the Pima County presiding judge to start doing sentencing via video. Statute requires the inmate to be fingerprinted at the time of sentencing and we have worked out a process with the court and DPS where ADCRR staff will take the print and attach it to the sentencing document then send it back to the court for filing. This was finalized this week so we do not have a sentencing scheduled at this time.

We cannot require the counties to quarantine the inmates for 14 days prior to them returning. ADCRR however does quarantine them for 14 days upon return. We also try to bring all court returns into Alhambra when possible so we are not taking up detention space.

Exception: Per our agreement with US Marshall, all inmates being picked up the the US Marshal for court or release are being tested and quarantined for 14 days, if possible, based on the amount of advance notice that we receive. Last week, we received our first court order from the federal courts mandating us to test and quarantine an inmate prior to pick up from the Marshalls.

Hi Joe,

A question came up on an ADHS call yesterday with county public health officers regarding DCRR inmates being transferred to county jail facilities. I believe this is when an inmate has an in-person court date in a particular county and needs to be present there, and may need overnight housing.

I have a few questions for my clarification:

- Is this happening now, and to what degree across the state?
- Are inmates tested at DCRR facilities prior to transferring out?
- Is DCRR requiring the county jail facilities to quarantine these inmates for 14 days prior to transferring them back, or are they quarantined at Alhambra upon return?

Thanks for your help!

The irony of this concern is unbelievable given the absence of the same standard which we have begged all involved for since February 2020 for testing prior to transfer to our custody. Thankfully, we have already established and implemented a procedure with the U.S. Marshals Service and U.S. District Court. Let's talk further this morning.

Subject: FOP Recruiting Request
To: Joseph Profiri <jprofiri@azadc.gov>

Sir,

For over 40 years, the Fraternal Order of Police (FOP) has an honored history with the Arizona Department of Corrections, Rehabilitation & Reentry. We are also painfully aware of the many challenges of COVID-19, and the many steps the Department has taken to safeguard staff and inmates.

With that said, I would like to request permission to resume our recruiting efforts for membership, with proper protections, at the entrances to the prison complexes throughout the State.

Usually, we would provide information to the officers as they go into the prison units. On account of COVID-19, we plan to eliminate any FOP material going into the prison and instead, provide the officers with the information as they depart after their shift. Also, I will assure that all FOP representatives follow CDC approved guidelines, wear proper PPE's (masks, etc.) and social distance, to limit staff exposure while the reps are at any location.

With your permission, I would like to contact individual Wardens to work out a plan that will be safe for all.

If you have any questions or concerns, please feel free to contact me.

Waldemar "Richard" Mehner
President
Fraternal Order of Police, Lodge 44 for Corrections
wmehner@azfop44.net
480-343-0042

PS: Sorry about the resend, it seems that ADCRR IT has the [@fop.net](mailto:fop.net) defaulted to “junk mail”.

Subject: 10-22-20 ADHS COVID-19 MEMO
Date: Thursday, October 22, 2020 5:00:51 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. The Department would like to provide a few updates about key response actions.

- - As described in [Dr. Christ's blog](#), over the past few weeks in Arizona, reported cases and percent positivity have been increasing.
 - The statewide percent positivity, which gives us information about community spread, has increased from 3.9% a few weeks ago to 5.5% last week. This is an early indicator of increased COVID-19 spread throughout Arizona communities.
 - ADHS urges all Arizonans to remain vigilant in implementing the mitigation strategies that successfully decreased case counts by 75% at the end of the summer, including wearing masks, limiting business occupancy, and implementing strict mitigation requirements in high-risk businesses.
- Last Friday, ADHS submitted its [draft COVID-19 Vaccination Plan](#) to the federal government. The plan is a working document that will continue to be updated as we receive more information from CDC and other federal partners. It builds on the Arizona Pandemic Influenza Response Plan and lessons learned during the H1N1 vaccination campaign. You can read more about Arizona's COVID-19 vaccine planning efforts [here](#).
- This week, ADHS updated the [Requirements for Liquor Licensed Restaurants, Bars, and Nightclubs providing Dine-In Services](#) to include additional guidance on activities like parlor games and karaoke.
- The ADHS [Business](#) and [School](#) dashboards were updated today. All counties, with the exception of Greenlee, remain in moderate spread. Greenlee is in minimal spread. Of note, the School dashboard was refreshed to better display

recommendations for in-person, hybrid, or virtual learning using a green/yellow/red color system consistent with the Business dashboard.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Here are some social media posts that you may find useful to disseminate to your constituents:

- <https://twitter.com/AZDHS/status/1319327658895867904?s=20>
- <https://twitter.com/AZDHS/status/1319295455587672064?s=20>

Please note that moving forward updates will occur on a weekly basis unless additional significant developments necessitate more frequent communication.

Thank you for your investment in helping Arizona address COVID-19 in Arizona.

GRAHAM COUNTY
DEPARTMENT OF HEALTH AND HUMAN SERVICES

(928) 428-1962

826 West Main Street, Safford, Arizona 85546

Fax(928) 428-8074

FOR IMMEDIATE RELEASE

Wednesday, October 21st, 2020

Graham County, Arizona

Brian Douglas, Health Department Director

NEWS RELEASE

Increased COVID-19 Positive Test Results in Graham County

The Graham County Health Department is reporting an increase in positive COVID-19 cases throughout the Gila Valley.

We are strongly encouraging our residents to be more vigilant in wearing facial masks, to social distance, avoid large gatherings, stay home when sick, and get your flu shot. These mitigation efforts greatly reduce the risks of becoming ill or infecting others.

Evidence to-date indicates that children 18 and under experience a mild form of this illness similar to a cold. Those who have serious illness tend to be older adults and those with chronic health conditions.

The Health Department is advising that individuals who are sick with fever, shortness of breath and cough should contact their health care provider. Health care providers are in the best position to determine if an individual should be tested for COVID-19. Make sure you contact your health care provider ahead of time, if possible, to avoid exposing anyone in the waiting room.

General things that everyone should do to prevent the spread of all respiratory illnesses include:

- Wear facial masks.
- Avoid close contact with people who are sick.
- Avoid touching your eyes, nose, and mouth.
- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces using a regular EPA registered household cleaning spray or wipes.
- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not readily available, use an alcohol-based hand sanitizer.
- Find up to date information at [azhealth.gov/COVID-19](https://www.azhealth.gov/COVID-19).

CC: Kevin Curran <kcurran@azadc.gov>

Sir, as some follow up, I asked Mr. Garcia for the inmate name and number and last night he responded that he would provide me with the information - to date he has not.

We have confirmed that there are no active cases at the La Paz unit. That last positive inmate at the unit is the one referenced below, who was removed and quarantined from the unit the morning of Friday the 16th, and placed in a medical observation cell at the Dakota unit. Staff providing the security watch on the inmate have the appropriate PPE (N-95, gown/coveralls, gloves).

Respectfully,

Ed Jensen, Warden
Arizona State Prison Complex - Yuma
(928) 627-8871 ext. 16000
ejensen@azadc.gov

On Oct 19, 2020, at 7:42 PM, Ed Jensen <ejensen@azadc.gov> wrote:

Sir, we believe he is referring to an inmate who was tested as standard protocol prior to an upcoming release (not due to symptoms) whose results returned positive. The inmate was immediately removed from the yard and quarantined.

Currently there are zero positive inmates on the unit and zero symptomatic inmates as well.

I will ask for a name to see if he even has one, and if it does, whether it coincides with the inmate we identified.

Ed Jensen, Warden
Arizona State Prison Complex - Yuma
(928) 627-8871 ext. 16000
ejensen@azadc.gov

On Oct 19, 2020, at 7:03 PM, Frank Strada <fstrada@azadc.gov> wrote:

Ed ask him directly who the inmate is and also tell him there is no value in what he provided without stating who the inmate is.

Subject: Asymptomatic Coved Inmate at La Paz Unit

To: ejensen@azadc.gov <ejensen@azadc.gov>

CC: David Shinn <dshinn@azadc.gov>, Joseph Profiri <jprofiri@azadc.gov>, Frank Strada <fstrada@azadc.gov>, Juli Roberts <jroberts2@azadc.gov>, Kevin Curran <kcurran@azadc.gov>, MARTIN BIHN <mbihn@phxlegal.com>, Donna McDaniel <donna@phxlegal.com>, Kris Menke <phx20army@yahoo.com>, Mark Hasz <haszmark@hotmail.com>, Alex Salazar <asalazar14@cox.net>, Jeremy Moore <6024028350jm@gmail.com>, Anni Foster <afoster@az.gov>, Emilio Rui <yumaraider@yahoo.com>

Warden,

Just a heads up:

Staff are advising us that there is an asymptomatic Coved inmate at La Paz unit. The staff are being told that the inmate is not contagious so there is no need to wear a N95 mask.

If they are actually being told this and many staff are confirming this, then that information is completely erroneous and should be corrected immediately in the best interest of your staff and the public.

An asymptomatic patient is absolutely contagious and precautions need to be implemented.

If one of your staff coming in contact with that inmate come up positive afterwards, if will be problematic if they were following this erroneous information.

We're trying to be team players here with this "heads up" and avoid the spread that is bound to result from believing that this inmate is not contagious.

Yours in Solidarity

Carlos Garcia

GRAHAM COUNTY
DEPARTMENT OF HEALTH AND HUMAN SERVICES

(928) 428-1962

826 West Main Street, Safford, Arizona 85546

Fax(928) 428-8074

DATE: OCTOBER 19, 2020
FROM: BRIAN DOUGLAS, DIRECTOR, GRAHAM COUNTY HEALTH DEPT
TO: GRAHAM COUNTY RESIDENTS
RE: COVID-19 TESTING BLITZ (DRIVE-THRU)

Dear Residents,

We have once again entered into an agreement with Arizona State University's Biodesign Institute to provide SARS-CoV-2 (COVID 19) testing, utilizing a simple saliva collection method for our community.

Who:

Anyone who wants to be tested. You **do not** have to be sick or showing signs.

When:

Friday, October 23rd from 7:00 a.m. to 1:00 p.m.

Where:

Graham County Fairgrounds
527 Armory Rd, Safford, AZ 85546

Schedule an appointment:

Online registration is strongly encouraged, but walk-ins (drive-ins) will still be accepted.

- Register for appointment with your cell phone, tablet, laptop or desktop computer.
- Log in: <https://asubioempportal.pointnclick.com/>
- Agency code: **SALIVATEST**
- Once logged-in to the portal, click on "Appointments" to request an available appointment time
- **Arrive no more than 15 minutes prior to your appointment.**
- If you have any scheduling issues, please email COVID19info@asu.edu.

Important guidelines

- You must wear a protective face covering - either cloth or surgical mask.
- Bring the QR code you receive after scheduling your test appointment.
- 30 minutes before your appointment, rinse your mouth with plain water for 20-30 seconds and then spit the water out.
- Do not eat, drink (even water), smoke, vape, or chew gum for 30 minutes prior to your appointment time (any of these factors may cause an invalid test and/or your test may be rejected by clinical personnel at site collection). *Tip: Staying well hydrated by drinking water the day before and up to 30 minutes prior to your test will speed your saliva collection process.*
- Results will be available via the portal approximately 48 hours from your testing time.

If you have questions, please contact the Graham County Health Department at 428-0110.

This event is sponsored by: Graham/Greenlee United Way, Arizona State University, Arizona National Guard & Graham County Health Department.

Hello,

Please share this with your contacts.

This will be our 3rd testing blitz in the last two months.

The first blitz we had 170 people test with 7 positives.
The second blitz we had 190 people test with 6 positives.

These proved to be of value for Graham County, allowing us to meet the benchmarks for their respective weeks. This was the first time Graham County had met all three benchmarks.

Once again, we encourage all to come be tested, you DO NOT have to be sick or exposed.

Thanks,

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. The Department would like to provide a few updates about key response actions.

- - ADHS reminds all Arizonans to [take prevention measures](#) to mitigate the risk of disease spread including wearing a mask, maintaining at least six feet of distance from others when out in public, and limiting the size of gatherings.
 - Testing is [widely available](#) throughout Arizona and anyone experiencing symptoms or concerned about exposure to COVID-19 is encouraged to get a test.
 - Individuals who are a [contact to a confirmed COVID-19 case](#) should stay home from work or school and away from others for 14 days and self-monitor for symptoms.
- The [school](#) and [business](#) dashboards have been updated and continue to be updated each Thursday. At this time, all counties are in the moderate spread category except for Greenlee, which is in the minimal spread category.
- ADHS continues to work with a large multidisciplinary group of partners to prepare for implementation of a COVID-19 vaccination program in alignment with [CDC's COVID-19 Vaccination Program Interim Playbook](#). We are currently in the process of onboarding healthcare providers interested in participating in the program so they can receive training and complete necessary registration steps well in advance of vaccine arrival. To date, over 500 providers have begun the onboarding process.
- ADHS is working with local health departments to distribute rapid COVID-19 diagnostic tests, the Abbott BinaxNow [received from the federal government](#), for use in schools and congregate care settings. To date public health has received over 200,000 kits for distribution. In addition, kits were directly shipped from federal

partners to over 480 assisted living and skilled nursing facilities to date.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Here are some social media posts that you may find useful to disseminate to your constituents:

Valley Interfaith Project

Delivered electronically

Re: ADCRR Updates

Dear: Valley Inter faith Project

Thank you for your continued support to build a positive and transparent relationship with ADCRR. This is in repose to the letter sent electronically to Director D. Shinn dated October 08, 2020. As the Constituent Administrator, I will respond on his behalf.

1) Since the beginning of the pandemic, the Department has taken broad actions to mitigate the risk and impact of COVID-19 in all its facilities. Keeping our staff, inmates, and communities safe continues to be our top priority. ADCRR currently has an approximate 98% recovery rate among our inmate population. Among an inmate population of 38,676, ADCRR has approximately 24 active positive inmates, with 20 of them being from county intakes. Of the 2,614 confirmed cases, 2,562 have recovered.

It is also important to note that ADCRR is one of only a handful of state correctional agencies in the country to mass test their entire inmate population. ADCRR, in collaboration with the Arizona Department of Health Services (ADHS), has conducted onsite PCR testing of inmates at all of its statewide facilities. We are also testing our high-risk IPC on a regular basis.

ADCRR continues to conduct broad testing, including the testing of all inmates upon intake from the county jails, where they are quarantine and monitored for 14-21days before being moved to their assigned location. Additionally, inmates are tested a week before the scheduled release. Health care personnel who have direct patient contact with those who are medically high-risk are also tested regularly. ADCRR continues to isolate and test inmates with flu-like symptoms and continues to retest as needed. If necessary, inmates are transported to the hospital when they require that level of care.

COVID-19 data continues to be updated on ADCRR's dashboard at <https://corrections.az.gov/adcr-covid-19-dashboard>. Data on the dashboard is cumulative back to February 2020. ADCRR COVID-19 Management Strategy Updates can also be found by visiting: <https://corrections.az.gov/covid-19-management-updates>.

2) The COVID 19 Housing Program results from a partnership between ADCRR and the Department of Housing. The Department of Housing is contracting with a community vendor to run the program, including supplying housing, food, transportation, and case management.

The qualifications for the program are:

- Any inmate that tested positive for COVID prior to release without a subsequent negative test.
- Any inmate that does not have a viable private residence release option. A viable private residence release option requires informed consent from the residents that they are aware, the inmate is COVID positive, and they'll provide residence for the inmate upon release.

ADCRR Community Corrections will inform county probation departments of any inmates releasing through this program who are under their jurisdiction. Inmates releasing under the program will be transported directly to the residing placement by ADCRR transportation staff. It is anticipated that the typical stay will be 30 days or less. Any offender who is still testing positive at that time will be staffed for continuation in the program. The community vendor has secured a housing option in Maricopa County and will secure housing in other counties if the need arises.

3) We appreciate your offer to assist with ADCRR media regarding potential opportunities to work together to share recent progress. ADCRR Communications and Media Relations Department continues to work with press members from TV, radio, print, and online. From January 1 to October 14, 2020, ADCRR has responded to more than 1,035 media inquiries from the local, regional, national, and international press. ADCRR Communications also fulfilled 145 public records requests from the media since January 1, 2020.

ADCRR continues to cultivate relationships with local, regional, and national reporters through accessible, accurate, and timely responses. ADCRR Communications is also active on our social media platforms, and we continue to look at additional ways to highlight our successes to the public at large. Since March, we have been updating the media regularly through COVID-19 Management Strategy Updates sent out widely to press and posted on our website and our dashboard information, updated daily. Director David Shinn, over the past six months, has also appeared monthly in live interviews on KTAR's Mike Broomhead Show and on Fox 10 with Troy Hayden, to highlight ADCRR's successes.

Again, we thank you for your acknowledgement of the progress we have made within our agency. We will continue to highlight our success and build strong communication platforms.

Sincerely,

Regina Dorsey / Administrator

RE: FY 2021 Critical Services Pay Stipend and Hazardous Duty Pay Stipend Supplemental Request

Dear Director Gress:

The Arizona Department of Corrections, Rehabilitation & Reentry (ADCRR) respectfully submits for your consideration a FY 2021 Critical Services Pay Stipend and Hazardous Duty Pay Stipend Supplemental Request. This will sustain the vital compensation for our front-line officers, professional staff, and leaders whose daily work with inmates, often transferred from other jurisdictions with COVID-19, has been instrumental in controlling the spread of infectious disease in the congregant setting of our prisons. As I stated in my FY 2022 Operating Budget Request cover letter, ADCRR staff compensation is one of my highest priorities and an essential element of our retention strategy. Acknowledging the challenges, COVID-19 presented, the Department made the difficult decision to forgo a pay increase requesting in our FY 2022 budget with the intent to obtaining funding for these vital pay stipends.

Prior to the pandemic, stakeholders had reached a consensus in principle regarding the importance of increasing Correctional Officer (CO) salaries. Although the legislative session abruptly ended "Sine Die" and implementation of the FY 2021 "skinny" budget ended Department pay increase aspirations, ADCRR's Officers, professionals, and leaders have nonetheless met our increasingly challenging public safety mission by tirelessly maintaining a safe environment for staff and inmates while mitigating the unprecedented effects of the global pandemic. From my conversations with our men and women, they have universally expressed gratitude that their dedication to public service and determination to overcome unprecedented challenges has received recognition through the Hazardous Duty Pay and Critical Services Pay stipends. The substantial affect these pay stipends have had both personally and professionally for our Department's staff is clearly reflected in the positive impact in both employee retention and morale during this critical period.

As the State's economy rebounds, I will continue advocacy in support of salary increases for our men and women who perform one of the most challenging missions in both public safety and law enforcement. In the interim, I respectfully request your support of ADCRR's efforts for continued

Director Gress
October 9, 2020
Page 2

recognition of the extraordinary sacrifice and public service of those on our front lines during this unprecedented time.

With staff safety as my number one priority, the reduction of CO vacancies and reduction of mandatory extended shifts is critical to accomplishing this imperative. ADCRR is focused on maximizing resources to increase hiring and retention of our correctional officers, and the Critical Services Pay stipend and Hazardous Duty Pay stipend play a key role in those efforts. I value your concern and support of this most vital public safety concern.

Attached is the formal request which I am proud to submit on behalf of those with whom I serve and whom I am privileged to lead.

Sincerely,

David Shinn
Director

Charlotte Hallett, Budget Analyst, Governor's Office of Strategic Planning and Budgeting

FY 2021 Critical Services Pay Stipend and Hazardous Duty Pay Stipend Supplemental Request

In FY 2021, the Arizona Department of Corrections, Rehabilitation & Reentry (ADCRR) requests \$49,522,000 in supplemental funding to continue the Critical Services Pay stipend and Hazardous Duty Pay stipend throughout the end of the year. If ADCRR were to continue the stipends without supplemental funding, it would be unable to meet the final two payrolls of FY 2021.

In its memo of April 8, 2020, the Arizona Department of Administration (ADOA) approved a 25% Hazardous Duty Pay stipend for those working directly with individuals who are COVID-19 positive/presumptive positive and a 15% Critical Services Pay stipend for those who are at risk of contracting COVID-19 due to work with confined populations in recognition of the importance of retaining essential workers during the pandemic. In its memo of July 7, 2020, ADOA reauthorized both stipends for FY 2021. These stipends have proven effective for ADCRR in retaining Correctional Officers and other essential workers during this critical time. Without the stipends, ADCRR's retention rate is likely to fall, causing a corresponding increase in the vacancy rate.

ADCRR began providing the 25% Hazardous Duty Pay stipend and 15% Critical Services Pay stipend as of the first April 2020 payroll and continued to provide both stipends through FY 2020. Since the start of FY 2021, ADCRR continued the 25% Hazardous Duty Pay stipend and has paid a reduced 8% Critical Services Pay stipend. Both stipends cannot be received for the same hours worked. Because the Critical Services Pay stipend and Hazardous Duty Pay stipend were originally authorized starting in the final quarter of FY 2020, ADCRR was able to use all available resources from FY 2020 to cover the fourth quarter COVID-related stipend expenditures. This prevented ADCRR from paying any accrued compensatory time and holiday pay at the end of FY 2020.

ADCRR does not have budget capacity to support COVID-related stipends throughout FY 2021. The problem is exacerbated by the fact that there are 27 pay periods instead of 26 pay periods in FY 2021. Without supplemental funding, ADCRR will be required to revoke the Critical Services Pay stipend and reevaluate the Hazardous Duty Pay stipend following the payroll paid on November 5, 2020.

The following table provides information on the impacts of continuing the stipends under varying scenarios:

	Scenario 1	Scenario 2	Scenario 3
	Stipends are paid until the appropriations for personal services, ERE, and overtime are exhausted.	Stipends cease after the November 5, 2021, payroll - the length of time that the appropriations for personal services, ERE, and overtime will support them.	Stipends cease after the first October 8, 2021, payroll.
Consequences to Payroll	Appropriations are exhausted following the second payroll in May 2021, leaving \$49.5 M in unfunded payroll liabilities in June 2021.	Payroll is paid throughout the year with stipends ending after the first pay period in November.	There is an estimated \$7.3 M in salary savings during FY 2021 that can be used to pay down compensatory time and holiday liabilities, purchase critical equipment and provide capacity to handle emergency needs.
Risks to Consider	This scenario does not account for any major disturbances, life/safety needs or other urgent unplanned expenses.	This scenario does not account for any major disturbances, life/safety needs or other urgent unplanned expenses. Ceasing stipends may have a detrimental effect on recruitment and retention, and vacancy rates may begin to rise. The effect is exacerbated if other state public safety agencies are able to continue the stipends.	This scenario allows ADCRR to handle emergency needs. Ceasing stipends may have a detrimental effect on recruitment and retention, and vacancy rates may begin to rise. The effect is exacerbated if other state public safety agencies are able to continue the stipends.
Consequences to Comp Pay and Holiday Pay	FY 2021 ends with no compensatory time liability or holiday liability paid since January 2020.	FY 2021 ends with no compensatory time liability or holiday liability paid since January 2020.	FY 2021 ends with payments for compensatory time liability and holiday liability.
Likely Outcome	ADCRR ends FY 2021 \$49.5 M short with substantial comp time and holiday liabilities.	ADCRR ends FY 2021 with substantial comp time and holiday liabilities.	ADCRR ends FY 2021 with comp time and holiday liabilities addressed.

Stipend Mitigation Efforts

ADCRR has implemented multiple measures to reduce the impact of the COVID-19-related stipends on its budget. Ongoing mitigation efforts include:

- Assistant Directors are required to review each payroll and attest that all stipends are being applied appropriately and are being paid to eligible staff only;
- During the first quarter of FY 2021, \$3.5 million worth of payroll for inmate programming has been transferred from the General Fund to non-appropriated funds, and ADCRR continues to evaluate its capacity to move additional payroll to non-appropriated funds;
- In an effort to reduce overtime, each Arizona State Prison Complex (ASPC) will be allotted a budget for overtime, effective mid-October. Overtime expenditures will be reviewed after each payroll, and best practices to reduce overtime will be shared.
- ADCRR is requesting reimbursement for the stipends via the Department of Emergency and Military Affairs Public Assistance program (DEMA PA). While it is likely that ADCRR will receive reimbursement for COVID-related overtime, it is unlikely that the Critical Services Pay stipend and Hazardous Duty Pay stipend will be reimbursed. FEMA does not typically reimburse any disaster-related stipends unless they are written into the employment contract prior to the disaster's occurrence; and
- ADCRR continues to seek grant funding to offset the Critical Services Pay stipend and Hazardous Duty Pay stipend, but to date has received no funding that will pay for the stipends. ADCRR has not been eligible for the majority of COVID-related grant opportunities. The Arizona Coronavirus Emergency Supplemental Funding grant it was able to secure from US DOJ via the Arizona Criminal Justice Commission provides less than \$3 million and will not cover stipends. It is being used to address County Jail costs, with the remainder for COVID-related overtime and PPE costs.

The Critical Services Pay stipend and Hazardous Duty Pay stipend have proven to be a key factor in the retention of experienced officers and the corresponding reduction in their vacancy rate.

FY 2021 COVID-RELATED STIPEND ANALYSIS

	FY 2021 APPROPRIATION	FY 2021 YEAR-TO-DATE EXPENDITURE ¹	FY 2021 REMAINING PROJECTION ²	PAYROLL GROWTH ³	OVERTIME REDUCTION ⁴	FY 2021 ESTIMATED EXPENDITURE	FY 2021 VARIANCE
Personal Services	422,665,900	94,743,859	326,020,112	5,028,129	-	425,792,100	(3,126,200)
ERE	270,775,800	53,816,972	191,329,882	2,929,505	-	248,076,360	22,699,440
Overtime	15,540,500	18,396,576	67,747,135	-	(1,507,515)	84,636,196	(69,095,696)
TOTAL	708,982,200	166,957,408	585,097,129	7,957,634	(1,507,515)	1,467,486,857	(49,522,457)

¹ Actuals for 6 pay periods.

² Projection for 21 pay periods.

³ Assumes payroll growth rate of 2.39%.

⁴ Assumes overtime is reduced by 1.75%.

Director Shinn,

I am a CO from ASPC-[REDACTED]-[REDACTED] UNIT, and I have a few concerned issues I like to share with you. I understand the DOC has hired COT/COTT assigned to various units to receive training and their goal is to become Correctional Officers once they (COTT's) complete the FIT-PRO medical examination. At [REDACTED] unit, there are 2 COTT's that are not medically qualified and therefore cannot attend COTA to become a corrections Officer. My question is simple. Why are they still employed as COTT and taking up our staffing numbers? These 2 COTT individuals are no use. In my opinion, it's a waste of our tax dollars.

The second concern regards the COVID -19 Workplace Testing Program in partnership with ASU, making it "MANDATORY". Staff have been advised that this COVID test is "MANDATORY" for all staff to register and if any staff member refuses to register for this COVID-19 test they will be removed from [REDACTED] and transferred to another unit. Not only I, but many of the staff here at [REDACTED] unit takes this as a threat. When did ASU have control of our health? I have been tested numerous times by my health care provider and all three times I've tested "Negative". I do not feel comfortable with this testing program and I don't need to be threatened or retaliated against for not wanting to provide my saliva and/or DNA because I don't know what ASU is going to do with it. I'm sure a lot of staff like myself feel the same way. This test has been scheduled for Oct 15, 2020. I am asking you to please look into this and not make this mandatory for staff.

Delivered electronically

Dear Director Shinn:

It was good to hear in our meeting last week of the progress that has been made in the areas of testing and re-entry, and to discuss ways to enhance communication to the public. We continue to emphasize the importance of a strong surveillance testing program in all correctional facilities. As one of many steps necessary for mitigating and suppressing the novel coronavirus, we recognize the work your department has done and impress upon you the urgent need to remain vigilant with surveillance testing regimens.

Below is a summary of key points from our October 1st call:

- We look forward to receiving a copy of the guidelines your department has suggested to other law enforcement agencies in our state in an effort to keep all incarcerated persons safe from COVID-19.
- ADCRR has an emerging interagency plan to address the needs of inmates who test positive at the time of release, particularly for those with no permanent address and those going to homes with vulnerable family members now have a safe place to recover from COVID-19 upon their release. We propose to meet with Karen Hellman to better understand the scope of the plan.
- Improved communication to the public remains crucial, especially with the media. More openness will enhance the pathway of relationship building, trust, and partnership. Valley Interfaith Project is ready to assist with opportunities for key media to share recent progress.

Subject: 10-8-20 ADHS COVID-19 MEMO
Date: Thursday, October 8, 2020 4:57:59 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. The Department would like to provide a few updates about key response actions.

- - ADHS continues to work with local public health departments, healthcare partners, and others to ensure access to COVID-19 testing throughout the state, including saliva-based testing and rapid antigen testing.
 - Over 500 testing sites are listed on the ADHS [COVID-19 Testing Locations webpage](#).
 - Upcoming saliva testing events are listed [here](#) and are occurring throughout the state including Phoenix, Tucson, Flagstaff, Winkelman, Nogales, Bouse, Ehrenberg, Quartzsite, and Sonoita.
- [Masks](#) remain one of the best tools we have to prevent the spread of COVID-19 when out in public. Arizonans can order free masks through the [ADHS website](#). ADHS has also received a shipment of cloth masks from our federal partners in youth and adult sizes, which will be distributed to local health departments for allocation to K-12 schools.
- A [Director's Blog posted this week](#) describes the multiple ways public health experts in Arizona track COVID-19 related hospitalizations based on information reported by healthcare partners and the data quality checks in place to ensure that data presented is as accurate as possible.
- ADHS reminds Arizonans to [seek care](#) when they need it and to [get their flu shot](#) as soon as possible this year. We encourage you to share our communication materials with your constituents.

The link below provides the most up-to-date health surveillance figures regarding COVID-

19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

CONFIDENTIALITY NOTICE: This e-mail is the property of the Arizona Department of Health Services and contains information that may be PRIVILEGED, CONFIDENTIAL, or otherwise exempt from disclosure by applicable law. It is intended only for the person(s) to whom it is addressed. If you have received this communication in error, please do not retain or distribute it. Please notify the sender immediately by e-mail at the address shown above and delete the original message. Thank you.

We continue to urge the state to take more aggressive action by:

- Ensuring that inmates continue to have access to the highest standards of care necessary for treating COVID-19 or other life-threatening conditions.
- Partnering with the Arizona Department of Health Services to decrease the turnaround time between the administration of a COVID-19 test and the delivery of results.
- Meet with Valley Interfaith Project with updates on the aforementioned issues within two weeks.

We recognize the progress being made in the areas of concern in Arizona correctional facilities, and we continue to be a voice to protect the lives of all Arizonans. Now is the time to publish the current information and to create strong communications plans for sharing future plans that will allow the State of Arizona to monitor, mitigate, and ultimately, suppress the novel coronavirus.

Director,

Please find attached the Budget Supplemental request and associated documents for your final review.

If you would like any edits or modifications, please let me know.

If you find it acceptable, Olga can plug in the date on the cover letter and print for signature.

Upon your approval the Budget Office will convey the request to OSPB.

Joe

Phoenix, Arizona 85007

RE: FY 2021 Critical Services Pay Stipend and Hazardous Duty Pay Stipend Supplemental Request

Dear Director Gress:

The Arizona Department of Corrections, Rehabilitation & Reentry (ADCRR) respectfully submits for your consideration a FY 2021 Critical Services Pay Stipend and Hazardous Duty Pay Stipend Supplemental Request so that ADCRR can continue to compensate those front-line staff who work with a confined population or work directly with COVID-19 positive inmates. As I stated in my cover letter for ADCRR's FY 2022 Operating Budget Request, the Department made the difficult decision to forgo requesting a pay increase in the FY 2022 budget. ADCRR staff compensation remains one of my highest priorities and is an essential element of our retention strategy.

Prior to the pandemic, all stakeholders had reached a consensus regarding the importance of increasing Correctional Officer (CO) salaries. Although disappointed that the FY 2021 "skinny" budget did not include a pay increase, ADCRR's COs worked tirelessly to maintain a safe environment for staff and inmates while mitigating the effects of the pandemic. They were pleased that those efforts received recognition through the Hazardous Duty Pay and Critical Services Pay stipends. The stipends have had a positive impact on ADCRR's retention and morale during this critical period.

As the State's economy rebounds, I will continue to engage all stakeholders and seek support for salary increases. In the interim, I hope that you will support ADCRR's efforts to continue to recognize the extraordinary sacrifice and public service of those on the front lines during this unprecedented time.

Staff safety is my number one priority. Reducing the CO vacancy rate and reliance on overtime is critical to improving officer safety. ADCRR is focused on maximizing existing resources to increase hiring and retain correctional officers, and the Critical Services Pay stipend and Hazardous Duty Pay stipend play a key role in those efforts. I appreciate your interest in this most vital public safety concern.

Director Gress
October X, 2020
Page 2

Attached is the formal request that I am proud to make on behalf of those with whom I serve and whom I am privileged to lead.

Sincerely,

David Shinn
Director

FY 2021 Critical Services Pay Stipend and Hazardous Duty Pay Stipend Supplemental Request

In FY 2021, the Arizona Department of Corrections, Rehabilitation & Reentry (ADCRR) requests \$49,522,000 in supplemental funding to continue the Critical Services Pay stipend and Hazardous Duty Pay stipend throughout the end of the year. If ADCRR were to continue the stipends without supplemental funding, it would be unable to meet the final two payrolls of FY 2021.

In its memo of April 8, 2020, the Arizona Department of Administration (ADOA) approved a 25% Hazardous Duty Pay stipend for those working directly with individuals who are COVID-19 positive/presumptive positive and a 15% Critical Services Pay stipend for those who are at risk of contracting COVID-19 due to work with confined populations in recognition of the importance of retaining essential workers during the pandemic. In its memo of July 7, 2020, ADOA reauthorized both stipends for FY 2021. These stipends have proven effective for ADCRR in retaining Correctional Officers and other essential workers during this critical time. Without the stipends, ADCRR's retention rate is likely to fall, causing a corresponding increase in the vacancy rate.

ADCRR began providing the 25% Hazardous Duty Pay stipend and 15% Critical Services Pay stipend as of the first April 2020 payroll and continued to provide both stipends through FY 2020. Since the start of FY 2021, ADCRR continued the 25% Hazardous Duty Pay stipend and has paid a reduced 8% Critical Services Pay stipend. Both stipends cannot be received for the same hours worked. Because the Critical Services Pay stipend and Hazardous Duty Pay stipend were originally authorized starting in the final quarter of FY 2020, ADCRR was able to use all available resources from FY 2020 to cover the fourth quarter COVID-related stipend expenditures. This prevented ADCRR from paying any accrued compensatory time and holiday pay at the end of FY 2020.

ADCRR does not have budget capacity to support COVID-related stipends throughout FY 2021. The problem is exacerbated by the fact that there are 27 pay periods instead of 26 pay periods in FY 2021. Without supplemental funding, ADCRR will be required to revoke the Critical Services Pay stipend and reevaluate the Hazardous Duty Pay stipend following the payroll paid on November 5, 2020.

The following table provides information on the impacts of continuing the stipends under varying scenarios:

	Scenario 1	Scenario 2	Scenario 3
	Stipends are paid until the appropriations for personal services, ERE, and overtime are exhausted.	Stipends cease after the November 5, 2021, payroll - the length of time that the appropriations for personal services, ERE, and overtime will support them.	Stipends cease after the first October 8, 2021, payroll.
Consequences to Payroll	Appropriations are exhausted following the second payroll in May 2021, leaving \$49.5 M in unfunded payroll liabilities in June 2021.	Payroll is paid throughout the year with stipends ending after the first pay period in November.	There is an estimated \$7.3 M in salary savings during FY 2021 that can be used to pay down compensatory time and holiday liabilities, purchase critical equipment and provide capacity to handle emergency needs.
Risks to Consider	This scenario does not account for any major disturbances, life/safety needs or other urgent unplanned expenses.	This scenario does not account for any major disturbances, life/safety needs or other urgent unplanned expenses. Ceasing stipends may have a detrimental effect on recruitment and retention, and vacancy rates may begin to rise. The effect is exacerbated if other state public safety agencies are able to continue the stipends.	This scenario allows ADCRR to handle emergency needs. Ceasing stipends may have a detrimental effect on recruitment and retention, and vacancy rates may begin to rise. The effect is exacerbated if other state public safety agencies are able to continue the stipends.
Consequences to Comp Pay and Holiday Pay	FY 2021 ends with no compensatory time liability or holiday liability paid since January 2020.	FY 2021 ends with no compensatory time liability or holiday liability paid since January 2020.	FY 2021 ends with payments for compensatory time liability and holiday liability.
Likely Outcome	ADCRR ends FY 2021 \$49.5 M short with substantial comp time and holiday liabilities.	ADCRR ends FY 2021 with substantial comp time and holiday liabilities.	ADCRR ends FY 2021 with comp time and holiday liabilities addressed.

Stipend Mitigation Efforts

ADCRR has implemented multiple measures to reduce the impact of the COVID-19-related stipends on its budget. Ongoing mitigation efforts include:

- Assistant Directors are required to review each payroll and attest that all stipends are being applied appropriately and are being paid to eligible staff only;
- During the first quarter of FY 2021, \$3.5 million worth of payroll for inmate programming has been transferred from the General Fund to non-appropriated funds, and ADCRR continues to evaluate its capacity to move additional payroll to non-appropriated funds;
- In an effort to reduce overtime, each Arizona State Prison Complex (ASPC) will be allotted a budget for overtime, effective mid-October. Overtime expenditures will be reviewed after each payroll, and best practices to reduce overtime will be shared.
- ADCRR is requesting reimbursement for the stipends via the Department of Emergency and Military Affairs Public Assistance program (DEMA PA). While it is likely that ADCRR will receive reimbursement for COVID-related overtime, it is unlikely that the Critical Services Pay stipend and Hazardous Duty Pay stipend will be reimbursed. FEMA does not typically reimburse any disaster-related stipends unless they are written into the employment contract prior to the disaster's occurrence; and
- ADCRR continues to seek grant funding to offset the Critical Services Pay stipend and Hazardous Duty Pay stipend, but to date has received no funding that will pay for the stipends. ADCRR has not been eligible for the majority of COVID-related grant opportunities. The Arizona Coronavirus Emergency Supplemental Funding grant it was able to secure from US DOJ via the Arizona Criminal Justice Commission provides less than \$3 million and will not cover stipends. It is being used to address County Jail costs, with the remainder for COVID-related overtime and PPE costs.

The Critical Services Pay stipend and Hazardous Duty Pay stipend have proven to be a key factor in the retention of experienced officers and the corresponding reduction in their vacancy rate.

FY 2021 COVID-RELATED STIPEND ANALYSIS

	FY 2021 APPROPRIATION	FY 2021 YEAR-TO-DATE EXPENDITURE ¹	FY 2021 REMAINING PROJECTION ²	PAYROLL GROWTH ³	OVERTIME REDUCTION ⁴	FY 2021 ESTIMATED EXPENDITURE	FY 2021 VARIANCE
Personal Services	422,665,900	94,743,859	326,020,112	5,028,129	-	425,792,100	(3,126,200)
ERE	270,775,800	53,816,972	191,329,882	2,929,505	-	248,076,360	22,699,440
Overtime	15,540,500	18,396,576	67,747,135	-	(1,507,515)	84,636,196	(69,095,696)
TOTAL	708,982,200	166,957,408	585,097,129	7,957,634	(1,507,515)	1,467,486,857	(49,522,457)

¹ Actuals for 6 pay periods.

² Projection for 21 pay periods.

³ Assumes payroll growth rate of 2.39%.

⁴ Assumes overtime is reduced by 1.75%.

Good Day,

I am contacting you today to maybe offer some assistance in barrier needs during this Covid-19 Pandemic. We have been manufacturing barriers for our institutions in Ohio so they can get the visitation rooms open again. We would like to make our barriers available to you for purchase to help your institutions with their needs if you don't currently supply them to your institutions. I am attaching a brochure of the many sizes we offer and hopefully they will be helpful. Please call me or email for a quote and the specifics on the barriers as we have helped other states with their needs as well.

Thank you for your time and consideration.

Brent A. Peters

Frank,

Here is the latest information we have to date on N95 masks and the equipment necessary to produce these style masks. After your review, I suggest we have a meeting to finalize our direction especially since JLBC will need to approve.

Information Paper

October 2, 2020

TO: Frank Strada, Deputy Director, ADCRR

THRU: Brian Radecki, CEO/Assistant Director, Arizona Correctional Industries

FROM: Gregg Hillebrand, Western Region Manager, Arizona Correctional Industries

SUBJECT: Provide latest information on N95 folded masks for final approval discussions.

1. This is an **Information** Paper.
2. **PURPOSE:** Provide additional information to help finalize our N95 folded masks production decision.
3. **BACKGROUND AND DISCUSSION:** N95 Masks continue to be used all over Arizona and ACI staff have developed a possible proposal to enter this market.
 - a. ACI has space inside the Eyman prison which previously housed our boot, box and bag operations.
 - b. Equipment necessary to produce the flat folded masks is estimated to cost \$415,000 for the mask machine and an additional \$37,500 for the packaging and wrapping equipment. Equipment Specifications (TAB 1)
 - c. The certification cost to be able to sell the masks as a NIOSH N95 mask is estimated to be \$35,000.
 - d. Cost to upgrade the electrical and air is estimated to cost \$12,500.
 - e. The mask making equipment is all made in America by an ISO 9001 compliant company, based in Michigan.
 - f. Sharper TEK the proposed manufacturing company has a \$.01 licensing fee for every mask produced.
 - g. Raw material cost is estimated at \$.45 each with total variable cost at \$.80.

- h. ACI estimates the need to hire 3 to 5 additional inmates plus 1 staff to run this operation.
 - i. Monthly operating expense is estimated to be \$52,186 which includes depreciation, material cost, staff wages, inmate wages, direct and indirect overhead.
 - j. At a selling price of \$1.75 each, ACI will need to sell 238,824 masks per year to break even with the investment required.
 - k. Significant competition exists for this style mask and it comes from some very large companies like 3M, Honeywell, US Power Az, Prestige Ameritech which is part of Banner Health. Pricing is under \$2.00 per mask.
 - l. ACI sales will need to focus on state, county and local markets throughout the state to meet the necessary volume. ADCRR purchase of these masks for staff and inmates usage will also be key.
 - m. Financial analysis is attached. (TAB 2)
 - n. Start of production estimated for July 1, 2021. Could be sooner depending on vendor negotiations and JLBC approval timeframe.
 - o. Equipment can be shipped 40-60 days after PO acceptance and down payment.
 - p. Key assumption, demand for these masks going forward will continue in the state after an approved vaccine has been developed.
4. **RECOMMENDATION:** To use the information provided to have a more in depth meeting to help finalize our N95 folded mask production decision.

Who We Are

SharperTek® is a premier manufacturer of ultrasonic cleaners, ultrasonic plastic welders, automated assembly machines, face mask and respirator assembly machines, cell disrupters, and jewelry steam cleaners. Our offices are located in Pontiac Michigan, which houses our engineering and manufacturing staff. Our customers range from small businesses to government branches including Police Departments, U.S. Army, U.S. Coast Guard, and U.S. Marine Corps. Other large corporate customers include; Smith & Wesson, Audi, General Motors, General Dynamics, Ford, Honda, Lockheed, Stihl Power Equipment,+ Kawasaki, and many more.

Our new 2020 models of precision assembly machines will quickly and easily exceed your expectations and needs! Feel free to contact our friendly and knowledgeable sales staff with any questions or concerns for your application.

Machine Specifications:

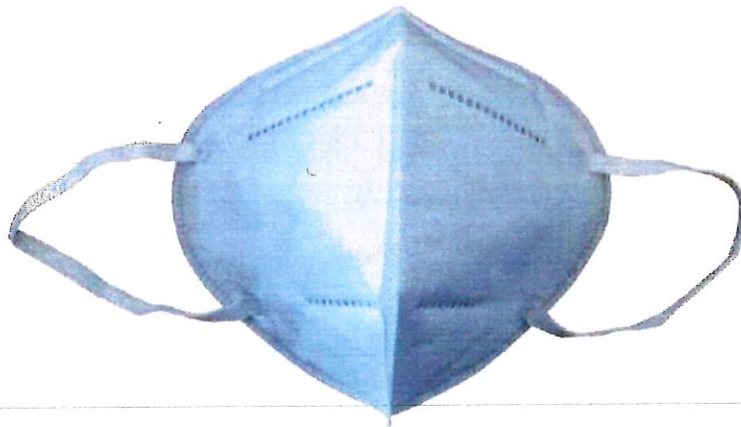

The FN95AFMM-2020 is a fully-automated folded mask production line. The operator is responsible for loading the raw materials onto the feeding rack and feeding the first portion of each roll into the machine. From there, the machine forms, cuts, welds, and places the elastic ear loops on the mask.

The first half of the machine operates with a flat mask profile. It takes the raw material, combines the layers, and cuts the basic mask profile into the material. It then seals the material together and cuts any holes for ventilators (if included). In the next stage, the elastic ear loops are welded onto the mask. If a ventilator is included, it is added at this point.

At this point, the material is folded in half for the final processing stages. The edges of the mask are ultrasonically sealed and the final profile is cutout. The last stage trims the excess material away and drops the completed mask into a bin.

The operator is only responsible for checking for errors or issues with the machine and replacing material rolls. As a replacement for adhesives, staples, or stitching, this machine uses ultrasonic welding for sealing the masks and adding the elastic bands. Ultrasonic welding is a sanitary, environmentally friendly process that creates strong bonds in a very short period of time. As such, the output of this machine is between 20-60 pieces/minute (30 continuous). The error range for mask size and nose bar positioning/length is only $\pm 2\text{mm}$. The machine is driven by a combination of pneumatic cylinders, servo motors, and stepper motors. The speed and precision are controllable with the touch screen HMI.

Additionally, by changing the materials supplied via the rollers, this machine is capable of producing multiple variations of non-woven masks. For stricter particle size requirements, it is possible to vary the number of mask layers and materials selected.

Technical Parameters:

Model	FN95AFMM-2020
Production speed	20-50 parts/min (30 AVG)
Voltage	220V 50/60hz single phase
Current Draw	~60 Amps
Air Supply	Flow: 120 L/min Pressure: 0.4-0.6 MPA
Approximate Overall Dimension	31.5*5*7 ft. (L*W*H)
Number of Layers	2-4 Non-woven fabric
Working Environment	No Flammable or Corrosive Gas, No Dust. Class 100k cleanroom
Machine Guarding	Customer responsibility.
Number of Operators	1
ASTM Level	Depends on material
Weight	2900 lbs

Raw Materials (Not included with machine but Sharpertek can supply):

Material Parameter Table				
Material	Weight	Width	Width Recommended	Depth
Spun Bond Polypro Non-Woven Fabric	50gsm	230-300mm	260mm	-
Melt-blown Polypro Non-Woven (Double Layer)	25gsm	230-300mm	260mm	-
Inner Nose Bridge	Double Core (Coil)	3-5mm	5mm	1mm
Spun Bond Polypro Non-Woven Fabric	20gsm	230-300mm	260mm	-
Earloop	Flat	4-6mm	5mm	-

All mask material selections are at the discretion of the customer. GSM, layer quality, and layer material all determine mask performance. Traditional masks use various spun bond and melt blown Polypropylene layers.

Terms & Conditions:

Standards—This system is manufactured to SharperTek® machine standards. Complying with specifications for components that are non-standard can add additional cost to the system and will be quoted after a complete review of alternate specifications.

Warranty—All Equipment manufactured by SharperTek® is shipped with a one-year warranty, regardless of hours or shifts of operation. The warranty starts when the equipment is placed in a production mode, not to exceed 30 days after receipt. The warranty is for the replacement only of any component designed and manufactured by SharperTek®, found to be defective due to design or workmanship. Installed components, purchased by SharperTek® from other vendors, are to be warranted as specified by those vendors or suppliers. Exception to this warranty are motors, controls, etc. and peripheral equipment to the SharperTek® unit not supplied by SharperTek®. Onsite installation of components by SharperTek® is to be invoiced at the appropriate rate.

NRE- Increases by 3% of additional options cost

Quotation Expiration and Changes—This quotation expires within 30 days from the date on the quotation. SharperTek® reserves the right to change this quotation within the 30-day quotation period. Stenographic and clerical errors are subject to correction.

Conditions and Penalties on Customer Orders—No terms, conditions, or penalty clauses printed or stamped on orders placed with SharperTek® are binding on our company—particularly those that are in conflict with the terms in this proposal—except as such terms and conditions are also presented separately and approved by a signatory who is an authorized representative of SharperTek®.

Returns— Face mask machines or materials are non-returnable.

Taxes—The prices quoted in this proposal do not include sales, use, excise or similar taxes. Consequently, the purchaser is responsible for paying the amount of any such present or future tax, or in lieu thereof, the purchaser shall provide SharperTek® with a tax exception certificate acceptable to the taxing authorities.

Delivery—Shipping date estimates are made in good faith. Shipping dates are approximate, whether appearing on acknowledgments of orders or given to the customer in any other manner. SharperTek® shall not be liable for a delay. In the event of such delay, the delivery shall be extended for a period equal to the time lost by reason of the delay.

Responsibility— SharperTek® is not responsible for damage to equipment in shipment or due to improper installation by the customer. We are not responsible for equipment damage caused by operating the equipment beyond its rated capacity, intentional or otherwise.

Returns—No goods shall be returned for credit without permission and shipping instructions from SharperTek®.

Disclaimer—This quotation is a full and complete representation to the potential buyer of the products and/or services offered for sale by SharperTek®. No representation, promise, or condition not set forth herein can be relied upon by the potential buyer or shall be considered a binding condition of sale. Date: Friday, October 2, 2020 5:02:32 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. The Department would like to provide a few updates about key response actions.

- Arizona COVID-19 metrics continue to trend in the right direction. Statewide percent positivity has hovered around 4% for the last five weeks and COVID-19 related hospitalizations continue to be low. ADHS reminds all Arizonans to continue implementing [COVID-19 mitigation measures](#) to maintain and improve the COVID-19 situation in Arizona.
- For the first time since the benchmarks were put in place, all Arizona counties are in minimal or moderate spread. Additional information is [here](#). These benchmarks guide the mitigation measures taken by schools and certain business types to support safe operations. The ADHS website contains dashboards and mitigation guidance for [schools](#) and [businesses](#) with the data updated each Thursday.
- Between now and the end of the year, Arizona will receive 2.19 million rapid antigen test (Abbott BinaxNow) kits from the federal government. These diagnostic tests will provide results within 15 minutes. The first shipment is expected this week.

 - Test kits will be distributed to local health departments for distribution to K-12 schools and congregate facilities with vulnerable individuals.
 - Entities receiving the kits must have a Clinical Laboratory Improvement Amendments certificate of waiver and report results to public health within 24 hours.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

COVID-19 Guidance on the Use of Cloth Face Coverings while Working Outdoors in Hot and Humid Conditions

During the COVID-19 pandemic, OSHA generally recommends that employers encourage workers to wear cloth face coverings at work to help reduce the spread of COVID-19. However, workers who wear cloth face coverings in hot and humid environments or while performing strenuous activities outdoors, such as those in agriculture, landscaping, construction, delivery services, and oil and gas operations, can find cloth face coverings to be uncomfortable.

Employers should follow the below practices to protect against the spread of COVID-19 and the risk of heat-related illness:

- **Acclimatize** new and returning workers to environmental and work conditions while wearing cloth face coverings.
- Prioritize the **use of cloth face coverings** when workers are in close contact with others (less than 6 feet), such as during group travel or shift meetings.
- Allow workers to remove cloth face coverings when they can safely maintain at least 6 feet of physical distance from others.
- Evaluate the feasibility of wearing cloth face coverings for each worker and consider alternatives (e.g., face shields) **when appropriate**.
- Increase the frequency of **hydration and rest breaks** in shaded, non-enclosed, or air conditioned areas.
- Incorporate at least 6 feet of physical distancing into break areas by staggering breaks, spacing workers, and limiting the number of workers on break at a time, where feasible.

Photo: USDA

- Allow workers to return to personal vehicles during breaks to use air conditioning, when possible. Multiple workers should generally not return to the same car.
 - If fans are used, avoid directing the fan so it pushes air over multiple people at the same time, since fans may increase the distance respiratory droplets can travel.
 - Encourage workers to use cloth face coverings that optimize fit and comfort, are made out of breathable, moisture-wicking materials, and use light colors when working in direct sunlight.
 - Encourage workers to change cloth face coverings when wet, as wet face coverings make it more difficult to breathe and are not as effective. Provide clean replacement cloth face coverings or disposable face masks, as needed, for workers to change into throughout the work shift.
 - Ensure workers use [handwashing](#) facilities or hand sanitizers with at least 60% alcohol often, as heat or moisture build-up may cause workers to put on and take off cloth face coverings frequently.
 - Avoid scheduling strenuous tasks during the hottest parts of the day and alter work shifts to cooler parts of the day, when possible.
 - Allow workers to wear [personal passive cooling items](#) (e.g., icepack vests, cooling bandanas) and loose-fitting and breathable clothes, as long as these items do not present a safety hazard.
 - Plan for heat emergencies and [train workers](#) on heat stress prevention and treatment.
 - Increase the frequency of communication to workers and encourage workers to monitor themselves and others for [signs of heat illness](#).
- Note: Cloth face coverings should not be used as a substitute for engineering and administrative controls, safe work practices, or necessary personal protective equipment (PPE).
- For interim guidance and other resources on protecting workers from COVID-19, visit [OSHA's COVID-19 webpage](#).
- For guidance and other resources on protecting workers from heat stress, visit [OSHA's occupational heat exposure webpage](#).

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. The Department would like to provide a few updates about key response actions.

- The [Roll Up Your Sleeve](#) campaign encouraging flu vaccination is in full swing. Campaign communication materials are available [here](#). Increased flu vaccination will prevent additional cases of influenza this winter, decrease severity of illness, and help preserve healthcare resources while COVID-19 and influenza are circulating.
- Yesterday, Dr. Christ joined Governor Ducey and the university presidents for an update on the collaboration between the state and universities on COVID-19 response activities and innovation. Funding provided in support of these activities is discussed [here](#), and builds upon previous work between ADHS and the universities to expand testing throughout Arizona including ASU's saliva-based diagnostic test and UA's antibody test. This partnership will support
- ADHS continues to work with local health department and university partners to monitor COVID-19 cases associated with staff and students. All three universities - ASU, UA, and NAU - have implemented testing, contact tracing, and isolation programs and continue to partner with public health to control the spread of COVID on campus. Arizona's highest rates of new infections continue to be among young adults.
- ADHS Business and School Benchmarks were updated yesterday, and continue to be updated each Thursday. These benchmarks guide the mitigation measures taken by schools and certain business types to support safe operations.

 - All but one county has met moderate spread [metrics for reopening of businesses](#) like gyms, theaters, and bars providing dine-in services.
 - All but one county has met [metrics](#) that allow for some in-person instruction to

resume.

Bcc: dshinn@azadc.gov
Subject: 9-17-20 ADHS COVID-19 MEMO
Date: Thursday, September 17, 2020 8:13:26 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. The Department would like to provide a few updates about key response actions.

-

Today we launched a public service announcement campaign encouraging Arizonans to seek care when they need it. This includes urging people to maintain their preventative health visits, ensure their children are up to date on vaccinations, and to visit the emergency room if they are experiencing symptoms of a heart attack or stroke. A press release about the campaign is available [here](#) and a video of the PSA can be found [here](#).

-

Over the next few days, the ADHS Data Dashboard will reflect higher case numbers and laboratory tests than we've been seeing over the past several weeks. This is due to additional laboratories being onboarded to report electronically that have submitted current and historical data as well as an expansion of the COVID-19 case definition to begin counting antigen positive tests as probable cases. [Dr. Christ's blog](#) provides additional information on this change, including background information on antigen testing, another type of diagnostic test recently approved by the FDA to detect active infection.

-

We are continuing to receive and distribute PPE to local health departments for further distribution to healthcare and first response partners. To date, over 42 million pieces of PPE have been distributed throughout the state.

-

ADHS has been planning for distribution of a COVID-19 vaccine since April, including engaging with state and local agencies and healthcare partners to support planning efforts. While a vaccine is not currently available, Arizona is closely monitoring federal vaccine updates to ensure our plans are in alignment. On September 4th, ADHS opened up our registration site for healthcare providers who are interested in offering COVID-19 vaccine. Pre-registration of these providers will expedite vaccine distribution and administration once a vaccine is available.

-

ADHS Business and School Benchmarks have been updated today, and continue to

be updated each Thursday. These benchmarks guide the reopening measures taken by schools and certain business types.

- All but one county has met moderate spread [metrics for reopening of businesses](#) like gyms, theaters, and bars providing dine-in service.
- Most counties have met [metrics](#) that allow for some in-person instruction to resume.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Hi Wanda,

Always good to hear from you. I understand the challenges you are facing and look forward to the future opportunity to work with you on this project. At the moment, we are laser focused on treating active cases and mitigating future spread. While we have significantly reduced our staff cases and corresponding concerns, we are still working to mitigate the infectious disease spread from county jail admissions whose practice/policy vary widely from no testing to those with inconsistent practices. With these challenges to overcome, we are not yet prepared to allow external visitors into our facilities or prepared to send our inmate work crews out yet. Once we overcome this challenge, your need will be at the top of our priority list. Thank you for reaching out and take care. -Dave

On Fri, Sep 11, 2020 at 10:00 AM Wanda Wright <wwright@azdvs.gov> wrote:

Hey Dave,

I am sure you have been super busy trying to manage your congregate settings. I think about you often in this regard - we also have cooped up people in our state veteran homes. One has been able to maintain a complete COVID free environment with no infections. The other Home has had a few trials but we have been able to maintain being COVID free for the last three weeks.

The reason why I am reaching out to ask for support in getting our small prison work force back to our Veteran Cemeteries. The guys and gals you sent us were doing stellar work and it seems if I try to replace them with a contract it will cost 4 times what we pay DOC.

As we are experts now in infection control I was hoping you might make an exception for the use of Prisoners at the State Veteran cemeteries in Sierra Vista and Manara.

We can guarantee all CDC and DHS protocols will be followed and that our workers are screened and tested regularly. We can test the prisoners as well if you need us to.

Please let me know if you will consider this and if you have additional questions I am available at any time.

Thanks Wanda

Subject: 9-9-20 ADHS COVID-19 MEMO
Date: Wednesday, September 9, 2020 5:00:12 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. The Department would like to provide a few updates about key response actions.

-

Yesterday, Governor Ducey issued [Executive Order 2020-54](#), which updated existing enhanced surveillance advisories. This update will ADHS to better track hospital bed and ventilator utilization and availability by requiring hospitals to report utilization for influenza patients in addition to COVID-19 patients. ADHS will be hosting meetings with required reporters this week and will be making dashboard updates over the course of the next week to begin displaying this data on our [Data Dashboard](#).

-

COVID-19 numbers continue to decrease across most of Arizona, with ventilator use by COVID-19 patients reported at the lowest point since reporting started. ICU bed usage is also at the lowest point we've seen since mid-April.

-

The [ADHS Director's Blog](#) was recently updated with information about pediatric COVID-19 trends in Arizona. About 9% of Arizona's reported COVID-19 cases have been reported in those under the age of 18. While this age group makes up a small proportion of the total cases, with children headed back to school in the coming weeks, ADHS is reminding families about prevention steps like washing hands, staying at least 6 feet apart, staying home when sick, covering coughs and sneezes, and wearing masks.

-

ADHS Business and School Benchmarks will be updated tomorrow morning at 9 AM. These benchmarks guide the reopening measures taken by schools and certain business types.

-

Businesses like gyms, bars serving food, indoor theaters, and waterparks, can operate in counties with minimal or moderate spread after filing an attestation with ADHS and in counties with substantial spread by obtaining approval on an application to reopen. You can search for filed attestations and approved applications to reopen [here](#).

- In addition to viewing the [school](#) and [business](#) benchmarks dashboards, ADHS updates PDFs on a weekly basis summarizing status by county ([school](#) | [business](#))

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Here are some social media posts that you may find useful to disseminate to your constituents:

Subject: Letter attached for Director Shinn and Dr. Christ from VIP and Arizona Interfaith Network
Date: Friday, September 4, 2020 5:23:16 PM
Attachments: [VIP Letter to Directors Shinn and Christ_9 4 2020 with all signatures.pdf](#)

Dear Director Shinn and Dr. Christ,

In light of our ongoing conversation, we want to reiterate that protecting Arizona inmates and keeping the Department of Corrections staff safe during this pandemic remains a top priority for us. We recognize and appreciate the steps that have been taken, but there are additional measures that will protect this vulnerable population.

Please note the attached letter with 500 signatures in support of these efforts.

Much work remains to be done. To ensure that Arizona continues to improve in its COVID-19 metrics and that our communities, economy, businesses, and centers of worship can safely reopen, we must solve the issue of the virus in prisons, knowing that there is no wall that will separate our communities from the health of those who are incarcerated. We will welcome the chance to continue working with you on this important effort in our next meeting.

Sincerely,

The Rt. Rev. Jennifer Reddall

The Rev. Rock Fremont

The Rev. Hunter Ruffin

The Rev. Mary Bullis

Valley Interfaith Project

September 4, 2020

Director David Shinn
Arizona Department of Corrections, Rehabilitation and Reentry
1601 West Jefferson
Phoenix, AZ 85007

Dr. Cara Christ
Arizona Department of Health Services
150 North 18th Avenue
Phoenix, Arizona 85007

Director Shinn and Dr. Christ,

We, the clergy and faith leaders of Valley Interfaith Project and Arizona Interfaith Network congregations and institutions throughout the state, express our grave concern for the welfare of all impacted persons within our prison community and their families. There is presently no population more vulnerable than the incarcerated in the COVID-19 crisis. It is imperative that you use your powers in this emergency to take bold and humanitarian actions that will halt an explosive spread of the virus in Arizona prisons.

We watch in horror as the virus overtakes our prison communities. We fear that the recent announcement about the positive results of 517 inmates, half the population, at Whetstone in Tucson is an omen of the conditions throughout the state's prisons. Through our relationships with inmates and their families in our communities, we have received a relentless and heartbreaking stream of reports of inmates being placed in harm's way, released without being tested, and unable to obtain testing and needed care.

While we understand that you have begun to take some constructive steps towards preserving the lives of those in your charge, the urgent moment is here. Whatever slight gains our state is seeing with the leveling off of the virus will be drastically upended by the catastrophic spread within the prison system. Prison outbreaks will add to the surge of patients needing critical care, overwhelming our hospitals, particularly our extremely vulnerable rural facilities. And then it will return widely to our communities, and keeping schools and businesses closed.

We implore you to take these immediate steps to mitigate the risks for all:

- **Immediately implement a universal testing blitz to test all inmates and staff within three weeks.** The current plan is proceeding too slowly. Prisoners, employees and the families of both are suffering and, in some cases, dying.

- **Expedite compassionate early release of selected inmates to reduce both prison crowding and the spread of the virus.** Do this in a secure manner consistent with public safety as is being done by other state and federal corrections agencies. That could include people who are over 60, those with underlying health conditions and/or are nearing their release date. To protect the health of those both inside and outside the prisons, it is imperative we lessen the current crowding to ensure inmates and correctional officers can live and work at least 6 feet apart.
- **Develop a quarantine system for outgoing prisoners** who may have been exposed to Covid-19 before they return to their families and communities, **and accelerate Medicaid enrollment** for those re-entering society so that they have immediate access to health care and do not delay treatment post-release should they become ill.
- **Provide adequate PPE.** It is now a requirement in our lives and should be drastically increased in availability within the prison community. Everyone is entitled to a safe place to live and work.

We ask you to use a portion of the state's substantial CARES Act resources towards these ends. What happens in the prisons will inevitably make it back into our communities to stress the wider public health crisis in Arizona. Failure to deploy drastic interventions poses a major threat to public health and economic recovery.

We urge you as stewards of the health of the people of Arizona, to take the actions listed above. Our collective well-being is dependent upon your actions.

Respectfully,

The Rt. Rev. Jennifer Reddall, Sixth Episcopal Bishop of Arizona

Subject: Phase 1 re-opening
Date: Thursday, September 3, 2020 8:38:25 AM

All,

Below is a proposed Phase 1 opening plan for us to consider. Since testing has been completed, inmates with Covid have been identified and isolated, solid Covid protocols in place for staff and inmates, I believe we can alter our posture and still manage our institutions in a safe and secure way.

ADCRR Reopening Plan

PHASE I (25 % capacity for inmate programming and staff activities/functions)

Comply with social distancing guidelines; face covers required. Temperature checks for all work crews that go off site (Egress and Ingress)

- All Internal Work Crews – Unit and Complex only
- Internal ACI Work Crews
- IGA Work Crews (With No Public Contact – ADOT)
- CBT Training
- Special Operations Training (DART, TSU, Chase)
- Video Visitation
- CTE Classes
- TABE Testing
- GED Testing
- Staff classroom Training
- ADO tours of units w/the exception of COVID positive areas and/or hotspots
- Warden/DWOP tours of units w/the exception of COVID positive areas/hotspots
- Resume Mental Health groups
- Resume inmate barbers and shoe shiners

Name: [REDACTED]

Email Address: [REDACTED]

Recommendations: Greetings Sir/ Ma'am, I am a [REDACTED] at ASPC-[REDACTED] I was exposed to COVID-19 on or about 07/21/2020 and was off work until 08/05/2020 while waiting for results from COVID testing through CVS pharmacy. Upon my return to work i was notified that 86 of the FMLA hours I had previously approved for intermittent FMLA due to surgery complications had been used without my permission to cover the time I was absent for COVID exposure. I requested through Complex Admin to have the time I missed for COVID designated as LWOP so that my FMLA hours would still be available for my ongoing condition. I was denied by complex admin. At no time did I submit paperwork asking for this to occur, nor can I find it in the Departmental Orders 519 or 525 that this is authorized. I respectfully request that the time I was absent for my COVID exposure be recoded as LWOP and my available FMLA hours refunded. thank you for your consideration.

Subject: 8-31-20 ADHS COVID-19 MEMO
Date: Monday, August 31, 2020 9:12:18 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. The Department would like to provide a few updates about key response actions.

-

Today Dr. Christ joined Governor Ducey and other featured speakers to provide an [update](#) on COVID-19 and discuss the importance of influenza vaccination. Influenza vaccine is becoming available in the community and everyone who can be vaccinated should be vaccinated as soon as they are able. Stay tuned for additional information about influenza vaccination in coming weeks.

-

COVID-19 testing is still widely available throughout the state, and ADHS, DEMA, and other partners continue to work to expand testing options for locations lacking access. Over 400 testing sites listed on the [ADHS COVID-19 Testing Sites webpage](#). In addition, free [HHS Surge Testing sites](#) have been added in Cochise and Mohave counties, with sites continuing in Coconino County.

-

As multiple businesses previously paused by Executive Order 2020-43 phase in their reopening when their counties move to moderate transmission levels, ADHS encourages the public to let us know if they observe non-compliance with safe operational [requirements](#) like reduced occupancy, physical distancing, mask wearing and enhanced cleaning and sanitation.

-

As of this morning, over 1200 gyms, bars providing dine-in services, waterparks, and movie theaters filed attestations agreeing to comply with requirements. You can search for businesses with an attestation [here](#).

-

Compliance concerns can be communicated to ADHS at [azhealth.gov/complianceCOVID19](#) or by calling 1-844-410-2157.

-

This weekend, ADHS responded to three high priority complaints, issuing notices of closure to bars in Scottsdale and Tempe for non-compliance with

requirements.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Date: Monday, August 31, 2020 4:29:58 PM

Good Afternoon,

I do appreciate your confirmation that in the event anyone is confined for 14 days, they will be returned to the yard they came from. Thanking you for your response. It was not presented to the inmates as you described, but we will all wait for the results.

Thank you again,

On Sun, Aug 30, 2020 at 9:21 PM James Kimble <jkimble@azadc.gov> wrote:

[REDACTED],

My apology for the delayed response. The ADCRR has completed COVID testing at most of the state and privately managed facilities throughout the state. ASPC-Lewis and ASP Kingman are scheduled to complete the same tests this coming week.

The test is voluntary and if an inmate declines he/she will be required to sign a refusal for recording. When a person declines the test we will take precautions and isolate said individual for 14 days. This should not be confused with an administrative disciplinary action as all rights and privileges will be afforded to the affected parties. I have instructed the unit Deputy Wardens to identify dorms and runs to temporarily house inmates who do not participate in the testing process, as well as any individual who may test positive.

I can not commit that your son will not be affected by a temporary move. I can however affirm that at the end of the isolation period inmates who were reassigned as a result of the testing process we will make arrangements to have them moved back to their housing unit.

Thank you for bringing this concern to my attention and the opportunity to respond.

Respectfully,

James Kimble

URGENT MATTER

This email is in regards to a very serious breach of inmates legal right to refuse medical treatment AND to be free from retaliatory or disciplinary action, as a result of exercising said legal right.

ASPC-Lewis is testing all inmates for COVID-19 tomorrow through Wednesday. Inmates received an email stating:

"Testing is optional for the inmate population, however, declining to be tested will result in the inmate being placed in a 14-day isolation quarantine. No disciplinary will be issued for a refusal to test. Refusals will be completed at the testing location and documented via form by Centurion staff."

For those parties who don't know, ASPC-Lewis Barchey Unit, where son is housed, is a Protective Custody Unit. That means that caution MUST be exercised when making housing unit assignments. The run my son lives in was originally one of two designated drug-free runs. As such, he is housed among men who do not use drugs and who are older and have done time together. The inmates in this run do not even call "One Time" to warn when correctional officers are entering, because they do not need to. There are also at least half a dozen men who would not be permitted to live anywhere else on the yard, mostly because of the nature of their criminal charges.

Last Thursday, Barchey Unit Deputy Warden Ronald Abbl, Captain Trujillo, and CO III Nelloy came into [REDACTED] run and talked about the upcoming testing. When asked what he would do if all 24 men in the run refused, he said they would be quarantined. When asked if they would be moved, he said NO. When asked if inmates would be returned to the building, if they were moved

out like the other inmates testing negative, he would not commit. Captain Trujillo said, "Highly unlikely." In other words, NO.

Friday, Abbl came into [REDACTED] again with Captain Trujillo and CO IV Lopez. Everyone could see he was angry by his body language and his tone of voice and slamming of doors. He curtly stated, "If anyone refuses the test, you will not be staying in this building. You will be quarantined in another building!" and he stormed out and slammed the door.

There are men in this run-in fear of being moved elsewhere.

Anywhere else on the yard is drug-infested and a complete contrast to how [REDACTED] is. Plus, supervisors and administration are not at all accommodating to those with issues that might not allow them to be housed elsewhere. If they are turned away from somewhere else, they will be taken to the "Refuse to House" pod.

There are already 2 runs (E and F) in Building [REDACTED] designated as quarantine runs, where 42 inmates tested positive! The building is already 1/3 quarantine! But Abbl claims he will quarantine [REDACTED] in ANOTHER building if they refuse to test. This does not even make sense! If 85% of the building wants to refuse, he should designate the entire building as quarantine and leave them where they are. It is pure and simply abuse of his authority and unethical for someone who is a Deputy Warden and has been employed at ADC for

39 years. In other words, you take the test or I'm going to subject you to potential danger.

On top of that, the CDC has revised its position recently.

They now only recommend testing for those who are symptomatic. Why would you waste the time and money to test all these individuals when the CDC would not recommend so?

I have attempted to contact Warden Kimble, to no avail. I want to be assured in writing of the following:

1) Retaliatory action of ANY kind will not be taken toward any inmate who refuses to take the test.

2) All inmates at Barchey will be returned to their respective bed assignments, after the separation and quarantine period is over.

3. Be assured no matter what the results of the testing is, [REDACTED] are kept together. He has saved my son multiple times by administering glucose in the middle of the night to [REDACTED]. They have bunked for years near each other for this reason. Both are willing to sign any necessary waivers. Neither of them, nor any of the others in the run have had symptoms and do not understand this bullying tactic. This group of 24 men in this run have no symptoms, cause no problems and have regular

prayer service and desire to remain together in the building they have been together in for a very long time.

I hope, given the severity of this matter, to hear from someone within Executive Leadership before the end of today. If not, I have other options that I am prepared to take. Inmates were sent an email stating the correct legal advice and now they are being forced to take a test and not one of them have any COVID symptoms. Hoping for an immediate response to this letter as I do not understand the bullying being done within the system.

Just one of many concerned parents

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. The Department would like to provide a few updates about key response actions.

-

Today, ADHS [announced](#) the steps being taken to identify and investigate any non-compliance by businesses that could jeopardize the public's health and safety. Measures include contracts with 11 counties to conduct complaint inspections, launch of an [online complaint form](#), and a new business compliance hotline to intake complaints (1-844-410-2157), which will be live on 8/27/2020.

-

An updated [Director's blog posted today](#) describing Arizona's continuing commitment to increase access to COVID-19 testing across the state. This includes maintaining available testing for individuals concerned about exposure to COVID-19 in addition to Arizonans with COVID-19 symptoms.

-

Don't forget to check out the [COVID-19 FAQs](#), which are updated routinely with new information. Latest updates include FAQs on masks including new information discouraging the use of masks with exhalation valves or vents, which do not prevent the mask wearer from transmitting COVID-19 to others.

Delivered electronically

Dear Director Shinn and Dr. Christ,

Below you will find the summary and points from our call yesterday. We are sorry that Dr. Christ missed this conversation, but we look forward to when she can rejoin us within the next seven to ten days. Agency cooperation remains essential to address this crisis.

By now, we all know the importance of universal testing in congregant settings like prisons. Accurate testing and timely results are key to preventing the spread of the novel coronavirus and ultimately to suppressing the virus in our communities. You reported that the current turnaround time for a coronavirus test for inmates is between 3 and 9 days. You also reported that the department currently lacks access to pooled testing or contracts for testing beyond the current “testing blitz.” We look forward to helping to bring ADCRR and DHS together to clarify these issues so that an effective testing strategy can be implemented for the rest of 2020 and into 2021.

As we identify people with COVID-19, we all know the importance of proper medical treatment. You shared that correctional facilities are able to provide a level of care similar to an urgent care clinic. You also shared that when an inmate needs care beyond the infirmary’s capacity that the inmate is transported to a community hospital for further care and treatment.

We all acknowledge that people flow in and out of the prisons on a daily basis — from correctional staff and officers to inmates being released at the end of a sentence. You shared that release testing is underway in Arizona and that you hope to decrease the turnaround time for test results to 24-48 hours in order to provide inmates peace of mind as they leave the custody of the state. We also shared our hopes that you would exercise your authority to further reduce crowding and exposure by safely releasing eligible inmates up to 90 days prior to a scheduled release date.

We continue to urge the state to take more aggressive action by:

- Creating and publishing an ongoing “surveillance” testing strategy to monitor the presence of COVID-19 in Arizona correctional facilities.
- Developing a safe and secure early release effort as done by other states to protect the lives of inmates, their families, and the communities to which they will return.
- Ensure that inmates continue to have access to the highest standards of care necessary for treating COVID-19 or other life-threatening conditions.
- Partnering with Arizona Department of Health Services to decrease the turnaround time between the administration of a COVID-19 test and the delivery of results.
- Partnering with Arizona Department of Health Services to provide supportive isolation for inmates being released who are positive for COVID-19 or who are returning to homes with vulnerable family members.
- Meet with Valley Interfaith Project by September 2, 2020 with updates on the aforementioned issues.

We recognize that progress is being made in Arizona correctional facilities, and we continue to press for more to protect the lives of so many people. The current testing blitz will help us to know the state of COVID-19 in Arizona prisons. Now is the time to create and publish plans that will allow the State of Arizona to monitor, mitigate, and ultimately, suppress the novel coronavirus.

Subject: 8-25-20 ADHS COVID-19 MEMO
Date: Tuesday, August 25, 2020 5:13:45 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. The Department would like to provide a few updates about key response actions.

- Today, ADHS notified Maricopa, Pima, and Pinal businesses seeking approval to reopen that it was likely that community transmission indicators in their counties would reach Moderate status with this Thursday's dashboard update, allowing them to reopen by attesting to comply with ADHS requirements for their establishment type, including limiting occupancy and requiring masks. A blog about these notifications with additional detail is available [here](#).
 - Indoor gyms, bars providing dine-in service, indoor theaters, and water parks are already able to attest and [reopen in 5 counties](#) - Cochise, Coconino, Greenlee, La Paz, and Yavapai. You can search establishments with completed attestations [here](#).
 - As of close of business yesterday, a total of 103 establishments located in counties with substantial transmission were approved by ADHS to reopen by applying to the Department and providing information about ways in which they would operate more stringently than the requirements. This includes 9 bars providing dine-in service, 90 gyms, and 4 indoor theaters.
- Public health continues to work to monitor the burden of COVID-19 in Arizona, including fatalities. ADHS has provided information about death surveillance in previously published blogs [here](#) and [here](#) and reports out on COVID-19 related deaths on the COVID-19 Deaths section of our [Data Dashboard](#). Data on our dashboard includes data reported by counties as well as data collected by ADHS during our surveillance and death certificate matching processes. In some cases, counties utilize slightly different surveillance definitions than the state. Due to daily reporting and the rapid nature of the COVID-19 outbreak, data presented on the dashboard, including death data, is intended to provide information about COVID-19 trends, and may not yet be fully reviewed or finalized. Once the COVID-19 emergency is over, there will be additional epidemiologic work that occurs to

retrospectively review death data and final death certificate causes of death to ensure final, complete reporting of COVID-19 associated deaths.

- Yesterday ADHS issued [Emergency Measure 2020-03](#), requiring schools, child care establishments, and shelters to report outbreaks of COVID-19 to local public health. This is consistent with reporting requirements under A.A.C R9-6-203. Additional information about the emergency measure is available [here](#).
- ADHS recently updated the data dashboard to provide additional information about how COVID-19 is impacting hospital bed usage in Arizona's inpatient wards and intensive care units. You can see the update by clicking on the "Hospital Bed Usage and Availability" section of our [Data Dashboard](#) and read more about it [here](#). This data shows that while percent occupancy of hospital beds remains stable, a much smaller percentage of beds are occupied by COVID-19 patients compared to earlier this summer.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Ms Hamm,

I'm responding on behalf of Director Shinn to your inquiry below. Upon receiving the initial allegations last week, Director Shinn ordered an immediate and complete AIU investigation. I sent a team of Central Office AIU investigators to Yuma to begin interviewing staff and inmates to determine the veracity of the allegations and recover any evidence supporting or refuting the complaints. The investigation will be made publicly available upon completion.

Best regards,

Greg Lauchner

Subject: Allowing Gang Leaders to Threaten Inmates; Authorized by Warden?
To: dshinn@azadc.gov <dshinn@azadc.gov>
Cc: Middle Ground Prison Reform <middlegroundprisonreform@msn.com>

Director Shinn:

Of course you are aware of the recent accusations against the ADCRR at the Yuma Prison (and, apparently, at other prisons as well) that Wardens have authorized prison staff to confer with yard "Heads" (euphemism for gang leaders for each racial or ethnic group in a prison unit) to threaten inmates with violence ("beat downs") or other consequences if they agree to be tested for Coronavirus. Allegedly, the threats were made because prison administrators were fearful of how many positive tests would result from mass testing of inmates, similar to what occurred recently after mass testing at the Tucson/Whetstone Unit.

Without question, if true, this would not just be unconscionable, unethical and even illegal behavior, but would constitute a serious threat to both staff and inmate health, safety and welfare and would reflect a serious dereliction of responsibility on your part to allow this to happen within your Department.

Notwithstanding the obvious and immediate problems which would be associated with such conduct by your staff (warden, line staff, etc.) by administratively conveying such power to gang leaders or members, who are already unscrupulous and dangerous prisoners in the first place, this would embolden them to initiate such actions on their own, without prompting or approval by the administration in the future, if they saw an advantage to be gained on behalf of their own individual security threat groups. This is a dangerous and frightening prospect to contemplate within a prison system where -- under the Rudisill decision-- Arizona should already be well on its way to integrating prison units in order to diminish the power of prison gang disruption and influence throughout the system.

We urge you to immediately investigate not just the claims being made about the threats at the Yuma Prison, but also to investigate similar information which is apparently being claimed from other complexes or units as well.

Everything related to prevention and/or protection from the Covid 19 crisis has been slow to materialize within the Department, and according to the constant reports we receive, the

ongoing problems are not being adequately addressed. We know that social distancing in a prison environment is not realistically possible. Hence, it seems that other measures should be stepped up to attempt in some small way to accommodate for the lack of ability for prisoners to self-isolate or social distance. We continue to hear complaints about inadequate deep cleaning, lack of cleaning supplies, staff - including medical staff - who refuse to wear masks even when directly interacting with inmates, refusal to tests inmates who formally submit HNR forms identifying symptoms that should trigger testing, poor quality inmate masks, inadequate exchange of masks, cross contamination of units by staff and inmate movements, etc. All of these problems are resolvable, even in a prison setting.

We stand ready to distribute accurate information so as to respond to inquiries from inmates and their loved ones. But the information provided must be truthful and accurate. We will not assist the Department in concealing an out-of-control problem that no one seems to be handling.

We suggest that you offer yourself as a participant at the Governor's next news conference to directly answer questions from media who have the means to distribute information throughout the state. We suggest that any Warden or staff member who has participated in threatening a single inmate about the consequences which will or could redound to him/her for testing must be terminated at once. We also respectfully request a response to this communication with some assurance that you are addressing the accusations with an honest and authentic investigation.

Sincerely,

Donna Leone Hamm

My son [REDACTED] is in East Unit.

I am very concerned about total disregard of CDC Guidelines/protocols in East Unit which exposes him and others to significant threat.

Recently 50 inmates were moved around. This was done without any tests, cleaning comporting to COVID mandates.

By placing all kitchen workers together, e.g, without first testing them, the East Unit administration has created a deadly scenario. One does not know whether the person there previously was asymptomatic or whether the person moving in with no symptoms will now get infected.

Furthermore by putting all persons who work in the same area together, they are creating a situation where, if one is positive, all have to be quarantined.

What compounds this is inmates are made to sign bogus cell sheets showing the COVID protocols have been followed.

In light of the 500 plus positives in Whetstone I am concerned.

This action is being taken with deliberate indifference to inmates.

What is worse is employees, their families, local Florence economy are all put in jeopardy by this failure to exercise commonsense.

Centurion staff are public health officials and in a pandemic they have the duty to report this to appropriate state and federal authorities and they have not.

I request this be investigated before my son dies of COVID

Good morning, My name is [REDACTED] EIN: [REDACTED] [REDACTED] Unit [REDACTED] Complex. The reason for my email is, on 8/13/2020 I received NO PAY. I have been out of work because I contracted Covid 19 which I believe I got from work at [REDACTED] Unit where multiple inmates were tested positive. For the record this was before any of the extra precautions were put in place. Also a [REDACTED] r was Covid 19 positive and as [REDACTED] I was not made aware that I may have been in contact with someone with covid 19. I had that conversation with DW [REDACTED] Unit he was aware that the officer had Covid 19 and did not care to ATLEAST have an OHN nurse contact me about being in the same work space as a officer with Covid 19. [REDACTED] was present during this meeting regarding a separate situation. Attached I have all of my paperwork including the directive from my doctor who says I can not return to work until I have my second results from test on 8/7/2020 I am still waiting for my results. This has brought so much stress to my family. My [REDACTED] daughter also contracted the virus. She was rushed to ER with 102.5 fever I have records to show. Attached is her results which shows she was covid 19 positive. During the same time period as my self. I was told I was approved for long term FMLA. I never signed a paper stating I wanted long term FMLA or needed it. I already have intermittent FMLA. My leave was strictly because of my positive Covid 19 test and the symptoms that had me bed stricken for 2 and half weeks. I have communicated with the OHN [REDACTED] at [REDACTED] Complex and also [REDACTED] regarding my symptoms and administrative pay. I was NEVER made aware that Administrative leave pay is just 80 hours. How is that fair for a person who clearly has the virus also my [REDACTED] daughter had the virus and now I don't get paid for being out because my DOCTOR says I can't return to work until I'm tested again for covid 19 on 8/7/2020 I have spoken with my family attorney about this situation and I do not want to make this a bigger issue but it is a real issue. I would like the IR number that I wrote on 6/27/2020 regarding a trinity staff member who stated she believed she had covid but will not get paid if she goes home. This IR was written by my self [REDACTED] and also my [REDACTED]. I have attached the IR to this email. I was given a directive by [REDACTED] Unit to write the IR. I would like to know that IR number as he told me that he would get the Number for the IR. That needs to be looked in to also. I believe I deserve my back pay for all hours I have missed because of covid 19 to date. There are several directive from the Director Shinn to the Governor that workers affected by Covid 19 will be paid. This is not the first time I have not been paid while being out of work for Covid 19 even after communicating my symptoms. This is why the pressure and stress forced me to put my two week notice in on 8/14/2020 This continues to happen to me. I have been Officer of the month quarter and Year. I've found more contraband than any Officer possibly ever. I love what I do. I do not like being mistreated or ignored. I would like this to be rectified so we can move forward. I do not wish to take this to a court but I will. I have all my documents and emails regarding my situation. The lack of communication has brought me to this email which I have CC. Director Shinn.

Director David Shinn
Arizona Department of Corrections, Rehabilitation, & Re-entry
1601 W Jefferson
Phoenix, AZ 85007
Delivered electronically

Dear Dr. Christ and Director Shinn,

In light of our conversation last Friday, we remain deeply concerned about the need for a clearly articulated guiding framework to suppress the COVID-19 virus in Arizona. This includes COVID-19 Testing, Contact Tracing, and Supportive Isolation at necessary levels to permit safe return to normalized activity. Our concerns and questions at the statewide level are the following:

- Widespread testing, especially for those at high risk.
 - Testing remains the paramount way to deal with the virus, and high-risk populations, especially low-income and minority communities and those in congregant settings, are disproportionately affected and must be prioritized.
 - Pooled testing was mentioned as a means to accelerate testing in the state's correctional facilities. We urge the State to publish a plan and timeline for implementing that testing strategy in all congregant living contexts, which should include nursing homes and prisons, and this should commence no later than September 1, 2020.
 - We continue to urge the state to lower the barriers to testing by creating more community testing sites.
- Contact Tracing: getting to scale
 - Virus suppression (getting to green) requires an aggressive contact tracing effort. Dr. Christ mentioned that the state is working to hire additional tracers and investigators up to 1,000 for the whole state. We request a timeline for such deployment and the rationale for this scale of tracing, which seems much lower than many national epidemiological recommendations. Serious effort be made to recruit tracers who will be trusted within high-risk communities
 - We urge a coordinated, clearinghouse effort which details the statewide number of case investigators and contact tracers, between state and county efforts.

- Supportive Isolation
 - The state is relying on the partnerships built at the local level for supportive isolation. Please share with us how this effort is being coordinated and recommended guidelines are being disseminated

Specifically regarding correctional facilities, we heard the following:

- COVID-19 Testing
 - Dr. Christ said that 59,000 tests are available to ADCRR. It is vital that these be administered without delay and that the state publish a timeline, by August 21, 2020, for utilizing those tests in all correctional facilities.
 - The schedule should include on-going testing for the duration of the pandemic.
 - The testing schedule communicated to us on August 10, 2020 failed to include private prisons. Why was this, and when will private prisons be added to the master testing schedule?
 - We ask ADCRR to clarify the percent positive of tested inmates.
- Quality of Care
 - We request clarity from ADCRR regarding the standards of care that are being followed within the prison settings for COVID-19 and how those standards meet the same guidelines used in community hospital settings.
 - We further call on the department to publish the criteria being used to determine when an inmate should be transferred to a local community hospital.
 - We continue to hear stories from inmates that they are charged for medical care despite the stated policy that inmates are not required to do so during this time.
- Strategy for Re-entry
 - We continue to hear stories of inmates not being tested prior to release from ADCRR's custody. We urge the state to immediately implement exit testing across the corrections system.

We have repeatedly urged the State to take all necessary measures to protect life in all of our communities - including correctional facilities. This includes seeking early and compassionate release of at-risk and elderly prisoners, under safe guidelines, lest their prison stay turn into potential death sentences. As faith leaders, we know the stories of people that have been directly impacted by COVID-19. We know the faces of the unemployed and the underemployed. We have officiated at the funerals of those who have died. We have held the hands of concerned friends and family members as they have shared the stories of incarcerated persons that fear for their lives.

We request to meet with you again on these matters by August 21.

Good morning,

For those of you that had serology testing done yesterday, test results are already coming in. You can obtain them by going online and I have attached the instruction sheet that was given out yesterday. The whole procedure is very simple and easy to use. PLEASE NOTE: all test results that you've ever had that Sonora Quest have processed will be included in your log in once you've set up your account. I was able to pull up results from 2016. Please know you weren't tested yesterday for anything other than the CoVid virus.

We will be testing again tomorrow from 0800-1500 in the Training building for anyone that is interested. The test will detect antibodies which your body has built up as the result of an exposure or illness. You can set up an appointment on the Google sheets spreadsheet or call me and I'll be happy to take care of it for you. They will also take walk-ins.

If you have any questions, please contact me.

Thank you,

This email contains information that is intended only for the person(s) to whom it is addressed. If you received this communication in error, please do not retain it or distribute it and notify the sender immediately.

Obtaining Your Results

Your results will be available online within approximately 7 days

If you already have an account

- Visit [SonoraQuest.com/results](https://www.sonoraquest.com/results).
- Click on the "Get Test Results" button to access our online results portal. If you have not previously accessed test results on our website, you will be prompted to go through a one-time identification verification process.
- If you would like to be notified when your test results are available, you may sign up for email or text notifications by going to <https://www.sonoraquest.com/patient/?page=notifications>.

If you are visiting our website to get your results for the first time

- To enroll to access your test results online, visit [SonoraQuest.com/account](https://www.sonoraquest.com/account).
- Follow the instructions online and provide the information requested to sign up and create an account.
- Complete our identification verification process by going to [SonoraQuest.com/results](https://www.sonoraquest.com/results). This will ensure that only you have access to your protected health information.
- You can then select to receive text or email notifications that your test results are available by going to <https://www.sonoraquest.com/patient/?page=notifications>. You'll then receive an email when your results are ready to view. You will be able to print them to keep for your records.

Accessing Test Results for Minors or Other Family Members

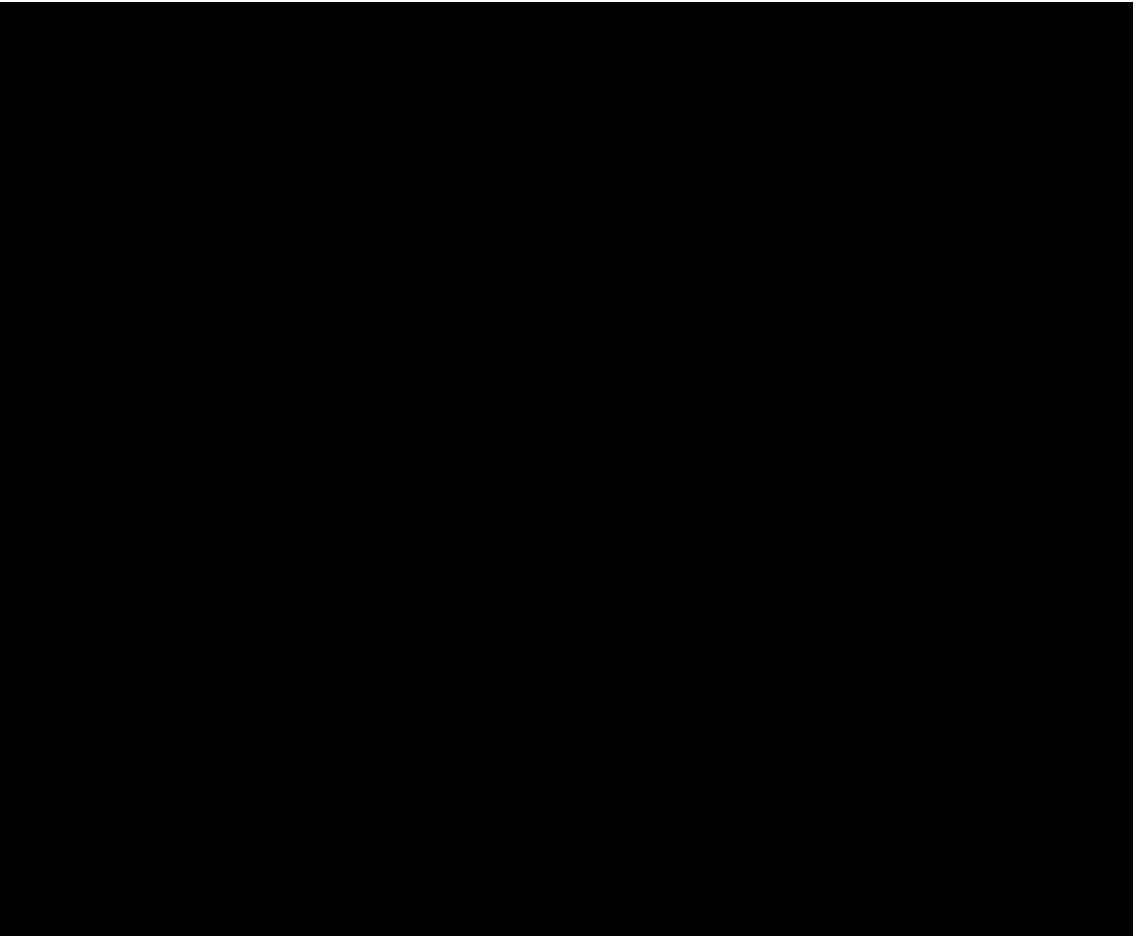

- **Lab results for other family members or children under the age of eighteen cannot be accessed online.**
- **For lab results for minors under the age of eighteen, please download, complete, and submit the Authorization to Use or Disclose Protected Health Information (PHI) form on [SonoraQuest.com/results](https://www.sonoraquest.com/results) to request the test results via email, mail or fax.**

Subject: Request for Back pay for check date 8/13/2020 to date.
Date: Tuesday, August 18, 2020 7:28:18 AM

Good morning, My name is [REDACTED] EIN: [REDACTED] [REDACTED] Unit [REDACTED] Complex. The reason for my email is, on 8/13/2020 I received NO PAY. I have been out of work because I contracted Covid 19 which I believe I got from work at [REDACTED] Unit where multiple inmates were tested positive. For the record this was before any of the extra precautions were put in place. Also a [REDACTED] was Covid 19 positive and as a [REDACTED] was not made aware that I may have been in contact with someone with covid 19. I had that conversation with DW [REDACTED] of [REDACTED] Unit he was aware that the officer had Covid 19 and did not care to ATLEAST have an OHN nurse contact me about being in the same work space as a officer with Covid 19. [REDACTED] was present during this meeting regarding a separate situation. Attached I have all of my paperwork including the directive from my doctor who says I can not return to work until I have my second results from test on 8/7/2020 I am still waiting for my results. This has brought so much stress to my family. My [REDACTED] old daughter also contracted the virus. She was rushed to ER with 102.5 fever I have records to show. Attached is her results which shows she was covid 19 positive. During the same time period as my self. I was told I was approved for long term FMLA. I never signed a paper stating I wanted long term FMLA or needed it. I already have intermittent FMLA. My leave was strictly because of my positive Covid 19 test and the symptoms that had me bed stricken for 2 and half weeks. I have communicated with the OHN [REDACTED] at [REDACTED] Complex and also [REDACTED] regarding my symptoms and administrative pay. I was NEVER made aware that Administrative leave pay is just 80 hours. How is that fair for a person who clearly has the virus also my [REDACTED] old daughter had the virus and now I don't get paid for being out because my DOCTOR says I can't return to work until I'm tested again for covid 19 on 8/7/2020 I have spoken with my family attorney about this situation and I do not want to make this a bigger issue but it is a real issue. I would like the IR number that I wrote on 6/27/2020 regarding a trinity staff member who stated she believed she had covid but will not get paid if she goes home. This IR was written by my self [REDACTED] and also my [REDACTED] [REDACTED] I have attached the IR to this email. I was given a directive by SGT. [REDACTED] of [REDACTED] Unit to write the IR. I would like to know that IR number as he told me that he would get the Number for the IR. That needs to be looked in to also. I believe I deserve my back pay for all hours I have missed because of covid 19 to date. There are several directive from the Director Shinn to the Governor that workers affected by Covid 19 will be paid. This is not the first time I have not been paid while being out of work for Covid 19 even after communicating my symptoms. This is why the pressure and stress forced me to put my two week notice in on 8/14/2020 This continues to happen to me. I have been Officer of the month quarter and Year. I've found more contraband than any Officer possibly ever. I love what I do. I do not like being mistreated or ignored. I would like this to be rectified so we can move forward. I do not wish to take this to a court but I will. I have all my documents and emails regarding my situation. The lack of communication has brought me to this email which I have CC. Director Shinn.

Subject: 8-17-20 ADHS COVID-19 MEMO
Date: Monday, August 17, 2020 7:20:36 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona.

- There has been a lot of media in the last few days about percent positivity. On the ADHS [Data Dashboard](#), percent positivity is calculated by the number of people with a positive COVID-19 test result reported electronically, out of all people with COVID-19 testing reported electronically. This accounts for approximately three-quarters of all tests reported to ADHS. That figure represents data from more than 1 million unique individuals -- about one out of seven Arizonans.
 - Percent positivity is reported based on when the specimen was collected, which better represents disease transmission in the community at a given time.
- ADHS has been actively working with laboratories and onboarding them to electronic reporting. This begins with ADHS identifying laboratories from faxed reports or laboratories proactively contacting ADHS. To get onboarded the lab must be set up to send data securely, send test files to ensure everything is working properly, and then send a historical file to make sure there are no missing reports.
- ADHS continues the process to review business applications for approval to reopen. As a first step, business must complete an [attestation form](#). If they are in a county with substantial transmission, they will be directed to an application for approval to reopen where they can provide additional information to the department about how they will operate more stringently than [the requirements](#). ADHS reviews these applications and will provide an approval or denial to applicants within 10 business days. Applicants who are denied have additional due process rights to work with the department to demonstrate the ability to safely reopen. To date, over 600 businesses have applied for approval to reopen.
- Testing continues throughout the state, with free HHS Surge Testing being offered in Yuma, Pima, and Coconino Counties. Additional information about testing locations and pre-registration is available [here](#).

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Here are some social media posts that you may find useful to disseminate to your constituents:

Good morning Ms. Dorsey,

Deacon Crecca forwarded me the email she shared with you yesterday. In an effort to stay informed and continue to support ADCRR in communicating with VIP and others, can you please keep me cc'd on any updates you provide Deacon Crecca on the three concerns listed in her email below?

From: Kim Crecca <kdcrecca@yahoo.com>
Subject: 2 Urgent Concerns and a Followup
Date: August 16, 2020 at 2:56:47 PM MST
To: Regina Dorsey <rdorsey@azadc.gov>

Dear Ms. Dorsey,

I'm sorry for interrupting your weekend, especially on a Sunday. I received word on Saturday that some Perryville inmates on the Santa Cruz unit had not received their insulin on Friday. I requested their names and ADC #s so I could pass this along to you. As of Saturday at 8:43 PM they had still not received their insulin. This is of critical concern and I would appreciate it if you could look into it. As health issues like this arise, should I continue to contact you or is there another person that I should reach out to?

[REDACTED]

On Wednesday, 8/12, [REDACTED] was tested on the San Carlos unit at Perryville. Her release date was Thursday, 8/13. When she was processed for release she was told that her results from the virus test came back positive but she was released anyway. She was supposed to return to her parents house for her parole period but her parents are elderly and have underlying health conditions so they were able to put her up in a hotel for at least the first night while they tried to find someplace else for her to stay. I've been told that she is now staying with a friend. I am very concerned about this situation as the point of testing individuals about to be released was to prevent exposure to the virus among compromised family members and the community. Had she been paroled to a halfway house or rehab facility, she would have been denied access and possibly left on the streets. We cannot allow this

to happen. Potential releasees who test positive should be held by ADCRR in quarantine until they test negative and then released. Can you look into this situation in particular and also provide assurance that it is not the policy of ADCRR to release individuals who have tested positive for COVID-19 until such time as they test negative.

And, as a followup to a previous email from August 5th about banning smoking at all AZ prison facilities or at least in the interim requiring strict enforcement of smoking restrictions. As inmates are locked down for testing, etc. the smoking has gotten worse within cells and showers. The report I cited indicates the dangers of virus transmission through second and third hand smoke. Could you please provide an update on this issue?

I also wanted to share with you that I have received numerous comments on how well organized the testing process was at Perryville and how quickly the results were provided. Thank you again for being so responsive and supportive of the concerns that I have brought to your attention.

Thank you,

Maria Cristina Fuentes

Andy Burnette <andyb1015@me.com>, Rock Fremont <pastor@sohucc.org>

Director Shinn,

We are glad to see, subsequent to our July 29th meeting with you, that COVID-19 testing has accelerated to 8,000 tests per week at the state-run correctional facilities. It appears that these tests are to be completed in the first week of September instead of October by securing testing from Sonora Quest. We appreciate that Regina Dorsey shared the schedule with us yesterday, although the schedule did not include privately-run facilities. When will testing occur for the thousands of inmates at those facilities?

As before, we strongly urge you to provide 15,000 tests per week. The safety of our state depends upon an urgent testing blitz at all prison facilities, followed by a plan for ongoing testing.

Also, we have received several reports about movement of inmates between complexes. Movement of 15 inmates from Red Rock (Marana) to Winslow occurred on 8/3 and movement of approximately 40 inmates from Cerbat (Kingman) to Yuma occurred on 8/6, and, as previously reported at our July 10th meeting, 150 inmates were moved from Florence North to Kingman on 7/7. According to the March 23rd directive posted on the ADCRR COVID-19 Management Strategy Dashboard:

“ADCRR has implemented a number of measures to defend against the spread of COVID-19 virus in the complexes. Some of these include: suspending all visitations, **stopping routine internal movement of inmates across all Arizona prisons**, and requiring all employees entering Arizona prison complexes to undergo an infectious disease symptoms evaluation.”

In our July 10th meeting with you and members of your staff, we were assured that movement of inmates between complexes was not occurring even though we had received reports to the contrary from inmates and their family members. Reports of recent inmate movement prompt

us to ask again, why are inmates continuing to be moved across complexes in direct contradiction of the 3/23 mandate? With testing of inmates currently in progress, it is our concern that movement of inmates between facilities will skew the test results and possibly increase the spread of the virus among those inmates and staff who initially tested negative.

Respectfully,

Rev. Kim Crecca

Subject: ADCRR Facility Testing Schedule
Date: Monday, August 10, 2020 2:02:14 PM

Greetings Valley Interfaith Project,

The Arizona Department of Corrections, Rehabilitation and Reentry (ADCRR), currently houses approximately 41,000 inmates of various custody levels throughout its facilities. This COVID-19 testing is part of ADCRR’s management strategy to mitigate and limit the spread of the Coronavirus among the inmate population during this pandemic. ADCRR, in collaboration with Arizona Department of Health Services (ADHS), begun onsite COVID-19 testing late July at ASPC-Safford. Testing will continue throughout ADCRR facilities across the state, with a target completion date of September 03, 2020. I would like to proudly point out that ADCRR is one of only a handful of state correctional agencies in the nation to begin widespread testing of inmates. Outlined is the effective and systematic process that ADCRR has adopted to protect the inmates in custody, as it is the top priority. As noted, the below-expedited process will show a 60-day reduction in testing.

Facility Testing Schedule Sequence

ADCRR Facilities to be tested by Centurion / 3000 test per week Capacity		
Testing Sequence	Complex ADP (Average Daily Population)	Testing Dates
ASPC-Safford Complex	1582	July 27, 2020 July 28, 2020 July 29, 2020
ASPC-Douglas Complex	2071	July 30, 2020 July 31, 2020 August 3, 2020
ASPC-Tucson Complex	4779	August 4, 2020 August 5, 2020 August 6, 2020 August 10, 2020 August 11, 2020
ASPC-Florence Complex	3259	August 12, 2020 August 17, 2020 August 18, 2020 August 19, 2020
ASPC-Winslow Complex	1323	August 24, 2020 August 26, 2020

August 27, 2020

ADCRR Facilities to be tested by Sonora Quest Labs / 5000 test per week capacity		
Testing Sequence	Complex ADP (Average Daily Population)	Testing Dates
ASPC-Perryville Complex	3859	August 10, 2020 August 11, 2020 August 12, 2020
ASPC-Phoenix Complex	492	August 13, 2020
ASPC-Yuma Complex	4672	August 17, 2020 August 18, 2020 August 19, 2020 August 20, 2020
ASPC-Eyman Complex	5567	August 24, 2020 August 25, 2020 August 26, 2020 August 27, 2020
ASPC-Lewis	4356	August 31, 2020 September 1, 2020 September 2, 2020 September 3, 2020

Again, the highest priority is to protect inmates under our custody and collaboratively work with Centurion to ensure all their needs are met. To continue with the department's mission of transparency with you, please feel free to contact me.

Sincerely,

Regina Dorsey / Administrator

To:

Good morning All County Sheriff's:

Our agency is currently awaiting Covid-19 test results for inmates housed at ASPC-Phoenix (Alhambra). As soon as these results are received (this morning) we will be able to determine the number of males we can receive at reception tomorrow, 08/11/2020. *Notification will be sent as soon as received.*

For those agencies with pending females, all that have been requested to date will be authorized to transfer on 08/11/2020 to ASCP-Perryville.

Attached is the current list of Pending Inmates. Please take a moment to identify which Males you would like to make a priority for tomorrow's transfers. This will assist both of our agencies with an expedited authorization process when we determine how many males each of your respective agencies can bring.

I do apologize for the short notice and ask for your continued patience.

Sincerely,
Amber L. Wiley, Offender Support Administrator

RE: PLACING INMATES IN PUBLIC HEALTH JEOPARDY

East Unit moved within the unit 50 plus inmates and plans more moves prior to testing inmates for COVID 19. They are disregarding asymptomatic inmates and the fact that if one was infected the whole yard is affected.

THEY ARE HAVING INMATES SIGN BOGUS CELL INSPECTION FORMS TO PROTECT THEM FROM LIABILITY WHEN THE FACT COVID19 CLEANING/PROTOCOLS HAVE NOT BEEN FOLLOWED AND IF PEOPLE DO NOT SIGN THESE BOGUS FORMS THEY WILL BE SENT TO SMU

Before moving they must follow CDC guidelines/protocols, that is testing, cleaning every cell before/after the move with chemicals .

They are not doing this thereby endangering us.

In a pandemic situation the authority of Public Health Officials, which Centurion staff in prison are, exceeds the perceived power of ADCRR, especially under Parsons and the contract to provide healthcare.

East Unit Administrators under the direction of Captain Albert Walker, COIV Diane Boschuweicz, Warden Jeffrey VanWinkle, Director David Shinn are not using common sense and East Unit Centurion staff, afraid of ADCRR staff members perceived authority, are violating CDC Guidelines and pandemic protocols by not performing their non discretionary duties.

In the event this is not stopped now it will get worse when transferred to Whetstone because of the egos of East Unit administration.

Centurion staff are failing to lodge reports about this misconduct which, especially after 500 plus positives at Whetstone, may prove worse in East Unit, due to ADCRR administration continued action. This will affect other units, if people are moved, affect those inmates in Central Unit because three times a week they go for dialysis, xrays. It may also affect, medical staff coming to give physical therapy, officers and their families, the Florence Community, the State as a whole and the local economy.

East Unit administration rounded up all insulin inmates, put them in one area; all kitchen workers, put them in one area; all maintenance workers in one area; and are working on placing all inmates who taken medication in one area and so forth.

In theory this is convenient. However under CDC Guidelines this is dangerous. Now they have inmates like me, sort of isolated, but are mixing us with others, who are medically worse off/better then us. Now we all are placed in jeopardy, greater than what existed, before us clustered together. Centurion staff are allowing East Unit Administration override pandemic protective orders/protocols towards everyone's detriment.

They are doing this at the expense of inmates, employees and their families catching COVID 19.

_____ and other medical issues that put me at risk of COVID 19. I am housed in a cell, wear mask when I leave my living area, avoid contacts with others as much as possible, do my best to stay away from areas that may entail my having contact with others as much as possible.

Social distancing is not possible in medical lines unless Centurion staff deliver medication in the living area., commissary staff do the same for commissary; and meals are served in Styrofoam trays to be eaten in the living area.

As this is a public health issue I am sending this to the following. I am asking federal public health authorities, Arizona state authorities and those with the ability and authority to take action, do something, stopping East Unit administration overriding pandemic protocols.

To: Lance Hetmer <lheter@azadc.gov>

We had another 30 positive inmates at Gila Unit today. We have a total of 88 positive inmates out of approximately 800 inmates. A 11% positive rate. We are cohorting inmates in Building 22 at the Gila Unit today. We only have 5 inmates pending results at Gila and 1 inmate that needs to be retested. We now have 95 total positives and we tested 2,003 inmates. We still need results for approximately 30 inmates at Mohave and 24 inmates at Eggers. Kin is calling the lab and trying get all of Douglas Complex's results. I will keep you updated.

Subject: 8-7-20 ADHS COVID-19 MEMO
Date: Friday, August 7, 2020 5:58:40 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the most salient COVID-19 issues that the Department is currently addressing.

- ADHS, DEMA, and county health partners have worked with HHS to offer free COVID-19 diagnostic testing in Coconino, Pima, and Yuma counties. Testing will begin on Monday in Coconino County. A full schedule is available [here](#).
- To date, nearly 33 million pieces of PPE have been distributed by the State to county and tribal public health partners for further distribution to healthcare facilities and first response agencies.
- Through the [ADHS Surge Staffing Initiative](#), over 95% of allocated nurses have been rostered and will be in place by August 15th. This will provide 6 weeks of free nursing support to hospitals, augmenting their staffing capacity and allowing for needed rest time for staff who worked through significant COVID-19 surge in Arizona hospitals.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Here are some social media posts that you may find useful to disseminate to your constituents:

- <https://twitter.com/AZDHS/status/1291811354148589575?s=20>
- <https://twitter.com/AZDHS/status/1291811601620795392?s=20>

Please note that moving forward updates will occur on a weekly basis unless additional significant developments necessitate more frequent communication.

Thank you for your investment in helping Arizona address COVID-19 in Arizona.

Subject: RE: Shorten State Mass Testing Plan

Good afternoon,

I spoke with Larry and understand the ADCRR has decided to go in a different direction with mass testing. Please understand that none of my communications indicated that we were opting out of helping the ADCRR with the accelerated testing project. However, it was moving so quickly I was merely attempting to provide the status of the current testing project and discuss potential options and concerns.

We have worked extremely hard to exceed the expectations of the ADCRR and will continue to do so. We would like the opportunity to solve this accelerated mass testing project as a team and partner with the ADCRR. It is extremely important that the results and provider orders are in the medical record and in a reportable format for us to track and to aid in medical decisions as this virus spreads throughout our facilities.

As you are aware, the COVID-19 mass testing contract that we have is with DHS. That contract is very specific and requires us to utilize Garcia Labs for the testing

and to upload the results electronically. Further, after the contract is amended to change those requirements, the DSH procurement official is the one who has to provide that direction.

Please understand that my communications were within the best intentions, to ensure successful completion of the project and appropriate patient care.

Sincerely,
Tom

Tom,

Assistant Director Gann will contact you shortly regarding ADCRR addressing accelerated testing through other means.

Joe

On Thu, Aug 6, 2020 at 9:53 AM Dolan, Tom <tdolan@teamcenturion.com> wrote:

Joe,

We'll start discussions on plan with our teams and keep you posted. A few follow up questions for the group:

- 1) Does Sonora Quest have the 5000 swabs and collection tubes on-hand they will send us weekly?
- 2) This will increase PPE burn significantly, we based our ability to get the PPE over several months though different suppliers. Assuming this is under an Emergency Declaration, will we have access to the State's stockpile (specifically N-95 masks, gowns and gloves)?
- 3) Does this project fall under the DHS mass testing contract for Centurion (just the additional labor portion if the COVID tests and PPE are provided)?
- 4) I understand the Monitoring Bureau is being mobilized to perform testing. Is there any liability (Parsons v. Shinn) for the ADCRR or Centurion, if this is correct?

Respectfully,
Tom

Tom,

As the driver of your opposition to the necessary acceleration of surge testing seems to be staffing and the inability to maintain continuity of care at

institutions; help me understand how this is the case when the contract for mass testing allows for increased staff/overtime? Therefore, it would seem, managed effectively, this stated impediment is not insurmountable and should be overcome. In addition, you reference Tucson and overlay the rate of positives there as rationale for why Centurian opposes acceleration of testing. Stated another way, two other complexes (Safford & Douglas) have significantly low positive rates, negating or at least balancing the argument. Finally, knowing who amongst the population does or does not have COVID sooner rather than later and orienting resources, medical and otherwise, to tend to those positives sooner rather than later is the right thing to do. The alternative is to kick the can down the road. We are not going to do that, ADCRR is moving forward with accelerated testing; the sooner you orient yourself and your team to that inevitably the sooner we can accomplish this critical mission - together.

Sincerely,

Joe

On Wed, Aug 5, 2020 at 4:22 PM Dolan, Tom <tdolan@teamcenturion.com> wrote:

Good afternoon,

Currently we are seeing approximately a 20% positive rate at Tucson from the testing started this week. If we shorten the testing schedule it will

potentially spread our staff too thin. For strong symptomatic patients, care consists of multiple nursing visits and a provider visit daily. Non symptomatic patients receive an increase of care with nursing visits. The mass testing project that is in process has required an ample amount of planning, a designated regional nursing team and volunteers from sites across the state to assist at each complex. If multiple complexes start having a high number of positives it will strain every complex's staff to cover their own site and other complexes will not be able to assist with testing as they will be mass testing and have their own heavy needs for COVID care.

From a reporting perspective, we will not be able to track and report labs from Sonora Quest out of eOMIS because they are not interfaced. The data will have to be scanned in and in this format not reportable. Using a different lab will require inputting orders via paper instead of electronic. Lab requisitions will be more laborious to implement during mass testing with Sonora Quest. Then all labs resulting will have to be manually entered instead of auto populating a provider review. These different issues creates opportunities for misses in results which could be seen as poor care.

The current timeline has been adhered to so far and rapid changes to the current process will cause much concern at the complexes because we are at max workload capacity.

Garcia Labs are using the Abbott Laboratory platform for Covid-19 testing. This platform has been approved by the FDA. They have a EUA from the FDA for PCR Covid-19 testing. Currently, Garcia has three machines in house with another one scheduled to be up and running by September 8th. This will increase their testing capacity by 25%. This will give us time to prepare for the labor requirements of the additional amount of tests available with a company that is already integrated in our medical record.

We also have to keep in mind as we mass test, we also will be pocket testing patients/housing units as symptomatic patients present as covid spreads through our facilities.

COVID is simmering at Eyman and Florence which we are planning testing of those units with the potential to be similar with the amount of positives we are seeing at Tucson this week.

Does the Monitoring Bureau, DHS and Sonora Quest have the ability to provide administrative/nursing staff or anyone qualified to administer the

tests and keep outside our system? In that scenario, we would learn the results and then act accordingly - but not be required to enter the result into EOMIS keeping that project separate from the Parsons vs Shinn requirements. I really want to be helpful but understand we are to start this Monday. I recommend at least a week to plan out the process since it's an outside lab vendor.

Respectfully,

Tom Dolan

Tom,

The Deputy Director has a meeting with the Governor's office today in reference to increasing the tempo of our testing. Have you had a chance to formulate a new plan that can add approximately 8000 extra tests per week? I also have another call with Sonora Quest to discuss the items from our call yesterday concerning courier and resulting services.

Larry

Valley Interfaith Project

August 5, 2020

Director David Shinn
Arizona Department of Corrections, Rehabilitation and Reentry
1601 West Jefferson
Phoenix, AZ 85007
Delivered electronically

Director Shinn,

We are alarmed with the announcement last night about the positive results of 517 inmates at Whetstone in Tucson. Per our conversation last week, and as we have been demanding for two months, it is imperative that universal testing be expedited at all ADCRR facilities for staff and inmates. Your current testing plan for the state's prisons, which just commenced, is too drawn out, lasting nearly two months. This cannot wait until mid-October.

The rapid spread of the virus and the still ongoing unevenness of response by your Department will lead to more loss of life without drastic and immediate interventions. Despite our ongoing conversations and correspondence over the past few months, we are still receiving reports of inmates being placed in harm's way, released without being tested, and unable to obtain testing and needed care.

While we understand that you have begun to take some constructive steps towards preserving the lives of those in your charge, the urgent moment is here. Whatever slight gains our state is seeing with the leveling off of the virus will be drastically upended by the catastrophic spread within the prison system. And then it will return widely to our communities, keeping schools and businesses closed.

It is time for you to declare an emergency situation, accelerate testing at all facilities, and implement extraordinary measures for supportive isolation and/or compassionate release for high risk and elderly inmates, lest their prison stay turn into potential death sentences. Valley Interfaith Project and the Arizona Interfaith Network urge you to act now.

Respectfully,

The Rt. Rev. Jennifer Reddall, Sixth Episcopal Bishop of Arizona

Subject: Tucson

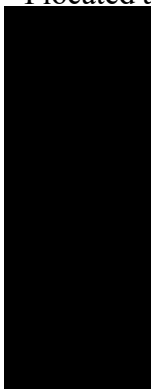

Good evening Mr. Gann:

Today in Tucson Jeanne Chastain and I witnessed the COVID-19 testing at Complex CDU and Cimarron Unit. The testing went very well. The coordination between security and medical was excellent. The Major said they had staff available from 0600 to 1500. Over 800 tests were completed between 0700 and 1000. The teams were mostly Tucson staff and several Centurion regional office staff were also helping with testing.

During the debriefing, I learned that 519 positive tests came back from the weekend testing at Whetstone Unit. When I raised the issue of the missed med pass at Rincon, the FHA spoke of the staffing enhancement - adding a night ADON - and the process change that was made but there was no suggestion that anyone was held accountable or subject to any disciplinary action for the missed pill call.

The HNR log I looked at this afternoon included nursing encounters as well as HNRs. There were only 935 HNRs at Whetstone in July - an average of 31 per day.

I located a sample of the July HNRs that had the following complaints:

- Trouble breathing, shortness of breath, headache
- Hard to breathe
- Need breathing treatment renewed
- Require breathing treatments
- Can't breathe, lungs hurt
- Requirie breathing treatment
- Breathing treatment
- Trouble breathing
- Short of breath
- Fever, trouble breathing

██████ - Require breathing treatments

Whetstone had 867 HNRs in April, 741 in May, 899 HNRs in June..

If you need more details, I can get them tomorrow.

This email contains information that is intended only for the person(s) to whom it is addressed. If you received this communication in error, please do not retain it or distribute it and notify the sender immediately.

The Following are Employee Mitigations at the ASPC-Tucson Whetstone Unit Effective

8/4/20

1. To the extent possible, employees shall only be assigned to the same post daily on a minimum 90 day rotation.
2. Staff will not be cross-leveled to or from other units.
Additional staff have been administratively assigned to Whetstone to prevent the need to cross level any staff in.
3. Staff are not attending any type of training to include firearms training.
4. Should overtime be required, only existing staff from the unit may sign up.
5. Ingress/Egress to and from the unit:
 - Social distancing is enforced at choke points of ingress.
 - No more than three staff are allowed to be in the ingress point including the staff member conducting the ingress.
 - Ingress point is regularly sanitized throughout the ingress process and between each use of the personal property baskets.
 - Staff must temporarily remove all masks at any ingress/egress point or when requested for identification purposes.
7. Staff and Contractor Screening:
 - Occupational Health staff, Centurion staff and/or security staff shall conduct the Entry Screening Process questionnaire to include temperature checks.
 - All positive responses to the Entry Screening Process Questionnaire shall result in identified staff filling out the Employee/Non-Employee Screening - COVID 19 Questionnaire to be reviewed by OHN or scheduled Centurion staff if available for final disposition.
 - If OHN or Centurion staff are not available, the questionnaire shall be given to a Sergeant or above and the employee shall be sent home until disposition by OHN.
8. Monitor, enforce and adhere to personal NPIs:
 - Stay home when sick, covering coughs and sneezes with a tissue, washing hands with soap and water or utilizing hand sanitizer if soap and water are not available.
 - Prohibit handshaking and hugging at work.
 - Ensure hourly cleaning and sanitation of workplace areas i.e. phones, door knobs, handles, steering wheels, etc.
 - Avoid in-person meetings; when possible utilize telephonic, video or email correspondence.
 - Staff will wear an N-95 masks while assigned on the unit.
 - Prior to entrance to the bay, staff working in the buildings will wear gloves, glasses or safety goggles, an isolation gown and an N-95 mask.

- Each time the staff leave an affected housing unit, they will place their isolation gown and gloves in a designated trash can. When they enter the bay again staff will put on a new isolation gown and gloves.
- Staff will minimize contact with inmates in housing units. Housing unit staff will conduct 30 minute checks, counts, respond to emergency situations, but will not remain in the housing units unnecessarily.
- CO III's assigned to bays have been temporarily relocated to alternate space in the programs building.
- Staff should make every effort to avoid touching mask and if they do, immediately wash hands.
- If mask is removed for meal or bathroom break and reuse is intended, wash hands and remove mask without touching the outside. Fold mask backwards with outside facing in and place in pocket or paper bag. When reapplying mask, wash hands, apply mask then wash hands. Wash mask in hot water at the end of shift and air dry.

Whetstone Unit Effective 08/04/20

Compartmentalization plan of affected inmates

- Inmates testing positive will be moved together into an area or areas designated for affected inmates.
- HU 1A will be used for any inmates that are COVID positive with high medical needs.

The Whetstone Unit has a current population of 1,066. The physical capacity is 1250. Movement of positive inmates will begin on 08/04/20 at 1500 hours.

Positive Inmates Locations

1 A-101

1 B-81

1 C-76

2 A- 83

2 B- 58

3 A- 10

3 B- 15

4 A- 60

4 B- 67

4 C- 60

Locations Where Positives Will Be Housed

1 A, B, C

2 A, B

**4 A, B will be utilized for additional positives if needed

Locations Where Negatives Will Be Housed

3 A, B

4 C

- They will remain in that area until all the affected inmates are symptom free for the required period and it is determined that the unit is clear of infection.
- Inmates will be separated by positive and negative test results.
- The unit COIVs, the Complex COIV and OIU will coordinate their efforts to find housing for inmates that test positive and are due for release.
- There will be no inmate movement in or out of the unit.

Medical Procedure

- To the extent possible, all medical services will be performed at each bay in a designated medical area.
- HUB appointments will be only occurring as essential services deemed necessary by medical.

Kitchen Procedure

- All housing units will be fed in house with Styrofoam clamshells
- Supervisors will ensure staff are wearing N-95 masks and gloves when passing out meals.
- The inmates will receive a hot meal in the morning and evening, while getting a cold meal for lunch.
- Only inmates that test negative will be allowed to work in the kitchen.

Housing Unit Procedure

- The kitchen workers and Keefe store workers will be housed in an unaffected bay.
- The Whetstone Unit is comprised of 4 separate housing units which include 10 individual bays that are separated by an expanded metal door with lexan to minimize the potential for cross contamination between bays.
- Additional required turnouts, medical, recreation, etc., will be conducted by bay. All shared equipment and the area used by the prior building will be sanitized before the next bay accesses the area. All such areas will be sanitized between each bay's usage.

Commissary and Property Procedure

- Staff will pass out all mail and or property from the door front of the bays
- Commissary for bays housing negative testing inmates will be delivered to the housing unit; it will be passed out by Keefe staff with a security escort at a front door to each bay or at the covered table in front of each housing unit.
- Commissary for bays with positive testing inmates will be passed out by staff. Four staff will be detailed to this assignment each Wednesday.
- Store workers may be utilized to assist Keefe in the store area only; store workers will utilize masks and gloves during their work hours. Only inmates testing negative may work in the commissary.

Recreation Procedure

- Recreation will be conducted 1 bay at a time for one hour each from 0600-1830 on a rotating basis with intervening sanitizing periods according to a posted schedule.
- A two week rotating recreation schedule has been generated and will be posted at each officer station.
- Staff will ensure that the departing bay area's cleaning crew sanitizes the equipment and phones after their bay turns in and that the cleaning crew is then secured before turning out the next bay to recreation. Every bay has a sanitation crew.
- Recreation for buildings 1 and 2 will be conducted in front of buildings 1 and 2. Recreation for buildings 3 and 4 will be conducted in front of buildings 3 and 4.
- Inmates will be allowed to use the phones and tablet kiosks in front the buildings in their assigned recreation area only. They are not to enter any other housing units, but the one that they are assigned to.
- Phones and kiosks will be sanitized between usage.

- Inmates will be required to stay off the walkway in front of programs and the area behind the WBE building; this path will be used to move inmates to and from medical, education and work assignments.
- Each bay will be issued and will maintain their own set of indoor and outdoor recreation equipment such as board games and basketballs to further limit potential cross contamination.
- Water jugs will be emptied, sanitized on the outside, and be refilled between each recreation period. At the end of the day they will be run through the dishwasher.

Education/Program/Library Procedures

- All education, programs, religious services and classes will be temporarily suspended

Sanitation Procedures

- General sanitation will occur Daily in each bay
- Staff will deliver sanitation supplies/chemicals a minimum of twice a day on dayshift and once a day on swing shift. Additional sanitation supplies/chemicals available upon request
- Deep cleaning crews have been set up in each separate bay. As a part of their daily duties, the inmates will clean high usage areas such as restrooms, showers, and microwaves throughout the day.
- Shared games and equipment inside the bay areas will be cleaned and sanitized by the deep cleaning crew assigned to that specific bay
- Officer stations will be sanitized by the deep cleaning crew throughout the day.
- Sanitation of shared use equipment, such as recreation equipment, phones, kiosks, education and medical will be sanitized in between each separate bay having access to them to control potential cross contamination.
- Should unscheduled transports come into or out of the unit the vehicle gate; the area will be cleaned and sanitized each time.
- Administration and office areas will be cleaned each day.
- Supervisors will check chemicals and sanitation supplies for staff throughout the day. Additional supplies are stored in the shift commander's office and are immediately available.

Subject: Whetstone covid
To: Orm, Wendy <wOrm@teamcenturion.com>, Larry Gann <lgann@azadc.gov>

Larry,

Typically we see 35-40 HNRs per day at Whetstone. We confirmed there has not been an increase in HNRs as a precursor to the disease spread. However, we are seeing an increase now because of respiratory symptoms related to the covid positives.

Whetstone initially was only locking down one bay at a time as positives were identified and now the whole yard has been on lockdown since last Friday because symptomatic patients were increasing.

Since we have started mass testing and locking down units, we are hearing guys have been symptomatic but not reporting because they didn't want their housing to change.

I've copied Dr. Orm to provide insight as she has been at the helm managing COVID.

Thank you,
Tom

 Subject: Intake Information for ADCRR -- for Tuesday, 08/04/2020
 To:

Good morning All County Sheriff's,

Due to the Covid-19 pandemic and the current AZ Dept of Corrections Rehabilitation & Reentry quarantine protocols (and pending test results), our intake numbers for Tuesday, 08/04/2020 are low. Please note, Phoenix Administration has advised they are awaiting additional test results later today, which hopefully will allow us to accept more inmates, particularly, males. As soon as I receive this information, notification will be made asap.

Intake for Tuesday, 08/04/2020

Males: 60*
Females: 30

To allow fair allotment to all agencies, below is the tentative intake distribution for Tuesday, 08/04/2020. Also attached is the current list of pending inmates. Please begin identifying the inmates you would like transferred, based on the chart below. (Coconino & Navajo: Per your request, your inmates identified as management issues have been noted as a priority for transport).

*Male intake is subject to change

Sir,

FYI - in the event you receive additional inquiry, the below is provided.

The team will compose and provide response accordingly with a level a detail appropriate to not having an ROI on file, absent one being completed and filed.

In addition to what Vanessa provided in the sting below; Amanda Thrush, ASPC - Tucson, FHA advises:

We have been monitoring [REDACTED] closely for several days now. I personally interacted with him on Thursday while overseeing COVID testing in his house. He spoke to me about his concerns with being sick and being released on Tuesday. We talked about the different symptoms related to COVID and how he might feel with it. He verified understanding of the disease process. He was seen Friday morning for an ICS for worsening symptoms. He was seen in the early morning hours and given an IV for fluids and tylenol for the fever. Upon completion of the treatment, the patient was feeling better, had no nausea or vomiting and did not have a fever. He was returned to his housing unit. Later Friday morning, patient returned to medical reporting he was not feeling any better. Patient still had a fever and was again given an IV and tylenol to help with his symptoms. Patient again reported feeling better and was returned to his housing unit. Patient was rounded on last night at approximately 2000 by the night nurse. Patient reported feeling better since having the IV earlier in the day. He had a temp of 99.1 at that time. At approximately, 0130 this morning, patient was seen by medical again as he reported feeling sick again, including feeling weak and dizzy. Patient had a fever of 103 degrees. The on-call provider was notified and patient was sent to the emergency room. I spoke to the mother and the sister separately on Friday as they were concerned about him. I advised them that we would be checking on him frequently to make sure that he remained stable. The patient returned from the hospital after a few hours in the ER on Saturday morning. The patient was ordered an antibiotic and his first dose was administered upon his return from the hospital. I notified the sister this morning that the patient was sent to the hospital and I would try to get an update for her. I also spoke to the mother and gave her an update on her son. I was informed that the patient was back on complex. The ADON for that yard and the DON were onsite today and I asked them to personally go assess this patient. At approximately 1400, the patient was assessed in his housing unit by the ADON. Patient complained of shortness of breath and not feeling good. He reported not wanting to go to the hospital again since they did not do anything for him the last time. The on-call provider and myself were notified of his condition and arrangements were made to place him in the IPC, where he could receive 24 hour nursing care and be monitored more closely. Patient arrived in

the IPC at approximately 1800. He was ordered additional meds for his nausea/vomiting and was also ordered an IV again. Patient will be receiving vital sign checks every 4 hours to monitor his condition. At 1845, patient reported feeling much better with the medications and was requesting a tray of food. I will be calling the mother soon to give her an update on his condition. I will also update this group if there are any changes with this patient's status over the weekend.

Good morning,

There is not a valid, HIPAA compliant Release of Information on file for any person located in the i/m EMR. The Tucson complex FHA has been contacted to obtain one and have it scanned into the EMR.

Inmate [REDACTED] went out to the hospital on 08/07/2020 @ approx. 0600 and returned @ 1126; family notifications are not made for ED runs wherein the i/m returns the same shift/day. The hospital recommended antibiotics; inmate [REDACTED] was admitted to the Tucson IPC for monitoring. SARS PCR testing was ordered 07/29/2020 and was collected 07/30/2020, the results are not available in the EMR at this time. Inmate [REDACTED] continues to be monitored for s/s COVID in the IPC setting, according to documentation he is doing "ok" with intermittent temperature elevations noted during the day. No complaints of respiratory difficulty, oxygen @ 2 liters via nasal cannula, saturations at 95-96%.

Respectfully,

Vanessa Headstream, CRN, CCHP, LNCC
Program Evaluation Administrator
Health Services Contract Monitoring Bureau
AZ Department of Corrections, Rehabilitation and Reentry

Good afternoon David,

I am writing because my brother, [REDACTED] [REDACTED] is at the Whetstone yard of Tucson prison. He has had many medical issues over the years as a prisoner that have been poorly handled. Currently he has tested positive for Covid 19 and we are begging to have answers as issues pop up. Last night he was taken to the hospital because of a reoccurring fever over the past few days and we were told that if this happened we would be notified. That did not happen. My brother has been sick since 22 July and we would expect to have some type of correspondence because he is being released on the fifth of August. As we understand his oxygen saturation was only 90% which is a typical for him, he is always near or at 100%. He told me that he has been gasping for air and when he gets filled with IV fluids he is OK for a short short short term. But it comes back full circle. I am writing to you because our concern is that we are not getting the notifications we should be getting, as promised. My mother was hysterically crying to the correction officers yesterday over the phone asking for answers. This is a life or death situation, we do not take it lightly.

I would appreciate your assistance on this matter as it should be mandatory to be notified, not just in regards to my brother, but all prisoners if there are medical related concerns. This can't be life or death or an inmate, I beg you to put your family in the situation, it's disheartening to hear and know that no one has been notified of these serious health issues.

Warm Regards,

®

Subject: 7-31-20 ADHS COVID-19 MEMO
Date: Saturday, August 1, 2020 8:53:15 AM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the most salient COVID-19 issues that the Department is currently addressing:

- To date, over 32 million pieces of PPE has been distributed by the State to county and tribal public health partners for further distribution to healthcare facilities and first response agencies.
- CDC has recently updated their guidance for people who are sick with COVID-19. Those with COVID-19 should stay home and away from others until at least 10 days have passed since symptoms first appeared (20 days for those who are severely ill or immunocompromised), AND they have been fever-free for 24 hours without medication, AND other symptoms have improved. A handout about this information is available [here](#).
- Free masks are still available for vulnerable populations to [order](#). Each order will provide 5 reusable cloth face coverings.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Lastly, here are some social media posts that you may find useful to disseminate to your constituents:

- <https://twitter.com/AZDHS/status/1289259538747596800?s=20>
- <https://twitter.com/AZDHS/status/1289259787339862024?s=20>

Thank you for your investment in helping Arizona address COVID-19 in Arizona.

Rick Hazelton
Chief Legislative Liaison
Arizona Department of Health Services

Good afternoon Larry,

Dr. Orm and I spoke to Dave Garcia and have additional insight into how a large lab operates which was very informative and helpful. Garcia lab has a total capacity to process 9000 COVID tests per week for all their clients across the country. In addition to Arizona, Florida, Texas and Michigan have seen spikes in cases and are increasing testing of their inmate populations.

Garcia Labs has allocated and guaranteed one-third of their COVID testing capacity to Arizona. Based on this allocation we can expect to see a 3-5 day test result turnaround regardless of other client requests for testing. This is a fluid situation and as other clients gear down COVID testing there potentially could be additional bandwidth for Arizona to test more per week. Unfortunately, at this time we are capped at 3000 tests per week. We'll monitor closely and if anything changes we'll notify you immediately.

This week we overloaded Garcia's capacity with the amount of tests we sent them. We sent them approximately 110 COVID tests from Eyman, 993 tests from Tucson in addition to the 3000 surge testing at Safford and Douglas. When this happens it delays the tests results to greater than the three to five day turnaround. As you know, this delays decisions on care, cohorting and compartmentalizing. The good news is they are going to be able to catch up this weekend so we are back on track Monday to the three to five day turnaround for results. From what I understand, these turnaround times are better than we are seeing in the community in many cases.

Let us know if you have any questions or concerns.

Respectfully,

Tom

Arizona Department of Corrections
Rehabilitation and Reentry
Prison Operations
Memorandum

To: Lance Hetmer, Assistant Director, Prison Operations
From: Ed Lao, Security Operations Administrator
Date: July 27, 2020
Subject: ADCRR Workforce COVID-19 Saliva Testing

Overview:

ADCRR will be offering to all of its employees the opportunity to undergo the COVID-19 Saliva testing. This service is being offered as an employee benefit to all ADCRR staff. The testing sites will be hosted at each ADCRR Prison Complex. The testing will require staff to provide a minimum of 2 milliliters of saliva. The saliva collection will be facilitated by ADCRR staff trained in the specimen collection process.

Objective:

Afford all ADCRR the opportunity to participate in the COVID- 19 Saliva testing.

Testing Site Personnel Roles

A. The Complex Warden shall select a centralized specimen collection site. This location must have network connectivity and adequate floor area to allow the implementation of CDC guidelines on social distancing protocols.

The Complex Warden shall also ensure that the appropriate amount of personal protective equipment (n95, gloves, gowns, face shield etc.) is staged the week prior to the scheduled site testing.

B. The Complex Occupational Safety Consultant shall be designated as the Safety Officer during this process. Their responsibility will be to manage and direct staff before, during, and after the specimen collection to the established location and egress ingress locations and ensure social distancing and PPE protocols are adhered.

C. The Occupational Health Nurse shall oversee, supervise, assist, and manage the specimen collection. They will directly inspect all samples collected to ensure they are correctly sealed and packed into the specimen coolers to maintain the correct temperature. The occupational health nurse shall also monitor and enforce PPE use of all ADCRR staff in charge of saliva collection.

D. ADCRR Specimen Collection Staff shall be responsible for processing the staff that are participating in the test. They will be responsible for scanning the QR Code, collecting the sample, linking the sample vial with the correct employee account and securely packing the specimens in the cooler.

ADCRR staff designated to collect samples must have undergone the required ASU COVID Saliva Collection Training (Training Information to follow).

E. Specimen Courier shall be responsible for the secure packaging and transportation of the specimen to the ASU Bio-design testing laboratory at the end of the collection day unless determined otherwise. The specimen courier shall be responsible for maintaining the chain of custody for the specimens from the time they are removed from the collection site and transported to the laboratory.

The laboratory is located at:

Bio-design Institute Building A
S. McAllister Avenue
Tempe Arizona 85281

The courier adhere to all applicable traffic laws and shall not make any stops whatsoever during the transport of the samples unless ordered by law enforcement.

The primary courier service is:
Kary Environmental Services Courier (KES)
George Schweidereick –Project Manager
(480) 330 6587

If specimen samples are transported by ADCRR. Staff designated to transport the specimens must have completed ADCRR’s Communicable Diseases and Haz-Mat CBT Training.

- F. The Unit Shift Commander shall coordinate the post relief of their staff to allow them to participate in the testing and proceed to the designated complex collection site.
- G. The Complex Shift Commander shall be responsible for staging and coordinating the transport employees to and from the specimen collection site. The complex shift commander shall continuously communicate with the testing site coordinator (OSC) to ensure efficient staging and use of all collection stations without compromising social distancing protocols.
- H. Information Technology shall be responsible for configuring the specialized scanners and laptop computers that will be utilized for this operation. They shall also verify network connectivity prior to the testing date.

Collection Site Operational Process

The employee shall be requested to produce a saliva sample between 2 to 3 milliliters and deposit it in the testing vial using the straw provided. Staff participating in the testing must not eat 30 minutes prior and should not use lip gloss, lip balm, lipstick to avoid contaminating the sample. Once the correct sample is deposited in the vial, the specimen should be sealed turned over to the staff collection site personnel.

The collection site team shall scan the barcode on the vial and link it with the correct donor and pack it into the specimen cooler to maintain the correct temperature.

Employee Testing Process

Employees that wish to participate with the testing must pre-register through the ASU testing portal and create an account. The registration process will ask for an agency code. ADCRR's agency code is: fi2i4gmh

https://asubioempportal.pointnclick.com/login_login.aspx

Upon the completion of registration process, the employee will receive a QR Code that they will need to bring with them to the designated complex testing location. This code will be scanned at the testing site to authenticate the identity of the staff and correctly link the specimen vial and sample for tracking.

Employees that are going to participate with the COVID 19 saliva testing must at their option complete a HIPAA to release the results to ADCRR. This form shall be forwarded to the Occupational Health Nurse at the testing site.

Once testing is completed, the employee shall exit the testing site and proceed to the testing staging area and return back to their unit and repost.

Transportation

The Complex Major shall coordinate and supply all the transportation assets required for the operational periods identified for testing dates. The Complex Shift Commander will coordinate the transportation of staff to be tested.

To minimize staff congregation at the testing site, the Complex Shift Commander will continuously communicate with the Occupational Safety Consultant posted at the collection site to control and stage the flow and transportation of staff that need to be shuttled to the testing location.

Subject: Re: Thank you

Mary,

Thank you and each of the VIP participants for the conversation as well. Most importantly, thank you for your trust in sharing both positive and negative experiences from your congregations. One of our Department's primary goals is to engage those in our custody to find value in changing the trajectory of their lives by encouraging their participation in learning and treatment opportunities which prepare them for successful reentry into our communities. While we recognize participation or change can not be forced, we can provide an environment in which change is encouraged and supported by both our employees and by offenders who are actively engaged in change and are able to share the value from the unique peer perspective that our employees do not possess. For us to achieve maximum effectiveness in this area, we need to understand the positive and negative experiences of those in our custody and care and the external perspective from those who are supportive. This is why we so value trust and open communication which allows us to learn and grow from our successes and challenges.

Additionally, we appreciate your advocacy and support for additional testing resources. As discussed yesterday, we have shared this request with our DHS partners and are working with

them to identify additional resources to enhance the volume and speed of testing. I am confident that together we will find a way to achieve greater testing efficacy. Also as we spoke of yesterday, we are establishing procedures for offenders to report retaliation or reprisal after a compliant or grievance has been submitted and will advise the group and our offender population once those procedures are ready for implementation.

Lastly, my sincere thanks to you and each member of the group for your care and prayers for [REDACTED]. The power of prayer is a valued comfort for [REDACTED].

Kindest Regards - Dave

Director Shinn,

We appreciated the conversation today. It is good to hear that there is now a call number and tablet access to report any kind of retaliation, retribution or concerns from the inmates to the appropriate channels. We also welcome the drop of payment for any inmate medical visit. These are important.

The mobilization of universal PCR testing for all inmates and employees is moving in the right direction. We both know that the speed of testing needs to be tripled to mount a testing blitz. It is the right thing to do. Please let us know once you have requested such from AZ Dept of Health Services, and then we will work quickly to support the request on many levels. We will also continue to coordinate with Director Fuentes.

As always, we will share the stories from our congregations families, positive and negative.

Please know that we are so sorry to hear [REDACTED] is not well. I have added [REDACTED] into our community's prayers of the faithful, and I know the other faith communities have done so, as well. Being ill during this covid time creates a level of anxiety and fear that just adds to the uncertainty. No one can escape the impact of Covid-19 unfortunately.

Sincerely,

Mary Permoda

[HIPAA Release Form.pdf](#)

COVID-19 ANTIBODY TESTING

WHAT: ADCRR is offering COVID-19 Antibody (Serology) on-site testing **to all Central Offices (1645, 1601, 1831 and 801) employees and contract staff.**

The testing is being offered free of charge and **will take place on-site in the lobby of the 1645 building.** It will require staff to provide a blood specimen. The blood draw is being performed by Sonora Quest Laboratories and will take about 5-10 minutes. An antibody test will identify those who have had exposure to the virus, and those who have developed antibodies. **Every employee and contract employee is encouraged to get tested.** Please see important details below for more information.

WHEN: **Tuesday, August 4 from 7am – 3pm**
Thursday, August 6 from 8am – 3pm

WHERE: On-site in the lobby of the 1645 building.

ADDITIONAL INFORMATION:

- Please arrive during the hours noted above for testing.
- Fill out the **ATTACHED test forms**. You must bring them with you.
Full name, date of birth, gender and home address are REQUIRED
- As mandated, please wear your face covering before, during and after the test and follow the social distancing guidelines.

Employees will be able to access their test results on our website here: <https://www.sonoraquest.com/login/>

Contact Lynne Hilliard, ADCRR Ombudsman, with any additional questions or concerns you may have at lhilliard@azadc.gov or 602-542-1069.

Dear Mr. Shinn,

My name is Mitch, and I am with Wave Wholesale Supply. As a new member of NCIA, I wanted to take this opportunity to explore possibilities to save money for your operation by supplying factory-direct personal protective equipment (PPE). Our products such as disposable face masks, and gloves sell well on Amazon. We can offer the same products to you at half the price as indicated from the attached price sheet. We can do so through leveraging our close relationship with our manufacturers, and expertise in logistics. Our company has been making eyeglass frames for the North America Market for over 25 years, primarily in the form of private label. We have used our strength in manufacturing and importing to develop our PPE line after concerted efforts during the last six months. Both our eyeglass frames and PPE products are manufactured with a high standard of quality control, thus representing best values. We will be participating in future shows at NCIA shows and I look forward to meeting you in person. Before then, I would highly appreciate if you could kindly consider us for any bidding opportunity to provide a reliable, yet low-cost option to meet the need for quality PPE for your organization and other departments of your great state.

Best regards,

Mitch Wright

It is prudent to reiterate that you dropped the co-pays in March 2020 and utility charges in April 2020, not just now. In addition the call-in line referenced is in development versus in-place. If the perception of VIP is it's currently active and later determined by them not to be, it will degrade the momentum and goodwill established thus far.

I spoke to Jessica at DHS last night regarding the speed/rate of testing referenced and engagement by VIP with DHS on that subject. Jessica made a point in expressing that the operational speed/rate of testing is not determined by DHS rather ADC. DHS has no opposition to ADC increasing the speed/rate of testing and will support any way they can to include adding additional lab capacity should it be necessary, but DHS is not in control of the test schedule.

Date: Wednesday, July 29, 2020 7:32:05 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the most salient COVID-19 issues that the Department is currently addressing:

- ADHS has made additional ASU saliva testing available in Tucson three days a week. Registration information for ASU testing sites is available [here](#). We are coordinating with other counties to offer additional ASU testing locations throughout the state.
- ADHS continues to provide guidance and information to Arizonans about COVID-19 risks. Two versions of our infographic categorizing activities by potential risk are posted on our [What Everyone Needs to Do](#) webpage. ([gradient](#) | [categories](#))
- Executive Order 2020-48 ordered hospitals to provide more specific data to ADHS about hospitalized COVID-19 cases. Data from this reporting mechanism has now been integrated into our surveillance system and will be reflected on the Hospitalizations section of the [ADHS Data Dashboard](#) moving forward. This new reporting stream will provide a more complete picture of hospitalized cases and their demographics.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Thank you for your investment in helping Arizona address COVID-19 in Arizona.

Keith,

It was made clear to your local team sometime ago (7/8/2020) that ADCRR was not going to authorize the engagement in research with those in our charge

Based on the below ask by Centurion of Az DHS, seemingly, your client's (ADCRR's) clear expression was of little or no value to your local team

Vendor/Client relationships matter - this is not new behavior by Centurion, nor is it a positive expression of how Centurion values ADCRR

ADCRR will not endorse, nor standby while Centurion disregards an ADCRR decision and seeks endorsement from a Sister Agency to engage in research through their contractual relationship with ADCRR of the population

Subject: Letter of Support for COVID testing in ADCRR with Centurion

To: Kenneth Komatsu <ken.komatsu@azdhs.gov>

Hi Ken,

Sorry it took so long to get you the AIMS for RADx-Up grant application. The researchers ask if you could use the template that is attached to generate that letter of support. If you have any questions or concerns about this please don't hesitate to contact me to discuss.

Johnny Wu, MD FACP FACC P CCHP-P CCHP-A

Subject: 7-28-20 ADHS COVID-19 MEMO
Date: Tuesday, July 28, 2020 7:22:32 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the most salient COVID-19 issues that the Department is currently addressing:

- Over 30 millions pieces of PPE and related items have been distributed from the ADHS warehouse to county and tribal partners, who further distribute these items to healthcare and first response partners. Additional items are on order and in transit to our warehouse including gloves, masks, and gowns.
- Federal surge sites operating in Maryvale and South Mountain concluded today, with just over 15,000 people tested. ADHS and DEMA are working with partners outside of Maricopa County to expand these surge testing opportunities to other areas of the state. These sites are currently in the planning stages and will be announced within the next week.
- The [ADHS Data Dashboard](#) shows a continued decrease in the number of hospitalized patients in both the ICU and the medical surgical units reported by Arizona hospitals (see Hospital COVID-19 Specific Metrics section). ADHS continues to work with both hospital and post acute care partners to support healthcare system needs in the state.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Lastly, here are some social media posts that you may find useful to disseminate to your constituents:

- <https://twitter.com/AZDHS/status/1288172372906913793?s=20>

Thank you for your investment in helping Arizona address COVID-19 in Arizona.

Rick Hazelton

Subject: 7-27-20 ADHS COVID-19 MEMO
Date: Monday, July 27, 2020 6:52:29 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the most salient COVID-19 issues that the Department is currently addressing:

- Multiple partners report data to ADHS, which is updated on our [Data Dashboard](#). Recent data shows some modest improvements in COVID-19 transmission and healthcare usage. Arizonans are encouraged to continue to [do their part](#) to slow the spread of COVID-19 including wearing a mask and maintaining physical distance when out in public.
- Tomorrow is the last day for free COVID-19 testing offered at the [federal surge testing sites](#) in Maryvale and South Mountain. Individuals do not need to be pre-registered to be tested. DEMA and ADHS are working with our federal and local partners to identify future opportunities for additional surge testing sites. The most up to date list of all testing sites that have registered to be listed on ADHS' website is available [here](#).
- Last week, ADHS signed contracts with three skilled nursing facilities to provide care for COVID-19 patients who still need isolation due to illness but no longer need inpatient acute care at a hospital. Today, we began working with facilities through the Arizona Surge Line to discharge patients into these beds. We continue to negotiate contracts to add additional post-acute care beds into the system.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Saffrod Graham inmate testing is complete with a total of 584 tested, with no refusals

Both Tonto and Graham Units are now utilizing the compartmentalization plan for all movement pending the test results

Tomorrow they will be testing Ft Grant starting at 0800, at the completion Ft Grant will be in full compartmentalization plan for all inmate unit movement

The Centurion and ADCRR Staff pulled together today and did an amazing job!

Outstanding job Warden, thank you

On Mon, Jul 27, 2020 at 9:09 AM Staci Ibarra <sibarra@azadc.gov> wrote:
Testing began at Tonto Unit at 0800 hours

1st Building completed with 141 Inmates tested, no refusals at 0847 hours

The testing site was sanitized

2nd Building began 0900 and testing is ongoing, almost 1/2 way done

We have 4 more runs, approximately 80 - 100 inmates left and Tonto will be done, 0908am

Tonto will be utilizing the compartmentalization plan until test results come back

Once Tonto is done, Graham will stage inmates, and the team will move to Graham, where it's set up and ready to go

Thank you,

Frank-

I am just giving you an FYI heads up. This offender, in addition to having Covid, is Seriously Mentally Ill (SMI) and homeless. He has an AHCCHS case manager in Tucson but she isn't available until tomorrow and currently says she does not have a placement for him.

Paul's shop is reaching out to Derleen to get a contact at Health Services to see if there is a facility where they are housing homeless people with Covid.

ADC: [REDACTED] Name: [REDACTED]

Alhambra - This inmate is to be transported to Community Corrections 801 Building. Please schedule your arrival for 10:00 AM. Upon arrival, one transport officer should go inside to the lobby to alert the desk officer of their arrival, at which point Community Corrections staff will come out to meet with the inmate. Do **not** bring the inmate inside the lobby. Once Community Corrections comes out to meet with the inmate, your transport officers may return.

Please also ensure that the following is completed:

Your FHA should make notification of release to County and State Health Agencies, this should include AZDHS. If they have any questions or concerns about who to reach out to, have them contact the FHA at ASPC-Lewis as they have had a couple of these already.

While it is standard procedure already for all releases, please ensure that the inmate is given a minimum of two masks upon release.

Date: Monday, July 27, 2020 9:37:58 AM

Sir, please see below... Tom is willing to provide a detailed list of obstacles that are due to social distancing issues related to facility logistics...

We are on our last 50 at Tonto then going to Graham, which was supposed to be Tuesday. They are doing extremely well. Very organized process. Thank Lance's team for us.

Larry,
Yes, I confirmed with Dr. Orm that we are following updated CDC interim guidelines to the best of our ability.
Thank you,
Tom

Tom,

Will you please acknowledge the below testing guidelines by the CDC. Please verify as Joe has asked that we are in fact abiding by these new measures as stipulated by Jessica Rigler?

**Updated Testing Guidance for Correctional Facilities
Now Available**

On July 7, CDC updated interim considerations for [testing in correctional and detention facilities to plan, prepare, and respond](#) to COVID-19. Testing to diagnose COVID-19 is one component of a comprehensive strategy and should be used in conjunction with a number of other prevention and mitigation activities described in the [Interim Guidance on Management of Coronavirus Disease 2019 \(COVID-19\) in Correctional and Detention Facilities](#).

Thank you, Larry

Larry,

These are the guidelines I was referencing. Director wants affirmation that ADCRR/Centurion are in compliance. Please review and advise through vendor engagement. Director is likely to want a meeting today to go over and affirm.

Please have the vendor affirm their compliance with a level of urgency commensurate with this timeline.

Thank you,

Joe

Subject: 7-24-20 ADHS COVID-19 MEMO
Date: Friday, July 24, 2020 7:32:59 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the most salient COVID-19 issues that the Department is currently addressing:

- ADHS continues to work with local health departments and education partners to discuss guidance and best practices for schools. Pursuant to [Executive Order 2020-51](#), ADHS will be releasing benchmarks by August 7 to guide decisions around in-person instruction.
- ADHS works with DEMA, National Guard, and local partners to provide information and resources for testing sites. We've recently posted guidance for partners interested in [setting up a COVID-19 testing site](#).
- As private laboratories work through a backlog of tests, we expect we may see a higher number of cases reported out daily for the next several days. To get a better picture of disease spread in the state over time, we refer to the Confirmed Cases by Day section of our [Data Dashboard](#), which displays cases by the date their specimen was collected. Percent positivity on the Laboratory Testing section of our dashboard shows percent positivity by week based on the week of specimen collection at the bottom of the dashboard, which provides a measure of community spread during a given time period.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Lastly, here are some social media posts that you may find useful to disseminate to your constituents:

- <https://twitter.com/AZDHS/status/1286753020039114752?s=20>
-

<https://twitter.com/AZDHS/status/1286753269839208449?s=20>

Thank you for your investment in helping Arizona address COVID-19 in Arizona.

Target testing/ Point prevalence testing.

Test all intakes at reception and quarantine for 14 days. Test all offenders going on medical furloughs to outside hospitals.

When testing large groups ensure you have the capacity and resources to manage results; space for quarantine and isolation, medical personnel to check vitals, and mask for all offenders and staff.

We test ALL symptomatic AICs and also selected asymptomatic AICs as part of a contact investigation. We also try to honor asymptomatic AIC requests for COVID-19 testing based on the assumption that not all AICs are able to articulate symptoms in a traditional manner thru symptom interviews. However, mass testing, with its inherent and substantial false negative rate in asymptomatic patients, is not able to accurately assess all patients.

Director Shinn,

I'm following up and adding selected directors for visibility as well.

Again, I believe the Power Breezer systems could increase inmate and employee safety & health, while reducing the labor and time to disinfect areas of the various facilities. In my initial email below, and embedded in the attached information brochure, I provided links to the North Carolina Division of Prisons (procurement of 256 systems).

The implementation of Power Breezer systems in the AZ public school system has started, with a good video from Phoenix Fox 10 below.

I stand by for any questions, and we have direct access to the production line, with lead times at present of 10-14 days.

<https://www.fox10phoenix.com/news/southern-arizona-school-district-using-new-tool-to-keep-students-teachers-safe-during-covid-19-pandemic>

[Southern Arizona school district using to keep students, teachers safe during pandemic](https://www.fox10phoenix.com/news/southern-arizona-school-district-using-new-tool-to-keep-students-teachers-safe-during-covid-19-pandemic)

As the countdown to another school year begins, one school district in Southern Arizona is using a new way to keep classrooms safe during the COVID-19 pandemic.

Sent: Tuesday, July 14, 2020 4:06 PM
To: dshinn@azadc.gov <dshinn@azadc.gov>
Subject: Large facility disinfecting for ADCRR consideration

Director Shinn,

I heard your interview on KTAR a few days ago, and having had sparse luck reaching the appropriate staff at the facilities and at Central, I hesitatingly reach directly to you with what I think should be considered by the Department as a significantly enabling augmentation to the current disinfecting protocols at the facilities.

Laminar is a local Phoenix distributor for Power Breezer misting fan systems; the production line in Charlotte, NC has quintupled output since February. As a data point, the North Carolina Department of Public Safety / Division of Prisons procured 256 systems (each is roughly \$6000) and continues to expand their use. I've included web references below.

I hoped you could direct me to arrange a meeting either in-person masked, or via Zoom, and we can gladly provide a live demonstration. We are also talking with the unified school districts, and have a partner in a national janitorial firm if requested to perform the daily/recurring work via a subcontract.

Short videos from the NC Dept of Public Safety are below. I've attached a 2-page summary of the system.

Power Breezer Large Area Coronavirus Disinfecting Supporting a Safe Reopening

Laminar Technical Solutions LLC is a Phoenix-based veteran-owned business committed to helping local governments, schools, and businesses safely reopen. Among other services, we are a distributor in the Valley of the industrial-sized Power Breezer misting system, which continues to be widely used for disinfecting large areas. The Power Breezer can augment other existing cleaning protocols and ease the laborious and repeated processes of thorough disinfecting. Leaders can thus assure their customers and employees that they are exercising the utmost due diligence in reopening.

The **Power Breezer** incorporates an Environmental Protection Agency (EPA)-registered coronavirus disinfectant into an industrial mechanical spraying device which, when used properly together, comply with Center for Disease Control (CDC) guidelines for cleaning and disinfecting. References to the EPA and CDC sites are listed on the following page. The misting fan system has also passed military standard testing in accordance with MIL-STD-810G, *Environmental Engineering Considerations & Lab Tests*.

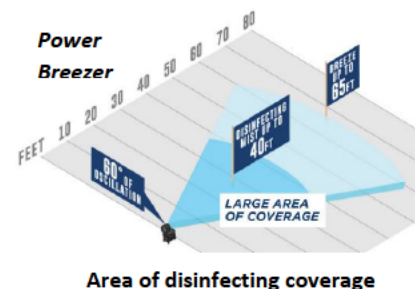

Find more about the system and Covid-19 applications at <http://landing.powerbreezer.com/covid-19/>.

Most of us are careful to emerge from various degrees of isolation, even as governments are declaring it authorized to do so. Instilling confidence in a thorough cleaning protocol is a critical component of bringing customers, students, and workers back in, be it to schools, public transportation, office buildings, movie theaters, casinos, hotels, restaurants, shopping malls, and more. The Power Breezer is already a central capability in those protocols in schools and public safety, as conveyed in these references.

Arizona schools: <https://www.fox13news.com/news/school-district-using-power-fans-with-disinfecting-mist-to-combat-covid-19>

North Carolina Department of Public Safety: <https://www.wral.com/coronavirus/nc-inmates-helping-protect-prison-staff-from-coronavirus/19097169/>, and video <https://youtu.be/bpdniQU1Byk>

The Power Breezer was originally designed as an evaporative cooling system. Since the onset of the pandemic, it has been repurposed for disinfecting larger public spaces. It leverages the characteristics and reach of the fine mist, and adds to the water a proper mix of one of several EPA-registered active ingredients for SARS-CoV-2; we typically choose Maquat 7.5-M, EPA registration #10324-81. The atomizer system can oscillate in a 60-degree arc, laying the moist disinfectant layer on surfaces out to about 40 feet, at 14,000 cubic feet per minute (cfm.) The harmless moisture layer evaporates within minutes, and wiping is not required. Large spaces (e.g. over 10,000 sq ft) are accommodated by repositioning the fans and/or teaming multiple Breezers.

Laminar Technical Solutions LLC is Veteran-Owned

Phoenix, AZ 85022 - (256) 647-3477 - Rob.Willis@LaminarTechSolutions.com

The system is easily wheeled by one person, and operators can also aim the mist into smaller spaces with an optional Ducting Kit, shown below.

Cleaning Breezer with optional Ducting Kit

Ducting kit reaches hard to cool spaces

System specifications. We offer the system with an 85-gallon tank, 14,000 cubic feet per minute (CFM) dispense rate, and with a US-standard 110VAC power system. Orders can include an initial supply of the EPA-registered COVID-19 disinfectant, or customers may purchase their own EPA-registered disinfectant. Laminar Technical Solutions LLC arranges for shipping, delivery, and on-site training.

Approximate Misting Duration for Size			
Square footage	# of Breezer fans	Approx. spraying time	Drying time
1,500	1	30 min	10 min
	2	15 min	
6,000	1	2 hrs	
	2	1 hr	
	4	30 min	
20,000	1	6 hrs	
	2	3 hrs	
	4	1.5 hrs	

Exact spraying duration depends on a number of factors. We work with customers to tailor the application to their spaces.

The spray time required to establish a disinfecting moisture layer on surfaces depends on factors including room square footage, ceiling height, furniture density, room humidity, number of fans, fan repositioning, and other factors. Rough estimates for varying numbers of Power Breezers in low humidity are presented below. The disinfectant layer evaporates within 10 minutes of fan shutoff; it does not require wiping, and does not damage keyboards or standard electronics.

Pricing	
Base Items	Cost
Cleaning Breeze Fan System, 85 gal tank, 14,000 cfm output, tax, and 2-year full warranty	\$5,500
Shipping, varies by destination (cross-US ~\$450)	~\$450
Options	
EPA-registered disinfectant, 4 gallons (100 hours)	\$320
10 ft Ducting Kit	\$599
Extended 3rd year warranty	\$320
Contact Laminar Technical Solutions LLC for Phoenix/Valley detailed pricing and quantity discounts	

Disinfection guidance is provided by the manufacturer of the disinfectant, the EPA and the CDC. Beyond the parts warranty, Laminar Technical Solutions LLC and Power Breezer cannot *warranty* the effectiveness of the Power Breezer system against COVID-19. The use of the Power Breezer with disinfectants must follow the EPA and CDC guidelines, as well as the EPA-registered disinfectant's label for use in misting applications. Risks related to effectivity, efficacy, or harm to people or equipment are assumed by the user. Certain Power Breezer parts have not been tested for *extended* use with disinfectants. These parts may be affected by the use of disinfectants and consequently may not be covered by the standard warranty.

The list of EPA-approved disinfectants is at <https://www.epa.gov/pesticide-registration/list-n-disinfectants-use-against-sars-cov-2>.

The CDC procedural guidelines for cleaning and disinfecting are at <https://www.cdc.gov/coronavirus/2019-ncov/community/disinfecting-building-facility.html>.

Gentleman,

I had other communication prior to the contract, even in texts of Centurion's commitment to this testing initiative, but I wanted to ensure that you had something more clear after today's conference call on this matter. Sorry for the delay. Larry

Hi Larry,

Yes, that is correct. Garcia can only process 3000 tests per week.

Thank you,

Tom

Subject: Garcia testing commitments.

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Tom to confirm our communication regarding the availability of tests by Garcia, they stated that they would be unable to supply the original match of approximately 4000-5000 per week due to the nature of our current testing at intake and initiative forthcoming regarding Re-entry testing. This was understandable.

In order to properly lay out the plan for Lance's group I just need to confirm for the Director that Garcia will be able to supply 3000 tests weekly for our mass testing initiative.

Thank you, Larry

Larry L. Gann Jr. RN, MSN, MHA, BBA, CCHP

Subject: 7-23-20 ADHS COVID-19 MEMO
Date: Thursday, July 23, 2020 8:13:19 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the most salient COVID-19 issues that the Department is currently addressing:

- Today, Dr. Christ joined Governor Ducey, Superintendent Hoffman, and Major General McGuire at a press conference to [provide updates](#) on the state's COVID-19 response.
- An executive order ([E.O. 2020-52](#)) signed by Governor Ducey today extended the pause on operations for bars, indoor fitness centers, indoor movie theaters, water parks, and tubing operators. This order will be reviewed every two weeks for repeal or revision. Related to gyms, the ADHS website now has the [requirements for gyms](#) and the [attestation form](#) they must complete to reopen, when reopening is allowed.
- Over 44,000 masks have been distributed through the State's free mask distribution program. Arizonans over the age of 65 or those with underlying medical conditions can visit [azhealth.gov/OrderMasks](#) to place an order for free cloth face coverings .

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Lastly, here are some social media posts that you may find useful to disseminate to your constituents:

- <https://twitter.com/AZDHS/status/1285998048959700993?s=20>
- <https://twitter.com/AZDHS/status/1285998294724993024?s=20>

Thank you for your investment in helping Arizona address COVID-19 in Arizona.

Director:

The below and attached information is self-explanatory. If I understand it correctly, Ms. Headstream was contacted, but was out of office. The number she left on her voicemail for people to contact as an alternative was not a working number. And so it went, as explained below. In the meantime, [REDACTED] [REDACTED] has continued to suffer without his medications.

Please note in the information provided below that the last time [REDACTED] mother intervened on her son's behalf, there was retaliation by the FHA. This will not be tolerated and should not even have to be warned against.

This issue requires IMMEDIATE attention without waiting for Ms. Headstream to return to the office.

Again, sadly, I feel compelled to include media and legislative distribution with this email in order to provide a measure of insurance that the inmate will not suffer retaliation for merely expected his prescribed medications to be renewed in a timely manner.

Subject: [REDACTED] Winchester

Donna,

I have nowhere else to turn but you. The abuse with [REDACTED] pain meds for his failed back has continued. Last week they let his meds run out for the umpteenth time sending him into withdrawal. He threw out his back while vomiting and he can barely move now. He said the pain is so deep at the site of his [REDACTED] that he is only able to take a shower and get

back into the fetal position.

I was able to write Vanessa Headstream, CRN, CCHP, LNCC, Health Services Contract Monitoring Bureau last week and she contacted his unit to reinstate his meds. I was informed by Mary Fuller that she is out for the week.

1. I sent an email at 12:41 PM to Vanessa Headstream, CRN, CCHP, LNCC, Health Services Contract Monitoring Bureau
2. I received an OUT OF OFFICE response back saying to contact Mark Haldane - she gave a number no longer in service.
3. I called Constituent Service and left a message.
4. I called Centurion Friends & Family and left a message for Frank.
5. I also sent a copy of my email to Venessa Headstream onto Frank at Centurion Friends & Family
6. I called Medical Services Contract Monitoring and received a call back from Mary Fuller. She said she'd send a message to Frank at Friend & Family but I told her that he doesn't return calls for days.
7. I was able to get the correct number for Mark Haldane from Mary Fuller so I left a message on his voicemail. No Response back.
8. I sent another email at 2:43 PM to Vanessa Headstream marked URGENT asking for another contact.

██████ is in the same situation as he was when you and James were battling his care back in 2014. His opiate medication was restored when the court accepted the 1983 Civil Suit against Corizon case with ██████████ but meds were restored at a much lesser dose.

If Ms. Headstream handles this, ████████ would have to wait until next Monday. That is simply unfair and unconstitutional. PAIN MANAGEMENT is a constitutional right. The last time I advocated on ████████ behalf Benjamin Schmid, Facility Health Administrator, retaliated by sending ████████ for a surprise epidural knowing full well that the previous 4 they subjected him to actually worsened his condition. I live in fear that they'll do something like that again.

████████████████████

Dear Ms. Headstream

You assisted us when my son's medication ran out 7/8 and 7/12 which resulted in [REDACTED] suffering severe withdrawal. He threw is back out while puking and he hasn't been able to eat or sleep since. He is in agonizing pain and I am pleading for your assistance again.

[REDACTED] filed an HNR on 7-8-20 and it was returned marked Provider Review, but he has yet to see the provider. We know that you are operating in crisis mode right now with the pandemic but [REDACTED] needs help. As it is, the pain medication he is receiving, which is limited in benefit, is being delayed or given later than usual which only adds to his pain level. Yesterday he was administered his PM dose at 4:00PM and his AM does today at 8:00AM. The evening dosing only lasts until about 10PM so by 8:00AM he's in agony and acute withdrawal. [REDACTED] has been confined and unable to walk regularly since the new Director changed his unit to 22-hour lockdown in November 2019 - it was not for disciplinary reasons - and now he is confined 23 hours daily since the Winchester quarantine. So, after the puking and throwing his back out along with the lack of walking and added pounds, he has no core strength any longer and his pain is off the charts.

[REDACTED] was managing his pain in 2013 with a low-cost low-dose morphine regime administered early AM, midday, early evening and 8:00PM. I asked you in my previous email if it would be possible for [REDACTED] to pay for Kadian 24-hour extended release so he could resume some level of pain relief. It would only require one dose a day. [REDACTED] condition has grown far worse since 2013 and yet his medication has been reduced and he's suffering miserably.

If you cannot provide Kadian is there another effective extended release option which hasn't already proven unsuccessful in [REDACTED] medical records.

Would you please call me as soon as possible?

Sincerely,

[REDACTED]

[REDACTED]

07/08/20 HNR [REDACTED] # [REDACTED]

Can you please refill my medication that expires on 7-28-20 and possibly increase dosage to what Bridget Barron, PA requested at off-site appointment on 12-5-18 and on 8-20-19 (see attached). I understand it is a recommendation, but your company sent me to see her for her recommendation, which took 10 years for appointment. I am unable to sleep through the night due to excruciating intractable pain. Thank you.

Review of your son's pharmacy record reflects that prescription morphine sulfate 30mg (immediate release) expired on 07/08/2020 and morphine sulphate 30mg (extended release) expired on 07/12/2020. The medications could not be administered by nursing without a valid, active order. The medications were re-ordered this morning and are valid through 10/10/2020. I will be contacting the complex administration regarding obtaining the ordered medications.

Respectfully,

Dear Ms. Headstream,

My son [REDACTED] is prescribed low-dose morphine sulfate for [REDACTED]. He was not administered his AM dosing for the last two mornings and was instead given Tylenol 3 which is by no means the equivalent dosing. He spent all day yesterday puking and in excruciating pain. Today will again be the same situation. As it is, he is administered his PM meds between 4-5 pm and has to go almost 15 hours daily before the next dosing so he's already suffering by the time his AM meds are administered. I have pleaded to pay for Kadian which is formulated to provide 24 hour coverage and would only require (1) dose a day but have been told I cannot. Can he be charged for it instead?

[REDACTED] prescription was renewed through 7/28/20. Would you kindly provide assistance and help get this sorted out. Please don't hesitate to call me anytime.

Thank you very much.

3. The Offeror has not given, offered to give, nor intends to give at any time hereafter any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor, or service to a public servant in connection with the submitted offer. Failure to provide a valid signature affirming the stipulations required by this clause shall result in rejection of the offer. Signing the offer with a false statement shall void the offer, any resulting contract and may be subject to legal remedies provided by law.
4. The Offeror certifies that the above referenced organization **IS/ IS NOT** a small business with less than 100 employees or has gross revenues of \$4 million or less.

ACCEPTANCE OF OFFER

The Offer is hereby accepted.

The Contractor is now bound to sell the materials or services listed by the attached contract and based upon the solicitation, including all terms, conditions, specifications, amendments, etc., and the Contractor's Offer as accepted by the State.

This Contract shall henceforth be referred to as Contract No. **CTR050652**

The effective date of the Contract is upon signature by both parties.

The Contractor is cautioned not to commence any billable work or to provide any material or service under this contract until Contractor receives purchase order, contract release document or written notice to proceed.

State of Arizona
Awarded this 17th day of July 2020

Procurement Officer

UNIFORM TERMS AND CONDITIONS

CONTRACT NO: CTR050652

1. Definition of Terms

As used in this Solicitation and any resulting Contract, the terms listed below are defined as follows:

- 1.1. *"Attachment"* means any item the Solicitation requires the Offeror to submit as part of the Offer.
- 1.2. *"Contract"* means the combination of the Solicitation, including the Uniform and Special Instructions to Offerors, the Uniform and Special Terms and Conditions, and the Specifications and Statement of Scope of Work; the Offer and any Best and Final Offers; and any Solicitation Amendments or Contract Amendments.
- 1.3. *"Contract Amendment"* means a written document signed by the Procurement Officer that is issued for the purpose of making changes in the Contract.
- 1.4. *"Contractor"* means any person who has a Contract with the State.
- 1.5. *"Days"* means calendar days unless otherwise specified.
- 1.6. *"Exhibit"* means any item labeled as an Exhibit in the Solicitation or placed in the Exhibits section of the Solicitation.
- 1.7. *"Gratuity"* means a payment, loan, subscription, advance, deposit of money, services, or anything of more than nominal value, present or promised, unless consideration of substantially equal or greater value is received.
- 1.8. *"Materials"* means all property, including equipment, supplies, printing, insurance and leases of property but does not include land, a permanent interest in land or real property or leasing space.
- 1.9. *"Procurement Officer"* means the person, or his or her designee, duly authorized by the State to enter into and administer Contracts and make written determinations with respect to the Contract.
- 1.10. *"Services"* means the furnishing of labor, time or effort by a contractor or subcontractor which does not involve the delivery of a specific end product other than required reports and performance, but does not include employment agreements or collective bargaining agreements.
- 1.11. *"Subcontract"* means any Contract, express or implied, between the Contractor and another party or between a subcontractor and another party delegating or assigning, in whole or in part, the making or furnishing of any material or any service required for the performance of the Contract.
- 1.12. *"State"* means the State of Arizona and Department or Agency of the State that executes the Contract.
- 1.13. *"State Fiscal Year"* means the period beginning with July 1 and ending June 30.

2. Contract Interpretation

- 2.1. Arizona Law. The Arizona law applies to this Contract including, where applicable, the Uniform Commercial Code as adopted by the State of Arizona and the Arizona Procurement Code, Arizona Revised Statutes (A.R.S.) Title 41, Chapter 23, and its implementing rules, Arizona Administrative Code (A.A.C.) Title 2, Chapter 7.
- 2.2. Implied Contract Terms. Each provision of law and any terms required by law to be in this Contract are a part of this Contract as if fully stated in it.
- 2.3. Contract Order of Precedence. In the event of a conflict in the provisions of the Contract, as accepted by the State and as they may be amended, the following shall prevail in the order set forth below:
 - 2.3.1. Special Terms and Conditions;
 - 2.3.2. Uniform Terms and Conditions;

UNIFORM TERMS AND CONDITIONS
CONTRACT NO: CTR050652

- 2.3.3. Statement or Scope of Work;
 - 2.3.4. Specifications;
 - 2.3.5. Attachments;
 - 2.3.6. Exhibits; and
 - 2.3.7. Documents referenced or included in the Solicitation.
- 2.4. Relationship of Parties. The Contractor under this Contract is an independent Contractor. Neither party to this Contract shall be deemed to be the employee or agent of the other party to the Contract.
- 2.5. Severability. The provisions of this Contract are severable. Any term or condition deemed illegal or invalid shall not affect any other term or condition of the Contract.
- 2.6. No Parole Evidence. This Contract is intended by the parties as a final and complete expression of their agreement. No course of prior dealings between the parties and no usage of the trade shall supplement or explain any terms used in this document and no other understanding either oral or in writing shall be binding.
- 2.7. No Waiver. Either party's failure to insist on strict performance of any term or condition of the Contract shall not be deemed a waiver of that term or condition even if the party accepting or acquiescing in the nonconforming performance knows of the nature of the performance and fails to object to it.

3. Contract Administration and Operation

- 3.1. Records. Under A.R.S. § 35-214 and § 35-215, the Contractor shall retain and shall contractually require each subcontractor to retain all data and other "records" relating to the acquisition and performance of the Contract for a period of five years after the completion of the Contract. All records shall be subject to inspection and audit by the State at reasonable times. Upon request, the Contractor shall produce a legible copy of any or all such records.
- 3.2. Non-Discrimination. The Contractor shall comply with State Executive Order No. 2009-09 and all other applicable Federal and State laws, rules and regulations, including the Americans with Disabilities Act.
- 3.3. Audit. Pursuant to ARS § 35-214, at any time during the term of this Contract and five (5) years thereafter, the Contractor's or any subcontractor's books and records shall be subject to audit by the State and, where applicable, the Federal Government, to the extent that the books and records relate to the performance of the Contract or Subcontract.
- 3.4. Facilities Inspection and Materials Testing. The Contractor agrees to permit access to its facilities, subcontractor facilities and the Contractor's processes or services, at reasonable times for inspection of the facilities or materials covered under this Contract. The State shall also have the right to test, at its own cost, the materials to be supplied under this Contract. Neither inspection of the Contractor's facilities nor materials testing shall constitute final acceptance of the materials or services. If the State determines non-compliance of the materials, the Contractor shall be responsible for the payment of all costs incurred by the State for testing and inspection.
- 3.5. Notices. Notices to the Contractor required by this Contract shall be made by the State to the person indicated on the Offer and Acceptance form submitted by the Contractor unless otherwise stated in the Contract. Notices to the State required by the Contract shall be made by the Contractor to the Solicitation Contact Person indicated on the Solicitation cover sheet, unless otherwise stated in the Contract. An authorized Procurement Officer and an authorized Contractor representative may change their respective person to whom notice shall be given by written notice to the other and an amendment to the Contract shall not be necessary.
- 3.6. Advertising, Publishing and Promotion of Contract. The Contractor shall not use, advertise or promote information for commercial benefit concerning this Contract without the prior written approval of the Procurement Officer.

UNIFORM TERMS AND CONDITIONS

CONTRACT NO: CTR050652

- 3.7. Ownership of Intellectual Property; Other Funding. The Parties to this Contract agree that any Intellectual Property developed by Contractor and its successor will be the property of the Contractor, its member institutions, and its successor pursuant to the policies and procedures of the Contractor, its member institutions, and its successor.
- 3.8. Federal Immigration and Nationality Act. The contractor shall comply with all federal, state and local immigration laws and regulations relating to the immigration status of their employees during the term of the contract. Further, the contractor shall flow down this requirement to all subcontractors utilized during the term of the contract. The State shall retain the right to perform random audits of contractor and subcontractor records or to inspect papers of any employee thereof to ensure compliance. Should the State determine that the contractor and/or any subcontractors be found noncompliant, the State may pursue all remedies allowed by law, including, but not limited to; suspension of work, termination of the contract for default and suspension and/or debarment of the contractor.
- 3.9. E-Verify Requirements. In accordance with A.R.S. § 41-4401, Contractor warrants compliance with all Federal immigration laws and regulations relating to employees and warrants its compliance with Section A.R.S. § 23-214, Subsection A.
- 3.10. Offshore Performance of Work Prohibited. Any services that are described in the specifications or scope of work that directly serve the State of Arizona or its clients and involve access to secure or sensitive data or personal client data shall be performed within the defined territories of the United States. Unless specifically stated otherwise in the specifications, this paragraph does not apply to indirect or 'overhead' services, redundant back-up services or services that are incidental to the performance of the contract. This provision applies to work performed by subcontractors at all tiers.

4. **Costs and Payments**

- 4.1. Payments. Payments shall comply with the requirements of A.R.S. Titles 35 and 41, Net 30 days. Upon receipt and acceptance of goods or services, the Contractor shall submit a complete and accurate invoice for payment from the State within thirty (30) days.
- 4.2. Delivery. Unless stated otherwise in the Contract, all prices shall be F.O.B. Destination and shall include all freight delivery and unloading at the destination.
- 4.3. Applicable Taxes.
 - 4.3.1. Payment of Taxes. The Contractor shall be responsible for paying all applicable taxes.
 - 4.3.2. State and Local Transaction Privilege Taxes. The State of Arizona is subject to all applicable state and local transaction privilege taxes. Transaction privilege taxes apply to the sale and are the responsibility of the seller to remit. Failure to collect such taxes from the buyer does not relieve the seller from its obligation to remit taxes.
 - 4.3.3. Tax Indemnification. Contractor and all subcontractors shall pay all Federal, state and local taxes applicable to its operation and any persons employed by the Contractor. Contractor shall, and require all subcontractors to hold the State harmless from any responsibility for taxes, damages and interest, if applicable, contributions required under Federal, and/or state and local laws and regulations and any other costs including transaction privilege taxes, unemployment compensation insurance, Social Security and Worker's Compensation.
 - 4.3.4. IRS W9 Form. In order to receive payment the Contractor shall have a current I.R.S. W9 Form on file with the State of Arizona, unless not required by law.
- 4.4. Availability of Funds for the Next State fiscal year. Funds may not presently be available for performance under this Contract beyond the current state fiscal year. No legal liability on the part of the State for any payment may arise under this Contract beyond the current state fiscal year until funds are made available for performance of this Contract.

UNIFORM TERMS AND CONDITIONS

CONTRACT NO: CTR050652

- 4.5. Availability of Funds for the current State fiscal year. Should the State Legislature enter back into session and reduce the appropriations or for any reason and these goods or services are not funded, the State may take any of the following actions:
- 4.5.1. Accept a decrease in price offered by the contractor;
 - 4.5.2. Cancel the Contract; or
 - 4.5.3. Cancel the contract and re-solicit the requirements.

5. Contract Changes

- 5.1. Amendments. This Contract is issued under the authority of the Procurement Officer who signed this Contract. The Contract may be modified only through a Contract Amendment within the scope of the Contract. Changes to the Contract, including the addition of work or materials, the revision of payment terms, or the substitution of work or materials, directed by a person who is not specifically authorized by the procurement officer in writing or made unilaterally by the Contractor are violations of the Contract and of applicable law. Such changes, including unauthorized written Contract Amendments shall be void and without effect, and the Contractor shall not be entitled to any claim under this Contract based on those changes.
- 5.2. Subcontracts. The Contractor shall not enter into any Subcontract under this Contract for the performance of this contract without the advance written approval of the Procurement Officer. The Contractor shall clearly list any proposed subcontractors and the subcontractor's proposed responsibilities. The Subcontract shall incorporate by reference the terms and conditions of this Contract.
- 5.3. Assignment and Delegation. The Contractor shall not assign any right nor delegate any duty under this Contract without the prior written approval of the Procurement Officer. The State shall not unreasonably withhold approval.

6. Risk and Liability

- 6.1. Risk of Loss: The Contractor shall bear all loss of conforming material covered under this Contract until received by authorized personnel at the location designated in the purchase order or Contract. Mere receipt does not constitute final acceptance. The risk of loss for nonconforming materials shall remain with the Contractor regardless of receipt.
- 6.2. Indemnification
- 6.2.1. Contractor/Vendor Indemnification (Not Public Agency) The parties to this contract agree that the State of Arizona, its departments, agencies, boards and commissions shall be indemnified and held harmless by the contractor for the vicarious liability of the State as a result of entering into this contract. However, the parties further agree that the State of Arizona, its departments, agencies, boards and commissions shall be responsible for its own negligence. Each party to this contract is responsible for its own negligence.
 - 6.2.2. Public Agency Language Only Each party (as 'indemnitor') agrees to indemnify, defend, and hold harmless the other party (as 'indemnitee') from and against any and all claims, losses, liability, costs, or expenses (including reasonable attorney's fees) (hereinafter collectively referred to as 'claims') arising out of bodily injury of any person (including death) or property damage but only to the extent that such claims which result in vicarious/derivative liability to the indemnitee, are caused by the act, omission, negligence, misconduct, or other fault of the indemnitor, its officers, officials, agents, employees, or volunteers."
- 6.3. Indemnification - Patent and Copyright. The Contractor shall indemnify and hold harmless the State against any liability, including costs and expenses, for infringement of any patent, trademark or copyright arising out of Contract performance or use by the State of materials furnished or work performed under this Contract. The State shall reasonably notify the Contractor of any claim for which it may be liable under this paragraph. If the contractor is insured pursuant to A.R.S. § 41-621 and § 35-154, this section shall not apply.

UNIFORM TERMS AND CONDITIONS
CONTRACT NO: CTR050652

6.4. Force Majeure.

6.4.1. Except for payment of sums due, neither party shall be liable to the other nor deemed in default under this Contract if and to the extent that such party's performance of this Contract is prevented by reason of force majeure. The term "*force majeure*" means an occurrence that is beyond the control of the party affected and occurs without its fault or negligence. Without limiting the foregoing, force majeure includes acts of God; acts of the public enemy; war; riots; strikes; mobilization; labor disputes; civil disorders; fire; flood; lockouts; injunctions-intervention-acts; or failures or refusals to act by government authority; and other similar occurrences beyond the control of the party declaring force majeure which such party is unable to prevent by exercising reasonable diligence.

6.4.2. Force Majeure shall not include the following occurrences:

6.4.2.1. Late delivery of equipment or materials caused by congestion at a manufacturer's plant or elsewhere, or an oversold condition of the market;

6.4.2.2. Late performance by a subcontractor unless the delay arises out of a force majeure occurrence in accordance with this force majeure term and condition; or

6.4.2.3. Inability of either the Contractor or any subcontractor to acquire or maintain any required insurance, bonds, licenses or permits.

6.4.3. If either party is delayed at any time in the progress of the work by force majeure, the delayed party shall notify the other party in writing of such delay, as soon as is practicable and no later than the following working day, of the commencement thereof and shall specify the causes of such delay in such notice. Such notice shall be delivered or mailed certified-return receipt and shall make a specific reference to this article, thereby invoking its provisions. The delayed party shall cause such delay to cease as soon as practicable and shall notify the other party in writing when it has done so. The time of completion shall be extended by Contract Amendment for a period of time equal to the time that results or effects of such delay prevent the delayed party from performing in accordance with this Contract.

6.4.4. Any delay or failure in performance by either party hereto shall not constitute default hereunder or give rise to any claim for damages or loss of anticipated profits if, and to the extent that such delay or failure is caused by force majeure.

6.5. Third Party Antitrust Violations. The Contractor assigns to the State any claim for overcharges resulting from antitrust violations to the extent that those violations concern materials or services supplied by third parties to the Contractor, toward fulfillment of this Contract.

7. Warranties

7.1. Liens. The Contractor warrants that the materials supplied under this Contract are free of liens and shall remain free of liens.

7.2. Quality. Unless otherwise modified elsewhere in these terms and conditions, the Contractor warrants that, for one year after acceptance by the State of the materials, they shall be:

7.2.1. Of a quality to pass without objection in the trade under the Contract description;

7.2.2. Fit for the intended purposes for which the materials are used;

7.2.3. Within the variations permitted by the Contract and are of even kind, quantity, and quality within each unit and among all units;

7.2.4. Adequately contained, packaged and marked as the Contract may require; and

7.2.5. Conform to the written promises or affirmations of fact made by the Contractor.

UNIFORM TERMS AND CONDITIONS
CONTRACT NO: CTR050652

- 7.3. Fitness. The Contractor warrants that any material supplied to the State shall fully conform to all requirements of the Contract and all representations of the Contractor, and shall be fit for all purposes and uses required by the Contract.
- 7.4. Inspection/Testing. The warranties set forth in subparagraphs 7.1 through 7.3 of this paragraph are not affected by inspection or testing of or payment for the materials by the State.
- 7.5. Compliance With Applicable Laws. The materials and services supplied under this Contract shall comply with all applicable Federal, state and local laws, and the Contractor shall maintain all applicable license and permit requirements.
- 7.6. Survival of Rights and Obligations after Contract Expiration or Termination.
- 7.6.1. Contractor's Representations and Warranties. All representations and warranties made by the Contractor under this Contract shall survive the expiration or termination hereof. In addition, the parties hereto acknowledge that pursuant to A.R.S. § 12-510, except as provided in A.R.S. § 12-529, the State is not subject to or barred by any limitations of actions prescribed in A.R.S., Title 12, Chapter 5.
- 7.6.2. Purchase Orders. The Contractor shall, in accordance with all terms and conditions of the Contract, fully perform and shall be obligated to comply with all purchase orders received by the Contractor prior to the expiration or termination hereof, unless otherwise directed in writing by the Procurement Officer, including, without limitation, all purchase orders received prior to but not fully performed and satisfied at the expiration or termination of this Contract.

8. State's Contractual Remedies

- 8.1. Right to Assurance. If the State in good faith has reason to believe that the Contractor does not intend to, or is unable to perform or continue performing under this Contract, the Procurement Officer may demand in writing that the Contractor give a written assurance of intent to perform. Failure by the Contractor to provide written assurance within the number of Days specified in the demand may, at the State's option, be the basis for terminating the Contract under the Uniform Terms and Conditions or other rights and remedies available by law or provided by the contract.
- 8.2. Stop Work Order.
- 8.2.1. The State may, at any time, by written order to the Contractor, require the Contractor to stop all or any part, of the work called for by this Contract for period(s) of days indicated by the State after the order is delivered to the Contractor. The order shall be specifically identified as a stop work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage.
- 8.2.2. If a stop work order issued under this clause is canceled or the period of the order or any extension expires, the Contractor shall resume work. The Procurement Officer shall make an equitable adjustment in the delivery schedule or Contract price, or both, and the Contract shall be amended in writing accordingly.
- 8.3. Non-exclusive Remedies. The rights and the remedies of the State under this Contract are not exclusive.
- 8.4. Nonconforming Tender. Materials or services supplied under this Contract shall fully comply with the Contract. The delivery of materials or services or a portion of the materials or services that do not fully comply constitutes a breach of contract. On delivery of nonconforming materials or services, the State may terminate the Contract for default under applicable termination clauses in the Contract, exercise any of its rights and remedies under the Uniform Commercial Code, or pursue any other right or remedy available to it.

UNIFORM TERMS AND CONDITIONS
CONTRACT NO: CTR050652

- 8.5. Right of Offset. The State shall be entitled to offset against any sums due the Contractor, any expenses or costs incurred by the State, or damages assessed by the State concerning the Contractor's non-conforming performance or failure to perform the Contract, including expenses, costs and damages described in the Uniform Terms and Conditions.

9. Contract Termination

- 9.1. Cancellation for Conflict of Interest. Pursuant to A.R.S. § 38-511, the State may cancel this Contract within three (3) years after Contract execution without penalty or further obligation if any person significantly involved in initiating, negotiating, securing, drafting or creating the Contract on behalf of the State is or becomes at any time while the Contract or an extension of the Contract is in effect an employee of or a consultant to any other party to this Contract with respect to the subject matter of the Contract. The cancellation shall be effective when the Contractor receives written notice of the cancellation unless the notice specifies a later time. If the Contractor is a political subdivision of the State, it may also cancel this Contract as provided in A.R.S. § 38-511.
- 9.2. Gratuities. The State may, by written notice, terminate this Contract, in whole or in part, if the State determines that employment or a Gratuity was offered or made by the Contractor or a representative of the Contractor to any officer or employee of the State for the purpose of influencing the outcome of the procurement or securing the Contract, an amendment to the Contract, or favorable treatment concerning the Contract, including the making of any determination or decision about contract performance. The State, in addition to any other rights or remedies, shall be entitled to recover exemplary damages in the amount of three times the value of the Gratuity offered by the Contractor.
- 9.3. Suspension or Debarment. The State may, by written notice to the Contractor, immediately terminate this Contract if the State determines that the Contractor has been debarred, suspended or otherwise lawfully prohibited from participating in any public procurement activity, including but not limited to, being disapproved as a subcontractor of any public procurement unit or other governmental body. Submittal of an offer or execution of a contract shall attest that the contractor is not currently suspended or debarred. If the contractor becomes suspended or debarred, the contractor shall immediately notify the State.
- 9.4. Termination for Convenience. The State reserves the right to terminate the Contract, in whole or in part at any time with no less than 30 days' written notice to Contractor, when in the best interest of the State, without penalty or recourse. Upon receipt of the written notice, the Contractor shall stop all work, as directed in the notice, notify all subcontractors of the effective date of the termination and minimize all further costs to the State. In the event of termination under this paragraph, all documents, data and reports prepared by the Contractor under the Contract shall become the property of and be delivered to the State upon demand. The Contractor shall be entitled to receive just and equitable compensation for work in progress, work completed and materials accepted before the effective date of the termination. The cost principles and procedures provided in A.A.C. R2-7-701 shall apply.
- 9.5. Termination for Default.
- 9.5.1. In addition to the rights reserved in the contract, the State may terminate the Contract in whole or in part due to the failure of the Contractor to comply with any term or condition of the Contract, to acquire and maintain all required insurance policies, bonds, licenses and permits, or to make satisfactory progress in performing the Contract. The Procurement Officer shall provide written notice of the termination and the reasons for it to the Contractor.
- 9.5.2. Upon termination under this paragraph, all goods, materials, documents, data and reports prepared by the Contractor under the Contract shall become the property of and be delivered to the State on demand.
- 9.5.3. The State may, upon termination of this Contract, procure, on terms and in the manner that it deems appropriate, materials or services to replace those under this Contract. The Contractor shall be liable to the State for any excess costs incurred by the State in procuring materials or services in substitution for those due from the Contractor.

UNIFORM TERMS AND CONDITIONS
CONTRACT NO: CTR050652

9.6. Continuation of Performance Through Termination. The Contractor shall continue to perform, in accordance with the requirements of the Contract, up to the date of termination, as directed in the termination notice.

10. Contract Claims

All contract claims or controversies under this Contract shall be resolved according to A.R.S. Title 41, Chapter 23, Article 9, and rules adopted thereunder.

11. Arbitration

The parties to this Contract agree to resolve all disputes arising out of or relating to this contract through arbitration, after exhausting applicable administrative review, to the extent required by A.R.S. § 12-1518, except as may be required by other applicable statutes (Title 41).

12. Comments Welcome

The State Procurement Office periodically reviews the Uniform Terms and Conditions and welcomes any comments you may have. Please submit your comments to: State Procurement Administrator, State Procurement Office, 100 North 15th Avenue, Suite 201, Phoenix, Arizona, 85007.

SPECIAL TERMS AND CONDITIONS

CONTRACT NO: CTR050652

1. Purpose

Pursuant to provisions of the Arizona Procurement Code, A.R.S. 41-2501 Et Seq., the State of Arizona, Department of Health Services (ADHS) intends to establish a Contract for the materials or services as listed herein.

2. Term of Contract (1 Year)

The term of this Contract will be for one (1) year from the date executed by both parties, unless COVID-19 ends and testing is no longer required.

3. Contract Extensions 5 Year Maximum

The Contract term is for a one (1) year period subject to additional successive periods of twelve (12) months per extension with a maximum aggregate including all extensions not to exceed five (5) years.

4. Contract Type

Fixed Price

5. Licenses

The Contractor shall maintain in current status, all federal, state and local licenses and permits required for the operation of the business conducted by the Contractor.

6. Information Disclosure

The Contractor shall establish and maintain procedures and controls that are acceptable to the State for the purpose of assuring that no information contained in its records or obtained from the State or from others in carrying out its functions under the Contract shall be used or disclosed by it, its agents, officers, or employees, except as required to efficiently perform duties under the Contract. Persons requesting such information should be referred to the State. The Contractor also agrees that any information pertaining to individual persons shall not be divulged other than to employees or officers of Contractor as needed for the performance of duties under the Contract, unless otherwise agreed to in writing by the State.

7. Key Personnel

7.1. It is essential that the Contractor provide adequate experienced personnel, capable of and devoted to the successful accomplishment of work to be performed under this Contract. The Contractor must agree to assign specific individuals to the key positions.

7.2. The Contractor agrees that, once assigned to work under this Contract, key personnel shall not be removed or replaced without written notice to the State.

7.3. Key personnel not available for work under this Contract for a continuous period exceeding thirty (30) calendar days, or are expected to devote substantially less effort to the work than initially anticipated, the Contractor shall immediately notify the State, and shall, subject to the concurrence of the State, replace such personnel with personnel of substantially equal ability and qualifications.

8. Pricing

Most-Favored Customer - Throughout the life of the contract, the Contractor shall always offer the State the Most-Favored Customer or Highest Tier Customer price discount rate on contracted product(s) concurrent with a published price discount rate made to other Customers (both Private and Public sectors). The Contractor shall extend to the State that most-favored customer or Highest Tier Customer price discount on all new product lines during the life of the contract.

SPECIAL TERMS AND CONDITIONS

CONTRACT NO: CTR050652

9. Non-Exclusive Contract

This Contract is issued with the understanding and agreement that it is for the sole convenience of the State of Arizona. The State reserves the right to obtain like goods or services from another source when necessary, or when determined to be in the best interest of the State.

10. Volume of Work

The ADHS does not guarantee a specific amount of work either for the life of the Contract or on an annual basis.

11. Employees of the Contractor

All employees of the Contractor employed in the performance of work under the Contract shall be considered employees of the Contractor at all times, and not employees of the ADHS or the State. The Contractor shall comply with the Social Security Act, Workman's Compensation laws and Unemployment laws of the State of Arizona and all State, local and Federal legislation relevant to the Contractor's business.

12. Order Process

The award of a Contract shall be in accordance with the Arizona Procurement Code. Any attempt to represent any material and/or service not specifically awarded as being under Contract with ADHS is a violation of the Contract and the Arizona Procurement Code. Any such action is subject to the legal and contractual remedies available to the state inclusive of, but not limited to, Contract cancellation, suspension and/or debarment of the Contractor.

13. Contractor Performance Reports

Program management shall document Contractor performance, both exemplary and needing improvements where corrective action is needed or desired. Copies of corrective action reports will be forwarded to the ADHS Procurement Office for review and any necessary follow-up. The Procurement Office may contact the Contractor upon receipt of the report and may request corrective action. The Procurement Office shall discuss the Contractor's suggested corrective action plan with the Procurement Specialist for approval of the plan.

14. Payment Procedures

- 14.1. ADHS accounting will not make payments to any Entity, Group or individual other than the Contractor with the Federal Employer Identification (FEI) Number identified in the Contract. Contractor invoices requesting payment to any Entity, Group or individual other than the contractually specified Contractor shall be returned to the Contractor for correction.
- 14.2. The Contractor shall review and insure that the invoices for services provided show the correct Contractor name prior to sending them to the ADHS Accounting Office for payment.
- 14.3. If the Contractor Name and FEI Number change, the Contractor must complete an "Assignment and Agreement" form transferring Contract rights and responsibilities to the new Contractor. ADHS must indicate consent on the form. A written Contract Amendment must be signed by both parties and a new W-9 form must be submitted by the new Contractor and entered into the system prior to any payments being made to the new Contractor.

15. Financial Management

- 15.1. For all contracts, the practices, procedures, and standards specified in and required by the Accounting and Auditing Procedures Manual for Arizona Department of Health Services funded programs shall be used by the Contractor in the management of Contract funds and by the ADHS when performing a Contract audit. Funds collected by the Contractor in the form of fees, donations and/or charges for the delivery of these Contract services shall be accounted for in a separate fund.
- 15.2. State Funding. Contractors receiving state funds under this Contract shall comply with the certified Compliance provisions of A.R.S. § 35-181.03.

SPECIAL TERMS AND CONDITIONS

CONTRACT NO: CTR050652

15.3. Federal Funding. Contractors receiving federal funds under this Contract shall comply with the certified finance and compliance audit provision of the Office of Management and Budget (OMB) Circular A-133, if applicable. The federal financial assistance information shall be stated in a Change Order or Purchase Order.

16. Inspection and Acceptance

All services, data and required reports are subject to final inspection, review, evaluation and acceptance by the ADHS. The ADHS may withhold payment for services that are deemed to not meet Contract standards.

17. Authorization for Services

Authorization for purchase of services under this Contract shall be made only upon ADHS issuance of a Purchase Order that is signed by an authorized agent. The Purchase Order will indicate the Contract number and the dollar amount of funds authorized. The Contractor shall only be authorized to perform services up to the amount on the Purchase Order. ADHS shall not have any legal obligation to pay for services in excess of the amount indicated on the Purchase Order. No further obligation for payment shall exist on behalf of ADHS unless a) the Purchase Order is changed or modified with an official ADHS Procurement Change Order, and/or b) an additional Purchase Order is issued for purchase of services under this Contract.

18. Indemnification Clause

18.1 To the fullest extent permitted by law, Contractor shall defend, indemnify, and hold harmless the State of Arizona, and its departments, agencies, boards, commissions, universities, officers, officials, agents, and employees (hereinafter referred to as "Indemnitee") from and against any and all claims, actions, liabilities, damages, losses, or expenses (including court costs, attorneys' fees, and costs of claim processing, investigation and litigation) (hereinafter referred to as "Claims") for bodily injury or personal injury (including death), or loss or damage to tangible or intangible property caused, or alleged to be caused, in whole or in part, by the negligent or willful acts or omissions of Contractor or any of its owners, officers, directors, agents, employees or subcontractors. This indemnity includes any claim or amount arising out of, or recovered under, the Workers' Compensation Law or arising out of the failure of such Contractor to conform to any federal, state, or local law, statute, ordinance, rule, regulation, or court decree. It is the specific intention of the parties that the Indemnitee shall, in all instances, except for Claims arising solely from the negligent or willful acts or omissions of the Indemnitee, be indemnified by Contractor from and against any and all claims. It is agreed that Contractor will be responsible for primary loss investigation, defense, and judgment costs where this indemnification is applicable. In consideration of the award of this contract, the Contractor agrees to waive all rights of subrogation against the State of Arizona, its officers, officials, agents, and employees for losses arising from the work performed by the Contractor for the State of Arizona.

18.2 This indemnity shall not apply if the contractor or sub-contractor(s) is/are an agency, board, commission or university of the State of Arizona.

19. Insurance Requirements

19.1 Insurance Requirements

19.1.1 Contractor and subcontractors shall procure and maintain, until all of their obligations have been discharged, including any warranty periods under this Contract, insurance against claims for injury to persons or damage to property arising from, or in connection with, the performance of the work hereunder by the Contractor, its agents, representatives, employees or subcontractors.

19.1.2 The Insurance Requirements herein are minimum requirements for this Contract and in no way limit the indemnity covenants contained in this Contract. The State of Arizona in no way warrants that the minimum limits contained herein are sufficient to protect the Contractor from liabilities that arise out of the performance of the work under this Contract by the Contractor, its agents, representatives, employees or subcontractors, and the Contractor is free to purchase additional insurance.

SPECIAL TERMS AND CONDITIONS
CONTRACT NO: CTR050652

19.2 **Minimum Scope and Limits of Insurance**

Contractor shall provide coverage with limits of liability not less than those stated below.

19.2.1 Commercial General Liability (CGL) – Occurrence Form

Policy shall include bodily injury, property damage, and broad form contractual liability coverage.

- | | |
|---|-------------|
| • General Aggregate | \$2,000,000 |
| • Products – Completed Operations Aggregate | \$1,000,000 |
| • Personal and Advertising Injury | \$1,000,000 |
| • Damage to Rented Premises | \$50,000 |
| • Each Occurrence | \$1,000,000 |

SPECIAL TERMS AND CONDITIONS

CONTRACT NO: CTR050652

- a. The policy shall be endorsed, as required by this written agreement, to include the State of Arizona, and its departments, agencies, boards, commissions, universities, officers, officials, agents, and employees as additional insureds with respect to liability arising out of the activities performed by or on behalf of the Contractor.
- b. Policy shall contain a waiver of subrogation endorsement, as required by this written agreement, in favor of the State of Arizona, and its departments, agencies, boards, commissions, universities, officers, officials, agents, and employees for losses arising from work performed by or on behalf of the Contractor.

19.2.2 Business Automobile Liability

Bodily Injury and Property Damage for any owned, hired, and/or non-owned automobiles used in the performance of this Contract.

- Combined Single Limit (CSL) \$1,000,000
- a. Policy shall be endorsed, as required by this written agreement, to include the State of Arizona, and its departments, agencies, boards, commissions, universities, officers, officials, agents, and employees as additional insureds with respect to liability arising out of the activities performed by, or on behalf of, the Contractor involving automobiles owned, hired and/or non-owned by the Contractor.
- b. Policy shall contain a waiver of subrogation endorsement as required by this written agreement in favor of the State of Arizona, and its departments, agencies, boards, commissions, universities, officers, officials, agents, and employees for losses arising from work performed by or on behalf of the Contractor.

19.2.3 Workers' Compensation and Employers' Liability

- Workers' Compensation Statutory
- Employers' Liability
 - Each Accident \$1,000,000
 - Disease – Each Employee \$1,000,000
 - Disease – Policy Limit \$1,000,000
- a. Policy shall contain a waiver of subrogation endorsement, as required by this written agreement, in favor of the State of Arizona, and its departments, agencies, boards, commissions, universities, officers, officials, agents, and employees for losses arising from work performed by or on behalf of the Contractor.
- b. This requirement shall not apply to each Contractor or subcontractor that is exempt under A.R.S. § 23-901, and when such Contractor or subcontractor executes the appropriate waiver form (Sole Proprietor or Independent Contractor).

19.2.4 Professional Liability (Errors and Omissions Liability)

- Each Claim \$2,000,000
- Annual Aggregate \$2,000,000
- a. In the event that the Professional Liability insurance required by this Contract is written on a claims-made basis, Contractor warrants that any retroactive date under the policy shall precede the effective date of this Contract and, either continuous coverage will be maintained, or an extended discovery period will be exercised, for a period of two (2) years beginning at the time work under this Contract is completed.
- b. The policy shall cover professional misconduct or negligent acts for those positions defined in the Scope of Work of this contract.

19.3 **Additional Insurance Requirements**

The policies shall include, or be endorsed to include, as required by this written agreement, the following provisions:

SPECIAL TERMS AND CONDITIONS

CONTRACT NO: CTR050652

19.3.1 The Contractor's policies, as applicable, shall stipulate that the insurance afforded the Contractor shall be primary and that any insurance carried by the Department, its agents, officials, employees or the State of Arizona shall be excess and not contributory insurance, as provided by A.R.S. § 41-621 (E).

19.3.2 Insurance provided by the Contractor shall not limit the Contractor's liability assumed under the indemnification provisions of this Contract.

19.4 **Notice of Cancellation**

Applicable to all insurance policies required within the Insurance Requirements of this Contract, Contractor's insurance shall not be permitted to expire, be suspended, be canceled, or be materially changed for any reason without thirty (30) days prior written notice to the State of Arizona. Within two (2) business days of receipt, Contractor must provide notice to the State of Arizona if they receive notice of a policy that has been or will be suspended, canceled, materially changed for any reason, has expired, or will be expiring. Such notice shall be sent directly to the Department and shall be mailed, emailed, hand delivered or sent by facsimile transmission to (State Representative's Name, Address & Fax Number).

19.5 **Acceptability of Insurers**

Contractor's insurance shall be placed with companies licensed in the State of Arizona or hold approved non-admitted status on the Arizona Department of Insurance List of Qualified Unauthorized Insurers. Insurers shall have an "A.M. Best" rating of not less than A- VII. The State of Arizona in no way warrants that the above-required minimum insurer rating is sufficient to protect the Contractor from potential insurer insolvency.

19.6 **Verification of Coverage**

Contractor shall furnish the State of Arizona with certificates of insurance (valid ACORD form or equivalent approved by the State of Arizona) evidencing that Contractor has the insurance as required by this Contract. An authorized representative of the insurer shall sign the certificates.

19.6.1 All such certificates of insurance and policy endorsements must be received by the State before work commences. The State's receipt of any certificates of insurance or policy endorsements that do not comply with this written agreement shall not waive or otherwise affect the requirements of this agreement.

19.6.2 Each insurance policy required by this Contract must be in effect at, or prior to, commencement of work under this Contract. Failure to maintain the insurance policies as required by this Contract, or to provide evidence of renewal, is a material breach of contract.

19.6.3 All certificates required by this Contract shall be sent directly to the Department. The State of Arizona project/contract number and project description shall be noted on the certificate of insurance. The State of Arizona reserves the right to require complete copies of all insurance policies required by this Contract at any time.

19.7 **Subcontractors**

Contractor's certificate(s) shall include all subcontractors as insureds under its policies or Contractor shall be responsible for ensuring and/or verifying that all subcontractors have valid and collectable insurance as evidenced by the certificates of insurance and endorsements for each subcontractor. All coverages for subcontractors shall be subject to the minimum Insurance Requirements identified above. The Department reserves the right to require, at any time throughout the life of this contract, proof from the Contractor that its subcontractors have the required coverage.

19.8 **Approval and Modifications**

The Contracting Agency, in consultation with State Risk, reserves the right to review or make modifications to the insurance limits, required coverages, or endorsements throughout the life of this contract, as deemed necessary. Such action will not require a formal Contract amendment but may be made by administrative action.

19.9 **Exceptions**

In the event the Contractor or subcontractor(s) is/are a public entity, then the Insurance Requirements shall not apply. Such public entity shall provide a certificate of self-insurance. If the Contractor or

SPECIAL TERMS AND CONDITIONS

CONTRACT NO: CTR050652

subcontractor(s) is/are a State of Arizona agency, board, commission, or university, none of the above shall apply.

20. Health Insurance Portability and Accountability Act of 1996

- 20.1. The Contractor warrants that it is familiar with the requirements of HIPAA, as amended by the Health Information Technology for Economic and Clinical Health Act (HITECH Act) of 2009, and accompanying regulations and will comply with all applicable HIPAA requirements in the course of this Contract. Contractor warrants that it will cooperate with the Arizona Department of Health Services (ADHS) in the course of performance of the Contract so that both ADHS and Contractor will be in compliance with HIPAA, including cooperation and coordination with the Arizona Department of Administration-Arizona Strategic Enterprise Technology (ADOA-ASET) Office, the ADOA-ASET Arizona State Chief Information Security Officer and HIPAA Coordinator and other compliance officials required by HIPAA and its regulations. Contractor will sign any documents that are reasonably necessary to keep ADHS and Contractor in compliance with HIPAA, including, but not limited to, business associate agreements.
- 20.2. If requested by the ADHS Procurement Office, Contractor agrees to sign a "Pledge to Protect Confidential Information" and to abide by the statements addressing the creation, use and disclosure of confidential information, including information designated as protected health information and all other confidential or sensitive information as defined in policy. In addition, if requested, Contractor agrees to attend or participate in HIPAA training offered by ADHS or to provide written verification that the Contractor has attended or participated in job related HIPAA training that is: (1) intended to make the Contractor proficient in HIPAA for purposes of performing the services required and (2) presented by a HIPAA Privacy Officer or other person or program knowledgeable and experienced in HIPAA and who has been approved by the ADOA-ASET Arizona State Chief Information Security Officer and HIPAA Coordinator.

21. Pandemic Contractual Performance

- 21.1. The State shall require a written plan that illustrates how the Contractor shall perform up to contractual standards in the event of a pandemic. The State may require a copy of the plan at any time prior or post award of a Contract. At a minimum, the pandemic performance plan shall include:
- 21.1.1. Key succession and performance planning if there is a sudden significant decrease in Contractor's workforce;
 - 21.1.2. Alternative methods to ensure there are products in the supply chain; and
 - 21.1.3. An up to date list of company contacts and organizational chart.
- 21.2. In the event of a pandemic, as declared the Governor of Arizona, U.S. Government or the World Health Organization, which makes performance of any term under this Contract impossible or impracticable, the State shall have the following rights:
- 21.2.1. After the official declaration of a pandemic, the State may temporarily void the Contract(s) in whole or specific sections, if the Contractor cannot perform to the standards agreed upon in the initial terms;
 - 21.2.2. The State shall not incur any liability if a pandemic is declared and emergency procurements are authorized by the Director as per A.R.S. 41-2537 of the Arizona Procurement Code; and
 - 21.2.3. Once the pandemic is officially declared over and/or the Contractor can demonstrate the ability to perform, the State, at its sole discretion, may reinstate the temporarily voided Contract(s).
- 21.3. The State, at any time, may request to see a copy of the written plan from the Contractor. The Contractor shall produce the written plan within seventy-two (72) hours of the request.

SPECIAL TERMS AND CONDITIONS

CONTRACT NO: CTR050652

22. The Federal Funding Accountability and Transparency Act (FFATA or Transparency Act - P.L.109-282, as amended by section 6202(a) of P.L. 110-252), found at <https://www.frs.gov/>

If applicable, the Contractor/Grantee shall submit to ADHS via email the Grant Reporting Certification Form. This form and the instructions can be downloaded from the ADHS Procurement website at <http://www.azdhs.gov/operations/financial-services/procurement/index.php#ffata> and must be returned to the ADHS by the 15th of the month following that in which the award was received. The form shall be completed electronically, and submitted using the steps outlined in the Grant Reporting Certification Form Instructions to the following email address: ADHS_Grant@azdhs.gov. All required fields must be filled including Top Employee Compensation, if applicable. Completing the Grant Reporting Certification Form is required for compliance with the Office of Management and Budget (OMB), found at <http://www.whitehouse.gov/omb/open>. Failure to timely submit the Grant Reporting Certification Form could result in the loss of funds. This requirement applies to all subcontractors/sub-awardees utilized by the Contractor/Grantee for amounts exceeding \$30,000.00 during the term of the Award.

23. Transition Activities

- 23.1. Upon termination of this Contract, if ADHS anticipates a continued need for the Contract Services specified herein and a Contract is awarded to a new Contractor, there shall be a transition of services period of not less than thirty (30) days. During this period, the existing Contractor shall work closely with the new Contractor, or Contractors, personnel and/or staff to ensure a smooth and complete transfer of duties and responsibilities;
- 23.2. An authorized representative from ADHS shall coordinate all transition activities. A transition plan will be developed in conjunction with the outgoing Contractor to assist the new Contractor, or Contractors, personnel and/or staff to implement the transfer of duties;
- 23.3. ADHS reserves the right to determine which projects nearing completion will remain with the current Contractor of record.
- 23.4. The Contractor shall return all ADHS equipment, reports, and any other documentation developed during the term of the Contract that ADHS deems necessary to maintain ongoing operations.

24. Contracting; Procurement; Investment; Prohibitions

- 24.1. A public entity may not enter into a contract with a company to acquire or dispose of services, supplies, information technology or construction unless the contract includes a written certification that the company is not currently engaged in, and agrees for the duration of the contract to not engage in, a boycott of Israel.
- 24.2. A public entity may not adopt a procurement, investment or other policy that has the effect of inducing or requiring a person or company to boycott Israel.

SCOPE OF WORK

CONTRACT NO: CTR050652

1. Background

1.2 Due to the recent outbreak of COVID-19 and the State of Emergency issued by Governor Ducey on March 11, 2020, and also the President of the United States on March 13, 2020, expanded testing is needed to ensure the safety, health and welfare of all Arizonans. Congregate settings such as correctional facilities are at increased risk for outbreaks of COVID-19.

2. Objective

To collect swabs from inmates and conduct Reverse Transcription Polymerase Chain Reaction (RT-PCR) tests, provide results to inmates and the Arizona Department of Corrections Rehabilitation and Recovery (ADOCRR), at ADOCRR contracted facilities in Arizona to assist with controlling COVID-19 in these facilities and lessen the impact.

3. Tasks

The Contractor shall:

- 3.1 Utilize Garcia Labs who is the Contractor's current laboratory sub-contracted Supplier throughout the State of Arizona. Garcia and Centurion shall coordinate with ADOCRR operational entities and supply the staffing, personal protective equipment (PPE), requisitioning processes, courier services, and electronic reporting that is currently in existence to support this enhanced testing initiative. The utilization of SARS-CoV-2 specimens and only Food and Drug Administration (FDA) approved collection kits with FDA Emergency Use Authorization (EUA) approved RT-PCR test will be permitted. Only a Clinical Laboratory Improvement Amendments (CLIA) certified laboratory for all inmates in ADOCRR contracted facilities in Arizona is approved;
- 3.2 Utilize FDA approved collection kits;
- 3.3 Provide appropriate PPE and screening for symptoms and fever for COVID-19 for Contractor staff collecting specimens;
- 3.4 Provide physician orders for SARS-CoV-2 RT-PCR testing for all participating inmates;
- 3.5 Follow prioritization and coordinate the timing of specimen collections with ADOCRR;
- 3.6. Ensure electronic reporting of all laboratory results using ADHS approved formats (Health Level Seven International (HL7) or flat file within one (1) business day of the result date;
- 3.7. Complete a spreadsheet or Google Form at least weekly for each facility including the number of specimens collected by each facility and test results upon completion of each round of specimen collections and report this to both ADOCRR and ADHS;
- 3.8. Maintain confidentiality of facility names and individuals whom specimens were collected under this Contract, regardless of media knowledge; and
- 3.9. Coordinate and receive approval from ADOCRR and ADHS on any press releases, interviews, advertising or social media related to the testing of these facilities.

4. Requirements

The Contractor shall:

- 5.1 Comply with all State and Federal regulations for testing;
- 5.2 Coordinate specimen collection with ADOCRR and each facility; and

SCOPE OF WORK
CONTRACT NO: CTR050652

5.3 Upon execution of the Contract provide a Certificate of Liability Insurance (COI) that exactly matches the Special Terms and Conditions for Insurance. A current and valid COI shall be provided to ADHS during the Contract Term. A Purchase Order to commence services will not be provide without a COI on file with ADHS Procurement.

6. Approvals

6.1. ADHS will approve all invoices prior to payment.

7. State Provided Items

7.1. ADHS will provide the reporting format for electronic laboratory reporting.

8. Deliverables

The Contractor shall:

8.1. Provide aggregate monthly data on all number and result for all specimens collected by facility to the ADHS by the 10th of the following month; and

8.2 Provide invoices in a format approved by ADHS.

9. Notices, Correspondence, and Reports

9.1. Notices, correspondence, reports and CERs from the Contractor to ADHS shall be sent to:

Arizona Department of Health Services
150 North 18th Avenue, Suite 100
Phoenix, Arizona 85007
Attn: Kenneth Komatsu

9.2. Invoices shall be sent to: invoices@azdhs.gov for review and payment, a copy should be sent to Kenneth Komatsu;

9.3. Notices, correspondence, and reports (and payments if sent to the same address) from ADHS to the Contractor shall be sent to:

Boycott of Israel Disclosure

CONTRACT NO: CTR050652

Please note that if any of the following apply to this Solicitation, Contract, or Contractor, then the Offeror shall select the "Exempt Solicitation, Contract, or Contractor" option below:

- The Solicitation or Contract has an estimated value of less than \$100,000;
- Contractor is a sole proprietorship;
- Contractor has fewer than ten (10) employees; OR
- Contractor is a non-profit organization.

Pursuant to A.R.S. §35-393.01, public entities are prohibited from entering into contracts "unless the contract includes a written certification that the company is not currently engaged in, and agrees for the duration of the contract to not engage in, a boycott of goods or services from Israel."

Under A.R.S. §35-393:

1. "Boycott" means engaging in a refusal to deal, terminating business activities or performing other actions that are intended to limit commercial relations with entities doing business in Israel or in territories controlled by Israel, if those actions are taken either:
 - (a) Based in part on the fact that the entity does business in Israel or in territories controlled by Israel.
 - (b) In a manner that discriminates on the basis of nationality, national origin or religion and that is not based on a valid business reason.
2. "Company" means an organization, association, corporation, partnership, joint venture, limited partnership, limited liability partnership, limited liability company or other entity or business association, including a wholly owned subsidiary, majority-owned subsidiary, parent company or affiliate, that engages in for-profit activity and that has ten or more full-time employees.
3. "Public entity" means this State, a political subdivision of this State or an agency, board, commission or department of this State or a political subdivision of this State.

The certification below does not include boycotts prohibited by 50 United States Code Section 4842 or a regulation issued pursuant to that section. See A.R.S. §35-393.03.

In compliance with A.R.S. §§35-393 *et seq.*, all offerors must select one of the following:

- The Company submitting this Offer does not participate in, and agrees not to participate in during the term of the contract, a boycott of Israel in accordance with A.R.S. §§35-393 *et seq.* I understand that my entire response will become public record in accordance with A.A.C. R2-7-C317.
- The Company submitting this Offer does participate in a boycott of Israel as described in A.R.S. §§35-393 *et seq.*
- Exempt Solicitation, Contract, or Contractor.**

Indicate which of the following statements applies to this Contract:

- Solicitation or Contract has an estimated value of less than \$100,000;
- Contractor is a sole proprietorship;
- Contractor has fewer than ten (10) employees; and/or
- Contractor is a non-profit organization.

Subject: 7-22-20 ADHS COVID-19 MEMO
Date: Wednesday, July 22, 2020 4:57:59 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the most salient COVID-19 issues that the Department is currently addressing:

- ADHS provides ongoing guidance and technical assistance to [healthcare facilities](#) experiencing COVID-19 outbreaks in order to support disease control and prevention. We also maintain a strike team that can conduct onsite visits by request to support in-person review of policies and procedures for COVID-19 prevention and provide recommendations for improvement.
- Our team continues to process and upload data for posting on our [data dashboard](#) on a daily basis. Our partners report data to us daily, with some large commercial laboratories transmitting data several times a day. Because we are reporting the data out on a daily basis, at times, labs may miss the cutoff for us to prepare their data for posting the next day. This does not mean that the lab failed to report their data; the data gets included in the following day's update.
- Teams at our warehouse continue to receive, repackage, and distribute allocations of PPE, specimen collection materials, and medical equipment for counties and tribes.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Lastly, here are some social media posts that you may find useful to disseminate to your constituents:

- <https://twitter.com/AZDHS/status/1285998048959700993?s=20>
- <https://twitter.com/AZDHS/status/1285998294724993024?s=20>

Thank you for your investment in helping Arizona address COVID-19 in Arizona.

Subject: 7-21-20 ADHS COVID-19 MEMO
Date: Tuesday, July 21, 2020 8:09:14 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the most salient COVID-19 issues that the Department is currently addressing:

- Today, ADHS signed contracts with three skilled nursing facilities to provide care for COVID-19 patients who still need isolation due to illness but no longer need inpatient acute care at a hospital. These contracts will provide up to 94 beds that hospitals can discharge patients to through the Arizona Surge Line, freeing up additional capacity in Arizona hospitals. ADHS is working on securing additional beds to help meet this need.
- Two HHS-supported surge testing sites are operational in Maryvale and South Phoenix, however their capacity is currently underutilized. These free testing sites have ample appointment availability and minimal wait times. Pre-registration is NOT required, nor is a state-issued ID. Additional information is available in [English](#) and [Spanish](#) about these sites.
- ADHS and local health partners continue to use the Arizona Emergency System for Advance Registration of Volunteer Health Professionals ([EASR-VHP](#)) system in order to identify credentialed healthcare professionals who can support healthcare surge. To date, 542 medical staff have been deployed on missions in Arizona to support the COVID-19 response.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Subject: 7-20-20 ADHS COVID-19 MEMO
Date: Monday, July 20, 2020 9:09:04 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the most salient COVID-19 issues that the Department is currently addressing:

- Two HHS-supported surge testing sites are operational in Maryvale and South Phoenix, however their capacity is currently underutilized. These free testing sites have ample appointment availability and minimal wait times. Additional information is available in a [press release issued today](#) by ADHS.
- ADHS continues to work with our contracted staffing vendor to identify healthcare workers to provide surge staffings support to Arizona hospitals. More information about this initiative is available [here](#).
- ADHS continues to work with local health departments to provide PPE and technical assistance to long-term care facilities to prevent COVID-19 spread within these facilities. The significant majority of COVID-19 cases in Arizona continue to occur within the general community at large and not within these long-term care settings.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Lastly, here are some social media posts that you may find useful to disseminate to your constituents:

Good morning Larry,

Im already on it. She did submit an HNR on 7/7/20 and saw the nurse for “allergies”. Vitals were stable, no fever, no loss of taste/smell, no headache. She also saw the Provider on 7/15/20 and didn’t have any complaints other than constipation. She is not being charged for any medical visits currently either.

The ADON on the unit is seeing her now and I will send you an update when completed.

Thank you,

Adalia Cerrillo, CCHP

Larry,

Please have an EMR review completed and determine if a medical health/welfare check is necessary on this individual.

Thank you,

Joe

Good Evening

I just received today a copy of the attached letter from an inmate at Perryville. What she recounts in this letter is deeply disturbing and of extreme concern.

Ms. [REDACTED] (Pedro [REDACTED]) has courageously given me permission to share her letter with you. Although hers is not the first such communication I have received, she is the only one that was willing to risk the very real possibility of retaliation by having her actual letter shared with upper management and state leadership. The symptoms that she has been experiencing are consistent with the CDC symptom list for COVID-19 including pain, nausea, sneezing and runny nose, headache, and loss of taste. Without access to a thermometer, it was not possible for her to confirm if she has a fever. Her statement that she had to pay the \$4 HNR fee to see a nurse is also verification that stated protocols regarding waiver of these fees are not being followed. And yet, even though she paid her fee, her requests for COVID-19 testing have been denied multiple times by medical staff.

As early as April, we have been bringing this issue of medical providers failure to test those presenting symptoms of COVID-19. This response has been especially prevalent at the Perryville facility. In a May 14th letter to Kelli Knoll, Manager of the Constituent Services Unit, the Arizona Justice Alliance (of which I am a member) listed this issue as their number one concern, and I quote from that letter:

- o “While the fees for medical visits related to COVID-19 symptoms may have been waived; what is actually happening is that inmates experiencing flu-like symptoms, including fever and difficulty breathing, have been refused medical treatment. In at least one instance, the inmate was refused 3 times and eventually recovered on their own without assistance. We request that medical be required to test ANY inmate that presents with any symptoms related to COVID-19 and provide a procedure for inmates to escalate the situation should they continue to be refused testing.”

As evidenced by [REDACTED]’ story, this issue has not been addressed and rectified by upper management. We pray that this heartbreaking letter from [REDACTED] detailing her experience and subsequent denial of testing will convince you, Director Shinn, Ms. Fuentes, and even the Governor that this is a very real problem and the consequences of allowing this to continue can be devastating to staff, officers, inmates and the surrounding communities should an outbreak surge occur within any correctional facility. This particular instance is one of many that points to a systemic problem of how the virus is being addressed within the correctional facilities. We remain deeply disturbed and concerned. As [REDACTED] [REDACTED] pleads, “So many of us here have been so sick. Can you contact as many important

people as possible to tell them that we need testing asap? Please?" We echo her pleas that something must be done immediately, before it is too late for [REDACTED] and many others.

1: Dear, Sosie P.

Good morning. It is extremely hot here, we don't have a/c and the swamp cooler isn't working. I am very very sick with many symptoms. Some days its worst than others. My stomach is in deep pain and nauseated. So nauseated that it makes me so weak that I can't stand up when it happens. My taste buds are messed up, sneezing & cold & runny nose, a busting headache and the list goes on and on with my symptoms. The weakness feels like death when it happens. I need many voices/advocates to speak up for me and others here with the covid 19 symptoms. We need testing but we get denied. Also, they said we're considered a D.N.R. (do-not-resistate) status even though we don't want to be. They said that we have no choice in this matter. Medical has a fake covid 19 health check in place but they don't take our vital signs. They just ask if we're o.k. Then if we say we're sick, they say pay the 4.00 dollar health needs request form (H.N.R.) and ask to be seen by nurse. Then when we pay and get to see the nurse, we still get denied a covid 19 test.

So many of us here have been so sick. Can you contact as many important people to tell them that we need testing a.s.a.p.? Please? Thank you. Maybe you know of someone who can get things done for us here. It's going to take a lot of effort and a lot of prayers to be able to get us testing & help. I've also got to deal →

2.

- with my other health issues too, my back & neck is in pain so bad - worst than labor pains, I have [redacted] & etc. I had a prior [redacted] when my bone disappeared in my lower back. I have a [redacted] it together. Now, 12 years later - it hurts again, and my neck needs surgery now too. Actually the doctors said I needed surgery on it back when I had my lower back done but I put it off, between all that's going on with my health, this heat and etc. I am miserable. A lot of suffering. Can you contact anyone of everyone you know to tell them what's going on here? Hopefully you are able to get us help. We need testing, we need help. With this, my pen-pal boyfriend is trying to help us too. His name is [redacted] He's on Facebook. You can contact him too. He knows what's going on.

P.S. Please put me & the sick ladies here on your prayer chain.

We're going to need all

the help we can get. This is going to take a miracle to be able to get testing.

Also, let me know if you wrote that reference letter or not.

Thank you for all you do and for my Joyce Meyer book - daily reading.

Sincerely,

[redacted]

Subject: 7-17-20 ADHS COVID-19 MEMO
Date: Friday, July 17, 2020 6:35:13 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the most salient COVID-19 issues that the Department is currently addressing:

- The State's free mask distribution program launched today, with over 9,000 orders placed. Arizonans over the age of 65 or those with underlying medical conditions can visit azhealth.gov/OrderMasks to place an order for free cloth face coverings .
- We updated our website today to provide more guidance and information related to [hospital reporting](#). We also maintain a webpage for laboratories to provide information about electronically reporting [laboratory results](#) to public health.
- ADHS continues to order and receive PPE for distribution to local public health for further distribution to healthcare staff and first responders. Today, we received approximately 4,000,000 gloves that our team will re-package for each local health department and distributed across the state.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Lastly, here are some social media posts that you may find useful to disseminate to your constituents:

Title

By signature in the Offer section above, the Offeror certifies:

1. The submission of the Offer did not involve collusion or other anticompetitive practices.
2. The Offeror shall not discriminate against any employee or applicant for employment in violation of Federal Executive Order 11246, State Executive Order 2009-9 or A.R.S. §§ 41-1461 through 1465.
3. The Offeror has not given, offered to give, nor intends to give at any time hereafter any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor, or service to a public servant in connection with the submitted offer. Failure to provide a valid signature affirming the stipulations required by this clause shall result in rejection of the offer. Signing the offer with a false statement shall void the offer, any resulting contract and may be subject to legal remedies provided by law.
4. The Offeror certifies that the above referenced organization **IS/ IS NOT** a small business with less than 100 employees or has gross revenues of \$4 million or less.

ACCEPTANCE OF OFFER

The Offer is hereby accepted.

The Contractor is now bound to sell the materials or services listed by the attached contract and based upon the solicitation, including all terms, conditions, specifications, amendments, etc., and the Contractor's Offer as accepted by the State.

This Contract shall henceforth be referred to as Contract No. **CTR050652**

The effective date of the Contract is upon signature by both parties.

The Contractor is cautioned not to commence any billable work or to provide any material or service under this contract until Contractor receives purchase order, contract release document or written notice to proceed.

State of Arizona
 Awarded this day of 2020

Procurement Officer

UNIFORM TERMS AND CONDITIONS

CONTRACT NO: CTR050652

1. Definition of Terms

As used in this Solicitation and any resulting Contract, the terms listed below are defined as follows:

- 1.1. *"Attachment"* means any item the Solicitation requires the Offeror to submit as part of the Offer.
- 1.2. *"Contract"* means the combination of the Solicitation, including the Uniform and Special Instructions to Offerors, the Uniform and Special Terms and Conditions, and the Specifications and Statement of Scope of Work; the Offer and any Best and Final Offers; and any Solicitation Amendments or Contract Amendments.
- 1.3. *"Contract Amendment"* means a written document signed by the Procurement Officer that is issued for the purpose of making changes in the Contract.
- 1.4. *"Contractor"* means any person who has a Contract with the State.
- 1.5. *"Days"* means calendar days unless otherwise specified.
- 1.6. *"Exhibit"* means any item labeled as an Exhibit in the Solicitation or placed in the Exhibits section of the Solicitation.
- 1.7. *"Gratuity"* means a payment, loan, subscription, advance, deposit of money, services, or anything of more than nominal value, present or promised, unless consideration of substantially equal or greater value is received.
- 1.8. *"Materials"* means all property, including equipment, supplies, printing, insurance and leases of property but does not include land, a permanent interest in land or real property or leasing space.
- 1.9. *"Procurement Officer"* means the person, or his or her designee, duly authorized by the State to enter into and administer Contracts and make written determinations with respect to the Contract.
- 1.10. *"Services"* means the furnishing of labor, time or effort by a contractor or subcontractor which does not involve the delivery of a specific end product other than required reports and performance, but does not include employment agreements or collective bargaining agreements.
- 1.11. *"Subcontract"* means any Contract, express or implied, between the Contractor and another party or between a subcontractor and another party delegating or assigning, in whole or in part, the making or furnishing of any material or any service required for the performance of the Contract.
- 1.12. *"State"* means the State of Arizona and Department or Agency of the State that executes the Contract.
- 1.13. *"State Fiscal Year"* means the period beginning with July 1 and ending June 30.

2. Contract Interpretation

- 2.1. Arizona Law. The Arizona law applies to this Contract including, where applicable, the Uniform Commercial Code as adopted by the State of Arizona and the Arizona Procurement Code, Arizona Revised Statutes (A.R.S.) Title 41, Chapter 23, and its implementing rules, Arizona Administrative Code (A.A.C.) Title 2, Chapter 7.
- 2.2. Implied Contract Terms. Each provision of law and any terms required by law to be in this Contract are a part of this Contract as if fully stated in it.
- 2.3. Contract Order of Precedence. In the event of a conflict in the provisions of the Contract, as accepted by the State and as they may be amended, the following shall prevail in the order set forth below:
 - 2.3.1. Special Terms and Conditions;
 - 2.3.2. Uniform Terms and Conditions;

UNIFORM TERMS AND CONDITIONS

CONTRACT NO: CTR050652

- 2.3.3. Statement or Scope of Work;
 - 2.3.4. Specifications;
 - 2.3.5. Attachments;
 - 2.3.6. Exhibits; and
 - 2.3.7. Documents referenced or included in the Solicitation.
- 2.4. Relationship of Parties. The Contractor under this Contract is an independent Contractor. Neither party to this Contract shall be deemed to be the employee or agent of the other party to the Contract.
- 2.5. Severability. The provisions of this Contract are severable. Any term or condition deemed illegal or invalid shall not affect any other term or condition of the Contract.
- 2.6. No Parole Evidence. This Contract is intended by the parties as a final and complete expression of their agreement. No course of prior dealings between the parties and no usage of the trade shall supplement or explain any terms used in this document and no other understanding either oral or in writing shall be binding.
- 2.7. No Waiver. Either party's failure to insist on strict performance of any term or condition of the Contract shall not be deemed a waiver of that term or condition even if the party accepting or acquiescing in the nonconforming performance knows of the nature of the performance and fails to object to it.

3. Contract Administration and Operation

- 3.1. Records. Under A.R.S. § 35-214 and § 35-215, the Contractor shall retain and shall contractually require each subcontractor to retain all data and other "records" relating to the acquisition and performance of the Contract for a period of five years after the completion of the Contract. All records shall be subject to inspection and audit by the State at reasonable times. Upon request, the Contractor shall produce a legible copy of any or all such records.
- 3.2. Non-Discrimination. The Contractor shall comply with State Executive Order No. 2009-09 and all other applicable Federal and State laws, rules and regulations, including the Americans with Disabilities Act.
- 3.3. Audit. Pursuant to ARS § 35-214, at any time during the term of this Contract and five (5) years thereafter, the Contractor's or any subcontractor's books and records shall be subject to audit by the State and, where applicable, the Federal Government, to the extent that the books and records relate to the performance of the Contract or Subcontract.
- 3.4. Facilities Inspection and Materials Testing. The Contractor agrees to permit access to its facilities, subcontractor facilities and the Contractor's processes or services, at reasonable times for inspection of the facilities or materials covered under this Contract. The State shall also have the right to test, at its own cost, the materials to be supplied under this Contract. Neither inspection of the Contractor's facilities nor materials testing shall constitute final acceptance of the materials or services. If the State determines non-compliance of the materials, the Contractor shall be responsible for the payment of all costs incurred by the State for testing and inspection.
- 3.5. Notices. Notices to the Contractor required by this Contract shall be made by the State to the person indicated on the Offer and Acceptance form submitted by the Contractor unless otherwise stated in the Contract. Notices to the State required by the Contract shall be made by the Contractor to the Solicitation Contact Person indicated on the Solicitation cover sheet, unless otherwise stated in the Contract. An authorized Procurement Officer and an authorized Contractor representative may change their respective person to whom notice shall be given by written notice to the other and an amendment to the Contract shall not be necessary.
- 3.6. Advertising, Publishing and Promotion of Contract. The Contractor shall not use, advertise or promote information for commercial benefit concerning this Contract without the prior written approval of the Procurement Officer.

UNIFORM TERMS AND CONDITIONS

CONTRACT NO: CTR050652

- 3.7. Ownership of Intellectual Property; Other Funding. The Parties to this Contract agree that any Intellectual Property developed by Contractor and its successor will be the property of the Contractor, its member institutions, and its successor pursuant to the policies and procedures of the Contractor, its member institutions, and its successor.
- 3.8. Federal Immigration and Nationality Act. The contractor shall comply with all federal, state and local immigration laws and regulations relating to the immigration status of their employees during the term of the contract. Further, the contractor shall flow down this requirement to all subcontractors utilized during the term of the contract. The State shall retain the right to perform random audits of contractor and subcontractor records or to inspect papers of any employee thereof to ensure compliance. Should the State determine that the contractor and/or any subcontractors be found noncompliant, the State may pursue all remedies allowed by law, including, but not limited to; suspension of work, termination of the contract for default and suspension and/or debarment of the contractor.
- 3.9. E-Verify Requirements. In accordance with A.R.S. § 41-4401, Contractor warrants compliance with all Federal immigration laws and regulations relating to employees and warrants its compliance with Section A.R.S. § 23-214, Subsection A.
- 3.10. Offshore Performance of Work Prohibited. Any services that are described in the specifications or scope of work that directly serve the State of Arizona or its clients and involve access to secure or sensitive data or personal client data shall be performed within the defined territories of the United States. Unless specifically stated otherwise in the specifications, this paragraph does not apply to indirect or 'overhead' services, redundant back-up services or services that are incidental to the performance of the contract. This provision applies to work performed by subcontractors at all tiers.

4. **Costs and Payments**

- 4.1. Payments. Payments shall comply with the requirements of A.R.S. Titles 35 and 41, Net 30 days. Upon receipt and acceptance of goods or services, the Contractor shall submit a complete and accurate invoice for payment from the State within thirty (30) days.
- 4.2. Delivery. Unless stated otherwise in the Contract, all prices shall be F.O.B. Destination and shall include all freight delivery and unloading at the destination.
- 4.3. Applicable Taxes.
 - 4.3.1. Payment of Taxes. The Contractor shall be responsible for paying all applicable taxes.
 - 4.3.2. State and Local Transaction Privilege Taxes. The State of Arizona is subject to all applicable state and local transaction privilege taxes. Transaction privilege taxes apply to the sale and are the responsibility of the seller to remit. Failure to collect such taxes from the buyer does not relieve the seller from its obligation to remit taxes.
 - 4.3.3. Tax Indemnification. Contractor and all subcontractors shall pay all Federal, state and local taxes applicable to its operation and any persons employed by the Contractor. Contractor shall, and require all subcontractors to hold the State harmless from any responsibility for taxes, damages and interest, if applicable, contributions required under Federal, and/or state and local laws and regulations and any other costs including transaction privilege taxes, unemployment compensation insurance, Social Security and Worker's Compensation.
 - 4.3.4. IRS W9 Form. In order to receive payment the Contractor shall have a current I.R.S. W9 Form on file with the State of Arizona, unless not required by law.
- 4.4. Availability of Funds for the Next State fiscal year. Funds may not presently be available for performance under this Contract beyond the current state fiscal year. No legal liability on the part of the State for any payment may arise under this Contract beyond the current state fiscal year until funds are made available for performance of this Contract.

UNIFORM TERMS AND CONDITIONS

CONTRACT NO: CTR050652

4.5. Availability of Funds for the current State fiscal year. Should the State Legislature enter back into session and reduce the appropriations or for any reason and these goods or services are not funded, the State may take any of the following actions:

4.5.1. Accept a decrease in price offered by the contractor;

4.5.2. Cancel the Contract; or

4.5.3. Cancel the contract and re-solicit the requirements.

5. Contract Changes

5.1. Amendments. This Contract is issued under the authority of the Procurement Officer who signed this Contract. The Contract may be modified only through a Contract Amendment within the scope of the Contract. Changes to the Contract, including the addition of work or materials, the revision of payment terms, or the substitution of work or materials, directed by a person who is not specifically authorized by the procurement officer in writing or made unilaterally by the Contractor are violations of the Contract and of applicable law. Such changes, including unauthorized written Contract Amendments shall be void and without effect, and the Contractor shall not be entitled to any claim under this Contract based on those changes.

5.2. Subcontracts. The Contractor shall not enter into any Subcontract under this Contract for the performance of this contract without the advance written approval of the Procurement Officer. The Contractor shall clearly list any proposed subcontractors and the subcontractor's proposed responsibilities. The Subcontract shall incorporate by reference the terms and conditions of this Contract.

5.3. Assignment and Delegation. The Contractor shall not assign any right nor delegate any duty under this Contract without the prior written approval of the Procurement Officer. The State shall not unreasonably withhold approval.

6. Risk and Liability

6.1. Risk of Loss: The Contractor shall bear all loss of conforming material covered under this Contract until received by authorized personnel at the location designated in the purchase order or Contract. Mere receipt does not constitute final acceptance. The risk of loss for nonconforming materials shall remain with the Contractor regardless of receipt.

6.2. Indemnification

6.2.1. Contractor/Vendor Indemnification (Not Public Agency) The parties to this contract agree that the State of Arizona, its departments, agencies, boards and commissions shall be indemnified and held harmless by the contractor for the vicarious liability of the State as a result of entering into this contract. However, the parties further agree that the State of Arizona, its departments, agencies, boards and commissions shall be responsible for its own negligence. Each party to this contract is responsible for its own negligence.

6.2.2. Public Agency Language Only Each party (as 'indemnitor') agrees to indemnify, defend, and hold harmless the other party (as 'indemnitee') from and against any and all claims, losses, liability, costs, or expenses (including reasonable attorney's fees) (hereinafter collectively referred to as 'claims') arising out of bodily injury of any person (including death) or property damage but only to the extent that such claims which result in vicarious/derivative liability to the indemnitee, are caused by the act, omission, negligence, misconduct, or other fault of the indemnitor, its officers, officials, agents, employees, or volunteers."

6.3. Indemnification - Patent and Copyright. The Contractor shall indemnify and hold harmless the State against any liability, including costs and expenses, for infringement of any patent, trademark or copyright arising out of Contract performance or use by the State of materials furnished or work performed under this Contract. The State shall reasonably notify the Contractor of any claim for which it may be liable under this paragraph. If the contractor is insured pursuant to A.R.S. § 41-621 and § 35-154, this section shall not apply.

UNIFORM TERMS AND CONDITIONS
CONTRACT NO: CTR050652

6.4. Force Majeure.

6.4.1. Except for payment of sums due, neither party shall be liable to the other nor deemed in default under this Contract if and to the extent that such party's performance of this Contract is prevented by reason of force majeure. The term "*force majeure*" means an occurrence that is beyond the control of the party affected and occurs without its fault or negligence. Without limiting the foregoing, force majeure includes acts of God; acts of the public enemy; war; riots; strikes; mobilization; labor disputes; civil disorders; fire; flood; lockouts; injunctions-intervention-acts; or failures or refusals to act by government authority; and other similar occurrences beyond the control of the party declaring force majeure which such party is unable to prevent by exercising reasonable diligence.

6.4.2. Force Majeure shall not include the following occurrences:

6.4.2.1. Late delivery of equipment or materials caused by congestion at a manufacturer's plant or elsewhere, or an oversold condition of the market;

6.4.2.2. Late performance by a subcontractor unless the delay arises out of a force majeure occurrence in accordance with this force majeure term and condition; or

6.4.2.3. Inability of either the Contractor or any subcontractor to acquire or maintain any required insurance, bonds, licenses or permits.

6.4.3. If either party is delayed at any time in the progress of the work by force majeure, the delayed party shall notify the other party in writing of such delay, as soon as is practicable and no later than the following working day, of the commencement thereof and shall specify the causes of such delay in such notice. Such notice shall be delivered or mailed certified-return receipt and shall make a specific reference to this article, thereby invoking its provisions. The delayed party shall cause such delay to cease as soon as practicable and shall notify the other party in writing when it has done so. The time of completion shall be extended by Contract Amendment for a period of time equal to the time that results or effects of such delay prevent the delayed party from performing in accordance with this Contract.

6.4.4. Any delay or failure in performance by either party hereto shall not constitute default hereunder or give rise to any claim for damages or loss of anticipated profits if, and to the extent that such delay or failure is caused by force majeure.

6.5. Third Party Antitrust Violations. The Contractor assigns to the State any claim for overcharges resulting from antitrust violations to the extent that those violations concern materials or services supplied by third parties to the Contractor, toward fulfillment of this Contract.

7. Warranties

7.1. Liens. The Contractor warrants that the materials supplied under this Contract are free of liens and shall remain free of liens.

7.2. Quality. Unless otherwise modified elsewhere in these terms and conditions, the Contractor warrants that, for one year after acceptance by the State of the materials, they shall be:

7.2.1. Of a quality to pass without objection in the trade under the Contract description;

7.2.2. Fit for the intended purposes for which the materials are used;

7.2.3. Within the variations permitted by the Contract and are of even kind, quantity, and quality within each unit and among all units;

7.2.4. Adequately contained, packaged and marked as the Contract may require; and

7.2.5. Conform to the written promises or affirmations of fact made by the Contractor.

UNIFORM TERMS AND CONDITIONS
CONTRACT NO: CTR050652

- 7.3. Fitness. The Contractor warrants that any material supplied to the State shall fully conform to all requirements of the Contract and all representations of the Contractor, and shall be fit for all purposes and uses required by the Contract.
- 7.4. Inspection/Testing. The warranties set forth in subparagraphs 7.1 through 7.3 of this paragraph are not affected by inspection or testing of or payment for the materials by the State.
- 7.5. Compliance With Applicable Laws. The materials and services supplied under this Contract shall comply with all applicable Federal, state and local laws, and the Contractor shall maintain all applicable license and permit requirements.
- 7.6. Survival of Rights and Obligations after Contract Expiration or Termination.
- 7.6.1. Contractor's Representations and Warranties. All representations and warranties made by the Contractor under this Contract shall survive the expiration or termination hereof. In addition, the parties hereto acknowledge that pursuant to A.R.S. § 12-510, except as provided in A.R.S. § 12-529, the State is not subject to or barred by any limitations of actions prescribed in A.R.S., Title 12, Chapter 5.
- 7.6.2. Purchase Orders. The Contractor shall, in accordance with all terms and conditions of the Contract, fully perform and shall be obligated to comply with all purchase orders received by the Contractor prior to the expiration or termination hereof, unless otherwise directed in writing by the Procurement Officer, including, without limitation, all purchase orders received prior to but not fully performed and satisfied at the expiration or termination of this Contract.

8. State's Contractual Remedies

- 8.1. Right to Assurance. If the State in good faith has reason to believe that the Contractor does not intend to, or is unable to perform or continue performing under this Contract, the Procurement Officer may demand in writing that the Contractor give a written assurance of intent to perform. Failure by the Contractor to provide written assurance within the number of Days specified in the demand may, at the State's option, be the basis for terminating the Contract under the Uniform Terms and Conditions or other rights and remedies available by law or provided by the contract.
- 8.2. Stop Work Order.
- 8.2.1. The State may, at any time, by written order to the Contractor, require the Contractor to stop all or any part, of the work called for by this Contract for period(s) of days indicated by the State after the order is delivered to the Contractor. The order shall be specifically identified as a stop work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage.
- 8.2.2. If a stop work order issued under this clause is canceled or the period of the order or any extension expires, the Contractor shall resume work. The Procurement Officer shall make an equitable adjustment in the delivery schedule or Contract price, or both, and the Contract shall be amended in writing accordingly.
- 8.3. Non-exclusive Remedies. The rights and the remedies of the State under this Contract are not exclusive.
- 8.4. Nonconforming Tender. Materials or services supplied under this Contract shall fully comply with the Contract. The delivery of materials or services or a portion of the materials or services that do not fully comply constitutes a breach of contract. On delivery of nonconforming materials or services, the State may terminate the Contract for default under applicable termination clauses in the Contract, exercise any of its rights and remedies under the Uniform Commercial Code, or pursue any other right or remedy available to it.

UNIFORM TERMS AND CONDITIONS
CONTRACT NO: CTR050652

- 8.5. Right of Offset. The State shall be entitled to offset against any sums due the Contractor, any expenses or costs incurred by the State, or damages assessed by the State concerning the Contractor's non-conforming performance or failure to perform the Contract, including expenses, costs and damages described in the Uniform Terms and Conditions.

9. Contract Termination

- 9.1. Cancellation for Conflict of Interest. Pursuant to A.R.S. § 38-511, the State may cancel this Contract within three (3) years after Contract execution without penalty or further obligation if any person significantly involved in initiating, negotiating, securing, drafting or creating the Contract on behalf of the State is or becomes at any time while the Contract or an extension of the Contract is in effect an employee of or a consultant to any other party to this Contract with respect to the subject matter of the Contract. The cancellation shall be effective when the Contractor receives written notice of the cancellation unless the notice specifies a later time. If the Contractor is a political subdivision of the State, it may also cancel this Contract as provided in A.R.S. § 38-511.
- 9.2. Gratuities. The State may, by written notice, terminate this Contract, in whole or in part, if the State determines that employment or a Gratuity was offered or made by the Contractor or a representative of the Contractor to any officer or employee of the State for the purpose of influencing the outcome of the procurement or securing the Contract, an amendment to the Contract, or favorable treatment concerning the Contract, including the making of any determination or decision about contract performance. The State, in addition to any other rights or remedies, shall be entitled to recover exemplary damages in the amount of three times the value of the Gratuity offered by the Contractor.
- 9.3. Suspension or Debarment. The State may, by written notice to the Contractor, immediately terminate this Contract if the State determines that the Contractor has been debarred, suspended or otherwise lawfully prohibited from participating in any public procurement activity, including but not limited to, being disapproved as a subcontractor of any public procurement unit or other governmental body. Submittal of an offer or execution of a contract shall attest that the contractor is not currently suspended or debarred. If the contractor becomes suspended or debarred, the contractor shall immediately notify the State.
- 9.4. Termination for Convenience. The State reserves the right to terminate the Contract, in whole or in part at any time with no less than 30 days' written notice to Contractor, when in the best interest of the State, without penalty or recourse. Upon receipt of the written notice, the Contractor shall stop all work, as directed in the notice, notify all subcontractors of the effective date of the termination and minimize all further costs to the State. In the event of termination under this paragraph, all documents, data and reports prepared by the Contractor under the Contract shall become the property of and be delivered to the State upon demand. The Contractor shall be entitled to receive just and equitable compensation for work in progress, work completed and materials accepted before the effective date of the termination. The cost principles and procedures provided in A.A.C. R2-7-701 shall apply.
- 9.5. Termination for Default.
- 9.5.1. In addition to the rights reserved in the contract, the State may terminate the Contract in whole or in part due to the failure of the Contractor to comply with any term or condition of the Contract, to acquire and maintain all required insurance policies, bonds, licenses and permits, or to make satisfactory progress in performing the Contract. The Procurement Officer shall provide written notice of the termination and the reasons for it to the Contractor.
- 9.5.2. Upon termination under this paragraph, all goods, materials, documents, data and reports prepared by the Contractor under the Contract shall become the property of and be delivered to the State on demand.
- 9.5.3. The State may, upon termination of this Contract, procure, on terms and in the manner that it deems appropriate, materials or services to replace those under this Contract. The Contractor shall be liable to the State for any excess costs incurred by the State in procuring materials or services in substitution for those due from the Contractor.

UNIFORM TERMS AND CONDITIONS
CONTRACT NO: CTR050652

9.6. Continuation of Performance Through Termination. The Contractor shall continue to perform, in accordance with the requirements of the Contract, up to the date of termination, as directed in the termination notice.

10. Contract Claims

All contract claims or controversies under this Contract shall be resolved according to A.R.S. Title 41, Chapter 23, Article 9, and rules adopted thereunder.

11. Arbitration

The parties to this Contract agree to resolve all disputes arising out of or relating to this contract through arbitration, after exhausting applicable administrative review, to the extent required by A.R.S. § 12-1518, except as may be required by other applicable statutes (Title 41).

12. Comments Welcome

The State Procurement Office periodically reviews the Uniform Terms and Conditions and welcomes any comments you may have. Please submit your comments to: State Procurement Administrator, State Procurement Office, 100 North 15th Avenue, Suite 201, Phoenix, Arizona, 85007.

SPECIAL TERMS AND CONDITIONS

CONTRACT NO: CTR050652

1. Purpose

Pursuant to provisions of the Arizona Procurement Code, A.R.S. 41-2501 Et Seq., the State of Arizona, Department of Health Services (ADHS) intends to establish a Contract for the materials or services as listed herein.

2. Term of Contract (1 Year)

The term of this Contract will be for one (1) year from the date executed by both parties, unless COVID-19 ends and testing is no longer required.

3. Contract Extensions 5 Year Maximum

The Contract term is for a one (1) year period subject to additional successive periods of twelve (12) months per extension with a maximum aggregate including all extensions not to exceed five (5) years.

4. Contract Type

Fixed Price

5. Licenses

The Contractor shall maintain in current status, all federal, state and local licenses and permits required for the operation of the business conducted by the Contractor.

6. Information Disclosure

The Contractor shall establish and maintain procedures and controls that are acceptable to the State for the purpose of assuring that no information contained in its records or obtained from the State or from others in carrying out its functions under the Contract shall be used or disclosed by it, its agents, officers, or employees, except as required to efficiently perform duties under the Contract. Persons requesting such information should be referred to the State. The Contractor also agrees that any information pertaining to individual persons shall not be divulged other than to employees or officers of Contractor as needed for the performance of duties under the Contract, unless otherwise agreed to in writing by the State.

7. Key Personnel

- 7.1. It is essential that the Contractor provide adequate experienced personnel, capable of and devoted to the successful accomplishment of work to be performed under this Contract. The Contractor must agree to assign specific individuals to the key positions.
- 7.2. The Contractor agrees that, once assigned to work under this Contract, key personnel shall not be removed or replaced without written notice to the State.
- 7.3. Key personnel not available for work under this Contract for a continuous period exceeding thirty (30) calendar days, or are expected to devote substantially less effort to the work than initially anticipated, the Contractor shall immediately notify the State, and shall, subject to the concurrence of the State, replace such personnel with personnel of substantially equal ability and qualifications.

8. Pricing

Most-Favored Customer - Throughout the life of the contract, the Contractor shall always offer the State the Most-Favored Customer or Highest Tier Customer price discount rate on contracted product(s) concurrent with a published price discount rate made to other Customers (both Private and Public sectors). The Contractor shall extend to the State that most-favored customer or Highest Tier Customer price discount on all new product lines during the life of the contract.

SPECIAL TERMS AND CONDITIONS

CONTRACT NO: CTR050652

9. Non-Exclusive Contract

This Contract is issued with the understanding and agreement that it is for the sole convenience of the State of Arizona. The State reserves the right to obtain like goods or services from another source when necessary, or when determined to be in the best interest of the State.

10. Volume of Work

The ADHS does not guarantee a specific amount of work either for the life of the Contract or on an annual basis.

11. Employees of the Contractor

All employees of the Contractor employed in the performance of work under the Contract shall be considered employees of the Contractor at all times, and not employees of the ADHS or the State. The Contractor shall comply with the Social Security Act, Workman's Compensation laws and Unemployment laws of the State of Arizona and all State, local and Federal legislation relevant to the Contractor's business.

12. Order Process

The award of a Contract shall be in accordance with the Arizona Procurement Code. Any attempt to represent any material and/or service not specifically awarded as being under Contract with ADHS is a violation of the Contract and the Arizona Procurement Code. Any such action is subject to the legal and contractual remedies available to the state inclusive of, but not limited to, Contract cancellation, suspension and/or debarment of the Contractor.

13. Contractor Performance Reports

Program management shall document Contractor performance, both exemplary and needing improvements where corrective action is needed or desired. Copies of corrective action reports will be forwarded to the ADHS Procurement Office for review and any necessary follow-up. The Procurement Office may contact the Contractor upon receipt of the report and may request corrective action. The Procurement Office shall discuss the Contractor's suggested corrective action plan with the Procurement Specialist for approval of the plan.

14. Payment Procedures

- 14.1. ADHS accounting will not make payments to any Entity, Group or individual other than the Contractor with the Federal Employer Identification (FEI) Number identified in the Contract. Contractor invoices requesting payment to any Entity, Group or individual other than the contractually specified Contractor shall be returned to the Contractor for correction.
- 14.2. The Contractor shall review and insure that the invoices for services provided show the correct Contractor name prior to sending them to the ADHS Accounting Office for payment.
- 14.3. If the Contractor Name and FEI Number change, the Contractor must complete an "Assignment and Agreement" form transferring Contract rights and responsibilities to the new Contractor. ADHS must indicate consent on the form. A written Contract Amendment must be signed by both parties and a new W-9 form must be submitted by the new Contractor and entered into the system prior to any payments being made to the new Contractor.

15. Financial Management

- 15.1. For all contracts, the practices, procedures, and standards specified in and required by the Accounting and Auditing Procedures Manual for Arizona Department of Health Services funded programs shall be used by the Contractor in the management of Contract funds and by the ADHS when performing a Contract audit. Funds collected by the Contractor in the form of fees, donations and/or charges for the delivery of these Contract services shall be accounted for in a separate fund.
- 15.2. State Funding. Contractors receiving state funds under this Contract shall comply with the certified Compliance provisions of A.R.S. § 35-181.03.

SPECIAL TERMS AND CONDITIONS

CONTRACT NO: CTR050652

- 15.3. Federal Funding. Contractors receiving federal funds under this Contract shall comply with the certified finance and compliance audit provision of the Office of Management and Budget (OMB) Circular A-133, if applicable. The federal financial assistance information shall be stated in a Change Order or Purchase Order.

16. Inspection and Acceptance

All services, data and required reports are subject to final inspection, review, evaluation and acceptance by the ADHS. The ADHS may withhold payment for services that are deemed to not meet Contract standards.

17. Authorization for Services

Authorization for purchase of services under this Contract shall be made only upon ADHS issuance of a Purchase Order that is signed by an authorized agent. The Purchase Order will indicate the Contract number and the dollar amount of funds authorized. The Contractor shall only be authorized to perform services up to the amount on the Purchase Order. ADHS shall not have any legal obligation to pay for services in excess of the amount indicated on the Purchase Order. No further obligation for payment shall exist on behalf of ADHS unless a) the Purchase Order is changed or modified with an official ADHS Procurement Change Order, and/or b) an additional Purchase Order is issued for purchase of services under this Contract.

18. Indemnification Clause

- 18.1. Contractor shall indemnify, defend with counsel reasonably approved by the State, and hold harmless, the State, its departments, agencies, boards, commissions, universities, officers, agents and employees (collectively, the "Indemnitee") from and against any and all claims, actions, damages, costs (including attorneys' fees), and losses caused, or alleged to be caused, in whole or in part, by the negligent or willful acts or omissions of Contractor or any of its owners, officers, directors, agents, employees or subcontractors. arising under this Contract, including, but not limited to, bodily injury or personal injury (including death) or loss or damage to tangible or intangible property, but excluding damages arising solely from the gross negligence or willful misconduct of the Indemnitee. This indemnification obligation includes any claim or amount arising out of, or recovered under, the Workers' Compensation Law or arising out of the failure of Contractor to comply with any federal, state or local law, statute, ordinance, rule, regulation or court decree. Contractor shall have control, subject to the reasonable approval of the State, of the defense of any action on such claim and all negotiations for its settlement or compromise, provided, however, that when substantial principles of government or public law are involved, or when involvement of the State is otherwise mandated by law, the State may elect, in its sole and absolute discretion, to participate in such action at its own expense with respect to attorneys' fees and costs, but not liability, and the State shall have the right to approve or disapprove any settlement, which approval shall not be unreasonably withheld or delayed. The State shall reasonably cooperate in its defense and any related settlement negotiations.
- 18.2. This indemnity shall not apply if the Contractor or Sub-contractor(s) is/are an agency, board, commission or university of the State of Arizona.

19. Insurance Requirements

- 19.1 Professional Liability insurance is issued for a "professional" and covers the rendering of, or failure to render, services of a professional nature. Professional Liability insurance is usually written on a claims-made basis. Therefore, the Contractor needs to maintain coverage during the contract period and for a specified period (typically two years) *after* the project has been completed.

The types of losses that can occur as a result of professional rendering services are often excluded under general liability insurance policies. Therefore, these losses need to be covered through a separate professional liability insurance policy.

Professional liability insurance is needed when one of the following applies:

SPECIAL TERMS AND CONDITIONS

CONTRACT NO: CTR050652

19.1.1 If the professional is licensed, registered, or certified and expected to follow the usual and customary standards of their profession. Professions in this category include, but are not limited to, accountants, attorneys, engineers/architects, construction management, technical consultant, surveyor (AF), and appraisers.

19.1.2 If the information provided by the professional is to be used by the State of Arizona in a decision-making process that may have an impact to life, health, safety, and/or a significant financial impact to the State, its agencies, and the public.

19.2 **Insurance Requirements**

19.2.1 Contractor and subcontractors shall procure and maintain, until all of their obligations have been discharged, including any warranty periods under this Contract, insurance against claims for injury to persons or damage to property arising from, or in connection with, the performance of the work hereunder by the Contractor, its agents, representatives, employees or subcontractors.

19.2.2 The Insurance Requirements herein are minimum requirements for this Contract and in no way limit the indemnity covenants contained in this Contract. The State of Arizona in no way warrants that the minimum limits contained herein are sufficient to protect the Contractor from liabilities that arise out of the performance of the work under this Contract by the Contractor, its agents, representatives, employees or subcontractors, and the Contractor is free to purchase additional insurance.

19.3 **Minimum Scope and Limits of Insurance**

Contractor shall provide coverage with limits of liability not less than those stated below.

19.3.1 Commercial General Liability (CGL) – Occurrence Form

Policy shall include bodily injury, property damage, and broad form contractual liability coverage.

- General Aggregate \$2,000,000
- Products – Completed Operations Aggregate \$1,000,000
- Personal and Advertising Injury \$1,000,000
- Damage to Rented Premises \$50,000
- Each Occurrence \$1,000,000

SPECIAL TERMS AND CONDITIONS
CONTRACT NO: CTR050652

19.3.2 Business Automobile Liability

Bodily Injury and Property Damage for any owned, hired, and/or non-owned automobiles used in the performance of this Contract.

- Combined Single Limit (CSL) \$1,000,000

19.3.3 Workers' Compensation and Employers' Liability

- Workers' Compensation Statutory
- Employers' Liability
 - Each Accident \$1,000,000
 - Disease – Each Employee \$1,000,000
 - Disease – Policy Limit \$1,000,000

- a. This requirement shall not apply to each Contractor or subcontractor that is exempt under A.R.S. § 23-901, and when such Contractor or subcontractor executes the appropriate waiver form (Sole Proprietor or Independent Contractor).

19.3.4 Professional Liability (Errors and Omissions Liability)

- Each Claim \$2,000,000
- Annual Aggregate \$2,000,000

- a. In the event that the Professional Liability insurance required by this Contract is written on a claims-made basis, Contractor warrants that any retroactive date under the policy shall precede the effective date of this Contract and, either continuous coverage will be maintained, or an extended discovery period will be exercised, for a period of two (2) years beginning at the time work under this Contract is completed.
- b. The policy shall cover professional misconduct or negligent acts for those positions defined in the Scope of Work of this contract.

19.4 **Additional Insurance Requirements**

The policies shall include, or be endorsed to include, as required by this written agreement, the following provisions:

SPECIAL TERMS AND CONDITIONS

CONTRACT NO: CTR050652

19.4.1 Insurance provided by the Contractor shall not limit the Contractor's liability assumed under the indemnification provisions of this Contract.

19.5 Notice of Cancellation

Applicable to all insurance policies required within the Insurance Requirements of this Contract, Contractor's insurance shall not be permitted to expire, be suspended, be canceled, or be materially changed for any reason without thirty (30) days prior written notice to the State of Arizona. Within two (2) business days of receipt, Contractor must provide notice to the State of Arizona if they receive notice of a policy that has been or will be suspended, canceled, materially changed for any reason, has expired, or will be expiring. Such notice shall be sent directly to the Department and shall be mailed, emailed, hand delivered or sent by facsimile transmission to (State Representative's Name, Address & Fax Number).

19.6 Acceptability of Insurers

Contractor's insurance shall be placed with companies licensed in the State of Arizona or hold approved non-admitted status on the Arizona Department of Insurance List of Qualified Unauthorized Insurers. Insurers shall have an "A.M. Best" rating of not less than A- VII. The State of Arizona in no way warrants that the above-required minimum insurer rating is sufficient to protect the Contractor from potential insurer insolvency.

19.7 Verification of Coverage

Contractor shall furnish the State of Arizona with certificates of insurance (valid ACORD form or equivalent approved by the State of Arizona) evidencing that Contractor has the insurance as required by this Contract. An authorized representative of the insurer shall sign the certificates.

19.7.1 All such certificates of insurance and policy endorsements must be received by the State before work commences. The State's receipt of any certificates of insurance or policy endorsements that do not comply with this written agreement shall not waive or otherwise affect the requirements of this agreement.

19.7.2 Each insurance policy required by this Contract must be in effect at, or prior to, commencement of work under this Contract. Failure to maintain the insurance policies as required by this Contract, or to provide evidence of renewal, is a material breach of contract.

19.7.3 All certificates required by this Contract shall be sent directly to the Department. The State of Arizona project/contract number and project description shall be noted on the certificate of insurance. The State of Arizona reserves the right to require complete copies of all insurance policies required by this Contract at any time.

19.8 Subcontractors

Contractor's certificate(s) shall include all subcontractors as insureds under its policies or Contractor shall be responsible for ensuring and/or verifying that all subcontractors have valid and collectable insurance as evidenced by the certificates of insurance and endorsements for each subcontractor. All coverages for subcontractors shall be subject to the minimum Insurance Requirements identified above. The Department reserves the right to require, at any time throughout the life of this contract, proof from the Contractor that its subcontractors have the required coverage.

19.9 Approval and Modifications

The Contracting Agency, in consultation with State Risk, reserves the right to review or make modifications to the insurance limits, required coverages, or endorsements throughout the life of this contract, as deemed necessary. Such action will not require a formal Contract amendment but may be made by administrative action.

19.10 Exceptions

In the event the Contractor or subcontractor(s) is/are a public entity, then the Insurance Requirements shall not apply. Such public entity shall provide a certificate of self-insurance. If the Contractor or

SPECIAL TERMS AND CONDITIONS

CONTRACT NO: CTR050652

subcontractor(s) is/are a State of Arizona agency, board, commission, or university, none of the above shall apply.

20. Health Insurance Portability and Accountability Act of 1996

- 20.1. The Contractor warrants that it is familiar with the requirements of HIPAA, as amended by the Health Information Technology for Economic and Clinical Health Act (HITECH Act) of 2009, and accompanying regulations and will comply with all applicable HIPAA requirements in the course of this Contract. Contractor warrants that it will cooperate with the Arizona Department of Health Services (ADHS) in the course of performance of the Contract so that both ADHS and Contractor will be in compliance with HIPAA, including cooperation and coordination with the Arizona Department of Administration-Arizona Strategic Enterprise Technology (ADOA-ASET) Office, the ADOA-ASET Arizona State Chief Information Security Officer and HIPAA Coordinator and other compliance officials required by HIPAA and its regulations. Contractor will sign any documents that are reasonably necessary to keep ADHS and Contractor in compliance with HIPAA, including, but not limited to, business associate agreements.
- 20.2. If requested by the ADHS Procurement Office, Contractor agrees to sign a "Pledge to Protect Confidential Information" and to abide by the statements addressing the creation, use and disclosure of confidential information, including information designated as protected health information and all other confidential or sensitive information as defined in policy. In addition, if requested, Contractor agrees to attend or participate in HIPAA training offered by ADHS or to provide written verification that the Contractor has attended or participated in job related HIPAA training that is: (1) intended to make the Contractor proficient in HIPAA for purposes of performing the services required and (2) presented by a HIPAA Privacy Officer or other person or program knowledgeable and experienced in HIPAA and who has been approved by the ADOA-ASET Arizona State Chief Information Security Officer and HIPAA Coordinator.

21. Pandemic Contractual Performance

- 21.1. The State shall require a written plan that illustrates how the Contractor shall perform up to contractual standards in the event of a pandemic. The State may require a copy of the plan at any time prior or post award of a Contract. At a minimum, the pandemic performance plan shall include:
- 21.1.1. Key succession and performance planning if there is a sudden significant decrease in Contractor's workforce;
 - 21.1.2. Alternative methods to ensure there are products in the supply chain; and
 - 21.1.3. An up to date list of company contacts and organizational chart.
- 21.2. In the event of a pandemic, as declared the Governor of Arizona, U.S. Government or the World Health Organization, which makes performance of any term under this Contract impossible or impracticable, the State shall have the following rights:
- 21.2.1. After the official declaration of a pandemic, the State may temporarily void the Contract(s) in whole or specific sections, if the Contractor cannot perform to the standards agreed upon in the initial terms;
 - 21.2.2. The State shall not incur any liability if a pandemic is declared and emergency procurements are authorized by the Director as per A.R.S. 41-2537 of the Arizona Procurement Code; and
 - 21.2.3. Once the pandemic is officially declared over and/or the Contractor can demonstrate the ability to perform, the State, at its sole discretion, may reinstate the temporarily voided Contract(s).
- 21.3. The State, at any time, may request to see a copy of the written plan from the Contractor. The Contractor shall produce the written plan within seventy-two (72) hours of the request.

SPECIAL TERMS AND CONDITIONS

CONTRACT NO: CTR050652

22. The Federal Funding Accountability and Transparency Act (FFATA or Transparency Act - P.L.109-282, as amended by section 6202(a) of P.L. 110-252), found at <https://www.frs.gov/>

If applicable, the Contractor/Grantee shall submit to ADHS via email the Grant Reporting Certification Form. This form and the instructions can be downloaded from the ADHS Procurement website at <http://www.azdhs.gov/operations/financial-services/procurement/index.php#ffata> and must be returned to the ADHS by the 15th of the month following that in which the award was received. The form shall be completed electronically, and submitted using the steps outlined in the Grant Reporting Certification Form Instructions to the following email address: ADHS_Grant@azdhs.gov. All required fields must be filled including Top Employee Compensation, if applicable. Completing the Grant Reporting Certification Form is required for compliance with the Office of Management and Budget (OMB), found at <http://www.whitehouse.gov/omb/open>. Failure to timely submit the Grant Reporting Certification Form could result in the loss of funds. This requirement applies to all subcontractors/sub-awardees utilized by the Contractor/Grantee for amounts exceeding \$30,000.00 during the term of the Award.

23. Transition Activities

- 23.1. Upon termination of this Contract, if ADHS anticipates a continued need for the Contract Services specified herein and a Contract is awarded to a new Contractor, there shall be a transition of services period of not less than thirty (30) days. During this period, the existing Contractor shall work closely with the new Contractor, or Contractors, personnel and/or staff to ensure a smooth and complete transfer of duties and responsibilities;
- 23.2. An authorized representative from ADHS shall coordinate all transition activities. A transition plan will be developed in conjunction with the outgoing Contractor to assist the new Contractor, or Contractors, personnel and/or staff to implement the transfer of duties;
- 23.3. ADHS reserves the right to determine which projects nearing completion will remain with the current Contractor of record.
- 23.4. The Contractor shall return all ADHS equipment, reports, and any other documentation developed during the term of the Contract that ADHS deems necessary to maintain ongoing operations.

24. Contracting; Procurement; Investment; Prohibitions

- 24.1. A public entity may not enter into a contract with a company to acquire or dispose of services, supplies, information technology or construction unless the contract includes a written certification that the company is not currently engaged in, and agrees for the duration of the contract to not engage in, a boycott of Israel.
- 24.2. A public entity may not adopt a procurement, investment or other policy that has the effect of inducing or requiring a person or company to boycott Israel.

SCOPE OF WORK

CONTRACT NO: CTR050652

1. Background

1.2 Due to the recent outbreak of COVID-19 and the State of Emergency issued by Governor Ducey on March 11, 2020, and also the President of the United States on March 13, 2020, expanded testing is needed to ensure the safety, health and welfare of all Arizonans. Congregate settings such as correctional facilities are at increased risk for outbreaks of COVID-19.

2. Objective

To collect swabs from inmates and conduct Reverse Transcription Polymerase Chain Reaction (RT-PCR) tests, provide results to inmates and the Arizona Department of Corrections Rehabilitation and Recovery (ADOCRR), at ADOCRR contracted facilities in Arizona to assist with controlling COVID-19 in these facilities and lessen the impact.

3. Tasks

The Contractor shall:

3.1 Utilize Garcia Labs who is the Contractor's current laboratory sub-contracted Supplier throughout the State of Arizona. Garcia and Centurion shall coordinate with ADOCRR operational entities and supply the staffing, personal protective equipment (PPE), requisitioning processes, courier services, and electronic reporting that is currently in existence to support this enhanced testing initiative. The utilization of SARS-CoV-2 specimens and only Food and Drug Administration (FDA) approved collection kits with FDA Emergency Use Authorization (EUA) approved RT-PCR test will be permitted. Only a Clinical Laboratory Improvement Amendments (CLIA) certified laboratory for all inmates in ADOCRR contracted facilities in Arizona is approved; Should Garcia Labs be unable to continue to provide the level of service needed, or if newer or more beneficial testing is available and has received FDA EUA, then Centurion reserves the right to also make use of such tests such as and not limited to:

BD's Veritor System (rapid antigen test)

Quidel's Sophia 2 (rapid antigen test)

Cepheid's Xpert Xpress (rapid RT-PCR)

Mesa Biotech's Accula (rapid RT-PCR)

Cue's CUE Covid-19 test (rapid TR-PCR)

Rutgers Clinical Genomics Laboratory TaqPath SARS-CoV-2-Assay (RT-PCR saliva test)

3.2 Utilize FDA approved collection kits;

3.3 Provide appropriate PPE and screening for symptoms and fever for COVID-19 for Contractor staff collecting specimens;

3.4 Provide physician orders for SARS-CoV-2 RT-PCR testing for all participating inmates;

3.5 Follow prioritization and coordinate the timing of specimen collections with ADOCRR;

3.6. Ensure electronic reporting of all laboratory results using ADHS approved formats (Health Level Seven International (HL7) or flat file within one (1) business day of the result date;

3.7. Complete a spreadsheet or Google Form at least weekly for each facility including the number of specimens collected by each facility and test results upon completion of each round of specimen collections and report this to both ADOCRR and ADHS;

3.8. Maintain confidentiality of facility names and individuals whom specimens were collected under this Contract,

SCOPE OF WORK
CONTRACT NO: CTR050652

regardless of media knowledge; and

- 3.9. Coordinate and receive approval from ADOCRR and ADHS on any press releases, interviews, advertising or social media related to the testing of these facilities.

1. Requirements

The Contractor shall:

- 5.1 Comply with all State and Federal regulations for testing;
- 5.2 Coordinate specimen collection with ADOCRR and each facility; and

SCOPE OF WORK
CONTRACT NO: CTR050652

5.3 Upon execution of the Contract provide a Certificate of Liability Insurance (COI) that exactly matches the Special Terms and Conditions for Insurance. A current and valid COI shall be provided to ADHS during the Contract Term. A Purchase Order to commence services will not be provide without a COI on file with ADHS Procurement.

6. Approvals

6.1. ADHS will approve all invoices prior to payment.

7. State Provided Items

7.1. ADHS will provide the reporting format for electronic laboratory reporting.

8. Deliverables

The Contractor shall:

8.1. Provide aggregate monthly data on all number and result for all specimens collected by facility to the ADHS by the 10th of the following month; and

8.2 Provide invoices in a format approved by ADHS.

9. Notices, Correspondence, and Reports

9.1. Notices, correspondence, reports and CERs from the Contractor to ADHS shall be sent to:

Arizona Department of Health Services
150 North 18th Avenue, Suite 100
Phoenix, Arizona 85007
Attn: Kenneth Komatsu

9.2. Invoices shall be sent to: invoices@azdhs.gov for review and payment, a copy should be sent to Kenneth Komatsu;

9.3. Notices, correspondence, and reports (and payments if sent to the same address) from ADHS to the Contractor shall be sent to:

Boycott of Israel Disclosure

CONTRACT NO: CTR050652

Please note that if any of the following apply to this Solicitation, Contract, or Contractor, then the Offeror shall select the "Exempt Solicitation, Contract, or Contractor" option below:

- The Solicitation or Contract has an estimated value of less than \$100,000;
- Contractor is a sole proprietorship;
- Contractor has fewer than ten (10) employees; OR
- Contractor is a non-profit organization.

Pursuant to A.R.S. §35-393.01, public entities are prohibited from entering into contracts "unless the contract includes a written certification that the company is not currently engaged in, and agrees for the duration of the contract to not engage in, a boycott of goods or services from Israel."

Under A.R.S. §35-393:

1. "Boycott" means engaging in a refusal to deal, terminating business activities or performing other actions that are intended to limit commercial relations with entities doing business in Israel or in territories controlled by Israel, if those actions are taken either:
 - (a) Based in part on the fact that the entity does business in Israel or in territories controlled by Israel.
 - (b) In a manner that discriminates on the basis of nationality, national origin or religion and that is not based on a valid business reason.
2. "Company" means an organization, association, corporation, partnership, joint venture, limited partnership, limited liability partnership, limited liability company or other entity or business association, including a wholly owned subsidiary, majority-owned subsidiary, parent company or affiliate, that engages in for-profit activity and that has ten or more full-time employees.
3. "Public entity" means this State, a political subdivision of this State or an agency, board, commission or department of this State or a political subdivision of this State.

The certification below does not include boycotts prohibited by 50 United States Code Section 4842 or a regulation issued pursuant to that section. See A.R.S. §35-393.03.

In compliance with A.R.S. §§35-393 et seq., all offerors must select one of the following:

- The Company submitting this Offer does not participate in, and agrees not to participate in during the term of the contract, a boycott of Israel in accordance with A.R.S. §§35-393 et seq. I understand that my entire response will become public record in accordance with A.A.C. R2-7-C317.
- The Company submitting this Offer does participate in a boycott of Israel as described in A.R.S. §§35-393 et seq.
- Exempt Solicitation, Contract, or Contractor.**

Indicate which of the following statements applies to this Contract:

- Solicitation or Contract has an estimated value of less than \$100,000;
- Contractor is a sole proprietorship;
- Contractor has fewer than ten (10) employees; and/or
- Contractor is a non-profit organization.

I put a number of sheriff's concerns about the guidance on the document. Additionally, I thought it might be helpful for me to send around the agreement that the sheriffs and the state set for transfers of inmates in early April. There are a few things in this new set of guidance that seem to oppose the previous agreement, but many are consistent or very similar. I want to make sure we all have eyes on both. I think we can definitely get this done but we need to be as flexible as we can because we are all trying to reach the same goal of protecting these vulnerable groups and the workers protecting them. I just do not have a working knowledge of our reach/resources/capabilities because both AZDHS and ADCRR are working on this issue 100% of the time already.

On Wed, Jun 24, 2020 at 12:43 PM Cara Christ <cara.christ@azdhs.gov> wrote:

Hi!

The team is working on an infectious disease prevention plan that we could discuss with the Sheriffs regarding transfers.

Here is the map of the U of A testing locations:

Please let me know if you have any questions or need additional information.

Director Christ and Director Shinn,

Thank you for meeting with us today. I have documented below summary notes and the action items from our meeting. If I missed anything, please let me know.

Action Items:

- After meeting with DHS today, DCRR will provide a timeline for testing inmates over the coming weeks
- Dr Christ will identify the UofA Serology testing site near Florence
- Sarah will set up a meeting with DHS, DCRR, and Gov's Office to discuss working with Sherriffs to test inmates in county facilities.
- Dr Christ will work with her team to begin development of guidance for county jails
- DCRR will update the timeline for face coverings supply and deployment; and send policy for face covering use.

Summary Notes:

- **Serology Testing:** Successful testing at Florence last week, testing at Eyman this week, and next week testing w/ private prisons in the same area. Yuma and Lewis next on the list. Partnership with Sonora Quest going well.
- **Inmate PCR Testing:** DHS/DCRR meeting today to finalize plan. Lab Corp has testing capacity, will need to work out staffing capacity and deployment plan.
- Onsite Visits planning underway
- **Face Coverings:** # face coverings needed updated for intakes/exits.
- **Fire Crews:** All inmate fire crews have been deployed, developed deactivation plan w DFFM for after fire season.
- **Dashboard:** Internal dashboard has been updated, working on incorporating county data

Proposal: Transfer of Inmates Sentenced to ADCRR during COVID-19

Background: In order to implement CDC guidance for managing COVID-19 in the state prison system, the Arizona Department of Corrections, Rehabilitation and Reentry (ADCRR) will be implementing a 14-day cohort of inmates upon intake from the county jails. The ADCRR intake facility, Alhambra, is limited to a capacity of up to 500 inmates at any one time.

Beginning Friday, April 10th: ADCRR will intake up to 250 inmates per week from county jails who have been sentenced to ADCRR, and begin the cohorting process (Cohort A). For the first week only, leaving half of Alhambra open and sterile during this time to await the next cohort (Cohort B) which will arrive on April 17th.

1. ADCRR will pay County Sheriff's Offices the holding county per-diem rate per day for each inmate that is held by the county past the date ADCRR is informed the inmate is ready for transfer as set forth in *Dupnik v. MacDougall*, 136 Ariz. 39 (1983).
2. ADCRR is responsible for all healthcare expenses, other than those provided by the county's regular healthcare provider's scope of services of ADCRR inmates in county custody resulting from medical care and/or hospitalization past the date ADCRR is informed the inmate is ready for transfer to ADCRR.
3. ADCRR will accept transfers into their custody every 7 days but in no case will transfer inmates later than every 9 days. These transfers will be made up of no more than 250 inmates in total from all counties throughout the state. The breakdown of inmates shall be based on the percentage of the total Arizona population of the sentencing county in proportion to the 250 slots available for inmates at ADCRR Alhambra intake facility.
4. County Sheriff's Offices will hold ADCRR inmates for up to 6 days but in no case will inmates be required to be held longer than 8 days past the date ADCRR is informed the inmate is ready for transfer to ADCRR unless there are more than a total of 250 ADCRR inmates ready for transfer. In that case, those counties with the capacity to hold the overage inmates will be requested to do so for an extra 6 days. *The only exception is during the first two cohorts (April 10th - April 17th) while reopening ADCRR intake which was suspended on March 27th.*
5. Each County Sheriff's Office shall notify ADCRR of the capacity of their facilities to hold inmates ready for transfer. If there is a week when more than 250 ADCRR inmates are ready for transfer from county jails to ADCRR, the state requests that those counties with the capacity to hold the overage inmates do so for an extra week and then these inmates would be transferred the following week.
6. ADCRR will not deny any inmate due to flu-like symptoms or the result of a COVID-19 test, but the counties are required to notify ADCRR at least twenty-four (24)

hours prior to scheduled transfer so that the appropriate arrangements for transport and intake can be made to best protect the health and safety of the inmate, other inmates and correctional staff as is currently the protocol for other infectious diseases.

7. For dangerous inmates with special circumstances or inmates in protective custody, ADCRR and the sentencing county will work to identify appropriate transfer protocols on a case-by-case basis.

8. Each sheriff's office shall designate the point of contact for ADCRR regarding this memorandum of understanding.

Subject: 7-15-20 ADHS COVID-19 MEMO
Date: Wednesday, July 15, 2020 8:51:31 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the most salient COVID-19 issues that the Department is currently addressing:

- Today, ADHS [announced](#) a contract with Vizient, Inc. to provide nearly 600 intensive care unit and medical surgical nursing staff to Arizona hospitals. ADHS will provide these critical resources to hospitals for up to six weeks free of charge as hospitals enhance their internal surge plans to increase staffing.
- ADHS continues discussions with local public health, healthcare, and community partners about expanding access to testing around the state. Nearly 350 locations around the state are currently listed on the [ADHS COVID-19 Testing Sites webpage](#).
- ADHS met with school leaders today to continue ongoing discussions about preparations for the upcoming school year.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

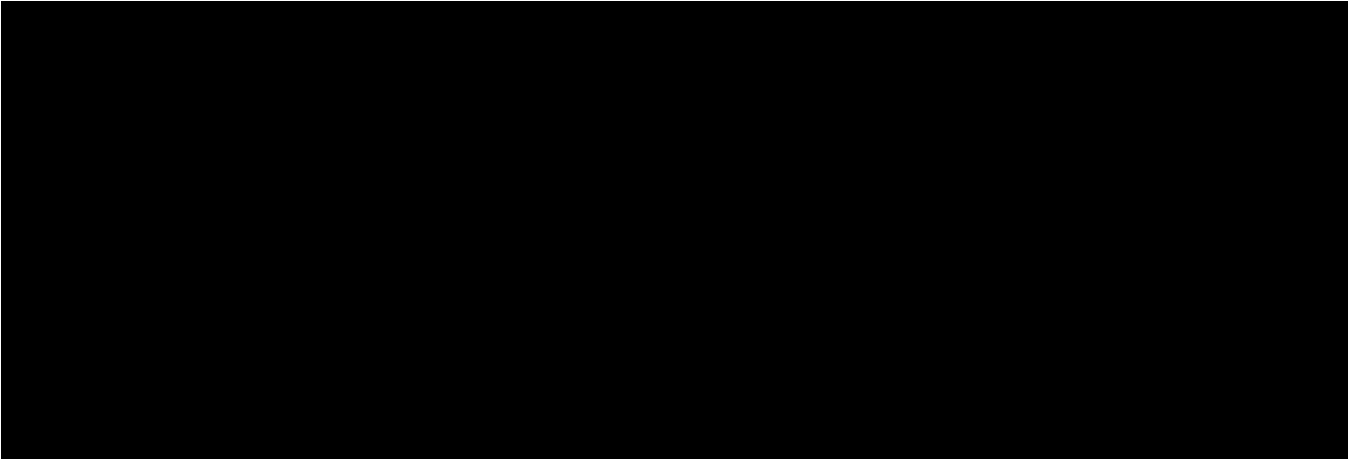

Lastly, here are some social media posts that you may find useful to disseminate to your constituents:

- <https://twitter.com/AZDHS/status/1283189542070231043?s=20>
- <https://twitter.com/AZDHS/status/1283500335672197120?s=20>

Thank you for your investment in helping Arizona address COVID-19 in Ari

Director Shinn,

As a follow up to our phone conversation last night, attached is a quick summary of the rapid testing opportunity that Dr. Wu wrote up in connection with his colleagues that are coordinating the effort.

We see tremendous benefit in having the ability to do rapid testing if successful with the grant. As I mentioned last night - Ken Komatsu from the Dept of Health is supportive and asked Dr. Wu if he could write a letter to support the efforts.

Just need to make sure you have no reservations before we move forward with Centurion participating. Happy to set up a call if you have further questions.

Separate topic - we are on schedule to provide the redline draft of the testing agreement to DHS before noon AZ time.

Date: Tuesday, July 14, 2020 8:30:11 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- Today, ADHS, along with DEMA and the US Department of Health and Human Services, announced a new partnership to conduct free community-based diagnostic testing at two sites in Phoenix beginning on July 17 and running for 12 days. A total of 5,000 people can be tested per day at these two sites. Additional information is available [here](#).
- ADHS hosted meetings with partners today to provide information about additional reporting requirements contained with [Executive Order 2020-48](#), and enhanced surveillance advisory that will provide public health additional information about capacity and bed utilization within hospitals and post acute care facilities. This information allows for additional situational awareness to drive decision making and resource allocation to support Arizona's healthcare system.
- We continue to promote public messaging about the steps that Arizonans can take to prevent the spread of COVID-19. This includes TV and social media videos and billboards. Our [Communications page](#) has many of these resources posted. Check out [this video](#) about what Arizonans can do to slow the spread of COVID-19.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

To: David Shinn <dshinn@azadc.gov>

Mr. shinn

I am trying to reach out to you in regards to the admin leave that is given to an employee that has to be out for actual covid or possible covid 19 cases. I am a [REDACTED] at [REDACTED] complex. I was pretty sick for about 3 weeks this last month. I was advised that I could not go to work if I had any flu like related symptoms. I did not go to work for 3 weeks due to the fact that I was sick with multiple flu like symptoms. I was forced to stay home and not be able to go to work sick even if I wanted to due to covid. In the process of me being sick I got tested 5 to 6 different times during that 3 week span in which I had to wait days for me to get the results on each individual test. I also continuously Happened to show and had flu like symptoms during the entire 3 weeks.

I just got a letter where I am being denied the admin leave. How could I get denied the admin leave when I was out due to being forced to be off work even if I wanted to be at work while I felt sick. I wouldn't make it passed the front gate because I had running fevers and other issues. I find it extremely unfair and unjust that employees of the department get sick or become sick and even though is not covid they are forced to stay home until they are clear from testing and all symptoms are gone so they can return to work and yet they get denied admin leave. I stayed home not because I wanted to but I was forced to due to symptoms that continued to arise during the 3 weeks I was sick. I want to appeal this decision made by the deputy directors office. Through you and ADOA. What steps can I take to appeal this process.

[REDACTED]

I am responding to the email you sent Director Shinn on April 27, 2020 regarding your concerns about continuing program services during these times. Yes, I am aware that classes have continued on as usual. I am certain that, as a corrections professional, you understand the necessity of keeping a population of over 41,000 men and women occupied in prosocial activities. Your programs are considered an essential service which is why they have continued. ADCRR is not alone in the decision to keep programming running as each state makes a decision based upon their physical plant structures and the number of cases within their system.

Prisons by nature do not lend themselves to wholesale social distancing provisions as inmates must house and eat meals together. Drawing an artificial line at the classroom threshold doesn't make sense when the very same inmates must sleep, recreate, and eat together in groups larger than ten. ADCRR has followed the containment method and restricted movement on specific yards, including cancelling programming and feeding in place, when there have been increased positive tests for COVID. Let me assure you that I and your leadership take everyone's health and welfare very seriously. The situation is monitored on a 24-7 basis and adjustments made as necessary.

As a precaution, I ask that you continue to ensure that your classroom is regularly cleaned and report it up your chain of command if this does not occur. I also emphasize the importance of you continuing to wear a face covering while working. The coverings are to prevent introduction of COVID into our units as staff are the likeliest method of introducing the virus to our system.

You are always welcome to elevate issues if they can't be resolved at a lower level and may do so without the fear of retaliation. If you should feel that you've experienced retaliation, I urge you to report it to Employee Relations or Lynn Hilliard, the Ombudsman. Retaliation is not tolerated by this administration.

Best regards-
Deputy Director Strada

Recommendations: I have submitted the following thru my chain of command, but due to the nature of the current health crises I felt the need to submit this directly. To: Director Shinn
Through: [REDACTED]

[REDACTED] Re: Covid19 reporting to staff Mr. Shinn, I would like to bring an issue to your attention that I believe is of utmost urgency during our current public health emergency. Currently there is no mechanism in place for administration to notify staff if they have been exposed to another staff member who has tested positive for Covid-19. I have addressed my concerns with my chain of command and have come to the realization that this is due to concerns regarding H.I.P.P.A. law. I am sure you are well aware of the benefits of contact tracing. Having the knowledge that one may have been exposed will help the employees of this department follow through on our number one tactical priority, which is to protect the public, the staff and the inmates. Once notified of a possible exposure, it would empower each individual to take the proper precautions to protect their families, neighbors and of course the inmate population. We will know not to come to work if we have symptoms, and to wear masks and practice social distancing. My proposal is for Human Resources to create a form that would allow staff to have information of their positive test results and/or symptoms released to their co-workers. This form could include options to release their name or just their unit and hours worked in the past two weeks. It could be set up to allow for the employee to release as little information as they feel is necessary to notify co-workers. This information could then be kept in an area which each employee has access to that is private from the inmate population (such as a briefing book). Currently, the only way this information is being spread is by personal knowledge. This actually puts staff in the position of having to decide whether to share information that they do not know if it is privileged or protected. It is almost forcing staff to share gossip in order to protect others. Thank you for taking the time to listen to my concerns.

Subject: Update from VIP
Date: Friday, July 10, 2020 10:26:05 AM

It has been our mutual goal to protect those who live and work in correctional facilities in our State from COVID-19 and help prevent needless deaths due to complications from contracting the virus. As a by-product of this goal, our communities are also kept safer.

Since early April we have been in contact with the Governor, DHS, and ADCRR about our concerns that several ADCRR policies regarding the COVID-19 response are not being followed within the correctional facilities. We felt that it was important for all of you to hear from those who are incarcerated and we could provide that link. Over the course of the past three months we have brought the following major concerns to your attention:

- 1) Universal testing has not occurred among staff, officers, or inmates. Without testing, it is impossible to detect asymptomatic as well as pre-symptomatic individuals during the most contagious time period of the virus.
- 2) Inmates who are presenting fever and/or shortness of breath and requesting testing from medical are often denied and sent back to their cells. In some instances they are denied over a period of several days and even weeks. The death of [REDACTED] on July 2nd might have been avoided had medical taken her multiple complaints of shortness of breath and possible heart issues seriously in the weeks leading up to her death. Instead they refused to test her for the virus and denied treatment of any kind. Her last words according to multiple witnesses were “so scared” and “can’t breathe.”
- 3) Supportive isolation/quarantine continues to be inadequate. Isolating individuals exposed to the virus by keeping them on their yard puts everyone with whom they come in contact in danger of contracting the virus. Isolation/quarantine areas must be kept separate from those who have not been exposed to the virus; to include separate ventilation systems and transport. Contact tracing within the facilities is critical to curbing the spread.
- 4) Transfer of inmates between complexes continues to occur despite the ADCRR mandate against movement of inmates. As recently as this week, reports were received of the transfer of inmates from Florence North to Kingman. In light of the disaster that has occurred in the California prison system resulting from the transfer of inmates from a complex with a high rate of infection to a complex that had relatively few positive cases, this continued movement of inmates is of grave concern.
- 5) Though we were initially encouraged by the commitment of ADCRR to provide soap upon request to inmates and the newly implemented policy requiring inmates and staff/officers to wear masks; we have reported multiple instances where those and other mandates are being ignored, denigrated, and circumvented.

We feel that we have kept our promise to share the concerns and frustrations experienced by the inmates and their families. Our hope was that these reports would result in strict adherence to the existing policies and additional safety measures where the original policies were not adequate to protect staff/officers and inmates from the spread of the virus. We are disappointed and alarmed that a plan is still not in place to address these concerns and that more than 50,000 lives are directly threatened.

We know that the officers and staff at these facilities are anxious and even scared about the possibility of contracting COVID-19. In reality the inmates are in more danger of contracting the virus from those very same employees; they are scared and anxious too. Adherence to the protocols and a more in-depth plan of action could help alleviate those fears. Neither their job or their sentence was supposed to be a death sentence. Yet we are left to comfort the terrified and the grieving.

It is our hope that ADCRR and DHS will now stand with us in supporting early release of all inmates who are less than six months from their release date and for the immediate remanding of inmates with severe and compromising health conditions to house arrest with their loved ones until such time as the rate of infection within correctional facilities falls to 0%. This action would have the added benefit of freeing up space for supportive isolation and

quarantining. The time for proaction was months ago, the time for reaction is upon us. This administration must accept the urgency of the situation and avoid the inaction that will cost hundreds, if not thousands, of lives.

We came to the table with Governor Ducey and all of you because, as leaders of the faith community in Arizona, it would be unconscionable for us to remain silent. It still is.

Sincerely,

Rev. Kim Crecca, on behalf of the Valley Interfaith Project

From: [REDACTED] >
Date: Fri, Jul 10, 2020, 2:45 AM
Subject: Hickman's Jackrabbit Dorm - COVID19
To: David Shinn <dshinn@azadc.gov>

Good Morning,

I wanted to bring to the table the discussion about officers posted out at the Hickman's Dorm. I understand that this unit was created solely to allow the inmates to continue their work out at Hickman's Farm as well as keep them isolated from the rest of the complex during this pandemic.

I believe the officers being posted out there should be receiving the 25% Hazard pay increase. I understand this is not a treatment unit, but these inmates are working out with the general public and then coming back to tight quarters with inmates and staff.

There is capacity for 156 inmates to be housed out at the dorms. Those inmates are housed bunk style and in extremely close quarters. They have added additional bunks since the original opening.

On 6/24/2020, Inmate [REDACTED] was pulled from the Hickmans Dorm and brought to be quarantined at Santa Maria. Coming from as high of admin on the unit you can get, it has since confirmed to the inmates that she had tested positive. Myself as well as the other officers posted at the dorms, all received a call on that day stating we had contact with an inmate that was tested positive for COVID. At the bare minimum, I think the officers that are posted at Hickman's Dorm should receive that 25% hazard pay increase. Bare minimum from that date, much less the start on 3/25/2020.

We have since been mandated to wear an N95 mask while being posted at the dorms. The supervisors also have been required to wear them when they are onsite for post checks.

All in all, I understand that this unit was created for the purpose of the inmates needing to continue to work as their work is essential. Officers posted out there have been exposed to COVID-19 and are at risk of testing positive and bringing it to the complex as well as to our families. Please consider this for discussion, as your staff are counting on you.

Date: Thursday, July 9, 2020 6:47:44 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- Dr. Christ joined Governor Ducey and Major General McGuire at a press conference today to provide an update on the current COVID-19 response. The press conference video is available [here](#).
- As part of our efforts to expand testing access across Arizona, ADHS announced today a partnership with ASU to offer saliva-based testing to up to 100,000 Arizonans. Testing will begin this Saturday in West Phoenix with more locations to be announced in the coming days. More information on this testing and the partnership is available [here](#).
- ADHS continues to work to support frontline healthcare workers who are tirelessly caring for hospitalized Arizonans. We are currently providing an opportunity for hospitals to apply for additional nursing staff to augment hospital capacity for up to six weeks. ADHS will provide this staffing free of charge to Arizona's hospitals for up to 20% of their licensed beds if they are participating in the Arizona Surge Line.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Lastly, here are some social media posts that you may find useful to disseminate to your constituents:

- <https://twitter.com/AZDHS/status/1281287033026220036?s=20>

Thank you for your investment in helping Arizona address COVID-19 in Arizona.

RE: Request for COVID-19 testing prior to release of all inmates for the Arizona Department of Corrections
Release Re-entry (ADCRR)

Dear Mr. Dolan:

As you know, the ADCRR and Centurion are currently developing a plan to test all ADCRR inmates throughout our State for COVID-19.

The ADCRR's enhanced testing measures are being expanded to include the testing of all inmates prior to their release. Our organization is asking Centurion leadership to develop a plan, which will be able to accomplish this task and provide results prior to the release all inmates. This COVID-19 testing plan needs to be initiated, coordinated, and documented in a manner as near to the actual inmate's release date as possible for public safety concerns. The ADCRR would like this proposal to include the provision of a face covering for each inmate when they are released. Any concerns related to the identification of any inmate who tests positive close to his or her release date, will be addressed in accordance with current set procedures and guidelines between Centurion and the ADCRR.

This plan is off high priority. Your sense of urgency and attention to detail is appreciated in advance.

Sincerely,

July 2, 2020

Director David Shinn
Arizona Department of Corrections, Rehabilitation, & Re-entry
1601 West Jefferson
Phoenix, AZ 85007
Delivered electronically

Dear Director Shinn:

Thank you for meeting this morning, Thursday, July 2, to continue the conversation surrounding coronavirus in the prisons. We appreciate the honest, though difficult, conversations that we are having together as we seek the wisest course of action for our state to prevent the spread of the coronavirus.

The coronavirus is no longer a new issue in our state. It has been here since at least March and probably before, given that it spreads most perniciously through asymptomatic carriers. We are very concerned that ADCRR is not recognizing this reality nor addressing the asymptomatic nature of this virus. In our conversation on Thursday, we pressed for the urgency on this issue to match and hopefully, to outpace the spread of the virus in our communities. The response within the prison system is key to mitigating and suppressing the novel coronavirus.

We walked away from our meeting with the following points for follow-up and action:

- Updating the accuracy and type of data represented on the department's COVID-19 dashboard
- Creating and publishing a policy requiring all inmates be given the opportunity to complete an AHCCCS application 30 days before their release date
- Creating an urgent timeline for universal testing, monitoring, and supportive isolation for incarcerated persons
- Creating a plan for offering supportive isolation for inmates being released, on an as-needed basis, in addition to the testing at release
- A meeting with Dr. Christ to more fully understand the supply chain and how to get testing supplies moving more quickly into the prison system
- Meeting again before or by next Tuesday, July 7, 2020.

Our state has become a case study of mistakes in the midst of a viral pandemic. It is past the time for mitigation and suppression strategies to be the primary focus in our state, for the sake of protecting all Arizonans and especially those who find themselves at the margins, like prisoners.

The reality is that, for many, the coronavirus is a de facto death sentence. It is even more dangerous for those in prison who cannot protect themselves in confined space, without the ability to practice social distancing and other measures to mitigate the virus spread. As clergy across traditions, we have a shared value of the sanctity of life, and we are hoping that your department will be one of many working to protect that most precious gift.

ASU needs to prepare for Colonel Leeper the amount of lab tests they CAN do daily. That will determine the assistance for sampling staff. Please have ASU AND THESE FOLKS ON call ASAP to derive the details needed for Natk Guard to conclude on assignment to sample takers. Andy

On Thu, Jul 9, 2020 at 10:34 AM Paul Shannon <paul.shannon@azdoa.gov> wrote:

Michael:

I am meeting this afternoon with ASU to discuss continuing the testing site next week. We will have them do that testing, but we can also use it as an opportunity to train any volunteers or contractors who will conduct testing at worksites.

Sorry for the lack of immediate details. We are building this as we go (PDCA!)

I will get back to you as soon as I know more.

Also, there are plenty of appointments for tonight and tomorrow (Friday).

thanks

Paul

Andy/Paul,

What is the timeline for needing staff coverage?

I know ASU covered efforts this week; will this continue next week? I don't see testing options available beyond today so I am lead to believe we need people for next week?

Please advise.

I think we need to fully explore 4 options for staffing: ASU, Guardsman, Contract Nurses, Department Employees. Having reviewed the training material and video, this appears to be very easy function but we are not dealing with rationale responses to concerns. I am certain we can find some staff who will do this for a premium but I would like to fully explore the first 3 options.

Andy,

Our experience with this yesterday was great and 136 people were tested in a very short period of time.

I imagine many staff will not want to support collecting samples but we will find a solution, somehow –somehow. Having access to quick testing far outweighs what we are experiencing now.

Is there an option for ASU to continue doing the collection and this is a contingency plan? Or have they already expressed the likelihood they cannot or will not do so?

Directors:

The Department of Administration in partnership with ASU has made COVID-19 testing available for state employees at targeted agencies. The focus of this effort is to provide agencies accelerated testing, with the agency determining who is tested. ASU is currently providing the staff for the initial launch of the testing, however, it will likely need to be supplemented with employees at each agency to accelerate the process.

Please see attached FAQ and short video describing the process of the test. The test is an easy, non-invasive saliva test that employees can do in the privacy of their personal vehicles or areas set up at the test site. Employees that elect to serve as collection staff would need to be equipped with personal protective equipment including N-95 masks, face shields, surgical gowns and double gloves. ADOA can assist in locating the necessary PPE for staff through our State Procurement Office (SPO).

If you are interested in having this testing available at your agency, please contact Paul Shannon, Director of Benefit Services at paul.shannon@azdoa.gov.

Good morning Ms. Permoda,

I confirmed with my Executive Assistant that we are scheduled to meet Friday, July 10, from 11:00 a.m. to 12:00 p.m. and we are grateful DHS representatives will be joining us. I look forward to providing updates to the group on our portion of collaborative efforts with DHS to implement agency wide testing and other accomplishments. While we do not have the resources to accomplish this goal alone, together we will succeed and I am tremendously grateful for their partnership. Thank you for your continued advocacy for those in our custody and care and your support of ADCRR's in these unprecedented times.

Kindest regards - ds

Subject: 7-8-20 ADHS COVID-19 MEMO
Date: Wednesday, July 8, 2020 7:53:11 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- ADHS met today with ground ambulance providers, who are a key response entity for COVID-19, including emergency response calls and interfacility transfers. Discussions focused on patient transfer and partnerships between rural and urban providers to distribute call volume.
- ADHS continues to collect and monitor surveillance data, which is posted on our [Data Dashboard](#). While Arizona is experiencing a significant number of COVID cases, comparison of case burdens with other countries can be misleading due to differing testing infrastructure. Arizona is reporting 1511 cases per 100,000 population and over 8,600 diagnostic tests per 100,000 population. Arizonans under the age of 45 continue to make up over 60% of the reported COVID-19 cases in Arizona.
- The [Arizona Surge Line](#), in partnership with hospitals across Arizona, continues to be a tool to ensure patients can receive the appropriate level of care for COVID-19. Between 40-45 transfers are made through the Surge Line on an average day. All transfers facilitated by the Surge Line are to facilities within the state of Arizona.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Lastly, here are some social media posts that you may find useful to disseminate to your constituents:

Frank,

In meeting with Lance, Sean, Norm and Dr. Orm we discussed Alhambra and have real concerns. As of right now, I can only move 35 out on Tuesday, but this number may reduce pending test results from the 65 arrivals yesterday. See below numbers. Both staff and inmates are high and county numbers are also increasing. Could we consider stopping intake for 14 days from yesterday to see if we can get Alhambra stabilized?

Sincerely,

Stacey Crabtree

To: Norman Twyford <ntwyford@azadc.gov>, Stacey Crabtree <scrabtre@azadc.gov>

The staff was busy tallying up numbers this morning and I am waiting for a final tally for the day.

Here is what the status was this morning:

They have 70 new positives with 33 tests still pending from Aspen and the 65 intakes from yesterday are still pending

Combined with the inmates already positive, they are over 130 positive inmates currently at Alhambra

Just today,

38 new positive at Aspen

24 new positive at F- area (24 of 46 = 54% of that population)

12 new positive at Delta

1 new positive at Echo

1 confirmed positive at Baker

The tally from the county jails on Monday did not bring good news:

<u>7/06/20</u>	<u>786 Inmates</u>	<u>158 Staff</u>	<u>944 Total confirmed positive COVID-cases</u>
Apache	0	0	
Navajo	5	13	
Yavapai	1	8	
Coconino	44	12	
Mohave	2	2	
Gila	0	2	
Greenlee	0	0	
Graham	0	1	
Cochise	0	0	
Santa Cruz	0	0	
Maricopa	718	72	(As of July 2)
Pima	3	10	
Yuma	18	34	
Pinal	0	3	
<u>La Paz</u>	<u>0</u>	<u>1</u>

Directors:

The Department of Administration in partnership with ASU has made COVID-19 testing available for state employees at targeted agencies. The focus of this effort is to provide agencies accelerated testing, with the agency determining who is tested. ASU is currently providing the staff for the initial launch of the testing, however, it will likely need to be supplemented with employees at each agency to accelerate the process.

Please see attached FAQ and short video describing the process of the test. The test is an easy, non-invasive saliva test that employees can do in the privacy of their personal vehicles or areas set up at the test site. Employees that elect to serve as collection staff would need to be equipped with personal protective equipment including N-95 masks, face shields, surgical gowns and double gloves. ADOA can assist in locating the necessary PPE for staff through our State Procurement Office (SPO).

If you are interested in having this testing available at your agency, please contact Paul Shannon, Director of Benefit Services at paul.shannon@azdoa.gov.

We're funding this through our healthcare surplus right now... its not a permanent solution but Im hoping this keeps going for the next 4 months..

ASU seems to have limited staff to help... I am waiting on the Natl Guard to help... but figured if staff could see how simple and noninvasive the process is, you could test as you like and improve field work... I know its a difficult ask.... hope is some will come forward and keep it moving... Yesterdays test should be in Friday, I'm thinking Monday

Andy

Andy,

Our experience with this yesterday was great and 136 people were tested in a very short period of time.

I imagine many staff will not want to support collecting samples but we will find a solution, somehow –somehow. Having access to quick testing far outweighs what we are experiencing now.

Is there an option for ASU to continue doing the collection and this is a contingency plan? Or have they already expressed the likelihood they cannot or will not do so?

Please see below. Warden Kimble has already been advised and is arranging an isolation area for his positive inmates. Inmate [REDACTED] from Tucson is already back at Complex and in isolation. Tucson will be transporting the positive Lewis inmates back to Lewis Complex-putting a team together now.

The following are the results from the inmate testing which occurred on July 6, 2020:

ASPC-Winslow = 17 tested, 17 negative
ASPC-Safford = 19 tested, 18 negative, **1 pending**
ASPC-Florence = 19 tested, 19 negative
ASPC- Yuma = 19 tested, 17 negative, **2 pending**

ASPC-Tucson = 19 tested, 18 negative,

1. [REDACTED] # [REDACTED]

ASPC- Lewis = 19 tested, 10 negative, **8 positive, 1 pending**

1. [REDACTED] # [REDACTED]

2. [REDACTED] # [REDACTED]
3. [REDACTED] # [REDACTED]
4. [REDACTED] # [REDACTED]
5. [REDACTED] # [REDACTED]
6. [REDACTED] # [REDACTED]
7. [REDACTED] # [REDACTED]
8. [REDACTED] # [REDACTED]

AFHA Thrush has advised she will continue to monitor for results of those still pending; she anticipates receiving those today. Major DeFranco is putting a transportation team together for the return of the positive inmates to ASPC-Lewis.

As discussed.

----- Forwarded message -----

From: [REDACTED] >
Date: Wed, Jul 8, 2020 at 1:15 AM
Subject: Hickman's Jackrabbit Dorm - COVID 19
To: David Shinn <dshinn@azadc.gov>

Good Morning,

I wanted to bring to the table the discussion about officers posted out at the Hickman's Dorm. I understand that this unit was created solely to allow the inmates to continue their work out at Hickman's Farm as well as keep them isolated from the rest of the complex during this pandemic.

I believe the officers being posted out there should be receiving the 25% Hazard pay increase. I understand this is not a treatment unit, but these inmates are working out with the general public and then coming back to tight quarters with inmates and staff.

There is capacity for 156 inmates to be housed out at the dorms. Those inmates are housed bunk style and in extremely close quarters. They have added additional bunks since the original opening.

On 6/24/2020, Inmate [REDACTED] was pulled from the Hickmans Dorm and brought to be quarantined at Santa Maria. Coming from as high of admin on the unit you can get, it has since confirmed to the inmates that she had tested positive. Myself as well as the other officers posted at the dorms, all received a call on that day stating we had contact with an inmate that was tested positive for COVID. At the bare minimum, I think the officers that are posted at Hickman's Dorm should receive that 25% hazard pay increase. Bare minimum from that date, much less the start on 3/25/2020.

We have since been mandated to wear an N95 mask while being posted at the dorms. The supervisors also have been required to wear them when they are onsite for post checks.

All in all, I understand that this unit was created for the purpose of the inmates needing to continue to work as their work is essential. Officers posted out there have been exposed to COVID-19 and are at risk of testing positive and bringing it to the complex as well as to our families. Please consider this for discussion, as your staff are counting on you.

Date: Tuesday, July 7, 2020 9:04:51 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- ADHS met with local health officials today to maintain alignment and coordination on response activities. Topics include healthcare system support, case investigation and contact tracing, and testing availability.
- ADHS continues to support hospitals and other healthcare facilities in their critical response to COVID-19. This includes providing technical assistance, facilitating staffing, and offering flexibility with regulatory requirements as necessary as long as patient health and safety are still prioritized within a facility.
- With increased case counts and hospitalizations in Arizona, prevention messaging remains critically important. ADHS provides up to date information for Arizonans on our website about steps they can take to prevent the spread of COVID-19 including staying home when sick or following contact with a known COVID-19 case, wearing a mask in public and staying distanced by at least 6 feet, and washing hands. More information is available on our [What Everyone Needs to Do](#) page.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Lastly, here are some social media posts that you may find useful to disseminate to your constituents:

Valley Interfaith Project

July 2, 2020

Director David Shinn
Arizona Department of Corrections, Rehabilitation, & Re-entry
1601 West Jefferson
Phoenix, AZ 85007
Delivered electronically

Dear Director Shinn:

Thank you for meeting this morning, Thursday, July 2, to continue the conversation surrounding coronavirus in the prisons. We appreciate the honest, though difficult, conversations that we are having together as we seek the wisest course of action for our state to prevent the spread of the coronavirus.

The coronavirus is no longer a new issue in our state. It has been here since at least March and probably before, given that it spreads most perniciously through asymptomatic carriers. We are very concerned that ADCRR is not recognizing this reality nor addressing the asymptomatic nature of this virus. In our conversation on Thursday, we pressed for the urgency on this issue to match and hopefully, to outpace the spread of the virus in our communities. The response within the prison system is key to mitigating and suppressing the novel coronavirus.

We walked away from our meeting with the following points for follow-up and action:

- Updating the accuracy and type of data represented on the department's COVID-19 dashboard
- Creating and publishing a policy requiring all inmates be given the opportunity to complete an AHCCCS application 30 days before their release date
- Creating an urgent timeline for universal testing, monitoring, and supportive isolation for incarcerated persons
- Creating a plan for offering supportive isolation for inmates being released, on an as-needed basis, in addition to the testing at release
- A meeting with Dr. Christ to more fully understand the supply chain and how to get testing supplies moving more quickly into the prison system
- Meeting again before or by next Tuesday, July 7, 2020.

Our state has become a case study of mistakes in the midst of a viral pandemic. It is past the time for mitigation and suppression strategies to be the primary focus in our state, for the sake of protecting all Arizonans and especially those who find themselves at the margins, like prisoners.

The reality is that, for many, the coronavirus is a de facto death sentence. It is even more dangerous for those in prison who cannot protect themselves in confined space, without the ability to practice social distancing and other measures to mitigate the virus spread. As clergy across traditions, we have a shared value of the sanctity of life, and we are hoping that your department will be one of many working to protect that most precious gift.

Respectfully,

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- ADHS continues to partner with the National Guard and local health departments to conduct case investigation and contact tracing. We're recently posted a new [infographic](#) on our website to provide contacts of COVID-19 cases information about what they should do.
- Earlier this week, ADHS announced that, based on a recommendation from the [State Disaster Medical Advisory Committee \(SDMAC\)](#), crisis standards of care have been activated. This [activation](#) does not indicate that hospitals are currently operating in a crisis, but acknowledges that individual hospital status may fall within the continuum of contingency or crisis care. It further urges all hospitals to take specific steps to ensure continued patient care, including taking steps to address resource constraints, prepare to fully staff all licensed and surge beds, limit surgeries, activate hospital incident command, and routinely communicate with the local health department.
- Testing capacity in Arizona is increasing and ADHS has worked throughout the week with partners to augment availability of testing throughout the month of July. Please visit azhealth.gov/covid19testing for a list of nearly 300 testing locations.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Thank you Joe for your clarification. Bill and I discussed, and we will post on our " Inmate Death Notification" section of the website once we are able to confirm next of kin and possible victims have been made aware.

Bill gave me the historical background that we do post all death notifications to the website, but only homicides and suicide notifications are provided to local media via press release. In this case, we were wanting to see if you agreed with our possible response and based on given feedback, we will not respond.

Thank you Joe and Frank for your direction.

Judy

Frank - Good question. We are not/there is no requirement and historically we haven't.

Bill/Judy - What happened to the standard press release we would do on all deaths. Generic awareness to all media, posted, informing of death and on-going investigation by CIU in collaboration with the medical examiner. The standard statement and behavior met the standard of public notification and transparency of government without specifics details of which we currently don't know. Any specific questions are then referred back to the press

releases until the investigation is complete.

Planned Response:

We have four inmates who work in the ADOT call center who previously tested positive and are still under quarantine. A date to reopen has not been confirmed at this time. The call center will

open when it is safe to resume operations. For questions re: ADOD employees, please reach out to their PIO.

Two months ago inmates in Arizona prisons were threatened with disciplinary tickets when they tried to make masks out of their t-shirts in an act of desperation.

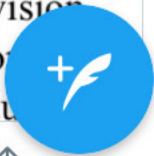

Today the state announced inmate labor was used to make masks for themselves & all of the Correctional Officers

Jimmy Jenkins @newsjunk... · 1d

The Arizona Department of Corrections says it has distributed cloth masks to all inmates. The masks were produced with inmate labor

The face coverings have been made by inmates at ADCRR's Douglas and Florence complexes through the [Arizona Correctional Industries](#) (ACI) garment program, which has been in operation for more than 30 years. ACI, a division of the ADCRR, was developed more than 35 years ago to provide structure

July 2, 2020

Director David Shinn
Arizona Department of Corrections, Rehabilitation, & Re-entry
1601 West Jefferson
Phoenix, AZ 85007
Delivered electronically

Dear Director Shinn:

Thank you for meeting this morning, Thursday, July 2, to continue the conversation surrounding coronavirus in the prisons. We appreciate the honest, though difficult, conversations that we are having together as we seek the wisest course of action for our state to prevent the spread of the coronavirus.

The coronavirus is no longer a new issue in our state. It has been here since at least March and probably before, given that it spreads most perniciously through asymptomatic carriers. We are very concerned that ADCRR is not recognizing this reality nor addressing the asymptomatic nature of this virus. In our conversation on Thursday, we pressed for the urgency on this issue to match and hopefully, to outpace the spread of the virus in our communities. The response within the prison system is key to mitigating and suppressing the novel coronavirus.

We walked away from our meeting with the following points for follow-up and action:

- Updating the accuracy and type of data represented on the department's COVID-19 dashboard
- Creating and publishing a policy requiring all inmates be given the opportunity to complete an AHCCCS application 30 days before their release date
- Creating an urgent timeline for universal testing, monitoring, and supportive isolation for incarcerated persons
- Creating a plan for offering supportive isolation for inmates being released, on an as-needed basis, in addition to the testing at release
- A meeting with Dr. Christ to more fully understand the supply chain and how to get testing supplies moving more quickly into the prison system
- Meeting again before or by next Tuesday, July 7, 2020.

Our state has become a case study of mistakes in the midst of a viral pandemic. It is past the time for mitigation and suppression strategies to be the primary focus in our state, for the sake of protecting all Arizonans and especially those who find themselves at the margins, like prisoners.

The reality is that, for many, the coronavirus is a de facto death sentence. It is even more dangerous for those in prison who cannot protect themselves in confined space, without the ability to practice social distancing and other measures to mitigate the virus spread. As clergy across traditions, we have a shared value of the sanctity of life, and we are hoping that your department will be one of many working to protect that most precious gift.

Respectfully,

As discussed, see attached testing locations list from the Dept of Health (ADHS) website. In addition to the places listed on that site you can also call the COVID-19 test scheduling hotline at 1-844-549-1855 Mon-Fri. The test is free of charge as long as you present your insurance card. LabCorp offers an at home kit they mail to the individual with instructions for self test, this is their link <https://www.pixel.labcorp.com/covid-19> . Test is free upon presenting insurance information.

COVID-19 Testing Locations

COVID-19

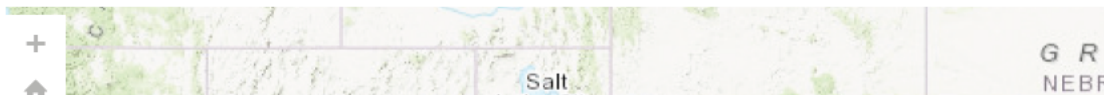

Arizona's emergency response to the COVID-19 outbreak.

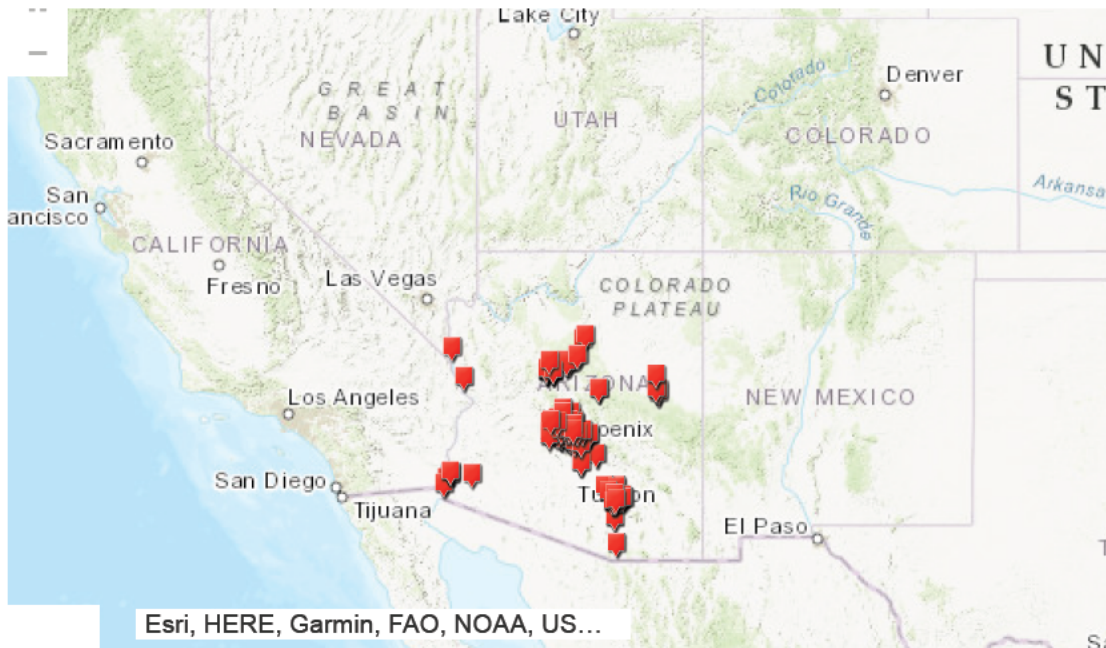

Below is information on where to find the COVID-19 testing sites, hours of operation, and information about pre-registration. Additional sites and dates are constantly being added, please check back often. If you have a testing site you would like to be included on this list, please use this form to provide information about your site.

Policies and procedures for patient criteria, billing, and pre-registration requirements vary by site.

Most sites require pre-registration, please call or visit the website listed before visiting the location.

Subject: Re: Statewide Inmate Testing Current Status
Date: Thursday, July 2, 2020 9:52:53 AM

Gentleman,

Just received the following from Centurion:

“Garcia can handle the mass testing if we stretch it to 9-10 weeks. Is that doable? 7-8 weeks will be a lift and will have to work with Abbott on supplies”.

If this is acceptable please let me know.

Larry

Gentleman,

Here are the latest updates. Currently it is hard for Lance's group to logistically plan until we have a volume per day testing guarantee. Lewis is slated to go first. What unit will depend on our lab vendor and the amount of tests supplied. There are a number of issues associated with using LabCorp with our State run facilities. Please review and call me if you have any questions. I should have something early in the morning and I will forward the information to you as soon as possible.

To: Greg Lauchner <glauchner@azadc.gov>

As discussed, see attached testing locations list from the Dept of Health (ADHS) website. In addition to the places listed on that site you can also call the COVID-19 test scheduling hotline at 1-844-549-1855 Mon-Fri. The test is free of charge as long as you present your insurance card. LabCorp offers an at home kit they mail to the individual with instructions for self test, this is their link <https://www.pixel.labcorp.com/covid-19> . Test is free upon presenting insurance information.

COVID-19 Testing Locations

COVID-19

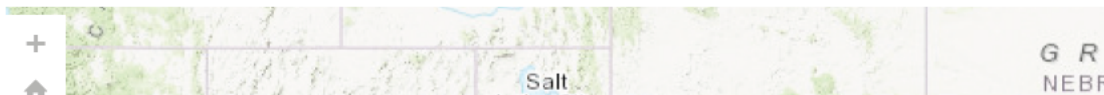

Arizona's emergency response to the COVID-19 outbreak.

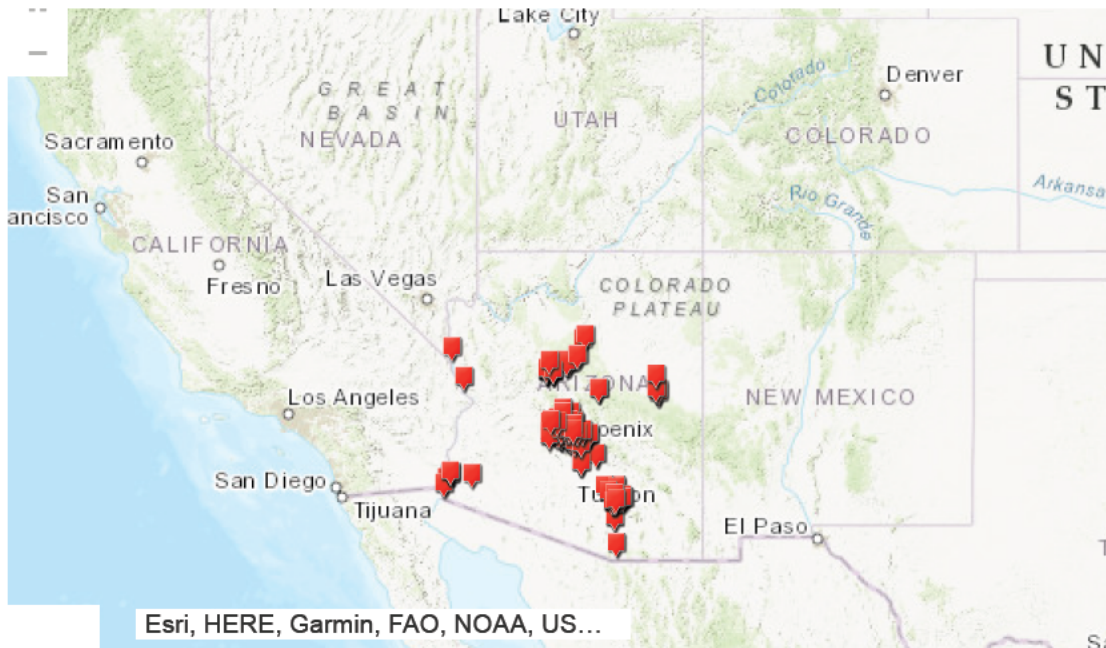

Below is information on where to find the COVID-19 testing sites, hours of operation, and information about pre-registration. Additional sites and dates are constantly being added, please check back often. If you have a testing site you would like to be included on this list, please use this form to provide information about your site.

Policies and procedures for patient criteria, billing, and pre-registration requirements vary by site.

Most sites require pre-registration, please call or visit the website listed before visiting the location.

Subject: Hickman's Jackrabbit Dorm - COVID-19
To: David Shinn <dshinn@azadc.gov>

Good Morning,

I wanted to bring to the table the discussion about officers posted out at the Hickman's Dorm. I understand that this unit was created solely to allow the inmates to continue their work out at Hickman's Farm as well as keep them isolated from the rest of the complex during this pandemic.

I believe the officers being posted out there should be receiving the 25% Hazard pay increase. I understand this is not a treatment unit, but these inmates are working out with the general public and then coming back to tight quarters with inmates and staff.

There is capacity for 156 inmates to be housed out at the dorms. Those inmates are housed bunk style and in extremely close quarters. They have added additional bunks since the original opening.

On 6/24/2020, Inmate [REDACTED] was pulled from the Hickmans Dorm and brought to be quarantined at Santa Maria. Coming from as high of admin on the unit you can get, it has since confirmed to the inmates that she had tested positive. Myself as well as the other officers posted at the dorms, all received a call on that day stating we had contact with an inmate that was tested positive for COVID. At the bare minimum, I think the officers that are posted at Hickman's Dorm should receive that 25% hazard pay increase. Bare minimum from that date, much less the start on 3/25/2020.

We have since been mandated to wear an N95 mask while being posted at the dorms. The supervisors also have been required to wear them when they are onsite for post checks.

All in all, I understand that this unit was created for the purpose of the inmates needing to continue to work as their work is essential. Officers posted out there have been exposed to COVID-19 and are at risk of testing positive and bringing it to the complex as well as to our families. Please consider this for discussion, as your staff are counting on you.

Gentleman,

Here are the latest updates. Currently it is hard for Lance's group to logistically plan until we have a volume per day testing guarantee. Lewis is slated to go first. What unit will depend on our lab vendor and the amount of tests supplied. There are a number of issues associated with using LabCorp with our State run facilities. Please review and call me if you have any questions. I should have something early in the morning and I will forward the information to you as soon as possible.

ADCRR Covid-19 Inmate Testing Initiative

Current information and Planning for the Statewide Covid-19 Inmate Testing Initiative

- Currently the Arizona Department of Health Services is looking to contract with LabCorp for inmate testing. There is currently no contract in place.
- Centurion is enthusiastic about providing the staffing required and the PPE for these staff members. They have provided a proposal spreadsheet on the associated costs (154k).
- Ken Komatsu thought this proposal was reasonable, and stated that the Arizona Department of Health would more than likely be able to initiate a contract with Centurion for payment.
- Since no contract with LabCorp has been initiated. The thought process shifted to Garcia labs for several reasons.
 - A known, fluid requisition process that would not require additional training to the Centurion staff.
 - An ‘in place’ courier service that would not require further logistics planning for lab specimen collection.
 - A results notification system that was already established for efficient and reliable reporting.
 - We are currently waiting for Garcia’s response through Centurion as of 8pm Wednesday night. Updates to follow.

Here are the pertinent questions that the ADCRR needs clarification on to proceed.

- How many tests will be available per day and when.
 - Tests are slated to be provided at 500 per day and then ramp up to 1000 per day.
 - Is the contracted lab services vendor supplying the tests?
 - This became unclear when identifying a lab vendor.
- How long will it take to get a contract into place by the Arizona Department of Health Services?

Questions from Kenneth Komatsu State Epidemiologist/Chief, Office of Infectious Diseases Arizona Department of Health Services

- For requisition of each test - Does Centurion have a medical record system that can order tests electronically (is this used for Garcia Laboratory)?
 - We answered this question and this is why we started looking more toward Garcia Labs.
- What will be the collection capacity of Centurion at each facility per day?
 - This really depends on the operational logistics and the tests that are actually available. Planning until this is a known fact leaves us a little vague.
- Can you provide the number of inmates at each facility?
 - Yes, this data has been broken down and studied by our operations side.
- Will you be including ACI? Core Civic facilities?

- Private facilities are using a different Lab Vendor. Geo uses LabCorp, so this will be an easy move when we get to the private prisons. For the same reason the State facilities need to utilize Garcia, they will want to use LabCorp.
 - We are checking on Core Civic and MTC'S current lab vendors
- The plan is to start at Lewis. Lance and his team are planning for various options at this point.
- Ken Komatsu did not seem to think that it would take long to formulate a contract with Centurion in order to get this done.
- Centurion's VPO Tom Dolan has been placed into contact with Dr. Komatsu and he will be contacted as soon as Garcia has responded on their capabilities for handling this volume of testing.

CRONKITE NEWS

Hello,

My name is Farah Eltohamy and I'm a reporter for Cronkite News, the news division of Arizona PBS. I covered Gov. Ducey's presser yesterday, and one point he made was that he would provide all correctional officers and inmates with masks by the end of the week. What are the specifics of this exactly? Cloth masks? disposable masks? How will this be enforced and why was it not done sooner? Did correctional officers and inmates not have masks before?

Thanks,

Farah Eltohamy

Politics Reporter / Cronkite News

Joe,

What you/Judy see as “breaking” news is actuality not - the Governor expressed it yesterday.

Additionally, it won’t be embraced as an “ADCRR is amazing, innovative, compassionate and a well run organization” story. Rather, the headline will be - “It’s about time!! ADCRR finally does what we’ve been begging them to do since April.”

Less is more! ADCRR currently has no fans - only critics. I appreciate your tenacity, but it’s naive to believe this will be reported as a good news story.

In my opinion, you are/the Department is best served plugging it into the cap times ask. This reduces the laser that will be put upon us ADCRR by the critics that a specific release highlighting what will be reported as inaction by ADCRR for months.

I encourage you to share my response in its entirety with Judy.

Sincerely,

Joe

Subject: DRAFT FACE COVERING PRESS RELEASE
To: Joseph Grossman <jgrossman@azadc.gov>, William Lamoreaux
<blamoreaux@azadc.gov>

Please find below. Joe - If you are good with this, feel free to forward to the DD's for their input. Also, let us know if Joe is good if we withhold the mask comment to the Cap Times and we'll ensure they get this release tomorrow when it goes out. Ideally, we should try to send it out widely in the morning. We also need to run it by the folks across the way and loop in ADHS, since the release mentions them - that discussion is underway with them re: inmate testing.

We are getting close to each deadline, so we'll go ahead and send the response to Bisgobing, and hope you can speak with Joe P about the need to not include in the Cap Times response now. H

Feel free to also share this release with the director.

Judy

MEDIA ADVISORY

ARIZONA DEPARTMENT OF CORRECTIONS, REHABILITATION AND REENTRY

COVID-19 Management Strategy Update

July 1, 2020

(PHOENIX)— As part of the [Arizona Department of Corrections, Rehabilitation and Reentry](#)'s measures to enhance COVID-19 prevention during the evolving pandemic, ADCRR has distributed fabric face coverings to all inmates for their use. The face coverings are also being distributed to inmates at ADCRR's third-party private prison complexes as well inmates arriving at ADCRR's intake facility in Phoenix.

The face coverings are being made by inmates at ADCRR's Douglas and Florence complexes through the [Arizona Correctional Industries](#) (ACI) garment program, which has been in operation for more than 30 years. Additional inventory is available should inmates need new face coverings (?). The face coverings are being provided at no fee.

Consistent with CDC guidance for correctional facilities and ADCRR Infectious Disease Protocols, ADCRR continues to separate any inmates who exhibit flu-like symptoms from the general population. Testing has been

ongoing for inmates exhibiting flu-like symptoms. Discussions with ADHS continue regarding the testing of all inmates at each complex.

Currently, all ADCRR prison complex staff are required to wear face coverings. All employees entering Arizona prison complexes also continue to undergo required temperature and symptom checks at each facility. ADCRR continues to communicate with staff and inmates about how they can reduce the risk of contracting or spreading COVID-19.

ACI, a division of the ADCRR, was developed more than 35 years ago to provide structured programming to create opportunities for offenders to develop marketable skills and strong work habits. ACI inmate programs allow inmates to be paid for their work.

To get the latest information about ADCRR's response to COVID-19, please visit our website, <https://corrections.az.gov/> and @AZCorrections on Twitter.

Subject: 6-30-20 ADHS COVID-19 MEMO
Date: Tuesday, June 30, 2020 6:02:49 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- Today, Dr. Deborah Birx from the White House Coronavirus Task Force joined Dr. Christ and Governor Ducey to host a roundtable with partners representing public health, healthcare, universities, laboratories, and community associations. The group provided updates and feedback on successes and challenges. Dr. Birx was receptive to feedback and provided some recommendations to the group.
- ADHS continues to work with healthcare, community, and laboratory partners to expand access to testing in Arizona. Nearly 300 testing sites are listed on azhealth.gov/covid91testing and more will continue to be added. Sites listed are located in 11 of Arizona's 15 counties and we are actively partnering with local public health to add more.
- ADHS is working with local health department partners to identify and address critical resource needs in healthcare facilities across the state. This includes continued support of the Arizona Surge Line, distribution of PPE, and identification of additional staffing as requested.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Lastly, here are some social media posts that you may find useful to disseminate to your constituents:

Hello,

Per Joe Grossman, please find below two media inquiries we've received today, along with our planned responses. Ideally, we would like to send our responses to the reporters by 4pm today. You will note the planned response first followed by the reporters question(s). Please let me know of any edits.

Thank you.
Judy

ABC15 reporter Dave Biscobing. Details were provided by Lance Hetmer and Ron Lee.

Planned Response:

Initially one inmate was symptomatic. She was removed and tested. The rest of the inmates were then tested, resulting in an additional 5 testing positive. The inmates who tested positive were removed and isolated and are being medically monitored. All remaining inmates have been retested today and will be cohorted for an additional 14 days with no new inmates being moved in or out until the latest test results are returned and each is medically cleared.

Subject: ABC15: Hickman inmates test positive
To: ADC MEDIA - ADC <MEDIA@azadc.gov>

Good morning,

We're receiving information that multiple inmates at Hickman's farm have tested positive for COVID-19. We've also heard they were removed from the farm and returned to Perryville after receiving positive results -- not while awaiting the test results.

We are reaching out for comment.

Also, we would like to know if all of the inmates at Hickman's have been tested given the positive results.

If not, why not?

Thank you,

Dave Biscobing

Request from the Arizona Capitol Times. Hank Stephenson. These details have been reworked from prior responses to local media.

Planned Response:

ADCRR maintains a vigilant posture with rigorous ongoing symptom checks across all of its state complexes. Our priority remains ensuring the health and safety of inmates as well as all ADCRR employees and on-site third party partners. A department wide directive was issued on June 15 to ADCRR staff requiring that face coverings be worn. The requirement is part of our ongoing work to mitigate the spread of COVID-19 within ADCRR complexes. ADCRR has also initiated COVID-19 antibody (serology) testing that is being offered to all staff members at each prison complex. Testing is currently underway and is occurring complex by complex across the state.

Discussions with ADHS continue regarding testing of all inmates at each complex. Testing has been ongoing for inmates exhibiting flu-like symptoms. We are examining the expansion of our inmate face covering process, and will provide those details when available. In the meantime, we continue to follow CDC guidelines for correctional institutions in providing face coverings to inmates as needed. ASPC-Phoenix is our male intake center, where we receive new inmate commitments from the counties and where they are cohorted for 14-days prior to being moved to their appropriate location. ADCRR is testing each inmate at intake.

COVID-19 data continues to be updated on ADCRR's dashboard at <https://corrections.az.gov/adcrr-covid-19-dashboard>. For the latest regarding ADCRR's COVID-19 management strategy, please also visit: <https://corrections.az.gov/>.

Subject: covid testing
To: <media@azadc.gov>

I was looking at the dashboard and saw that despite Ducey's pledge last month to everyone in Arizona's prison system, only 9 percent have received a test so far.
What is the timeline to finish those tests?
Also, I see Phoenix has done almost twice as many tests as it has prisoners. Can you explain that to me, please?
Quite the outlier.
Finally, what's the timeline for providing prisoners and staff with facemasks?
Thanks,

Hank Stephenson

To: David Shinn <dshinn@azadc.gov>

I am writing due to a emergency payout request I submitted two weeks ago. The request was due to my sister and her family needing income. Ive been doing overtime to help out as much as possible for the time being. I also would like to help my brother out due to his 14 day quarantine he took a hit on money wise. Also on 06/25/20 my cousin in texas passed away from covid 19 and my family is donating to help with funeral costs and help her husband and son with bills. Her husband is in the ICU due to covid at the moment and her 18 yr old son is positive as well and alone at home quarantined. I apoligize if it is a bother. I understand you are very busy sir Ive just tried to reach your office multiple times to get a update on it and no answer has been give. Thank you sir for your time it is greatly appreciated.

Date: Monday, June 29, 2020 6:36:03 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- Today, Dr. Christ joined Governor Ducey and Major General Macguire for a [press conference](#) providing an update on the COVID-19 response and additional mitigation strategies. These include [pausing operation](#) of bars, gyms, movie theaters, water parks, and tubing operators through July 27, 2020.
- New cases posted today on ADHS' dashboard were lower than expected because one of our lab partners did not submit their daily report on time. We worked yesterday evening and today to get this issue resolved. This will result in a larger number of new cases reported tomorrow than we typically see in one day. You can visit the Confirmed Cases by Day section of our [data dashboard](#), which will provide a more accurate picture of when these new cases presented for testing.
- Today, ADHS hosted federal Region IX leadership from FEMA and ASPR to discuss current response activities and priorities.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

FDA-EUA APPROVED COVID-19 SEROLOGY TESTING

OVERVIEW

- Healgen is a rapid serological test for SARS-COV-2 IgG and IgM antibodies
- Approved under the FDA Emergency Use Authorization and has been independently tested for performance.
- Serology testing alone is not used in the diagnosis of COVID-19.
- Healgen COVID-19 IgG/IgM Rapid Test Cassette product information is available upon request.

KEY FEATURES

- No laboratory needed to process test results. Can be conducted anywhere.
- CLIA-waived
- **Indicator for control** to determine if the test was performed correctly.
- **Indicator of IgM result.** IGM is the antibody produced early in the immune response, usually between 5 to 7 days of infection
- **Indicator for IgG result.** IgG is the antibody produced in the late phase of the immune response.
- The packaging contains all necessary supplies to perform the test, except lancets.
- Easy to use in community
- Test results are available in 10 minutes

MATERIALS SUPPLIED

Each box contains:

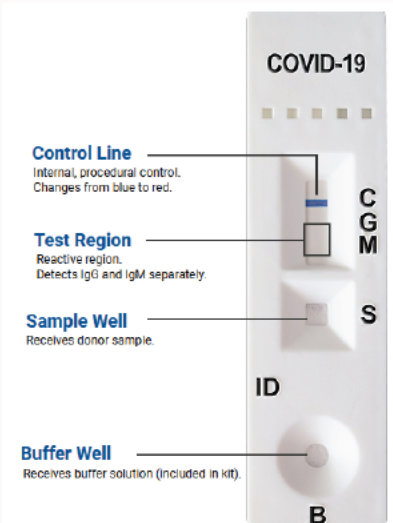

- 25 individually sealed kits, each containing a test cassette, a dropper, & a desiccant.
- 1 bottle of buffer solution is used to activate the 25 test cassettes
- 1 package insert is provided.

TESTING PROCEDURES

- Place drop of blood & buffer solution in test cassette.
- Results in 10 minutes.
- Use built-in control line to confirm test performed correctly.

**250,000+ Kits
Immediately
Available.**

\$20 Per Kit

Arizona Department of Corrections Rehabilitation and Reentry

Staff Notification

SUBJECT	ISSUED	NOTIFICATION NUMBER
Face Coverings	June 19, 2020	20-02

This information is to be posted for a **minimum of 30** days in areas accessible to staff and shall be made available to staff who do not have access to posted copies.

NOTICE

On June 15, 2020, the Arizona Department of Corrections, Rehabilitation and Reentry issued a directive for all staff working within the secure perimeter of the institutions to wear a face covering at all times. In an effort to do our part in stopping the spread of COVID-19, ADCRR is expanding that directive. Effective immediately, the following shall occur in all ADCRR buildings outside a secure perimeter (e.g., Complex Administration, Central Office, ACI, Community Corrections, etc.):

All staff shall be required to wear a face covering while at work unless the staff member is in a meeting with adequate physical distancing of 6 feet or in their cubicle or office. Supervisors are encouraged to avoid large meetings where social distancing cannot be maintained. Face coverings shall be worn while walking hallways, in breakrooms, or restrooms. ADCRR has an ample supply of face coverings. You may also wear those made at home or bought from a vendor as long as the covering is appropriate for the workplace.

This directive will remain in effect until rescinded.

ARIZONA DEPARTMENT OF CORRECTIONS

MEMORANDUM

TO: Lance Hetmer

FROM: Norm Twyford, Emergency Preparedness Administrator

DATE: June 17, 2020

SUBJECT: Inmate Face Cover Protocols

CDC continues to study the spread and effects of the novel coronavirus across the United States. We now know from [recent studies](#) that a significant portion of individuals with coronavirus lack symptoms (“asymptomatic”) and that even those who eventually develop symptoms (“pre-symptomatic”) can transmit the virus to others before showing symptoms. This means that the virus can spread between people interacting in close proximity—for example, speaking, coughing, or sneezing—even if those people are not exhibiting symptoms. In light of this new evidence, CDC recommends wearing cloth face coverings in public settings where other social distancing measures are difficult to maintain (e.g., grocery stores and pharmacies) **especially** in areas of significant community-based transmission.

It is critical to emphasize that maintaining 6-foot social distancing remains important to slowing the spread of the virus. CDC is additionally advising the use of simple cloth face coverings to slow the spread of the virus and help people who may have the virus and do not know it from transmitting it to others. Cloth face coverings fashioned from household items or made at home from common materials at low cost can be used as an additional, voluntary public health measure. (<https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/cloth-face-cover.html> downloaded June 17, 2020)

In accordance with CDC guidelines, ADCRR shall issue all inmates face coverings. The following protocols shall be adhered to and enforced:

- Inmates shall wear face coverings at all times while participating activities in which social distancing is unachievable with the exception of sleeping, hygiene activities, eating, or for physical identification i.e. count, turnouts, or upon request of any staff member.
- While participating in recreation, education, programming, or video visitation, inmates will not be required to wear face covers but may do so if they choose.
- Inmates will be issued two face coverings and may launder them with their regular laundry.

Bcc: dshinn@azadc.gov
Subject: 6-26-20 ADHS COVID-19 MEMO
Date: Friday, June 26, 2020 6:58:42 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- ADHS continues to work with DEMA, local health departments, and our federal partners to support Arizona's healthcare system and ensure patients are able to receive care. The [Arizona Surge Line](#) continues to play a key role in allowing hospitals to transfer patients to locations with an appropriate level of care to meet their needs and has transferred over 1,000 patients to date. We are also working with individual healthcare facilities to help meet their staffing needs and following up with these facilities to provide technical assistance to implement their surge plans.
- Several testing sites are operating around the state, over 200 of which are listed at azhealth.gov/covid19testing. ADHS continues to work with partners to identify additional opportunities to provide COVID-19 diagnostic testing in the community.
- We encourage all Arizonans to take precautions to prevent the spread of COVID-19. This includes promoting messages on our [website](#) and [social media feeds](#), developing [public services announcements and graphical imagery](#), and continuing to develop additional health education campaigns. All Arizonans can do their part by staying home when sick, wearing a [mask](#) when out in public, maintaining at least 6 feet of distance from others not in their household, washing their hands, and

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- Dr. Christ appeared alongside Governor Ducey and Major General McGuire to provide an update on Arizona's COVID-19 response. View slides and the video of the press conference [here](#). Dr. Christ discussed the importance of staying home when possible and questions to consider before going out.
- ADHS continues to work on augmenting testing capacity in order to scale up additional testing services across the state. This includes partnerships with multiple healthcare and community partners and laboratories.
- Today, Governor Ducey extended [Executive Order 2020-27](#) - The "Good Samaritan" Order - through December 31, 2020. This supports the incredible work of healthcare providers across the state caring for patients with COVID-19 and aligns with the work ADHS has been pursuing throughout the week to support hospital surge capacity.

Key points identified by the two ADHS staffers on site at Phoenix this morning

- Recommend more attention to social distancing in the lobby when employees reporting for work
- Recommend that F Area (inmate workers) practice more social distancing around their housing unit and that they have as limited exposure to intake inmates as possible.
- Noted that some staff members wearing same gloves as they walked between housing units.
- Recommend that staff stay at assigned housing units and limit staff movement between housing units
- Kudos on high compliance with mask use and PPE among staff members.

FHA stated during Tracker meeting that she was directed by her Regional Office to strategize about how to test all inmates. When questioned about what the strategy would be to separate positives from negatives in terms of housing, she stated that her Regional leadership indicated that housing would be a DOC issue to resolve, not a medical issue to address.

Thanks.

Subject: 6-24-20 ADHS COVID-19 MEMO
Date: Wednesday, June 24, 2020 7:24:41 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- Today ADHS issued a [press release](#) describing some of the activities we are undertaking with partners to expand access to COVID-19 testing and to improve turnaround times for results. These activities include funding to laboratories, distribution of specimen collection materials, and support with procurement of laboratory supplies and equipment.
- We have hosted multiple calls today with local health departments and healthcare partners to closely monitor hospital capacity in Arizona. This includes discussing options with hospitals to achieve surge capacity and identifying the most common barriers and strategies to overcome these. Several facilities are working to increase their staffing levels by activating staffing contracts or bringing furloughed staff back to work. ADHS will continue to work with our healthcare partners on a daily basis to provide support.
- A higher number COVID-19 deaths were [reported](#) today than typical (79 deaths reported today for a total of 1,463). Fifty-three of these were identified through our death certificate matching process, described [here](#). This process is in place in alignment with national standards and augments our surveillance so we can capture the burden of COVID-19 in our communities.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Director Christ and Director Shinn,

Thank you for meeting with us today. I have documented below summary notes and the action items from our meeting. If I missed anything, please let me know.

Action Items:

- After meeting with DHS today, DCRR will provide a timeline for testing inmates over the coming weeks
- Dr Christ will identify the UofA Serology testing site near Florence
- Sarah will set up a meeting with DHS, DCRR, and Gov's Office to discuss working with Sherriffs to test inmates in county facilities.
- Dr Christ will work with her team to begin development of guidance for county jails
- DCRR will update the timeline for face coverings supply and deployment; and send policy for face covering use.

Summary Notes:

- **Serology Testing:** Successful testing at Florence last week, testing at Eyman this week, and next week testing w/ private prisons in the same area. Yuma and Lewis next on the list. Partnership with Sonora Quest going well.
- **Inmate PCR Testing:** DHS/DCRR meeting today to finalize plan. Lab Corp has testing capacity, will need to work out staffing capacity and deployment plan.
- Onsite Visits planning underway
- **Face Coverings:** # face coverings needed updated for intakes/exits.
- **Fire Crews:** All inmate fire crews have been deployed, developed deactivation plan w DFFM for after fire season.
- **Dashboard:** Internal dashboard has been updated, working on incorporating county data

Hello Donna,

My name is [REDACTED] My brother, [REDACTED], is in prison at Central Arizona Correctional Facility in Florence, AZ. His inmate ID number and address are in this email's subject line. I am writing because I fear [REDACTED] is not receiving adequate medical care. His letters and phone calls with myself, my sister and our mother have been very disturbing to us. We would greatly appreciate your help in guiding us to the proper channels to request that [REDACTED] health and safety are attended to.

[REDACTED] troubling situation, as I understand it, is as follows:

In December 2019, [REDACTED] was prescribed antacids (Tums) and Ranitidine (Zantac). He didn't regularly take the Zantac after he learned it had been recalled but he did take the antacids as prescribed. On May 3, 2020, [REDACTED] was taken to the hospital with heart attack symptoms and given an EKG. It was determined the symptoms were caused by acid indigestion and he was discharged.

The following symptoms have since developed, for which he has not been allowed to see a doctor; lightheaded/dizziness, ear and jaw pain, neck stiffness/swelling/pain, chest pain primarily on left side, tightness breathing, shoulder and collarbone pain (worse on left), elbow pain and tingling in left arm, abdominal pain below entire rib cage, trouble swallowing, sour stomach, irregularity/constipation, hemorrhoids, weight loss, back pain between shoulder blades, pain in both knees and hips, sciatic nerve pain, weakness/fatigue, easily winded, cold sweats, anxiety, and persistent rash on feet. [REDACTED] reports that the only treatment/testing he has received is an EKG and having his ears flushed of wax. I would hope the cause of these symptoms is not a serious medical issue, but the apparent lack of medical investigation and/or treatment is very troubling. [REDACTED] filed an Informal Complaint Resolution on June 4th, 2020 for lack of care or treatment, and, as of June 14, 2020, has not been seen by a physician or given a response to his complaint.

Please let me know if you have any guidance or suggestions of how we might be able to get [REDACTED] seen by a physician to determine if there might be a treatment for his worsening symptoms.

Thank you in advance.

Sincerely,

[REDACTED]

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- Today, ADHS met with multiple partners including healthcare, laboratory, and local health partners to ensure continued coordination on response activities and discuss any barriers and needs.
- ADHS worked with federal and state partners today to identify additional laboratory resources across the state to ensure continued access to testing.
- We continue to educate partners about COVID-19 prevention requirements for [businesses](#) and [restaurants](#). While high numbers of new cases are currently being reported in Arizona, implementation of these prevention actions will help protect Arizonans.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Lastly, here are some social media posts that you may find useful to disseminate to your constituents:

- <https://twitter.com/AZDHS/status/1275447928732020737?s=20>

Thank you for your investment in helping Arizona address COVID-19 in Arizona.

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- ADHS continues to provide support to local health departments, healthcare providers, and laboratories conducting COVID-19 testing across Arizona. Currently, 177 testing sites are listed on the [COVID-19 Testing Locations webpage](#).
- ADHS remains in close contact with our hospital partners to monitor staffing capacity and bed availability in Arizona hospitals. As of today, hospitals reported 16% ICU bed availability and 18% inpatient bed availability, not counting surge beds these facilities have identified. We also continue to utilize the [Arizona Surge Line](#) to ensure that patients are transferred to a facility that can provide them with the most appropriate level of COVID-19 care.
- Our [website](#) has up to date guidance for various healthcare provider types to encourage COVID-19 prevention practices. This includes information for dialysis providers, dentists, outpatient healthcare providers, and long term care facilities. Guidance is broken out by provider/facility type at the bottom of the page.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- ADHS is working with partners to amplify COVID-19 prevention messages. We have multiple [communication tools](#) including videos and images available for download and reposting. Our communications team continues to develop additional messaging to continue educating Arizonans.
- ADHS is partnering with ASU to provide additional funding to scale up saliva testing in Arizona. This new test, developed by ASU, helps to expand the specimen types that can be collected for COVID testing and provides options for testing that reduce potential exposure to healthcare workers and the amount of personal protective equipment required for testing.
- Testing capacity continues to increase in Arizona, with 128 testing sites now listed on the ADHS [COVID-19 Testing Locations webpage](#). While this does not represent all locations providing COVID-19 testing in Arizona, many testing providers have signed up to be listed on the webpage. Testing sites can be added to the webpage by completing the form [here](#).

Dear State Agency Heads,

Thank you for your continued partnership in prioritizing the health and safety of our state workforce. In an effort to continue to communicate best practices among agencies, I'm distributing this notification, below, previously prepared by our colleague Director Cara Christ to ADHS employees informing them of their new department policy to require employees to wear cloth face coverings while in the workplace. She has added in some information based on questions her employees had in response to the

email.

Acknowledging that many of you may have similar concerns for your employees, we wanted to ensure you are aware of steps Dr. Christ is taking with her team. As an agency director, you have the discretion to decide what is appropriate to do in your agency with respect to face covering requirements, consistent with any directives that may be issued by community authorities.

Please feel free to use Dr. Christ's email as a template should you choose to implement similar requirements for your staff, but in doing so, please be sure to offer reasonable accommodations to employees who have valid reasons for being unable to wear a face covering at work (e.g., unsafe for health reasons). Please consult with your human resources staff, or with us here at ADOA if you have questions or seek clarification before proceeding. State HR Director [Emily Rajakovich](#) can help your agency on specific questions.

If you need to procure additional face coverings for your employees, please have your agency Procurement Officer work with [Jill Pernice](#) at the ADOA State Procurement Office to determine the best purchasing options for your agency.

Thank you.

Andy Tobin
Director, Department of Administration

Subject: ADHS COVID-19 Prevention Measures

To: Building 150 - ADHS <building150@azdhs.gov>, PHS-Vital Records <phs-vitalrecords@azdhs.gov>, Building 250 <building2501@azdhs.gov>

Hi everyone!

With COVID-19 widespread in Arizona and a continued large number of reported cases, I know that many of you may be concerned.

In order to keep all of you healthy and safe, **we are going to require all of our team to wear cloth face coverings while at work.** We are making these available throughout the agency if you need one.

- CDC has shown, along with physical distancing, wearing a cloth face covering is one of the best prevention methods we have against COVID-19.
- Many people who have COVID-19 do not feel sick or have any symptoms.
- By wearing a mask, you protect yourself, your team, your family, and others around you.
- We ask that you have a face covering on while in public spaces around our offices. If you are in your cubicle or office, you do not need to wear a face covering.
- If you have a health condition that prevents you from safely wearing a mask, please work with your supervisor.
- There are key steps to take to make sure you are wearing your cloth face covering safely. You can visit our website at azhealth.gov/MaskUpArizona for more information and to see a video of the safest ways to put on and take off your mask.
- Masks are being made available throughout our buildings. Please take only one package of masks initially to ensure there are enough for your co-workers. Each package contains 5 washable, re-wearable masks.

I'd like to remind everyone of other key prevention steps you can take every day to keep your family, your coworkers, and your community healthy and make sure you know what we're doing here at ADHS to help.

- If you're feeling sick, please don't come to work.
- Wear a cloth face covering when you are in public.
- We are making these available throughout the agency if you need one.
- If you're out in public, stay at least six feet away from others who aren't in your

household.

- If you are at [higher risk](#) for severe illness, limit your time in public and avoid attending congregate settings. People at [higher risk](#) for [severe illness](#) include adults 65 or older and people of any age who have serious underlying medical conditions.
- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use an alcohol-based hand sanitizer that contains at least 60% alcohol. Hand sanitizer is available throughout the agency buildings.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Cover your cough or sneeze with a tissue or your sleeve (not your hands) and immediately throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces. Our cleaning crew here has amplified the amount of cleaning they are doing throughout the day in our buildings, with a focus on frequently touched surfaces.
- Limiting gatherings to less than ten people. This means any of your larger meetings should be held electronically. You can easily add a Google Meet video/phone conference option into your calendar appointments through the Google calendar.

Staying home when sick

- One of our key public health messages for many diseases, including COVID-19, is to stay home when you're sick. This helps protect your co-workers and members of the public from being infected.
- If you are feeling sick and need to stay home, you are responsible for notifying your supervisor. Please make sure you know the best way to get a hold of your supervisor.

Staying home if you've been exposed to COVID-19

- If you have been in close contact with someone infected with COVID-19, you should let your supervisor know. A close contact is defined as being within 6 feet of someone for longer than 10 minutes.

- Public health will conduct a contact investigation for those identified to be a close contact of someone infected with COVID-19 and provide guidance.
- Close contacts will be asked by public health to stay home for 14 days except to get essential medical care, prescriptions, and food.
 - Close contacts should telework if their job allows and they don't need to be onsite to provide an essential service.
 - Close contacts who work in an essential service that requires them to be onsite should remain working onsite as long as they are wearing a cloth face covering and are not experiencing symptoms.
 - Many positions in ADHS are considered essential services, including the lab, vital records, licensing, and most positions in public health prevention and preparedness.
 - If you are unsure whether you are in a position that provides an essential service, please talk with your supervisor.
- If you believe you are considered a close contact of a COVID-19 case and you have not heard from public health, you can work with your supervisor to determine your recommended course of action.

If you are in contact with someone who has been diagnosed with COVID-19, please let your supervisor know. You will be asked to telework for 14 days while monitoring for symptoms if your job allows it. Otherwise, you can work with your supervisor to understand your options. If we learn of a COVID-19 exposure at ADHS, we will work with your leadership team to notify any staff who were in close contact with that individual and provide guidance.

Please remember that some positions may be a good fit for teleworking. Check with your supervisor to determine whether this is something you are eligible for.

We have many COVID-19 resources on our website including [FAQs](#) and [general prevention information](#). These resources are continually updated, so please check back

often.

I want to thank you for all that you have done and continue to do to protect the health and wellness of Arizonans.

Have a great day!

Subject: 6-18-20 ADHS COVID-19 MEMO
Date: Thursday, June 18, 2020 5:28:38 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- Yesterday's executive order required businesses to update and enforce policies to limit and mitigate the spread of COVID-19. We've posted requirements for [businesses](#) and [restaurants](#) on our website.
- ADHS is concluding initial testing of skilled nursing facilities, with specimens collected from nearly 15,000 staff and residents of 123 facilities. About 7% of diagnostic (PCR) tests have been positive and about 6% have been antibody (serology) positive. ADHS provides infection control technical assistance to facilities as needed. Future stages of this project will include testing for other facility types that house vulnerable adults in congregate settings and follow up testing on skilled nursing facilities.
- ADHS is working with the Arizona Department of Corrections, Rehabilitation and Reentry to coordinate antibody (serology) testing for employees and contractors. This week, we began this testing at the Florence facility, which includes nearly 1,000 staff and contractors. We plan to test at one facility each week. We are currently developing timelines and identifying resources to test all inmates.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Good morning I work at the [REDACTED] complex and I have been here for 20 years. I am always at work, I don't have a call in problem, I take my job with the department of corrections seriously. I emailed you in March and never received a response. I feel like my life is in danger when you have only a few staff members that are taking the pandemic seriously. There are some staff members that do not wear masks at all, and I think it is not fair to me, and other staff that have asham. if I contract Covid 19 it will kill me, because of my pre-existing conditions. Please make it Mandatory that staff members wear their mask/face coverings. Thank you for your time and consideration in this matter.

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

-

Today, Dr. Christ joined GOVERNOR Ducey and Major General McGuire at a press conference to provide an update on COVID-19 status and mitigation actions in Arizona. Information about the press conference is available [here](#).

-

The use of cloth face coverings when in public is an important measure to prevent the spread of COVID-19. Additional guidance about masks is available [here](#). As of today, local governments may implement mask and face-covering policies and determine enforcement measures.

-

ADHS continues to work with county health departments to implement contact tracing, a tool that allows public health to follow up with known close contacts of COVID-19 cases to give them guidance about staying home and monitoring for symptoms. As announced in today's press conference, we are currently onboarding and training 300 National Guard members to provide additional contact tracing support across Arizona.

On Mon, Jun 15, 2020 at 12:41 PM Ronald Towles <rtowles@azadc.gov> wrote:
Darrell,

Assistant Director Hetmer has authorized ADCRR WLFC Winslow, Wolf Mountain, Diablo Canyon, Superstition, Tucson, Ft. Grant and Perryville to deploy under the following conditions: Two staging/ camps (regionally) will need to be established to receive the WLFC inmates when released from the fires. ADCRR will have our medical contractor (Centurion) test the inmates for Covid-19 upon arrival at the camp location. The inmates will be housed with food and shelter provided by DFFM while residing at the staging/ camp location. After 10 days from the initial testing, Centurion will test the inmates again for Covid-19. Upon all inmates producing negative test results, the WLFC can return back to their respective facilities. If any inmates test positive, they will be transported back to their complex and isolated. The remainder of the crew will reside at the camp location until they clear another round of testing after the incubation period has expired. During the time the crews are residing in the camps, they will be available for redeployment if needed. However, if redeployed, they would be required to go through the testing process again.

Sincerely,

Ronald Towles

Subject: 6-16-20 ADHS COVID-19 MEMO
Date: Tuesday, June 16, 2020 7:30:11 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- - Today we reported an increase of 2,392 COVID-19 cases in Arizona, bringing our total to 39,097 cases. Please encourage your constituents to do their part to slow the spread of COVID-19:
 - Maintain physical distancing of at least six feet in public spaces
 - Thoroughly wash your hands
 - Wear a face covering when out in public
 - Cover your coughs and sneezes
 - Stay home when you're sick
- Healthcare professionals continue to register to support the response through [ESAR-VHP](#). Please consider promoting this opportunity to your constituents who are expressing interest. This will be a key location where public health will be sourcing additional staffing resources as needed to support hospital surge plans and also a tool for us to recruit additional contact tracers.
- We continue to update our FAQs as additional information about the virus emerges. You can check them out [here](#) and use the links at the top to jump to sections of interest.

The link below provides the most up-to-date health surveillance figures regarding COVID-

19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Lastly, here are some social media posts that you may find useful to disseminate to your constituents:

Hi Derleen!

All of the testing is being performed under the single ADHS account number, but we can filter by collection date to identify the individual facilities.

We had a total of 341 today, and my team was extremely impressed by the process in place at the facility.

Major kudos to everyone on your team!

Thank you,

Hi Nathan,

Can we receive the test results listed by location? For example all for Florence in one report as opposed to all facilities mixed up.

That will help us with the stats for each location. Thank you.

Director Shinn : In light of recent affirmation by the CDC that wearing masks does effectively work to interrupt or diminish the spread of COVID -19, we are respectfully requesting that you consider not only allowing all prisoners to wear masks, but making at least two/person available. We hear from various sources that in some units masks are allowed, but in others they are not. We are also aware that the initial reason masks for prisoners were disallowed is due to security concerns. However, the rate of spread of symptoms combined with the increase in testing at some locations has clearly justified authorization of additional measures , as recommended by CDC, and wearing masks has been highly recommended for anyone unable to socially distance. We are requesting that you issue a Department-wide Director's Instruction or Management Update to authorize this necessary health measure for all prisons , state and private, who house Arizona-sentenced prisoners. If necessary, we would be willing to engage in a campaign to secure donated masks. If necessary for security purposes, we suggest placing an inmate ID number in large letters on each mask with a marker and would provide volunteers to perform this task. The goal is to reduce the spread of this deadly virus, including to staff members (who are already permitted to wear masks, but not required to do so) and to save taxpayer dollars by reducing medical costs for prisoners. This request is universally supported by families and loved ones of prisoners and we would very much appreciate your thoughtful consideration. Donna Leone Hamm, Director, Middle Ground Prison Reform

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- We accepted a shipment of approximately 500,000 gowns today, which we are breaking down to distribute to local health departments for healthcare workers and first responders. Trucks departed the warehouse today en route to county and tribal health departments with multiple other PPE items. We continue to work to ensure partners have the supplies they need in their communities.
- We are working to support expanded testing in the state, including shipping out testing supplies to all county health departments to provide testing capacity in their jurisdiction and augment available private supplies.
- We continue to provide guidance for individuals about what steps they should take if they test positive for COVID-19 or are awaiting test results. Our [Release from Isolation guidance](#) has up to date information about what to do depending on their symptoms and test results.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

On Mon, Jun 15, 2020, 12:11 PM Jami Snyder <jami.snyder@azahcccs.gov> wrote:

Hello Maria -

Good news on this front. We have an established pre-release application program. I can supply additional detail, but here are the basic parameters of the program, as detailed on our website:

Pre-Release Applications

ADOC and certain AZ counties (including Maricopa, Pima and Navajo) submit pre-release applications via [HEAplus](#) for AHCCCS Health Insurance approximately 30 days before detainees are released from incarceration. If additional information is required, these applications are submitted to special units at AHCCCS and the Department of Economic Security (DES) for review and processing. Staff in these special units review the applications for eligibility and approvals become effective when the applicant is released from custody. Submission of applications prior to release helps to ensure that people who need critical care are enrolled in AHCCCS immediately upon their release.

Individuals who are at risk of needing an institutional level of care upon their release, receive a pre-admission screening while incarcerated and have a Medicaid application completed. When eligible, the member is connected to the Arizona Long Term Care System (ALTCs) program and placed into a long-term care setting immediately upon their release.

This pre-release application process is available to all state and local correctional settings. Please contact us at 602-417-4065 if you are interested in

beginning this process in your correctional setting.

Please do not hesitate to reach out to me for more information. I am happy to meet, as well, to discuss the program further.

Regards-

Jami

Hi Jami. Hope all's well.

The Governor, Director Shinn and I had a meeting with Valley Interfaith on Friday and AHCCCS came up. There was a concern raised by the participants regarding COVID-19 testing for prisoners upon release and ensuring they were signed up for AHCCCS before the release date (ideally) or immediately thereafter, so they could get testing and/or treatment.

I'm connecting you with the Director so you all may discuss.

Please let me know how I can be of support.

Maria

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- Testing continues to significantly increase in Arizona, with diagnostic PCR testing to date in June already surpassing the number of tests conducted in the month of April. Testing sites continue to be updated on our [webpage](#) to assist Arizonans in identifying where they can seek testing.
- Today we met with county health officials as part of our ongoing discussions related to the COVID-19 response. Topics included current data trends, mitigation measures, and coordination across state and local public health to provide support for schools as they look to reopen in the coming months.
- On Tuesday, CDC [released a study](#) about COVID-19 among young, healthy US service members aboard an aircraft carrier. The study found that individuals taking preventative measures had lower infection rates than those who did not take preventative measures, with the greatest effect observed in those wearing a face covering. A few weeks ago, ADHS posted a [blog](#) about the proper way to wear a face covering, which we encourage Arizonans to revisit as we learn more about the importance of this mitigation tool.

Subject: Director Link Feedback
Date: Friday, June 12, 2020 12:41:05 PM

Name: [REDACTED]

Email Address: [REDACTED]

Recommendations: I work at [REDACTED]. I have been at work every single day since Covid-19 began. We have no cases of Covid-19 here. We have worked very hard to keep this yard clean, sanitized, and safe. I personally cut class sizes down to under 10, with over 6 feet social distancing, and sanitize every surface in every classroom after every class. I knew the risks involved in coming to work. I knew that there is a chance I could bring it home to my extremely sick, elderly family members that I moved in with me because of their health. I understand that if our unit gets Covid-19, that I may bring it home to the family I was trying to protect. I have wished since this started that I had the money for a hotel room, or even a travel trailer to live in, so I do not have to worry about exposing my family. But I cannot afford a different place to stay. Today they moved 3 people to our unit that are positive for Covid-19. [REDACTED] Unit behind us is empty and has over 100 beds. Instead of moving sick people to an empty unit, the Department chose our unit. Staff is upset. The inmates are upset. We feel like sacrificial lambs over here. I have devoted over 17 years of my life to this department. I haven't called in for about two years. I donate annual leave to other people because I am so dedicated to my position that I don't want to take time off. But right now I feel betrayed.

Subject: 6-9-20 ADHS COVID-19 MEMO
Date: Tuesday, June 9, 2020 6:10:19 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- - Today, ADHS distributed approximately 725,000 gowns, 225,000 goggles, hand sanitizer, and other protective equipment to 62 jurisdictions and agencies across the state for further distribution to local healthcare and first responders. ADHS continues to work with DEMA and National Guard partners to obtain, receive, and redistribute PPE to communities across Arizona.
- - We recently updated guidance on our [Schools page](#) for organized youth activities. ADHS recommends that attendees stay home if they are feeling sick or at a higher risk for severe illness. When in attendance, remain at least 6 feet away from other participants and activity facilitators. In addition, activity organizers and coaches should take the following steps:
 - Wear a cloth face covering or mask when possible, and provide coverings or masks to adult attendees.
 - Increase the availability of alcohol-based hand sanitizer and handwashing stations for adults and youth to use during and following activities.
 - Operate with reduced occupancy and capacity to reduce large groups.
 - Implement sanitation protocols, including sanitizing sports and activity equipment before and after each use.
- - Hospital bed availability remains above 20% for both ICU (24% bed availability) and inpatient beds (22% bed availability). ADHS continues to monitor this data on an

ongoing basis.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Director Shinn,

In continuing our ongoing conversation about the threat of the COVID-19 virus within Arizona's prison system, we were hoping you can provide us with the following information:

- With regards to the ongoing testing of inmates for COVID-19, can you confirm whether Centurion is entirely responsible for providing and administering COVID-19 tests to inmates?
- Who (what company, contractor, or organization) provides the testing kits and machines to Centurion?
- Who manufactures the tests?

We appreciate your time and assistance with these questions.

Regards,

Subject: 6-5-20 ADHS COVID-19 MEMO
Date: Friday, June 5, 2020 6:22:28 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- Additional sites continue to be added to our [webpage listing COVID-19 testing site locations](#). So far, 85 sites are listed in nine counties with more to come. We are working with local health officers to ensure additional sites within their communities are registered. Sites in your district can be listed by filling out the form [here](#).
- The Arizona Testing Blitz, which ran all 5 Saturdays in May, resulted in a significant increase in testing for Arizonans and helped raise awareness that testing is now more widely available across the state. Testing Blitz sites operated in 11 of Arizona's 15 counties with between 30 and 80 sites participating on a given Saturday. Diagnostic testing reported to date in May (172,208 PCR tests) more than tripled compared to testing in April (54,281 PCR tests).
- Reported COVID-19 case counts increased again today, with the highest number of cases reported the week of May 24. We encourage all Arizonans to prevent the spread of COVID-19 by washing their hands, avoiding touching their face, covering coughs and sneezes, disinfecting items, physically distancing, wearing a cloth face covering, and staying home when sick. A full list of prevention tips and other important information for the public is available on our [What Everyone Needs to Do webpage](#).

Date: Thursday, June 4, 2020 7:19:25 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- - Dr. Christ appeared alongside Governor Ducey, Major General McGuire, and Colonel Silbert at a [press conference](#) today to provide updates on Arizona's COVID-19 response and ongoing activities.
- - ADHS continues to support skilled nursing facilities in order to prevent and control COVID-19 spread in these settings serving Arizona's vulnerable adults.
 - ADHS has worked with partners to facilitate testing of all staff and residents in state licensed skilled nursing facilities. To date, specimen collection has occurred among 8227 staff and residents affiliated with 71 facilities. An additional 16 facilities will be doing their own specimen collection. Testing is scheduled to be completed at all 147 facilities next week.
 - ADHS Licensing surveyors have also conducted phone-based infection control surveys with 100% of these facilities and in-person infection control surveys with 88% of them. All facilities will receive an in-person survey by next week.
- - ADHS continues to coordinate with the Arizona Department of Corrections, Rehabilitation and Reentry to facilitate testing of staff and contractors with inmate contact and to support implementation of infection control.
 - Serology testing is available to ADCRR staff and contractors through the University of Arizona, which has 31 testing sites throughout the state. In addition, Sonora Quest Labs has been contracted to complete onsite testing, particularly for prison facilities in rural areas without adequate healthcare

access.

- o ADHS has completed Infection Control Assessment and Response surveys for all state prison complexes and will follow up with onsite visits through the month of June.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Hello DD Profiri,

Attached is a table with all noted issues documented and the research associated with each. Most employees on the list were out of work due to non-work related symptoms or exposures and had ample time to cover their absences or their issue was childcare. Those that do not fit that category are listed below with notes.

Director Shinn,

As requested, here are the cases we have received from the officers. As you can see there are many (28) cases. I am sure as time goes on and the word gets out we will be hearing of many more cases. I also understand the FOP will be presenting several cases. That is why we think it is best to have a universal policy on this subject.

In addition to the covid19 leave cases there is also a new situation as it relates to officers on 12 hour shifts having to take personal leave. Below is the email I received from Mike Ryan;

“12 hour shift officers work a long week and a short week in each pay period. 36 hours 1 week and 48 hours the other week. Pre Covid the department would take 4 hours from the long week and comp the hours to cover the short week. So they were getting paid for 40 hours one week and 44 hours the next. Now that there is a 8% and 25% Covid stipend there is no comp time allowed to be earned. So now there is no time to be moved from the long week to the short week so staff have to use 4 hours of annual or holiday that they already had saved up or earn during that pay check. The newer officers don't even earn 4 hours per

pay period so they are going backwards. If it goes long enough they will have zero hours.”

We would like to discuss this matter further.

Again, thank you for your attention on this important matter. If you have any questions please contact me.

Respectfully,

Joe R. Clure

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- An opinion piece authored by Superintendent Hoffman and Dr. Christ was published on [AZCentral](#) today. The article discusses the importance of school in children's health and well being and steps schools and parents can take to safely reopen.
- Our ADHS team, in partnership with DEMA, and the National Guard, continue to work tirelessly to receive, repackage, and distribute needed PPE throughout Arizona. For example, to date, nearly 500,000 respirators have been distributed. In addition, the [Battelle critical care decontamination system](#) is in place, providing an opportunity for healthcare and first response agencies to decontaminate their N95 respirators for safe reuse. As of today, 399 entities have registered to use this resource.
- We recently updated guidance for dentists on our [Healthcare Provider webpage](#). This information is on the Dental Care tab at the bottom of the page.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Lastly, here are some social media posts that you may find useful to disseminate to your constituents:

- <https://twitter.com/AZDHS/status/1268272496903630849?s=20>

Thank you for your investment in helping Arizona address COVID-19 in Arizona.

Director,

I spoke to Warden Jensen this evening; he advised that over two days at Yuma Complex - Tuesday (5/26) & Wednesday (5/27), 375 staff were PCR tested.

Yuma complex has just under 1200 total staff; including State and Contracted employees.

No serology testing was completed.

Joe

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- Today we launched a [new webpage](#) showing where Arizonans can go for COVID-19 testing. Additional sites will be added on an ongoing basis. Sites interested in being listed can complete the form [here](#).
- Today we had a large increase in reported cases, up 1,127 from the prior day. This brings our total number of COVID-19 cases in Arizona to 21,250. As testing continues to increase and reopening is phased in, we expect to see increases in cases. COVID-19 is still in our community. ADHS continues to monitor data including case counts, percent positivity, and hospital status.
- ADHS encourages people, especially those vulnerable to severe complications of disease, to [take prevention measures](#). We continue to update guidance on our website as new information is available. Today, we posted new resources from CDC with guidance for [going out](#) and for [using transportation](#).

Subject: N95 Masks for ADCRR
Date: Tuesday, June 2, 2020 2:14:40 PM

Hello Director Shinn,

ADCRR procurement has made requests to EOCC throughout the covid 19 for N95 masks and has only received a limited supply. The ADCRR procurement team has done a great job sourcing masks on our own up to this point. Currently we do not have any suppliers that have access to these masks.

ADOA Director Tobin and SPA Ed Jimenez have heard our request and are sending over 5,000 N95 masks from ADOA supply. Our current monthly forecasted usage is 5,073. I wanted to personally thank them for hearing our needs and supporting our safety.

Thank you,

Ken Sanchez

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- This morning we updated our [data dashboard](#) to show COVID-19 cases and deaths broken down by their classification - probable or confirmed. Hovering over the case or death count on the Summary section of the dashboard will show this information. We [published a blog today](#) providing additional background on case definitions and how they are used to conduct epidemiologic surveillance for reportable communicable diseases nationwide.
- This weekend wrapped up the Arizona Testing Blitz, with between 30 and 80 sites participating across 10 of Arizona's 15 counties. Complete data from the events is not yet available, but the participation of the provider community significantly increased testing availability in Arizona in May, with May diagnostic (PCR) testing numbers nearly tripling compared to April based on reports to date. We are so appreciative of Arizona healthcare providers for their support of these events.
- Additional PPE continues to arrive at our warehouse for distribution to local health departments to share with their healthcare and first response partners. This weekend we received specimen collection materials, isolation gowns, and other critical supplies.

SROD, some residual effects....

- I just spoke to April Parker from Keefe and she advised me that in light of the fact that [REDACTED] tested positive, all but two of the remaining Keefe workers are refusing to come to work in order to self quarantine.
- At this point, none of these staff members have exhibited symptoms nor have they had positive test results.
- To assist with store this week (and likely the next), April and one other (I believe her supervisor) will be coming to Yuma to deliver store.
- This will give them four staff, down from their normal of nine.
- They will be reaching out to Trinity for possible assistance.
- They are also reaching out to other Keefe employees at the other prisons for assistance.
- They have asked if I can provide any staff to help (I will see what I have to help sort out bed species to speed up sorting).
- They have also asked permission to temporarily reduce spending limits to pre-COVID levels. I advised that I would forward their request, but I don't think this would be a good idea.
- She will keep me updated as information changes regarding staffing.

Yuma corrections facility marks 1st stage of new coronavirus testing plan

May 30, 2020
By [KTAR.COM](#)
KTAR News 92.3

PHOENIX — The first stage of a new coronavirus testing plan designed for correctional facility employees took place at the Arizona State Prison Complex in Yuma this week.

The COVID-19 PCR swab testing took place Tuesday through Thursday via an onsite mobile testing process as part of Gov. Doug Ducey's work to expand coronavirus testing across Arizona.

Over 1,200 staff members, including 890 correctional officers, were tested over the three-day period, according to the Arizona Department of Corrections, Rehabilitation and Reentry.

The ADCRR said in a press release that it is prioritizing serology testing (antibodies) for all correctional officers statewide.

According to the ADCRR's website, 82 staff members statewide have self-reported testing positive for COVID-19, while 61 have recovered.

Yuma is the third-most populated state prison with over 4,800 daily inmates and has tested the most inmates of any prison in Arizona.

Of the 281 Yuma inmates that have been tested for coronavirus, 61 have tested positive and zero have died.

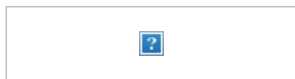

Statewide, over 1,100 of Arizona's more than 40,000 inmates have been tested.

Of those, more than 180 have been confirmed positive and at least three have died.

"This is an exceptional bipartisan example of people coming together in service for the greater good in providing COVID-19 testing to our brave frontline men and women who continue to define public service throughout the pandemic," ADCRR Director David Shinn said in the release.

COVID-19 in Arizona: Record 702 new cases confirmed in a single day

May 30, 2020
By Brett Bavcevic
TucsonSentinel.com

A day after Gov. Doug Ducey announced the reopening of Arizona schools in the fall and youth sports this summer, the Arizona Department of Health Services reported a record 702 new cases of COVID-19 on Friday – the most in a single day since the first case was reported in late January.

The state has issued guidance on safely reopening youth sports and activities, much of it relying on parents to take the appropriate steps to assure the health of young children, teachers and coaches who could be exposed to the novel coronavirus that causes COVID-19.

"Our approach is going to remain calm and steady, we're going to take urgent action when it comes to public health," Ducey said Thursday. Ducey lifted Arizona's statewide stay-at-home-order on May 15.

"We would recommend to every Arizonan to take precautions," said Dr. Cara Christ, director of the Arizona Department of Health Services. "If you start to develop symptoms, stay home."

Those concerns were echoed by Navajo leaders, who urged tribal members to continue taking precautions.

"We have to keep doing what we're doing by wearing protective masks, complying with the weekend lockdowns, staying home and practicing social distancing," Navajo President Jonathan Nez said in a statement this week. Although the reservation covers parts of several counties, about 17% of those tested in Navajo County have tested positive for the virus, the second-highest percentage in the state.

As of Friday, May 29, the Arizona Department of Health Services reported 18,465 cases of COVID-19 and 885 deaths in the state. It said 297,495 tests for COVID-19 have been completed as of May 29 in public and private labs in Arizona, and 5.6% of tests have come back positive for the virus. Just more than 4% of Arizonans have been tested to date.

Scottsdale mayor met with Old Town business owners

Mayor Jim Lane, responding to reports of packed bars and clubs in Old Town over the Memorial Day weekend, met with several Scottsdale business owners to discuss following public health guidelines, according to Fox 10 Phoenix. "The images from Old Town Scottsdale this weekend are disturbing, and frankly show a real lack of common sense and civic responsibility," Lane said after images and video went viral. Lane said most owners were cooperative, "almost apologetic," and they blamed the problems on a crush of out of state visitors and overwhelmed staff members.

Enhanced COVID-19 testing at Yuma prison complex

Enhanced COVID-19 testing will be available to all correctional officers and prison employees at the Yuma prison complex, the Arizona Department of Corrections, Rehabilitation and Reentry said Thursday. "This is an exceptional bipartisan example of people coming together in service for the greater good in providing COVID-19 testing to our brave frontline men and women who continue to defend public service throughout the pandemic," David Shinn, corrections department director, said in a news release.

Southern Arizona clinic expecting 500 COVID-19 test kits

The Mariposa Community Health Center, which has offices in Nogales and Rio Rico, is expecting 500 COVID-19 testing kits from the state this week, as well as 500 kits per week over the next five weeks. According to the Nogales International, 18.2% of Santa Cruz County's population has tested positive for the virus – the highest of any Arizona county.

Prescott rodeo allowed to proceed

Officials with the 133rd annual World's Oldest Rodeo confirmed the bulls and broncos will buck next month, whether fans are allowed to attend or not, the Daily Courier reported after Ducey told a news conference Thursday "the cowboys and the bulls can get ready." The rodeo is slated for June 29 through July 5.

Cooking to combat COVID-19

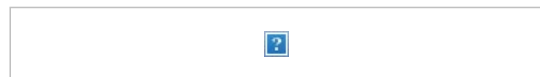

On Saturday, Native Americans for Community Action will host a free online cooking session to teach people how to make plant-based foods that promote health during the pandemic. The program agenda includes cooking demos and various speakers, including Navajo President Jonathan Nez.

Navajo COVID curve flattens

The curve of positive COVID-19 tests on the Navajo Nation Reservation has begun to flatten, Nez announced Thursday. Despite that progress, tribal leaders issued the eighth weekend curfew to prevent the further spread of the virus, Cronkite News reports.

COVID-19 outbreak at ICE detention center in Eloy has ballooned into one of the largest in the nation

May 31, 2020
By Daniel Gonzalez
azcentral.com/Arizona **Republic**

Immigrants detained at the La Palma Correctional Center near Eloy have become increasingly desperate as the new coronavirus outbreak at the facility has grown into to one of the biggest in the nation.

At least 76 undocumented immigrants detained at the 3,060-bed detention center had tested positive for COVID-19 as of Saturday.

That is sixth largest coronavirus outbreak at an immigration detention facility in the country, according to the most recent data released by Immigration and Customs Enforcement.

La Palma Correctional Center, a former prison, is run by the private for profit company CoreCivic, under a contract with ICE. The outbreak at La Palma has become increasingly concerning in light of two detainees' recent deaths of coronavirus complications at other detention centers.

In letters written to relatives and immigration advocates, detainees at La Palma, some with medical conditions, say they are fearful of becoming infected and dying because they don't have any way to social distance. The detainees also say detention officials are not doing enough to prevent transmission of the virus inside the facility.

"Their letters tell me that they are very concerned and they are very desperate to either get out or get medical attention," said Jill Japan, who has been corresponding with two asylum seekers, one from Colombia and one from Cuba, currently detained at La Palma. "And they are concerned that if they get sick they won't be attended to. They are afraid they are going to die,"

On May 24, Santiago Baten-Oxla, a 34-year-old immigrant from Guatemala, died at a hospital in Columbus, Georgia, of complications related to COVID-19. Before he was hospitalized on April 17, Baten-Oxla was being held in ICE custody at the Stewart Detention Center in Lumpkin, Georgia, according to ICE officials.

On May 6, Carlos Escobar-Mejia, a 57-year-old man from El Salvador, died of COVID-19 related complications at a hospital in National City, California. Escobar-Mejia was being held in ICE custody at the Otay Mesa Detention Center, and was hospitalized with coronavirus-like symptoms, ICE said.

The Otay Mesa facility near San Diego has the biggest coronavirus outbreak at a detention center in the country. At least 158 detainees at the Otay Mesa facility have tested positive. In addition, 11 ICE employees at Otay Mesa have tested positive for the coronavirus.

On May 19, U.S. Sen. Tom Udall, D-N.M., announced that the Department of Homeland Security's inspector general had launched an investigation into ICE's handling of the coronavirus pandemic inside immigration detention facilities.

"There is a long history of disease outbreaks in detention facilities and this is the first step toward ensuring that sufficient policies and practices are in place to mitigate the spread of COVID-19 in ICE detention," Udall said in a statement.

The inspector general's inquest was launched in response to a letter from Udall and 25 other Democratic senators raising concerns about reports that immigration detention centers weren't making adequate efforts to prevent and reduce the spread of COVID-19, including not providing adequate soap and hygiene products to detainees; not providing protective gear to staff and detainees, and the inability of detainees to practice social distancing.

The advocacy group Detention Watch Network planned to hold protests on Thursday and Friday at ICE offices in New York and at detention facilities in Tacoma Washington, and Adelanto, California calling on ICE to release detainees in response to the coronavirus outbreaks.

Coronavirus outbreaks in detention centers growing

Detainees have tested positive at 55 of 220 immigration detention facilities in the country.

As of May 30, a total of 2,781 detainees had been tested for the coronavirus and 1,406 were positive, according to ICE data.

Another 44 ICE employees working at detention centers had tested positive, according to ICE data.

On May 7, 30 detainees with high-risk conditions such as asthma, diabetes, cancer and hypertension signed a letter saying they feared for their lives due to the outbreak at La Palma Correctional Center.

In the letter, the detainees call upon immigration authorities to release them because their medical conditions put them at greater risk of getting sick or dying from the virus.

"In this place, hygiene measures are not taken, we do not receive adequate medical treatment or food, and these factors make us more likely to contract the virus," said the letter, a copy of which was obtained by The Arizona Republic.

Laura Belous, the advocacy attorney at the Florence Project, a nonprofit organization that provides legal assistance to detained immigrants, said clients detained at La Palma report that they don't have access to soap.

To clean, they resort to mixing diluted cleaning solution, shampoo, and toothpaste, she said.

"Our clients also tell us there is no possibility of social distancing in common areas, where people regularly eat at 4-person tables within reach of one another," she said in an email. "Most of the clients I have talked to say they still have a cellmate and cannot maintain 6-foot separation while they sleep or during the many hours per day that they are locked inside while the facility counts detainees."

She said clients also say they and others "do not trust the facility to be transparent, tell the truth, and provide adequate protection and care, which is extremely worrying for us."

On April 1, the Florence Project filed a petition in federal court asking a judge to release five immigrants being held at La Palma and three being held at the nearby Eloy Detention Center "so their civil detention does not become a death sentence."

The petition said their medical conditions, ranging from HIV positive, asthma, diabetes and hypertension, put them at greater risk of severe illness or death if they contracted the virus.

"Infectious disease specialists warn that no conditions of confinement in (prison) settings can adequately manage the serious risk of harm for medically vulnerable individuals during the COVID-19 pandemic," the petition said.

It added that detainees "live in dorms and sleep in bunk beds, sharing common spaces and medical facilities with hundreds of other detainees. They are forced to share necessities like showers, telephones, toilets, and sinks with dozens of others. They are in the constant presence of officers and staff who continually rotate in and out of the facility, each time risking transmission of the virus to those inside and outside the detention center."

ICE has since released seven of the eight detainees named in the petition, Belous said.

Former prisons run by private companies detaining immigrants

The La Palma Correction Center is an example of how the Trump administration has opened detention centers in rural areas around the country to detain more undocumented immigrants, said Eunice Cho, senior staff attorney at the American Civil Liberty Union's National Prison Project.

The expansion largely benefited private prison companies, helping them shore up revenues as criminal justice reforms resulted in fewer numbers of inmates, according to an April report by the ACLU.

"As reforms to the criminal legal system have reduced the number of prisoners held in that system nationwide, prison corporations have found a new source of income: immigrants," the report said.

La Palma originally housed about 2,500 inmates from California Department of Corrections sent to Arizona because of overcrowded prisons in California. But California eliminated the use of out-of-state prisons in response to criminal justice reforms adopted in the last decade and stopped sending prisoners to La Palma.

In 2018, however, CoreCivic received a new contract with ICE to detain undocumented immigrants at La Palma.

Of the 20 new immigration detention facilities opened under the Trump administration, most of them former prisons, La Palma is the largest, according to the ACLU report.

"It is too easy for these private prison companies to cut corners and the impact of that is what we are seeing here, which is mass spread of COVID-19," Cho said.

ICE responds

ICE officials did not directly respond to questions about the coronavirus outbreak at La Palma asking to explain the number of detainees who have been infected there.

There have been no positive coronavirus cases reported so far at the Eloy Detention Center, also run by CoreCivic. There have been 11 positive cases at the ICE-operated Florence Processing Center, an immigration detention center in Florence.

In a written statement, Yasmeen Pitts O'Keefe, an ICE spokeswoman in Phoenix, said ICE "is committed to ensuring the welfare of all those in the agency's custody."

She pointed out that the list of positive cases is cumulative. Some detainees may no longer be in ICE custody, and some may have since tested negative for the virus, she said.

The agency works with the Department of Homeland Security and other federal, state and local agencies to confront the coronavirus and help detect and slow the spread of the virus. The agency's Health Service Corps has long-established protocols to report any infectious disease outbreaks to the appropriate state agency, the statement said.

The agency has also been reviewing cases of detainees deemed to be at higher risk of severe illness due to the virus and releasing some detainees on a case-by-case basis, she said.

ICE also notifies local public health agencies when ill or isolated detainees are ordered released by a judge, she said.

ICE has released more than 900 detainees after evaluating medical issues, and other factors after conducting reviews of 34,000 cases of detainees who fell within CDC guidelines for higher risk of severe illness as a result of COVID-19, ICE officials have said.

Some of those releases have come after the ACLU and partner organizations have filed more than 50 lawsuits on behalf of medically vulnerable detainees.

ICE's detained population has also declined from 38,537 as of Feb. 29 down to 28,865 as of May 2, officials have said.

CoreCivic responds

Amanda Gilchrist, public affairs director at CoreCivic, the Nashville-based company that runs the La Palma detention center under contract with ICE, refuted claims by detainees of inadequate response to the coronavirus outbreak.

She said the La Palma staff has expanded their response to the coronavirus outbreak and listed the steps that have been taken, including conducting daily temperature checks of all detainees, keeping detainees informed about proper sanitation protocols, personal protective equipment, safe dining practices, social distancing recommendations and recreational opportunities.

Staff have also limited movement around the facility, with the exception of court hearings or medical emergencies, Gilchrist said in a statement.

Detainees who have tested positive for COVID-19 are housed in separate pods.

Meals are now being served in housing pods rather than the dining facility to enhance social distancing. Masks have been provided to all staff and detainees in accordance with updated CDC recommendations, Gilchrist said.

The claim that detainees do not receive adequate nutrition is false, she said

"All detainees are provided three meals per day that are reviewed and approved by a registered dietitian and by our government partner (PBNDS). Commissary items are also available to all detainees," Gilchrist said.

In addition, she said high-risk medical detainees have been separated since March 20 before any positive cases at La Palma. Staff entering those areas are required to wear full personal protective equipment, Gilchrist said.

At the direction of ICE, all social visitation has been suspended since March 13, Gilchrist said.

Detainees who display symptoms of COVID-19 are immediately transferred to the medical unit wearing full personal protective equipment and then placed in medical isolation pending an assessment and testing, Gilchrist said.

Employees are also being asked to prevent the spread of COVID-19, including by avoiding close contact with people who are sick, avoiding touching eyes, nose, and mouth with unwashed hands, and staying home when sick, Gilchrist said.

All employees and approved visitors and vendors are screened upon entering a CoreCivic facility, she said, and follow procedures designed to prevent the introduction and spread of the COVID-19 virus. These steps include answering a screening questionnaire related to symptoms of infection, and a safe temperature check, she said.

Gilchrist also refuted claims by the ACLU that the COVID-19 outbreaks are the result of private prison companies such as CoreCivic cutting corners to maximize profits.

The claims, she said, "are baseless and ignore the high-quality services CoreCivic provides. We have every incentive to provide outstanding service to our government partners, just as any other private business must meet and exceed the expectations of their clients. The fact that we've been working with the government for more than three decades is a testament to professional standards we meet every day.

Detention Centers with most COVID-19 detainee cases:

Otay Mesa Detention Center (San Diego, California), 158

Bluebonnet Detention Facility (Anson, Texas), 132

Winn Correctional Center (Winnfield, Louisiana), 116

Otero County Processing Center (Chaparral, New Mexico), 92

Houston Contract Detention Facility (Houston), 78

La Palma Correctional Facility (Eloy), 76

182 cases in Arizona prisons

June 1, 2020

By Alison Steinbach

[azcentral.com/Arizona](https://www.azcentral.com/Arizona) Republic

The Arizona Department of Corrections' online dashboard said 182 inmates had tested positive for COVID-19 as of Friday. The cases were at these eight facilities: 71 in Florence, 61 in Yuma, 28 in Tucson, nine in Marana, five in Eymann, five in Phoenix, two in Perryville and one in Kingman.

The department had tested 1,132 inmates, with 764 negative cases and 194 pending out of a total population of 40,975.

Seven inmate deaths are under investigation, with two deaths at Florence and one at Tucson determined to be directly or indirectly the result of COVID-19. Four other deaths, three at Florence and one at Tucson, are preliminarily attributed to COVID-19. Fifty-two inmates have recovered.

Eighty-two staff members have self-reported positive for the virus, and 61 have been certified as recovered, the department said.

Both legal and nonlegal visitations have been suspended through June 13, at which point the department will reassess. Temporary video visitation will be available to approved visitors and inmates who have visitation privileges, the department announced. Inmates are eligible for one 15-minute video visit per week. CenturyLink also is giving inmates two additional 15-minute calls for free during each week visitation is restricted.

Separately, the Mohave County Sheriff's Office on May 27 reported its first positive case, a male inmate between 30 and 40 years old who was not showing symptoms. He was placed in medical isolation and being monitored, officials said.

Director Shinn,

As requested, here are the cases we have received from the officers. As you can see there are many (28) cases. I am sure as time goes on and the word gets out we will be hearing of many more cases. I also understand the FOP will be presenting several cases. That is why we think it is best to have a universal policy on this subject.

In addition to the covid19 leave cases there is also a new situation as it relates to officers on 12 hour shifts having to take personal leave. Below is the email I received from Mike Ryan;

“12 hour shift officers work a long week and a short week in each pay period. 36 hours 1 week and 48 hours the other week. Pre Covid the department would take 4 hours from the long week and comp the hours to cover the short week. So they were getting paid for 40 hours one week and 44 hours the next. Now that there is a 8% and 25% Covid stipend there is no comp time allowed to be earned. So now there is no time to be moved from the long week to the short week so staff have to use 4 hours of annual or holiday that they already had saved up or earn during that pay check. The newer officers don't even earn 4 hours per pay period so they are going backwards. If it goes long enough they will have zero hours.”

We would like to discuss this matter further.

Again, thank you for your attention on this important matter. If you have any questions please

contact me.

Respectfully,

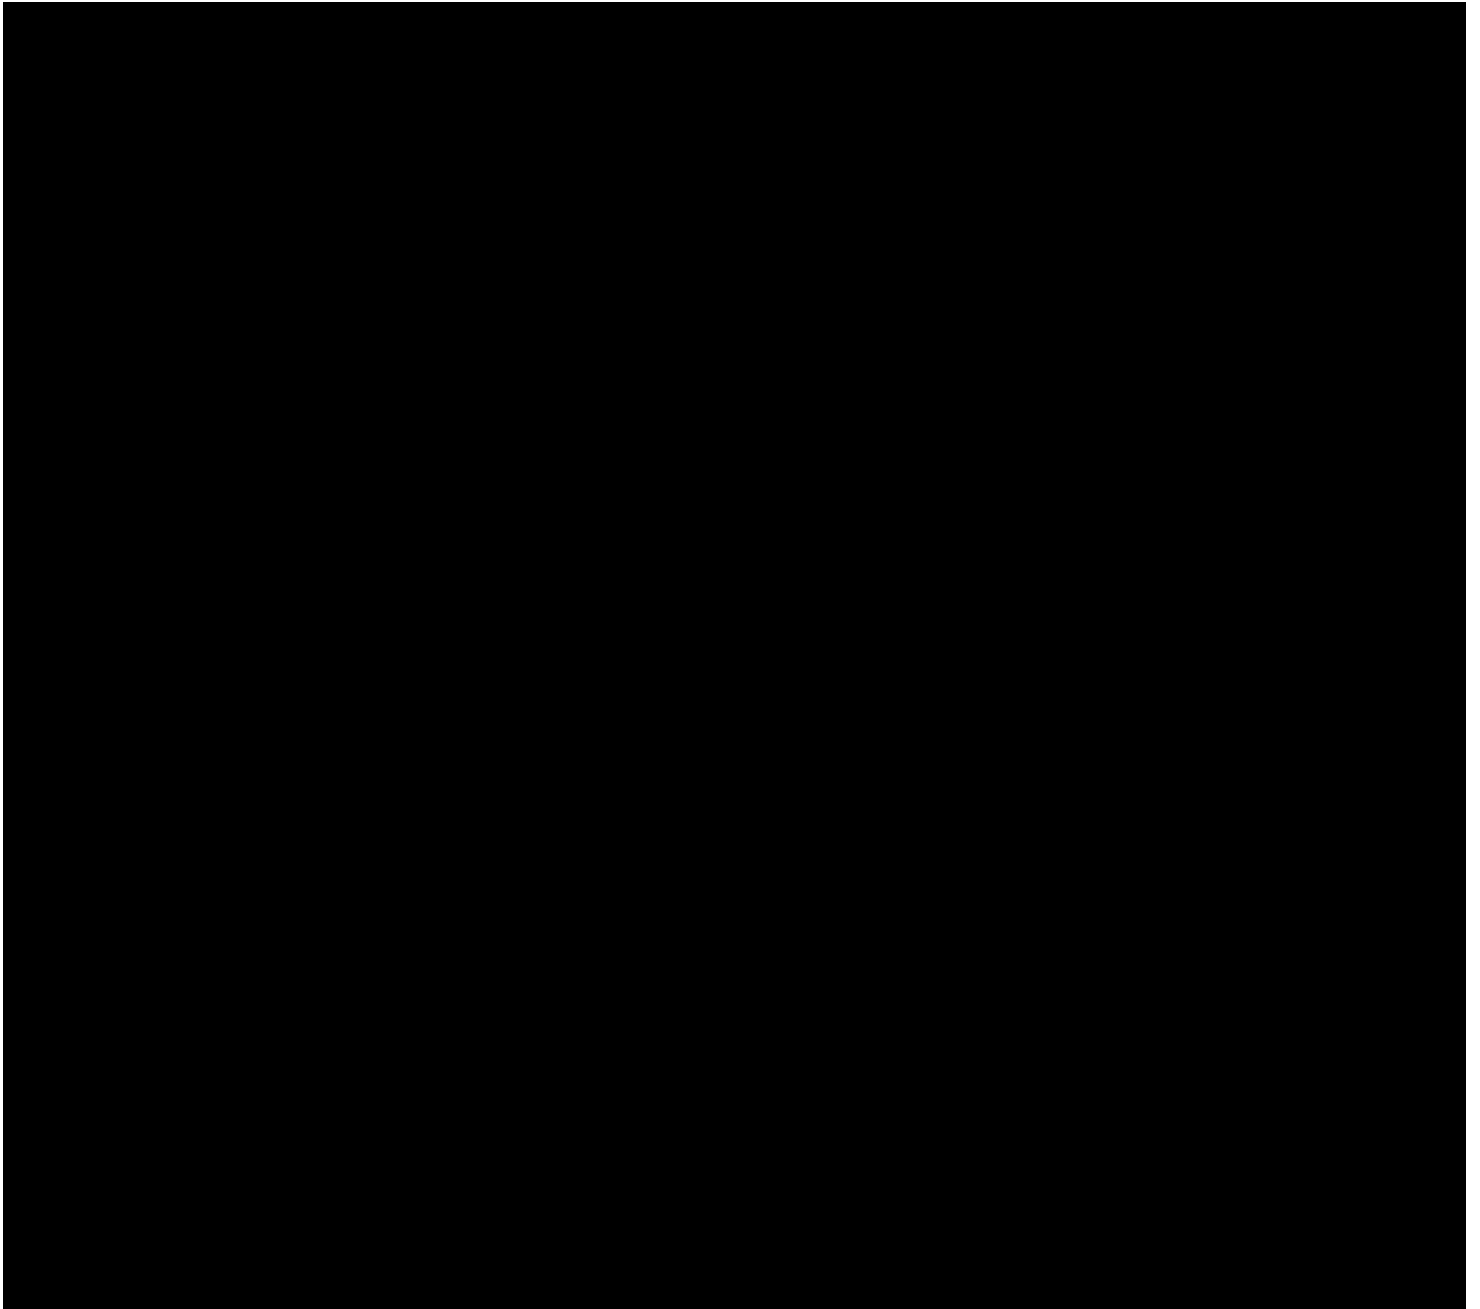

Joe R. Clure

Bcc: [dshinn@azadc.gov](#)
Subject: 5-29-20 ADHS COVID-19 MEMO
Date: Friday, May 29, 2020 7:36:46 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- Tomorrow is the final day of the May [Arizona Testing Blitz](#). Nearly 50 sites around Arizona are participating. In the coming days, we will be standing up a website listing testing locations around the state with their hours of operation to provide better situational awareness of where Arizonans can go to be tested.
- Yesterday, Governor Ducey signed an [executive order](#) to assist Arizona families with child care. The order allows ADHS to waive certain child care licensing requirements for facilities providing care to school age children. Additional information about child care facilities with approved waivers will be posted on the Department's [Child Care Licensing webpage](#).
- We continue to update our [COVID-19 FAQs](#) as new information emerges. Recent FAQ updates include information about COVID-19 symptoms and background on Multisystem Inflammatory Syndrome in Children.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Lastly, here are some social media posts that you may find useful to disseminate to your constituents:

- <https://twitter.com/AZDHS/status/1266474395947732995?s=20>
- <https://twitter.com/AZDHS/status/1266474651527655424?s=20>

Thank you for your investment in helping Arizona address COVID-19 in Arizona.

ADCRR's RE-Opening Arizona Operational Plan

Current State

Operational:

- Suspended all outside work crews (exception Hickman's)
- Suspended Inmate Visitation
- Suspended all education and inmate programming with the exception of Special Education and Mandatory Literacy
- All Volunteer Services suspended
- Intake admissions on a 14 day schedule with all 15 counties
- New admissions quarantined 14 days
- Institutions implemented compartmentalization plans
- COVID-19 screening required for all staff entering institutions
- All personnel required to wear facial coverings
- Cohorting and isolating symptomatic inmates
- Quarantining intakes, court returns, parole violators, and inmates returning from hospitals
- Inmate medical co-pays waived

Work Force

- Telework/flex scheduling implemented
- Adjusted management schedules to enhance communication on all shifts
- Static posting of institutional staff implemented as part of compartmentalization
- Redeployed MRC/PRC staff available to prisons for additional support
- Social distancing at work locations implemented
- All In-service training suspended with exception of Firearms

Operational Innovations to Sustain On-going

- Review telework/flex schedule on case by case basis
- Review ability to prevent/control infectious disease transmission due to physical plant at ASPC-Florence
- Review restoration of temporary work positions back to COIIs
- Review Intake Scheduling with Counties for admissions
- Review administrative coverage of institutions
- Keep additional TV Channels

Phase 1

All current state mitigations remain with exception of:

- Internal work crews to resume, all other work crews remain suspended
- Inmate programming and education to resume
- Resume In-service CBT training
- Resume TABE testing
- Resume MH groups 10 or less
- WLF reinstated with permanent deployment

Phase 2

Changes you plan to implement in phase 2

All Phase 1 mitigations remain with exception of:

- External work crews return case by case basis
- Symptom checks of all personnel with inmate contact

Phase 3

Review of Phase 1 and 2 to determine effectiveness and de-escalation continuity. To be predicated upon community reopening success.

ADDITIONAL COMMENTS

Throughout the demobilization of emergency mitigations to ADCRR's COVID-19 response, instances of inmate illness, medical watches and infection rates of staff and inmates shall continue to be monitored daily. Each phase of demobilization shall last at least two weeks based on success. At any time during a phase of demobilization, rates of inmate illness, medical watches and /or infection rates spike, the institution affected shall regress to the emergency mitigations required.

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- Today, ADHS hosted a series of meetings with hospital, laboratory, and skilled nursing facility partners with responsibility for reporting under the updated enhanced surveillance advisory ([Executive Order 2020-37](#)) to discuss responsibilities under the advisory and answer questions about reporting.
- Approximately 10 million face masks and face shields were sorted by our warehouse team and loaded on trucks for distribution to county and tribal health departments for further distribution to healthcare and first response partners.
- Over 40 sites in eight counties have signed on to participate in Saturday's Arizona Testing Blitz. More information is available at azhealth.gov/testingblitz.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Subject: Staff Movement Response
To: Joseph Profiri <jprofiri@azadc.gov>
Cc: Joseph Grossman <jgrossman@azadc.gov>, Megan Fitzgerald <mfitzgerald@az.gov>

Good morning Joe,

Thanks again for your help in the information on staff movement within/between quarantine units. Constituent Services is asking for a condensed statement that they can use when receiving general inquiries in this area. I took the information you sent me and put together the draft statement below as a starting point, but wanted to run it by you and whoever you deem appropriate before passing it along to CS.

"As part of the Arizona Department of Corrections, Rehabilitation and Reentry's standard operational protocol, Correctional Officers posted in a quarantine unit are not authorized to work at any other unit in a facility. This includes overtime assignments at alternate facilities. ADCRR continues to evaluate best practices for staff movement in light of the COVID-19 response and will work to update practices as new guidance becomes available from the Centers for Disease Control and Prevention and the Arizona Department of Health Services."

Feel free to edit and adjust as needed. To the extent possible, we are going to try and keep the response short and broad so that it can be applied generally, as opposed to specific situations or facilities. Thanks for taking a look.

Tony

Director,

Derleen and I have reviewed the situation and Derleen spoke with the OHN at Lewis. According to the AZDHS guidelines, the [REDACTED] is asymptomatic and could return to work.

Based on his step son exhibiting symptoms and the test results taking an extraordinarily long time to come back, we recommend he remain out of work until Derleen is able speak with him as well as to help him navigate the status of his test results. Hopefully they can have this complete by tomorrow.

John Bogert, SPHR
Deputy Chief Human Resource Officer
Arizona Department of Corrections
1831 W. Jefferson Ave, Phoenix, AZ 85007
602-255-2421

How am I doing? Please take a few moments to answer a few questions.

My decision to test was based on my step son having several symptoms and he got tested as well.

I quarantined myself based on the agreement I signed at the banner testing site.

On May 22 the On Susan Bernard told me I can come back to work if I am asymptomatic and get my temperature taken before I enter the unit she also stated that no nurses are available for pm shift and that I would have to take my own temperature I have not been at work since May 17

I have not experienced any symptoms however I am concerned about spreading the virus if the results come back positive I am also concerned about liability for violating the agreement I signed at the testing site

On Tuesday, May 26, 2020, David Shinn <dshinn@azadc.gov> wrote:

Thank you for reaching out with your concern [REDACTED] I will have our administrators look into the issues. However, there are several pieces of important information missing from the information you provide to allow a thorough review.

Was your test on Monday, May 18, 2020 completed based on your personal self-election

or was it from necessity based on a medical condition or flu-like symptoms at that time?

Have you previously been turned away because of a temperature or flu-like symptoms? If so, when?

Were you away from work and self-quarantined (based on the signed agreement you made at the testing site) from March 18 - 23, 2020 when you were advised of clearance to return?

Have you worked from May 23 to present?

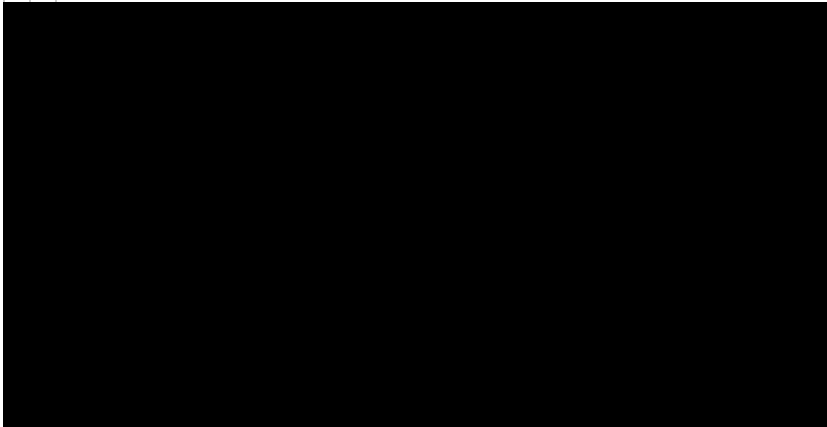

You expressed concern of the unknown regarding your COVID-19 test and the possibility of a positive result. Are you presently feeling ill or experiencing flu-like symptoms today while at work or have you experienced these symptoms since your test?

Please provide answers to these questions by COB today which will allow our staff to provide you a comprehensive and timely response. Thanks again for reaching out.

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- Tomorrow, over 30 sites are participating in the Arizona Testing Blitz, with the capacity to test nearly 10,000 Arizonans who have COVID-19 symptoms or are concerned about recent exposure to COVID-19. Check out a list of participating sites [here](#).
- Today we made a change to the graph on the Laboratory Testing section of the [data dashboard](#) to better visualize the number of tests done by day. The data is the same, but the change to the y-axis from a logarithmic to a linear scale gives an improved picture of how testing has increased in Arizona over the last month with the influx of testing supplies to the state. Now more Arizonans who need to be tested can get tested.
- Yesterday, Governor Ducey signed [Executive Order 2020-37](#), an enhanced surveillance advisory that allows public health to continue monitoring COVID-19 key data points. This order supersedes reporting requirements from previous orders, combining them into one document. With this enhanced surveillance, public health will continue to get data critical to understanding the volume of laboratory testing in the state, hospital capacity and bed availability, and other key healthcare system metrics.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Good morning sir.

- I just concluded my meeting with Amanda Aguirre. We have a plan in place to begin testing any staff member who requests to be tested over a two day period.
- The first wave of the first day will be on Tuesday 05/26 from 0530-0830. This will cover incoming day shift staff, outgoing graves staff, and incoming operations/admin/admin support staff.
- The second wave of the first day will be on Tuesday 05/26 from 1330-1430. This will cover incoming swing shift staff and outgoing day shift staff.
- The first wave of the second day will be on Thursday 05/28 from 0530-0830. This will cover incoming day shift staff, outgoing graves staff, and incoming operations/admin/admin support staff.
- The second wave of the second day will be on Thursday 05/28 from 1330-1430. This will cover incoming swing shift staff and outgoing day shift staff.
- We are making all logistical arrangements today (staffing, traffic control, form availability, notices to staff, etc.) today.
- While I am not aware of anything yet, I anticipate that local media may initiate contact regarding this event, possibly to include pictures or video. If received, my office will forward any inquiries to media@azadc.gov.

- On an unrelated note regarding this specific topic but for overall general awareness, Senator Aguirre mentioned she heard of the protest group's plans for this weekend from an acquaintance. When she shared with that individual that she was making arrangements for testing, the other individual mentioned that they may cancel the event in light of the information. We will be prepared either way.

On Wed, May 20, 2020 at 7:16 PM Ed Jensen <ejensen@azadc.gov> wrote:

Good evening sir. I wanted to take a quick moment to follow up on our phone call this morning.

I spoke with Amanda Aguirre (former Yuma state senator) regarding her organization, the Regional Center for Border Health, and the offer to provide on-site testing for staff.

In short, we are exploring the possibility of conducting nasal swab testing for staff in a 'drive-through' context. They have conducted over 3,000 test and have streamlined the process. Senator Aguirre is aware that Yuma has approximately 1,200 staff.

She will be on site Friday morning to conduct a quick site assessment for the best possible location. In the meantime she will be sending paperwork for informational purposes that will expedite the actual testing process.

There is currently no set date, but with any luck I anticipate testing to occur sometime next week. I will advise you once those details are sorted out.

Good evening. I wanted to provide a quick update regarding the status of testing at the Cibola and Cheyenne units.

Cibola

- HU 7 retests of last week's negative results were conducted yesterday. This number totaled 95. While I anticipate some to test positive, if the number is below 20 we will be able to move those into the cohort group in Bldg 8. Those that retest as negative will remain in HU7 for the time being.
- Due to the probability of exposure, Centurion is exploring testing the remainder of HU7 inmates, numbering approximately 120-130 inmates. This is anticipated to occur around 05/28.
- The cohort group in Bldg 8 will be tested for antibodies on 05/27. If these tests detect the presence of antibodies, those specific inmates will be able to be reintegrated back into the general population as soon as 05/29.

Cheyenne

- The 122 inmates were tested on Monday 05/18. The majority of those test results (118/122) have returned negative. Four test results are pending.
- If any are positive, those inmates will be moved to the Cibola cohort group area in Bldg 8 if there are no DNHW restrictions.
- All negatives will be retested on Tuesday 05/26.

Please advise if there are any questions.

Subject: 5-19-20 ADHS COVID-19 MEMO
Date: Tuesday, May 19, 2020 7:02:15 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- Today, ADHS was awarded an additional \$150 million in funding from the Centers for Disease Control and Prevention to support COVID-19 response, including testing, contact tracing, and disease surveillance. Additional details of this funding will be available in coming days as the CDC provides more information about the grant and allowable costs. A [press release issued today](#) provides further background information.
- In late April, ADHS received 15 rapid COVID-19 testing machines to distribute to partners around the state, although a limited supply of test kits for these machines was delivered. Throughout the month of May, ADHS has received additional test kit supplies from the federal government that we've distributed to the original recipients of these machines in order to augment their testing capacity. This week, we distributed messaging to partners who received the 15 rapid test machines to let them know we can provide additional back-up diagnostic testing at the Arizona State Public Health Laboratory for any specimens that test negative on the rapid test machine.
- The ADHS [COVID-19 Data Dashboard](#) is a national model. This week, we will be providing technical assistance to another state that requested guidance in using the software platform ADHS uses to build out a more robust COVID-19 dashboard.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Subject: Yuma Facility Cases

To: druiz@az.gov <druiz@az.gov>, David Shinn <dshinn@azadc.gov>

Good evening, everyone!

In preparation for our call tomorrow, I have a couple of questions. This will help with recommendations and next steps:

- For testing it would be great to know:
 - Does the healthcare provider for the inmates have the capacity to test all of the inmates at Yuma?
 - how many inmates are there at the Yuma facility?
 - Who do you send inmate COVID-19 tests to for processing? Is there capacity to run all of the testing at that kab, if asked?
 - Do they have the supplies (i.e. nasal swabs/viral transport media) they need to test all inmates at the facility?
 - Any other barriers to getting the testing completed?
 - How long does it take for a symptomatic inmate to get tested once identified?
 - How long does it take to get results back from the lab? Are patients isolated while results are pending?

I'm working with my epis to get additional information on the confirmed positives and any recommendations from ADHS and Yuma County.

Have a great evening!

Thanks,
Cara

Date: Monday, May 18, 2020 6:28:22 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- This week, ADHS is recognizing the EMS professionals who provide support across the state. Dr. Christ's [blog celebrates EMS Week](#) and describes some of the innovative things Arizona EMS professionals have done to respond to COVID-19 in Arizona.
- With multiple kinds of COVID-19 testing available, including PCR (diagnostic) tests and serology (antibody) tests, ADHS has worked on posting [additional information](#) to provide information and background on these tests, how they work, and what they mean.
- On Friday, we received our first shipment of N95 masks from the partnership with Honeywell - 25,000 in total. These will be distributed to local health partners for further distribution to their healthcare and first response partners. In addition to these N95 masks, the state continues to receive and distribute thousands of pieces of PPE throughout each week, including masks, gloves, and safety glasses.

TUCSON

- All staff are asked COVID exposure questions and if they have symptoms upon entering the institution. They also have their temperatures taken prior to being allowed in. Any staff with potential exposure or symptoms are sent home until cleared by medical staff.
- Deep cleaning and sanitation efforts are ongoing per posted schedules throughout the institution.
- Santa Rita Housing Unit 2A run houses all inmates returning from court or the hospital until cleared by medical staff to return to general population.
- Manzanita Housing Unit 6 houses both COVID positive and inmates who have not tested positive. This area houses inmates in an inpatient care setting, consisting of two open-bay type areas with hospital beds. The two bays are separated by a plastic divider. Each area has its own restroom and shower facilities. All inmates in this housing unit are fed in-house. There are twenty positive inmates in one divided bay and an additional 19 inmates are on the other side.
- Manzanita detention houses positive inmates and symptomatic inmates from other areas within the institution. There are currently 3 positive inmates in detention. This is in a cell setting and these inmates are housed alone.
- There is no cross-leveling in or out of the Manzanita Unit.
- Staff assigned to Housing Units 6 and Manzanita Detention wear full PPE to include eye protection, N95 masks and gowns.
- Manzanita Housing Unit 3 had a COVID positive inmate who previously worked in Housing Unit 6. Upon discovery of a positive test that inmate was immediately placed in Housing Unit 6 with other positive inmates.
- Housing Unit 3 is currently locked down with wellness checks being conducted twice weekly. Wellness check was conducted today. No inmates from Housing Unit 3 are symptomatic.
- Staff assigned to Housing Unit 3 wear N95 masks.
- All inmates in Housing Units 3,6 and detention have been issued face covers and are directed to wear them.
- Test kits have been ordered and are expected to arrive this week. Upon arrival all Housing Unit 3 inmates will be tested.
- All staff complex-wide have been issued face coverings and are required to wear them in congested areas and at any time they have contact with inmates.
- Command staff are assigned 7 days a week from 0600 to 2200 to the institution.

These staff tour all units to conduct sanitation inspections and ensure staff and inmates are adhering to cleaning schedules.

YUMA

Cocopah

Minimum Custody, 330 capacity, 60 ADC line staff.

- Positive tests:
 - Staff: 0
 - Inmate: 0

Staff precautions:

- Face coverings for staff at the unit.
- Bathrooms regularly checked for soap and paper towels.
- Hand sanitizer in place at the unit.
- PPE (gloves, N95 mask, goggles/glasses/face shields, gowns/coveralls) available as required.
- Unit administrators regularly on the yard answering questions.

Inmate precautions:

- Deep cleaning procedures in place
- Sanitation supplies and chemicals readily available to the inmate population
- Hand soap available upon request
- Unit administrators regularly on the yard answering questions.

Cheyenne

- Med Custody, 1124/79 capacity, 228 ADC line staff.
- Positive tests:
 - Staff: 1 (Trinity)
 - Inmate: 0

Staff precautions:

- N95s and face coverings for staff at the unit.
- Bathrooms regularly checked for soap and paper towels.
- Hand sanitizer in place at the unit.
- PPE (gloves, N95 mask, goggles/glasses/face shields, gowns/coveralls) available as required.
- Staff not to be cross-leveled or work OT elsewhere.
- Unit administrators regularly on the yard answering questions.

Inmate precautions:

- All kitchen workers identified as possibly exposed, 122 total (additional were identified Friday night and this morning), were placed in Dorm 8.
- These inmates are quarantined from the rest of the population.
- Dorm 8 is a double T style building with runs with a capacity of 144 beds.
- Only kitchen workers will be in the housing unit.

Everything will come to them (medical, store, etc.) with rare exceptions (x-rays, for instance).

- Face coverings for kitchen workers while working.
- 100% feeding in house for the entire unit.
- No moves between the buildings.
- No interaction between the buildings
- 122 kitchen worker inmates were tested on Monday, 05/18.
- Results expected on or around Wednesday, 05/20.
- Deep cleaning procedures in place
- Sanitation supplies and chemicals readily available to the inmate population
- Hand soap available upon request
- Unit administrators regularly on the yard answering questions.

Dakota

- Close Custody, 800/80/16 capacity, 202 ADC line staff.
- Positive tests:
 - Staff: 0
 - Inmate: 0

Staff precautions:

- Face coverings for staff at the unit.
- Bathrooms regularly checked for soap and paper towels.
- Hand sanitizer in place at the unit.
- PPE (gloves, N95 mask, goggles/glasses/face shields, gowns/coveralls) available as required.
- Staff on watches for presumed positives in the observation cell areas provided with gloves, N95 mask, goggles/glasses/face shields.
- Unit administrators regularly on the yard answering questions.

Inmate precautions:

- Face coverings for kitchen workers while working.
- Deep cleaning procedures in place
- Sanitation supplies and chemicals readily available to the inmate population
- Hand soap available upon request
- Unit administrators regularly on the yard answering questions.

La Paz

- Minimum Custody, 1250 capacity, 124 ADC line staff.
- Positive tests:
 - Staff: 0
 - Inmate: 0

Staff precautions:

- Face coverings for staff at the unit.
- Bathrooms regularly checked for soap and paper towels.

- Hand sanitizer in place at the unit.
- PPE (gloves, N95 mask, goggles/glasses/face shields, gowns/coveralls) available as required.
- Unit administrators regularly on the yard answering questions.

Inmate precautions:

- Deep cleaning procedures in place
- Sanitation supplies and chemicals readily available to the inmate population
- Hand soap available upon request
- Unit administrators regularly on the yard answering questions.

Cibola

- Med Custody, 1266 capacity, 180 ADC line staff
- Positive tests:
 - Staff: 8 (5 Trinity, 3 CO II)
 - Inmate: 39

Staff precautions:

- N95s and face coverings for staff at the unit.
- Bathrooms regularly checked for soap and paper towels.
- Hand sanitizer in place at the unit.
- PPE (gloves, N95 mask, goggles/glasses/face shields, gowns/coveralls) available as required.
- Staff not to be cross-leveled or work OT elsewhere.
- Unit administrators regularly on the yard answering questions.

Inmate precautions:

- All Cibola inmates who tested positive, currently at 39 total were placed in building 8.
- Building 8 is a bay style building with a capacity of 70 inmates.
- These inmates are quarantined from the rest of the population.
- Everything will come to them (medical, store, etc.) with rare exceptions (x-rays, for instance).
- The remaining kitchen workers who tested negative, 87 total on Friday 05/11 remain in housing unit 7
- The inmates in housing unit 7 who tested negative on Friday 05/11 will be retested on Tuesday 05/19.
- These results are expected Thursday 05/21
- Housing unit 7 is a bay style building with a capacity of 250 inmates.
- Everything will come to them (medical, store, etc.) with rare exceptions (x-rays, for instance).
- Face coverings for kitchen workers while working.
- 100% feeding in house for the entire unit.
- No moves between the buildings.
- No interaction between the buildings
- Deep cleaning procedures in place

- Sanitation supplies and chemicals readily available to the inmate population
- Hand soap available upon request
- Unit administrators regularly on the yard answering questions.

Complex operations

Minimum Custody, 0 capacity, 108 ADC line staff.

- Positive tests:
 - Staff: 1 (Education)
 - Inmate: N/A

Staff precautions:

- Face coverings for staff.
- Bathrooms regularly checked for soap and paper towels.
- Hand sanitizer in place at the unit.
- PPE (gloves, N95 mask, goggles/glasses/face shields, gowns/coveralls) available as required.
- Unit administrators regularly answer questions.

Inmate precautions:

- N/A, no inmates housed at complex

Total positive tests:

- 10 staff (1 Complex, 8 Cibola, 1 Cheyenne)

FLORENCE

All Units:

- Temperature checks are being conducted on all kitchen workers and outside workers that work in the Complex. Any inmate with a fever or displaying flu-like symptoms is immediately isolated and evaluated by medical staff.
- All inmate work crews that work outside the Complex have been cancelled.
- Sanitation crews are assigned to sanitize every area within the unit throughout the week per posted schedules.
- Video visitation is being conducted for every inmate with approved visitors. No contact visits are authorized at this time.
- All staff are required to wear cloth face coverings while on site (Central Unit and CB-Kasson wear N-95 masks).
- All staff are asked screening questions upon entry into the Complex/Unit and their temperature is checked. Any staff member with a fever or displaying flu-like symptoms is sent home and advised to report to the Occupational Health Nurse for follow-up before being authorized to report back to work.
- Hand sanitizer is being provided to staff.
- Command staff are assigned 7 days a week from 0600 to 2200 to the institution. These staff tour all units to conduct sanitation inspections and ensure staff and inmates are adhering to cleaning schedules.

Central Unit/CB-Kasson (Compartmentalized):

- All kitchen workers, 45 total, continued to work and are housed in Dorm 3, Dorm 4, and Dorm 5.
- Temperature checks are being conducted on all kitchen workers prior to entering their work areas. Any inmate with a fever or displaying flu-like symptoms is immediately isolated and evaluated by medical staff.
- Inmate recreation is conducted with half of a cell block at a time. The area is sanitized before and after each turn for recreation.
- Inmates are provided bar soap and cleaning supplies on a regular schedule.
- Inmate feeding has been conducted in house until 05/11/2020 when the change to a round robin style of feeding was implemented. The Dining Area is sanitized after each group picks up their trays.
- Inmates in the Complex with flu-like symptoms are placed in medical isolation at CB-Kasson, Wing 3.
- Inmates with confirmed Covid are separated from all other inmates and placed in a separate section at CB-Kasson or Central IPC HU8.
- CB-Kasson and Central provide continuous cleaning and staff are provided new PPE when needed.
- Central Unit currently has 23 inmates positive for COVID-19 and 2 inmates isolated for flu-like symptoms. All inmates are currently housed at CB-Kasson or IPC HU 8 with the exception of 2 in the hospital.

South Unit (Compartmentalized):

- All kitchen workers, 137 total, continued to work so they were moved into Dorm 3 on 05/06/2020 to keep them together.
- Dorm 3 is an H style building with separate securable runs.
- All ACI workers, 184 total, continued to work so they were moved into Dorm 2 and Dorm 6 A/B on 05/06/2020 to keep them together.
- Dorm 2 and Dorm 6 are H style buildings with separate securable runs.
- Temperature checks are being conducted on all kitchen and ACI workers prior to entering their work areas. Any inmate with a fever or displaying flu-like symptoms is immediately isolated and evaluated by medical staff.
- Everything will be delivered to the inmates (medical, store, food, etc.) with rare exceptions (x-rays, dialysis for instance).
- 100% of feeding is conducted in-house for the entire unit.
- Face coverings issued to all inmates, 2 each on 05/04/2020 and inmates are encouraged to wear them.
- No moves are authorized between the buildings and no interaction is authorized between the buildings.
- Recreation is conducted one building at a time, one hour per building, per day. Smoke breaks are also authorized by building run.
- Sanitizing is being completed on all recreation equipment, inmate telephones, and tablet kiosks between each building/recreation turn.
- South Unit currently has 14 inmates positive for COVID-19 and 6 inmates isolated for flu-like symptoms. All inmates are currently housed at CB-Kasson with the exception of 1 in the hospital.

ALL COMPLEXES

- Face coverings for staff at all the units.
- Bathrooms regularly checked for soap and paper towels.
 - Hand sanitizer available.
 - PPE (gloves, N95 mask, goggles/glasses/face shields, gowns/coveralls) available as required.
 - Unit administrators regularly on the yard answering questions.
 - Handouts available at briefing locations with information regarding testing locations and processes
 - Bulletin boards updated with information for staff regarding donning and doffing of PPE, hand wash processes, and general information to help contain the spread of the virus.
 - All staff are screened upon entry for COVID symptoms with temperatures taken. Staff determined to have potential exposure or symptoms are sent home until cleared by the OHN.

Subject: 5-15-20 ADHS COVID-19 MEMO
Date: Friday, May 15, 2020 6:08:08 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- - This Saturday, over 80 sites across the state will participate in the 3rd Saturday of the Arizona Testing Blitz. We just [announced](#) that this event will continue on Saturdays through the month of May. Our [website](#) will be updated next week with additional participating sites for the last two Saturdays in May.
 - Participating sites have increased from 32 on May 2 to over 80 for this Saturday
 - Diagnostic testing has become increasingly available in Arizona increasing from just under 12,000 PCR (diagnostic) tests the first week of April to over 37,000 the first week of May.
- Today we posted a new [Returning Stronger Infographic](#) on our website demonstrating how Arizona is meeting the Phase 1 gating criteria outlined in the President's Opening Up America Again document.
- ADHS published additional guidance to provide detailed COVID-19 prevention strategies for various establishments:
 - [Aquatic Venues](#)
 - [Gyms & Fitness Providers](#)
 -

[Casinos & Gaming Facilities](#)

-

[Spas](#)

-

[Places of Worship](#)

-

These are in addition to previously posted guidance on [Retail](#) and [Restaurants/Food Establishments](#).

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. Another significant update to the dashboard has been launched which provides additional information about COVID cases in Arizona and situational awareness about healthcare facility capacity:

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- Healthcare facilities have been allowed to resume elective surgeries under [Executive Order 2020-32](#) after submitting an attestation to ADHS. As of May 12, 1,409 healthcare providers have attested that they had at least a 14-day supply of PPE required to resume elective surgeries. ADHS continues to answer questions about resumption of PPE and review attestations. FAQs are available here.
- Today, Dr. Christ joined Director Johnson from the Department of Tourism to provide guidance and answer questions from tourism partners about safely operating while protecting patrons and staff.
- To increase access to testing, Dr. Christ issued a standing order today to allow licensed pharmacists to conduct PCR (diagnostic) testing. This will be posted on the ADHS [healthcare provider COVID-19 webpage](#) later this week.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. Another significant update to the dashboard has been launched which provides additional information about COVID cases in Arizona and situational awareness about healthcare facility capacity:

<https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Lastly, here are some social media posts that you may find useful to disseminate to your constituents:

ADCRR has initiated its existing infectious disease protocols that include identifying, isolating and testing those inmates who may have been in contact with a confirmed positive COVID-19 case at the Arizona State Prison Complex in Yuma. As a standard practice, contact tracing was initiated and additional testing has occurred. ADCRR has modified operations for those who have tested positive. We continue to monitor both staff and inmates for symptoms. The testing numbers are available on ADCRR's dashboard.

This email contains information that is intended only for the person(s) to whom it is addressed. If you received this communication in error, please do not retain it or distribute it and notify the sender immediately.

CC: Ryan Vergara <rvergara@az.gov>, Deeann Brewer <dbrewer@azadc.gov>, Joseph Grossman <jgrossman@azadc.gov>, Kyley Jensen <kjensen@az.gov>

Hello Megan,

Our apologies for the delay in responding. Thank you for your work to ensure the Arizona Department of Corrections, Rehabilitation & Reentry (ADCRR) has the resources it needs to keep staff and inmates safe through the COVID-19 pandemic. At the end of April, ADCRR had a total prison population of 41,449 inmates and an additional 5,340 offenders on community supervision. Nearly 10,000 dedicated employees work to keep Arizona's communities safe.

We believe the following is responsive to your request on 4/30/2020. ADCRR staff is still working to be certain that this summary of the agency's costs is complete. I will update you if any numbers change substantially.

- *Stipends* - Projected FY 2020 cost: \$6.4M

The greatest cost to the agency has been in the 8% critical services stipends to encourage ADCRR's essential employees to continue to work in a setting where social distancing cannot be maintained and 25% hazardous duty stipends for staff who are in direct contact with COVID-positive and presumptive positive inmates and offenders.

- *Overtime* - Projected FY 2020 cost: \$528,127

Overtime use reported here is for coverage modified assignments due to COVID-19. It is not the total ADCRR overtime expenditures.

- *Personal Protective Equipment (PPE)* - Actual to date: \$138,512; Projected FY 2020 cost: \$297,678

PPE is a priority for staff who must interact with healthy and COVID-positive inmates.

- *Equipment* - Actual to date: \$228,038; Projected FY 2020 cost: \$661,062

Equipment has been purchased to provide inmates with video visitation, virtual classes, and other appointments and to provide separate housing for COVID-19 positive inmates.

- *Sanitation* - Actual to date: \$153,983; Projected FY 2020 cost: \$224,518

Facility sanitation costs are critical as inmates and staff are unable to commit to social distancing practices.

- *Personal hygiene* - Actual to date: \$215,756; Projected FY 2020 cost: \$306,840

Additional costs for hand sanitizer, soap, and other necessities to prevent the spread of COVID-19 amount the inmate population.

You also asked about medical costs due to COVID-19 and testing costs. ADCRR pays its contracted health care provider a per inmate/per day rate. The contract does not provide for an increase in costs due to the pandemic. Staff medical costs to date have been borne through affected staff members' personal health insurance. The FY 2020 total inmate health care expenditures are estimated at \$186,167,370

We are still gathering data on our agency-wide purchases, but currently expect a final total for supplies in the \$1.5M range for FY 2020.

Richard

Goodevening, Directors,

Our office has been working with ACJC to access federal funds for the state's criminal justice and public safety agencies to help with COVID-19 response.

As part of this, I would ask that you produce COVID-19 costs to date. Including a total cost

as well as a breakdown of the expenses by PPE, overtime, medical needs, testing, equipment, etc. for your agency as a part of COVID-19 response.

It would also be helpful to be prepared to show the population percentages of those you serve (e.g., through civilian interactions, emergency response calls, percentage of inmates/beds your facilities serves compared to local jurisdictions).

I ask that you have this information gathered by end of day on Thursday, 5/7.

I am happy to talk through this with you or your staff to help provide additional guidance and answer any questions.

-Megan

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- - Additional sites were added to the [Arizona Testing Blitz website](#). This Saturday will be the final weekend of this event. There has been a significant uptick in testing since the testing blitz was announced with around 12,000 weekly PCR (diagnostic) tests performed in the month of April and over 35,000 PCR tests performed in the most recent week. We are enhancing our website to provide a landing page for Arizonans to find out where to get tested for COVID-19 after the Arizona Testing Blitz concludes.
- - Today, ADHS sent out a health alert notice to healthcare providers requesting them to report cases of Kawasaki disease-like syndrome associated with COVID-19 to public health. To date, public health is not aware of any children in Arizona identified with this condition.
 - COVID-19 usually causes mild illness in children, however healthcare facilities in Europe and New York City have noted an increase in cases of children with prolonged fever, inflammation, and poor organ function who have also tested positive for COVID-19.
 - These symptoms are similar to [Kawasaki syndrome](#), and have also been referred to as Pediatric Multisystem Inflammatory Syndrome.
- - Guidance for COVID-19 prevention in places of worship is [now available online](#).

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. Another significant update to the dashboard has been launched which provides additional information about COVID cases in Arizona and situational awareness

about healthcare facility capacity:

Date: Tuesday, May 12, 2020 5:39:23 PM

Good evening, everyone!

This upcoming Saturday, the Arizona Department of Health Services will be performing its last scheduled ADHS DRIVE UP COVID-19 TESTING SITE **for ADHS staff and their families, free of charge.**

Staff and volunteers from the Arizona Department of Health Services will be conducting diagnostic testing (not antibody tests) downtown near the 150 building for COVID-19 on **Saturday, May 16, from 8AM-2PM.** This Drive Up Testing Model allows you to stay in your car and perform a self nasal swab. There is a maximum of 4 people per car. There is no charge or insurance information required to register.

ADHS Drive Up COVID-19 Testing Site

- Parking Garage at 140 N. 18th Avenue (across the street from the 150 building)
- 8AM to 2PM
- Must pre-register to get tested

If you are interested in receiving a COVID-19 test on Saturday, please [complete the registration form](#) and choose an appointment time. Registration will close on Friday at 10AM. **We ask that if you register, please show up during your scheduled time.**

There are also additional sites around the state that are offering testing. You can find and preregister for additional testing sites at azhealth.gov/testingblitz.

Have a great rest of the week!
Cara :)

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- - Implementation of enhanced testing and infection control technical assistance in long term care facilities continues, in partnership with local public health, Sonora Quest Laboratories, the Arizona Healthcare Association, and others.
 - Testing will be offered for all residents and staff in the 147 CMS certified skilled nursing facilities in Arizona over the next two weeks. This will include PCR testing for residents and serology and PCR testing for staff.
 - In support of the testing, public health will coordinate technical assistance for infection prevention and control in facilities with identified positive cases aligned with [guidance](#) on the ADHS website. This will include identification of PPE needs within facilities with positive cases.
- Today, Governor Ducey announced the reopening of gyms/fitness providers, spas and pools tomorrow, May 13. Guidance for COVID-19 prevention in these establishments is available online ([gyms](#), [spas](#), [pools](#)).
- [Executive Order 2020-36](#) requires businesses that fully operate to develop, establish, and implement policies to limit and mitigate the spread of COVID-19. The [Workplaces and Community Locations](#) section of the ADHS COVID-19 webpage contains detailed guidance and recommendations for businesses, which will be continually updated as the COVID-19 response evolves.

Subject: COVID-19 testing availability
Date: Tuesday, May 12, 2020 11:14:02 AM

Attention ADCRR Employees:

We are identifying sources to enhance testing access to our men and women who are essential to public safety and are working extended hours. One of the available resources is the testing blitz announced by Governor Doug Ducey and the Arizona Department of Health Services (please see registration information below). We encourage you as frontline responders and essential employees to participate.

When scheduling a test, please identify yourself as a frontline responder or essential worker with ADCRR. Should you have any issues in not being able to schedule a test, please contact ADCRR Ombudsman, Lynne Hilliard at lhilliard@azadc.gov.

Below, you will find information on additional testing locations across the state as well as **COVID-19 Hotline** numbers established by both ADHS and Banner Health. Prison complex employees are also encouraged to reach out to their OHN for additional recommendations for nearby testing sites. The State of Arizona's Benefits Services Division is offering you and your covered dependents expanded coverage for COVID-19 services at no cost.

- For a list of city/county wide testing locations please visit http://adnet/PDF/2020_PDF/COVID-19_Testing-Resources.pdf
- **For ADHS's full list of statewide COVID-19 testing locations, please visit:** <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/index.php#novel-coronavirus-testing-blitz>
- **ADHS COVID-19 Hotline:** Provides information about COVID-19 symptoms, testing, prevention, and exposure. Call **1-844-542-8201** or call **211** (then press #6).
- **Banner Health COVID-19 Hotline:** To schedule an appointment or speak with a specialist at Banner Health, please call **1-844-549-1851**. Phone lines open 7am to 6pm Monday- Thursday & 7am to 5pm on Friday. You must have an appointment with Banner to schedule a drive through swab test. Drive-through sites are open from 8am to 4pm Monday through Friday.
- **County Health Departments** will also have information about testing in your community.
- For more **ADOA** information on COVID-19 testing benefits, please

visit <https://benefitoptions.az.gov/>

This Saturday, May 16, the Arizona Department of Health Services is performing ADHS DRIVE UP COVID-19 TESTING **for state employees and their families**. Staff and volunteers from the Arizona Department of Health Services will be conducting COVID-19 diagnostic testing (not antibody tests) in downtown Phoenix. Testing will be from **8 AM to 2 PM**. This Drive-Up Testing Model allows you to stay in your car and perform a self-nasal swab. There is a maximum of 4 people per car.

Please [complete the registration form](#) and choose an appointment time.

ADHS Drive-Up COVID-19 Testing Site information:

- [Parking Garage at 151 N. 18th Avenue](#) (across the street from the ADHS 150 N 18th Ave building near Van Buren and 19th Ave)
- 8 AM to 2 PM
- You must pre-register to get tested, it is recommended that you sign up quickly as there is a maximum number to be tested

Thank you for all you are doing in protecting each other, our inmate population and the community.

This email contains information that is intended only for the person(s) to whom it is addressed. If you received this communication in error, please do not retain it or distribute it and notify the sender immediately.

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- This Saturday's Arizona Testing Blitz was well attended, with over 50 locations across the state participating. More sites have been added for next Saturday's event including locations in Douglas, throughout Gila County and additional Pima and Maricopa County sites. Check out azhealth.gov/testingblitz routinely for up to date information.
- Federal COVID-19 funding from the US Department of Health and Human Services through the Healthcare Preparedness Program will be distributed to the four EMS regions in the state for further distribution to EMS agencies within the region. Each region will receive \$120,000 to distribute for EMS-related COVID-19 expenses.
- ADHS continues to work with partners to enhance COVID-19 testing for residents and staff in skilled nursing facilities and provide technical assistance for infection control and prevention activities to protect vulnerable Arizonans within these settings.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. Another significant update to the dashboard has been launched which provides additional information about COVID cases in Arizona and situational awareness about healthcare facility capacity:

<https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

To: Brian Mcneil <brian.mcneil@azdema.gov>
Cc: Travis Schulte <travis.schulte@azdema.gov>

I have been able to talk with most of you about disseminating information regarding the opportunity to leverage benefits of the Battelle Critical Care Decontamination System (CCDS™) for extending the life of N95 respirators.

In March 2020, Battelle obtained emergency use authorization from the FDA to use the CCDS to decontaminate N95 respirators as part of the national response to the novel coronavirus (SARS-CoV-2). Subsequently, FEMA and HHS funded a contract, administered by DLA, to ensure dozens of government partners could take advantage of the System as part of the federal COVID-19 response. Each CCDS, at peak operating efficiency, can decontaminate tens of thousands of N95 respirators per day. The system uses low concentration, vapor-phase hydrogen peroxide to decontaminate N95s of pathogens, including SARS-CoV-2, allowing safe reuse of the same N95 up to 20 times without degraded performance. The Battelle CCDS will be available in Arizona for public- and private-sector healthcare providers, and N95s will be decontaminated free of charge beginning later this month.

If your clients' members/providers/facilities/responders are interested in taking advantage of the Battelle technology/service, please take the following steps:

- Stop disposing of N95 masks that are free of damage (not torn or ripped) and free of visible soiling (blood, bodily fluids, or makeup).

- Enroll at <http://battelle.org/decon> -- you will then:

- Receive a unique 3-digit facility code that you will use to label each N95
- Get information regarding how the N95s should be bagged and boxed
- Get additional information about the process for getting masks to the Battelle site in Phoenix, as well as mask redeployment back to you
- Obtain other critical guidance for being an effective participant in the process

I have attached some documents that should be useful for understanding more about the system and program.

The State has partnered with the City of Phoenix for the provision of a site for the system to operate, and the Arizona Department of Emergency and Military Affairs including the Arizona National Guard, the Arizona Department of Health Services, the Arizona Department of Administration, the Arizona Department of Environmental Quality, and the City of Phoenix Fire Department have been working together to ensure Arizona can take full advantage of this federally-funded opportunity. Battelle is the system operator and owner of the process—if your clients' members/providers/facilities/responders want to participate, please enroll at <http://battelle.org/decon>

Thanks for your help in getting the word out, and don't hesitate to let me know if you have any questions.

Subject: COVID-19 PCR Testing at remote sites
Date: Saturday, May 9, 2020 5:09:19 PM

Dave,

Nice speaking with you again today. As we discussed, the Arizona National Guard stands ready to provide COVID-19 testing and related logistical support for the correctional officers located at your Safford, Winslow, and Douglas facilities. I understand you lack the organic ability to do testing at those remote facilities. Please let me know when and where the National Guard can assist with testing your officers.

Best regards,

Mick

Scott,

This is the information we passed along to our staff regarding expanded testing for staff.

As to expanded inmate testing, we are increasing testing at intake of county arrivals through ASPC - Phoenix. This may be up to a 1000 per month.

Have a great weekend.

Joe

Subject: Coronavirus growing in the prison incubator dorms

I want to give you an update as to the COVID-19 battle here at South Unit. Approximately 10 days ago people started getting symptomatic. The first cluster of 3 were ACI inmates. One of them (██████) is still in the hospital according to the DOC website. After the first 3, it has become a daily event where people go off unit to the hospital or a quarantine holding place. Then, 3 days ago, the unit started grouping inmates by job assignment and the buildings went into a lockdown mode. All ACI workers are clustered in 2 buildings, kitchen workers in a building, etc. This caused a massive shift in where inmates were housed. If there wasn't contamination on a run prior, there probably will be now.

Previously in my run, there were no symptomatic people. Then, about 12 people moved out and 12 new people moved in. Last night, a new placement person was taken out, his property packed utilizing biohazard bags. Obviously, I have no way of knowing his medical condition as he was not in my social circle and he was not someone I had gotten to know. But the situational events do not end there.

Last night, another inmate was forced by prisoners to leave his run next to me due to his coughing. Presumably, also due to his frequent proximity to ill prisoners as he worked in the health unit. Probably, this extreme position is the start of prisoner paranoia. Next, this morning I watched another inmate's property being rolled up in the building behind me, THE KITCHEN worker dorm. The prisoner cleaning crew then went inside and disinfected everything while another inmate housed therein voiced frustration to the officer who could do nothing but stand there and nod his head. I could observe their frustration but not hear the conversation. I am guessing 20-30 inmates have been removed in the last 10 days. Other than ████████, I have not attempted to verify their off-unit location.

There has been an erroneous belief that closing/locking inmates in the dorms with food delivery is the solution. That is the WORST thing that could have happened to me. I am now stuck in an incubator with a deadly disease. I have underlying medical issues placing me in the potential to be in the dead category. I live within 6 feet of 5 other men. I cannot get social distance from anyone, even temporarily anymore. Meanwhile, smoking in the building goes on unenforced. I am an asthmatic with nowhere to go to self-distance myself.

The concept of soap distribution? Non-existent. Having access to paper towels as stated in Director Shinn's affidavit to the court? Not a chance. Not once was I given hand sanitizer or access to paper towel. I currently have to plead for trash bags in which to place the used Styrofoam trays in after food delivery for trash stockpiling. Ironically, they installed a hand sanitizer, jug of water and paper towel dispenser outside the kitchen area where we never visit! I would like to share my life with whomever believed it was a great idea to lock down prisoners in a dormitory situation where medical care is nationally know to be a joke, except to well paid lawyers defending this

disfunctional system.

Subject: 5-7-20 ADHS COVID-19 MEMO
Date: Thursday, May 7, 2020 5:09:19 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- ADHS is partnering with the Governor's Office of Youth, Faith and Family and faith-based organizations to provide additional guidance on safe operation of religious services.
- The summary page of the [ADHS dashboard](#) was updated to provide information about PCR and serology testing numbers and percent positivity of each kind of test. This information is provided in additional detail on the Laboratory Testing section of the dashboard [as described](#) on May 5.
- Additional sites in Nutrioso, St Johns, Lake Havasu City, Yuma, San Luis, and Phoenix were added to the [Arizona Testing Blitz webpage](#).

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. Another significant update to the dashboard has been launched which provides additional information about COVID cases in Arizona and situational awareness about healthcare facility capacity:

<https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Lastly, here are some social media posts that you may find useful to disseminate to your constituents:

- <https://twitter.com/AZDHS/status/1258516964948930560?s=20>

Thank you for your investment in helping Arizona address COVID-19 in Arizona.

All,

Please find below a staff communication for review/edits at your earliest possible convenience. We would ideally like to send this to staff tomorrow morning given the latest information from Dr. Christ re: testing this Saturday (and next Saturday) so nearby staff will have time to register. We are also including a link (in process/yellow highlight) from Derleen, to locations across the state/county for those who cannot drive to Phoenix for testing. We will insert the link once it is live on the intranet. We plan to also post this under the COVID-19 section on the INTRANet as the latest COVID update. We will also plan to send it to warden's for distribution upon approval.

Also - who should this come from?

Thank you.

Judy

Attention ADCRR Employees:

This upcoming Saturday, the Arizona Department of Health Services will be performing its second ADHS DRIVE UP COVID-19 TESTING SITE **for state employees and their families.**

Staff and volunteers from the Arizona Department of Health Services will be conducting diagnostic testing (not antibody tests) downtown Phoenix near the 150 building for COVID-19 on **Saturday, May 9 from 8 AM to 2 PM.** This Drive-Up Testing Model allows you to stay in your car and perform a self-nasal swab. There is a maximum of 4 people per car. There is no charge for the test and you will not have to provide insurance information required to register. Please find registration information below.

ADHS Drive-Up COVID-19 Testing Site:

- [Parking Garage at 151 N. 18th Avenue](#) (across the street from the ADHS [150 N 18th Ave](#) building near Van Buren and 19th Ave)
- 8 AM to 2 PM
- Must pre-register to get tested

If you are interested in receiving a COVID-19 test on Saturday, please [complete the registration form](#) and choose an appointment time. Registration will close on Friday at 10 AM. If appointments are filled, please don't worry! The event will be offered next **Saturday, May 16** as well.

Below, you will find additional information on testing locations across the state as well as **COVID-19 Hotline** numbers established by both ADHS and Banner Health. Prison complex employees are also encouraged to reach out to OHN's for additional recommendations for nearby testing sites.

- For a list of city/county wide testing locations please visit <<<Insert link from Derleene – IT is in process of placing this on intranet>>>
- For ADHS's full list of statewide COVID-19 testing locations, please visit: <https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/index.php#novel-coronavirus-testing-blitz>
- **ADHS COVID-19 Hotline:** Provides information about COVID-19 symptoms, testing, prevention, and what to do if you think you have been exposed Call **1-844-542-8201** or call **211** (then press #6).
- **Banner Health COVID-19 Hotline:** To schedule an appointment or speak with a specialist at Banner Health, please call **1-844-549-1851**. Phone lines open at 7am to 6 pm Monday- Thursday and 7 am to 5 pm on Friday. You must have an appointment with Banner to schedule a drive through swab test. Drive-through sites are open from 8am to 4pm Monday through Friday.
- **County Health Departments** will also have information about testing in your community.
- For **ADOA** information on COVID-19 testing benefits, please visit <https://benefitoptions.az.gov/>

This email contains information that is intended only for the person(s) to whom it is addressed. If you received this communication in error, please do not retain it or distribute it and notify the sender immediately.

Good morning,

Director Shinn and I were able to touch base yesterday and provide some information. ADHS is going to assist ADCRR by:

- Providing collection kit supplies, testing at the state lab, and technical assistance with contact tracing for inmates and employees with exposure to a COVID-19 positive case.
- Working with Concentra (the state's occupational health provide for workplace health) to get the testing kits and arranging to have them collect the specimen and send for testing of state employees to the State Lab.
- Provide onsite technical assistance for infection control and recommendations for preventing transmission of COVID-19.

We received similar questions from JUD. Below are the questions and our proposed answers.

- - What is the name of the epi working with ADHS?
 - ADHS does not provide the names of specific staff-level employees working on projects. however, in addition to the assigned liaison, all COVID-19 related guidance and recommendations are reviewed by our public health experts in the Health Emergency Operations Center, so there are multiple people who are available to assist ACDRR when needed.
- Is ADHS' Epi assigned to DOC involved with Corizon (contracted healthcare provider for DOC) regarding testing?

- ADHS staff routinely engage with Corizon staff, in conjunction with ADCRR on communicable disease related matters.
- What COVID-related guidelines has ADHS sent to DOC?
 - ADHS has posted COVID-related guidance for law enforcement and correctional officers. Click [HERE](#) for correctional officer guidelines and assistance.
- Has ADHS been on site at any of the prison facilities during the pandemic?
 - ADHS has not been on site at any prison facilities during the pandemic but is working with ADCRR to provide onsite technical assistance.
- How many tests are in 1 Abbot testing machine cartridge?
 - Each test kit contains enough for 24 tests. ADHS has placed orders for additional test kits, but supply of these is very limited nationally.
- Since DOC has received one Abbot testing kit, is ADHS going to make sure that DOC has used their Abbot tests?
 - ADHS will provide guidance to ADCRR for use of the test kit as requested.
- How many tests will be administered and starting on what date?
 - ADHS will support ADCRR with testing as requested and based upon needs. Generally, if a case is identified, ADHS staff can help ADCRR conduct contact tracing and facilitate testing for individuals in close contact with that case. We are also working to coordinate with Concentra to provide testing to employees that may need diagnostic testing.
-

Who will be administering the tests — an outside vendor testing as part of the testing blitz of the general population, or the prison healthcare vendor?

- The testing blitz is targeted toward the general population and not to inmates. In addition, testing is diagnostic in nature and intended to identify whether someone is currently infected with COVID-19. A person who tests negative today could become exposed to COVID-19 on a future date. For that reason, testing is primarily recommended for individuals with symptoms of COVID-19 or with exposure to a known case. ADCRR is better equipped to answer who would be collecting specimens for inmates. Testing of these specimens would be run at the state lab if they are associated with an active COVID-19 investigation.
- Will the tests be administered to both staff and inmates?
 - Staff can get testing in a variety of ways including at existing testing sites (many of which are listed on the Arizona Testing Blitz website) or through an occupational health program if they are exposed on the job. Diagnostic testing only tells you if you are currently infected, so it is only recommended for people with symptoms of COVID-19 or for those who have recently been exposed to a known case.
 - See above answers
- At what facilities will staff and/or inmates be tested?
 - This is a question for ADCRR - ADHS will support contact tracing and facilitate testing for contacts to known COVID-19 cases.
- Will certain categories of staff/inmates be prioritized and what will those priorities be and how will they be determined?
 - Individuals with symptoms or exposure to a known COVID-19 case are prioritized for testing.
- Who will be paying for the testing — will it be provided free of charge to staff and also to inmates, or will they be charged for a test?

- ADHS will supply the collection kits and provide testing for individuals, including staff and inmates, involved in a COVID-19 outbreak investigation or contact tracing for a known COVID-19 case. For other types of testing, we would refer you to ADCRR.

Thank you Daniel. I will know more once Cara and I have spoken on available supplies and providers.

On Tue, May 5, 2020, 12:54 PM Daniel Ruiz <druiz@az.gov> wrote:

Good. I think this is how I'd frame it:

The governor stated our goal, which is to expand testing in our prisons. ADHS provided an Abbott rapid testing machine to ADCRR, and will increase testing as the supply chain for kits continues to build capacity.

As we work to finalize a more comprehensive plan, we can expound from there.

Thanks,

Daniel

Daniel & Sarah,

Below is an inquiry we received from JLBC staff following yesterday's press conference announcement. I have reached out to Dr. Christ to identify the resources available to develop and implement a plan for an enhanced level of testing for both staff and inmates. The easier of the two is the inmate component which only requires acquisition of tests. The greater challenge is the staff component which will require acquisition of both provider services and testing. Once I have heard from Dr. Christ, I will be in a better position to develop and implement a plan.

To: Richard Evitch <revitch1@azadc.gov>

Hey Richard,

Governor Ducey announced a plan for increased testing for the coronavirus in ADC facilities for staff and inmates. Do you have more information on this plan? For example:

1. Will this increase in testing be performed by Centurion employees?
2. Is the funding and equipment coming from the emergency COVID funding approved by the state legislature or from federal resources?
3. Do you know how much funding is being made available?
4. Will the expenditures be reported out of the Inmate Health Care Contracted Services SLI?
5. Does this plan apply to private prisons?
6. Will there be antibody testing as well as active virus testing?

Thanks for any insight you can provide.

Geoff

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- ADHS updated the Laboratory Testing section of our [dashboard](#) today to include information about antibody testing. A [blog](#) posted by Dr. Christ provides information about the differences between antibody (serology) testing and diagnostic (PCR) testing and background on how to navigate this enhanced section of the dashboard. The dashboard can be filtered to look at just serology or just PCR testing. Antibody testing just recently became more widely available, so you'll see the antibody test results only show up on the dashboard starting in mid-April.
- Today, we posted additional detailed [guidance for retail establishments](#) with information about keeping customers and staff safe and healthy. This guidance includes steps to take related to sick employees.
- Additional sites in Bullhead City, Phoenix, Queen Creek, and Sierra Vista were added to the [Arizona Testing Blitz website](#). Additional sites will be added in the coming days.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. Another significant update to the dashboard has been launched which provides additional information about COVID cases in Arizona and situational awareness about healthcare facility capacity:

<https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Dear Joe,

We would be interested in ADCRR's responses to the questions posted below that we sent you last week.

In addition, we understand from the Governor's press conference yesterday that there will be additional testing at Department of Corrections' facilities. This is very good news.

Can you give us details on the scope and extent of the testing? In particular:

- 1) how many tests will be administered and starting on what date?
- 2) Who will be administering the tests — an outside vendor testing as part of the testing blitz of the general population, or the prison healthcare vendor?
- 3) Will the tests be administered to both staff and inmates?
- 4) At what facilities will staff and/or inmates be tested?
- 5) Will certain categories of staff/inmates be prioritized and what will those priorities be and how will they be determined?
- 6) who will be paying for the testing — will it be provided free of charge to staff and also to inmates, or will they be charged for a test?

Thank you very much.

Sincerely,

Kirsten

Dear Joe,

During our phone call with you and Director Shinn last Friday, April 24, 2020, we agreed that you would be the point of contact for ongoing questions related to ADCRR's COVID preparedness. Thank you in advance for your timely response to our questions below. An email response would be sufficient.

1. We were dismayed to read in today's Capitol Times that an inmate from the Tucson state corrections facility has died from COVID-19. We were also dismayed to learn that the inmate's death occurred two weeks ago at the same time Director Shinn stating emphatically on last Friday's call that there had been "no known COVID death" among inmates thus far. This has given us profound pause – trust is vital for us to continue our communications with the Department and this has made us wonder if we can trust the information we are receiving.

Why did the Director deny knowledge of any COVID-caused inmate deaths at the time of our call on Friday when ██████████ had died from COVID-19 two weeks prior to the call? (We know that ██████████ was transferred from the ADCRR to the community hospital due to his illness so simply claiming ignorance of a specific cause of death is not an acceptable explanation since his death followed his hospitalization.).

Has ADCRR adopted a "don't ask, don't tell policy" in regards to affirmatively identifying the cause of death for sick inmates? If so, please state the date this policy was put into effect.

The number of inmate deaths from COVID-19 are not included on the ADCRR website dashboard, when will this information be included?

How can we and the general public be assured that we will, in the future, receive timely information on an inmate's death due to COVID-19?

2. We understand the Association of Corrections Officers is threatening a walk-out unless officers' demands are met, one of them being the provision of N95 masks.

Will the Department planning on providing all Corrections Officers with N95 masks? If so, by when?

If a walk-out of one or more facilities were to occur, how would the

Department ensure the safety of the inmates and staff at those facility/facilities?

If a walk-out occurs at one or more facilities, how will the Department maintain minimum staffing levels?

3. We have read with interest the Governor's plans for a COVID-19 "testing blitz" over the next three weekends. This must mean that sufficient tests are available to now test thousands of Arizonans.

Given that many more tests are available, will the Department now be testing all inmates or at least a percentage of inmates that could provide us with what would be accepted by health professionals as an accurate understanding of the extent of infection with in the inmate population?

Has the Department applied for any grant funding, government funding to other resources dedicated to ensuring all staff and inmates are tested? If so, please provide the details of those efforts.

4. The number of Corrections Officers being tested, the number of positive and negative tests, and any deaths among Officers or other staff members is of vital interest to the public due to its implications for the safety of all persons at ADCRR facilities. Unlike many other states, ADCRR continues to not report any information on COVID-19 with respect to staff members. This information can be reported in a manner that does not violate HIPAA.

Will ADCRR report on the number of staff members tested, the number positive and the number of deaths among staff members due to COVID-19? If so, when?

Thank you very much for your responses to these inquiries.

Sincerely,

Kirsten Engel

All, one of [REDACTED] units officers was exposed to COVID 19 while escorting inmates at [REDACTED]. He then returned to [REDACTED] unit the following 3 days before he was informed of his exposure. He was exposed on a Tuesday and returned back to work the following Monday with out being given the COVID test. Why is the OHN returning staff to work after only 6 days when the CDC says a person should quarantine for 14 days after an exposure. Now how many staff and inmates have been exposed to this officer that should not have been returned to work. Why is the department putting our lives and the lives of our loved ones at risk. How many other staff members have been returned to work ahead of CDC guidelines. I just truly hope we don't lose a staff member to this virus because the department is not doing everything it can to prevent this spread. It really feels like the department is gambling with our lives with the hopes that we don't bring it in. If one of our staff does die I know my conscience will be clear because I am doing everything I can to help minimize this spread.

Gentlemen and Ma'am it has been brought to my attention that 2 inmates were transferred to SMU from Florence on Tuesday. The inmates were not wearing masks and the escorting officers only had gloves on. One of the escorting officers was cross leveled from Cook unit to SMU for the day. The Cook unit officer then went back to work at Cook unit in Wednesday, Thursday and Friday. Friday evening this officer received a phone call from complex administration who informed him that the 2 inmates had tested positive for Covid 19. Why are we transporting inmates that are either positive or potentially positive with no masks. The officer were not provided proper PPE. Also there was an ICS in the quarantine pod at SMU which required several officers to respond. There was not enough PPE for the officers so they had to go in with out being protected. This department has to do better at protecting its staff. The officer that was cross leveled has had contact with hundreds of inmates at Cook unit and several officers at both SMU and Cook unit. We feel like we are being failed by our leadership.

Gentlemen and Ma'am the face masks that were provided by the state are horrible. They look extremely unprofessional. We were told to have masks that do not distract from the uniform yet the ones provided do exactly that. All day long all we heard from the inmates is it looks like we have underwear on our face. These masks truly look like inmate boxers with bra strap elastic. We as a department strive to be recognized as part of the law enforcement family but it's things like this that continue to make us referred to as guards. There is no way you would ever see DPS, Phx PD or any other first responders wearing something this embarrassing. If our own department administration doesn't treat us like professionals then how can we ever expect any other agency to treat us as professionals. In one of the emails we were told the masks were to protect the inmates. If it's for the inmates why isn't the inmate funds used to purchase the material needed to make professional looking masks?

Thank You

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- In addition to the [testing blitz](#), ADHS is working with local health partners to enhance COVID-19 diagnostic testing for Arizona. This planning includes testing for congregate settings. As more testing materials become available, public health will be able to work with partner organizations to further expand testing within these locations.
- As additional COVID-19 positive cases are identified, additional public health capacity for contact tracing becomes necessary. ADHS continues to work with local public health to augment contact tracing capabilities and implement enhanced contact tracing plans.
- ADHS continues to review and enhance data presented publicly on our dashboard. Additional development of the [dashboard](#) continues this weekend, with an update planned for Monday.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. Another significant update to the dashboard has been launched which provides additional information about COVID cases in Arizona and situational awareness about healthcare facility capacity:

<https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Lastly, here are some social media posts that you may find useful to disseminate to your constituents:

Date: Thursday, April 30, 2020 6:51:51 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- ADHS continues to work with partners to ramp up COVID-19 testing. Today we participated on a call with the White House Task Force, which confirmed that the supply chain for laboratory testing is becoming more robust. Over the coming weeks, diagnostic testing will be much more widely available in Arizona. As a part of this, over 30 providers from around the state are partnering with ADHS for the 3-day [Arizona Testing Blitz](#) on May 2, 9, and 16.
- ADHS, in partnership with AZDEMA, recently announced the pending arrival of the [Battelle Critical Care Decontamination System™](#) (Battelle CCDS™) to aid frontline workers in Arizona in extending the use of disposable respirators. This system is designed to decontaminate N95 masks. Information about how to access this free service has been sent to healthcare providers, healthcare facilities, and first responders.
- [COVID-19 FAQs](#) are routinely updated. New information added this week includes FAQs about pets and serology testing.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. Another significant update to the dashboard has been launched which provides additional information about COVID cases in Arizona and situational awareness about healthcare facility capacity:

<https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

From: [REDACTED]
To: [David Shinn](#)
Subject: [REDACTED] Unit Staff Concerns
Date: Thursday, April 30, 2020 1:59:56 AM

Director Shinn,

I would like to preface this email by informing you the following was also submitted to the Director's Direct Link.

Good Evening Sir,

My name is [REDACTED], and I am assigned to ASPC-[REDACTED] Unit. As I am sure you are aware, our unit had the first confirmed Covid19 Officer at [REDACTED] as well as the first confirmed inmate at [REDACTED]. This inmate was on our unit for 6 days after we received notification from the kitchen officer that they had tested positive. None of the kitchen workers, whom which were in direct contact with the positive kitchen officer, were placed in quarantine. Her cellmate was not placed in quarantine. This poses a huge exposure factor for all of [REDACTED] Unit, both inmates and staff. It is easily assumed that there has not been proper social distancing and preventative measures taken, as per CDC and ADCRR guidelines, to prevent further spread from these exposed inmates to the rest of the unit population and staff. Although the positive inmate has since been moved to the Santa Maria quarantine area, things have drastically changed here at [REDACTED] because of the previously mentioned events.

We are now being treated as, but not deemed, a quarantine/isolation unit. We are now required to take a special [REDACTED] Staff Only van to/ from the Complex South Lobby point of entry to our unit. There are separate modes of transportation for all other units and staff. We are not allowed to cross level our staff out, and no staff is being allowed to cross level to us. This has placed a stigma on the staff of [REDACTED]. Staff from other units are now making snide comments in passing. Comments such as, "You're all infected there", "Aren't you from [REDACTED], you shouldn't be in this area" and "We don't want any of you around us". This can possibly be perceived as a hostile work environment by staff assigned to [REDACTED]. I, as well as my staff, have had these comments made directly towards us from staff of other units.

We have been restricted to working overtime only at our unit, as vacancy allows, OR we can only work at another units Main Control post. We have been directed, "[REDACTED] staff can do overtime in a control room where they do not have contact with inmates and other staff." However, all Main Control posts have contact with other staff. Main Control is a very busy post, in which a great amount of contact is made between staff.

Just the other day, prior to these restrictions being placed on our Unit Staff, I worked two overtime shifts at the hospital, each of them with a different staff member from [REDACTED] Unit, a designated isolation/quarantine area. How is it that staff who are permanently assigned to this type of area, which now has a confirmed Covid19 inmate housed there, are still allowed to cross level and work at any assigned post? But here at [REDACTED] Unit, which isn't deemed an

Isolation/Quarantine area, and no longer has the positive Covid19 inmate, cannot work at any given post, whether it is for their assigned shift, or overtime?

If we, [REDACTED] Unit, are going to be treated like an isolation/quarantine area with all of these stipulations and restrictions being placed on us, I only see it fit that we be eligible for the 25% Hazardous Duty Stipend. Otherwise, I think it is only reasonable that all units should be under these same restrictions. Or, the restrictions that have been placed upon us be lifted.

I greatly appreciate you taking the time to read my email and hear not only mine, but my staff's concerns.

Sincerely,

[REDACTED]
ASPC-[REDACTED]

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- Dr. Christ participated in a press conference this afternoon with Governor Ducey and Major General McGuire where Governor Ducey [announced updated guidance](#) related to the Stay Home, Stay Healthy, Stay Connected, order. The call-out box at the top of the ADHS Business tab provides additional guidance for recommendations for retail establishments to maintain safe practices when they are allowed to reopen.
- This evening, ADHS provided COVID-19 updates to the medical community during a Town Hall for the Arizona Medical Association.
- Additional sites were added today as [Testing Blitz participants](#).

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. Another significant update to the dashboard has been launched which provides additional information about COVID cases in Arizona and situational awareness about healthcare facility capacity:

<https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

FYI, We have no employees by this name. The COVID concerns the anonymous employee raise have been addressed several times with IPR staff. The vast majority of IPR staff understand their vital role during this situation but there are always a few outliers. Without knowing who the actual employee is, Karen can only conclude that it was one of the very vocal few who wanted from the very beginning to stay home with pay. I suggest the response below:

[REDACTED]

I received your email dated April 27, 2020 regarding your concerns about continuing program services during these times. Yes, I am aware that classes have continued on as usual. I am certain that, as a corrections professional, you understand the necessity of keeping a population of over 41,000 men and women occupied in prosocial activities. Your programs are considered an essential service which is why they have continued. ADCRR is not alone in the decision to keep programming running as each state makes a decision based upon their physical plant structures and the number of cases within their system.

Prisons by nature do not lend themselves to wholesale social distancing provisions as inmates must house and eat meals together. Drawing an artificial line at the classroom threshold doesn't make sense when the very same inmates must sleep, recreate, and eat together in groups larger than ten. ADCRR has followed the containment method and restricted movement on specific yards, including cancelling programming and feeding in place, when there have been increased positive tests for COVID. Let me assure you that I and your leadership take everyone's health and welfare very seriously. The situation is monitored on a 24-7 basis and adjustments made as necessary.

As a precaution, I ask that you continue to ensure that your classroom is regularly cleaned and report it up your chain of command if this does not occur. I also emphasize the importance of you continuing to wear a face covering while working. The coverings are to prevent introduction of COVID into our units as staff are the likeliest method of introducing the virus to our system.

You are always welcome to elevate issues if they can't be resolved at a lower level and may do so without the fear of retaliation. If you should feel that you've experienced retaliation, I urge you to report it to Employee Relations or Lynn Hilliard, the Ombudsman. Retaliation is not tolerated in my administration.

Regards-
Director Shinn

Director Shinn,

I understand you are the new Arizona prison director. Your staff have been looking forward to positive changes and up until now, you have been viewed as such by your state counselors, teachers and chaplains (IPR STAFF).

Are you aware of what your program staff has been required to do since the COVID pandemic began? They are still required to teach in large groups where social distancing is NOT possible. Are you aware of the fact that your staff have asked to make changes in order to make it safer to perform their jobs? They have offered to work their jobs by providing in-cell, at-home work assignments for the inmates, making it safer for both staff and inmates. Karen Hellman and Abisogun Kokumo have not listened to any of these ideas from their staff, instead they have shown a lack of empathy and made comments that they are essential employees. Other state prisons have suspended in-person classes and have been from day 1 of this pandemic. Is there a reason why they are being told to continue to work in such a reckless manner? Everywhere we go across the world, there are no large groups, except of course, inside your prisons! Most of them are now pursuing new job opportunities because of this, which is sad, since your education department has had nothing but turnover since 2014. Also, nobody will speak to you about this for fear of retaliation. In fact, that is the reason for the constant turnover. Please also note, Abisogun Kokumo has been conducting in-person visits at all of the complexes and all of the units in succession of each other, potentially spreading a deadly virus, against the advisement of the CDC, World Health Organization and Gov Ducey. Most importantly, even after IPR staff begged to perform their jobs safely by NOT conducting in-person programming, we have now have several IPR staff. These IPR Administrators are clearly not concerned about the health and safety of their staff or inmate populations, rather their data. This is completely unacceptable! At this rate, how long do you think it will take before somebody opens up a lawsuit for negligence? Please please help!

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- Additional partners signed on to the Arizona Testing Blitz today, including facilities in Page, Glendale, Cottonwood, and Prescott. Additional partners are expected to be added as the week continues. An up to date list of participating sites will be available at www.azhealth.gov/testingblitz.
- [FAQs](#) regarding the process to resume elective surgeries are now available on the ADHS website. These are meant to accompany the [exemption request form](#).
- ADHS continues to get questions about antibody (serology) testing. At this time, it is not known whether a positive test demonstrates that an individual has immunity to COVID-19. For this reason, it is important that Arizonans who have a positive antibody or serology test continue to take precautions to prevent becoming infected with COVID-19. ADHS is working with UofA and other partners to better understand antibody testing and how it can best be utilized as a tool for diagnosis or evidence of immunity.
 - Also of note, only a handful of serology tests are currently approved by FDA. These are listed on the [FDA website](#), which is routinely updated.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. Another significant update to the dashboard has been launched which provides additional information about COVID cases in Arizona and situational awareness about healthcare facility capacity:

Greetings - ADCRR is referenced in this edition of the Arizona Legislative Report News Notes. References follow:

CORRECTIONS DEPARTMENT MAKES PROGRESS, ALBEIT SLOW, ON HIRING

Vacancy rates among correctional officers are down, but nowhere near close to the 6.8% vacancy rate Dept of Corrections set itself as a goal by the end of the fiscal year, according to a report prepared for tomorrow's Joint Legislative Budget Committee meeting. The agency aims to hire 812 additional correctional officers between June 2019 and June 2020. So far, DOC added just a net gain of 62 employees. Plans to hire 453 people each quarter have not panned out, and far more employees have quit. (The agency had planned for 173 employees quitting per quarter). More than a quarter of new hires are between ages 18 and 20 - thanks to a recent rule change that allows DOC to hire correctional officers at 18 instead of 21. The department will continue targeting young people fresh out of high school to increase staffing levels, Director David Shinn wrote in a letter to JLBC. The report provided to JLBC only shows staffing estimates through February, and don't reflect any new vacancies - or time off - caused by COVID-19.

DAVID SHINN PLANS TO USE PAPAGO PRISON TO MANAGE COVID-19 CRISIS

The department plans to use beds in a reopened motel-turned-prison to manage the impact of COVID-19. The Papago Unit, reopened last year to house female inmates when the population of women in prison outgrew Perryville, houses 340 beds, 100 of which are earmarked for female prisoners. The other 240 will provide additional capacity to "inhibit the spread of COVID-19," Shinn said, but did not provide any further details.

NEW DIRECTOR, NEW CELL LOCK PLAN

A different type of cell lock is more secure than an initial plan and will cost less than one-fifth the price of the original locks targeted for purchase, the Dept of Corrections, Rehabilitation and Reentry wrote in a report to the Joint Committee on Capital Review. The committee, which meets tomorrow, will tackle a request from the department to adjust the scope of its plans to replace broken locks, fire alarms and HVAC systems at Lewis and Yuma prisons. Department officials plan to modify and replace locks on 1,857 cell doors. Cells now have sliding doors equipped with 3-point pneumatic locks, and the department originally proposed replacing them with 4-point locks using a rack and pinion system. Last summer, then-Department head Chuck Ryan told lawmakers the new locks - which would cost \$16,400 per door - are "far more secure." But in a letter to JCCR, department leaders now say the proposed 4-point locks would fail in the same way the existing locks have. Instead, they want to convert the sliding doors to swing doors and replace locks with detention-grade deadbolts used by the federal Bureau of Prisons. Costs would fall to \$2,741 per door. However, the department would still be on the hook for \$5.4 million in cancellation costs for the original lock solution, and spent another \$4.2 million on components of that locking system that it now plans to repurpose on non-cell doors.

GOVERNMENT MATH: IT WILL COST LESS BUT IT WILL ALSO COST MORE

Despite a proposed decrease in lock costs, the overall cost for the prison project is expected to increase. The department plans to spend an estimated \$3.3 million to replace porcelain toilets with stainless steel facilities and install self-contained lighting fixtures, both of which will be less prone to tampering, according to the DOC. The agency also plans to install air conditioning, rather than evaporative cooling, at the two prisons. Air conditioning will cost \$20.9 million more to install, and will have higher maintenance costs than swamp coolers. But the department says it's the right choice to both prevent buildings from deteriorating due to added moisture and to improve staff morale and inmate behavior by

providing more "reasonable" temperatures. Moisture, along with dirt and dust, also contributed to lock failures, the department says.

54th Legislature; 2nd Regular Session

NO DATE has been set for the House and the Senate to reconvene.

NEWS NOTES

DEFINE NON-CONTROVERSIAL

“Non-controversial” is the phrase of the day around the virtual Arizona Capitol as legislative leaders try and figure out what exactly should be done with the rest of the session. One plan – something that could potentially unite dueling wings of the majority party – is to hear a small number of bills that should, in theory, get high levels of support among both parties. House Republicans have been discussing what such a scenario might look like, though they have yet to reach a decision, said Toma, who has been on a number of calls with different iterations of GOP policymakers over the past several days. If lawmakers, indeed, return to the Legislature under such a plan, he’d like to address some nuts-and-bolts issues that might help constituents find financial stability, such as forgiving late fees on past-due property tax payments. The proposal might at least in part appease county treasurers who want to move the payment deadline back entirely. Giving taxpayers certainty and consistency is key in these matters, Toma said.

DEFINITION: ANY PROPOSAL WITH 16 AND 31

In that spirit, Toma also recommended that the Legislature ensure conformity with federal efforts to forgive or delay payment on certain loans. But these aren’t things that need to happen “right away,” Toma said. Cobb, who has shown relatively little interest in returning to legislative business compared to some of her colleagues, suggested that lawmakers consider a Borrelli bill - S1460 (electric cooperatives; broadband service) - to allow electric utility cooperatives to provide broadband services. That bill, which passed 28-0 in the Senate, awaited assignment in House res-energy-water when the Legislature voted to suspend the session in March. The effort’s sponsors include lawmakers from both parties in both chambers from Petersen to Mendez.

ALSO: ANY BILL THAT AVOIDS HOURS OF SPEECHIFYING

Of course, “non-controversial” is in the eye of a beholder, a lesson that lawmakers learned the hard way when what was supposed to be an expedited effort in March to pass COVID-19 relief became a drawn-out, contentious affair that pitted party against party and chamber against chamber. Toma said it’s important that this time around, a well-defined roadmap exists to guide lawmakers through a series of bills that have broad support. “We’ll need to flesh out the basic rules of engagement,” he said.

Democrats share the sentiment. “We just need to be able to talk to each other better,” said Friese, who agreed that whatever plan to pass an aid package in March quickly fell by the wayside.

FRIESE TO COLLEAGUES: LET’S GET IN AND GET OUT. PLEASE.

Friese, however, pushes back on the idea that some non-COVID-19-related bills are so urgent lawmakers must return to the Capitol to pass them. “I’m sure there’s legislation that needs to be passed before next year, but I believe the only reason we should go back [unless to adjourn] is to pass legislation dealing with this crisis,” he said. He mapped out three categories. The first includes policies that are necessary to immediately alleviate suffering. The second pertains to “repair and recovery,” such as efforts to waive late fees on property taxes. And the third plans for how the state can better respond to the next crisis. He would only consider returning to address legislation in the first category, while the rest can wait for a special session over the summer, he said.

COUNTY ATTORNEY ACCUSES ACTIVISTS OF EXPLOITING COVID-19 CRISIS

Maricopa County Attorney Allister Adel took to the op-ed pages of the *Republic* this morning to criticize prison reform advocates who have called on leaders in the corrections system to scale down prison populations amid COVID-19 ([LINK](#)). “Don’t let these organizations fool you,” she wrote. “Their efforts to release prisoners [are] not about saving lives. It is about exploiting a public health emergency to forward a political agenda.” Calls to release certain groups of incarcerated people – such as the elderly, ill, otherwise vulnerable or near the end of their sentence – grew in volume and frequency as news about the Dept of Corrections’ handling of the virus trickled out. The first COVID-19 fatality in the state prison system was confirmed this week – two weeks after the inmate passed away. Advocates of prisoners and their families have complained about poor transparency and testing in the system, with much of the criticism directed at Shinn. In other states, governors have laid out plans to release hundreds of low-level inmates, though Ducey expressed little appetite for such a move. Adel compared those calling for a release of some inmates to “those who tried to profit from first responders who needed protective equipment by price gouging in the early weeks of the pandemic.” It’s an interesting tack for Adel to take, who has mostly kept a low public profile on issues like sentencing reform compared to her predecessor, now Supreme Court Justice Bill Montgomery.

CORRECTIONS DEPARTMENT MAKES PROGRESS, ALBEIT SLOW, ON

HIRING

Vacancy rates among correctional officers are down, but nowhere near close to the 6.8% vacancy rate Dept of Corrections set itself as a goal by the end of the fiscal year, according to a report prepared for tomorrow's Joint Legislative Budget Committee meeting. The agency aims to hire 812 additional correctional officers between June 2019 and June 2020. So far, DOC added just a net gain of 62 employees. Plans to hire 453 people each quarter have not panned out, and far more employees have quit. (The agency had planned for 173 employees quitting per quarter). More than a quarter of new hires are between ages 18 and 20 - thanks to a recent rule change that allows DOC to hire correctional officers at 18 instead of 21. The department will continue targeting young people fresh out of high school to increase staffing levels, Director David Shinn wrote in a letter to JLBC. The report provided to JLBC only shows staffing estimates through February, and don't reflect any new vacancies – or time off – caused by COVID-19.

DAVID SHINN PLANS TO USE PAPAGO PRISON TO MANAGE COVID-19 CRISIS

The department plans to use beds in a reopened motel-turned-prison to manage the impact of COVID-19. The Papago Unit, reopened last year to house female inmates when the population of women in prison outgrew Perryville, houses 340 beds, 100 of which are earmarked for female prisoners. The other 240 will provide additional capacity to “inhibit the spread of COVID-19,” Shinn said, but did not provide any further details.

NEW DIRECTOR, NEW CELL LOCK PLAN

A different type of cell lock is more secure than an initial plan and will cost less than one-fifth the price of the original locks targeted for purchase, the Dept of Corrections, Rehabilitation and Reentry wrote in a report to the Joint Committee on Capital Review. The committee, which meets tomorrow, will tackle a request from the department to adjust the scope of its plans to replace broken locks, fire alarms and HVAC systems at Lewis and Yuma prisons. Department officials plan to modify and replace locks on 1,857 cell doors. Cells now have sliding doors equipped with 3-point pneumatic locks, and the department originally proposed replacing them with 4-point locks using a rack and pinion system. Last summer, then-Department head Chuck Ryan told lawmakers the new locks - which would cost \$16,400 per door - are “far more secure.” But in a letter to JCCR, department leaders now say the proposed 4-point locks would fail in

the same way the existing locks have. Instead, they want to convert the sliding doors to swing doors and replace locks with detention-grade deadbolts used by the federal Bureau of Prisons. Costs would fall to \$2,741 per door. However, the department would still be on the hook for \$5.4 million in cancellation costs for the original lock solution, and spent another \$4.2 million on components of that locking system that it now plans to repurpose on non-cell doors.

GOVERNMENT MATH: IT WILL COST LESS BUT IT WILL ALSO COST MORE

Despite a proposed decrease in lock costs, the overall cost for the prison project is expected to increase. The department plans to spend an estimated \$3.3 million to replace porcelain toilets with stainless steel facilities and install self-contained lighting fixtures, both of which will be less prone to tampering, according to the DOC. The agency also plans to install air conditioning, rather than evaporative cooling, at the two prisons. Air conditioning will cost \$20.9 million more to install, and will have higher maintenance costs than swamp coolers. But the department says it's the right choice to both prevent buildings from deteriorating due to added moisture and to improve staff morale and inmate behavior by providing more "reasonable" temperatures. Moisture, along with dirt and dust, also contributed to lock failures, the department says.

NEWS RELEASES

Arizona Medicaid Program Advances \$41 Million In Provider Payments To Address COVID-19 Emergency

To help health care providers address the COVID-19 emergency and ensure their ongoing viability, the Arizona Health Care Cost Containment System (AHCCCS), Arizona's Medicaid agency, is advancing more than \$41 million in scheduled payments to hospitals, primary care providers, behavioral health outpatient providers, and justice clinic providers who participate in the agency's Targeted Investments program.

"Arizona's hospitals, doctors and behavioral health professionals have supported those in need during the COVID-19 health emergency and well before," said Governor Doug Ducey. "AHCCCS is providing these payments ahead of schedule so we can ensure these health care providers and professionals can continue to serve Arizonans without interruption. My thanks to frontline workers and health care professionals across the state working around the clock to protect public health and safety."

More than 106 provider organizations will receive a portion of the funds they were

scheduled to receive in the fall of 2020 as a part of their successful participation in the five-year Targeted Investments initiative, which supports providers as they integrate physical and behavioral health services. The program rewards participants for meeting certain quality metrics demonstrating enhanced care coordination within and across providers and clinic settings. The \$41 million is not new funding but an existing allocation. AHCCCS expects the payments to be made in early May.

The funding advance comes on the heels of additional steps AHCCCS has taken to financially support Arizona health care providers, including: [making \\$5.3 million in additional payments to Critical Access Hospitals](#); accelerating \$50 million in payments to hospitals that participated in the Graduate Medical Education program in 2019; advancing \$2.5 million to trauma hospitals; making \$6 million in additional payments to nursing facilities; advancing supplemental payments to three hard-hit nursing facilities by one month; and initiating retention payments to providers who offer attendant care and/or personal care services to individuals who are elderly or have physical disabilities enrolled with AHCCCS' long-term care program.

To learn more about the actions AHCCCS has taken to address the COVID-19 emergency, see the [AHCCCS COVID-19 web page](#) and accompanying [Frequently Asked Questions section](#).

McSally Urges DoD, Interior to Support Development of Fully Domestic Rare Earths Supply Chain

U.S. SENATE – U.S. Senator Martha McSally (R-AZ) and a group of senators are urging Secretary of Defense Mark Esper and Secretary of the Interior David Bernhardt to support the development of a fully domestic rare earths supply chain and reduce U.S. dependence on foreign minerals that are critical for manufacturing our defense technologies and supporting our national security.

In the letters to the secretaries, the senators wrote:

“It is clear that our dependence on China for vital rare earths threatens our U.S. manufacturing and defense industrial base. As the October 2018 Defense Industrial Base (DIB) Report states: ‘China represents a significant and growing risk to the supply of materials deemed strategic and critical to U.S. national security.’ [...]

Ensuring a U.S. supply of domestically sourced rare earths will reduce our vulnerability to supply disruptions that poses a grave risk to our military readiness.”

McSally was joined on the letters by Sens. Ted Cruz (R-Texas), John Barrasso (R-Wyo.) Tom Cotton (R- Ark.), Mike Enzi (R- Wyo.), and Cory Gardner (R- Colo.).

The letters may be viewed [here](#), [here](#), and below.

Rep. Kirkpatrick Urges Treasury and SBA to Investigate Discrepancies in Distribution of PPP Funds

Tucson, AZ — Today, Rep. Kirkpatrick sent a letter to Treasury Secretary Steven Mnuchin and Small Business Administrator Jovita Carranza, sharing concerns over the uneven state-by-state distribution of Paycheck Protection Program (PPP) funds and asked that the Treasury Department and Small Business Administration (SBA) investigate this significant allocation disparity.

[According to reports](#), Arizona’s small businesses received the fifth-fewest number of PPP loans (181) for every 1,000 small businesses. The Reuters analysis found that the most successful states received upwards of 500 loans for every 1,000 small businesses.

Further, analysis by former U.S. Treasury economist Ernie Tedeschi indicates that Arizona had the ninth-lowest rate of PPP loans allocated as a percentage of total eligible payroll. [This analysis shows that less than half of the eligible payroll in Arizona was covered, compared to upwards of 75% for the most successful states.](#)

[According to data compiled by the Associated Press, and analyzed by CBS 5](#), Arizona ranked last in the U.S. funding for PPP loans granted by SBA. While each state has its own unique economic makeup and small businesses may not have applied for these loans at the same rate, it is concerning to see that Arizona’s small businesses were so much less successful in receiving PPP loans than in other states.

“I urge the administration to immediately investigate the allocation of SBA loans and develop a more equitable supervisory system for how PPP funds are distributed state-

by-state,” said Rep. Kirkpatrick. “It is critical that struggling Arizona businesses that are eligible to apply for loans are given the same opportunities to receive relief as small businesses in other states. Our small businesses must not be passed over, my office is committed to raising this issue and working to get answers and relief for Southern Arizonans.”

Full text of the letter can be found [HERE](#) and below:

McSally to Hold Telephone Town Hall with UA Head of Immunobiology

U.S. SENATE – Tomorrow, Wednesday, April 29, U.S. Senator Martha McSally (R-AZ) will host a telephone town hall alongside Dr. Janko Nikolich-Žugich, Department Head and Professor of Immunobiology at the University of Arizona Health Sciences. Sen. McSally and Dr. Nikolich-Žugich will provide an update on the coronavirus pandemic and answer your questions.

Dr. Nikolich-Žugich is internationally recognized as a leading immunologist and gerontologist. In 2008, Dr. Nikolich-Žugich moved to the University of Arizona to lead the Department of Immunobiology and the Arizona Center on Aging. His long-term interests include immunity to infection in older adults, and vaccines and biomarkers of declining immunity in the elderly, among others.

This will be McSally’s seventh telephone town hall since the coronavirus outbreak. To date, she has spoken to over 135,000 Arizonans about the federal resources available during these unprecedented times.

Details are as follows:

WHAT: Sen. McSally to host a telephone town hall

WHEN: Wednesday, April 29, 2020 at 11:50am AZ

CALL-IN: [855-962-1520](tel:855-962-1520)

Former Governor Jan Brewer Endorses Rodney Glassman For County Assessor

Phoenix, AZ (April 28, 2020) Former Arizona Governor Jan Brewer has endorsed Republican Rodney Glassman for Maricopa County Assessor.

“I like straight shooters and that’s why I support Rodney Glassman for Maricopa County Assessor.” said Brewer in her endorsement, adding “Rodney’s an Air Force Officer, a respected attorney with a background in real estate and finance, and he’s built a reputation for excellence and integrity throughout his community service.”

Brewer is the biggest name yet to endorse Glassman, joining recent endorsements from Congressmen Paul Gosar and David Schweikert atop Glassman’s endorsement page.

“I am thrilled to have Governor Brewer endorse me in this race. It is important that Republicans retain this office and that taxpayers have the strongest possible advocate serving in the Assessor’s office.” said Glassman.

Rodney Glassman is a highly respected attorney at Beus Gilbert McGroder PLLC and currently serves as a Major in the U.S. Air Force JAG Corps Reserve. He has extensive public administration experience having successfully served as both an appointed Town Manager and elected City Councilman. Rodney is a licensed Arizona real estate broker and has held leadership roles in the homebuilding industry. Lastly, Rodney is a husband, father, and proud Eagle Scout, who is active in the community and has demonstrated his commitment to enhancing the quality of life for all of Arizona’s families.

Robertson Defeats Weiers' Attempt to Remove Her From Ballot

Contact: Ben Scheel, Phone: (602) 663-5015, Email: ben@brightphxaz.com

On Monday, Glendale Mayoral candidate Michelle Robertson defeated Glendale

Mayor Jerry Weiers' via Demetra Lau's (AKA Jamie Lau) attempt to remove her from the ballot in the August 4, 2020 election that will determine who will be mayor of Glendale. After a conscientious review of the evidence, Maricopa County Superior Court Judge John Smith ruled the Robertson campaign submitted 1,402 valid signatures, well over the 1,297 required by law thus denying the petition for preliminary and permanent injunction filed by Lau on behalf of Jerry Weiers' campaign. The ruling means Michelle Robertson will appear on the August 4, 2020 ballot giving voters a choice. This case was nothing more than Demetra Lau (AKA Jamie Lau) and Jerry Weiers' attempt to once again silence the voice of the voters for his and his "buddies'" personal agenda.

"We had faith in the process, we knew we had sufficient signatures to get on the ballot and the will of the voters prevailed," said Michelle Robertson. "I would like to thank Judge Smith for his unwavering adherence to the law and reaching the obvious conclusion. Additionally, I want to thank my legal team for defeating Weiers' and Lau's cynical attempt to limit the choice and voice of our community by manipulating the situation in hopes of having the election handed over to him, just as he does with everything else. I would like to extend a thank you to the hardworking and concerned citizens that worked diligently and safely to get me on the ballot, along with those who signed our petitions. I am proud of all of them. Most importantly, I look forward to defeating Jerry Weiers on August 4, 2020 because Glendale needs leadership that engages the community, listens to voters and operates with transparency."

Robertson's spokesperson Ben Scheel added, "The court record shows this was nothing less than a self-serving attempt to keep a woman off the ballot and create a scenario that would allow him to continue his "good ole boys club" way of doing business, including looking out for the special interest of a select few while ignoring the needs of the entire city. Additionally, this was his way of trying to distract Glendale voters' attention away from very public announcement of Arizona's Fraternal Order of Police stating that Arizona police officers absolutely do not support Jerry Weiers and that no reputable public safety organization supports him for re-election. The court's ruling ensures Michelle Robertson's name will be on the ballot and upholds the will of the voters to have a choice when they elect their mayor on August 4, 2020. We look forward to voters having their voice heard loud and clear when they elect Michelle Robertson as their new mayor."

The election for Glendale Mayor will be decided on Tuesday, August 4th, 2020 being there are only two candidates, Jerry Weiers and Michelle Robertson.

The case ruling is available

Sinema Joins McCain Institute and ASU to Discuss Public Service During the Coronavirus Outbreak

PHOENIX – Arizona senior Senator Kyrsten Sinema joined the McCain Institute and Arizona State University for a virtual fireside chat on the importance of public service during crises, including the current coronavirus pandemic.

“The coronavirus pandemic demonstrates the critical role of public service in meeting our nation’s greatest challenges. I am proud to join the McCain Institute and ASU to honor the legacy of my personal hero Senator John McCain and help inspire the next generation of public servants,” said Sinema.

Sinema participated in a virtual fireside chat with the McCain Institute, the National Commission on Military, National, and Public Service and Arizona State University (ASU) to highlight the critical role of service in our country and ways to engage the next generation in military, national, and public service. Sinema helped honor the legacy of the late Senator John McCain and promote the notion of service above self and develop ideas to inspire more young Americans to serve – especially during times of crisis.

Sinema has added a resources page to her website, www.sinema.senate.gov/corona, for Arizonans looking for the latest information on coronavirus.

Access to Special Funding for SMBs Offered by Free CARES Act Training

The Arizona Chamber and the Arizona Small Business Association, with help from partners Acronis and Lendio, are taking action to give as many businesses as possible access to vital government funding

The impact of COVID-19 on small business is devastating. To assist, the Arizona Chamber of Commerce and Industry has partnered with the Arizona Small Business Association (ASBA) to launch the “CARES Act Readiness Program for Small Businesses”.

Through the Coronavirus Aid, Relief, and Economic Security Act (CARES Act), Congress has made \$600 billion in loans available to help support small businesses and keep workers employed. Banks have been placed under immense pressure to rapidly issue these special loans that, under certain conditions, are 100% forgivable.

The Chamber understands that qualified Arizona businesses need online applications that are fast and easy to complete. The Chamber’s new partnership with Acronis #CyberFit Financing initiative and Lendio will accelerate and streamline the process for eligible small businesses to access capital for employment retention and coverage of qualified overhead expenses.

“Keeping Arizona strong during the COVID-19 crisis is our top priority, and access to resources that can help support families and businesses in this time of need is critical. We’re proud to be at the forefront of efforts to help business be informed and engaged on what we, the federal government and our partners can do to help us all come through this together,” said Glenn Hamer, the president and CEO of the Arizona Chamber of Commerce and Industry.

Our Partners

Small businesses are encouraged to apply at the Arizona Chamber’s CARES Act Readiness Program for Small Businesses page by visiting <https://caresactaz.com> and *en Español* at <https://www.caresact.com/espanol>.

“We’re here to support small business to get the training and the resources they need to participate in the COVID-19 relief funding opportunities. I am excited we have had the opportunity to offer this essential training program with our partners. We look forward to seeing the success of our small business community,” said the CEO of the Arizona Small Business Association, Jess Roman.

Acronis, a leader in cyber protection, aims to help as many partners and customers as quickly as possible. IT is necessary for remote working, resulting in the need to protect IT infrastructure. Yet small businesses facing this situation cannot invest in complex solutions.

Acronis offers easy, efficient, affordable, and secure cyber protection, enabling partners to succeed as they help their clients safeguard their business, infrastructure, and IT budget.

“The global coronavirus pandemic has altered daily life for us all, but we must forge

ahead to ensure we are doing our part to help. Business continues for many sectors of the economy and – with support from the U.S. federal government and our strategic partnerships with the Arizona Chamber, ASBA and Lendio – we can provide streamlined access to vital funding to ensure business continuity for as many U.S. businesses as possible,” said Serguei “SB” Belousov, Founder and CEO of Acronis. “It’s vitally important that we get the economic wheels turning and put these federal loans into the hands of all small business owners fast,” said Brock Blake, CEO and founder of Lendio. “Lendio is pleased to be partnering with the Arizona Chamber, ASBA and Acronis to help facilitate funds for Arizonan businesses. Whether it’s addressing immediate COVID-19-related financial issues or assisting them with longer-term financing solutions down the road, Lendio looks forward to helping these businesses succeed.”

About Acronis

Acronis sets the standard for cyber protection through its [innovative backup, anti-ransomware, disaster recovery, storage, and enterprise file sync and share solutions](#). Enhanced by its award-winning AI-based [active protection technology](#), blockchain-based data authentication and unique [hybrid-cloud architecture](#), Acronis protects all data in any environment – including physical, virtual, cloud, mobile workloads and applications – all at a low and predictable cost.

Founded in Singapore in 2003 and incorporated in Switzerland in 2008, Acronis now has more than 1,500 employees in 33 locations in 18 countries. Its solutions are trusted by more than 5.5 million personal users and 500,000 businesses, including 100% of the Fortune 1000 companies. Acronis’ products are available through 50,000 partners and service providers in over 150 countries in more than 30 languages.

About Lendio

Lendio is a free online marketplace that leverages machine learning to help business owners find the right small business loans within minutes. With a network of over 75 lenders offering multiple loan products and over 100,000 small business loans funded, Lendio’s marketplace is the largest in the country and the center of small business lending. Based in the Silicon Slopes of Lehi, Utah, Lendio was recently recognized by Glassdoor as one of the [Top 50 Workplaces](#) and has been certified for four years running as a great workplace by the independent analysts at [Great Place to Work®](#). In addition, Lendio ranks on Fortune’s [Best Workplaces in Financial Services & Insurance](#) and Inc.’s [Best Workplaces](#). For every new loan facilitated on Lendio’s marketplace platform, Lendio Gives, an employee contribution and employer matching program, provides a microloan to a low-income entrepreneur around the world

through Kiva.org. More information about Lendio is available at www.lendio.com. Information about Lendio franchising opportunities can be found at www.lendiofranchise.com.

'Testing blitz' set in Arizona as Ducey weighs lifting coronavirus restrictions

By Howard Fischer
Services

Capitol Media

04-28-20

Gov. Doug Ducey announced a “blitz” to test up to 60,000 Arizonans for COVID-19 in the next three weekends.

The goal is to test 10,000 to 20,000 people each Saturday, beginning May 2, through various drive-thru and on-site testing locations, including at least two in Tucson. (To read more, click [here](#)).

Truckers thankful to have Pinal rest stop vendors

By Jeff Jackson
Dispatch

Casa Grande

04-28-20

Food vendors at Interstate 10 rest stops north of Casa Grande are not rolling in dough, but they are making truck drivers happy.

“They’re super, very thankful, appreciative just for us being here,” said Bill Voice, who with wife Mary sells grilled sandwiches and fruit-filled refreshments weekdays out of Mama Lita’s Soda Bar and Delites food van at the westbound Sacaton Rest Area. “For us, it hasn’t been a big-money thing. If you combined our time it would be like \$5 an hour. We do it because it helps people. People tell us ‘thank you very much for doing this’ even though they may not buy anything.” (To read more, click [here](#)).

Hospitals hard hit by revenue losses in pandemic

By Pete Aleshire
Independent

White Mountain

04-28-20

Gov. Doug Ducey last week responded to a developing financial crisis for the state's hospitals by lifting the March order barring many elective procedures and an increased bed capacity in an effort to open up space for COVID-19 patients.

A month of "social distancing" followed by a "stay-at-home" order appears to have largely averted the anticipated crush of COVID-19 patients, leaving many hospitals half-full. (To read more, click [here](#)).

Subject: Fwd: Follow up questions for ADCRR
Date: Tuesday, April 28, 2020 1:46:59 PM

----- Forwarded message -----

From: **Kirsten Engel** <kengel@azleg.gov>
Date: Tue, Apr 28, 2020 at 1:45 PM
Subject: Follow up questions for ADCRR
To: Jgrossman@azadc.gov <Jgrossman@azadc.gov>
Cc: okline@azadc.gov <okline@azadc.gov>, Jane Ahern <JAhern@azleg.gov>, Domingo DeGrazia <DDeGrazia@azleg.gov>, Diego Rodriguez <DRodriguez@azleg.gov>

Dear Joe,

During our phone call with you and Director Shinn last Friday, April 24, 2020, we agreed that you would be the point of contact for ongoing questions related to ADCRR's COVID preparedness. Thank you in advance for your timely response to our questions below. An email response would be sufficient.

1. We were dismayed to read in today's Capitol Times that an inmate from the Tucson state corrections facility has died from COVID-19. We were also dismayed to learn that the inmate's death occurred two weeks ago at the same time Director Shinn stating emphatically on last Friday's call that there had been "no known COVID death" among inmates thus far. This has given us profound pause – trust is vital for us to continue our communications with the Department and this has made us wonder if we can trust the information we are receiving.

Why did the Director deny knowledge of any COVID-caused inmate deaths at the time of our call on Friday when [REDACTED] had died from COVID-19 two weeks prior to the call? (We know that [REDACTED] was transferred from the ADCRR to the community hospital due to his illness so simply claiming ignorance of a specific cause of death is not an acceptable explanation since his death followed his hospitalization.)

Has ADCRR adopted a "don't ask, don't tell policy" in regards to affirmatively identifying the cause of death for sick inmates? If so, please state the date this policy was put into effect.

The number of inmate deaths from COVID-19 are not included on the ADCRR website dashboard, when will this information be included?

How can we and the general public be assured that we will, in the future, receive timely information on an inmate's death due to COVID-19?

2. We understand the Association of Corrections Officers is threatening a walk-out unless officers' demands are met, one of them being the provision of N95 masks.

Will the Department planning on providing all Corrections Officers with N95 masks? If so, by when?

If a walk-out of one or more facilities were to occur, how would the Department ensure the safety of the inmates and staff at those facility/facilities?

If a walk-out occurs at one or more facilities, how will the Department maintain minimum staffing levels?

3. We have read with interest the Governor's plans for a COVID-19 "testing blitz" over the next three weekends. This must mean that sufficient tests are available to now test thousands of Arizonans.

Given that many more tests are available, will the Department now be testing all inmates or at least a percentage of inmates that could provide us with what would be accepted by health professionals as an accurate understanding of the extent of infection with in the inmate population?

Has the Department applied for any grant funding, government funding to other resources dedicated to ensuring all staff and inmates are tested? If so, please provide the details of those efforts.

4. The number of Corrections Officers being tested, the number of positive and negative tests, and any deaths among Officers or other staff members is of vital interest to the public due to its implications for the safety of all persons at ADCRR facilities. Unlike

many other states, ADCRR continues to not report any information on COVID-19 with respect to staff members. This information can be reported in a manner that does not violate HIPAA.

Will ADCRR report on the number of staff members tested, the number positive and the number of deaths among staff members due to COVID-19? If so, when?

Thank you very much for your responses to these inquiries.

Sincerely,

Kirsten Engel

Doming DeGrazia

Diego Rodriguez

Subject: 4-27-20 ADHS COVID-19 MEMO
Date: Monday, April 27, 2020 7:00:31 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- ADHS continues to work to enhance testing within Arizona and participated on calls with the White House Coronavirus Task Force on Saturday and with Governor Ducey on a White House call this morning.
- Today, ADHS, in partnership with Governor Ducey, [announced](#) the Arizona Testing Blitz, a three-day event to increase COVID-19 testing in Arizona on May 2, May 9, and May 16. Partners for this event currently include Banner Health and Walgreens, although the list is expected to grow over the coming days. An up to date list of participating sites will be available at www.azhealth.gov/testingblitz.
- Additional information about the process to resume elective surgeries per Governor Ducey's Executive Order [2020-32](#) is now posted online, including the [exemption request form](#). We will share FAQs as they are available.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. Another significant update to the dashboard has been launched which provides additional information about COVID cases in Arizona and situational awareness about healthcare facility capacity:

<https://www.azdhs.gov/preparedness/epidemiology-disease-control/infectious-disease-epidemiology/covid-19/dashboards/index.php>

Lastly, here are some social media posts that you may find useful to disseminate to your constituents:

Subject: EXTREMELY URGENT TIDINGS
Date: Monday, April 27, 2020 10:36:08 AM

To all silent parties concerned:

This is the sixth communication that we are sending all of you concerning the severity of this pandemic, so we are going to up the ante, as they say, in an effort to save the lives of our staff, inmates and public.

Last week, Warden Dorsey lied. She lied! She claimed, in written communication no less, that a contact investigation was conducted, following a positive test result from a kitchen officer on Pedro Unit.

One day later, a staff member from the same unit had to go get tested for displaying symptoms for the virus.

Two days later, an inmate from the same unit, was also tested after she was displaying the same symptoms and sporting a high fever.

She was relocated to Santa Maria unit to be “quarantined” pending results.

The staff at the Santa Maria unit were never advised that the inmate in question was in fact, a kitchen worker, you know, from the same unit this uncouth warden lied about not being exposed.

So here we are today, April 27, 2020 and we have been advised that the inmate has now tested positive for the virus.

And we are still waiting for the results for a staff member that was tested as well but that is of no consequence now because the infected kitchen worker has now been confirmed which means, and maybe all you silent people need a lesson here, it means that there has been exposures of an epic proportion on Perryville Complex, all thanks to Warden Dorsey, and all of you as well, that have been playing chicken with this virus.

Let’s reiterate here what has been ignored by all of you over the last two months by remaining silent and negligent:

<!--[if !supportLists]-->1- <!--[endif]-->All staff should be wearing a N95 mask regardless of what CDC, God, Buddha, Krishna or whoever else has a say about it, and ditch the Boxer shorts mask.

<!--[if !supportLists]-->2- <!--[endif]-->TEST EVERYONE! Especially now that your incompetent and lying administrators, like Dorsey, have helped the Corona on its mission to infect everything that has contact with it.

<!--[if !supportLists]-->3- <!--[endif]-->Start doing your jobs and answer your emails. We are tax paying citizens and registered voters and being ignored by politicians like yourselves is insulting, embarrassing and unbecoming of your positions.

<!--[if !supportLists]-->4- <!--[endif]-->Stop hiding the numbers. Report staff infections in a timely matter and get some ethics while you're at it, or relinquish your positions to someone with a vested interest in the people of Arizona.

In closing, to demonstrate the seriousness of this matter and to show that we will not be ignored any longer, the following will absolutely take place:

-We are calling for the termination of Warden Dorsey for her role in spreading this virus and blatantly lying about the exposure.

-We are calling for a response from the director, David Shinn and governor Ducey, both of whom have been outrageously disrespectful to our pleas by literally ignoring us.

-If you ignore us this time and we get no response, we will absolutely gather a boatload of citizens, both correctional and inmate family members, and we will post ourselves in front of the capital building bearing signs to protest both the director and governor in their disrespectful, negligent, and dismissive behavior towards the effected population within the Department of Corrections.

-We have secured a contact of a much higher source than both of you gentlemen and we will forewarn them of an incoming crises, fueled by your silent and dismissive behavior during this plague, that entails a protest and ultimately, a complete walk out by our staff, to protect their lives because you fellows are obviously not doing the jobs you are being payed to do. This is not a threat of any sort. This is a promise. And most importantly, spearheaded by both of you.

This is the reality of prison and it is painfully obvious that you guys are well over your heads and should stick to something else, other than running a state.

If you choose to ignore this email as you have all been doing, well then, see you soon at the Capital.

You won't miss us, promise. We will be the large crowd of people wearing masks, hoisting up signs, and all properly spaced out to the appropriate CDC standard of 6 feet apart.

Yours in Solidarity

Carlos Garcia

Subject: Updated HEOC PPE Resource Request Process
Date: Friday, April 24, 2020 5:30:54 PM

Good evening Directors,

Today, the Health Emergency Operations Center updated the PPE resource request process for state agencies and external partners (counties, tribal governments). The instructions on the new process have been sent to the points-of-contact at the respective agencies which have already submitted a PPE request through the WebEOC.

This new process uses a [Google Form](#) to directly submit PPE needs to a central spreadsheet for the HEOC to manage all of the volume of requests. If your agency has not previously submitted a request through the WebEOC and would like to be added to the list of agencies on the Google Form, please have your team email HEOCLogistics@azdhs.gov.

Please continue to try to procure PPE through your agency's standard procurement to the greatest degree possible before submitting a request through the HEOC process.

If you have questions or would like more information, please feel free to contact me directly.

Thank you.

Tony

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

-

Today Director Christ posted a [blog](#) describing strategies to expand testing in the state and ensure the department removes barriers to testing within our control.

Actions taken to date include the following:

-

Today, we issued updated [standing orders](#), expanding the criteria for testing to anyone who thinks they have been exposed to and could be infected with COVID-19. Previously, this order was limited to high-risk individuals and those with specific symptoms;

-

We have partnered with laboratories, such as Sonora Quest Laboratories, TGen, and the University of Arizona to provide additional funding to increase their lab capacity and will continue to work with other partner labs, as needed;

-

We have sent out messaging to labs statewide to remove any restrictions on testing if they have adequate testing supplies and PPE;

-

We continue to communicate with healthcare providers about expanding testing to all Arizonans; and

-

We have distributed 15 rapid testing machines throughout the state that are able to provide results within 15 minutes and we continue to work with our federal partners to get additional testing kits to support these machines.

-

CDC notified ADHS today that we will receive an additional \$12.4 million to support COVID-19 response, including case identification, contact tracing, improving

morbidity and mortality surveillance, enhancing lab capacity, and monitoring our healthcare system. ADHS put out a [press release](#) today with additional details.

- In response to Governor Ducey's Executive Order [2020-32](#) allowing healthcare providers to resume elective surgeries, ADHS is developing an approval process and frequently asked questions to guide providers. We expect to have these posted online early next week.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. Another significant update to the dashboard has been launched which provides additional information about COVID cases in Arizona and situational awareness about healthcare facility capacity:

Date: Wednesday, April 22, 2020 5:00:23 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- Today Director Christ posted a [blog](#) summarizing modeling data to date. The blog includes links to various projections and models. Recent models vary on projected dates for peak resource needs in Arizona, but all show that Arizona has sufficient hospital bed and ventilator capacity to meet projected peak needs. Because models are predictions, ADHS continues to prepare for potential worst case scenarios, to make sure Arizonans have the care they need when they need it. These preparations include facilitation of the [Arizona Surge Line](#) and continued alternate care site planning.
- Earlier this afternoon, Governor Ducey signed an [executive order](#) allowing hospitals and ambulatory surgery centers to resume elective surgeries beginning May 1st if they can demonstrate adequate capacity, including PPE, testing programs, and bed availability. ADHS will provide approvals for resumption of elective surgeries on a facility by facility basis based on their ability to meet criteria outlined in the executive order.
- ADHS continues to work with local public health, laboratory, and healthcare partners to work on augmenting testing capacity within the state. We have participated in calls with multiple federal partners and have been analyzing current laboratory capacity. At this time, as we plan for expanded testing, ADHS is working with partners and we have put in a federal resource request to acquire additional PPE and specimen collection materials, which continue to be a limiting factor in expanding testing more broadly in the state.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. Another significant update to the dashboard has been launched which provides additional information about COVID cases in Arizona and situational awareness about healthcare facility capacity:

Subject: Offender Self-Pay Halfway House Information
Date: Wednesday, April 22, 2020 4:44:56 PM

Sir-

Below is the information regarding halfway house availability in the community for offenders going to self-pay halfway houses. We do contract for 100 beds for those needing specific programming or at risk, such as otherwise homeless SMIs. We are looking at perhaps adding beds because we have reached capacity due to our shutting down intakes to MRC and PRC.

Sober living homes (halfway houses) statewide:

1. are now beginning to Eliminate any New residential intakes (similar to action plan we put into motion at MRC/PRC).
2. Overall Inventory of beds is now also reduced due to some programs needing to established Single Bed Quarantine rooms and/or general physical distancing guidelines.
3. Many are conducting screenings upon intake and refusing for any concerns.
4. Additional snowball effect: residents that have violated sober living program policies by either relapsing or failure to pay are discharged/evicted from program and no longer have the previous program options due to the reduced inventory mentioned above.

Additional challenge experienced by all statewide halfway houses:

Food and Supplies have become extremely scarce and more "clients" are now unemployed...so several have already shutdown or are seeking to raise fees for the residents to offset the costs.

Many charge room or room/board which may or may not include 3 meals (most don't include full meals). Residents are required to provide their own and the program would provide supplementary food (often received from food banks) and a limited amount from fees.

Regards-

Email Address: [REDACTED]

Recommendations: Hello Ms. Lynne Hilliard, Question/Suggestions not sure which my concern falls under. All I do know is how I feel about the email that came across my desk today. >From the many many statements that have been made from our ADOCRR staff. I've lived by the code of ethics and conduct that ADOCRR has had in place for years now! I live by it everyday! The one that I'm standing behind today is COURAGE!! ·Professionalism ·Responsibility· Integrity ·Courage ·Efficiency The forgotten First Responders that have been right here the whole time working, in the midst of this COVID19, alongside all the other First Responders, DR's, Nurses, Volunteers, Store Clerks, fast food etc. and all the other hundreds and hundreds of people pulling together during this very scary time in our World! We have all been right here working.... On a Unit that had to be locked down due to staff/Inmates testing positive for COVID19! Not being permitted to work overtime on any other unit, not being permitted to be around any other staff, nor have any other staff permitted on our unit due to the scare and spread of COVID19! Yet, our staff, those that were permitted to enter, were here everyday working! When you're having to deal with the mental strain of that environment, then dealing with the mental strain day in and day out... Scared as hell, yet praying to GOD, please don't let me bring this home to my family and my kids!! If that doesn't show true dedication, true commitment and true heroism.. I'm not sure what would!! I would like to ask the Department to reconsider that decision and show our Department that all the ones who continued to work everyday, who continued to be brave even when we were all scared and wanted to stay home like all the rest of our Communities. To show ****ALL OUR FIRST RESPONDERS****, that what we do day in and day out, meant something! We deserve, not just selected individuals, we all deserve the one time 25%! We were here, we were working, even though we were scared! We continued to be: ·Professional ·Responsible· With Integrity · Much Courage · Continued Efficiency **WHAT ABOUT US!!** Thank you for listening, appreciate all that you do! [REDACTED]

Email Address: [REDACTED]

Recommendations: The COVID-19 virus is causing the workplace in the Arizona Department of Corrections Rehabilitation and Reentry to be at a higher risk for staff that are essential and assigned to intake and reception units that house Isolation/ Quarantine inmates. Due to the work that Department staff conduct daily on the state's prison units they do not have the option of telecommuting and the ability to social distance. The direction that we currently have been given is perceived that the staff that are assigned directly to the housing units that house isolation/quarantine inmates are going to be coded for the 721E code to receive the 25% hazard stipend pay. I agree that this is a step in the right direction to ensure the monetary compensation for essential staff who are working during this difficult time. There currently are staff on the designated units that have interaction with the Isolation/Quarantine inmates that currently are not being included, Kitchen Officers, Correctional Officer III's, Operations staff, Captains, Correctional Officer IV's and Deputy Wardens who are required to tour the units. If the pay is being received by some staff who interact with the isolated population and not by others who interact with the same population it can be foreseen that those not receiving the pay will believe that they have the right to not be required to work in any area that houses those inmates without equal compensation. The Department of Correction Rehabilitation and Reentry needs to expand the coding of the 721E pay to all staff who are assigned to the units that house the Isolation/Quarantine inmates until the direction is received from the Governor's office that the social distancing and protective measures are lifted.

Date: Tuesday, April 21, 2020 8:22:49 AM

Good morning Mr. Profiri,

Gergana and the payroll team are working on the 25% hazardous duty pay now. Hopefully, most of those eligible will receive this in the 4/23/2020 paycheck.

The goal is to have the 8% critical services pay in place for the 5/7/2020 paycheck. This assumes we gain some traction very soon with ADOA, and the creation of the appropriate system coding.

Richard

Hello,

OSPB agrees in concept with the lesser critical service pay stipend now and a retroactive stipend adjustment up to but not to exceed a total of 15% later in the fiscal year. I recommend the 8% critical services pay stipend now. If this is amenable to you, we will work with ADOA to operationalize the stipend.

Richard

On Fri, Apr 17, 2020 at 5:51 PM Richard Evitch <revitch1@azadc.gov> wrote:

Good day all,

After our meeting earlier today, I spoke with OSPB. Shortly thereafter, the payroll and HR teams were informed to activate the 25% hazardous duty pay for staff assigned to hospital duty, inmate transportation, intake, and COVID-19 quarantine/isolation units effective 4/2/2020. HR and Payroll will coordinate with divisions to identify the staff eligible for the 25% stipend and administer the stipend accordingly. I should have a better sense on Monday if we can make this happen in time for the 4/23/2020 paycheck.

I will keep you posted as things develop. Please have a safe and restful weekend.

Richard

Cc: Deeann Brewer <dbrewer@azadc.gov>

Hello Ryan,

Thanks for the discussion earlier today. The attached document is an update of the estimates for the 15% critical services pay and the 25% hazardous duty pay. We are implementing the 25% hazardous duty pay stipend retroactive to 4/2/2020. Our HR and Payroll teams are working to administer this stipend.

We are interested in administering the critical services pay stipend at a lesser amount now, and, if affordable, pay the difference up to 15% later. The attached document has critical services pay estimates at 8% and 10%. We think this is a good approach for two primary reasons:

- allows for a buffer to absorb unforeseen costs or events
 - COVID-19 PPE and other supply needs
 - significant events that would require additional fiscal resources - payroll and operating
 - accelerated cases of COVID-19 positive, presumptive positive cases
 - disturbances
- allows for time to re-evaluate the fiscal state
 - reassess availability of funds mid, late May
 - Pay an amount up to 15% based on available resources
 - One example, if we offered an 8% stipend now and at the end of May we can afford a 15% stipend, we

would apply a 7% stipend (8% + 7% = 15%) retroactive to April 8, 2020.

- Another example, if we offered an 8% stipend and at the end of May we can afford a 12% stipend, we would apply a 4% stipend (8% + 4% = 12%) retroactive to April 8, 2020.

Please let us know your thoughts. If OSPB is amenable to this plan, we would ask for your assistance with ADOA in creating the pay codes needed to support the lesser critical services pay stipend. Also, we ask that the memo issued on April 8, 2020, be amended to include a critical services pay stipend **up to** 15%.

Thanks again for your time and attention to this. I look forward to discussing this further early next week.

Be safe and stay well,
Richard

Subject: 4-20-20 ADHS COVID-19 MEMO
Date: Monday, April 20, 2020 5:05:12 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you of the three most salient COVID-19 issues that the Department is currently addressing:

- ADHS implemented an upgrade to the COVID-19 data dashboards in both [English](#) and [Spanish](#). This upgrade presents additional COVID-19 data and provides all data at a single site. We posted a [blog](#) further explaining the highlights of the enhanced dashboards.
- ADHS recently received a shipment of 15 rapid COVID-19 testing machines. These are in the process of being delivered to partners around the state for rapid deployment to areas of concern, including congregate settings or other areas serving vulnerable populations. ADHS also queried partners to determine locations already in possession of one of the rapid test machines, which can be used for diagnosis of other diseases in addition to COVID-19. Several rural healthcare facilities are already in possession of these machines or have them on order. Implementation of rapid testing will further increase Arizona's COVID-19 testing capacity.
- ADHS attended the weekly call with Governor Ducey and Vice President Pence related to further COVID-19 response activities.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. Another significant update to the dashboard has been launched which provides additional information about COVID cases in Arizona and situational awareness about healthcare facility capacity:

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you on the three most salient COVID-19 issues that the Department is currently addressing:

- The data dashboard will be further enhanced this Sunday to provide additional information about cases and healthcare system status. New enhancements will be live around noon at azhealth.gov/covid-19.
- This afternoon, ADHS hosted a meeting with healthcare facilities to provide instruction for complying with additional reporting requirements included in Executive Order 2020-30. The new data collected will provide better situational awareness into hospital capacity, including staffing and PPE levels.
- ADHS continues to update [COVID-19 public messaging materials](#) including short videos, graphics, and flyers in both English and Spanish. Materials posted to date include topics like physical distancing, facts, high risk guidance, testing, mindfulness, and what to do when sick.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. A significant update to the dashboard has been launched which provides additional information about COVID cases in Arizona and situational awareness about healthcare facility capacity:

Subject: RE: News from Tucson CDU Unit
Date: Friday, April 17, 2020 3:14:51 PM

Good afternoon,

Thank you for your email to Director Shinn regarding the Tucson CDU. Your correspondence has been provided to the Constituent Services Unit for review and response.

Inmate [REDACTED] is currently housed in the detention unit at ASPC-Tucson and has been as of December 27, 2019. He has never been assigned to the floor in a cell while in the detention unit. He is currently pending movement to an appropriate location once bed space is available. Prior to being housed in detention, staff attempted to conduct an urinalysis screening on December 17, 2019 of inmate [REDACTED] which he refused. With regard to his claims of other inmates destroying property, this is not accurate. Since the addition of gaming systems and other items allowed through the Integrated Housing Program at Santa Rita, one gaming system has been replaced due to normal wear and tear. None have been vandalized.

In reference to the sanitation levels of the showers; they are cleaned twice daily by the assigned porters. In addition the showers are being sanitized utilizing a one to ten bleach water solution during graveyard shift daily. A review of showers completed for inmate [REDACTED] were documented on the 804-3 Individual Inmate Detention Record and revealed that inmate [REDACTED] showered thirteen times since March 16, 2020; which totals three times per week as required in Department Order 804.

Cleaning supplies to include disinfectant spray and cleaning cloths along with a broom and dustpan are offered daily for inmate use to clean their cells. Inmates may also request these items on an as needed basis. A cleaning schedule is prominently posted on inmate bulletin boards along with other important announcements for inmates to view when participating in recreation. It should also be noted, as of January 20, 2020, inmate [REDACTED] has refused to participate in recreation forty four times to date, which is also documented on the 804-3 Individual Inmate Detention Record although inmates are allowed recreation three times per week.

Restraints utilized in the detention unit are being sanitized a minimum of eight to ten times per shift while being utilized. Regarding the use of "masks" for inmates, they are not allowable for inmates as staff must be able to clearly identify inmates at all times for the safety of inmates and staff, as well as accountability purposes.

Staff assigned to the detention unit are mandated to wear facial coverings, goggles, and gloves at all times when having any type of contact, such as restraining and escorting inmates to showers and recreation.

Regards,

Mr. Shinn:

If you read the below email stream from the bottom upward, you can see the frustration that is building among the loved ones of inmates, as well as the inmates themselves, that even simple and clearly obvious opportunities to sanitize or clean items repeatedly used on multiple inmates are not being taken. Despite public claims that the Department is taking "every measure" to insure the safety of officers and inmates, the evidence is mounting that this is pure bunk.

One blatant example was posted by your own Department on the Twitter account on Easter Sunday. It showed a Pastor conducting a service for female inmates at the Hickman Egg Farm. The inmates were clustered close together while sitting on the ground -- two very obvious incidents of avoiding self-distancing (in one of the few circumstances where inmates actually can do so) and sitting on the ground (on which CORONA virus is known to survive for many hours).

How difficult would it be to have every officer carry a baggie full of sanitizing wipes in his pocket or on his belt in order to wipe off handcuffs between uses and then appropriately dispose of the wipes?

How difficult would it be to have every officer carry multiple sets of rubber gloves with him to change them each time he has to touch a potentially infected surface or perform a function such as a strip search?

Now that CDC and others are warning us that COVID 19 can remain on shoes for many hours, how can the Department justify having a single inmate sleep on the floor (mattress or not)? Why wouldn't Hickman Egg Farm provide CHAIRS for people to sit on (they could use the money they are saving on wages to purchase chairs if they don't already have them)?

How can you justify that showers are so unclean and unsanitary that some inmates are considering not taking showers at all in order to avoid the filth and unsanitary conditions? Where are the cleaning crews? Where are the monitors of the cleaning crews?

I already know you seem to be upset that you are not receiving "credit" for the "success" you've had so far in keeping the positive cases down to 8 (as of this writing). I know you believe that living in one of your institutions is currently one of the best places to be . . . And I know from your public comments that you believe the Department is well-prepared to deal with any type of communicable disease, even though the current one requires a battle with an airborne deadly killer that has no vaccine.

As you read the information below, make sure to note that there will be no toleration of any retaliation against the inmate mentioned in this email.

Donna Leone Hamm

Middle Ground Prison Reform

Middle Ground/Donna Hamm:

Yes, you have permission to pass this along. And you can add that prior to him being moved to a different cell this weekend - the CDU cell he previously was in has had 3 inmates in a 2-man cell for over a month with one of them sleeping on the floor.

Since COVID-19 started, they turned the Manzanita CDU into a "Quarantine Unit" and

shipped those CDU inmates to the main CDU. I imagine most of the cells in the main CDU have 3 inmates in them. [REDACTED] is due to be moved out of Tucson and has been waiting since the end of December in CDU. He was at Santa Rita Unit and it was so bad he refused a UA just to get a write up and get sent to CDU to get away from Santa Rita.

He couldn't stand it at Santa Rita, as inmates were destroying property in the day room (pouring water on the video game console so they couldn't play video games because the inmates wanted to watch TV) and nothing was done about it. Inmates stealing from other inmates and nothing was done about it. When they talked to him about the refusal, he volunteered to take a UA and it was clean. You can share the incident and let them know if he is retaliated against, I will be taking this further.

Thank you Donna!

Middle Ground:

I just wanted to provide some information regarding the lack of effort to keep the inmates in the Tucson CDU Unit safe.

My son, [REDACTED] ADC# [REDACTED] is currently in the CDU unit awaiting transfer to another location. The inmates are handcuffed any time they leave their cell. Handcuffs are not sanitized at all and showers are filthy. My son told me many of the inmates are talking about not going to showers and just cleaning up as best they can in their cells to avoid the filth and possible contamination in the showers.

When being transported to showers on Friday, April 10, my son, who has [REDACTED], (and is not receiving any medical treatment for it - that's another story) had used a piece of t-shirt to make a mask. Sergeant Tebow (not sure of the spelling) told him he was not allowed to cover his face at all. My son is trying to stay healthy so he questioned why the inmates could not take any precaution available to them. He asked for the Sgt.'s badge number (I have told him to let me know when things don't seem right there) and was not given the badge number but was moved by the Sgt the next day to another cell. My son was told he could request a mask from medical. On Saturday April 11 - my son wrote a kite to medical to request a mask. He was denied a mask because he does not go outside the prison.

He is now sleeping on the floor in a 2-man cell with 3 inmates housed in it. One of the inmates he is now housed with had just gotten to the unit from the hospital where he was taken for a head injury. The inmate who had returned from the hospital was told he would

be quarantined for 14 days after returning from the hospital but was quarantined less than a week and then sent to CDU.

I just wanted to pass this on to you as another example of how DOC is actually operating during this time.

If you have any questions please feel free to contact me.

Thank you,

(Redacted)

Director Shinn:

It has been quite some time since my last ignored email to all of you, but this one should really be considered carefully, and seriously, in the spirit of transparency and compassion.

Your staff and inmate population are suffering, both mentally and physically as we speak.

This virus and the departments lack of a basic precautionary response, along with the repeated refrain that you are only following “CDC guidelines”, has taken their toll on prison morale and whether or not you believe it, you are playing chicken with a virus that is driving an unstoppable and indestructible locomotive.

I have spent a whole week interviewing staff that are infected with the virus and who have already submitted the reports to your lower chain of command. Most have had to test themselves because of your apparent “stay in the lines” approach in dealing with this beast. They submitted those results way before you even went on KTAR and stated that you didn’t have the number of tested staff.

That was cringe-worthy and I must confess, as deceptive as Dustin Hoffman was, pretending to be an ugly woman in Tootsie.

However, we must be reasonable here and do some basic post damage assessment and remedy here.

After a consensus approach to this situation, your staff, and yes, even the inmates are suggesting that you:

<!--[if !supportLists]-->1- <!--[endif]-->Begin testing everyone, no matter what the cost, beginning, if you must, with the Florence/Eyman region, being that this is the region with the most pressing problem at the moment and with the most cases, albeit unknown to you apparently. However, that doesn’t mean the other complexes should be ignored. One for all, and all for one, I say! Being an ex-Marine, this should ring loud and clear for you.

<!--[if !supportLists]-->2- <!--[endif]-->Get rid of the boxer shorts masks and start issuing out the N95 masks to everyone, no matter what the cost. Be a rebel and forget CDC guidelines and remember that it is not always a matter of doing it because you can, but because you should.

Please consider what I am saying no matter how irked my tone may make you. After all, you never respond to our communications, so you have that coming.

That is the reality of prison.

Yours in Solidarity

Carlos Garcia

Subject: Exposure to COVID 19
Date: Thursday, April 16, 2020 4:59:10 PM

All, one of [REDACTED] units officers was exposed to COVID 19 while escorting inmates at SMU. He then returned to Cook unit the following 3 days before he was informed of his exposure. He was exposed on a Tuesday and returned back to work the following Monday with out being given the COVID test. Why is the OHN returning staff to work after only 6 days when the CDC says a person should quarantine for 14 days after an exposure. Now how many staff and inmates have been exposed to this officer that should not have been returned to work. Why is the department putting our lives and the lives of our loved ones at risk. How many other staff members have been returned to work ahead of CDC guidelines. I just truly hope we don't lose a staff member to this virus because the department is not doing everything it can to prevent this spread. It really feels like the department is gambling with our lives with the hopes that we don't bring it in. If one of our staff does die I know my conscience will be clear because I am doing everything I can to help minimize this spread.

Subject: KN 95
To: Lance Hetmer <lhetermer@azadc.gov>, Frank Strada <fstrada@azadc.gov>

Good Evening DD Strada and AD Hetmer,

I was informed by OSC Kriebel from Eyman that [REDACTED] from Eyman is requesting the fit testing video from Eyman depicting the failure of a KN 95 mask to successfully pass particulate filtration and create a successful seal.

This was what prompted us to recertify the reported failure and ultimately make the determination to cease issuance of the recently purchased KN 95's from Galls.

Here are the steps this agency had taken after learning of the KN 95 performance issues.

I called the Wardens in Tucson, Florence, and Eyman yesterday to not issue the recently shipped masks to them.

There are no masks that were used in the field from this stock.

I met with the yesterday and again this morning to have him reverify the field fit testing results obtained.

I also met with Ken to inform him to contact the vendor and inform them the KN95 they sold us were not passing fit testing.

AD Hetmer also sent an email to the field in addition to informing the Warden's at this morning's polycom of the problem encountered.

We are in the process of gathering the lot numbers to attach to the vendor deficiency we are generating. This task will be completed by noon tomorrow.

I will personally speak with the vendor tomorrow and express the performance concerns of their product followed by a written letter from my office reiterating the same content.

Let me know if you want me to do anything else.

Ed,

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you on the three most salient COVID-19 issues that the Department is currently addressing:

- [COVID-19 FAQs](#) have been updated on our website. New sections include questions about shelters, schools, serology (antibody) testing, and others.
- We continue to publish COVID-19 information for clinicians through [IDAZ](#), our app for clinical partners, one of many mechanisms we utilize to communicate with various groups.
- Our [EMS webpage](#) has been updated with additional information and guidance for EMS providers.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. A significant update to the dashboard will launch this Sunday, April 12, which will provide additional information about COVID cases in Arizona and situational awareness about healthcare facility capacity.

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you on the three most salient COVID-19 issues that the Department is currently addressing:

- We will be partnering with the University of Arizona as they conduct additional exploration into the possibility of serologic testing (antibody testing) as a potential tool for diagnosis or identification of immunity to COVID-19 in the future. [This partnership](#) will include testing of healthcare workers and first responders to provide better insight into the best interpretation of serologic test results.
- Today Governor Ducey signed an [executive order](#) allowing for the release of addresses of confirmed COVID-19 cases to public officials with the responsibility of administering the emergency call response of first responders. ADHS is working with local health departments on implementation of this order.
- ADHS continues to work on enhancements to our [data dashboard](#). As of today, data from the zip code map on the dashboard can be downloaded into an Excel file for additional analysis for those interested. Future enhancements to the dashboard will include information about hospitalization status, underlying health conditions, and outbreaks.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. A significant update to the dashboard will launch this Sunday, April 12, which will provide additional information about COVID cases in Arizona and situational awareness about healthcare facility capacity.

From: [REDACTED]
To: [David Shinn](#)
Subject: Face masks/Covers
Date: Tuesday, April 14, 2020 12:00:26 PM

Good afternoon,

I had a quick question. Here at lewis complex to be more exact at [REDACTED] unit there has been a directive that staff is being mandated to wear a face cover at all times. The CDC has not made it a requirement in the state of Arizona to be forced or have to wear a face mask or cover. The state prison is part of the state of Arizona. My question is has there been a directive from the governors to your office that all staff in DOC is being mandated and required to wear the face mask or cover during the entirety of their shift.

Thank you,

Respectfully

Good morning!

ACJC is the agency that will distribute the U.S. Department of Justice's Coronavirus Emergency Supplemental Funding in the State of Arizona. Potential recipients must respond to ACJC's electronic survey by COB Thursday. I am coordinating the response. With apologies for the quick turnaround, I request that you reply with information to the following survey questions by **1:00 pm tomorrow, April 15.**

This is an electronic survey, so answers should be concise. Please reach out if you need any assistance or clarification.

N. Twyford:

- 1) What is your short-term, immediate approach to deal with COVID-19 issues?
- 2) What potential service demands related to COVID-19 issues do you anticipate?
- 3) What is your long-term approach to deal with COVID-19 issues?
- 4) What tools can increase the effectiveness of communication channels dealing with COVID-19 issues with neighboring jurisdictions and response partners?

L. Hetmer and J. Bogert:

- 1) What are your short- and long-term approaches to addressing absenteeism and staffing issues due to COVID-19 issues within your agency/department?

K. Sanchez:

What are your top 5 needs to effectively respond to COVID-19? Please rank the following items from 1 (greatest need) to 5.
Hand sanitizer

Hand soap
Cost of comprehensive cleaning of facilities
Video conferencing equipment
Disposable examination gloves
Disposable isolation gown or single-use/disposable coveralls
NIOSH-approved particulate respirator (i.e., N-95 or higher-level respirator)
Facemasks/shields
Eye protection (goggles)
Disinfectant spray or wipes
Costs associated with containment and disposal of PPE
Laundry services
COVID-19 testing kits

Sincerely,

DeeAnn Brewer
Budget and Grants Manager

Good evening,

I am writing on behalf of my son Inmate [REDACTED] # [REDACTED]

My son advised me today he was required to sign a refusal letter for physical therapy treatment. It should be noted the reason he refused treatment last week was due to the severe migraine he was suffering at the time and because I have told him to postpone the physical therapy until the all clear is given reference the COVID-19 virus.

I do not know if he was able to get an inmate to relay this information to a Correction Officer for him.

Today he did not attend physical therapy because I have told him to request the postponement of the therapy due to exposure of the COVID-19. I do not see the reward versus the risk to attend 10 minutes of physical therapy at L-11 Infirmary where there are other inmates sick and possibly with the virus which has gone undetected due to lack of testing.

My son's immune system has already been compromised due to his [REDACTED] and he has a history of [REDACTED]. If he contracts the COVID-19 it would be a death sentence for him.

He is concerned of being exposed to the virus. I have instructed him to wash his hands and not to touch his face. I have also instructed him to keep his distance from other inmates and Correction Officers.

I hope in accordance with the CDC guidance DOC is not transferring inmates in and out of the SMI pod taking the chance of exposing those inmates to the virus.

The physical therapy can continue once the quarantine and shelter in place guidelines have been lifted by the Centers for Disease Control and Prevention, and Governor Ducey.

Thank You

Mr. Shinn:

If you read the below email stream from the bottom upward, you can see the frustration that is building among the loved ones of inmates, as well as the inmates themselves, that even simple and clearly obvious opportunities to sanitize or clean items repeatedly used on multiple inmates are not being taken. Despite public claims that the Department is taking "every measure" to insure the safety of officers and inmates, the evidence is mounting that this is pure bunk.

One blatant example was posted by your own Department on the Twitter account on Easter Sunday. It showed a Pastor conducting a service for female inmates at the Hickman Egg Farm. The inmates were clustered close together while sitting on the ground -- two very obvious incidents of avoiding self-distancing (in one of the few circumstances where inmates actually can do so) and sitting on the ground (on which CORONA virus is known to survive for many hours).

How difficult would it be to have every officer carry a baggie full of sanitizing wipes in his pocket or on his belt in order to wipe off handcuffs between uses and then appropriately dispose of the wipes?

How difficult would it be to have every officer carry multiple sets of rubber gloves with him to change them each time he has to touch a potentially infected surface or perform a function such as a strip search?

Now that CDC and others are warning us that COVID 19 can remain on shoes for many hours, how can the Department justify having a single inmate sleep on the floor (mattress or not)? Why wouldn't Hickman Egg Farm provide CHAIRS for people to sit on (they could use the money they are saving on wages to purchase chairs if they don't already have them)?

How can you justify that showers are so unclean and unsanitary that some inmates are considering not taking showers at all in order to avoid the filth and unsanitary conditions? Where are the cleaning crews? Where are the monitors of the cleaning crews?

I already know you seem to be upset that you are not receiving "credit" for the "success" you've had so far in keeping the positive cases down to 8 (as of this writing). I know you believe that living in one of your institutions is currently one of the best places to be . . . And I know from your public comments that you believe the Department is well-prepared to deal with any type of communicable disease, even though the current one requires a battle with an airborne deadly killer that has no vaccine.

As you read the information below, make sure to note that there will be no toleration of any retaliation against the inmate mentioned in this email.

Donna Leone Hamm

Middle Ground Prison Reform

Middle Ground/Donna Hamm:

Yes, you have permission to pass this along. And you can add that prior to him being moved to a different cell this weekend - the CDU cell he previously was in has had 3 inmates in a 2-man cell for over a month with one of them sleeping on the floor.

Since COVID-19 started, they turned the Manzanita CDU into a "Quarantine Unit" and

shipped those CDU inmates to the main CDU. I imagine most of the cells in the main CDU have 3 inmates in them. [REDACTED] is due to be moved out of Tucson and has been waiting since the end of December in CDU. He was at Santa Rita Unit and it was so bad he refused a UA just to get a write up and get sent to CDU to get away from Santa Rita.

He couldn't stand it at Santa Rita, as inmates were destroying property in the day room (pouring water on the video game console so they couldn't play video games because the inmates wanted to watch TV) and nothing was done about it. Inmates stealing from other inmates and nothing was done about it. When they talked to him about the refusal, he volunteered to take a UA and it was clean. You can share the incident and let them know if he is retaliated against, I will be taking this further.

Thank you Donna!

Middle Ground:

I just wanted to provide some information regarding the lack of effort to keep the inmates in the Tucson CDU Unit safe.

My son, [REDACTED] ADC# [REDACTED] is currently in the CDU unit awaiting transfer to another location. The inmates are handcuffed any time they leave their cell. Handcuffs are not sanitized at all and showers are filthy. My son told me many of the inmates are talking about not going to showers and just cleaning up as best they can in their cells to avoid the filth and possible contamination in the showers.

When being transported to showers on Friday, April 10, my son, who has [REDACTED], (and is not receiving any medical treatment for it - that's another story) had used a piece of t-shirt to make a mask. Sergeant Tebow (not sure of the spelling) told him he was not allowed to cover his face at all. My son is trying to stay healthy so he questioned why the inmates could not take any precaution available to them. He asked for the Sgt.'s badge number (I have told him to let me know when things don't seem right there) and was not given the badge number but was moved by the Sgt the next day to another cell. My son was told he could request a mask from medical. On Saturday April 11 - my son wrote a kite to medical to request a mask. He was denied a mask because he does not go outside the prison.

He is now sleeping on the floor in a 2-man cell with 3 inmates housed in it. One of the inmates he is now housed with had just gotten to the unit from the hospital where he was taken for a head injury. The inmate who had returned from the hospital was told he would

be quarantined for 14 days after returning from the hospital but was quarantined less than a week and then sent to CDU.

I just wanted to pass this on to you as another example of how DOC is actually operating during this time.

If you have any questions please feel free to contact me.

Thank you,

(Redacted)

Subject: Proposal for medical services at the new Maricopa county intake
Date: Monday, April 13, 2020 7:41:23 PM

Good evening Director Shinn,

I want to update you per our conversation this morning. We are working with our corporate teams to start the proposal for medical services, staffing, supplies and equipment for the central quarantine facility at the new Maricopa county intake facility. I understand that there is a tentative tour scheduled for tomorrow. If we could accompany your team that would really help us dial in our proposal.

Thank you,
Tom

Subject: 4-13-20 ADHS COVID-19 MEMO
Date: Monday, April 13, 2020 4:51:47 PM

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you on the three most salient COVID-19 issues that the Department is currently addressing:

- - Yesterday, the ADHS COVID-19 data was enhanced to provide additional information. This included additional demographic information for [cases and fatalities](#), a zip code map of known cases, and [more information on hospital status](#) and bed utilization. Dr. Christ published [a blog](#) yesterday regarding this data. We've had a few questions about the data I want to address here:
 - Data is not reported in all zip codes, specifically, zip codes that are composed of at least 50% tribal lands. ADHS is working with the tribes to gain approval to publish this data.
 - There is a large percentage of unknown race/ethnicity data. Confirmed cases are reported to ADHS via laboratory reports, which do not generally contain this data. When the county health departments follow up with cases, they may ascertain race/ethnicity data, which is what populates this section of the dashboard.
 - This new data tells us that there is COVID-19 throughout Arizona. We urge all Arizonans to continue taking appropriate precautions by staying home when possible, except to conduct essential business.
- ADHS recently published [guidance for non-emergency medical transport providers](#) that provides information about appropriate PPE and vehicle decontamination. These transport providers are critical to ensuring many residents who can't drive are still able to access needed healthcare services like dialysis and chemotherapy.
- Late Friday, Arizona was informed of a shipment of 100 ventilators from the federal

strategic national stockpile intended for distribution to serve tribal residents. ADHS is working to query tribal healthcare facilities to determine a distribution plan of ventilators for facilities in need who are able to staff this equipment.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. A significant update to the dashboard will launch this Sunday, April 12, which will provide additional information about COVID cases in Arizona and situational awareness about healthcare facility capacity.

To: Lance Hetmer <lhetermer@azadc.gov>

Information for PM shift:

- Central Unit staff scheduled to work the hospitals have been backfilled with staff from other units.
- Fit testing of N95 masks continued for the PM shifts and 36 were completed. Testing will resume 4/12/2020 at 0500 hours.
- Capt Rubio and COIV Castorena walked and talked with the staff about proper cleaning procedures and the proper use of PPE. All staff are wearing N95 masks and have been fit tested for PM Front.
- Staff morale is good due to good staffing levels tonight but expressed concern about their peers' positive COVID-19 results.
- [REDACTED] EIN [REDACTED] (PM Front) notified [REDACTED] of a positive test for COVID-19. This information has not yet been verified by the OHN.
- CB2 showers were completed.
- PM supervisors continued to walk and talk to the inmate population. A few inmates commented on being a little restless about the movement restrictions in CB2, CB3, & CB7.
- Inmate [REDACTED] from CB4 with flu-like symptoms (fever & coughing) transported to Kasson 3B and isolated.

Lt Rippey's report:

- Kitchen has 12 inmates working from CB5 DR cleaning crew.
- Inmates are given cleaning supplies as requested. Cleaning provided at showers for inmates to clean after use. Showers left for shift were CB2 16, CB3 8, CB4 3, and CB5 with 13 this includes kitchen workers.
- All cell blocks have been fed in house Styrofoam (Hot dinner) no issues

- Inmates medical temperature checks are being conducted in CB2 and CB7, Kasson 3BL with CB3 to follow.
- Medication was delivered to the building with a staff escort.
- Supervisors are walking and talking with staff about proper PPE.
- Staff are keeping social distancing.
- Staff morale is good on the yard.
- All staff are wearing N95 masks and have been fit tested for AM Front to include Kitchen workers.
- Mail was picked up and Legal mail already delivered.
- Staff assigned to CB7, CB3, CB2 and Kasson are the same staff that were assigned the previous day. Non essential/non posted staff are not entering these buildings. All staff are being logged in the journal
- One inmate from CB7 placed on a continuous watch at Kasson ([REDACTED])
- PM supervisors will continue to walk and talk to the inmate population.
- Inmates medical temperature checks completed with these inmates refusing to have temperatures taken ([REDACTED]). The rest taken with no further evaluation needed.

Subject: Positive COVID 19 inmates
Date: Saturday, April 11, 2020 11:16:47 AM

Gentlemen and Ma'am it has been brought to my attention that 2 inmates were transferred to SMU from Florence on Tuesday. The inmates were not wearing masks and the escorting officers only had gloves on. One of the escorting officers was cross leveled from Cook unit to SMU for the day. The Cook unit officer then went back to work at Cook unit in Wednesday, Thursday and Friday. Friday evening this officer received a phone call from complex administration who informed him that the 2 inmates had tested positive for Covid 19. Why are we transporting inmates that are either positive or potentially positive with no masks. The officer were not provided proper PPE. Also there was an ICS in the quarantine pod at SMU which required several officers to respond. There was not enough PPE for the officers so they had to go in with out being protected. This department has to do better at protecting its staff. The officer that was cross leveled has had contact with hundreds of inmates at Cook unit and several officers at both SMU and Cook unit. We feel like we are being failed by our leadership.

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you on the three most salient COVID-19 issues that the Department is currently addressing:

- Today, ADHS met with long term care and residential facility partners to provide recommendations for implementing [Governor Ducey's recent executive order](#) strengthening protections for residents in these facilities. We also provided guidance for complying with the reporting requirements under the executive order, which will provide public health with additional data to more effectively respond to COVID-19.
- ADHS continues to update guidance and recommendations for various groups. Recent guidance updates include dental care (bottom of the [healthcare worker webpage](#)), the [laboratory testing matrix](#), [guidance for funeral attendees](#), cloth face covering guidance (on the top of the [ADHS homepage](#) and within the [COVID-19 FAQs](#)).
- ADHS meets regularly with various partner organizations to share information, listen to feedback, and maintain a coordinated response. Weekly calls include partners like local and tribal health partners, the Arizona Medical Association, and hospital leaders.

The link below provides the most up-to-date health surveillance figures regarding COVID-19 in Arizona. A significant update to the dashboard will launch this Sunday, April 12, which will provide additional information about COVID cases in Arizona and situational awareness about healthcare facility capacity.

Subject: [REDACTED] ADC [REDACTED] Safford Tonto Unit

Hi Donna,

[REDACTED] called me Wednesday April 8th 2019 to let me know that he has been throwing up blood, feeling dizzy, pain in his stomach, weak and with temperature for the past 2 days. Today Thursday April 9th at noon I received another call from [REDACTED] letting me know that he had just got back from the ER in Safford and Dr Branch is the one that checked him. They took him to the ER because the medical team in Tonto unit could not figure out why he was throwing up blood around 3:00 am and had pain in his stomach, weakness, shaky and with temperature. At the ER they checked his vitals and did a rectal examination to make sure there was no blood. As a result he was told that there was no blood detected on the rectal exam they did on him and they also didn't know why he was throwing up blood. He was told since he was not in a dying situation that was all that they could do for him and send him back. ([REDACTED] told me that the ER they did not do a scope exam or a ultrasound to find out where the bleeding is actually coming from.) He was recommended to see a Ear & Throat Specialist so they can do further testing. The Doctor told him they will check back

with him on Monday to see how he is doing.

I got another call from him again today Thursday 9th at 5:47 pm letting me know that he was having the same symptoms again from last night — pain in his stomach, feeling weak, dizzy and some temperature. Today would be the third day with [REDACTED] having the same symptoms and with no answer as to what is happening to him. Please help us get him the adequate medical attention he needs .

[REDACTED]

This email had 2 purposes . The first purpose is to make a formal statement , and bring to your Awareness that my husband [REDACTED] whom is incarcerated at the Eyman facility in Florence, AZ with only 100 days left. He suffers from [REDACTED] an underlying disease according to the CDC that makes him very vulnerable to contracting COVID-19 and upon contacting this deadly virus there is little chance of survival for anyone with his same circumstances. I'm in constant communication with him and the inmates are not being given any masks for protection from the deadly virus, that the CDC recommends everyone to wear v meals upon leaving there residents. He also works in the prison as a [REDACTED] , which makes it necessary for him to make constant contact with the belonging of others that could at any point be infected with covid -19 and therefore cause him to become very sick and could very well die especially if his life is dependent on adcurr. He is not being given the option to use ppe for his underlying disease or for his job at the prison. If ADCRR does not want to follow the recommendations of the CDC or want to practice following the laws that protect prisoners from illegal practices then continue on your same path. it is impossible to social assistance in his living quarters The US Centers for Disease Control and Prevention warn that people 65 and older and people with underlying medical conditions are [particularly at risk of severe illness from COVID-19](#). About 10,000 [individuals over the age of 60 are in Bureau custody](#) and about a third of people in Bureau custody have what Barr called “pre-existing conditions.”

Recommendations:

Government agencies with authority over people housed in prisons, jails, and immigration detention centers should consider reducing their populations through appropriate supervised or early release of low-risk category of detainees including for example, those whose scheduled release may be soon, those who are in pre-trial detention for non-violent and lesser offenses, or whose continued detention is similarly unnecessary or not justified. Detained individuals at high risk of suffering serious effects from the virus, such as [older people and people with underlying health conditions](#), should also be considered for similar release with regard to whether the detention facility has the capacity to protect their health, including guaranteed access to treatment, and taking into consideration factors such as the gravity of the crime committed and time served.

If safe and legal deportations are suspended due to the virus, the legal justification for detaining people pending

deportation may no longer exist. In these cases, authorities should release detainees and institute alternatives to detention.

Authorities that operate prisons, jails, and immigration detention centers should publicly disclose their plans of action to reduce the risk of coronavirus infection in their facilities and the steps they will take to contain the infection and protect prisoners, prison staff, and visitors, if cases of the virus or exposure to it are present. Persons in any form of detention have the same right to health as the non-incarcerated population and are entitled to the same standards of prevention and treatment. The detained population and the general population have a compelling interest to know in advance what plans authorities have put in place for handling COVID-19.

Authorities should take steps to ensure they are appropriately coordinating with public health departments and communicating openly with staff and people in custody. They should also screen and test for COVID-19 according to the most recent recommendations of health authorities. They should provide appropriate hygiene training and supplies and ensure that all areas susceptible to harboring the virus and accessible to prisoners, prison staff, and visitors, are disinfected regularly, consistent with accepted best practices. They should develop plans for housing people exposed to or infected with the virus. They should ensure that individuals released or put on supervised leave have access to appropriate accommodations and health care. Any plans for lockdowns or isolation should be limited in scope and duration based on the best science available, and they should not be or seem punitive, as fear of being placed in lockdowns or isolation could delay people notifying medical staff if they experience symptoms of infection. Detention centers should consider alternative strategies such as video conferencing for individuals to be able to connect with family or legal counsel. Under

the [International Covenant on Economic, Social and Cultural Rights](#), which most countries have adopted, everyone has the right to “the highest attainable standard of physical and mental health.” Governments are obligated to take effective steps for the “prevention, treatment and control of epidemic, endemic, occupational and other diseases.”

The United Nations Committee on Economic, Social and Cultural Rights, which monitors state compliance with the covenant, has [stated](#) that:

The right to health is closely related to and dependent upon the realization of other human rights, as contained in the International Bill of Rights, including the rights to food, housing, work, education, human dignity, life, non-discrimination, equality, the prohibition against torture, privacy, access to information, and the freedoms of association, assembly and movement. These and other rights and freedoms address integral components of the right to health.

The [right to health provides](#) that health facilities, goods, and services should be:

- available in sufficient quantity,
- accessible to everyone without discrimination, and affordable for all, even marginalized groups;
- acceptable, meaning respectful of medical ethics and culturally appropriate; and
- scientifically and medically appropriate and of good quality.

The [Siracusa Principles](#), adopted by the UN Economic and Social Council in 1984, and UN Human Rights Committee general comments on [states of emergency](#) and [freedom of movement](#) provide authoritative guidance on government responses that restrict human rights for reasons of public health or national emergency. Any measures taken to protect the population that limit people’s rights and freedoms must be lawful, necessary, and proportionate. States of emergency need to be limited in duration and any curtailment of rights

needs to take into consideration the disproportionate impact on specific populations or marginalized groups.

On March 16, 2020, a [group of UN human rights experts](#) said that “emergency declarations based on the COVID-19 outbreak should not be used as a basis to target particular groups, minorities, or individuals. It should not function as a cover for repressive action under the guise of protecting health... and should not be used simply to quash dissent.”

The Siracusa Principles specifically state that restrictions should, at a minimum, be:

- provided for and carried out in accordance with the law;
 - directed toward a legitimate objective of general interest;
 - strictly necessary in a democratic society to achieve the objective;
 - the least intrusive and restrictive available to reach the objective;
 - based on scientific evidence and neither arbitrary nor discriminatory in application; and
 - of limited duration, respectful of human dignity, and subject to review.
- This is not my first email nor will it be my last until my husband's life and health is not being minimized and he is being treated with the common decency and his rights are no longer being violated , I will not stop.
- Thank You for your time [redacted] phone [redacted] email address [redacted]

Senators and Representatives,

Thank you for your continued support and partnership in helping the Arizona Department of Health Services (Department) address COVID-19 in Arizona. In the continuing spirit of transparency and collaboration, the Department would like to inform you on the three most salient COVID-19 issues that the Department is currently addressing:

- ADHS met with airports and airlines to discuss implementation of Governor Ducey's [executive order](#) regarding quarantine of travelers from areas with substantial spread. Information will be provided to travelers by the airlines and is posted within the relevant Sky Harbor terminals. Additional information is available on the [COVID-19 Travel website](#).
- ADHS was awarded \$4.5 million in additional funding from the Centers for Disease Control and Prevention through our existing Public Health Emergency Preparedness (PHEP) Crisis Cooperative Cooperative Agreement to support state and local public health response to COVID-19. A proportion (63%) of the funding will be allocated to counties and tribes through existing contracts. In total, CDC has awarded \$16.2 million to the state for the public health response to date. Information about the awards is available on the [HHS website](#).
- ADHS convened a meeting with hospitals today to review the updated reporting requirements in [Governor Ducey's Executive Order 2020-23](#). Reporting elements will include the number of COVID cases or suspect cases hospitalized, within the ICU, on ventilators, intubated, and discharged as well as more detailed reporting on daily utilization of PPE. The EMResource reporting system toolkit was updated to include this information and will be shared with hospitals.

Subject: FW: Follow/up email re: out of soap@ ASPCTucson
Date: Thursday, April 9, 2020 10:25:38 AM

Mr. Shinn:

The below information presents a disturbing picture that, unfortunately, is being repeated to me from several sources, none of whom know each other, and includes reports of "no soap" from different prison units and complexes throughout the state.

The below information relates to Tucson/Whetstone, but I am getting reports from Lewis, Perryville and Eyman Complexes that inmates are not getting soap when they ask for it or they are being advised "we have no soap."

Under the circumstances, this is a deplorable situation and completely unacceptable, especially since the Department continues to assure the public that all appropriate measures are being taken within the correctional institutions to provide opportunities for inmates to clean themselves (hands) and their living areas/surfaces. There are just too many independent reports from various individuals that this is simply not true.

I would strongly urge you to become personally involved in resolution of this very dangerous, but simple-to-fix problem. Order more soap. Pass it around freely. Keep adequate supplies on hand to readily replenish what is being used.

Your immediate attention would be appreciated.

Sent: Thursday, April 9, 2020 9:38 AM
To: middlegroundprisonreform@msn.com
Subject: Follow/up email re: out of soap@ ASP Tucson

This is a follow/up to a phone call yesterday 3/8/2020, reporting that my son informed me that the Complex Warden came into their pod on the Tucson Whetstone unit & told them they had no soap. Details of this follows.

Date & time: Tuesday, 4/7/2020 at 9:30am

Complex Warden Josesowicz came to my son's pod wearing a mask at the above date & time. . The Warden said they were out of soap & they working on getting more soap & when it comes in to let the inmates who need it to get it first. He had no idea when it would be here. He also said that absolutely no inmates are to wear masks. The employees will wear masks. He then discussed other subjects not related to soap.

Per my son, the last time inmates were provided a bar of soap, slightly larger than a hotel size bar, a was a little over a week ago.

The inmates need soap to wash 20 seconds to help decrease the spread of COVID-19.

Thank you .

Importance: High

Dave Shinn, Director

I have a son at Florence North Unit who has sever asthma and being afflicted with the Virus would not end well. I've suggested he purchase a mask at the facility if any are available.

This morning I read an article in the Idaho News about inmates making masks for themselves and staff and am inquiring if this warrants consideration at your facilities to help protect the prison population.

Testing for at risk individuals is a tremendous concern. I will continue to review the updates posted to the AZDOC webpage.

Thank you for receiving my comments.

Good evening Officer Ryan,
I want to share this directive we as Correctional Professional are to follow during this incident.
Uniformed staff need to wear a face cover/ face mask that does not distract from the uniform and nothing offensive to the public.
If staff wear civilian clothes to work the face cover/ face mask should be professional in appearance and nothing offensive to the public,
I want to thank you for seeking clarification to the direction. I will continue to be available if you should have any questions or concerns.

Thank you again for your time.

Subject: CDC Guidance - Staff Protective Masks (Non-medical)
Date: Friday, April 3, 2020 8:50:30 AM

All,

We have just been notified of the impending direction CDC will be issuing recommendations for people to wear a **non-medical** mask (non-PPE) upon leaving home to prevent transmission of COVID-019 while conducting essential business which includes our statewide institutions. We will continue to prioritize medical masks for healthcare workers and our employees in direct contact with individuals who exhibit active flu-like or COVID-19 symptoms, but are recommending individuals wear a basic cloth or fabric mask that can be washed or reused. Based on this direction, we rely upon the business appropriate non-offensive coverings you may utilize. All employees must remove these masks temporarily when entering or exiting our Complexes or at any other time positive identification is necessary.

This direction is effective today, as it can be practically implemented. This will further reduce the potential transmission exposure our staff presents to the inmate population while entering and exiting our institutions. ADCRR will continue to evaluate the ongoing dynamics of COVID-19, the direction of CDC and ever changing guidelines, and continue to keep our employees safe and informed.

Sincerely,

Office of the Director

COVID-19 Update: No Cost for COVID-19 Treatment

Dear State of Arizona Benefit Options Health Plan Member,

In continuing support of the Governor's efforts to proactively address the COVID-19 pandemic, the State of Arizona's Benefits Services Division is offering you and your covered dependents expanded coverage for COVID-19 services at no cost. **Your health care plan will now pay for the treatment of COVID-19 at in-network facilities and providers.**

What This Means

- For a COVID-19 diagnosis, there will be no deductible, copays or coinsurance for:
 - Testing at in-network or out-of-network facilities.
 - Treatment at in-network facilities and providers. For example, if you have to get treatment at an in-network hospital, you will be covered at no cost.

This includes the EPO, PPO and HDHP plans with all carriers.

- This includes [telemedicine](#) services.
- Effective immediately through June 1, 2020.

Questions About Your Benefits?

Contact a Benefit Options representative by phone 602-542-5008, toll-free 1-800-304-3687, by email benefitsissues@azdoa.gov or visit benefitoptions.az.gov.

The Employee Assistance Program

You may feel anxiety or stress about COVID-19, and we want to remind you of the services of our Employee Assistance Program (EAP) called ComPsych. You and your family members can access these services by calling 1-877-327-2362 or visiting guidanceresources.com. Enter company code HN8876C to register.

[REDACTED] - it is important to understand I have never stated I or ADCRR are concerned with inmate perceptions of any response we utilize to include the appropriate utilization of PPE as the situation dictates. Others in our department who purport themselves to be experts, have made statements on what their personal belief is (on my rationale) for our present level of PPE utilization. Despite my direct (face to face) and consistent answer to their question, they incorrectly have made false statements. I continue to clearly state the same basic principle we utilize in making tactical decisions for all threats ranging from infectious disease to an emergency tactical event. Threat = Response. The THREAT presented by the situation equals our posture (RESPONSE). This basic formula applies to all situations including COVID-19. In situations where others panic, we as law enforcement officers must set our emotions aside, focus on the threat, and respond accordingly. We have provided clear direction on what level of PPE is appropriate and utilization procedures for all staff on our intranet web page. If the threat level changes, I assure you we will adjust our posture accordingly. I appreciate you asking this question and the opportunity to respond. Take care and stay safe. -ds

Director

Here is my frustration and concerns with your current ask of Sheriffs,

By law Sheriffs have to furnish Court paperwork outline charge type and sentencing. In addition we have to provide per A.R.S. 31-132 "Duty to deliver medical records". That document signed by certified medical personnel outline all required information that D.O.C. established.

Now under the guise of COVID 19 we are being told You DOC will not take custody of our prisoners due to concerns and quarantine.

How much sense/logic does that contain when said prisoners are in our custody for an average of four months prior to sentencing way before any outbreak occurred and incubation period? They are not sick and the medical papers clearly state that.

The "coincidence" to me is concerning that this "new procedure" is put in place immediately after a Number of Sheriffs were not interested in housing DOC inmates due to Florence being closed down.

I have attached the documents above for your reference.

Process for submitting prisoner to the Arizona Department of Corrections for transfer:

- Once prisoner is sentenced to serve a term of sentence at the Arizona Department of Correction, his/her name will be put on the DOC log sheet in Outer Transport. This includes the name, date sentenced, charge(s) sentenced and sentence length.
- An e-mail will be sent to Yuma DOC records the day prior to transferring prisoners to them with an estimated time of arrival. The e-mail will state if any prisoners are Protective Custody or Sex Offenders.
- All prisoners on the DOC log sheet will be reviewed to ensure they have no other pending cases that will prevent them from being transferred to DOC. If any cases are pending, the court will be contacted to see if the prisoner can be seen to have the matter taken care of.
- Once it is confirmed the prisoner can be transferred to DOC, they will be put on the DOC Submittal sheet that includes the following:
 - Name
 - Date of Birth
 - Sentence Date
 - Sentence charge and ARS Statute
 - Sentence length and credit
 - Arizona State Identification Number(SID)
- The completed DOC Submittal sheet is forwarded to the warrants department via e-mail. They will ensure the prisoner has no outstanding warrants and will send a teletype to Arizona Department of Corrections Central Office advising them of the prisoners that are to be transferred. AZ DOC Central Office will send an authorization allowing the prisoners to be transferred. Once received a copy will be forwarded to Maricela Aguirre for billing purposes. A copy will be kept in Outer Transport as well.
- Yuma County Adult Probation will be sent an e-mail with the name and case number of all prisoners that are to be transferred to DOC to request probation packets. They will usually reply when the packets are ready to be picked up. Packets will be picked up by an Outer Transport officer at Probation.
- Another e-mail will be sent to Yuma DOC records with a list of prisoners to be transferred to them. This list will include name, date of birth, and date of sentence.
- Sentencing documents will be reviewed and if any are missing they will be requested from Superior Court.
- Admitting file will be reviewed to ensure all correct sentence information was entered into the MSP system and updated as needed.
- Itinerary will be prepared with names of prisoners to be transported as well as officers that will be transporting them. Four copies will be made and a copy will be given to Medical, Admitting, and Master Control. A copy will also be left in Outer Transport.
- Inmate Property Disposition form will be prepared and taken to each prisoner to be transferred for them to fill out.
- Once Probation packets are received, DOC packet will be put together. The packet will include three sentencing documents with Superior Court seals and the Probation packet. Money sign-off sheet will be placed on top.
- E-mail of DOC transfers will be sent to jail staff.

On the day of transfer:

- Admitting will have all Medical transfer envelopes ready with the Admitting file. If the prisoner has any funds in the account, then a check will be printed. The check number will be written on the Money sign-off sheet. The transporting officer will sign the Admitting file.
- Once inmates arrive to Yuma DOC, they will be checked at the gate by a Sergeant. The Sergeant will ensure the prisoners being transported are the same ones on the list submitted to records the day prior.
- Once cleared to enter, the prisoners will be taken to Dakota Unit. The prisoner packets will be given to the receiving officer at Dakota Unit. This will include the three sentencing documents, probation packet, medical transfer, check if applicable, and the prisoner ID. Once they review all documents, the receiving officer from DOC will sign the Money Sign-off sheet.

Director...

since we haven't recieved any response from any of our past communications concerning the wearing of the N95 mask directed to you or the governor, perhaps we can get clarification on this one here.

Social media is an important part of communication. In fact, the department is strict on what is posted on there, especially on Facebook, concerning official work related matters.

With that said, a Perryville Captain posted this last night on Facebook on a post concerning your take on wearing face masks.

According to her, staff can now wear masks if they purchase them with their own money.

Is this true?

Can we move forward and put this in writting please?

If not true, then this Captain and her willingness to spread a blatant lie should be addressed or we can will this on the news as well.

I have appended the comment for your perusal because staff are furious with the garbage she is putting out there.

Facebook is important for staff to vent, not put out wrong information,

PERSONAL PROTECTIVE EQUIPMENT

In the midst of the Covid-19 pandemic, the nation is facing a shortage of personal protective equipment (PPE). The following information will serve to inform and instruct our correctional staff

PROPER INDICATIONS AND USE OF PPE- with specific inmate, healthcare staff and officer focus
STRATEGIES TO EXTEND THE USE OF PPE- when faced with supply shortages
DON, DOFF AND DISPOSE PROCEDURES- assumes knowledge regarding proper HAND HYGIENE

Source:

Interim Guidance on Management of Coronavirus
Disease 2019 (COVID-19) in Correctional and
Detention Facilities

3/23/2020

PROPER INDICATIONS AND USE OF PPE

Inmate: apply mask to inmate if presenting with complaints of respiratory symptoms, then isolate and have medical personnel perform initial assessment. Inmate to remain masked until final disposition determined ie: back to GP vs transport into sick cohort for suspicion of viral respiratory illness.

Inmate: apply mask to asymptomatic inmate if being transported for reasons not related to Covid suspicion, for example ER Run for injury, pregnant patient to OB department.

Inmate: if quarantined in a cohort of other new intakes who are being held for observation before integrating into the general population and they are without symptoms or known exposure, not necessary to apply mask to inmate.

Inmate: if medical assessment results in suspected or confirmed Covid and inmate is placed into a cohort of patients with similar condition, no need to mask inmate, see recommendations for staff use of PPE. Within the cohorted pod

- Minimize movement of these patients- staff go to the patient, meals delivered to patient
- Ensure well-ventilated area with airflow directed from clean to contaminated
- Limit the number of staff providing care and the frequency of entering/exiting

Staff: apply mask, eye protection, gloves and gown when performing initial screening of new intakes, including Parole violators, that arrive from outlying county jails. **Officers** may do the same if in close, direct contact with this patient group. If brief contact and/or staying at a distance, then can opt to wear a mask only, especially if inside a crowded or poorly ventilated area.

Justification: CDC claims that healthcare staff do not need to wear PPE when they are in direct contact with patients who are asymptomatic, without known exposure to Covid-19 and are intentionally quarantined together before integrating into the general population. CDC also recommends that healthcare staff should wear mask, eye protection, gloves and gown when performing temperature checks or providing care to asymptomatic quarantined patients. It has become clear that not all inmates have been screened and/or isolated upon entry to the county jail system and there is overcrowding. MCSO has yet to begin screening staff that enter for work. Work furlough and other inmate work activities were just curtailed on 3/26/20 when it was declared that the level of community spread changed from "moderate" to "widespread". For this reason, the intake population is considered high risk for asymptomatic disease transmission. Healthcare staff and officers who are in close, prolonged contact with this population should be protected. The ability to extend the use of PPE if a staff member keeps their equipment on for long periods of time during a single shift when in contact with a closed group of patients, means that we will utilize less PPE overall than if we masked every patient and we would be directly protecting our workforce.

Staff: apply mask (N-95 if possible), eye protection, gloves and gown when providing care for confirmed or suspected Covid-19 cases. Same for **officers** if in direct contact such as entering the isolation pod or transporting a known or suspected Covid-19 patient. See comments regarding extended use of PPE below. *If officers are able to conduct their duties from a distance and with a barrier, such as through a viewing window or via camera monitor, then no PPE required BUT officer should have ability to rapidly access PPE in order to enter pod in the case of an emergency.*

Staff: apply gloves and gown/coverall when performing laundry service, food service cleanup or specialized deep cleaning of an area housing Covid-19 positive patients.

SUGGESTIONS FOR EXTENDED USE OF PPE

There are suggestions supported by the CDC for extending the use of PPE.

EYES:

- Re-usable is preferred over disposable
- Consider goggles or reusable face shields
- Staff working in a defined area with a specific cohort/population of patients can wear the eye protection continuously for repeated close patient encounters.
- Staff should refrain from touching protective eye equipment, if contaminated then must disinfect
 - Wash hands and apply gloves
 - Wipe inside of goggle or shield, then outside with disinfectant wipe or solution
 - Air dry
 - Wash hands

MEDICAL MASKS:

- Store mask supply in a secure area and distribute to staff in order to monitor proper utilization and par levels
- Staff working in a defined area with a specific cohort/population of patients can wear a mask for a prolonged period as long as mask does not become contaminated.
- Staff should make every effort to avoid touching mask and if they do, immediately wash hands
- If mask is removed for meal or bathroom break and reuse is intended
 - Staff should leave the patient care area when removing mask
 - Wash hands and remove mask *WITHOUT TOUCHING THE OUTSIDE!*
 - fold mask backwards with outside facing in and place in pocket or paper bag
 - when reapplying mask, wash hands, apply mask then wash hands

N-95 MASKS:

- Staff working in a defined area with a specific cohort/population of patients can wear their N-95 mask for a prolonged period as long as mask does not become contaminated.
- Staff should make every effort to avoid touching mask, if this happens then immediately wash hands
- Outside surface of mask can be protected from contamination by covering with a face shield or a washable cloth such as a bandana placed over it.
- Masks that are removed and intended for re-use should be hung in a breathable place or placed in a paper sack for storage until next use.

GOWNS:

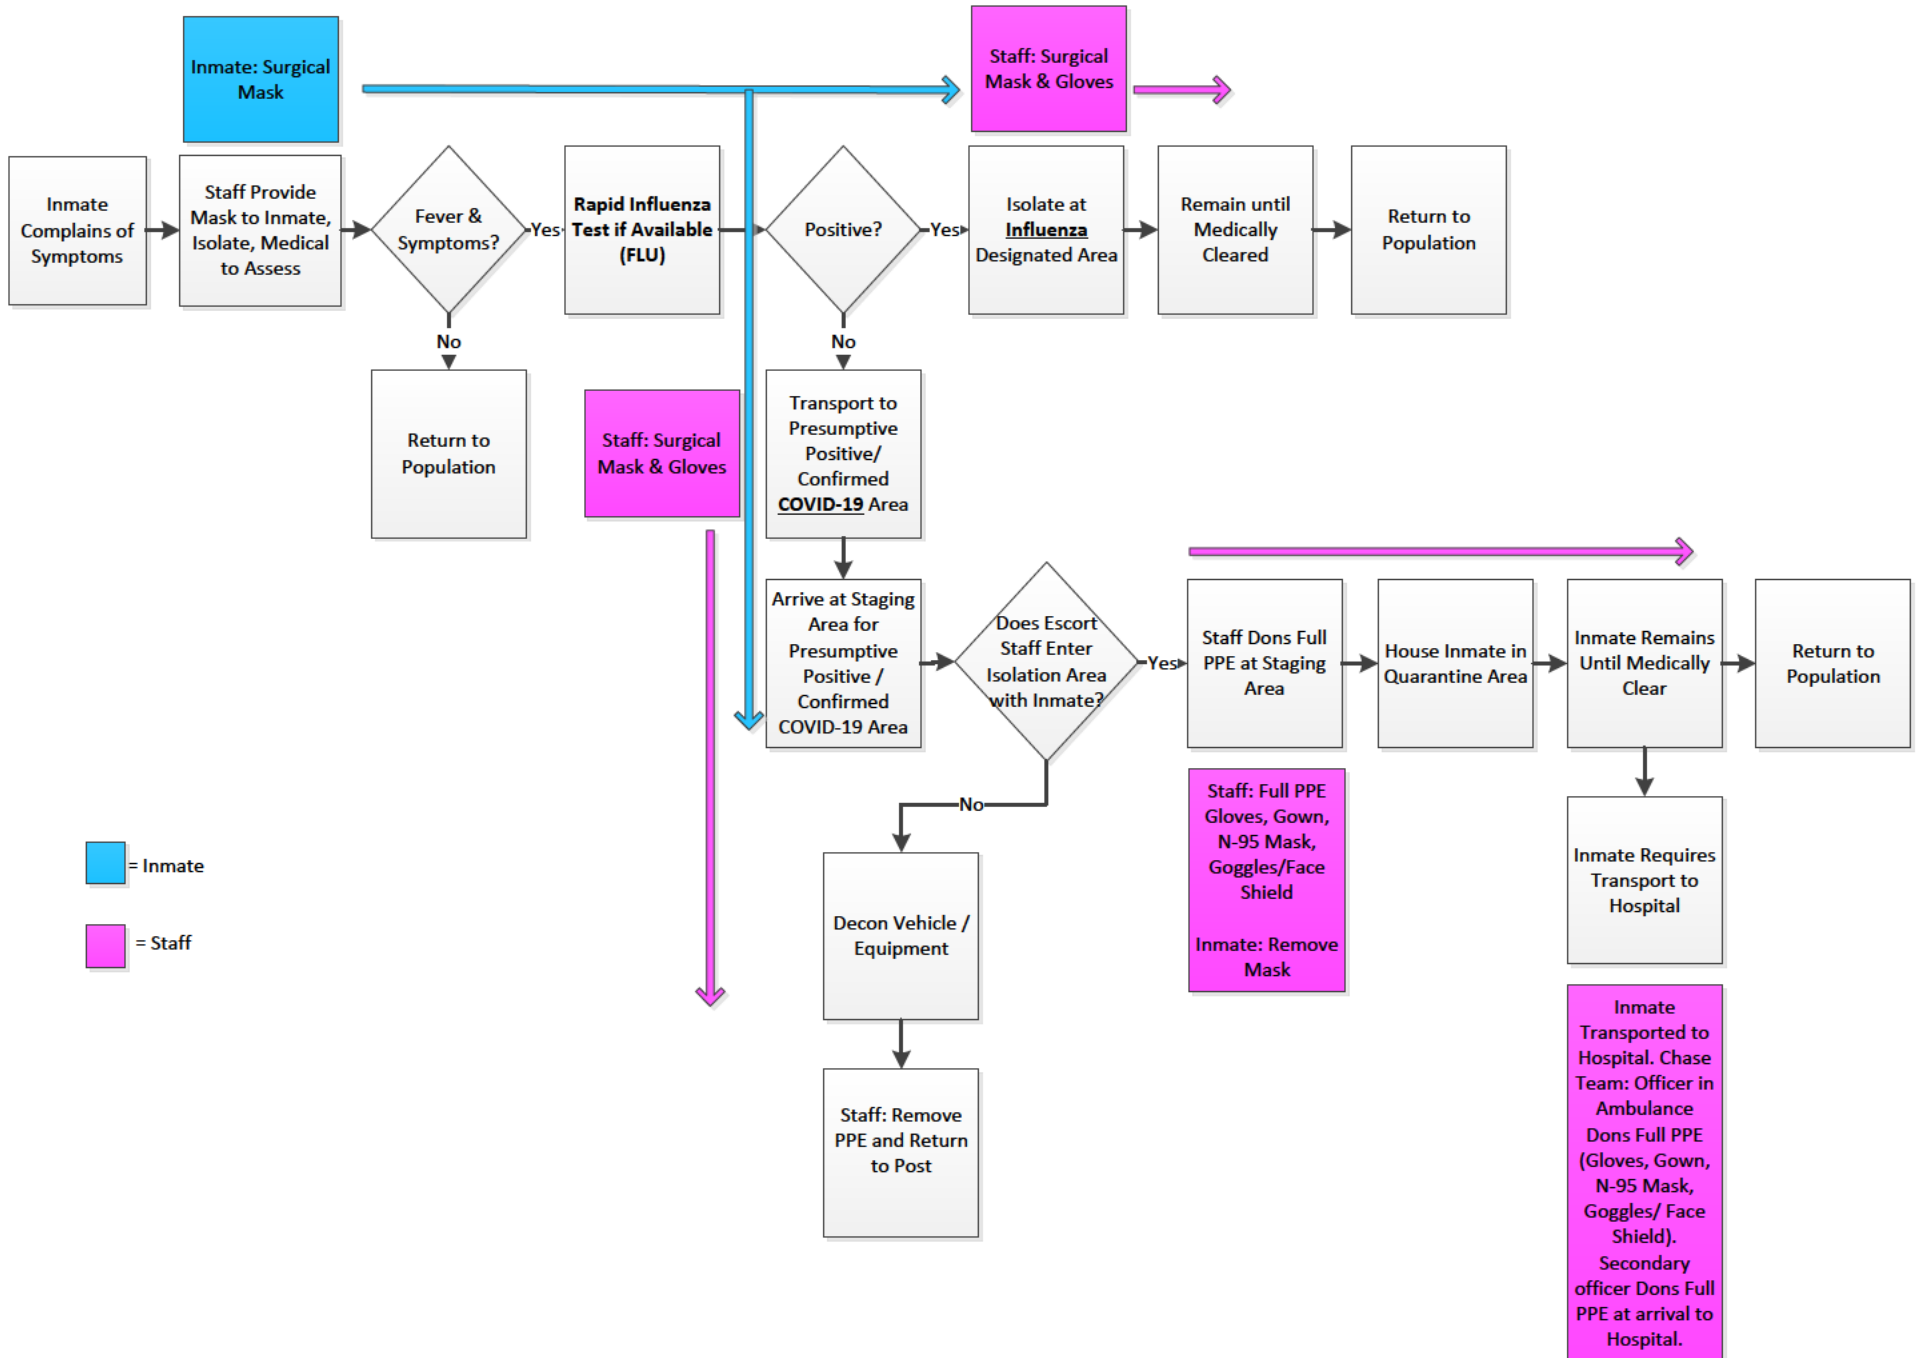

- Staff working in a defined area with a specific cohort/population of patients can wear a gown for a prolonged period
- Gowns that are reusable can be laundered if cotton or poly/cotton
- Gown alternatives could be disposable or rewashable lab coats, reusable washable patient gowns, disposable aprons or coveralls
- Follow proper removal of gown (see PPE Sequence documents)

GLOVES:

- Gloves are contaminated in the instance that a surface is touched, *do not touch face or face mask!*
- Remove and replace gloves when soiled or when leaving treatment area
- Remove gloves by turning the outside/contaminated side to the inside

--SEE NEXT DOCUMENT OUTLINING THE PROPER DOWNING, DOFFING AND DISPOSING OF PPE--

Staff & Inmate PPE Protocol

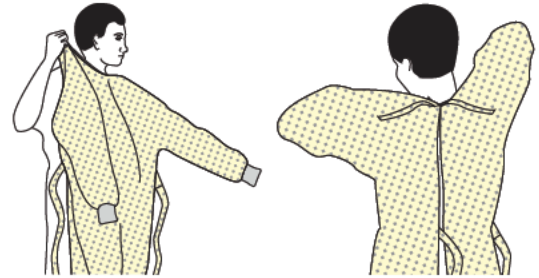

SEQUENCE FOR PUTTING ON PERSONAL PROTECTIVE EQUIPMENT (PPE)

The type of PPE used will vary based on the level of precautions required, such as standard and contact, droplet or airborne infection isolation precautions. The procedure for putting on and removing PPE should be tailored to the specific type of PPE.

1. GOWN

- Fully cover torso from neck to knees, arms to end of wrists, and wrap around the back
- Fasten in back of neck and waist

2. MASK OR RESPIRATOR

- Secure ties or elastic bands at middle of head and neck
- Fit flexible band to nose bridge
- Fit snug to face and below chin
- Fit-check respirator

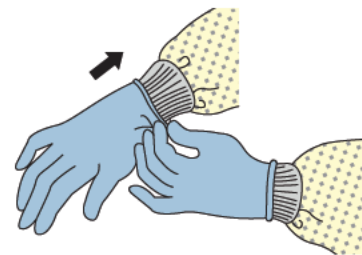

3. GOGGLES OR FACE SHIELD

- Place over face and eyes and adjust to fit

4. GLOVES

- Extend to cover wrist of isolation gown

USE SAFE WORK PRACTICES TO PROTECT YOURSELF AND LIMIT THE SPREAD OF CONTAMINATION

- Keep hands away from face
- Limit surfaces touched
- Change gloves when torn or heavily contaminated
- Perform hand hygiene

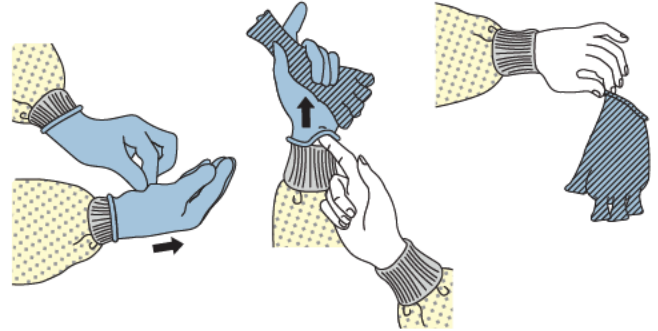

HOW TO SAFELY REMOVE PERSONAL PROTECTIVE EQUIPMENT (PPE)

EXAMPLE 1

There are a variety of ways to safely remove PPE without contaminating your clothing, skin, or mucous membranes with potentially infectious materials. Here is one example. **Remove all PPE before exiting the patient room** except a respirator, if worn. Remove the respirator **after** leaving the patient room and closing the door. Remove PPE in the following sequence:

1. GLOVES

- Outside of gloves are contaminated!
- If your hands get contaminated during glove removal, immediately wash your hands or use an alcohol-based hand sanitizer
- Using a gloved hand, grasp the palm area of the other gloved hand and peel off first glove
- Hold removed glove in gloved hand
- Slide fingers of ungloved hand under remaining glove at wrist and peel off second glove over first glove
- Discard gloves in a waste container

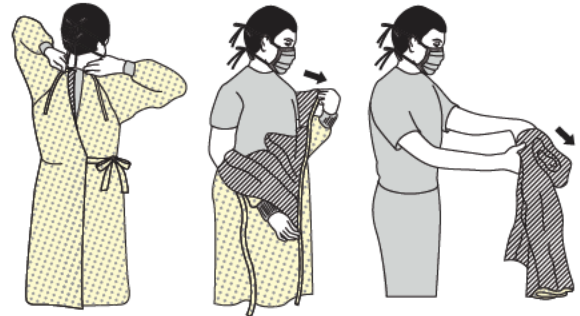

2. GOGGLES OR FACE SHIELD

- Outside of goggles or face shield are contaminated!
- If your hands get contaminated during goggle or face shield removal, immediately wash your hands or use an alcohol-based hand sanitizer
- Remove goggles or face shield from the back by lifting head band or ear pieces
- If the item is reusable, place in designated receptacle for reprocessing. Otherwise, discard in a waste container

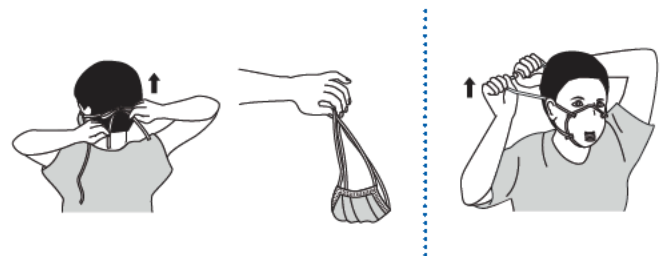

3. GOWN

- Gown front and sleeves are contaminated!
- If your hands get contaminated during gown removal, immediately wash your hands or use an alcohol-based hand sanitizer
- Unfasten gown ties, taking care that sleeves don't contact your body when reaching for ties
- Pull gown away from neck and shoulders, touching inside of gown only
- Turn gown inside out
- Fold or roll into a bundle and discard in a waste container

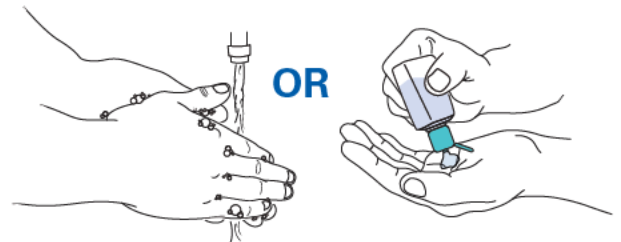

4. MASK OR RESPIRATOR

- Front of mask/respirator is contaminated — **DO NOT TOUCH!**
- If your hands get contaminated during mask/respirator removal, immediately wash your hands or use an alcohol-based hand sanitizer
- Grasp bottom ties or elastics of the mask/respirator, then the ones at the top, and remove without touching the front
- Discard in a waste container

5. WASH HANDS OR USE AN ALCOHOL-BASED HAND SANITIZER IMMEDIATELY AFTER REMOVING ALL PPE

PERFORM HAND HYGIENE BETWEEN STEPS IF HANDS BECOME CONTAMINATED AND IMMEDIATELY AFTER REMOVING ALL PPE

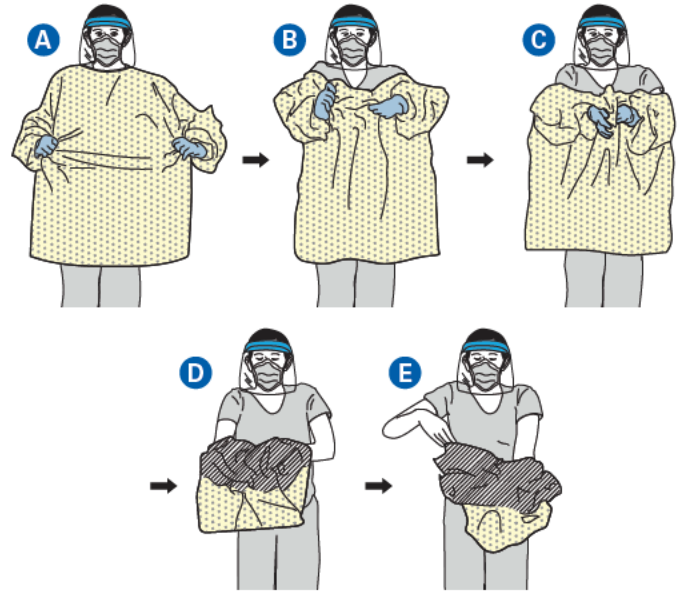

HOW TO SAFELY REMOVE PERSONAL PROTECTIVE EQUIPMENT (PPE) EXAMPLE 2

Here is another way to safely remove PPE without contaminating your clothing, skin, or mucous membranes with potentially infectious materials. **Remove all PPE before exiting the patient room** except a respirator, if worn. Remove the respirator **after** leaving the patient room and closing the door. Remove PPE in the following sequence:

1. GOWN AND GLOVES

- Gown front and sleeves and the outside of gloves are contaminated!
- If your hands get contaminated during gown or glove removal, immediately wash your hands or use an alcohol-based hand sanitizer
- Grasp the gown in the front and pull away from your body so that the ties break, touching outside of gown only with gloved hands
- While removing the gown, fold or roll the gown inside-out into a bundle
- As you are removing the gown, peel off your gloves at the same time, only touching the inside of the gloves and gown with your bare hands. Place the gown and gloves into a waste container

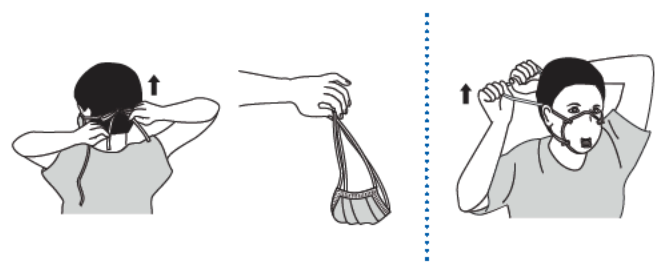

2. GOGGLES OR FACE SHIELD

- Outside of goggles or face shield are contaminated!
- If your hands get contaminated during goggle or face shield removal, immediately wash your hands or use an alcohol-based hand sanitizer
- Remove goggles or face shield from the back by lifting head band and without touching the front of the goggles or face shield
- If the item is reusable, place in designated receptacle for reprocessing. Otherwise, discard in a waste container

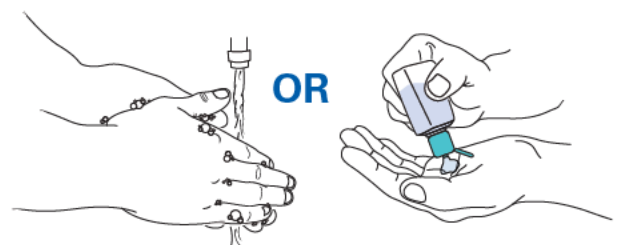

3. MASK OR RESPIRATOR

- Front of mask/respirator is contaminated — DO NOT TOUCH!
- If your hands get contaminated during mask/respirator removal, immediately wash your hands or use an alcohol-based hand sanitizer
- Grasp bottom ties or elastics of the mask/respirator, then the ones at the top, and remove without touching the front
- Discard in a waste container

4. WASH HANDS OR USE AN ALCOHOL-BASED HAND SANITIZER IMMEDIATELY AFTER REMOVING ALL PPE

PERFORM HAND HYGIENE BETWEEN STEPS IF HANDS BECOME CONTAMINATED AND IMMEDIATELY AFTER REMOVING ALL PPE

March 30, 2020

Director David Shinn
Department of Corrections, Rehabilitation and Reentry
1601 W. Jefferson St
Phoenix, AZ 85007

Dear Director Shinn,

We have been contacted by many of our constituents and stakeholders with concerns about the growing risk of an outbreak of COVID-19 in the Arizona prison network and the potential of such an outbreak to overwhelm Arizona's healthcare infrastructure and resources. The Department's COVID-19 Management Strategy Update of March 25, 2020 indicated that six symptomatic inmates have been tested for the virus, with results pending. Regardless of whether any of those inmates test positive, we must plan for the very real possibility that an outbreak could occur within one or more state prisons.

We are concerned by reports that 1) sick inmates are not receiving adequate medical attention, 2) that Arizona Department of Corrections, Rehabilitation and Reentry staff is not provided with masks, 3) that basic CDC recommendations on sanitation and social distancing are not being observed, 4) that inmates are not being provided adequate soap or toilet paper, and finally, 5) reports that the Department has been selling toilet paper, purchased for inmates, to its own employees at wholesale cost.

Health, Safety and Cleanliness of Prison facilities

Considering these reports in light of the risk of a growing pandemic, we have grave concerns about the basic health, cleanliness, and safety of the 42,000 inmates incarcerated within our state prison system. We request that you implement (or confirm that you have already implemented), the following basic precautions at the prisons you oversee:

1. Providing adequate soap and toilet paper to each inmate so they can adhere to CDC guidelines.
2. Providing all employees with hand sanitizer and masks.
3. Ensuring staggered access to the cafeteria and common spaces so detainees can remain six feet apart in adherence to CDC guidelines for social distancing.
4. The quarantine of all inmates who exhibit one or more symptoms identified by CDC as consistent with COVID-19 and warranting quarantine.

5. Providing detailed information to inmates and staff on best practices for social distancing, regular hand washing, as well as risk factors, preventative measures, ADCRR testing and treatment guidelines, and any changes regarding prison operations or policies related to the virus.
6. A plan for the conditions under which ADCRR will permit family members and or others to donate personal hygiene and cleaning products to inmates for use during this crisis.
7. Developing and sharing a COVID-19 health emergency plan that includes provisions for protecting staff and inmates should contagion within a prison become widespread requiring extensive quarantine procedures and the capacity to transfer prisoners to area hospitals for treatment should prison health facilities be unable to safely treat severely ill patients.

Inmate Furlough and Quarantine measures

We believe that an increased mortality rate is a likely consequence of a widespread COVID-19 contagion within our prison facilities and that, as a result, ADCRR must take prudent steps, now, to reduce the prison population in order to provide needed space for quarantining inmates.

This is now being done across the United States. For instance, U.S. Attorney General William Barr has asked directed the federal Bureau of Prisons to consider the early release of at-risk inmates to home confinement. The Illinois Department of Corrections has released pregnant women and mothers of small children. North Dakota, Iowa, Rhode Island and Colorado have either granted early release to inmates or are in the process of planning for the release of inmates in direct response to the risk posed by the pandemic in their prison systems. Several major cities, from New York to Los Angeles, have released incarcerated individuals from their jails in an effort to protect the general jail population from a COVID-19 outbreak. In Pima County, officials there are working on a plan to release non-violent offenders. Given these extraordinary times, these are prudent and necessary actions.

Arizona should lead on this issue by crafting its own plan to reduce the number of prisoners currently incarcerated in its facilities.

Accordingly, we strongly recommend that ADCRR take the following precautionary measures – measures that balance the need for public safety with the risk of widespread contagion within a prison and the consequent need to quarantine inmates from each other.

1. Agreements with county governments to reduce, if not halt, the intake of new inmates to the state prison system during the COVID-19 crisis - an action that has already been taken in other states.
2. The furlough of the following inmates:
 - a. inmates over the age of 60;
 - b. inmates with a documented health conditions that render them at higher risk of death should they become infected with the COVID-19 virus
 - c. inmates currently incarcerated for non-violent felonies.

3. A plan for authorizing the Compassionate or Medically Necessary release of at risk inmates who are 60 or older and have underlying health conditions.

Finally, we are very concerned with the lack of information being provided by the Department with respect to its actions in response to the COVID-19 crisis. Although we understand the Department is under tremendous strain as it works to safeguard the health of the staff and inmates in its care, lack of full transparency risks erosion of the public's trust in the integrity of its actions. We ask that the Department provide daily updates, to the public, on the number of COVID-19 tests and results as well as its progress in implementing COVID-related safety and health measures. We also ask that an entity outside ADCRR, such as the Arizona Department of Health, confirm the information in these reports in advance. These daily updates should answer the following questions:

- 1) Are there any confirmed cases of COVID-19 in any of ADCRR's facilities? If so, how many? Which facilities?
- 2) Are there any suspected cases of COVID-19 in any of ADCRR's facilities? If so, how many? Which facilities?
- 3) Is anyone in an ADCRR facility being quarantined? If so, how many? Which facilities? How/under what conditions?

Thank you in advance for a reply to the questions posed in this letter and for your consideration of the recommendations outlined above. We understand that these are extraordinary times and that your priority is the safety and security of Corrections' staff, inmates and the general public. We look forward to your reply at your earliest convenience.

We thank you in advance.

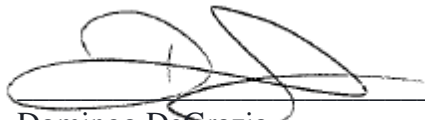

Sincerely,

Kirsten Engel

To: Joseph Profiri <jprofiri@azadc.gov>

Hi, Joe.

Please see attached. This is still raw and not published but you can have it for your use. Prison and jail data is currently aggregated but that will sort out as more data comes in.

May I ask for your help in getting ADoC data in here? It should be by facility. If you have conversations with prison officials from other states, please share the survey. We need all the data we can get at this point.

Starting next week we will begin to share weekly status reports on our web page.

I hope this serves as an glimpse example of our capabilities and commitment to the field. It is exceedingly difficult to get data out of corrections programs nationally.

The crisis has brought us together and that is great.

COVID-19 IN CORRECTIONAL FACILITIES

REPORT DATE	DATE RANGE	DAYS SINCE LAST REPORT
3/27/2020	Updated as of 3/26/2020	NA

HIGHLIGHTS

- Facilities surveyed to date include **295 jails and prisons** from **42 states**.
- Among facilities surveyed to date, there have been **66 reported cases** and **5 reported deaths** due to COVID-19.
- Among facilities surveyed to date, 45% are screening current inmates, 93% are screening new intakes, and 78% are screening staff.
- Among facilities surveyed to date, 97% have specific protocols and procedures for managing COVID-19 and 63% have access to lab testing for COVID-19.

Attachments: [Families First Summary for Agency Heads 03-26-2020.pdf](#)

Dear Agency Director,

The Families First Coronavirus Response Act will go into effect next week on April 1, 2020. This new law includes two separate but interrelated sections that address employee leave related to COVID-19: Emergency Paid Sick Leave (EPSL) and Emergency Family Medical Leave (EFMLA).

[This guidance from ADOA](#) includes a summary of both of these paid leave types and their requirements. We will continue to share guidance with you as implementation details are finalized.

State HR is a resource to you and your teams on implementation.

The document is also attached as a PDF.

Thank you,
Emily Rajakovich

FROM: Andy Tobin, Director, Arizona Department of Administration

DATE: March 26, 2020

RE: Summary of Employee Leave Time under the Families First Coronavirus Response Act

This is a summary of the paid leave provisions in the Families First Coronavirus Response Act (“Act”). This Act is effective April 1, 2020 through December 31, 2020. The law applies to the State of Arizona as an employer.

The Act includes two separate but interrelated sections that address employee leave related to COVID-19: Emergency Paid Sick Leave (EPSL) and Emergency Family Medical Leave (EFMLA). EPSL provides up to two additional weeks of paid sick leave for an employee’s own sickness or quarantine related to COVID-19, or the care of someone subject to quarantine, or the care of a son or daughter whose school is closed or child care provider is unavailable due to COVID-19. The EFMLA provides an additional basis for employees to take FMLA-protected leave to care for a son or daughter whose school or child care provider has closed due to COVID-19.

The Act allows employers to **exempt certain health care providers and “emergency responders” from both leave types. Additional information on exempting health care providers and emergency responders is forthcoming and may change depending on future guidance issued by the U.S. Department of Labor.

New pay codes will be created for employees to track their time under these new leave types. Employees must apply and be approved by the agency to utilize these leave types. Forms will be provided to HR administrators to review employee leave requests and determine eligibility.

EMERGENCY PAID SICK LEAVE (EPSL) ACT

This provides up to 80 hours of paid sick leave if any employee is unable to work or **telework**, regardless of date of hire or hours worked, for the following COVID-19 related reasons:

- (1) The employee is subject to a Federal, State, or local quarantine or isolation order related to COVID-19.
- (2) The employee has been advised by a health care provider to self-quarantine due to concerns related to COVID-19.
- (3) The employee is experiencing symptoms of COVID-19 and seeking a medical diagnosis.
- (4) The employee is caring for an individual who is subject to an order as described in *paragraph (1)* or has been advised as described in *paragraph (2)*.
- (5) The employee is caring for a son or daughter because the school or place of care of the son or daughter has been closed, or the child care provider is unavailable, due to COVID-19 precautions.
- (6) The employee is experiencing any other substantially similar condition specified by the Secretary of Health and Human Services in consultation with the Secretary of the Treasury and the Secretary of Labor.

Full-time employees receive 80 hours and part-time employees receive a prorated amount based on average hours worked. Pay during the emergency leave will be calculated based on an employee's regular rate but is limited to \$511/day and \$5,110 total. Where the Emergency Paid Sick Leave is for employees to be caregivers (per numbers 4 and 5 above), it is based on 2/3 of the regular rate and limited to \$200/day and \$2,000 total. Employees should use this Emergency Paid Sick Leave before any other paid leave for qualifying situations. Employees paid at the 2/3 rate may supplement with their own paid leave or request paid administrative leave.

EMERGENCY FAMILY AND MEDICAL LEAVE (EFMLA) EXPANSION ACT

The EFMLA amends the current FMLA to allow leave in the event that an employee is unable to work, **or telework**, due to a need to care for a son or daughter under 18 years of age when the child's school or place of care has been closed, or the child care provider is unavailable due to a public health emergency related to coronavirus:

- Any employee with at least 30 days of employment is eligible, regardless of the number of hours worked.
- The first 10 work days are unpaid. The employee may use up to 80 hours of Emergency Paid Sick Leave during this time. An employee also may choose (but does not have to) use any accrued annual leave, sick leave or other paid leave during this time.
- Leave after the first 10 work days (up to 12 weeks total) would be paid at no less than $\frac{2}{3}$ of the employee's regular rate of pay, capped at \$200/day and \$10,000 in total. Payroll will do these calculations.
- Employees may supplement this time with their own leave balances to bring them to 100% pay. If the employee has no paid leave balances, emergency administrative leave with pay may be approved.
- A calculation would be used to identify the amount of leave for those who work varied hours or less than 40 hours/week. Payroll can provide more information.

All other provisions of the FMLA remain intact (e.g., if an employee has used 6 weeks of FMLA leave during the past 12 months, he/she is eligible for just 6 weeks, leave may be taken intermittently, etc.).

Note that this new basis for FMLA leave is the same as reason number 5 in the EPSL discussion, above, for which an employee also can take Emergency Paid Sick Leave. An employee may take both paid EPSL sick leave and FMLA to care for a son or daughter whose school or place of child care is closed, or child care provider is unavailable, due to COVID-19 related reasons.

Note that the guidance related to this law has been ever-changing since it was very recently passed. Therefore, further guidance, including changes in the use of certain kinds of leave, may be made at any time. CC: Sue Adams <sadams@azleg.gov>

Thank you for your wiliness to get these questions answered for me. In addition to the initial question please send back information As soon as possible. It is imperative that I get response back no later than today to following questions as well as well.

Thanks

1. Should inmates in the care of ADC exhibit symptoms of Coronavirus, who are they directed to notify?
2. Does ADC currently have COVID-19 testing kits? And when does ADCRR expect to obtain more COVID-19 testing kits?
3. How can ADC inmates obtain soap and cleaning supplies?
4. If any ADC inmate refuses to report for work due to symptoms or concerns related to Coronavirus, will they face disciplinary action or citations?

5. The Access Correction website is OUT of bar soap & body wash for secure packs for Arizona. Went on the website today. No station for FREE bacterial soap or hand sanitizer? Checking employees' temperatures & people coming in & out of the yards? Make a Quarantine Area? Can we confirm that Az Prisons have ZERO cases of Covid-19?? Will they be accountable for free medical slips for our loved ones?
6. What precautions is ADC taking & are they providing antibacterial products for the inmates to clean their cells and common areas, phones, etc.?
7. Lewis is on CONSTANT lockdown now due to lack of adequate staff; what happens to the inmates when staff is even more limited due to Covid19?
8. How are inmates being protected from potentially infected DOC staff?
9. What additional measures is Centurion taking to protect those under chronic care?

Subject: AZDOC questions

Sue,

Please reach out to AZDOC and I need these questions asked ASAP. At least by the end the of the day. Thanks

- What kind of precautionary measures will ADOC be taking because of the corona virus.
- Will they provide a station for employees or the general public coming in and out of the prison yards?
- How much of the 11.2 million will ADOC be receiving from CDC?
- Will or can they provide Bacterial soap, face- mask, hand sanitizer, proper cleaning supplies to inmates.
- Visitation is suspended for 30 days. What ways is AZDOC going to allow that communication to continue?
- Can they provide tablets or FaceTime, video visits with yards that don't have tablets?? Especially for minors Unit in Tucson.

Just out from the Ohio State Dental Board:

OHIO STATE DENTAL BOARD

COVID-19 ADVISORY 2020-01

March 16, 2020

(For optimal viewing, please use a desk top screen)

The State Dental Board has been closely monitoring the spread of the coronavirus. As Dentists, Hygienists & staff we are a part of the healthcare community and have a responsibility in the prevention and mitigation efforts of the administration during this outbreak. Dentists are also in of the highest risk categories for both transmission and contraction of the Coronavirus as a majority of the procedures we perform creates significant aerosols in the operatories. As a part of the healthcare community and the community at large, we have to protect the safety of our patients and staff. The OSDB is closely monitoring the situation and decided to have these recommendations to the practicing dentists. This is a very difficult decision, but it comes at a critical time and it is our responsibility to take leadership in this situation and have protocols in place to reduce the spread and impact of Coronavirus amongst the communities we practice and live. The plan & recommendations will change as the situation demands and evolves.

These recommendations to the dental profession are intended to reduce the risk of patients' exposure to COVID-19 and to preserve PPE and supplies, while still allowing access to necessary and emergency dental services that will maintain the oral health of the citizens of Ohio and keep them out of the hospital ER.

Governor Mike DeWine contacted the Board and the Ohio Dental Association and asked for our help in addressing the spread of COVID-19. As integral parts of the medical community, we are being called to review our inventories and appointment books, and make the adjustments to provide mutual aid and relief to our partners in the medical and surgical communities.

Governor DeWine has requested the following:

A review of inventories and identification of any surplus personal protective equipment and supplies. Once identified, contact your local Emergency Management Agency about sharing these goods with local hospitals and medical clinics for COVID-19 patients and clinicians. EMA contact list can be found

here: https://webeoctraining.dps.ohio.gov/ohiocountyEMADirectorList/countyemalist_web.aspx

Please reschedule elective procedures including but not limited to:

- Any cosmetic or aesthetic procedures, such as veneers, teeth bleaching, or cosmetic bonding
- All routine hygiene appointments
- Any orthodontic procedures not including those that relieve pain and infection or restore oral function or are trauma-related
- Initiation of any crowns, bridges, or dentures that do not address or prevent pain or restore normal oral functioning
- Any periodontal plastic surgery
- Extraction of asymptomatic non-carious teeth
- Recall visits for periodontally healthy patients
- Delay all appointments for high risk patients, including ASA 2 and 3 patients, unless it is an emergency

By sharing supplies we are directly supporting our fellow clinicians as they undertake the greatest viral threat in modern history. By rescheduling elective procedures we are doing our part to prevent community spread.

We urge you to undertake the two above strategies and consider the following additional measures:

- o Use cell phone triage - use the cell phone to take a picture of the area and text to the dentist
- o Have a detailed questionnaire/conversation before scheduling appointments and prior to any procedure about flu like symptoms, travel abroad for self and family/friends/co-workers etc. to permit a thorough evaluation of the patient
- o Consider taking the temperature of the patient at the outset
- o Reconsider scheduling high risk patients unless they need emergency treatment
- o Careful evaluation of the need for scheduling of ASA 2 & 3 patients
- o Use of 1% hydrogen peroxide rinse prior to examination of the oral cavity by the patient to reduce microbial load
- o Use of rubber dam isolation & high volume suction to limit aerosol in treatment procedures
- o Proper disinfection protocol between patients with a possible repeat of the protocol for a 2nd time.

To prevent over-crowding of waiting areas or the possible spread of infection

§ Consider having patients wait in their cars instead of the waiting areas to prevent inadvertent spread of the virus (call patient when surgical area is ready for treatment)

§ Consider staggering appointment times to reduce waiting room exposure

§ Consider rescheduling elective procedures on ASA 2 & 3 patients (<https://www.asahq.org/standards-and-guidelines/asa-physical-status-classification-system>)

§ Have front desk staff take measures to prevent exposure

§ Have sterilization staff, lab technicians and auxiliary staff take adequate measures to prevent exposure

§ Limit access to waiting room use to only patients. Accompanying individuals have to wait in their respective transportation.

§ Remove all magazines/toys etc from waiting area to prevent contamination.

Thank you for your understanding and cooperation as we manage through these very difficult and unprecedented times.

Subject: [EXTERNAL] Coronavirus

Dear Colleagues,

I see where the California Dental Association issued a statement:

"The California Dental Association strongly recommends that dentists practicing in California voluntarily suspend nonessential or non-urgent dental care for the next 14 days. As always, it is expected that dentists will continue to be available as needed for emergency care and services."

I don't believe that Pennsylvania has yet issued a similar statement. I am wondering if any other states or Correctional Departments have taken any similar actions.

While I am not yet aware of any PPE shortages, if this situation continues, anything could happen.

The ADA covers this in its FAQs to member dentists. I've attached it for your reference.

Best Regards,

Dino R. Angelici, DMD

To all :

Just want to start a discussion with all my colleague about Coronavirus affecting your facility and the dental area. Is there any directive discussion or any action started in your State correctional facilities related with Coronavirus that you can share?

In Wisconsin State, in general we only has 2 Coronavirus positive patients that is taking care in UW hospital. DOC is starting to planning for action if the virus affecting our facilities. Surely we are facing a short supplies of mask and Cavicide. What about your State?

Thank you

Dr. Lee

All,

Please see the request below. This is not a media outlet, however, a response with appropriate information to this organization would be recommended. Please review and edit as you see fit the possible response below:

The Department will ensure Centurion, county health department and ADHS communicate on any suspected cases to ensure they are treated and quarantined properly. Soap and water is readily available to staff and inmates in all restrooms located in programming, work and kitchen areas. Cleaning supplies should also be readily available for inmates to wipe down their living space.

Additional supplies are also available through the commissary, based on an individual's preference.

During this unprecedented circumstance, employees experiencing Covid-19 symptoms such as shortness of breath, fever and cough are encouraged to consult their physician. If and when they are cleared by the physician to return to work, we would welcome them back. Those that test positive would need to fully recover before returning to work.

Thanks,

Bill Lamoreaux
Media Relations Administrator
Arizona Department of Corrections

Subject: COVID-19 Questions
To: BLAMOREA@azcorrections.gov <BLAMOREA@azcorrections.gov>

Mr. Lamoreaux,

I submitted the attached request/questions online and did not receive answers. The questions I have are not addressed on the ADCRR website. Could you please reply to these questions?

1. **Should inmates in the care of ADCRR exhibit symptoms of Coronavirus, who are they directed to notify?**
2. **Does ADCRR currently have COVID-19 testing kits? And when does ADCRR expect to obtain more COVID-19 testing kits?**
3. **How can ADCRR inmates obtain soap and cleaning supplies?**
4. **If any ADCRR inmate refuses to report for work due to symptoms or concerns related to Coronavirus, will they face disciplinary action or citations?**

Thank you,

Joe Watson

Federal Bureau of Prisons

Washington, D.C. 20534

March 13, 2020

MEMORANDUM FOR ALL CHIEF EXECUTIVE OFFICERS

FROM: 
ANDRE MATEVOUSIAN, ACTING ASSISTANT DIRECTOR
CORRECTIONAL PROGRAMS DIVISION

L. CRISTINA GRIFFITH, ASSISTANT DIRECTOR
HUMAN RESOURCE MANAGEMENT DIVISION

SUBJECT: CORONAVIRUS (COVID-19) PHASE TWO ACTION PLAN

The BOP has been planning for coronavirus since January 2020. Phase One activities included guidance from the Health Services Division regarding description of the disease, where the infection was occurring and best practices to mitigate transmission. An agency task force was working in conjunction with subject matter experts in the Centers for Disease Control (CDC) and reviewing guidance from the World Health Organization. The Bureau of Prisons (BOP), after coordination with the Department of Justice and the White House, is implementing Phase Two of our COVID-19 response.

Effective immediately, the following measures are being deployed by the BOP for institution operations in order to mitigate the spread of COVID-19, acknowledging the country will have more confirmed cases in the coming weeks. Due to the high population density of prisons, the BOP is vulnerable to higher rates of infection and transmission within prisons and communities where staff live. These measures are also being put in place to ensure staff remain healthy and available for duty. (Specific guidance for non-institution BOP offices (e.g. Central and Regional Offices and BOP training centers) will be issued for those locations.)

HIRING: Staff hiring initiatives will continue.

LOGISTICS: All institutions should assess their inventories of food, medicines, cleaning supplies, and sanitation supplies. Institutions and regions should also update their pandemic plans and institutions should establish quarantine areas within their facilities, should they be needed.

SOCIAL VISITS: Social visits will be suspended for 30 days, at which time the suspension will be reevaluated.

To ensure that inmates maintain community ties, inmate telephone system minutes will be increased to 500 minutes per calendar month Bureau-wide by the Trust Fund Branch.

INMATE MOVEMENT: All inmate internal movement will be suspended for 30 days, at which time the suspension will be reevaluated. Exceptions to this suspension are transfers related to forensic studies, writs, Interstate Agreements on Detainers (IAD), medical or mental health reasons, and RRC placements. Admission of newly-committed inmates will continue. Other case-by-case exceptions for judicial proceedings may be brought to the attention of the appropriate Regional Counsel for consideration.

All intra-agency movements are suspended. Local medical trips should still continue, as necessary.

LEGAL VISITS: Legal visits will be suspended for 30 days, at which time the suspension will be reevaluated. Case-by-case approval at the local level and confidential legal calls will be allowed in order to ensure access to counsel.

Access to legal counsel remains a paramount requirement and should be accommodated to the maximum extent practicable. Although legal visits are generally suspended for 30-days, case-by-case accommodation should be made at the local level. Attorneys should be encouraged to make requests through the main email address for each facility located on bop.gov, telephonically or by contacting the appropriate Consolidated Legal Center (CLC). The CEO must designate staff at the institution to monitor the email box on an ongoing, regular basis.

If approved for an in-person visit, the attorney will need to undergo screening using the same procedures as staff. The overall authority to approve legal visits lies with the Warden.

OFFICIAL STAFF TRAVEL: Official staff travel, with the exception of relocation travel, will be suspended for 30 days, at which time the suspension will be reevaluated. Any exceptions must be approved by the BOP Deputy Director.

TRAINING: All staff training is suspended for 30 days, (to include conferences and meetings), with the exception of ICT1 and ICT2, at which time the suspension will be reevaluated. Any exceptions must be approved by the Deputy Director.

Larger training facilities should be used for ICT1, where practicable, to accomplish social distancing.

CONTRACTORS: Contractors performing essential services or necessary maintenance on essential systems will continue, and will be screened using the same procedures as for staff prior to entry.

Essential services include, for example, medical services, mental health services, religious services and critical infrastructure repairs.

VOLUNTEERS: Volunteer visits will be suspended for 30 days, unless approved by the Deputy Director of the BOP. The suspension will be reevaluated in 30 days. Alternate means of communication will be considered for inmates who request to speak with a religious advisor.

Alternate means of communication should include telephone calls, video conferences and other appropriate forms of communication. If approved for an in-person visit, the volunteer will need to undergo screening using the same procedures as staff

SCREENING OF STAFF: Enhanced health screening of staff will be implemented in areas with “sustained community transmission” and at medical referral centers. “Sustained community transmission” is determined by the CDC and will be indicated on the map on this resource page: <https://www.cdc.gov/coronavirus/2019-ncov/cases-in-us.html> where state community transmission indicates “Yes”. Such screening includes self-reporting and temperature checks for the next 30 days, at which time the process will be reevaluated.

An updated screening tool will be distributed to institutions in “sustained community transmission” areas and to medical referral centers. CEOs in those areas should work with their Health Services Administrator to designate a qualified health care professional to be available on all shifts to administer the temperature checks and record it on the screening form. Employees performing the screening must have appropriate PPE, to include the N-95 respirator, face shield/goggles, gloves and a gown.

Given the public health emergency, staff who refuse the enhanced health screening will be denied entry and may be subject to disciplinary action.

If staff register an oral temperature of greater than or equal to 100.4 degrees (Fahrenheit), they will be denied entry to the facility and put on sick leave. If an employee comes to work with any symptoms of illness, please refer to the [OPM guidance issued on Saturday, March 7th](#) (Section F).

SCREENING OF INMATES: Field sites should continue to screen inmates for COVID-19 following previously indicated practices:

- All newly-arriving BOP inmates are screened for COVID-19 exposure risk factors and symptoms.
- Asymptomatic inmates with exposure risk factors are to be quarantined.
- Symptomatic inmates with exposure risk factors are to be isolated and tested for COVID-19 per local health authority protocols
- **To-date, no inmates have tested positive for COVID-19 in the BOP.**

TOURS: Tours will be suspended for 30 days, at which time the suspension will be reevaluated. Any exceptions must be approved by the Deputy Director.

Requests should be routed through the appropriate Regional Director to the applicable Assistant Director (for example, judicial requests through OGC, legislative requests through IPPA, etc.). If approved, participants will need to undergo screening using the same procedures as staff

MODIFIED OPERATIONS: For the next 30 days, Wardens should implement modified operations to maximize social distancing in our facilities, as much as practicable. The suspension will be reevaluated in 30 days. In recognition of First Step Act requirements, programs should continue to be operated when feasible. CEOs and UNICOR staff should endeavor to maintain operations of UNICOR factories as long as practicable, with consideration of this guidance.

All Program Reviews and ACA/PREA audits will be rescheduled once normal operations are resumed.

CEOs should consider staggered meal times and staggered recreation times, for example, in order to limit congregate gatherings. All community service projects should also be suspended for 30 days.

PRIVATE CONTRACTORS: This COVID-19 guidance will be shared with private prisons and Residential Reentry Centers (RRCs) for dissemination to staff and inmates in these facilities, so that similar protocols can be implemented.

Questions: If staff have questions about COVID-19, they may reach out to the agency through COVID19Questions@bop.gov.

We appreciate your assistance and cooperation in this important matter.

ATTACHMENT A – SAMPLE WARDEN MEMO TO INMATES

MEMORANDUM FROM WARDEN

SUBJECT: BOP CORONAVIRUS (COVID-19) PROTECTIVE MEASURES

As you may be aware in talking to persons in the community, the United States is seeing an increase in the number of confirmed cases of infected persons. Effective immediately, the following actions are being taken by the Bureau of Prisons (BOP) in order to prevent or reduce the spread of COVID-19.

SCREENING OF INMATES: The BOP is screening inmates for COVID-19 using established practices:

- All newly-arriving BOP inmates are screened for COVID-19 exposure risk factors and symptoms.
- Asymptomatic inmates with exposure risk factors are being quarantined.
- Symptomatic inmates with exposure risk factors are to be isolated and tested for COVID-19 per local health authority protocols
- **To-date, no inmates have tested positive for COVID-19 in the BOP.**

SOCIAL VISITS: Social visits are suspended for 30 days, at which time the suspension will be reevaluated.

To ensure that inmates maintain community ties, inmate telephone system minutes will be increased nationally to 500 minutes per calendar month.

INMATE MOVEMENT: Inmate movement between facilities is suspended for 30 days, at which time the suspension will be reevaluated. BOP will make exceptions for special cases such as writs for prosecution on pending charges, Interstate Agreements on Detainers (IAD), medical or mental health reasons, and RRC placements. The BOP will also continue to process and admit new inmates. Other case-by-case exceptions for judicial proceedings may also be made.

Local medical trips will be made, as necessary.

LEGAL VISITS: Legal visits will be suspended for 30 days, at which time the suspension will be reevaluated. Case-by-case approval at the local level and confidential legal calls will be allowed in order to ensure access to counsel.

Access to legal counsel will be accommodated to the maximum extent practicable. Although legal visits are generally suspended for 30-days, you may make a request to your Unit Team, who will forward it to the institution's Legal Department for review and final approval by the Warden. Attorneys will be screened prior to being admitted to the facility.

VOLUNTEERS: Volunteer visits will be suspended for 30 days, with limited exceptions. The suspension will be reevaluated in 30 days. Inmates who wish to speak with a religious advisor should make a request through their Unit Team.

MODIFIED OPERATIONS: For the next 30 days, the facility will operate on a modified basis to limit inmate group contact, as much as possible. This action is necessary to limit the transmission of the disease if anyone becomes infected. The suspension will be reevaluated in 30 days.

We appreciate your assistance and cooperation in this important matter.

To: David Shinn <dshinn@azadc.gov>

Good afternoon!

Attached is the guidance document my team drafted in regard to the transport of individuals potentially exposed to 2019 Novel Coronavirus. If your team has additional questions or needs more information, please let them know they can direct any questions to HEOC@azdhs.gov. This email is monitored by multiple individuals- so they should be able to answer relatively quickly.

Please let me know if you have any other questions or need additional information.

Thanks,
Cara

Guidance for Infection Control During Transport of Travelers Under Quarantine

Created 2/5/2020

A Federal quarantine has been issued, ordering any US citizen or permanent resident who has been in China's Hubei Province in the last 14 days be subject to up to 14 days of mandatory quarantine upon return to the United States. The following recommendations have been created to ensure policies and procedures are in place to minimize the Arizona Department of Corrections (ADOC) employees' exposures to 2019-nCoV during transport of repatriates from an airport to quarantine housing. Measures should be implemented before and upon traveler arrival, throughout the duration of the traveler's presence, and during decontamination procedures.

Travelers at Risk

- Before transport, conduct a medical evaluation to identify any travelers with symptoms.
- Place surgical masks on symptomatic travelers and separate them from asymptomatic travelers.
- Assess whether symptomatic travelers require hospitalization or additional medical follow-up prior to boarding transport.
- Transport symptomatic travelers and asymptomatic travelers in separate vehicles.

Personal Protective Equipment (PPE) Guidance for ADOC Employees Assisting with Transport

- [Don proper* PPE](#) before close contact or being in an enclosed space with the travelers.
- Perform hand hygiene before and after all contact with travelers, contact with potentially infectious material, and before putting on and upon removal of PPE, including gloves.

Douglas A. Ducey | Governor Cara M. Christ, MD, MS | Director

ARIZONA DEPARTMENT OF HEALTH SERVICES

- Adhere to standard, contact, and airborne precautions, including the use of eye protection.
- [Doff PPE](#) once transport is complete and/or no longer exposed to travelers and/or contaminated surfaces and equipment. Properly dispose of or disinfect and maintain PPE.

Decontamination Guidance

- [Don proper* PPE](#) before cleaning, disinfecting, and decontaminating any surfaces and equipment that are likely to become contaminated during each transport.
- Clean and disinfect equipment according to agency policies and manufacturer's instructions.
 - Disinfection products with [EPA-approved](#) emerging viral pathogens claims are recommended for use against 2019-nCoV. If there are no available EPA-registered products that have an approved emerging viral pathogen claim for 2019-nCoV, products with label claims against human coronaviruses should be used according to label instructions.
- [Doff PPE](#) once disinfection procedures are complete and properly dispose of or disinfect and maintain PPE.

If there are any questions or concerns in relation to this information, please e-mail HEOC@azdhs.gov.

*Proper PPE includes gloves, gowns, respiratory protection (at least as protective as a fit-tested NIOSH-certified disposable N95 filtering facepiece respirator), and eye protection (e.g., goggles, a disposable face shield that covers the front and sides of the face).

Douglas A. Ducey | Governor Cara M. Christ, MD, MS | Director
